In response to the comments several changes were made. Recovery of overpayments remains optional with the States. States also retain the option of recouping from available resources, from the assistance grant, or from both sources. An added provision limits to one year prior to the date of discovery, the recoupment of overpayments not resulting from the willful withholding of information. A provision has also been added to require the prompt correction of underpayments. Such payments are limited to one year prior to the date of discovery of the underpayment.

A number of other revisions have been made in the regulation in response to comments, and for technical, editorial and conforming purposes.

Chapter II, Title 45 of the Code of Federal Regulations is amended as set forth below.

PART 205 GENERAL ADMINISTRATION—PUBLIC ASSISTANCE PROGRAMS

1. Section 205.10 is revised to read as follows:

§ 205.10 Hearings.

(a) *State plan requirements.* A State plan under title I, IV–A, X, XIV, XVI or XIX of the Social Security Act shall provide for a system of hearings under which:

(1) The single State agency responsible for the program shall be responsible for fulfillment of hearing provisions which shall provide for:

(i) A hearing before the State agency, or

(ii) An evidentiary hearing at the local level with a right of appeal to a State agency hearing. Where a State agency adopts a system of evidentiary hearings with an appeal to a State agency hearing, it may, in some political subdivisions, permit local evidentiary hearings, and in others, provide for a single hearing before the State agency. Under this requirement hearings shall meet the due process standards set forth in the U.S. Supreme Court decision in Goldberg v. Kelly, 397 U.S. 254 (1970) and the standards set forth in this section.

(2) Hearing procedures shall be issued and publicized by the State agency.

(3) Every applicant or recipient shall be informed in writing at the time of application and at the time of any action affecting his claim:

(i) Of his right to a hearing, as provided in paragraph (a)(5) of this section;

(ii) Of the method by which he may obtain a hearing;

(iii) That he may be represented by an authorized representative, such as legal counsel, relative, friend, or other spokesman, or he may represent himself.

(4) In cases of intended action to discontinue, terminate, suspend or reduce assistance:

(i) The State or local agency shall give timely and adequate notice, except as provided for in paragraphs (a)(4)(ii) or (iii) of this section. Under this requirement:

(A) "Timely" means that the notice is mailed at least 10 days before the date of action, that is, the date upon which the recipient would normally receive his assistance check or, in the case of a medicaid recipient, 10 days before the intended change would be effective.

(B) "Adequate" means a written notice that includes a statement of what action the agency intends to take, the reasons for the intended agency action, the specific regulations supporting such action, explanation of the individual's right to request an evidentiary hearing (if provided) and a State agency hearing, and the circumstances under which assistance is continued if a hearing is requested;

(ii) The agency may dispense with timely notice but shall send adequate notice not later than the date of action when:

(A) The agency has factual information confirming the death of a recipient or of the AFDC payee when there is no relative available to serve as new payee;

(B) The agency receives a clear written statement signed by a recipient that he no longer wishes assistance, or that gives information which requires termination or reduction of assistance, and the recipient has indicated, in writing, that he understands that this must be the consequence of supplying such information;

(C) The recipient has been admitted or committed to an institution, and further payments to that individual do not qualify for Federal financial participation under the State plan;

(D) The recipient has been placed in skilled nursing care, intermediate care or long-term hospitalization;

(E) The claimant's whereabouts are unknown and agency mail directed to him has been returned by the post office indicating no known forwarding address. The claimant's check must, however, be made available to him if his whereabouts become known during the payment period covered by a returned check;

(F) A recipient has been accepted for assistance in a new jurisdiction and that fact has been established by the jurisdiction previously providing assistance;

(G) An AFDC child is removed from the home as a result of a judicial determination, or voluntarily placed in foster care by his legal guardian;

(H) A change in level of medical care is prescribed by the recipient patient's physician;

(I) A special allowance granted for a specific period is terminated and the recipient has been informed in writing at the time of initiation that the allowance shall automatically terminate at the end of the specified period;

(iii) When changes in either State or Federal law require automatic grant adjustments for classes of recipients, timely notice of such grant adjustments shall be given which shall be "adequate" if it includes a statement of the intended action, the reasons for such intended action, a statement of the specific change in law requiring such action and a statement of the circumstances under which a hearing may be obtained and assistance continued.

(5) An opportunity for a hearing shall be granted to any applicant who requests a hearing because his claim for financial or medical assistance is denied, or is not acted upon with reasonable promptness, and to any recipient who is aggrieved by any agency action resulting in suspension, reduction, discontinuance or termination of assistance. A hearing need not be granted when either State or Federal law require automatic grant adjustments for classes of recipients unless the reason for an individual appeal is incorrect grant computation.

(i) A request for a hearing is defined as a clear expression by the claimant (or his authorized representative acting for him), to the effect that he wants the opportunity to present his case to higher authority. The State may require that such request be in written form in order to be effective;

(ii) The freedom to make such a request shall not be limited or interfered with in any way. The agency may assist the claimant to submit and process his request;

(iii) The claimant shall be provided reasonable time, not to exceed 90 days, in which to appeal an agency action;

(iv) Agencies may respond to a series of individual requests for hearing by

V 38-157 AUG 15 73 XUM

conducting a single group hearing. Agencies may consolidate only cases in which the sole issue involved is one of State of Federal law or policy or changes in State or Federal law. In all group hearings, the policies governing hearings must be followed. Thus, each individual claimant shall be permitted to present his own case or be represented by his authorized representative;

(v) The agency may deny or dismiss a request for a hearing where it has been withdrawn by the claimant in writing, where the sole issue is one of State or Federal law requiring automatic grant adjustments for classes of recipients or where it is abandoned. Abandonment may be deemed to have occurred if the claimant, without good cause therefor, fails to appear by himself or by authorized representative at the hearing scheduled for such claimant.

(6) If the recipient requests a hearing within the timely notice period:

(i) Assistance shall not be suspended, reduced, discontinued or terminated, (but is subject to recovery by the agency if its action is sustained), until a decision is rendered after a hearing, unless:

(A) A determination is made at the hearing that the sole issue is one of State or Federal law or policy, or change in State or Federal law and not one of incorrect grant computation, or

(B) a change affecting the recipient's grant occurs while the hearing decision is pending and the recipient fails to request a hearing after notice of the change;

(ii) The agency shall promptly inform the claimant in writing if assistance is to be discontinued pending the hearing decision; and

(iii) In any case where the decision of an evidentiary hearing is adverse to the claimant, he shall be informed of and afforded the right to make a written request, within 15 days of the mailing of the notification of such adverse decision, for a State agency hearing and of his right to request a de novo hearing. Unless a de novo hearing is specifically requested by the appellant, the State agency hearing may consist of a review by the State agency hearing officer of the record of the evidentiary hearing to determine whether the decision of the evidentiary hearing officer was supported by substantial evidence in the record. Assistance shall not be continued after an adverse decision to the claimant at the evidentiary hearing.

(7) A State may provide that a hearing request made after the date of action (but during a period not in excess of 10 days following such date) shall result in reinstatement of assistance to be continued until the hearing decision, unless at the hearing it is determined that the sole issue is one of State or Federal law or policy. In any case where action was taken without timely notice, if the recipient requests a hearing within 10 days of the mailing of the notice of the action, and the agency determines that the action resulted from other than the application of State or Federal law or policy or a change in State or Federal law, assistance shall be reinstated and continued until a decision is rendered after the hearing.

(8) The hearing shall be conducted at a reasonable time, date, and place, and adequate preliminary written notice shall be given.

(9) Hearings shall be conducted by an impartial official (officials) or designee of the agency. Under this requirement, the hearing official (officials) or designee shall not have been directly involved in the initial determination of the action in question.

(10) When the hearing involves medical issues such as those concerning a diagnosis, an examining physician's report, or a medical review team's decision, a medical assessment other than that of the person or persons involved in making the original decision shall be obtained at agency expense and made part of the record if the hearing officer considers it necessary.

(11) In respect to title XIX, when the appeal has been taken on the basis of eligibility determination, the agency responsible for the determination of eligibility for medical assistance, if different from the single State agency administering the medical assistance plan, shall participate in the conduct of the hearing.

(12) The hearing shall include consideration of:

(i) An agency action, or failure to act with reasonable promptness, on a claim for financial or medical assistance, which includes undue delay in reaching a decision on eligibility or in making a payment, refusal to consider a request for or undue delay in making an adjustment in payment, and discontinuance, termination or reduction of such assistance;

(ii) Agency decision regarding:

(A) Eligibility for financial or medical assistance in both initial and subsequent determinations,

(B) Amount of financial or medical assistance or change in payments,

(C) The manner or form of payment, including restricted or protective payments, even though no Federal financial participation is claimed.

(13) The claimant, or his representative, shall have adequate opportunity:

(i) To examine the contents of his case file and all documents and records to be used by the agency at the hearing at a reasonable time before the date of the hearing as well as during the hearing;

(ii) At his option, to present his case himself or with the aid of an authorized representative;

(iii) To bring witnesses;

(iv) To establish all pertinent facts and circumstances;

(v) To advance any arguments without undue interference;

(vi) To question or refute any testimony or evidence, including opportunity to confront and cross-examine adverse witnesses.

(14) Recommendations or decisions of the hearing officer or panel shall be based exclusively on evidence and other material introduced at the hearing. The transcript or recording of testimony and exhibits, or an official report containing the substance of what transpired at the hearing, together with all papers and requests filed in the proceeding, and the recommendation or decision of the hearing officer or panel shall constitute the exclusive record and shall be available to the claimant at a place accessible to him or his representative at a reasonable time.

(15) Decisions by the hearing authority shall:

(i) In the event of an evidentiary hearing, consist of a memorandum decision summarizing the facts and identifying the regulations supporting the decision;

(ii) In the event of a State agency de novo hearing, specify the reasons for the decision and identify the supporting evidence and regulations.

Under this requirement no persons who participated in the local decision being appealed shall participate in a final administrative decision on such a case.

(16) Prompt, definitive, and final administrative action shall be taken within 90 days from the date of the request for a hearing.

(17) The claimant shall be notified of the decision in writing and, to the extent it is available to him, of his right to appeal to State agency hearing or judicial review.

(18) When the hearing decision is favorable to the claimant, or when the agency decides in favor of the claimant prior to the hearing, the agency shall promptly make corrective payments retroactively to the date the incorrect action was taken.

(19) All State agency hearing decisions shall be accessible to the public (subject to provisions of safeguarding public assistance information).

(b) *Federal financial participation.* Federal financial participation is available for the following items:

(1) Payments of assistance continued pending a hearing decision;

(2) Payments of assistance made to carry out hearing decisions, or to take corrective action after an appeal but prior to hearing, or to extend the benefit of a hearing decision or court order to others in the same situation as those directly affected by the decision or order. Such payments may be retroactive in accordance with applicable Federal policies on corrective payments.

(3) Payments of assistance within the scope of Federally aided public assistance programs made in accordance with a court order.

(4) Administrative costs incurred by the agency for:

(i) Providing transportation for the claimant, his representative and witnesses to and from the place of the hearing;

(ii) Meeting other expenditures incurred by the claimant in connection with the hearing;

(iii) Carrying out the hearing procedures, including expenses of obtaining an additional medical assessment.

§ 205.20 [Revoked]

2. Section 205.20 is revoked.

PART 206—APPLICATION, DETERMINATION OF ELIGIBILITY AND FURNISHING ASSISTANCE, PUBLIC ASSISTANCE PROGRAM

3. Section 206.10 is revised to read as follows:

§ 206.10 Application, determination of eligibility and furnishing of assistance.

(a) *State plan requirements.* A State plan under title I, IV–A, X, XIV XVI, or XIX of the Social Security Act shall provide that:

(1) Each individual wishing to do so shall have the opportunity to apply for assistance under the plan without delay. Under this requirement:

(i) Each individual may apply under whichever of the State plans he chooses;

(ii) The agency shall require a written application, signed under penalty of perjury, on a form prescribed by the State agency, from the applicant himself, or his authorized representative, or, where the applicant is incompetent or incapacitated, someone acting responsibly for him;

(iii) An applicant may be assisted, if he so desires, by an individual(s) of his choice (who need not be a lawyer) in the various aspects of the application process and the redetermination of eligibility and may be accompanied by such individual(s) in contacts with the agency and when so accompanied may also be represented by them; and

(iv) Individuals eligible for financial assistance are eligible for medical assistance without a separate application.

(2) Applicants will be informed about the eligibility requirements and their rights and obligations under the program. Under this requirement individuals are given information in written form, and orally as appropriate, about coverage, conditions of eligibility, scope of the program, and related services available, and the rights and responsibilities of applicants for and recipients of assistance. Specifically developed bulletins or pamphlets explaining the rules regarding eligibility and appeals in simple, understandable terms, are publicized and available in quantity.

(3) A decision shall be made promptly on applications, pursuant to reasonable State-established time standards not in excess of:

(i) 45 days for OAA, AFDC, AB, AABD (for aged and blind), and MA (for aged, blind, and families with children); and

(ii) 60 days for APTD, AABD (for disabled) and MA (for disabled). Under this requirement, the applicant is informed of the agency's time standard in acting on applications, which covers the time from date of application under the State plan to the date that the assistance check, or notification of denial of assistance or change of award, or the eligibility decision with respect to medical assistance, is mailed to the applicant or recipient. The State's time standards apply except in unusual circumstances (e.g., where the agency cannot reach a decision because of failure or delay on the part of the applicant or an examining physician, or because of some administrative or other emergency that could not be controlled by the agency), in which instances the case record shows the cause for the delay. The agency's standards of promptness for acting on applications or redetermining eligibility shall not be used as a waiting period before granting aid, or as a basis for denial of an application or for terminating assistance.

(4) Adequate notice shall be sent to applicants and recipients to indicate that assistance has been authorized (including the amount of financial assistance) or that it has been denied or terminated. Under this requirement, adequate notice means a written notice that contains a statement of the action taken, and the reasons for and specific regulations supporting such action, and an explanation of the individual's right to request a hearing.

(5) Financial assistance and medical care and services included in the plan shall be furnished promptly to eligible individuals without any delay attributable to the agency's administrative process, and shall be continued regularly to all eligible individuals until they are found to be ineligible. Under this requirement there must be arrangements to assist applicants and recipients in obtaining medical care and services in emergency situations on a 24-hour basis, 7 days a week.

(6) Assistance shall begin as specified in the State plan, which:

(i) For financial assistance

(A) Must be no later than:

(*1*) The date of authorization of payment, or

(2) Thirty days in OAA, AFDC, AB, and AABD (as to the aged and blind), and 60 days in APTD and AABD (as to the disabled), from the date of receipt of a signed and completed application form, whichever is earlier: *Provided,* That the individuals then met all the eligibility conditions, and

(B) For purposes of Federal financial participation, may be as early as the first of the month in which an application has been received and the individual meets all the eligibility conditions; and

(ii) For medical assistance must be no later than the date of application for either financial or medical assistance, and may be as early as the third month prior to the month of application if the individual was eligible in that month.[1]

(7) In cases of proposed action to terminate, discontinue, suspend or reduce assistance, the agency shall give timely and adequate notice. Such notice shall comply with the provisions of § 205.10 of this chapter.

(8) Each decision regarding eligibility or ineligibility will be supported by facts in the applicant's or recipient's case record. Under this requirement each application is disposed of by a finding of eligibility or ineligibility unless:

(i) The applicant voluntarily withdraws his application, and there is an entry in the case record that a notice has been sent to confirm the applicant's notification to the agency that he does not desire to pursue his application; or

(ii) There is an entry in the case record that the application has been disposed of because the applicant died or could not be located.

(9) Where an individual has been determined to be eligible, eligibility will be reconsidered or redetermined:

(i) When required on the basis of information the agency has obtained previously about anticipated changes in the individual's situation;

(ii) Promptly, within 30 days, after a report is obtained which indicates changes in the individual's circumstances that may affect the amount of assistance to which he is entitled or may make him ineligible; and

(iii) Periodically, within agency-established time standards, but not less frequently than every 6 months in AFDC, and every 12 months in the other categories, including medical assistance, on eligibility factors subject to change.

(10) Standards and methods for determination of eligibility shall be consistent with the objectives of the programs, and shall respect the rights of individuals under the United States Constitution, the Social Security Act, title VI of the Civil Rights Act of 1964, and all other relevant provisions of Federal and State laws.

(11) With respect to title XIX, policies and procedures shall assure that eligibility for medical assistance shall be determined in a manner consistent with simplicity of administration and the best interests of the applicant or recipient.

(12) The State agency shall establish and maintain methods by which it shall be kept currently informed about local agencies' adherence to the State plan provisions and to the State agency's procedural requirements for determining eligibility, and it shall take corrective action when necessary.

(b) *Definitions.* For purposes of this section:

(1) "Applicant" is a person who has, directly, or through his authorized representative, or where incompetent or incapacitated, through someone acting responsibly for him, made application for public assistance from the agency administering the program, and whose application has not been terminated.

(2) "Application" is the action by which an individual indicates in writing to the agency administering public assistance his desire to receive assistance. The relative with whom a child is living or will live ordinarily makes application for the child for AFDC. An application is distinguished from an inquiry, which is simply a request for information about eligibility requirements for public assistance.

Such inquiry may be followed by an application.

V 38-157 AUG 15 73 XUM

PART 233 COVERAGE AND CONDITIONS OF ELIGIBILITY IN FINANCIAL ASSISTANCE PROGRAMS

4. Section 233.20(a) is amended by deleting subdivision (D) from subparagraph (3)(ii) and redesignating subdivision (E) thereof as (D); and by adding a new subparagraph (12), as set forth below:

§ 233.20 Need and amount of assistance.

(a) *Requirements for State plans.* • • •

• • • • • •

(12) *Recoupment of overpayments and correction of underpayments.* Specify uniform Statewide policies for:

(i) Recoupment of overpayments of assistance, including overpayments resulting from assistance paid pending a hearing decision; Under this requirement:

(A) The State may recoup any overpayment (election by the State not to recoup overpayments shall not waive the provisions of §§ 205.40, 205.41 or any other quality control requirement);

(B) Except where there is evidence which clearly establishes that a recipient willfully withheld information about his income and resources, recoupment shall be limited to overpayments made during the 12 months preceding the month in which the overpayment was discovered;

(C) The plan may provide for recoupment from available income and resources (including disregarded, set-aside or reserved items) or from current assistance payments or from both; and

(D) If the recoupments are made from current assistance payments, the State shall establish reasonable limits on the proportion of such payments that may be deducted, so as not to cause undue hardship on recipients.

(E) The plan may provide for recoupment in all situations or in specified circumstances and for waiver of the overpayment where the cost of collection would exceed the amount of the overpayment.

(ii) Prompt correction of underpayments to current recipients, resulting from administrative error where the State plan provides for recoupment of overpayments. Under this requirement:

(A) Retroactive corrective payment shall be made only for the 12 months preceding the month in which the underpayment is discovered;

(B) For purposes of determining continued eligibility and amount of assistance, such retroactive corrective payments shall not be considered as income or as a resource in the month paid nor in the next following month; and

(C) No retroactive payment need be made where the administrative cost would exceed the amount of the payment.

• • • • • •

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302)).

Effective Date: The regulations in this section shall be effective October 15, 1973, or earlier at the option of the State.

Dated: July 19, 1973.

JAMES S. DWIGHT, JR.,
Administrator, Social and Rehabilitation Service.

Approved: August 10, 1973.

CASPAR W. WEINBERGER,
Secretary.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19550 RM-1859 RM-2049; FCC 73-842]

PART 73—RADIO BROADCAST SERVICES

Report and Order and Order To Show Cause

In the matter of Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Shorewood, Ottawa, Lockport and Crest Hill, Illinois).

1. On July 19, 1972, the Commission adopted a Notice of Proposed Rule Making in this proceeding (FCC 72-638, 37 Fed. Reg. 15171) in response to a petition of Joliet Radio Corporation, licensee of standard broadcast Station WJRC, Joliet, Illinois. The Notice proposed the reassignment of Channel 252A from Ottawa, Illinois, to Shorewood, Illinois, and the replacement of Channel 252A at Ottawa with Channel 237A.

2. Interested parties, after extensions of time were granted, were afforded an opportunity to file comments on or before September 11, 1972, and (taking into account an intervening holiday) to reply to such comments on or before October 10, 1972. Timely comments and/or reply comments were filed by Joliet Radio Corporation (Joliet Radio); Van Schoick Enterprises, Inc. (Van Schoick Enterprises)[1]; and WFMT, Inc. (WFMT). Mr. Joseph Oswald filed three separate reply comments. One of these was timely and proper and has been given consideration in arriving at our decision herein. The other two were reply comments directed at reply comments of another party.[2] Section 1.415 of the rules does not contemplate the filing of such pleadings unless specifically requested or authorized by the Commission, which they were not in the instant case. Because of this and because the contents of these two pleadings are not essential to our decision, they are not accepted for filing and are given no consideration herein. Additionally, Mr. Oswald filed a petition for rule making (RM-2049) which contained two counterproposals. This petition, filed prior to the date for filing initial comments in this proceeding, was considered as a comment (pursuant to our cut-off procedures announced in the Notice).

3. Although inviting comments on the proposed assignment of Channel 252A to Shorewood, the Notice also stated that it would be in the public interest to consider the needs and importance of other communities larger in size to which the channel might be assigned if deleted from Ottawa and not assigned to Shorewood. Examples of some such communities were listed and we indicated that we would entertain showings by interested parties as to the possible use of Channel 252A in such communities on the condition that any such counterproposals must be accompanied by an offer to reimburse the licensee of WOLI for reasonable expenses incurred for shifting its operation from Channel 252A to 237A at Ottawa, Illinois.

4. The only filing which did so was that of Mr. Oswald which sets out alternative counterproposals (RM-2049), i.e., the assignment of Channel 252A to either Lockport or Crest Hill, Illinois, rather than Shorewood, Illinois. With regard to the Lockport proposal, we observe that Channel 252A cannot meet our minimum mileage separation requirements to Class B Channels 250 and 254 assigned to Chicago, Illinois, and at the same time put the minimum signal required over the entire community of Lockport, i.e., a field strength of 70 dB above 1 uV/m. Approximately 4 percent of the area to Lockport would not receive the required signal strength if our minimum mileage requirements are adhered to. In view of this fact, our normally strict observance of our engineering rules, and the possibility of using the channel in full compliance with our rules at either Shorewood or Crest Hill, Illinois, we find that it would not be in the public interest to grant the requested waiver of our rules and attempt to make the assignment of Channel 252A to Lockport, Illinois. Hence, we now have pending before us in this proceeding the possible assignment of Channel 252A to Shorewood or Crest Hill, Illinois, and the replacement of Channel 252A at Ottawa, Illinois, with Channel 237A.

5. In view of the pleadings, we are required to make one further preliminary judgment. WFMT, operating on Class B FM Channel 254 in Chicago, Illinois, points out that it has a significant audience in the Joliet area of Illinois and indicates that it would be in the public interest to permit that audience to continue its enjoyment of WFMT. It further points out that a station at either Shorewood or Crest Hill operating on Channel 252A would impair WFMT's signal in and around those communities. We acknowledge this probability while observing that WFMT, as any other station in its power class (Class B), is only entitled to the standard protection of 40 miles separation between it and the proposed service on Channel 252A. In connection with the WFMT filing, we received approximately 100 letters from members of the public who reside in the Shorewood-Joliet-Crest Hill area of Illinois which strongly advocate the type of programming (apparently classical music and cultural) available on WFMT and express a concern about the probable loss of access to it by the interference which will be created to the WFMT signal in the Joliet area by a new service at either Shorewood or Crest Hill on Channel 252A. In this proceeding we bring these expressions of community interest and taste to the attention of any applicant for the use of Channel 252A in the Shorewood-Joliet-Crest Hill area of Illinois.

6. Will County, Illinois (population 249,498)[3] contains the two communities of Shorewood (population 1,749[4]) and Crest Hill (population 7,460). Neither community has either an FM assignment or a standard broadcast station. Shorewood is immediately west of Joliet while Crest Hill abuts Joliet on the north.

7. With regard to Shorewood, Joliet Radio states:

"Shorewood is an incorporated village, with a Village Council form of government. The village government provides police service within its boundaries, performs construction and maintenance of streets within the village, and performs other government functions, such as zoning. The village government is faced with policy decisions on zoning applications, demands for street improvements and for police protection and other municipal matters. The presence of these issues naturally gives rise to a need for a local outlet for self-expression by shorewood residents on these matters. In addition to the problems of the village government, there are other local activities which also create a need for local self-expression.

"Shorewood has one public school. It has a fire department (located in Shorewood) which provides protection for Shorewood and adjoining parts of Troy township. Shorewood also has the usual voluntary organizations created by its residents. It has churches (a Methodist Church and a Church of God), the Shorewood Lions Club, a Boy Scout Troop, and the Shorewood Homeowners Association.

"Shorewood also has its own commercial life. It is not a mere bedroom community for workers whose jobs are elsewhere. For instance, it has two major liquor wholesalers. One of them, United Liquor & Beverage Company, is a wholesale beer distributor. It has two motels—a Holiday Inn and a Howard Johnson's Motel. Two major industrial parks are now under development in Shorewood. Immediately outside of Shorewood, Mobile Oil Company is building a multi-million dollar refinery. In the same area are located the new stockyards which opened recently. Since the famed Chicago Stockyards closed, this facility now serves the entire midwest. In Shorewood itself there is a new shopping area, recently opened, which provides a wide range of retail services."

Mr. Oswald questions the veracity of a number of the above statements and in sum agrees with Van Schoick Enterprises that Shorewood is in essence too small to support an independent station and is in reality but a "bedroom" community for Joliet, Illinois. Mr. Oswald suggests that because of the smallness of Shorewood and its proximity to Joliet any FM station assigned to it and licensed to Joliet Radio would necessarily be simulcasting with WJRC much of the time.

8. In supporting the proposed assignment of Channel 252A to Shorewood, Joliet Radio shows that there are other channels available to most of the communities listed in the Notice, and submits that a station at Shorewood would provide a first and second FM service to substantial areas.

9. Concerning Crest Hill, Mr. Oswald provides the following information. Its 1970 population of 7,460 represents a 25 percent increase over its 1960 population which was 5,886. Its retail sales in 1967 (latest official figures) were $14,700,000. It is a community with its own government (mayor, city council) and with more than 100 commercial establishments. It shares the same school system with nearby Lockport, it has resisted annexation by Joliet, and it strives to maintain its own identity. (Hence, he avers, its problems, needs, and interests must be dealt with separate from those of adjoining Joliet.) It has a strategic physical location as to expressways and canal commerce and has a favorable growth pattern. It not only is without local AM, FM, or TV stations, but it has no regular daily newspaper. Mr. Oswald states that if the channel is assigned to Crest Hill he will promptly file an application for its use and that he is willing to reimburse WOLI for reasonable expenses incurred for shifting its operation from Channel 252A to 237A.

10. We have carefully considered the record in this proceeding. Joliet Radio and Mr. Oswald have each attempted to show that there is a need for a first local radio service in Shorewood and Crest Hill, the respective communities to which they seek assignment of the channel. Each has tried to show that the community it proposes is capable of supporting a local FM station. Each adverts to a favorable growth pattern. Each has stated that the community it proposes has no AM, FM, or TV station, and no daily newspaper. Each makes statements to show that its chosen community, although an immediate neighbor of Joliet, seeks to preserve its separate identity as a community.[5]

11. We believe that Mr. Oswald has adequately demonstrated a need for a channel at Crest Hill (see para. 9 *supra*) and that the public interest would be served by the assignment of Channel 252A to that community and the substitution of Channel 237A for 252A at Ottawa. Although it appears from the record that Cresh Hill could support a viable local FM service, a question has been raised as to whether Shorewood could do so or whether it is a mere bedroom community of Joliet. We do not find it necessary to decide this question because even if decided favorably to Shorewood, the proposed assignment to that community fails on other grounds. While there may be a need for an FM channel at Shorewood, there has been no showing that the need there is greater than the need at Crest Hill. Both communities are without local AM, FM, or TV stations; both have no daily newspaper; both are adjacent to Joliet and presumably receive broadcast services from that community; both apparently have local governments and local problems; and both have shown favorable growth patterns. As to the latter point, although the Shorewood population increased about 250 percent from 1960 to 1970 while that of Crest Hill increased only about 25 percent, as to actual population Shorewood increased by 1,250 persons and Crest Hill by 1,574 (Shorewood: 1960 pop. of 499 and 1970 pop. of 1,749; Crest Hill: 1960 pop. of 5,886 and 1970 pop. of 7,460).[6] Therefore, at best it would appear that the need for a channel at Shorewood is equal to that at Crest Hill if one does not consider the population sizes of the two communities. However, in view of the fact that the population of Crest Hill is substantially larger than that of Shorewood, it appears that the mandate of section 307(b) of the Communications Act for a fair, efficient, and equitable distribution of radio service requires that the channel be assigned to Crest Hill if such an assignment would otherwise be in the public interest.

12. We note that Mr. Oswald has indicated his willingness, if ultimately granted a license for Channel 252A at Crest Hill, to reimburse the licensee of Station WOLI for reasonable costs for changing its operation from Channel 252A to 237A. We also note that this representation is made in the light of the costs set out by Van Schoick Enterprises with regard to such a channel change.

13. Authority for the actions taken herein is contained in sections 4(i), 303, 307(b) and 316 of the Communications Act of 1934, as amended.

14. *Accordingly, it is ordered*, That effective September 14, 1973, the

---

[1] Mr. Wayne J. Hess, Receiver, WOLI Broadcasting Corp. (operating on Channel 252A at Ottawa, Illinois), participated in the early phase of this proceeding by filing an opposition to the petition for rule making. On December 22, 1971, the Commission granted BALH-1587, assigning the license of WOLI from Mr. Hess to Van Schoick Enterprises. Among other things, the comments filed by Van Schoick Enterprises adopt and incorporate by reference the aforesaid opposition filed by Mr. Hess.

[2] These two pleadings are "Reply to: Further Reply Comments of the Joliet Radio Corporation—Oct. 4, 1972" and "Reply to Opposition Comments to Oswald Counterproposals."

[3] All population figures cited are from the 1970 U.S. Census unless otherwise specified.

[4] A special 1972 U.S. Census indicates that the population of Shorewood as of 1972 is 2,809.

[5] In addition, Joliet Radio avers that if Channel 252A is assigned to Shorewood it would provide a first and second FM service to substantial areas. However, its coverage showing is based on existing facilities. If it were made on the basis of the Roanoke Rapids-Goldsboro criteria (9 FCC 2d 672 (1971)), a Shorewood station would not provide a first FM service to any portion of the service area, and would provide a second FM service to a very limited area.

[6] Joliet Radio submits the results of a special census taken as of June 19, 1972, showing the population of Shorewood at that time to be 2,809. In the absence of such a census for Crest Hill, we of course cannot compare the populations of the two communities as of that date; however, there is no reason to believe that the population of Crest Hill has not continued to increase since the 1970 Census was taken.

V 38 157 AUG 15 73 XUM

Table of Assignments in section 73.202 (b) of the Commission's rules IS AMENDED, insofar as the cities listed below are concerned, to read as follows:

City:	Channel No.
Crest Hill, Illinois	252A
Ottawa, Illinois	237A

15. *It is further ordered,* That Van Schoick Enterprises, Inc., licensee of WOLI at Ottawa, Illinois, shall show cause under the provisions of section 316 (a) of the Communications Act of 1934, as amended, why its outstanding license for the operation of WOLI on Channel 252A should not be modified to specify operation on Channel 237A and that it do so not later than September 14, 1973.

16. After the receipt of Van Schoick Enterprises, Inc.'s response to the above show cause order, it will be evaluated. In the event that it is determined to be in the public interest to modify the license of Van Schoick Enterprises for WOLI to specify operation on Channel 237A in lieu of Channel 252A, we shall issue appropriate orders including an order which will require that any successful applicant for the use of Channel 252A at Crest Hill, Illinois, reimburse the licensee of WOLI at Ottawa, Illinois, for all reasonable costs it incurs for shifting its operating frequency from Channel 252A to Channel 237A.

(Secs. 4, 303, 307, 48 Stat., as amended; 1066, 1082, 1083. Sec. 12, 66 Stat. 717; 47 U.S.C. 154, 303, 307, and 316.)

By the Commission.

Adopted: August 2, 1973.

Released: August 8, 1973.

[Docket No. 19688 RM-1924; FCC 78-841]

PART 73—RADIO BROADCAST SERVICES

Report and Order

In the matter of Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Flint, Michigan)

1. On February 14, 1973, the Commission adopted a Notice of Proposed Rule Making (FCC 73-176; 38 Fed. Reg. 5193) looking towards the assignment of FM Channel 224A to Flint, Michigan. The Notice stemmed from a petition filed by Flint Family Radio, Inc. (Family) on February 16, 1972. Interested parties were requested to submit comments concerning the proposed change in the Table of Assignments on or before March 28, 1973, and to file reply comments on or before April 6, 1973. Comments in support of the proposal were received from the petitioner and from Sherwood Broadcasting, Inc. (Sherwood), a newly formed corporation that wishes to enter the broadcast field. No opposing statements were filed.

2. Flint, with a population of 193,317, is located in Genesee County (population 444,341).[1] It has been assigned three FM channels (two Class B's and one Class A) and all are currently occupied.[2] There are also six standard broadcast stations in Flint—four full-time and two daytime-only. One of the daytime-only AM stations operates in conjunction with an FM station operating on the Class A channel. The broadcast facilities in Flint are the only ones located in Genesee County. Both Family and Sherwood state in their supporting comments that if an additional FM channel is assigned to Flint, such will apply for the channel and, if granted a construction permit, build promptly.

3. As evidence that Flint can support an additional FM service, petitioner indicates that the average annual rate of growth of personal income from 1959 through 1968 was 7.73 percent and that retail sales for Genesee County totaled over $728 million. Also, while primarily an automobile manufacturing city with approximately 342 manufacturing concerns, petitioner notes that Flint's retail area has a radius of 25 miles with a population of over 500,000. The information submitted by the petitioner is sufficient to enable us to conclude that Flint is a prosperous and growing community, able to support an additional FM service.

4. According to the population criteria for assignment of FM channels, communities with populations ranging from 100,000 to 250,000 are normally assigned four to six channels.[3] However, Flint, with a population of nearly 200,000, presently has only three channels, one of which is used by a noncommercial educational station. It therefore appears that there is a need for the additional channel requested for the community. Although the assignment of Channel 224A to Flint intermixes classes of channels, we note the channels in Flint are already intermixed; moreover, demand for a Class A channel has been evidenced by two parties both of whom have indicated an interest in using the channel and both of whom have apparently made the business judgment that a Class A facility would be viable in Flint.

5. Channel 224A can be assigned to Flint without violating our mileage separation requirements and without making any other changes in the Table of Assignments. The preclusion study submitted by petitioner discloses that if Channel 224A is assigned to Flint, future assignments on Channels 223 and 224A would be prohibited. However, the preclusion on Channel 223 occurs in a limited region where the channel cannot be used efficiently. On Channel 224A the zone of preclusion is limited to the Flint area where an assignment could be made to the adjoining community of Mount Morris, Michigan (population 3,778). The proximity of Mount Morris to Flint signifies that Channel 224A would be available to applicants of Mount Morris under § 73.203(b) of the Commission's Rules. Thus, the assignment of Channel 224A to Flint would result in a more efficient administration of the FM frequencies because it cannot be used at any other community in this area of the state.

6. Since Flint is within 250 miles of the U.S.-Canadian border, concurrence has been obtained from the Canadian Government for the assignment of Channel 224A to that community.

7. In view of the foregoing, we are of the opinion that the additional assignment would serve the public interest and should be made.

8. Authority for the amendment adopted herein is found in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

9. *Accordingly, it is ordered,* That, effective September 14, 1973, the Table of Assignments contained in section 73.202(b) of the Commission's rules and regulations is amended, insofar as the community named below is concerned, to read as follows:

City	Channel No.
Flint, Michigan	224A, 236, 288A, 300

10. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307.)

By the Commission.

Adopted: August 2, 1973.

Released: August 7, 1973.

FEDERAL COMMUNICATIONS COMMISSION
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

[FR Doc.73-16908 Filed 8-14-73;8:45 am]

[Docket No. 19738 FM-1983; FCC 73-839]

PART 73—RADIO BROADCAST SERVICES

Report and Order

In the matter of Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Oberlin, Kansas)

1. The Commission has before it a Notice of Proposed Rule Making adopted May 9, 1973 (FCC 73-492, 38 Fed. Reg. 13387), inviting comments on a petition filed by the Decatur County Area Chamber of Commerce, Inc. (petitioner), which requested the assignment of Channel 266 to Oberlin, Kansas. This channel could be assigned to Oberlin in conformity with the Commission's minimum mileage separation rule and without affecting any presently assigned channel in the FM Table of Assignments. There were no oppositions to the proposal. Supporting comments were filed by petitioner. Information in the record indicates that petitioner is organized as a non-profit organization and that it has no charter provision for operating a business. It further indicates that a responsible group consisting of Chamber of Commerce members intends to incorporate and apply for the channel if it is assigned, and build and operate a station if authorized.

2. Oberlin, with a population of 2,291 persons, is the seat of Decatur County, which has a population of 4,988 persons,[1] and is located in the northwest portion of Kansas. Oberlin does not have a local aural broadcast station. Petitioner notes that there is no full-time AM radio service in the northwest Kansas-southwest Nebraska area and very limited FM service. It points out that Oberlin serves as a principal trading center for a wide area of northwest Kansas and southwest Nebraska, and has sufficient size and economic strength to support a Class C FM facility. Petitioner contends that a Class A station operating at Oberlin would serve so small an area and audience that it could not survive. Petitioner states that based on the reasonable facilities assumption, a Class C facility, operating with an ERP of 100 Kw and an antenna height of 500 feet at Oberlin, would serve a total population of 33,711 persons, with 20,048 people receiving a first FM service and 13,663 receiving a second FM service in an area of 1,648 and 2,138 square miles, respectively.

3. The preclusion study indicates that the proposed assignment would foreclose future assignments on six channels: Channel 264, 265A, 266, 267, 268 and 269A. The size of the precluded areas varies with the channel. However, in the sparsely populated areas of the northwestern part of Kansas and the southwestern part of Nebraska, a number of other FM channels are available which could be assigned to communities located in the precluded areas.

4. The Commission would ordinarily assign a Class A channel to a community the size of Oberlin, but under the above circumstances and the fact that this assignment will provide a first local FM service, we conclude that the public interest would be served by assigning Channel 266 to Oberlin, Kansas.

5. Authority for the amendment adopted herein is found in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

6. *Accordingly, it is ordered,* That, effective September 14, 1973, the Table of Assignments contained in § 73.202(b) of the Commission's rules and regulations is amended, insofar as the community named below is concerned to read as follows:

City	Channel No.
Oberlin, Kansas	266

7. *It is further ordered,* That this proceeding IS TERMINATED.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307.)

---

[1] Population figures are from the 1970 U.S. Census.

[2] One of the Class B channels is occupied by noncommercial educational Station WFBE, licensed to the Flint Board of Education.

[3] See para. 4 of the Further Notice of Proposed Rule Making in Docket No. 14185, adopted July 25, 1962 (FCC 62-867), and incorporated by reference in para. 25 of the Third Report, Memorandum Opinion and Order (40 FCC 747, 758 (1968)).

[1] Population figures cited are from the 1970 U.S. Census.

USE OF LAND MOBILE FREQUENCIES ABOARD AIRCRAFT

In the Matter of amendment of Parts 89, 91, and 93 of the Commission's rules concerning use of land mobile frequencies aboard aircraft.

1. On July 12, 1972, the Commission adopted a Notice of Proposed Rule Making (35 FCC 2d 797) in the above entitled proceeding to amend its rules to limit the licensing and operation of communication facilities on board aircraft in the land mobile radio services. Comments in response to the Notice were received from the parties listed in Appendix A and have been carefully considered.

2. The basic purpose of this proceeding is to restrict the potential for interference to land-base operations primarily from operation on land mobile frequencies aboard high-flying aircraft, particularly on aircraft operated by scheduled passenger airlines. Aircraft communications for airline radio operations are regularly authorized in Aviation Radio Services under Part 87 of the Commission's Rules. However, a few airlines have obtained additional authorizations in the Business Radio Service to transmit convenience-type messages from planes related to passenger activities. Favorable passenger response to this special service has apparently increased airline interest in expansion of operations of this nature. The Commission has found, however, that the transmission range and effect of radio operation on board planes at the heights and distances involved in passenger airline flights greatly increase the potential for widespread interference to regular land-based operations. The rule change would restrict these radio communications to provide protection from such interference to licensees operating within the normal framework and regulatory plan for land mobile systems.

3. There was no disagreement in the comments with respect to necessity for this rule to restrict airline radio operations on land mobile frequencies. Two parties, Continental Airlines, Inc. and Aeronautical Radio, Inc. (ARINC) asked that deletion of these operations not be put into effect until there were alternative frequencies for the airlines to use for passenger messages. Continental argues that it has been using the frequency 461.-25 MHz in the Business Radio Service for air-to-ground radio traffic on behalf of passengers to coordinate cabin service activities, to arrange reservations and connecting flights, for medical advisory consultations, and to obtain interpreter services.

It contends that these operations should be permitted to continue "on the basis of procedures established over a twelve (12) year period of operation, until such time as new allocations of the radio spectrum are provided for air/ground Business Radio purposes." More specifically, ARINC, which provides en-route radiocommunications for airlines related to the safety of aircraft, states that it believes the solution to meeting the requirement for passenger communications lies in the allocation of spectrum exclusively for "cabin requirements" from the band 806–960 MHz.

4. As indicated in our Notice, the Commission realizes that an accommodation for aircraft passenger service communications may be justifiable in a different structure where inherent interference problems are not involved. For example, ARINC's recommendation for accommodating this service on frequencies in the 806–947 MHz region will be given further consideration in our proceeding in Docket 18262. At this time, however, we find that, consistent with the purposes of this proceeding, the paramount public interest requirement is for deletion of this type of aircraft operation on the existing land mobile frequencies. Accordingly, our proposal to preclude operations of this nature in land mobile services is being adopted. With respect to presently authorized operations in these services, we believe that it would be reasonable to require the licensees to amortize their equipment investment within the current license terms. Consequently, these airline operations will be permitted to continue only for the duration of present license terms. At the same time, as we have noted, the Commission will look for reasonable alternatives for permitting this type of operation and we welcome suggestions in this regard.

5. A different category of aircraft operation also under consideration in our Notice involves the low-flying, short-range helicopters and fixed-wing planes that are extensively used in a variety of applications. Examples include such diverse functions as water-scanning by fisheries that have become dependent upon "spotting" capability of aircraft, pipe-line surveillance in the petroleum and natural gas industries, "flying-ambulances" for hospitals, and numerous local government activities. Generally, these aircraft fly at low altitudes from a few hundred to a few thousand feet, as opposed to passenger airline planes which regularly operate above 20,000 feet. The potential for extended-range interference from operations on board such aircraft, therefore, is much reduced. Further, the comments have indicated that in many situations such aircraft are an integral part of land based operations and in others practical communications alternatives are not readily available. For these reasons, the following rule specifically providing for regular licensing of these aircraft in land mobile services was proposed for inclusion in Parts 89, 91 and 93:

By the Commission.

Adopted: August 2, 1973

Released: August 7, 1973

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

[FR Doc.73-16906 Filed 8-14-73;8:45 am]

[Doc No. 19545; FCC 73-819]

V 38 157 AUG 15 73 XUM

"Radio facilities authorized under this part may not be operated on board aircraft in flight except where the aircraft is an integral part of an operation in which land vehicles are primarily involved and where there is a requirement for direct communications between the aircraft and the land vehicles."

6. The comments generally supported the proposed rule change. There was some concern, however, that the specific rule is too limited in restricting communications to air-to-ground, and only when directed to land vehicles. These parties ask that the rule provide also for authorization of land mobile systems which incorporate air-to-air, air-to-base, or air-to-ship transmissions as an integral, or even sole, radio communication requirement.

7. It is not inconsistent with the underlying intent of our proposal that these aircraft radio operations, in addition to air-to-mobile operations, be included as permissible communications. At the same time, however, there must be practical limitations. Our analysis of the communication requirements for aircraft operating as part of land mobile radio systems shows that most aircraft can achieve a reasonable transmission range with a transmitter output power of 10 watts, below a one-mile ceiling.[1] Accordingly, we are incorporating these power and ceiling limitations as basic standards and will authorize exceptions only upon a showing of unusual operational requirements, and only where the potential for interference is not thereby increased. Even within these standards, however, in a given geographical area or for a particular utilization, some aircraft operations may manifest an unacceptable potential for interference. The reasonable solution appears to be case-by-case analysis of each proposed land mobile service aircraft operation, and attachment of conditions to licenses which will afford requisite protection to regular land-based operations. Conditions to be applied might include further restriction on transmitter power and ceilings for operations, a limitation on the geographic area which may be served, or other appropriate restriction. One general condition that will apply to all aircraft licensing of this nature is that the operations must be on a non-interference basis to regular land mobile systems.

8. Within this framework, the Commission is adopting rule changes for the land mobile services for regular authorization of aircraft operations. The specific proposed rule is being modified to expand the allowable points of communication, to provide power limits and flying ceilings for radio transmissions, and to reflect the conditional nature of these aircraft operations.

9. In the Notice in this rule making matter, the Commission determined that pending its resolution of the issues in this proceeding, no action would be taken on new applications for licensing aircraft radio operations in land-mobile services. A number of these applications have been received, and they will be expeditiously handled in accordance with the rule changes being adopted herein. There are also a number of present authorizations for land mobile operations which include operations on board low-flying aircraft. Few of these operations conform to the standards being adopted, particularly with respect to authorized transmitter power. For the reasons already discussed, we find that these operations should not be permitted on an indefinite basis. Accordingly, we will permit only one renewal of current licenses for aircraft operations which do not meet the new standards. A longer period for temporary continued operation of these aircraft stations has been afforded than for the high-flying airline radio operations in consideration of lesser interference potential of the latter transmissions.

10. Pursuant to the foregoing, the Commission determines that the public interest, convenience, and necessity will be served by amendment of its rules, essentially as proposed, to restrict licensing of aircraft operations in the land-mobile radio services.

11. Accordingly, pursuant to authority contained in Sections 4(i) and 303 of the Communications Act of 1934, as amended, *It is ordered*, That effective September 14, 1973, Parts 89, 91, and 93 of the Commission's Rules are amended as shown in the attached Appendix B. *It is further ordered* That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended 1066, 1082; 47 U.S.C. 154, 303)

By the Commission.

Adopted: August 2, 1973.

Released: August 8, 1973.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] VINCENT J. MULLINS, *Acting Secretary.*

NOTE. Rules changes herein will be covered by T.S.V(70)–10.

PART 89—PUBLIC SAFETY RADIO SERVICES

I. Part 89 of the Commission's Rules is amended by adding new rule Section 89 to read as follows:

§ 89.156 Operations on board aircraft.

(a) Except as provided in paragraph (b) and (c) of this section, mobile stations first authorized after September 14, 1973, under this part may be operated aboard aircraft for air-to-mobile, air-to-base, air-to-air, and air-to-ship communications subject to the following:

(1) Operations are limited to aircraft that are regularly flown at altitudes below one-mile above the earth's surface;

(2) Transmitters are to operate with an output power not to exceed ten watts;

(3) Operations are subject to non-interference to land-based systems by transmitters operated aboard aircraft;

(4) Such other conditions, including additional reductions of altitude and power limitations, as may be required to minimize the interference potential to land-based systems by transmitters operated aboard aircraft.

(b) Exceptions to the altitude and power limitations set forth in paragraph (a) of this section may be authorized upon a showing of unusual operational requirements which justify departure from those standards, provided that, the interference potential to regular land-based operations would not thereby be increased.

(c) Mobile stations operated aboard aircraft under this part under licenses in effect September 14, 1973, may be continued without regard to provisions of paragraph (a) of this section, as follows:

(1) Operations may be continued only for the balance of the term of such licenses if aircraft involved are regularly flown at altitudes above one mile above the earth's surface;

(2) Transmitters are to operate with an output power not to exceed ten watts;

(3) Operations are subject to non-interference to land-based systems by transmitters operated aboard aircraft;

(4) Such other conditions, including additional reductions of altitude and power limitations, as may be required to minimize the interference potential to land-based systems by transmitters operated aboard aircraft.

(b) Exceptions to the altitude and power limitations set forth in paragraph (a) of this section may be authorized upon a showing of unusual operational requirements which justify departure from those standards, provided that, the interference potential to regular land-based operations would not thereby be increased.

(c) Mobile stations operated aboard aircraft under this part under licenses in effect September 14, 1973, may be continued without regard to provisions of paragraph (a) of this section, as follows:

(1) Operations may be continued only for the balance of the term of such licenses if aircraft involved are regularly flown at altitudes above one-mile above the earth's surface,

(2) Operations may be continued for one additional renewal license term if the aircraft involved are regularly flown at altitudes below one-mile above the earth's surface.

II. Part 91 of the Commission's Rules is amended by adding new rule Section 91.162 to read as follows:

PART 91—INDUSTRIAL RADIO SERVICES

§ 91.162 Operations on board aircraft.

(a) Except as provided in paragraph (b) and (c) of this section, mobile stations first authorized after September 14, 1973, under this part may be operated aboard aircraft for air-to-mobile, air-to-base, air-to-air, and air-to-ship communications subject to the following:

(1) Operations are limited to aircraft that are regularly flown at altitudes below one mile above the earth's surface;

(2) Transmitters are to operate with an output power not to exceed ten watts;

(3) Operations are subject to non-interference to land-based systems by transmitters operated aboard aircraft;

(4) Such other conditions, including additional reductions of altitude and power limitations, as may be required to minimize the interference potential to land-based systems by transmitters operated aboard aircraft.

(b) Exceptions to the altitude and power limitations set forth in paragraph (a) of this section may be authorized upon a showing of unusual operational requirements which justify departure from those standards, provided that, the interference potential to regular land-based operations would not thereby be increased.

(c) Mobile stations operated aboard aircraft under this part under licenses in effect September 14, 1973, may be continued without regard to provisions of paragraph (a) of this section, as follows:

(1) Operations may be continued only for the balance of the term of such licenses if aircraft involved are regularly flown at altitudes above one mile above the earth's surface;

(2) Operations may be continued for one additional renewal license term if the aircraft involved are regularly flown at altitudes below one mile above the earth's surface.

[FR Doc.73–16905 Filed 8–14–73;8:45 am]

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

MIGRATORY BIRD HUNTING

Miscellaneous Amendments

By notice of proposed rulemaking published in the FEDERAL REGISTER of April 25, 1973 (38 FR 10208), it was proposed to revise and and restructure subchapter B of Chapter One of this title. Among other things, that Proposed Rulemaking advised that current "Part 10—Migratory Birds" would be redesignated "Part 20—Migratory Bird Hunting" and a new "Part 10—General Provisions" would be added along with conforming modifications to subchapter A, Part 1—Definitions.

It was proposed at that time to amend § 10.21(e) to allow shooting crippled migratory game birds from a craft under power and to delete § 10.21(f) which prohibited the use of livestock as a means of concealment. After consideration of comments received and other data presented, the enforcement problems expected, and the concern of many States, it is determined that only the latter of these two proposals should be adopted.

On July 13, 1973, a notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 18670) which proposed further changes in proposed § 20.21(i) concerning the baiting regulation with respect to doves. After consideration of comments received and other data presented it is determined to adopt that proposal as a final rule.

In the FEDERAL REGISTER on July 5, 1973, (38 FR 17841) subchapter B of 50 CFR, Chapter I, was retitled and Part 20—Migratory Bird Hunting was added reserving subparts A—K and M, and publishing only subpart L—Administrative and Miscellaneous Provisions. Subpart K—Annual Season, Limit, and Shooting Hour Schedules was published in part in the FEDERAL REGISTER on August 1, 1973 (38 FR 20456). Since subpart K will be further modified in the near future it is not republished at this time, however, the remainder of Part 20 is herein adopted and subpart L is republished.

Since evaluation of comments, suggestions and objections to the Proposed Rulemaking of April 25, 1973 (subchapter B), is not complete, and the migratory game bird hunting season is approaching, it is determined to adopt the proposed changes in subchapter B in segments, rather than republish it in its entirety at this time. Parts 10—General Provisions and 20—Migratory Bird Hunting, along with conforming modifications to Part 1 of subchapter A of this title, are hereby adopted.

PART 1—DEFINITIONS

§§ 1.9, 1.10, and 1.11 [Deleted]

1. Accordingly, Part 1 of 50 CFR, Chapter I, is hereby amended by deleting §§ 1.9, 1.10, and 1.11.

2. Accordingly, Part 10 of 50 CFR, Chapter I is amended to read as follows:

PART 10—GENERAL PROVISIONS

SUBPART A—INTRODUCTION

Sec.
10.1 Purpose of regulations.
10.2 Scope of regulations.
10.3 Other applicable laws.
10.4 When regulations apply.

Subpart B—Definitions

10.11 Scope of definitions.
10.12 Definitions.
10.13 List of migratory birds.

Subpart C—Addresses

10.21 Director.
10.22 Law enforcement districts.

AUTHORITY.—Lacey Act, 62 Stat. 687, as amended, 63 Stat. 89, 74 Stat. 753, and 83 Stat. 281; Black Bass Act, sec. 5, 44 Stat. 576, as amended, 46 Stat. 846; Migratory Bird Treaty Act, sec. 3, 40 Stat. 755, Bald Eagle Protection Act, sec. 2, 54 Stat. 251; Tariff Classification Act of 1962, sec. 102, 76 Stat. 73–74, 19 U.S.C. 1202, Schedule 1, Part 15D, Headnote. 2(d), "Tariff Schedules of the United States"; Endangered Species Conservation Act of 1969, sec. 4(e), 83 Stat. 278; Fish and Wildlife Act of 1956, sec. 13(d), 86 Stat. 905 amending 85 Stat. 480; Marine Mammal Protection Act of 1972, sec. 112(a), 86 Stat. 1042.

Subpart A—Introduction

§ 10.1 Purpose of regulations.

The regulations of this subchapter B are promulgated to implement the following statutes enforced by the Bureau of Sport Fisheries and Wildlife which regulate the taking, possession, transportation, sale, purchase, barter, exportation, and importation of wildlife:

Lacey Act, 18 U.S.C. 42–44.
Black Bass Act, 16 U.S.C. 851–856.
Migratory Bird Treaty Act, 16 U.S.C. 703–711.
Bald Eagle Protection Act, 16 U.S.C. 668–668d.
Tariff Classification Act of 1962, 19 U.S.C. 1202, (Schedule 1, Part 15D, Headnote 2, T.S.U.S.).
Endangered Species Conservation Act of 1969, 16 U.S.C. 668aa–668cc–6.
Fish and Wildlife Act of 1956, 16 U.S.C. 742a–1.
Marine Mammal Protection Act of 1972, 16 U.S.C. 1361–1384, 1401–1407.

[1] Ceiling in this instance being altitude above the earth's surface. Based upon line-of-sight propagation, the radio horizon from the aircraft approximates 100 miles. The limitation of ten watts transmitter output power at the frequencies involved, taking into account other system parameters, should normally provide adequate communications between the aircraft and associated base and mobile stations on the surface at distances up to 60 miles.

V 38-157 AUG 15 73 XUM

§ 10.2 Scope of regulations.

The various parts of this subchapter B are interrelated, and particular note should be taken that the parts must be construed with reference to each other.

§ 10.3 Other applicable laws.

No statute or regulation of any State shall be construed to relieve a person from the restrictions, conditions, and requirements contained in this subchapter B. In addition, nothing in this subchapter B, nor any permit issued under this subchapter B, shall be construed to relieve a person from any other requirements imposed by a statute or regulation of any State or of the United States, including any applicable health, quarantine, agricultural, or customs laws or regulations, or other Bureau enforced statutes or regulations.

§ 10.4 When regulations apply.

The regulations of this subchapter B shall apply to all matters arising after the effective date of such regulations, with the following exceptions:

(a) *Civil Penalty Proceedings.*—Regardless of when the act or omission which is the basis of a civil penalty proceeding occurred, the regulations herein which are concerned with civil penalty procedures shall apply if a notice of a proposed assessment has not been sent prior to the effective date of these regulations.

(b) *Permits.*—The regulations in this subchapter B shall apply to any permit application received after the effective date of the appropriate regulations in this subchapter B and, insofar as appropriate, to any permit which is renewed after such effective date.

Subpart B—Definitions

§ 10.11 Scope of definitions.

In addition and subject to definitions contained in applicable statutes and subsequent parts or sections of this subchapter B, words or their variants shall have the meanings ascribed in this subpart. Throughout this subchapter B words in the singular form shall include the plural, words in the plural form shall include the singular, and words in the masculine form shall include the feminine.

§ 10.12 Definitions.

"Aircraft" means any contrivance used for flight in the air.

"Amphibians" means a member of the class, Amphibia, including, but not limited to, frogs, toads, and salamanders; including any part, product, egg, or offspring thereof, or the dead body or parts thereof (excluding fossils), whether or not included in a manufactured product or in a processed food product.

"Animal" means an organism of the animal kingdom, as distinguished from the plant kingdom; including any part, product, egg, or offspring thereof, or the dead body or parts thereof (excluding fossils), whether or not included in a manufactured product or in a processed food product.

"Birds" means a member of the class, Aves; including any part, product, egg, or offspring thereof, or the dead body or parts thereof (excluding fossils), whether or not included in a manufactured product or in a processed food product.

"Bureau" means the Bureau of Sport Fisheries and Wildlife, United States Fish and Wildlife Service, Department of the Interior.

"Country of exportation" means the last country from which the animal was exported before importation into the United States.

"Country of origin" means the country where the animal was taken from the wild, or the country of natal origin of the animal.

"Crustacean" means a member of the class, Crustacea, including but not limited to, crayfish, lobsters, shrimps, crabs, barnacles, and some terrestrial forms; including any part, product, egg, or offspring thereof, or the dead body or parts thereof (excluding fossils), whether or not included in a manufactured product or in a processed food product.

"Director" means the Director of the Bureau of Sport Fisheries and Wildlife, United States Fish and Wildlife Service, Department of the Interior, or his authorized representative.

"Endangered wildlife" means any wildlife listed in § 17.11 or § 17.12 of this chapter.

"Fish" means a member of any of the following classes: (1) Cyclostomata, including, but not limited to, hagfishes and lampreys; (2) Elasmobranchii, including but not limited to, sharks, skates, and rays; and (3) Pisces, including but not limited to trout, perch, bass, minnows, and catfish; including any part, product, egg, or offspring thereof, or the dead body or parts thereof (excluding fossils), whether or not included in a manufactured product or in a processed food product.

"Fish or wildlife" means any wild mammal, bird, fish, amphibian, reptile, mollusk, or crustacean, whether or not raised in captivity, and including any part, product, egg, or offspring thereof, or the dead body or parts thereof, whether or not included in a manufactured product or in a processed food product.

"Foreign commerce" includes, among other things, any transaction (1) between persons within one foreign country, or (2) between persons in two or more foreign countries, or (3) between a person within the United States and a person in one or more foreign countries, or (4) between persons within the United States, where the fish or wildlife in question are moving in any country or countries outside the United States.

"Fossil" means the remains of an animal of past geological ages which has been preserved in the earth's crust through mineralization of the object.

"Import" means to land on, bring into, or introduce into, or attempt to land on, bring into, or introduce into any place subject to the jurisdiction of the United States, whether or not such landing, bringing, or introduction constitutes an importation within the meaning of the tariff laws of the United States.

"Injurious Wildlife" means any wildlife for which a permit is required under subpart B of part 16 of this chapter before being imported into or shipped between the continental United States, the District of Columbia, Hawaii, the Commonwealth of Puerto Rico, or any possession of the United States.

"Mammal" means a member of the class, Mammalia; including any part, product, egg, or offspring, or the dead body or parts thereof (excluding fossils), whether or not included in a manufactured product or in a processed food product.

"Migratory birds means all birds, whether or not raised in captivity, included in the terms of conventions between the United States and any foreign country for the protection of migratory birds and the Migratory Bird Treaty Act, 16 U.S.C. 703–711. (For reference purposes only a list of migratory birds by species appears in § 10.13.)

"Migratory game birds": See § 20.11 of this chapter.

"Mollusk" means a member of the phylum, Mollusca, including but not limited to, snails, mussels, clams, oysters, scallops, abalone, squid, and octopuses; including any part, product, egg, or offspring thereof, or the dead body or parts thereof (excluding fossils), whether or not included in a manufactured product or in a processed food product.

"Permit" means any document so designated as a permit by the Bureau and signed by an authorized official of the Bureau.

"Person" means any individual, firm, corporation, association, partnership, club, or private body, any one or all, as the context requires.

"Possession" means the detention and control, or the manual or ideal custody of anything which may be the subject of property, for one's use and enjoyment, either as owner or as the proprietor of a qualified right in it, and either held personally or by another who exercises it in one's place and name. Possession includes the act or state of possessing and that condition of facts under which one can exercise his power over a corporeal thing at his pleasure to the exclusion of all other persons. Possession includes constructive possession which means not actual but assumed to exist, where one claims to hold by virtue of some title, without having actual custody.

"Public" as used in referring to museums, zoological parks, and scientific or educational institutions, refers to such as are open to the general public and are either established, maintained, and operated as a governmental service or are privately endowed and organized but not operated for profit.

"Reptile" means a member of the class, Reptilia, including but not limited to, turtles, snakes, lizards, crocodiles, and alligators; including any part, product, egg, or offspring thereof, or the dead body or parts thereof, whether or not included in a manufactured product or in a processed food product.

"Secretary" means the Secretary of the Interior or his authorized representative.

"Shellfish" means an aquatic invertebrate animal having a shell, including, but not limited to, (a) an oyster, clam, or other mollusk; and (b) a lobster or other crustacean; or any part, product, egg, or offspring thereof, or the dead body or parts thereof (excluding fossils), whether or not included in a manufactured product or in a processed food product.

"State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, and Guam.

"Take" means to pursue, hunt, shoot, wound, kill, trap, capture, or collect, or attempt to pursue, hunt, shoot, wound, kill, trap, capture, or collect. (With reference to marine mammals, see part 18 of this chapter.)

"Transportation" means to ship, convey, carry or transport by any means whatever, and deliver or receive for such shipment, conveyance, carriage, or transportation.

"United States" means the several States of the United States of America, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, and Guam.

"Whoever" means the same as person.

"Wildlife" means the same as fish or wildlife.

§ 10.13 List of migratory birds.

The following is a list of migratory birds by species, shown by the most widely used common name or names followed by the scientific name in italics. The birds are listed in two categories, "Game Birds" and "Nongame Birds". "Game Birds" are members of those families named in § 20.11, for which open seasons are prescribed. The species are listed alphabetically except for ducks, which are all grouped under the heading "Duck". Within the category "Nongame Birds" all members of those families named in § 21.28 which may be used for falconry are listed under "Raptor" and all species are in alphabetical order.

GAME BIRDS

Brant: *Branta bernicla.*
  Black *Branta nigricans.*
Coot: American *Fulica americana.*
Crane:
  Sandhill (Lesser or Little Brown subspecies) *Grus canadensis.*
Dove:
  Ground *Columbina passerina.*
  Mourning *Zenaida macroura.*
  White-winged *Zenaida asiatica.*
  Zenaida *Zenaida aurita.*
Duck:
  Black *Anas rubripes.*
  Bufflehead *Bucephala albeola.*
  Canvasback *Aythya valisineria.*
  Eider:
    Common (Northern, American, and Pacific) *Somateria mollissima.*
  King *Somateria spectabilis.*
  Spectacled *Somateria fischeri.*
  Steller's *Polysticta stelleri.*
Gadwall *Anas strepera.*
Goldeneye:
  Barrow's *Bucephala islandica.*
  Common *Bucephala clangula.*
Harlequin *Histrionicus histrionicus.*
Mallard *Anas platyrhynchos.*
Masked *Oxyura dominica.*
Merganser:
  Common (American) *Mergus merganser.*
  Hooded *Lophodytes cucullatis.*
  Red-breasted *Mergus serrator.*
Mottled (Florida and Louisiana) *Anas fulvigula.*
Oldsquaw *Clangula hyemalis.*
Pintail *Anas acuta.*
Redhead *Aythya americana.*
Ring-necked *Aythya collaris.*
Ruddy *Oxyura jamaicensis.*
Scaup:
  Greater *Aythya marila.*
  Lesser *Aythya affinis.*
Scoter:
  Black (Common) *Oidemia nigra.*
  Surf *Melanitta perspicillata.*
  White-winged *Melanitta deglandi.*
Shoveler: Northern *Anas clypeata.*
Teal:
  Blue-winged *Anas discors.*
  Cinnamon *Anas cyanoptera.*
  Green-winged (American and Eurasian) *Anas crecca.*
Tree:
  Black-bellied *Dendrocygna autumnalis.*
  Fulvous *Dendrocygna bicolor.*
Wigeon:
  American *Anas americana.*
  European *Anas penelope.*
Wood *Aix sponsa.*
Gallinule:
  Common *Gallinula chloropus.*
  Purple *Porphyrula martinica.*
Goose:
  Barnacle *Branta leucopsis.*
  Canada (all subspecies except the Aleutian Canada goose) *Branta canadensis.*
  Emperor *Philacte canagica.*
  Ross' *Chen rossii.*
  Snow (Greater, Lesser, and Blue) *Chen caerulescens.*
  White-fronted (Tule) *Anser albifrons.*
Pigeon:
  Band-tailed *Columba fasciata.*
  White-crowned *Columba leucocephala.*
Rail:
  Black *Laterallus jamaicensis.*
  Clapper *Rallus longirostris.*
  King *Rallus elegans.*
  Sora *Porzana carolina.*
  Virginia *Rallus limicola.*
  Yellow *Coturnicops noveboracensis.*
Snipe: Common (Wilson's) *Capella gallinago.*
Swan: Whistling *Olor columbianus.*
Woodcock:
  American *Philohela minor.*
  European *Scolopax rusticola.*

NONGAME BIRDS

Albatross:
  Black-footed *Diomedea nigripes.*
  Laysan *Diomedea immutabilis.*
  Short-tailed *Diomedea albatrus.*
Anhinga *Anhinga anhinga.*
Anl:
  Groove-billed *Crotophaga sulcirostris.*
  Smooth-billed *Crotophaga ani.*
Auklet:
  Cassin's *Ptychoramphus aleuticus.*
  Crested *Aethia cristatella.*
  Least *Aethia pusilla.*
  Parakeet *Cyclorrhynchus psittacula.*
  Rhinoceros *Cerorhinca monocerata.*
  Whiskered *Aethia pygmaea.*
Avocet: American *Recurvirostra americana.*
Becard: Rose-throated *Platypsaris aglaiae.*
Bittern:
  American *Botaurus lentigimosus.*
  Least *Ixobrychus exilis.*
Blackbird:
  Brewer's *Euphagus cyanocephalus.*
  Red-winged *Agelaius phoeniceus.*
  Rusty *Euphagus carolinus.*
  Tricolored *Agelaius tricolor.*
  Yellow-headed *Xanthocephalus xanthocephalus.*
Bluebird:
  Eastern *Sialia sialis.*
  Mountain *Sialia currucoides.*
  Western *Sialia mexicana.*
Bluethroat *Luscinia svecica.*
Bobolink: *Dolichonyx oryzivorus.*
Booby:
  Blue-faced *Sula dactylatra.*
  Blue-footed *Sula nebouxii.*
  Brown *Sula leucogaster.*
  Red-footed *Sula sula.*
Bunting:
  Indigo *Passerina cyanea.*
  Lark *Calamospiza melanocorys.*
  Lazuli *Passerina amoena.*
  McKay's *Plectrophenax hyperboreus.*
  Painted *Passerina ciris.*
  Snow *Plectrophenax nivalis.*
  Varied *Passerina versicolor.*
Bushtit: Common (Black-eared, California, Coast and other subspecies) *Psaltriparus minimus.*
Cardinal *Cardinalis cardinalis.*
Catbird: Grey *Dumetella carolinensis.*
Chat: Yellow-breasted *Icteria virens.*
Chickadee:
  Black-capped *Parus atricapillus.*
  Boreal (Hudsonian) *Parus hudsonicus.*
  Carolina *Parus carolinensis.*
  Chestnut-backed *Parus rufescens.*
  Gray-headed (Alaska) *Parus cinctus.*
  Mexican *Parus sclateri.*
  Mountain *Parus gambeli.*
Chuck-will's-widow *Caprimulgus carolinensis.*
Condor: California *Gymnogyps californianus.*
Cormorant:
  Brandt's *Phalacrocorax penicillatus.*
  Double-crested *Phalacrocorax auritus.*
  Great *Phalacrocorax carbo.*
  Olivaceous *Phalacrocorax olivaceus.*
  Pelagic *Phalacrocorax pelagicus.*
  Red-faced *Phalacrocorax urile.*
Cowbird:
  Bronzed (Red-eyed) *Tangavius aeneus.*
  Brown-headed (Eastern, Nevada, California, and Dwarf) *Molothrus ater.*
Crane:
  Sanhill (Florida and Greater subspecies) *grus canadensis.*
  Whooping *Grus americana.*
Creeper: Brown *Certhia familiaris.*
Crossbill:
  Red (Bendire's and other subspecies) *Loxia currirostra.*
  White-winged *Loxia leucoptera.*
Crow:
  Common *Corvus brachyrhynchos.*
  Fish *Corvus ossifragus.*
  Hawaiian *Corvus tropicus.*
  Northwestern *Corvus caurinus.*
Cuckoo:
  Black-billed *Coccyzus erythrophthalmus.*
  Mangrove (Maynard's) *Coccyzus minor.*
  Yellow-billed *Coccyzus americanus.*
Curlew:
  Bristle-thighed *Numenius tahitiensis.*
  Eskimo *Numenius borealis.*
  Long-billed *Numenius americanus.*
Dickcissel *Spiza americana.*
Dipper (Water Ouzel) *Cinclus mexicanus.*
Dotterel *Eudromias morinellus.*
Dove:
  Inca *Scardafella inca.*
  White-fronted *Leptotila verreauxi.*
Dovekie *Alle alle.*
Dowitcher:
  Long-billed *Limnodromus scolopaceus.*
  Short-billed *Limnodromus griseus.*
Duck:
  Hawaiian *Anas wyvilliana.*
  Laysan (Laysan teal) *Anas laysanensis.*
  Mexican (New Mexican) *Anas diazi.*
Dunlin (Red-backed Sandpiper) *Calidris alpina.*
Eagle:
  Bald *Haliaeetus leucocephalus.*
  Golden *Aquila chrysaetos.*

V 38 - 157 AUG 15 73 XUM

Egret:
Cattle *Bubulcus ibis.*
Great *Casmerodius albus.*
Little *Egretta garzetta.*
Reddish *Dichromanassa rufescens.*
Snowy *Egretta thula.*
Falcon (see Raptor)
Finch:
Black Rosy *Leucosticte atrata.*
Brown capped Rosy *Leucosticte australis.*
Cassin's *Carpodacus cassinii.*
Gray-crowned Rosy *Leucosticte tephrocotis.*
House *Carpodacus mexicanus.*
Purple *Carpodacus purpureus.*
Flamingo, American *Phoenicopterus ruber.*
Flicker: Common (Gilded, Red-shafted, and Yellow-shafted) *Colaptes auratus.*
Flycatcher:
Acadian *Empidonax virescens.*
Alder *Empidonax alnorum.*
Ash-throated *Myiarchus cinerascens.*
Beardless *Camptostoma imberbe.*
Buff-breasted *Empidonax fulvifrons.*
Coues' *Contopus pertinax.*
Dusky *Empidonax oberholseri.*
Gray *Empidonax wrightii.*
Great Crested (Northern and Southern) *Myiarchus crinitus.*
Hammond's *Empidonax hammondii.*
Kiskadee (Derby) *Pitangus sulphuratus.*
Least *Empidonax minimus.*
Nutting's *Myiarchus nuttingi.*
Olivaceous *Myiarchus tuberculifer.*
Olive-sided *Nuttallornis borealis.*
Scissor-tailed *Muscivora forficata.*
Sulphur-bellied *Myiodynastes luteiventris.*
Vermillion *Pyrocephalus rubinus.*
Western *Empidonax difficilis.*
Wied's Crested *Myiarchus tyrannulus.*
Willow *Empidonax traillii.*
Yellow-bellied *Empidonax flaviventris.*
Frigatebird:
Great *Fregata minor.*
Magnificent *Fregata magnificens.*
Fulmar: Northern *Fulmarus glacialis.*
Gannet *Morus bassanus.*
Gnatcatcher:
Black-capped *Polioptila nigriceps.*
Black-tailed (Plumbeous and other subspecies) *Polioptila melanura.*
Blue-gray *Polioptila caerulea.*
Godwit:
Bar-tailed *Limosa lapponica.*
Hudsonian *Limosa haemastica.*
Marbled *Limosa fedoa.*
Goldfinch:
American *Spinus tristis.*
Lawrence's *Spinus lawrencei.*
Lesser (Arkansas) *Spinus psaltria.*
Goose:
Aleutian Canada *Branta canadensis.*
Hawaiian (Nene) *Branta sandvicensis.*
Grackle:
Boat-tailed *Cassidix major.*
Common (Purple, Bronzed, and Florida) *Quiscalus quiscula.*
Great-tailed *Cassidix mexicanus.*
Grebe:
Eared *Podiceps nigricollis.*
Horned *Podiceps auritus.*
Least *Podiceps dominicus.*
Pied-billed *Podilymbus podiceps.*
Red-necked (Holboell's) *Podiceps grisegena.*
Western *Aechmophorus occidentalis.*
Grosbeak:
Black-headed *Pheucticus melanocephalus.*
Blue *Guiraca caerulea.*
Evening *Hesperiphona vespertina.*
Pine *Pinicola enucleator.*
Rose-breasted *Pheucticus ludovicianus.*
Ground-chat *Geothlypis poliocephala.*
Guillemot:
Black *Cepphus grylle.*
Pigeon *Cepphus columba.*
Gull:
Bonaparte's *Larus philadelphia.*
California *Larus californicus.*
Franklin's *Larus pipircan.*
Glaucous *Larus hyperboreus.*
Glaucous-winged *Larus glaucescens.*
Great Black-backed *Larus marinus.*
Heermann's *Larus heermanni.*
Herring *Larus argentatus.*
Iceland *Larus glaucoides.*
Ivory *Pagophila eburnea.*
Laughing *Larus atricilla.*
Lesser Black-backed *Larus fuscus.*
Little *Larus minutus.*
Mew *Larus canus.*
Ring-billed *Larus delawarensis.*
Ross' *Rhodostethia rosea.*
Sabine's *Xema sabini.*
Slaty-backed *Larus schistisagus.*
Thayer's *Larus thayeri.*
Western *Larus occidentalis.*
Hawk (see Raptor)
Heron:
Black-crowned Night *Nycticorax nycticorax.*
Great Blue (Great White and other subspecies) *Ardea herodias.*
Green *Butorides virescens.*
Little Blue *Florida caerulea.*
Louisiana *Hydranassa tricolor.*
Yellow-crowned Night *Nyctanassa violacea.*
Hummingbird:
Allen's *Selasphorus sasin.*
Anna's *Calypte anna.*
Black-chinned *Archilochus alexandri.*
Blue-throated *Lampornis clemenciae.*
Broad-billed *Cynanthus latirostris.*
Broad-tailed *Selasphorus platycercus.*
Buff-bellied *Amazilia yucatanensis.*
Calliope *Stellula calliope.*
Costa's *Calypte costae.*
Heloise's *Atthis heloisa.*
Lucifer *Calothorax lucifer.*
Rivoli's *Eugenes fulgens.*
Ruby-throated *Archilochus colubris.*
Rufous *Selasphorus rufus.*
Violet-crowned *Amazilia verticalis.*
White-eared *Hylocharis leucotis.*
Ibis:
Glossy *Plegadis falcinellus.*
White *Eudocimus albus.*
White-faced *Plegadis chihi.*
Jacana *Jacana spinosa.*
Jaeger:
Long-tailed *Stercorarius longicaudus.*
Parasitic *Stercorarius parasiticus.*
Pomarine *Stercorarius pomarinus.*
Jay:
Blue *Cyanocitta cristata.*
Gray *Perisoreus canadensis.*
Green *Cyanocorax yncas.*
Mexican *Aphelocoma ultramarina.*
Pinon *Gymnorhinus cyanocephalus.*
San Blas *Cissilopha sanblasiana.*
Scrub *Aphelocoma coerulescens.*
Steller's *Cyanocitta stelleri.*
Junco:
Dark eyed (Oregon, Slate-colored, White-winged and other subspecies) *Junco hyemalis.*
Gray-headed *Junco caniceps.*
Yellow-eyed (Mexican and other subspecies) *Junco phaeonotus.*
Killdeer *Charadrius vociferus.*
Kingbird:
Cassin's *Tyrannus vociferans.*
Eastern *Tyrannus tyrannus.*
Gray *Tyrannus dominicensis.*
Tropical (Couch's *Tyrannus melancholicus.*
Western (Arkansas) *Tyrannus verticalis.*
Kingfisher:
Belted *Megaceryle alcyon.*
Green *Chloroceryle americana.*
Kinglet:
Golden-crowned *Regulus satrapa.*
Ruby-crowned *Regulus calendula.*
Kite:
Everglade *Rostrhamus sociabilis.*
Mississippi *Ictinia mississippiensis.*
Swallow-tailed *Elanoides forficatus.*
White-tailed *Elanus leucurus.*
Kittiwake:
Black-legged (Atlantic and Pacific) *Rissa tridactyla.*
Red-legged *Rissa brevirostris.*
Knot: Red *Calidris canutus.*
Lark:
Horned *Eremophila alpestris.*
Limpkin *Aramus guarauna.*
Longspur:
Chestnut-collared *Calcarius ornatus.*
Lapland *Calcarius lapponicus.*
McCown's *Calcarius mccownii.*
Smith's *Calcarius pictus.*
Loon:
Arctic (Pacific) *Gavia arctica.*
Common *Gavia immer.*
Red-throated *Gavia stellata.*
Yellow-billed *Gavia adamsii.*
Magpie:
Black-billed *Pica pica.*
Yellow-billed *Pica nuttalli.*
Martin:
Gray-breasted *Progne chalybea.*
Purple *Progne subis.*
Meadowlark:
Eastern *Sturnella magna.*
Western *Sturnella neglecta.*
Millerbird *Acrocephalus familaris.*
Mockingbird *Mimus polyglottos.*
Murre:
Common (Atlantic and California) *Uria aalge.*
Thick-billed (Brünnich's) *Uria lomvia.*
Murrelet:
Ancient *Synthliboramphus antiquus.*
Craveri's *Endomychura craveri.*
Kittlitz's *Brachyramphus brevirostris.*
Marbled *Brachyramphus marmoratus.*
Xantus' *Endomychura hypoleuca.*
Nighthawk:
Common (Eastern) *Chordeiles minor.*
Lesser (Texas) *Chordeiles acutipennis.*
Nutcracker, Clark's *Nucifraga columbiana.*
Nuthatch:
Brown-headed *Sitta pusilla.*
Pigmy *Sitta pygmaea.*
Red-breasted *Sitta canadensis.*
White-breasted *Sitta carolinensis.*
Oriole:
Black-headed (Audubon's) *Icterus graduacauda.*
Fuertes' *Icterus fuertesi.*
Hooded (Sennett's) *Icterus cucullatus.*
Lichtenstein's (Altamira) *Icterus gularis.*
Northern (Baltimore and Bullock's) *Icterus galbula.*
Orchard *Icterus spurius.*
Scott's *Icterus parisorum.*
Osprey *Pandion haliaetus.*
Ovenbird *Sciurus aurocapillus.*
Owl: (also see Raptors)
Barn *Tyto alba.*
Oystercatcher:
American *Haematopus palliatus.*
Black *Haematopus bachmani.*
Pauraque *Nyctidromus albicollis.*
Petrel:
Ashy Storm *Oceanodroma homochroa.*
Black Storm *Oceanodroma melania.*
Bonin *Pterodroma hypoleuca.*
Bulwer's *Bulweria bulwerii.*
Dark-rumped *Pterodroma phacopygia.*
Fork-tailed Storm *Oceanodroma furcata.*
Hartcourt's Storm (Hawaiian) *Oceanodroma castro.*
Leach's Storm *Oceanodroma leucohoa.*
Least Storm *Halocyptena microsoma.*
Scaled *Pterodroma inexpectata.*
Sooty Storm *Oceanodroma markhami.*
Wilson's Storm *Oceanites oceanicus.*
Pewee:
Eastern Wood *Contopus virens.*
Western Wood *Contopus sordidulus.*
Pelican:
Brown *Pelecanus occidentalis.*
White *Pelecanus erythrorhynchos.*
Phainopepla *Phainopepla nitens.*

Phalarope:
Northern *Lobipes lobatus.*
Red *Phalaropus fulicarius.*
Wilson's *Steganopus tricolor.*
Phoebe:
Black *Sayornis nigricans.*
Eastern *Sayornis phoebe.*
Say's *Sayornis saya.*
Pigeon:

Texas: That part of the State of Texas lying north of the northern boundaries of the counties of Winkler, Ector, Midland, Glasscock, Sterling, Coke, Runnels, Coleman, and Brown and lying east of the eastern boundaries of the counties of Brown, Mills, Lampasas, Burnet, Blanco, Comal, Guadalupe, Gonzales, DeWitt, Victoria, and Calhoun.	P.O. Box 61161, Houston, Tex. 77061.

PART 20—MIGRATORY BIRD HUNTING

3. Accordingly, Part 20 of 50 CFR, Chapter I, is amended to read as follows:

Sec.
20.1 Scope of regulations.
20.2 Relation to other provisions.

Subpart B—Definitions

20.11 Meaning of terms.

Subpart C—Taking

Sec.
20.21 Hunting methods.
20.22 Closed seasons.
20.23 Shooting hours.
20.24 Daily limit.
20.25 Wanton waste of migratory game birds.

Subpart D—Possession

20.31 Prohibited if taken in violation of subpart C.
20.32 During closed season.
20.33 Possession limit.
20.34 Opening day of a season.
20.35 Field possession limit.
20.36 Tagging requirement.
20.37 Custody of birds of another.
20.38 Possession of live birds.
20.39 Termination of possession.

Subpart E—Transportation Within the United States

20.41 Prohibited if taken in violation of subpart C.
20.42 Transportation of birds of another.
20.43 Species identification requirement.
20.44 Marking package or container.

Subpart F—Exportation

20.51 Prohibited if taken in violation of subpart C.
20.52 Species identification requirement.
20.53 Marking package or container.

Subpart G—Importations

20.61 Importation limits.
20.62 Importation of birds of another.
20.63 Species identification requirement.
20.64 Foreign export permits.
20.65 Processing requirement.
20.66 Marking of package or container.

Subpart H—Federal, State, and Foreign Law

Sec.
20.71 Violation of Federal law.
20.72 Violation of State law.
20.73 Violation of foreign law.

Subpart I—Commercial Preservation Facilities

20.81 Tagging requirement.
20.82 Records required.
20.83 Inspection of premises.

Subpart J—Feathers or Skins

20.91 Commercial use of feathers.
20.92 Personal use of feathers or skins.

Subpart K—Annual Season, Limit, and Shooting Hour Schedules

Subpart L—Administrative and Miscellaneous Provisions

20.131 Extension of seasons.
20.132 Subsistence use in Alaska.
20.133 Hunting regulations for crows.

Subpart M—Wildlife Development Areas

20.141 Approval of area development program.
20.142 Revocation of program approval.
20.143 Notice and hearing.

AUTHORITY.—Migratory Bird Treaty Act, section 3, 40 Stat. 755.

Subpart A—Introduction

§ 20.1 Scope of regulations.

(a) *In general.*—The regulations contained in this part relate only to the hunting of migratory game birds, and crows.

(b) *Procedural and substantive requirements.*—Migratory game birds may be taken, possessed, transported, shipped, exported, or imported only in accordance with the restrictions, conditions, and requirements contained in this part. Crows may be taken, possessed, transported, exported, or imported only in accordance with subpart H of this part and the restrictions, conditions, and requirements prescribed in § 20.133.

§ 20.2 Relation to other provisions.

(a) *Migratory bird permits.*—The provisions of this part shall not be construed to alter the terms of any permit or other authorization issued pursuant to part 21 of this chapter.

(b) *Migratory bird hunting stamps.*—The provisions of this part are in addition to the provisions of the Migratory Bird Hunting Stamp Act of 1934 (48 Stat. 451, as amended; 16 U.S.C. 718a).

(c) *National wildlife refuges.*—The provisions of this part are in addition to, and are not in lieu of, any other provision of law respecting migratory game birds under the National Wildlife Refuge System Administration Act of 1966 (80 Stat. 927, as amended; 16 U.S.C. 668dd) or any regulation made pursuant thereto.

(d) *State Laws for the protection of migratory birds.*—No statute or regulation of any State shall be construed to relieve a person from the restrictions, conditions, and requirements contained in this part, however, nothing in this part shall be construed to prevent the several States from making and enforcing laws or regulations not inconsistent with these regulations and the conventions between the United States and any foreign country for the protection of migratory birds or with the Migratory Bird Treaty Act, or which shall give further protection to migratory game birds.

Subpart B—Definitions

§ 20.11 Meaning of terms.

For the purpose of this part, the following terms shall be construed, respectively, to mean and to include:

"Migratory game birds" means those migratory birds included in the terms of conventions between the United States and any foreign country for the protection of migratory birds, for which open seasons are prescribed in this part and belong to the following families:

(1) Anatidae (wild ducks, geese, brant, and swans);

(2) Columbidae (wild doves and pigeons);

(3) Gruidae (little brown cranes);

(4) Rallidae (rails, coots, and gallinules); and

(5) Scolopacidae (woodcock and snipe).

A list of migratory birds protected by the international conventions and the Migratory Bird Treaty Act appears in §10.13 of this chapter.

"Open season" means the days on which migratory game birds may lawfully be taken. Each period prescribed as an open season shall be construed to include the first and last days thereof.

"Closed season" means the days on which migratory game birds shall not be taken.

"Daily bag limit" means the maximum number of migratory game birds permitted to be taken by one person in any one day during the open season in any one specified geographic area for which a daily bag limit is prescribed.

V38-157
AUG 15 73
XUM

"Aggregate daily bag limit" means the maximum number of migratory game birds permitted to be taken by one person in any one day during the open season when such person hunts in more than one specified geographic area for which a daily bag limit is prescribed. The aggregate daily bag limit is equal to, but shall not exceed, the largest daily bag limit prescribed for any one of the specified geographic areas in which taking occurs.

"Possession limit" means the maximum number of migratory game birds permitted to be possessed by any one person when lawfully taken in the United States in any one specified geographic area for which a possession limit is prescribed.

"Aggregate possession limit" means the maximum number of migratory game birds taken in the United States, permitted to be possessed by any one person when taking and possession occurs in more than one specified geolimit is prescribed. The aggregate possession limit is equal to, but shall not exceed, the largest possession limit prescribed for any one of the specified geographic areas in which taking and possession occurs.

"Personal abode" means one's principal or ordinary home or dwelling place, as distinguished from his temporary or transient place of abode or dwelling such as a hunting club, or any club house, cabin, tent, or trailer house used as a hunting club, or any hotel, motel, or rooming house used during a hunting, pleasure, or business trip.

"Commercial preservation facility" means any person, place, establishment, or cold-storage or locker plant that, for hire or other consideration, receives, possesses, or has in custody any migratory game birds belonging to another person for purposes of picking, cleaning, freezing, processing, storage, or shipment.

Subpart C—Taking

§ 20.21 Hunting methods.

Migratory birds on which open seasons are prescribed in this part may be taken by any method except those prohibited in this section. No person shall take migratory game birds:

(a) With a trap, snare, net, crossbow, rifle, pistol, swivel gun, shotgun larger than 10 gauge, punt gun, battery gun, machinegun, fish hook, poison, drug, explosive, or stupefying substance;

(b) With a shotgun of any description capable of holding more than three shells, unless it is plugged with a one-piece filler, incapable of removal without disassembling the gun, so its total capacity does not exceed three shells;

(c) From or by means, aid, or use of a sinkbox or any other type of low floating device, having a depression affording the hunter a means of concealment beneath the surface of the water;

(d) From or by means, aid, or use of any motor vehicle, motor-driven land conveyance, or aircraft of any kind;

(e) From or by means of any motorboat or other craft having a motor attached, or any sailboat, unless the motor has ceased: *Provided*, That a craft under power may be used to retrieve dead or crippled birds; however, crippled birds may not be shot from such craft under power except in the seaduck area as permitted in Subpart K of this part;

(f) By the use or aid of live birds as decoys; although not limited to, it shall be a violation of this paragraph for any person to take migratory waterfowl on an area where tame or captive live ducks or geese are present unless such birds are and have been for a period of 10 consecutive days prior to such taking, confined within an enclosure which substantially reduces the audibility of their calls and totally conceals such birds from the sight of wild migratory waterfowl.

(g) By the use or aid of recorded or electrically amplified bird calls or sounds, or recorded or electrically amplified imitations of bird calls or sounds;

(h) By means or aid of any motor-driven land, water, or air conveyance, or any sailboat used for the purpose of or resulting in the concentrating, driving, rallying, or stirring up of any migratory bird; or

(i) By the aid of baiting, or on or over any baited area. As used in this paragraph, "baiting" shall mean the placing, exposing, depositing, distributing, or scattering of shelled, shucked, or unshucked corn, wheat or other grain, salt, or other feed so as to constitute for such birds a lure, attraction or enticement to, on, or over any areas where hunters are attempting to take them; and "baited area" means any area where shelled, shucked, or unshucked corn, wheat or other grain, salt, or other feed whatsoever capable of luring, attracting, or enticing such birds is directly or indirectly placed, exposed, deposited, distributed, or scattered; and such area shall remain a baited area for 10 days following complete removal of all such corn, wheat or other grain, salt, or other feed. However, nothing in this paragraph shall prohibit:

(1) The taking of all migratory game birds, including waterfowl, on or over standing crops, flooded standing crops (including aquatics), flooded harvested croplands, grain crops properly shocked on the field where grown, or grains found scattered solely as the result of normal agricultural planting or harvesting; and

(2) The taking of all migratory game birds, except waterfowl, on or over any lands where shelled, shucked, or unshucked corn, wheat or other grain, salt, or other feed has been distributed or scattered as the result of bona fide agricultural operations or procedures, or as a result of manipulation of a crop or other feed on the land where grown for wildlife management purposes: Provided, that manipulation for wildlife management purposes does not include the distributing or scattering of grain or other feed once it has been removed from or stored on the field where grown.

§ 20.22 Closed seasons.

No person shall take migratory game birds during the closed season.

§ 20.23 Shooting hours.

No person shall take in any 1 calendar day, more than the daily bag limit or aggregate daily bag limit, whichever applies.

§ 20.24 Daily limit.

No person shall take in any 1 day, more than the daily bag limit or aggregate daily bag limit, whichever applies.

§ 20.25 Wanton waste of migratory game birds.

No person shall kill or cripple any migratory game bird pursuant to this part without making a reasonable effort to retrieve the bird and include it in his daily bag limit.

Subpart D—Possession

§ 20.31 Prohibited if taken in violation of subpart C.

No person shall at any time, by any means, or in any manner, possess or have in custody any migratory game bird or part thereof, taken in violation of any provision of subpart C of this part.

§ 20.32 During closed season.

No person shall possess any freshly killed migratory game birds during the closed season.

§ 20.33 Possession limit.

No person shall possess more migratory game birds taken in the United States than the possession limit or the aggregate possession limit, whichever applies.

§ 20.34 Opening day of a season.

No person on the opening day of the season shall possess any freshly killed migratory game birds in excess of the daily bag limit, or aggregate daily bag limit, whichever applies.

§ 20.35 Field possession limit.

No person shall possess, have in custody, or transport more than the daily bag limit or aggregate daily bag limit, whichever applies, of migratory game birds, tagged or not tagged, at or between the place where taken and either (a) his automobile or principal means of land transportation; or (b) his personal abode or temporary or transient place of lodging; or (c) a commercial preservation facility; or (d) a post office; or (e) a common carrier facility.

§ 20.36 Tagging requirement.

No person shall put or leave any migratory game birds at any place (other than at his personal abode), or in the custody of another person for picking, cleaning, processing, shipping, transportation, or storage (including temporary storage), or for the purpose of having taxidermy services performed, unless such birds have a tag attached, signed by the hunter, stating his address, the total number and species of birds, and the date such birds were killed. Migratory game birds being transported in any vehicle as the personal baggage of the possessor shall not be considered as being in storage or temporary storage.

§ 20.37 Custody of birds of another.

No person shall receive or have in custody any migratory game birds belonging to another person unless such birds are tagged as required by § 2036.

§ 20.38 Possession of live birds.

Every migratory game bird wounded by hunting and reduced to possession by the hunter shall be immediately killed and become a part of the daily bag limit. No person shall at any time, or by any means, possess or transport live migratory game birds taken under authority of this part.

§ 20.39 Termination of possession.

Subject to all other requirements of this part, the possession of birds taken by any hunter shall be deemed to have ceased when such birds have been delivered by him to another person as a gift; or have been delivered by him to a post office, a common carrier, or a commercial preservation facility and consigned for transport by the Postal Service or a common carrier to some person other than the hunter.

Subpart E—Transportation Within the United States

§ 20.41 Prohibited if taken in violation of subpart C.

No person shall at any time, by any means, or in any manner, transport any migratory game bird or part thereof, taken in violation of any provision of subpart C of this part.

§ 20.42 Transportation of birds of another.

No person shall transport migratory game birds belonging to another person unless such birds are tagged as required by § 20.36.

§ 20.43 Species identification requirement.

No person shall transport within the United States any migratory game birds, except doves, unless the head or one fully feathered wing remains attached to each such bird at all times while being transported from the place where taken until they have arrived at the personal abode of the possessor or a commercial preservation facility.

§ 20.44 Marking package or container.

No person shall transport by the Postal Service or a common carrier migratory game birds unless the package or container in which such birds are transported has the name and address of the shipper and the consignee and an accurate statement of the numbers of each species of birds therein contained clearly and conspicuously marked on the outside thereof.

Subpart F—Exportation

§ 20.51 Prohibited if taken in violation of subpart C.

No person shall at any time, by any means, or in any manner, export or cause to be exported any migratory game bird or part thereof, taken in violation of any provision of subpart C of this part.

§ 20.52 Species identification requirement.

No person shall export migratory game birds unless one fully feathered wing remains attached to each such bird while being transported from the United States and/or any of its possessions to any foreign country.

§ 20.53 Marking package or container.

No person shall export migratory game birds via the Postal Service or a common carrier unless the package or container has the name and address of the shipper and the consignee and an accurate statement of the numbers of each species of birds therein contained clearly and conspicuously marked on the outside thereof.

Subpart G—Importations

§ 20.61 Importation limits.

No person shall import during any 1 calendar week beginning on Sunday migratory game birds in excess of the following importation limits:

(a) *Doves and pigeons.*—Not to exceed 25 doves, singly or in the aggregate of all species, and 10 pigeons, singly or in the aggregate of all species from any foreign country.

(b) *Waterfowl.*—(1) From any foreign country except Canada, not to exceed 10 ducks, singly or in the aggregate of all species, and five geese including brant, singly or in the aggregate of all species.

(2) From Canada, not to exceed the maximum number permitted to be exported by Canadian authorities.

§ 20.62 Importation of birds of another.

No person shall import migratory game birds belonging to another person.

§ 20.63 Species identification requirement.

No person shall import migratory game birds unless each such bird has one fully feathered wing attached, and such wing must remain attached while being transported between the port of entry and the personal abode of the possessor or between the port of entry and a commercial preservation facility.

§ 20.64 Foreign export permits.

No person shall import, possess or transport, any migratory game birds killed in a foreign country unless such birds are accompanied by export permits, tags, or other documentation required by applicable foreign laws or regulations.

§ 20.65 Processing requirement.

No person shall import migratory game birds killed in any foreign country, except Canada, unless such birds are dressed (except as required in § 20.63), drawn, and the head and feet are removed: *Provided*, That this shall not prohibit the importation of legally taken, fully feathered migratory game birds consigned for mounting purposes to a taxidermist who holds a current taxidermist permit issued to him pursuant to § 21.24 of this chapter and who is also licensed by the U.S. Department of Agriculture to decontaminate such birds.

§ 20.66 Marking of package or container.

No person shall import migratory game birds via the Postal Service or a common carrier unless the package or container has the name and address of the shipper and the consignee and an accurate statement of the numbers of each species of birds therein contained clearly and conspicuously marked on the outside thereof.

Subpart H—Federal, State, and Foreign Law

§ 20.71 Violation of Federal law.

No person shall at any time, by any means or in any manner, take, possess, transport, or export any migratory bird, or any part, nest, or egg of any such bird, in violation of any act of Congress or any regulation issued pursuant thereto.

§ 20.72 Violation of State law.

No person shall at any time, by any means or in any manner, take, possess, transport, or export any migratory bird, or any part, nest, or egg of any such bird, in violation of any applicable law or regulation of any State.

§ 20.73 Violation of foreign law.

No person shall at any time, by any means, or in any manner, import, possess, or transport, any migratory bird, or any part, nest, or egg of any such bird taken, bought, sold, transported, possessed, or exported contrary to any applicable law or regulation of any foreign country, or State or province thereof.

Subpart I—Commercial Preservation Facilities

§ 20.81 Tagging requirement.

No commercial preservation facility shall receive or have in custody any migratory game birds unless such birds are tagged as required by § 20.36.

§ 20.82 Records required.

No commercial preservation facility shall:

(a) Receive or have in custody any migratory game birds unless accurate records are maintained showing (1) the number of each species; (2) the date such birds were received; (3) the name and address of the person from whom such birds were received; (4) the date such birds were disposed of; and (5) the name and address of the person to whom such birds were delivered, or

(b) Destroy any records required to be maintained under this section for a period of 1 year following the last entry on the record.

§ 20.83 Inspection of premises.

No commercial preservation facility shall prevent any person authorized to enforce this part from entering such facilities at all reasonable hours and inspecting the records and the premises where such operations are being carried on.

V 38-157 AUG 15 73 XUM

Subpart J—Feathers or Skins

§ 20.91 Commercial use of feathers.

Any person may possess, purchase, sell, barter, or transport for the making of fishing flies, bed pillows, and mattresses, and for similar commercial uses the feathers of migratory waterfowl (wild ducks, geese, brant, and swans) killed by hunting pursuant to this part, or seized and condemned by Federal or State game authorities, except that:

(a) No person shall purchase, sell, barter, or offer to purchase, sell, or barter for millinery or ornamental use the feathers of migratory game birds taken under authority of this part; and

(b) No person shall purchase, sell, barter, or offer to purchase, sell, or barter mounted specimens of migratory game birds taken under authority of this part.

§ 20.92 Personal use of feathers or skins.

Any person for his own use may possess, transport, ship, import, and export without a permit the feathers and skins of lawfully taken migratory game birds.

Subpart K—Annual Season, Limit, and Shooting Hour Schedules

Subpart L—Administrative and Miscellaneous Provisions

§ 20.131 Extension of seasons.

Whenever the Secretary shall find that emergency State action to prevent forest fires in any extensive area has resulted in the shortening of the season during which the hunting of any species of migratory game bird is permitted and that compensatory extension or reopening the hunting season for such birds will not result in a diminution of the abundance of birds to any greater extent than that contemplated for the original hunting season, the hunting season for the birds so affected may, subject to all other provisions of this subchapter, be extended or reopened by the Secretary upon request of the chief officer of the agency of the State exercising administration over wildlife resources. The length of the extended or reopened season in no event shall exceed the number of days during which hunting has been so prohibited. The extended or reopened season will be publicly announced.

§ 20.132 Native use in Alaska.

(a) In Alaska, Eskimos and Indians may take, possess, and transport, in any manner and at any time, auks, auklets, guillemots, murres, and puffins and their eggs for food and their skins for clothing, but the birds and eggs so taken shall not be sold or offered for sale.

(b) In Alaska, any person may, for subsistence purposes, take, possess, and transport, in any manner and at any time, snowy owls and cormorants and their eggs for food and their skins for clothing, but the birds and eggs so taken shall not be sold or offered for sale.

§ 20.133 Hunting regulations for crows.

(a) Crows may be taken, possessed, transported, exported, or imported, only in accordance with such laws or regulations as may be prescribed by a State pursuant to this section.

(b) Except in the State of Hawaii, where no crows shall be taken, States may by statute or regulation prescribe a hunting season for crows. Such State statutes or regulations may set forth the method of taking, the bag and possession limits, the dates and duration of the hunting season, and such other regulations as may be deemed appropriate, subject to the following limitations for each State:

(1) Crows shall not be hunted from aircraft;

(2) The hunting season or seasons on crows shall not exceed a total of 124 days during a calendar year;

(3) Hunting shall not be permitted during the peak crow nesting period within a State; and

(4) Crows may only be taken by firearms, bow and arrow, and falconry.

Subpart M—Wildlife Development Areas

§ 20.141 Approval of area development program.

With respect to any lands which have been or may hereafter be acquired by the United States for future use as a migratory bird sanctuary or other wildlife refuge, subject to an outstanding possessory estate, the owner of such outstanding estate may, in accordance with a program for the development of the area and the limitation of shooting during such development period, approved by the Secretary, take such measures as are calculated to maintain and increase the waterfowl population of the area in question, and engage in the shooting of migratory birds within the limitations set forth in the approved program.

§ 20.142 Revocation of program approval.

Approval of any such program may be revoked by the Secretary upon a finding that the terms of such program have been violated by the proponents thereof. Following such revocation, all rights and privileges derived from the existence of an approved area development program shall cease.

§ 20.143 Notice and hearing.

Prior to any determination by the Secretary that the terms of an approved area development program have been or are being violated by the proponent thereof, a notice shall be sent to said proponent specifying the character, time, and locality of the alleged violation and designating a representative of the Secretary with whom the proponent of the program may discuss any controverted issue of fact or interpretation in an effort to reach an amicable agreement of understanding. Thereupon, the said proponent shall cease and desist from the commission of acts specified in such notice for a period of 60 days, or if the case be finally determined during such 60-day period then only until such final determination. If, within 30 days after such notice has been received, no such agreement or understanding is reached then the Secretary may, after allowing such further opportunity for hearing as he deems proper, make and promulgate a final order revoking approval of the development area program. Thereupon, the provisions of § 20.21 shall be fully applicable to the area in question.

These amendments conform to the public procedure requirements of 5 U.S.C. 553 with respect to substantive rules as set out in the preamble. The amendments make only conforming, clarifying and editorial changes, and it is therefore determined that notice and public procedure thereon are impracticable, unnecessary, and contrary to the public interest. Accordingly, these amendments will be effective as of August 15, 1973.

F. V. SCHMIDT,
Acting Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 10, 1973.

[FR Doc.73-16914 Filed 8-14-73;8:45 am]

PART 32—HUNTING

Agassiz National Wildlife Refuge, Minn.

The following special regulation is issued and is effective on August 15, 1973.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

MINNESOTA

AGASSIZ NATIONAL WILDLIFE REFUGE

Public hunting of moose on the Agassiz National Wildlife Refuge, Minnesota is permitted from sunrise to sunset September 22 to September 30, 1973, and from December 8 to December 16, 1973, all dates inclusive, on all areas except those designated by closed area signs. This open area comprises approximately 57,600 acres and is delineated on a map available at the refuge headquarters at Middle River, Minnesota, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Hunting shall be in accordance with all applicable State regulations subject to the following special conditions:

1. All parties hunting Agassiz National Wildlife Refuge are required to report to the Agassiz check station located 11 miles east of Holt, Minnesota, before they begin to hunt.

2. All moose killed on Agassiz Refuge must be registered at the Agassiz Refuge check station within 48 hours of the kill.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 19, 1973.

JOSEPH KOTOK,
Refuge Manager, Agassiz National Wildlife Refuge Middle River, Minnesota 56737

August 7, 1973

STATE OF MINNESOTA

DEPARTMENT OF NATURAL RESOURCES

[Commissioner's Order No. 1879]

Regulations for the taking of Moose During 1973

JULY 11, 1973.

Pursuant to authority vested in me by law, I, Robert L. Herbst, Commissioner of Natural Resources, hereby prescribe the following regulations for the taking of moose during 1973.

SECTION 1. SEASON DATES AND HOURS.

Moose may be taken by legal firearms or bow and arrow between sunrise and sunset from September 22 to October 7, 1973, and from December 8 to December 16, 1973, all dates inclusive. Moose may be taken in that portion of Zone 2 designated as the Agassiz National Wildlife Refuge from September 22 to September 30, 1973, and from December 8 to December 16, 1973, all dates inclusive.

SEC. 2. BAG LIMIT.

Limit is one moose of any age or either sex per party of four persons.

SEC. 3. OPEN MOOSE HUNTING ZONES—1973.

Those portions of the state lying within the following described boundaries are open to the taking of moose during the period described in Section 1.

ZONE 1

Beginning at State Trunk Highway 11 at Williams; thence southerly along County State Aid Highway (CSAH) 2, Lake of the Woods County, to the Southeast corner of Section 13, Township 160 North, Range 34 West; thence along the East line of Township 160 North, 159 North, 158 North and 157 North, Range 34 West, to the Southeast corner of Section 13, Township 157 North, Range 34 West; thence along a road traversing through Sections 24, 23, 22, 21, 28, 29, 30 and 31, Township 157 North, Range 34 West, and continuing through Section 36, Township 157 North, Range 35 West, and continuing through Sections 1, 2, 3, 10, 9, 8, 7, and 18 of Township 156 North, Range 35 West; thence along County Road 704, Beltrami County, to CSAH 44, Beltrami County; thence along CSAH 44, Beltrami County, to Fourtown; thence along State Trunk Highway 89 to Thorhult; thence along CSAH 42, Beltrami County, to CSAH 2, Marshall County; thence along CSAH 2, Marshall County, to CSAH 54, Marshall County; thence along CSAH 54, Marshall County, to CSAH 9, Roseau County; thence along CSAH 9, Roseau County, to CSAH 29, Roseau County; thence along CSAH 20, Roseau County, to State Trunk Highway 89; thence along State Trunk Highway 89 to Roseau; thence along State Trunk Highway 310 to the northerly boundary of the state; thence easterly along the northern boundary of the state to State Trunk Highway 313; thence along State Trunk Highway 313 to Warroad; thence along State Trunk Highway 11 to the point of beginning at Williams.

[FR Doc.73-16861 Filed 8-14-73;8:45 am]

PART 32—HUNTING

Piedmont National Wildlife Refuge, Georgia

The following special regulation is issued and is effective on August 15, 1973.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

GEORGIA

PIEDMONT NATIONAL WILDLIFE REFUGE

Public hunting of bobwhite quail and squirrels on the Piedmont National Wildlife Refuge, Georgia, is permitted only on the area designated by signs as open to hunting. The open area, comprising approximately 32,000 acres, is delineated on a map available at the refuge headquarters and from the Office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 17 Executive Park Drive, NE, Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State regulations covering the hunting of bobwhite quail and squirrels subject to the following special conditions:

(1) Species permitted to be taken: Bobwhite quail and squirrel only.

(2) Open season: Quail—November 20, 1973—February 28, 1974, on Tuesdays and Saturdays only. Squirrel—August 18, 1973—September 8, 1973 (every day except Sundays); November 20, 1973—February 28, 1974, on Tuesdays and Saturdays only. Hunters are permitted on areas open to quail and squirrel hunting from 30 minutes before sunrise until 30 minutes after sunset on the above cited hunting days.

(3) No vehicular or horseback travel except on State and County roads.

(4) Hunters not having reached their 18th birthday must be under the immediate supervision of a responsible adult.

(5) Camping and fires are prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through February 28, 1974.

PHILLIP S. MORGAN,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

August 7, 1973.

[FR Doc.73-16862 Filed 8-14-73;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

PART 51—REQUIREMENTS FOR PREPARATION, ADOPTION, AND SUBMITTAL OF IMPLEMENTATION PLANS

Subpart C—Extensions

Under § 110(f)(1) of the Clean Air Act (the Act), the Governor of a State may, on behalf of a source located within the State, request that the source's obligation to comply with any of the requirements of the State's implementation plan be postponed for a period of time not to exceed one year. The Agency may grant such a request only if it is satisfied that the requirements of § 110(f)(1)(A)–(D) have been met. In addition, under § 110(f)(2), the decision of the Agency must be based upon the record of a public hearing held pursuant to reasonable notice and made available to all interested persons.

The rules which follow will govern the conduct of such public hearings. The rules are in conformity with §§ 554–57 of the Administrative Procedure Act (APA) which set forth the requirements for a formal adjudicatory hearing. Pursuant to APA § 556(b)(3), the Agency has secured the services of Civil Service Commissioned Administrative Law Judges who will preside over all hearings held under § 110(f) of the Act. The Administrative Law Judge (ALJ) will hear and consider all motions raised by the parties and will render an initial decision as to whether a § 110(f) postponement should be granted. If appeal to the administrator is not taken within 30 days of the ALJ's initial decision and if, within 20 days after receiving notice that no appeal has been lodged by any of the parties, the Administrator declines to review the initial decision of the ALJ, such decision shall become final.

Every effort has been made, in constructing the accompanying rules, to assure due process and maximum review, while allowing for the most expeditious presentation of the facts. To this end, a prehearing conference has been provided for whenever, in the estimation of the ALJ, such a conference will serve to quicken the pace of the hearing. At the prehearing conference, the parties will be encouraged to identify areas which are in dispute, stipulate to noncontested facts, recommend matters of which official notice may be taken, limit the number of expert and other witnesses, agree to the use of written statements in lieu of oral direct testimony, establish a hearing schedule and attend to any other matters which may expedite the hearing or aid in the disposition of the proceedings. In addition the prehearing conference will, in most instances, serve as a forum for exchanging witness lists and short synopses of expected testimony—a form of discovery which is required by paragraph (*f*) of the accompanying rules—and for requesting leave to engage in other forms discovery.

Pursuant to § 307(a)(1) of the Act, the presiding ALJ will have authority, either on his own motion or on a proper showing of one of the parties, to issue

V 38-157 AUG 15 73 XUM

subpoenas for the attendance and testimony of witnesses and/or the production of relevant papers, books and documents.

As permitted by APA § 556(d), the ALJ may permit the introduction of reliable evidence having probative value even though such evidence might be inadmissible under the usual rules of evidence.

The accompanying rules permit cross-examination as a matter of right. However, where it appears that the cross-examination by one party will protect the rights of all parties similarly situated, the ALJ may limit cross-examination to one party on either side of an issue.

Other provisions of note include a provision permitting the right to intervene—even after a prehearing conference if proper cause is shown, elaborate notice provisions calculated to give all interested persons an opportunity to either submit comments, make an oral statement at the hearing or participate as a party, a provision permitting persons to file amicus briefs and a provision for appeal from and review of interlocutory orders and rulings issued by the ALJ.

Because the Agency has already received a request from the Governor of West Virginia for a § 110(f) public hearing, it deems it important to publish the accompanying rules with an immediately effective date. The rules which follow will therefore apply to the West Virginia hearing in their present form. However, since other § 110(f) hearings are expected, the Agency is interested in receiving comments on the accompanying rules. Any comments which are deemed useful will be incorporated into the present rules by way of amendment. In this regard, the Agency is particularly interested in receiving comments relating to paragraph (c)(6) of the accompanying rules. The provisions contained in this paragraph reflect the Agency's view that persons who do not wish to be made a party to a public hearing, but who are interested in making an oral statement at the hearing ought to be permitted to do so. The Agency believes that by permitting persons to participate in this fashion it will be opening § 110(f) hearings to public minded citizens who wish to present their views in a public forum, but who might possibly lack the time and funds necessary to become a party.

To be considered by the Agency, all comments must be filed on or before September 14, 1973. Comments should be filed in duplicate and addressed to Mrs. Betty J. Billings, Hearing Clerk, Environmental Protection Agency, Room 3902, Waterside Mall, Washington, D.C. 20460. All written submissions filed pursuant to this notice will be available for public inspection at the office of the Hearing Clerk during regular business hours, 8:00 a.m.–4:30 p.m.

Authority: §§ 110(f) and 301 of the Clean Air Act; 42 U.S.C. 1857 et seq.

Dated: August 13, 1973.

JOHN R. QUARLES, JR.
Acting Administrator.

§ 51.33 Hearings and appeals relating to request for one year postponement.

(t) Transcript.
(u) Initial decision.
(v) Appeals from or review of the initial decision of the Administrative Law Judge.
(w) Decision upon appeal or review.

(a) *Definitions*

(1) The term "Act" is defined at 40 CFR § 51.1(a).

(2) The term "Administrative Law Judge" means an employee of the Environmental Protection Agency whose services have been retained pursuant to §§ 556(b)(3) and 3105 of the Administrative Procedures Act for the duties and functions hereinafter set forth. The Administrator may delegate all or part of his authority to act in a given case under this section to an Administrative Law Judge. There may be included within such delegation authority to issue subpoenas, authority to make findings of fact and conclusions of law with respect to a given case and authority to recommend a decision (hereinafter referred to as the "initial decision"). A delegation of authority to render an initial decision shall not preclude the Administrative Law Judge from referring any motion or case to the Administrator when the Administrative Law Judge determines such referral to be appropriate.

(3) The term "Administrator" is defined at 40 CFR § 51.1(b).

(4) The term "Agency," unless otherwise specified, means the United States Environmental Protection Agency.

(5) The term "initial decision" means the decision of the Administrative Law Judge as supported by findings of fact and conclusions regarding all material issues of law, fact, or discretion, as well as reasons therefore. Such decision shall become the final decision of the Agency unless an appeal therefrom is taken or the Administrator orders review thereof as herein provided.

(6) The term "party" means the Agency and any person (as that term is defined below) who, pursuant to paragraph (c), has filed a request to participate as a party in a public hearing required by § 110((f)(2) of the Act and has had such request approved.

(7) The term "persons" means the Governor of a State which is requesting a one year postponement under § 110(f) of the Act, any officials designated by the Governor to appear on behalf of the State, and any other State, foreign country, Federal agency, or other interested person or persons (whether individual or formed as an association, public interest group or corporation).

(8) The term "prehearing conference" means a conference held prior to a § 110(f) public hearing for the purposes set forth in paragraph (k) of these rules.

(9) The term "regional hearing clerk" means an employee of the Environmental Protection Agency designated by the Administrator to establish a repository for all documents relating to hearings under this section.

(10) The term "source" means any stationary source or class of moving sources whose alleged inability to comply with any requirement of an applicable implementation plan has given rise to a request for a postponement under § 110(f) of the Act.

(b) *Notice of Adjudicatory Hearings.*

(1) Public notice of every application for a postponement under § 110(f) of the Act shall be circulated in a manner designed to inform interested and potentially interested persons of the intention of the Agency to hold hearings on the requested postponement.

(2) Procedures for accomplishing such public notice shall include at least the following:

(i) Notice shall be published in the FEDERAL REGISTER. The hearing shall convene at the place and time announced in the notice, unless amended by subsequent notice, but thereafter it may be moved to a different place and may be continued from day to day or recessed to a later day without other notice than announcement thereof at the hearing.

(ii) Where the source for which postponement is being requested is a stationary source, notice shall be circulated within the geographical area of the source. Such circulation shall be accomplished by either of the following methods:

(A) Posting in the main post office and in other public places of the municipality or municipalities closest to the source;

(B) Publication in at least one newspaper of general circulation which regularly reaches the geographical area of the source.

(iii) Notice shall be mailed to the source with respect to which the postponement is being requested.

(3) The contents of any public notice referred to in subparagraph (2) shall include at least the following:

(i) The purpose of the hearing;

(ii) A brief description of the activities or operations of the source with respect to which the postponement is being requested and a concise statement setting forth the grounds on which the request is being made;

(iii) A brief statement of the legal authority under which the hearing is being held;

(iv) Information regarding the time and location of the hearing;

(v) The address and phone number of the place or places where documents relating to the hearing can be copied or inspected;

(vi) The address and phone number of the regional filing clerk and a statement advising interested persons that requests to be made a party to the hearing are to be mailed to the regional filing clerk within the time frame noted in paragraph (c) of this section;

(vii) A statement advising persons who do not wish to be made a party to the hearing that, at any time prior to the commencement of the hearing they may either submit comments or request to make an oral statement at the hearing. The statement shall indicate that all such comments or requests are to be filed with the regional hearing clerk. The statement shall also indicate that requests to make an oral statement at the hearing will be routinely granted and that such oral presentations shall be open to questioning at the hearing.

(4) Notice shall be mailed to any person upon request.

(c) *Parties.* (1) Within 30 days following the issuance of public notice of a proposed postponement under § 110(f) of the Act, any person may request to be made a party to the hearing.

(2) Requests to be made a party shall be in writing and shall be addressed to the office of the regional filing clerk.

(3) Requests to be made a party shall:

(i) State the name and address of the person making the request (the requester);

(ii) Identify the interest of the requester;

(iii) Identify any others whom the requester represents;

(iv) State with particularity the position of the requester on the matters to be considered at the hearing.

(4) All requests to be made a party will be reviewed by the Administrative Law Judge within 10 days of receipt. Where the requirements of subparagraph (3) of this paragraph have been met, the Administrative Law Judge shall notify the requester that his request to be made a party has been approved. If, however, the Administrative Law Judge determines that the requirements of subparagraph (3) have not been satisfied, he shall, by appropriate notice, advise the requester as to which of the requirements under paragraph (c) of this section have not been met and that his request to be made a party can not be approved until such requirements are fully met. Such notice shall afford the requester a reasonable period of time (not to exceed 14 days) in which to file an amended request.

(5) Any documents relating to the procedures described in subparagraph (3) of this paragraph shall be made part of the record.

(6) Any person who does not wish to be made a party to the hearing but who desires to make an oral statement at the hearing shall be permitted to do so. Such persons shall be designated as nonparty participants. Nonparty participants shall be subject to questioning at the hearing; however, nonparty participants may not question any other nonparty participants nor may they cross-examine any of the witnesses presented by the parties. Apart from the opportunity to testify at the hearing, nonparty participants shall have no further rights or obligations with respect to either the hearing, or to any facet of the decision making process which follows the hearing.

(d) *Filing and service.* (1) All documents or papers required or authorized to be filed, shall be filed with the regional hearing clerk. Except for a request to be made a party, at the same time that a party files documents or papers with the regional hearing clerk, it shall serve upon all other parties copies thereof, with a certificate of service on each document or paper, including those filed with the regional hearing clerk. Filing shall be deemed timely if received by the regional hearing clerk within the time allowed by this section, or where not provided for by the explicit terms of this section, within the time prescribed by the Administrative Law Judge.

(2) In addition to copies served on all other parties, each party shall file with the regional hearing clerk an original and two copies of all papers filed in connection with the hearing.

(e) *Time.* (1) In computing any period of time prescribed or allowed by the regulations in this part, except as otherwise provided, the day of the act or event from which the designated period of time begins to run shall not be included. Saturdays, Sundays, and holidays, shall be included in computing the time allowed for the filing of any document or paper, except that when such time expires on a Saturday, Sunday, or legal holiday, such period shall be extended to include the next following business day.

(2) Documents and papers which are postmarked prior to the expiration of a given filing date shall be deemed to have been timely filed.

(f) *Intervention.* (1) Following the expiration of the time prescribed in paragraph (c) of this section for the submission of requests to be made a party, any person may file a motion for leave to intervene in a hearing. A motion must set forth the grounds for the proposed intervention and the position and interest of the movant in the proceeding. A motion for leave to intervene in a hearing must ordinarily be filed prior to the commencement of the first prehearing conference. Any motion filed after that time must contain, in addition to the information set forth in paragraph (c) of this section, a statement of good cause for the failure to file the motion prior to the commencement of the first prehearing conference and shall be granted only upon a finding that (i) extraordinary circumstances justify the granting of the motion, and (ii) the intervenor agrees to be bound by agreements, arrangements and other matters previously made in the proceeding.

(2) Leave to intervene will be freely granted but only insofar as such leave raises matters which are pertinent to and do not unreasonably broaden the issues already presented. If leave is granted, the movant shall thereby become a party with the full status of the original parties to the proceedings. If leave is denied, the movant may request that the ruling be certified to the Administrator, pursuant to paragraph (r) of this section, for a speedy appeal.

(g) *Amicus Curiae.* (1) Persons not parties to the proceedings wishing to file briefs may do so by leave of the Administrative Law Judge granted on motion. A motion for leave shall identify the interest of the applicant and shall state the reasons why the proposed amicus brief is desirable. Unless all parties otherwise consent, an amicus curiae shall file its brief within the time allowed the party whose position the brief will support. Upon a showing of good cause, the Administrator or Administrative Law Judge may grant permission for later filing.

(h) *Consolidation.* (1) The Administrative Law Judge, by motion of sua sponte, may consolidate two or more proceedings relating to sources located within a single State whenever it appears that this will expedite or simplify consideration of the issues. Consolidation shall not affect the right of any party to raise issues that could have been raised if consolidation had not occurred. At

V 38 157 AUG 15 73 XUM

the conclusion of proceedings consolidated under this paragraph, the Administrative Law Judge shall issue one decision.

(j) *Representatives.* (1) Parties may appear in person or by counsel or other representative. Persons who appear as counsel or in a representative capacity must conform to the standards of ethical conduct required of practitioners before the courts of the United States.

(j) *Qualifications and duties of Administrative Law Judge.* (1) Qualifications—The Administrative Law Judge shall have the qualifications required by statute. He shall not decide any matter in connection with a proceeding where he has a financial interest in any of the parties or a relationship with a party that would make it otherwise inappropriate for him to act.

(2) Disqualification of the Administrative Law Judge—Any party may, by motion made to the Administrative Law Judge, as soon as practicable, request that he disqualify himself and withdraw from the proceeding. The Administrative Law Judge shall then rule upon the motion and, upon request of the movant, shall certify an adverse ruling for appeal.

(3) Withdrawal sua sponte—The Administrative Law Judge may at any time withdraw from any proceeding in which he deems himself disqualified for any reason.

(4) Absence or change of the Administrative Law Judge—In the case of the absence of the Administrative Law Judge, or his inability to act, or his removal by disqualification or withdrawal, the powers and duties to be performed by him under this part in connection with a hearing assigned to him may, without abatement of the proceeding unless otherwise directed by the Administrator, be assigned to another Administrative Law Judge so designated to act by the Administrator.

(5) Duties and authorities—Administrative Law Judges at adjudicatory hearings shall have the duty to conduct fair and impartial hearings, to take all necessary action to avoid delay in the disposition of proceedings, and to maintain order. They shall have all powers necessary to that end, including the following:

(i) To administer oaths and affirmations;

(ii) To rule upon offers of proof and receive relevant evidence;

(iii) To regulate the course of the hearings and the conduct of the parties and their counsel therein;

(iv) To hold prehearing conferences in accordance with paragraph (k);

(v) To consider and rule upon all procedural and other motions appropriate in such proceedings;

(vi) To encourage and authorize the submission of testimony in written or affidavit form whenever the taking of evidence in such form is agreed to by the parties and will, in the opinion of the Administrative Law Judge, (i) assist in expediting the hearing, (ii) not prejudice the rights of any of the parties and (iii) provide as full and true a disclosure of the facts as would the examination and cross examination of the individuals concerned. The admissibility of the evidence contained in such statement or affidavit shall be subject to the same rules as if such testimony were produced in the usual manner and the affiant or person responsible for the contents of any written evidence shall be subject to oral cross-examination on the contents of such statements.

(vii) To issue subpoenas and take any other action authorized by these regulations or in conformance with law.

(k) *Prehearing conference.* (1) Except as otherwise provided in subparagraph (3), the Administrative Law Judge shall, prior to the commencement of the hearing and for the purpose of expediting the hearing, file with the regional hearing clerk an order for a prehearing conference. More than one such conference may be held. Such order or orders shall direct the parties or their counsel to appear at a specified time and place to consider:

(i) The identification and simplification of disputed issues of fact and law;

(ii) The possibility of obtaining stipulations of fact and documents which will avoid unnecessary delay;

(iii) Matters of which official notice may be taken;

(iv) The limitation of the number of expert and other witnesses;

(v) Procedure at the hearing;

(vi) The use of written statements or affidavits in lieu of oral direct testimony;

(vii) The need for discovery;

(viii) The issuance of subpoenas and subpoenas duces tecum for discovery and hearing purposes;

(ix) The setting of a hearing schedule;

(x) Any other matter that may expedite the hearing or aid in the disposition of the proceeding.

(2) No transcript of any prehearing conference shall be made unless a request therefor by one of the parties is granted by the Administrative Law Judge. Such party shall bear the cost of the taking of the transcript unless otherwise ordered by the Administrative Law Judge. The Administrative Law Judge shall prepare and file for the record a written report of the action taken at each conference, which shall incorporate any stipulations or agreements made by the parties at or as a result of such conference, all rulings upon matters considered at such conference and appropriate orders.

(3) Upon a finding that circumstances render a prehearing conference unnecessary, or impracticable, or upon a finding that a prehearing conference would serve primarily to delay the proceedings rather than to expedite them, the Administrative Law Judge, on motion or sua sponte, may order that the prehearing conference not be held. In these circumstances he may request the parties to correspond with him for the purpose of accomplishing any of the objectives set forth in this paragraph. Such correspondence shall not be made a part of the record, but the Administrative Law Judge shall submit a written summary for the record if any action is taken.

(*l*) *Primary discovery (Exchange of witness lists and documents)*—At a prehearing conference or within some reasonable time set by the Administrative Law Judge prior to the hearing, each party shall make available to the other parties the names of the expert and other witnesses the party expects to call, together with a brief narrative summary of their expected testimony and a list of all documents and exhibits which the party expects to introduce into evidence. Thereafter, witnesses, documents, or exhibits may be added and narrative summaries of expected testimony amended upon motion by a party.

(m) *Other discovery.* (1) Except as so provided by paragraph (*l*) further discovery, under this paragraph, shall be permitted only upon determination by the Administrative Law Judge (i) that such discovery shall not in any way unreasonably delay the proceeding, (ii) that the information to be obtained is not otherwise obtainable and (iii) that such information has significant probative value. The Administrative Law Judge shall be guided by the procedures set forth in the Federal Rules of Civil Procedure, where practicable, and the precedents thereunder, except that no discovery shall be undertaken except upon order of the Administrative Law Judge or upon agreement of the parties.

(2) The Administrative Law Judge shall order depositions upon oral questions only upon a showing of good cause and upon a finding that (i) the information sought cannot be obtained by alternative methods, or (ii) there is a substantial reason to believe that relevant and probative evidence may otherwise not be preserved for presentation by a witness at the hearing.

(3) Any party to the proceeding desiring discovery shall make a motion or motions therefor. Such a motion shall set forth (i) the circumstances warranting the taking of the discovery, (ii) the nature of the information expected to be discovered and (iii) the proposed time and place where it will be taken. If the Administrative Law Judge determines the motion should be granted, he shall issue an order and appropriate subpoenas, if necessary, for the taking of such discovery together with the conditions and terms thereof.

(n) *Motions.* (1) All motions, except those made orally during the course of a public hearing or as otherwise provided by this part, shall be in writing and shall state with particularity the grounds therefor, shall set forth the relief or order sought, and shall be filed with the regional hearing clerk and served on all parties.

(2) Within 10 days after service of any motion filed pursuant to this paragraph, or within such other time as may be fixed by the Administrative Law Judge, any party may serve and file an answer to the motion. The movant shall, if requested by the Administrator, his designee, or the Administrative Law Judge, serve and file reply papers within the time set by the request.

(3) The Administrative Law Judge shall rule upon all motions filed or made prior to the filing of the initial decision at the time of filing on ex parte motions or where the movant has stated that no party objects to the granting of such motion. Otherwise, such decision shall await the answering papers and reply papers if permitted. The Administrator shall rule upon all motions filed after the filing of the initial decision. Oral argument of motions will be permitted only if the Administrative Law Judge or Administrator deems it necessary.

(o) *Subpoenas.* (1) The attendance of witnesses or the production of documentary evidence may, by subpoena, be required at any designated place of hearing or place of discovery. Subpoenas may be issued by the Administrative Law Judge sua sponte or upon a showing by an applicant that evidence sought for hearing is relevant and material to the issues involved in the hearing or that the sought discovery pursuant to paragraph (m) of this section meets the standards set forth therein. The Administrative Law Judge shall be guided by the principles of the Federal Rules of Civil Procedure in making any order for the protection of a witness or the content of the documents produced.

(2) Motion for subpoena duces tecum.—Subpoenas for the production of documentary evidence, unless issued by the Administrative Law Judge sua sponte, shall be issued only upon a written motion. Such motion shall specify, as exactly as possible, the documents desired.

(3) Subpoenas shall be served as provided by the Federal Rules of Civil Procedure.

(p) *Fees of witnesses.* (1) Witnesses summoned before the Administrative Law Judge shall be paid the same fees and mileage that are paid witnesses in the courts of the United States, and persons whose depositions are taken, and the persons taking the same, shall be entitled to the same fees as are paid for like services in the courts of the United States. Fees shall be paid by the party at whose instance the witness appears or the deposition is taken. Where a witness appears pursuant to a request initiated by the Administrative Law Judge, fees shall be paid by the Agency.

(q) *Evidence and cross-examination.* (1) The Administrative Law Judge shall admit all relevant and material evidence except evidence that is unduly repetitious. Relevant and material evidence may be received at the hearing even though inadmissible under the rules of evidence applicable to judicial proceedings. The weight to be given evidence shall be determined by its reliability and probative value.

(2) Parties shall have the right to cross-examine a witness to the extent that such cross-examination is necessary for a full and true disclosure of the facts. In multiparty proceedings the Administrative Law Judge may limit cross-examination to one party on each side if it appears that the cross-examination by one party will adequately protect parties similarly situated. Other parties may, however, engage in cross-examination upon alleging that their cross-examination will go into matters not already covered by previously cross-examination.

(3) If a party objects to the admission or rejection of any evidence or the limitation of the scope of any examination or cross-examination, he shall state briefly the grounds for such objection. The transcript shall include any argument or debate thereon, unless the Administrative Law Judge, with the consent of all parties, orders that such argument not be transcribed. The ruling and the reasons given therefor by the Administrative Law Judge on any objection shall be a part of the transcript. Parties shall automatically be presumed to have taken exception to an adverse ruling.

(r) *Appeals from and review of interlocutory orders or rulings.*

Except as provided herein, appeals as a matter of right shall lie to the Administrator only from the initial decision of the Administrative Law Judge. Appeals from other orders or rulings shall, except as provided in this paragraph, lie only if the Administrative Law Judge certifies such orders or rulings for appeal, or otherwise as provided. The Administrative Law Judge may certify an order or ruling for appeal to the Administrator when: (1) The order or ruling involves an important question of law or policy about which there is substantial ground for difference of opinion; and (2) either (i) an immediate appeal from the order and ruling will materially advance the ultimate termination of the proceeding or (ii) review after the initial decision is issued will be inadequate or ineffective. The Administrative Law Judge shall certify orders or rulings for appeal only upon the request of a party. If the Administrator determines that certification was improvidently granted, or takes no action within thirty (30) days of the certification, the appeal shall be deemed dismissed. When an order or ruling is not certified by the Administrative Law Judge, it shall be reviewed by the Administrator only upon appeal from the initial decision except when the Administrator determines, upon request of a party and in exceptional circumstances, that delaying review would be deleterious to vital public or private interests. Except in extraordinary circumstances, proceedings will not be stayed pending an interlocutory appeal: where a stay is granted, a stay of more than 30 days must be approved by the Administrator. Ordinarily, the interlocutory appeal will be decided on the basis of the submission made to the Administrative Law Judge, but the Administrator may allow further briefs and oral argument.

(s) *Burden of Proof.* The burden of proof shall be on the proponents of the postponement sought under § 110(f) of the Act.

(t) *Transcript.* (1) Hearings shall be stenographically reported and transcribed as soon as practicable after the taking of the last evidence, the Administrative Law Judge shall certify (i) that the original transcript is a true transcript of the testimony offered or received at the hearing, except in such particulars as he shall specify and (ii) that the exhibits accompanying the transcript are all the exhibits introduced at the hearing, with such exceptions as he shall specify. A copy of such certificate shall be attached to each of the copies of the transcript. The original transcript shall be a part of the record and the sole official transcript. Copies of the transcript shall be available from the Agency.

(u) *Initial decision.* (1) Within 20 days after the last evidence is taken in a hearing, each party may file proposed findings of fact and conclusions of law based solely on the record, and a brief in support thereof. Within 10 days thereafter, each party may file a reply brief. The Administrative Law Judge may, in his discretion, extend the total time period for filing any proposed findings, conclusions, briefs or reply briefs for an additional 10 days. The hearing shall be deemed closed at the conclusion of the briefing period.

(2) The Administrative Law Judge, within 30 days after the close of the hearing, shall evaluate the record before him,

V 38-157 AUG 15 73 XUM

and prepare and file his initial decision with the regional hearing clerk. A copy of the initial decision shall be served upon each of the parties, and the regional hearing clerk shall immediately transmit a copy to the Administrator. The initial decision shall become the decision of the Administrator without further proceedings unless an appeal is taken from it or the Administrator orders review of it, pursuant to paragraph (v) of this section.

(3) The initial decision shall include a statement of findings and conclusions and a decision including the reasons and basis thereof. Such statement shall encompass all issues of fact, law or discretion presented by the proposed findings and conclusions of the parties.

(v) *Appeals from or review of initial decision of the Administrative Law Judge.* (1) Within 20 days after filing of the Administrative Law Judge's initial decision, each party may take exception to any matter set forth in such decision or to any adverse order or ruling to which he objected during the hearing and may appeal such exceptions to the Administrator for decision by filing them in writing with the hearing clerk. Within the same period of time each party filing exceptions and amicus curiae shall file with the hearing clerk a brief concerning each of the exceptions being appealed. The brief shall contain, in the order indicated, the following:

(i) A subject index of the matter in the brief, with page references, and a table of cases, textbooks, statutes, and other material cited, with page references thereto;

(ii) A concise statement of the case;

(iii) A specification of the questions intended to be urged, including any objections to rulings of the Administrative Law Judge, to the validity of facts officially noticed, or to any matter in the initial decision;

(iv) The argument presenting clearly the points of fact and law relied upon in support of the position taken on each question, with specific references to the record and to statutory or other material relied upon; and

(v) A proposed decision for the Administrator's consideration in lieu of the decision of the Administrative Law Judge; and where appropriate, proposed findings of fact, conclusions, orders or rulings.

(2) Within 7 days of the service of exceptions, and of a brief under paragraph (1) of this paragraph, any other party or amicus curiae may file and serve a brief responding to exceptions or arguments raised by any other party. Such brief shall include references to the relevant portions of the record. Such brief shall not, however, raise additional exceptions.

(3) Five copies of all material filed under this section shall be filed with the regional hearing clerk.

(4) If no exceptions are filed within the time provided, the regional hearing clerk shall notify the Administrator 30 days from the date of filing of the Administrative Law Judge's initial decision. Within 20 days after said notification, the initial decision of the Administrative Law Judge shall become the decision of the Administrator unless the Administrator issues an order expressing his intent to review said initial decision. Such order may include a statement of issues to be briefed by the parties and amicus curiae and a time schedule concerning service and filing of briefs adequate to allow the Administrator to issue a final order within 100 days from the close of the hearing. Briefs filed pursuant to this subparagraph shall conform to requirements (i) through (iv) of subparagraph (1).

(w) *Decision upon appeal or review.*

(1) Except as provided in paragraphs (w) (4) and (5) of this section, within 100 days after the close of the hearing, the Administrator shall, on appeal or review from an initial decision of the Administrative Law Judge, issue his final decision. In doing so, the Administrator shall consider such parts of the record as are cited or as may be necessary to resolve the issues presented and may, in his discretion, exercise any of the powers specified in paragraph (j) (5) of this section.

(2) In rendering his decision, the Administrator shall adopt, modify, or set aside the findings, conclusions, and decision contained in the initial decision, and shall include in his decision a statement of the reasons or basis for his action. The final decision of the Administrator may accept or reject all or part of the initial decision of the Administrative Law Judge.

(3) The Administrator may, in his discretion, allow oral argument on appeal or review of a decision of the Administrative Law Judge.

(4) Where the Administrator determines that the volume of the record will prohibit an adequate review within the time constraints imposed by subparagraph (1) of this paragraph, he may withhold his decision for an additional period of time not to exceed 45 days.

(5) In those cases where the Administrator believes that he requires further information or additional views of the parties as to the form and content of the decision to be rendered, the Administrator, in his discretion, may withhold final action pending the receipt of such additional information or views.

(6) The decision of the Administrator on appeal shall become effective as specified by him therein or 20 days after the date of the decision, whichever first occurs. Notice of the Administrator's decision on appeal shall be given to all parties.

Title 33—Navigation and Navigable Waters

CHAPTER IV—SAINT LAWRENCE SEAWAY DEVELOPMENT CORPORATION

PART 401—SEAWAY REGULATIONS AND RULES

Definition of "Seaway"

The purpose of this document is to amend § 401.2, Definitions, of the Seaway Regulations and Rules and is made pursuant to the Saint Lawrence Seaway Development Corporation's enabling act (33 U.S.C. 981 et seq.) and section 104 of the Ports and Waterways Safety Act of 1972, P.L. 92-340, as delegated by the Secretary of Transportation to the Administrator of the Corporation in 49 CFR 1.50a. Specifically, § 401.2(g), the definition of "Seaway", is being revised to include the phrase "and contiguous waters" after the phrase "deep waterway". The reason for this revision is for clarification. Some concern has been expressed as to whether or not the "Seaway" encompasses the total reach of the St. Lawrence River. While the term "Seaway" has always been interpreted by the Corporation to include all the United States waters of the St. Lawrence River, it is believed that this amendment will remove that concern.

Since the revision deals with a matter of interpretation, notice of proposed rulemaking is exempted under section 553 of Title 5, United States Code. However, in accordance with the spirit of the public policy set forth in 5 U.S.C. 553, the Corporation will consider comments addressed to the Saint Lawrence Seaway Development Corporation, Seaway Circle, Massena, New York 13662, Attention General Counsel, received before September 15, 1973.

Section 401.2 is amended as follows:

§ 401.2 Definitions.

* * * * *

(g) "Seaway" means that portion of the deep waterway and contiguous waters between the Port of Montreal and Lake Erie that are under the jurisdiction of the Authority and includes all canals, works and connecting channels that are part of the deep waterway and all other canals and works, wherever located, the management, administration and control of which have been entrusted to the Authority;

* * * * *

(68 Stat. 92-97, 33 U.S.C. 981-990, as amended, and Sec. 104, Pub. L. 92-340, 86 Stat. 424, 49 CFR 1.50a (37 FR 21943)).

Effective date: August 17, 1973.

SAINT LAWRENCE SEAWAY DEVELOPMENT CORPORATION,

[SEAL] D. W. OBERLIN,
Administrator.

Title 17—Commodity and Securities Exchanges

CHAPTER I—COMMODITY EXCHANGE AUTHORITY (INCLUDING COMMODITY EXCHANGE COMMISSION), DEPARTMENT OF AGRICULTURE

PART 1—GENERAL REGULATIONS UNDER THE COMMODITY EXCHANGE ACT

Filing of Information by Contract Markets

A proposal was published in the FEDERAL REGISTER on November 14, 1972 (37 FR 24117), pursuant to the authority of sections 5, 6, 8, and 8a of the Commodity Exchange Act (7 U.S.C. 7, 8, 12, 12a), to issue a regulation setting forth certain conditions and requirements which must be met by contract markets for their continued designation as a contract market. Interested persons were given an opportunity to request a hearing or to make written submissions on the matter on or before January 15, 1973. On February 13, 1973, the proposed regulation was amended and again published in the FEDERAL REGISTER (38 FR 4346). Interested persons were again given an opportunity to request a hearing or to make written submission on the matter on or before April 16, 1973. Since there is no request for hearing, none will be held.

As set forth in the notice of proposed rule making published on February 13, 1973, § 1.50 establishes requirements whereby each contract market will be required to file at stated periodic intervals, once every 5 years or within 90 days after a special call by the Act Administrator, a statement and supporting data showing the provisions that it has made to meet the designation requirements and conditions of section 5 and 5a of the Commodity Exchange Act (7 U.S.C. 7, 7a). This is to afford the contract market opportunity to show (1) how the provisions of an existing futures contract reflect current marketing conditions, and (2) how its bylaws, rules, regulations, and resolutions carry out the requirements of sections 5 and 5a.

After consideration of all relevant matters presented by interested persons, the proposed regulation is amended by adding paragraph (e) and is hereby adopted as set forth below.

Effective date. This regulation shall become effective October 1, 1973.

§ 1.50 **Filing of information by contract markets.**

(a) Each contract market shall file with the Commodity Exchange Authority, at least once every 5 years, a statement with supporting data showing the provisions that it has made to continue to comply with the conditions and requirements for designation as a contract market for a specified commodity. Such statement shall be responsive to the provisions of sections 5 and 5a of the Act. The supporting data shall include any information which will assist the Act Administrator in evaluating the effectiveness of the provisions described in the statement.

(b) The contract market shall file the required information for each commodity at least once every 5 years but not less than 90 days after the effective date of this regulation, in accordance with a schedule showing dates of required filing established by the Act Administrator and which will be provided by him to each contract market, and every 5 years after the date of the first filing: *Provided,* That a contract market need not file earlier than 5 years after the effective date of its designation, unless so requested upon special call by the Act Administrator.

(c) The information required in paragraph (a) of this section also shall be filed within 90 days after a special call by the Act Administrator.

(d) Any failure by a contract market to continue to comply with the conditions and requirements for designation as a contract market as set forth in sections 5 and 5a of the Act, and any failure or refusal to file the information required by this regulation shall be cause for action by the Commodity Exchange Commission under sections 5b, 6(a) or 6b of the Act (7 U.S.C. 7b, 8(a), and 13a).

(e) Upon a showing of good cause by a contract market, the Act Administrator may extend for a reasonable time the filing date for, or may amend the schedule or sequence of, any report under this regulation.

(Secs. 5, 6, 8, 42 Stat. 1000, as amended, 1001, as amended, 1003 as amended; Sec. 8a, 49 Stat. 1500, as amended; 7 U.S.C. 7, 8, 12, 12a)

The reporting and/or recordkeeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

Issued: August 9, 1973.

CLAYTON YEUTTER,
Assistant Secretary for Marketing and Consumer Services.

[FR Doc.73-16950 Filed 8-14-73;8:45 am]

V 38-157 AUG 15 73 XUM

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

U.S. Customs Service

[19 CFR Part 1]

CUSTOMS FIELD ORGANIZATION

Proposed Change in Customs Region VIII, Designating Columbia River (Portland, Astoria, Longview) Port of Entry

AUGUST 8, 1973.

A notice was published in the FEDERAL REGISTER on March 15, 1973 (38 FR 7008), of a proposed change in Customs Region VIII, designating Portland, Oregon, as the Customs port of entry on the Columbia River.

The notice proposed to designate Portland, Oregon, as the sole port of entry on the Columbia River, with proposed geographical limits including all the areas now falling within the port limits of Longview, Washington, and Astoria, Oregon. After reviewing comments received, it is clear that the notice of proposed rule making should be republished to clarify the intent of the designation of a new Customs port of entry on the Columbia River.

Therefore, the notice published in the Federal Register dated March 15, 1973 (38 FR 7008), is superseded by this notice of proposed rule making.

By virtue of the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), and delegated to the Secretary of the Treasury by Executive Order No. 10289, September 17, 1951 (3 CFR Ch. II), and pursuant to authority provided by Treasury Department Order No. 190, Rev. 9 (38 FR 17517), it is proposed to establish a consolidated Columbia River (Portland, Astoria, Longview) Customs port of entry with geographical limits of the present port limits of Portland, Oregon, Longview, Washington, and Astoria, Oregon, and including all points and places on either bank of the Columbia River bounded on the west by the Pacific Ocean, and terminating on the north bank at the eastern corporate limits of Washougal, Washington, and on the south bank at the eastern boundary of the Portland International Airport.

Currently, vessels arriving at Portland, Longview or Astoria, and subsequently moving to either of the other two ports, are required to enter and clear at each port. The proposed amendment would permit vessels arriving within the new port limits to enter only at the first port area of arrival and clear only at the port area of departure. Entries for imported merchandise would continue to be accepted at Portland, Longview or Astoria, and there would be no decrease in Customs services at any of these ports as the result of this consolidation.

Data, views, or arguments with respect to the foregoing proposal may be addressed to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229. To insure consideration of such communications, they must be received in the United States Customs Service not later than September 17, 1973.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.3(b) of the Customs Regulations (19 CFR 103.3(b)) at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

[SEAL] EDWARD L. MORGAN,
Assistant Secretary of the Treasury.

Fiscal Service

[31 CFR Part 209]

PAYMENT TO FINANCIAL ORGANIZATIONS FOR CREDIT TO ACCOUNTS OF EMPLOYEES

The Department of the Treasury finds that it is necessary to revise its existing regulations governing payments to financial organizations for credit to accounts of employees at 31 CFR Part 209 (also appearing as Department Circular No. 1076, Revised), so as to:

(1) Include drawing of checks in favor of financial organizations for any class of recurring payments, as authorized by Public Law 92-366 (31 U.S.C. 492(d)) approved on August 7, 1972;

(2) Emphasize that Civil Service Commission regulations exclusively govern allotments to pay membership dues in labor organizations;

(3) Make mandatory the formerly permissive use of composite checks under certain circumstances for payments of net pay to employees;

(4) Delete certain procedural provisions which are incorporated in the Treasury Fiscal Requirements Manual; and

(5) Make current certain minor, but outdated, provisions.

Accordingly, notice is hereby given pursuant to 5 U.S.C. 553 that the Secretary of the Treasury is considering the revision effective September 30, 1973, under authority of 31 U.S.C. 492 (b) and (d), of Part 209 of Subchapter A, Chapter II of Title 31 of the Code of Federal Regulations, so as to read:

PART 209—PAYMENT TO FINANCIAL ORGANIZATIONS FOR CREDIT TO ACCOUNTS OF EMPLOYEES AND BENEFICIARIES

Sec.
209.1 Scope of regulations.
209.2 Definitions.
209.3 Allotments of pay for savings accounts.
209.4 Payments of net pay for employees.
209.5 Recurring payments for beneficiaries.
209.6 Identification of financial organization office to receive remittances for allotments of pay.
209.7 Depositor account numbers.
209.8 Service charge.
209.9 Financial organization as agent.
209.10 Acquittance to the United States.
209.11 Financial organization not Government depositary.
209.12 Procedural instructions.

AUTHORITY: The provisions of this Part 209 issued under R.S. 3620, as amended, 31 U.S.C. 492.

§ 209.1 Scope of regulations.

(a) The regulations in this part govern the regular remittance to financial organizations of Federal payments which are for credit to the accounts of employees and beneficiaries, as defined herein, including payments for:

(1) Full amounts of salaries and wages of civilian employees, and pay and allowances of members of the uniformed services;

(2) Allotments of pay for savings accounts (available hereunder only to civilian employees [1]); and

(3) Recurring annuities and benefits.

(b) The regulations in this part do not supersede, and shall not be used to circumvent, the requirements of particular statutes, Executive orders or other executive branch regulations; for example, see Civil Service Commission regulations at 5 CFR Part 550, Subpart C, issued pursuant to 5 U.S.C. 5525. Savings allotments under the regulations in this part shall not be used as a means to pay dues to labor organizations.

§ 209.2 Definitions.

As used in these regulations:

(a) "Agency" means any department, agency, independent establishment, board, office, commission, or other establishment in the executive, legislative (except the Senate and House of Representatives), or judicial branch of the Government, any wholly owned or controlled Government corporation, and the municipal government of the District of Columbia;

[1] See 32 CFR Part 59—Voluntary Military Pay Allotments, issued pursuant to 37 U.S.C. 701-706, for military allotments for savings.

(b) "Financial organization" means any bank, savings bank, savings and loan association or similar institution, or Federal or State chartered credit union;

(c) "Employee" means (1) when used in reference to allotments of pay for savings accounts, a civilian employee of an agency, and (2) when used otherwise, a civilian employee of an agency or a member of a uniformed service;

(d) "Beneficiary" means a person or persons receiving an annuity or benefit payment or other recurring payment under Federal law, other than a payment of salary or wages or pay and allowances;

(e) "Allotment of pay for a savings account" means an authorization from an employee for a recurring payroll deduction from salary or wages due, in a specified dollar amount, to be remitted to a financial organization of his choice, for credit to his savings account;

(f) "Savings account" means an account (single or joint) for the purchase of shares (other than shares of stock) or for the deposit of savings in any financial organization, the title of which account includes the name of the authorizing employee;

(g) "Net pay" means the amount of salaries or wages of civilian employees and pay and allowances of members of the uniformed services remaining due after all payroll deductions for allotments of pay for savings accounts and other purposes and all other payroll deductions;

(h) "Recurring payment" means a benefit, annuity, or other payment which is made repeatedly at regular intervals.

§ 209.3 Allotments of pay for savings accounts.

(a) Any employee whose place of employment is within the United States may authorize an allotment of pay for a savings account under these regulations, provided that allotments of pay for savings are not otherwise available to the employee under the regulations referred to in § 209.1(b).

(b) The head of an agency shall effectuate such allotments of pay for savings accounts:

(1) If the employee provides the agency with a written request (on a form promulgated by the Treasury or such agency-adapted form as may be approved by the Treasury for the purpose) which designates the financial organization and such financial organization, by endorsement thereon, states its willingness to act in this respect as agent of the employee and to accept, as its expense, the service charge specified in accordance with § 209.8 which is to be deducted from the aggregate total of the allotments remitted;

(2) If the allotment is a fixed amount, in round dollars (no cents), to be deducted in each successive payroll (until canceled by the employee, in writing, or otherwise terminated);

(3) If not more than two such allotments for any employee shall be in effect at any time;

(4) To the extent that the amount of salary or wages becoming due an employee for any pay period thereafter is sufficient to cover (i) in the case of a single allotment, the full amount thereof, or (ii) in the case of two allotments, the aggregate amount of both. In making any determinations under this subparagraph, all payroll deductions otherwise required shall have priority over those authorized by this section; and

(5) Regardless of the manner in which the allotment for savings ultimately will be disposed of by the employee (which is at his own discretion), except that the purpose of the allotment may not circumvent statutes, Executive orders, and other executive branch regulations (see § 209.1(b)).

§ 209.4 Payments of net pay for employees.

(a) Any employee may request that the full amount of net pay due him, in lieu of being paid by check drawn to his order, be paid to him regularly by check drawn in favor of a financial organization of his choice, for credit to his account.

(b) The head of an agency shall authorize the appropriate disbursing officer to pay an employee by sending to the financial organizatton designated by that employee a check that is drawn in favor of that organization and for credit to the account of that employee. This procedure shall be used only:

(1) If the employee provides the agency with a written request (on a form promulgated by the Treasury or such agency-adapted form as may be approved by the Treasury for the purpose) which designates the financial organization.

(2) For the full amount of net pay becoming due on successive payrolls (until the request is canceled by the employee in writing); and

(3) For payments for credit to any account (single or joint) designated by the employee, the title of which includes the name of the employee as stated on the check.

(c) Whenever, under the procedures set out in paragraph (b) of this section, payments are made by an agency on the same regularly recurring dates to five or more employees who designate the same financial organization, the head of the agency shall authorize the appropriate disbursing officer to draw the check for the total amount in favor of that organization for credit to the accounts of the several employees.

§ 209.5 Recurring payments for beneficiaries.

(a) The head of an agency may authorize the appropriate disbursing officer to make a recurring payment to a beneficiary by sending to the financial organization designated by that beneficiary a check that is drawn in favor of that organization and is for credit to the account of that beneficiary, in lieu of payment by check drawn to his order.

(b) The procedure set out in paragraph (a) of this section may be adopted only:

(1) If the beneficiary to whom the recurring payment is to be made provides the agency with a written request (on a form promulgated by the Treasury or such agency-adapted form as may be approved by the Treasury for the purpose) which designates the financial organization;

(2) For the full amount of the recurring payment becoming due on successive payment dates (until the request is canceled by the beneficiary in writing); and

(3) For payments for credit to an account, designated by the beneficiary to whom the recurring payment is to be made, the title of which includes the name of the beneficiary as stated on the check, or, in the case of payments made jointly to more than one individual, the name of one beneficiary as stated on the check.

(c) Whenever, under the procedures set out in paragraph (a) of this section, recurring payments are made to two or more beneficiaries who designate the same financial organization, the head of the agency, may, after consultation with, and approval by, the Fiscal Assistant Secretary of the Treasury, authorize the appropriate disbursing officer to draw a single check for the total amount in favor of that organization for credit to the accounts of the several beneficiaries.

(d) The procedures set out in this section shall not be used for allotting a part of a recurring payment or for effectuating an assignment of a recurring payment.

(e) The Fiscal Assistant Secretary will initiate, as appropriate, joint Treasury-agency consideration of application of the procedures set forth in this section.

§ 209.6 Identification of financial organization office to receive remittances for allotments of pay.

(a) Except as authorized in accordance with paragraph (b) of this section, remittances covering allotments of pay for savings accounts in behalf of all employees designating the same financial organization shall be forwarded uniformly to a single office of such financial organization notwithstanding the fact that the employees may otherwise make deposits to their accounts at different branch offices of such financial organization. In executing the form required pursuant to § 209.3, each employee will be expected to ascertain from the financial organization the address of its single office which is to receive remittances. In any event, the financial organization, in executing the form, shall:

(1) Review the address inserted and, if necessary, correct it to conform with the requirements of this section;

(2) Insert, in the space provided, the "employer identification number" assigned to it by the Internal Revenue Service, Department of the Treasury. Such identification numbers, which are susceptible of universal application in identifying each individual financial organization as a whole, will be used in agency payroll systems to facilitate the assembly of all of its payroll deductions

V 38-157 AUG 15 73 XUM

applicable to the same financial organization; and

(3) Identify the block specified on the form which indicates conformance with the requirement for a single remittance point in the financial organization.

(b) A financial organization which maintains its savings accounts at branch offices only and which cannot comply with the requirements of paragraph (a) of this section, on the basis that its own internal transmission of deposit credits from a single remittance point to its respective branch offices is impracticable, may certify to that effect by identifying the block provided for this purpose on the form required by § 209.3. Such certification shall serve to waive the requirements of paragraph (a) of this section on the basis that the financial organization cannot otherwise agree to accept remittances for credit to accounts of employees designating such financial organization. Such financial organization shall:

(1) Establish a standardized series of numeric codes consisting of three digits (001 through 999) to be used uniformly in identifying each of its branch offices required to receive remittances;

(2) Insert, in the space provided on the form, its "employer identification number" and, as a parenthetical suffix, its three-digit code identifying the applicable branch office consistent with the addresses of that office as shown on the form; and

(3) Make such inter-office adjustments of deposit credits as may become necessary in the event a remittance to one branch office includes credit for a particular savings account at a different branch office, whether by reason of an inconsistency in the initial designation of the branch office code on the form or otherwise.

§ 209.7 Depositor account numbers.

Based on the forms submitted by employees and beneficiaries pursuant to §§ 209.3, 209.4 and 209.5, agencies shall use depositor account numbers supplied by the financial organization as an identification of the account to be credited, in addition to the name and social security account number of the employee or beneficiary. Records supporting checks issued pursuant to § 209.3, § 209.4(c) and § 209.5(c) shall be so identified. Individual checks issued pursuant to § 209.4(b) and § 209.5(a) shall be identified, as a minimum, with the name and depositor account number of the employee or beneficiary. The United States shall not assume responsibility for the correctness of such depositor account numbers, and the name and/or social security account number of the employee or beneficiary to whom payment is to be made will govern the crediting of the account.

§ 209.8 Service charge.

The Government's cost in the administration of the system established by § 209.3 shall be recovered by each agency on the basis of standard (Government-wide) rates established in these regulations. The total service charge applicable to a remittance to a financial organization, derived by application of the standard rates, shall be automatically collected from the financial organization by deduction from the total amount to be remitted.

(a) Subject to revision from time to time on the basis of studies of Government-wide costs incurred, the standard rates shall be:

(1) Six (6) cents for each payroll deduction stated on the record which is to accompany the aggregate remittance (for all administrative and payrolling costs in the agency); plus

(2) Twelve (12) cents for each remittance, as a single charge for the entire record accompanying the remittance, regardless of the number of payroll deductions listed (for all check preparation and mail preparation costs in the disbursing office, including postage).

(b) In accordance with the provisions of section 501 of the Act of August 31, 1951, 65 Stat. 290 (31 U.S.C. 483a), the total service charge collected pursuant to this section shall be covered into the Treasury as miscellaneous receipts unless the agency has statutory authority otherwise to dispose of the credit.

§ 209.9 Financial organization as agent.

A financial organization which receives checks under the procedure set out in §§ 209.3, 209.4 and 209.5 does so in each case as the agent of the employee or beneficiary who has designated the financial organization to receive the check and credit his account. Such a financial organization may revoke its agency by notice to the employee or beneficiary. The death of that employee or beneficiary revokes the authority of the financial organization to credit the amount to the account of that individual. In the case of a check covering a payment to one employee or beneficiary, the proceeds of which cannot be credited to the account because of death or any other reason, the financial organization shall promptly return the check to the issuing disbursing officer or remit its own check in an equal amount, with a statement in either case identifying the reason therefor and the individual. In the case of a check covering payment to more than one employee or beneficiary, a portion of which cannot be credited to an account because of death or for any other reason, the financial organization shall promptly remit to the agency responsible for making payment a check in an amount equal to that portion which could not be properly credited to the account, with a statement identifying the individual and the reason for refund.

§ 209.10 Acquittance to the United States.

(a) A financial organization which receives checks under the procedure set out in §§ 209.3, 209.4 and 209.5 shall comply with the provisions of 31 CFR Part 360—Indorsement and Payment of Checks Drawn on the Treasurer of the United States, in particular 31 CFR 360.8. A financial organization's endorsement shall constitute a guaranty of the continued existence of the beneficiary for whom it receives payment.

(b) Payment by the United States of a check drawn in favor of and properly endorsed by the financial organization designated by an employee or beneficiary to whom payment is to be made shall, if the check or accompanying record properly specifies that employee's or beneficiary's name and/or social security account number, constitute a full acquittance to the United States for the amount of such payment.

§ 209.11 Financial organization not Government depositary.

A financial organization to which a check is drawn under the procedures set out in §§ 209.3, 209.4 and 209.5 does not thereby become a Government depositary and shall not advertise itself as one because of that fact.

§ 209.12 Procedural instructions.

Procedural instructions for the guidance of agencies in the implementation of these regulations and a new form to request the remittance of recuring payments to financial organizations will be issued by the Commissioner of Accounts. The several forms presently in use to request remittance of the full amount of net pay to a financial organization, and the form presently used to request an allotment of pay for credit to a savings account with a financial organization (Standard Form No. 1198), will be continued.

Prior to adoption of the proposed revision, consideration will be given to any data, views, or arguments submitted to the Commissioner of Accounts, U.S. Department of the Treasury, Washington, D.C. 20226, and received not later than September 14, 1973. Pursuant to 31 CFR 1.4(b), 36 FR 13835, comments submitted in response to this notice are available to the public upon request therefor unless confidential status for the submission has been requested and approved.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

AUGUST 10, 1973.

[FR Doc.73-16994 Filed 8-14-73;8:45 am]

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 243]

JACKSON RANCHERIA, AMADOR COUNTY, CALIFORNIA

Distribution of Assets

Notice is hereby given that it is proposed to add a new Part 243 to Subchapter V, Chapter I, of Title 25 of the Code of Federal Regulations. This addition is proposed pursuant to the authority contained in the Act of August 18, 1958 (72 Stat. 619), as amended by the Act of August 11, 1964 (78 Stat. 390).

The purpose of the regulations is to establish criteria and guidelines to determine the membership of the Jackson Rancheria in Amador County, California, for the purpose of voting on whether a distribution of assets shall be made and to provide the method of sale of unoccupied tracts within the Rancheria.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions or objections regarding these proposed regulations to the Bureau of Indian Affairs, Washington, D.C. 20245, on or before September 14, 1973.

It is proposed to add a new Part 243 to Subchapter V, Chapter I, of Title 25 of the Code of Federal Regulations to read as follows:

PART 243—THE JACKSON RANCHERIA, AMADOR COUNTY, CALIFORNIA—DISTRIBUTION OF ASSETS

Sec.
243.1 Purpose and scope.
243.2 Definitions.
243.3 Requests for distribution.
243.4 Plan of distribution.
243.5 General notice.
243.6 Objections to plan.
243.7 Referendum.
243.8 Modification of plan.
243.9 Beneficial interest.
243.10 Sale of unoccupied land.
243.11 Notice of termination.
243.12 Special instructions.

AUTHORITY: Sec. 12, 72 Stat. 619, as amended by 78 Stat. 390.

§ 243.1 Purpose and scope.

The purpose of this Part is to provide policies and procedures governing distribution of the assets of the Jackson Rancheria, Amador County, California.

§ 243.2 Definitions.

As used in this Part 243, terms shall have the meanings set forth in this section.

(a) "Secretary" means the Secretary of the Interior or his authorized representative.

(b) "Commissioner" means the Commissioner of Indian Affairs.

(c) "Director" means the Area Director, Bureau of Indian Affairs, Sacramento Area Office, Sacramento, California, or his authorized representative.

(d) "Adult Indian" means any Indian who is 18 years of age or over.

(e) "Distributee" means any Indian who is entitled to receive any assets of the Jackson Rancheria under a plan of distribution prepared and approved pursuant to section 2 of the Act of August 18, 1958 (72 Stat. 619), as amended by the Act of August 11, 1964 (78 Stat. 390).

(f) "Dependent members" as used in the phrase "dependent members of their immediate families" means all persons of Indian descent not sharing directly in the distribution of the Rancheria assets who: (1) Are related to the distributee by blood or adoption or by marriage, including common law or Indian custom marriage; (2) are domiciled in the household of the distributee; (3) are not members of any other tribe or band of Indians, and (4) receive more than one-half of their support from such distributee or for whose support a distributee is legally liable according to the laws of the State of California.

(g) "Formal assignment" means any privilege of use and/or occupancy of the real property of the Rancheria which is evidenced by an instrument in writing.

(h) "Informal assignment" means any privilege of use and/or occupancy of the real property of the Rancheria which is not based on an instrument in writing.

§ 243.3 Requests for distribution.

(a) *Procedure.* Upon receipt of a written request from an adult Indian or adult Indians of the Jackson Rancheria for the distribution of the assets of the Rancheria, the Director shall prepare a list of Indians in the following categories:

(1) Those who have allotments on the Rancheria;

(2) Those who hold formal assignments on the Rancheria;

(3) Those who reside on the Rancheria pursuant to an informal arrangement;

(4) Those not in the above categories who have resided on the Rancheria for a period of at least three consecutive years immediately preceding the receipt of the request as provided for in the introductory text of this paragraph;

(5) The dependent members of the immediate families of those Indians in (a) paragraphs (1), (2), (3) and (4) of this section.

(b) *Eligibility to participate.* The adults whose names appear on a list prepared in accordance with paragraph (a) of this section shall constitute those persons eligible to vote on the issue of whether a distribution plan is to be developed. A list shall not include the name of any person who is a member of any Indian tribe, band or community other than the Jackson Rancheria.

(c) *Notice.* When the Director is satisfied that the list is complete, he shall publish it once weekly for three successive weeks in a local newspaper. Within 15 days after the date of the last publication of the list, anyone may protest in writing the omission of a name from the list or the inclusion of any name thereon. His written protest together with arguments to sustain it shall be presented to the Director who will render his decision, which shall be final. After all protests have been heard and have been duly disposed of, the Director shall hold an election on whether the distribution of the Rancheria assets shall be made. If a majority of the eligible voters vote for distribution, a distribution plan shall be prepared in accordance with the applicable portions of this Part 243.

§ 243.4 Plan of distribution.

(a) The plan of distribution provided for in section 2 of the Act of August 18, 1958, as amended, shall be in writing and may be prepared by:

(1) Those adult Indians whose names appear on the final list as provided for in § 243.3; or

(2) By the Secretary of the Interior after consultation with such Indians.

(b) The primary source of distributees shall be those persons whose names appear on the list prepared in accordance with § 243.3. Additional names may be added to the list upon the approval of a majority of the adults included on the original list referred to above; *Provided*, That no new name shall be added without the approval of the individual and of the Director. In the event of a per capita distribution of the Rancheria assets, all persons whose names appear on the final list prepared pursuant to § 243.3 and all persons whose names have been added thereto, shall be entitled to participate. Any distribution plan must have the approval of the Secretary before it is submitted to the adult distributees for approval. Such plan shall provide for a description of the assets and shall identify, by name and last known address, those persons to be distributees under the plan and the dependent members of their immediate families; *Provided*, That for the purpose of this section any person who is a member of any other tribe or band of Indians shall not be considered a dependent member of a distributee's immediate family.

§ 243.5 General notice.

When the Secretary has approved a plan for the distribution of the assets of the Jackson Rancheria, notice of the contents of such plan shall be given in the following manner:

(a) A copy of the plan shall be delivered in person or mailed to the last known address of those who participated in the drafting of the plan and the distributees named in the plan;

(b) A copy of the plan shall be delivered in person or mailed to the last known address of all other persons who have indicated by a letter addressed to the Director that they claim an interest in the assets of the Jackson Rancheria;

(c) Posting a copy of the plan in a public place on the Rancheria and in the post office serving the Rancheria; and

(d) Publication of the general contents of the plan once weekly for three successive weeks in one or more local newspapers.

§ 243.6 Objections to plan.

Any Indian who feels that he is unfairly treated in the proposed distribution of the assets of the Jackson Rancheria as set forth in the plan prepared and approved in accordance with the regulations of this Part 243 may, within thirty (30) days after the date of the last publication required under § 243.5(d), submit his views and arguments in writing to the Director. The Director shall act for persons who are minors or non compos mentis if he finds that such persons are unfairly treated in the proposed distribution of the assets. Such views and arguments shall be promptly forwarded by the Director for consideration by the Secretary.

§ 243.7 Referendum.

After consideration by the Secretary of all the views and arguments, a copy of the plan or a revision thereof and a notice of a referendum meeting shall be sent by certified mail, return receipt re-

V 38 - 157 AUG 15 73 XUM

quested, to each distributee. Thereafter the Secertary shall cause a referendum to be held at a general meeting of the distributees at the time and place set forth in the notice of the meeting. Each adult Indian distributee may indicate acceptance or rejection of the plan by depositing his or her ballot in a ballot box at the meeting place or by mailing his or her ballot to the Director, in which case the envelope shall be clearly marked to identify it as containing a ballot cast in the Jackson Rancheria referendum. All ballots mailed to the Director must be received by the Director at least two days before the date set for the referendum meeting. Ballots received thereafter shall not be accepted. At the close of the meeting all ballots shall be counted and if the plan is approved by a majority vote of the adult Indian distributees, it shall be effective on the date approved.

Subject to modification as provided in § 243.8, the plan shall thereupon be put into effect and its provisions carried out as expeditiously as possible, including the distribution of assets as therein provided.

§ 243.8 Modification of plan.

If after approval by the Secretary and the adult distributees it shall be determined by an appropriate resolution approved by a majority of the adult distributees that a plan of distribution is not in conformity with the wishes of the proposed distributees or that it contemplates acts or actions determined to be unfeasible and if modification of the plan of distribution is required to correct the circumstances, such resolution shall be submitted to the Secretary for approval. The approval of the resolution by the Secretary shall be final and the plan of distribution shall be considered modified as of the date of such approval.

§ 243.9 Beneficial interest.

Upon approval of a plan, revision or modification thereof by the Secretary and acceptance of it by a majority of the adult distributees, the distributees listed in the plan, revision or modification shall be the final list of Indians entitled to participate in the distribution of the assets of the Rancheria. The rights or beneficial interests of each person whose name appears on this list may be inherited or bequeathed, but shall not otherwise be subject to assignment, alienation or encumbrance before the transfer by the United States of full legal title to such assets, except with the approval of the Secretary.

§ 243.10 Sale of unoccupied land.

The sale of any Rancheria pursuant to the authority contained in section 5(d) of the Act of August 18, 1958, as amended, shall be conducted as nearly as practicable in the manner prescribed in that portion of Part 121 of this title which applies to the sale of individually owned trust or restricted land.

§ 243.11 Notice of termination.

When the provisions of the plan have been carried out to the satisfaction of the Secretary, he shall publish in the FEDERAL REGISTER a notice declaring that the special relationship of the United States to the Jackson Rancheria and the distributees and the dependent members of their immediate families is terminated. The notice shall list the names of the distributees and the dependent members of their immediate families who are no longer entitled to any services performed by the United States for Indians because of their status as Indians, the fact that all restrictions and tax exemptions applicable to trust or restricted land or interests therein owned by them are terminated, the fact that all statutes of the United States which affect Indians because of their status as Indians shall be inapplicable to them and that state laws shall apply to them in the same manner as they apply to other citizens.

§ 243.12 Special instructions.

To facilitate the work of the Director, the Commissioner may issue special instructions not inconsistent with the purpose of the regulations in this Part 243 and within any authority delegated to him.

WILLIAM L. ROGERS,
Deputy Assistant Secretary of the Interior.

August 8, 1973.

Notice of Proposed Rulemaking

PIEDMONT NATIONAL WILDLIFE REFUGE, GEORGIA

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the Migratory Bird Conservation Act of February 18, 1929, as amended (45 Stat. 1222; 16 U.S.C. 715), and the National Wildlife Refuge System Administration Act of 1966 (80 Stat. 927 as amended; 16 U.S.C. 668dd), as delegated to the Director, Bureau of Sport Fisheries and Wildlife by Chapter 2, Part 242 of the Departmental Manual, it is proposed to amend 50 CFR 32 by the addition of Piedmont National Wildlife Refuge, Georgia, to the list of areas open to hunting of migratory birds.

It has been determined that regulated hunting of migratory birds (other than waterfowl) may be permitted as designated on the above refuge without detriment to the objectives for which the area was established.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions or objections, with respect to the proposed amendment, to the Director, Bureau of Sport Fisheries and Wildlife, Washington, D.C. 20240, by September 15, 1973.

§ 32.11 [Amended]

Accordingly, § 32.11, List of open areas; migratory gamebirds, is amended by the following addition:

GEORGIA

PIEDMONT NATIONAL WILDLIFE REFUGE

P. V. SCHMIDT,
Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 8, 1973.

Office of the Secretary

[43 CFR, Part 6]

PATENT LICENSING REGULATIONS

Notice of Proposed Revision

Notice is hereby given that the Department of the Interior proposes to revise 43 CFR, Part 6, Subpart B, to implement Title 41 CFR, Chapter 101, Subchapter A, Part 101-4 (38 FR 3328, February 5, 1973) relating to the nonexclusive and limited exclusive licensing of Government-owned inventions. The licensing regulations are being adopted pursuant to the President's Revised Memorandum and Statement of Government Patent Policy dated August 23, 1971. The regulations authorize the exclusive licensing of government-owned patents in cases where exclusivity is deemed essential to their exploitation. Prior experience and studies have shown that licensing technology to private firms is an efficient method of marketing technology. In certain areas, marketing is difficult due to the need for private industry to invest its own risk capital to bring certain technology into the stream of commerce. In such cases, exclusive licenses may represent the necessary incentive for the investment of such private risk capital.

It is the policy of the Department of the Interior wherever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, objections with respect to the proposed regulations to the Solicitor, Attention: Associate Solicitor, Procurement and Patents, Department of the Interior, Washington, D.C. 20240. Comments received on or before Oct. 15, 1973 will be considered before final action is taken.

All written submissions made pursuant to this notice will be available for public inspection in the Office noted above during regular business hours.

It is proposed that the table of sections in 43 CFR, Part 6, Subpart B, be revised to read as follows:

Subpart B—Licenses

Sec.
6.51 Purpose

6.65 Litigation

AUTHORITY: 5 U.S.C. 301; sec. 2, Reorganization Plan No. 3 of 1950, 15 FR 3174; Federal Property Management Regulations, Title 41, Chapter 101, Subchapter A, Subpart 101-4.1, 38 FR 3328.

It is proposed that the text of 43 CFR, Part 6, Subpart B, be revised to read as follows:

§ 6.51 Purpose.

This subpart prescribes the terms, conditions, and procedures for licensing and dedication of inventions, the subject of U.S. patents and patent applications for which the Department of the Interior holds title on behalf of the United States of America. The procedures and regulations prescribed in the Federal Property Management Regulations, Title 41, Chapter 101, Subchapter A, Subpart 101-4.1 (38 FR 3328, February 5, 1973) are included within this subpart.

§ 6.52 Definitions.

(a) Government invention—means an invention covered by a domestic patent or patent application for which the Department of the Interior holds title on behalf of the United States.

(b) To the point of practical application—means to manufacture in the case of a composition or product, to practice in the case of a process, or to operate in the case of a machine under such conditions as to establish that the invention is being worked and that its benefits are reasonably accessible to the public.

(c) The Department—means the Department of the Interior.

(d) The Secretary—means the Secretary of the Department of the Interior.

(e) The Solicitor—means the Solicitor of the Department of the Interior, or his authorized representative.

(f) Applicant—means any person, individual, corporation, partnership, firm, trust, estate, or other entity.

§ 6.53 Policy.

(a) A major premise of the Presidential Memorandum and Statement of Government Patent Policy, August 23, 1971 (36 FR 16887, August 26, 1971), is that Government-owned inventions normally will best serve the public interest when they are developed to the point of practical application and made available to the public in the shortest possible time. The provisions of this subpart are guided by the (1) objectives set forth in the Presidential Memorandum and Statement, and in the Federal Property Management Regulations, Title 41, Chapter 101, Subchapter A, Subpart 101-4.1, and (2) express requirements of specific statutes which cover the utilization or disposition of Government inventions. Among the most important goals hereof are to provide incentives to foster inventiveness and encourage reporting of inventions made under Department programs, and to encourage the expeditious development and adoption of this new technology for commercial purposes.

(b) The granting of express nonexclusive or limited exclusive licenses for the practice of these inventions may assist in the accomplishment of the national objective to achieve a dynamic and efficient economy. However, it is recognized that there may be inventions as to which the Department deems dedication preferable to accomplish these objectives. The granting of nonexclusive licenses is preferable since the invention is thereby made available to all interested parties and serves to promote competition in industry, if the invention is in fact promoted commercially. However, to obtain commercial utilization of the invention, it may be necessary to grant a limited exclusive license for a limited period of time as an incentive for the investment of risk capital to achieve practical application of an invention.

(c) All Government inventions are available for licensing. Although the Department encourages the nonexclusive licensing of its inventions to promote competition and achieve their widest possible utilization, the commerical development of certain inventions calls for a substantial capital investment which private manufacturers may be unwilling to risk under a nonexclusive license. It is the policy of the Department to grant limited exclusive licenses when such exclusivity appears to be the only means of providing the necessary incentive to the licensee to achieve early practical application of the invention.

(d) Any person may apply for a license in a Government invention. Licenses will be granted only to applicants who have shown the capability and intent to make practical application of the invention.

(e) The terms and conditions of a nonexclusive license will be standardized to the extent practicable. Additions and modifications to the standardized forms may be made as necessary to accommodate provisions agreed upon pursuant to negotiations with the prospective licensee.

(f) Whenever the grant of a limited exclusive license is deemed appropriate, it shall be negotiated on terms and conditions most favorable to the public interest. A limited exclusive license shall give the licensee the right to practice the invention for a term of years less than the remaining life of the patent, usually for a period not to exceed five years. The concept is to allow a period for investment of funds and development of the invention for marketing coupled with a period for exploitation of the developed invention to recover the investment with profit. The limited exclusive licensee must agree to invest a specified amount of money in development of the invention and to continue to use best efforts to practice the invention for the term of the license. A limited exclusive license shall be revoked or terminated if the licensee no longer desires to practice the invention or fails to adhere to one or more of the substantive terms of the license.

(g) In selecting a limited exclusive licensee, consideration shall be given to the capabilities and plans of the prospective licensee to further the technical and market development of the invention, the projected impact on competition, and the benefit to the United States. Where there is more than one application for a limited exclusive license, that applicant shall be selected who is determined to be most capable of satisfying the criteria and achieving the goals set forth in this subpart. Other factors being equal, preference shall be given to assisting small business and minority business enterprises as well as economically depressed, low income and surplus labor areas.

(h) Subject to (1) any existing or future treaty or agreement between the United States and any foreign government or intergovernmental organization, or (2) licenses under, or other rights to inventions, made or conceived in the course of or under Government contracts for research, development, testing, or experimentation where such licenses or other rights to such invention are granted to or provided for in the contract and acquired by the party contracting with the Department, no license shall be granted or implied in a Government invention except as provided for in this subpart. Licenses and all of the terms thereof shall be by express written instruments.

(i) No grant of a license under this subpart shall be construed to confer upon any licensee any immunity from the antitrust laws or from a charge of patent misuse, and the acquisition and use of rights pursuant to this subpart shall not be immunized from the operation of state or Federal law by reason of the source of the grant.

(j) Subject to the terms of any outstanding licenses, nothing in this subpart shall preclude the Department from granting additional nonexclusive or limited exclusive licenses for Government inventions when the Department determines that to do so would provide for an equitable exchange of patent rights. The following exemplify circumstances wherein such licenses may be granted:

(1) In consideration of the settlement of an interference;

(2) In consideration of a release of a claim of infringement; or

(3) In exchange for or as part of the consideration for a license under adversely held patents.

(k) The Department reserves the right to transfer and receive from other Government agencies custody of Government-owned inventions for purposes of administration, including the granting of licenses pursuant to this subpart.

§ 6.54 Publication Requirements.

(a) The Department shall cause to be published in the FEDERAL REGISTER, the Official Gazette of the U.S. Patent Office, and at least one other publication that the Department deems would best serve the public interest, a list of the Government inventions in its custody available for licensing under the conditions specified in this subpart. The list shall be re-

V 38-157 AUG 15 73 XUM

vised periodically to include directly, or by reference to a previously published list, all inventions currently available for licensing. Other publications of inventions available for licensing may include abstracts, when appropriate, as well as information on the design, construction, use, and potential market for the inventions.

(b) A limited exclusive license in a Government invention shall be available only after the invention has been published for a period of at least six months.

(c) The Office of the Solicitor, Department of the Interior, shall be responsible for complying with all publication and notice requirements under this subpart.

§ 6.55 Applications and Correspondence.

All applications and related correspondence for the granting of express nonexclusive or limited exclusive licenses shall be made in writing and shall be addressed to the Solicitor, U.S. Department of the Interior, Washington, D.C., 20240.

§ 6.56 Contents of a Nonexclusive License Application.

An application for a nonexclusive license under a Government invention shall include:

(a) Identification of invention for which license is desired, including the patent application serial number or patent number, title, and date, if known, and any other pertinent identification.

(b) Name and address of the applicant, and whether the applicant is a U.S. citizen or a U.S. corporation.

(c) Name and address of representative of applicant to whom correspondence should be sent.

(d) Nature and type of applicant's business.

(e) Source of information concerning the availability of a license on the invention.

(f) Purpose for which license is desired, including a statement of the fields of use for which applicant intends to practice the invention, and a complete description of applicant's plan to achieve that purpose.

(g) A statement as to the geographic areas in which the applicant intends to practice the invention.

§ 6.57 Contents of a Limited Exclusive License Application.

In addition to the information indicated in § 6.56, an application for a limited exclusive license shall include:

(a) Applicant's status, if any, in any one or more of the following categories: (1) Small business firm, (2) minority business enterprise, (3) location in a labor surplus area, (4) location in a low income area, and (5) location in an economically depressed area;

(b) A statement of applicant's capability to undertake the development and marketing required to achieve the practical application of the invention;

(c) A statement describing the time, expenditure, and other acts which the applicant considers necessary to achieve practical application of the invention and the applicant's offer to invest that time and money and to perform such acts if the license is granted;

(d) A statement that contains the applicant's best knowledge of the extent to which the Government invention is being practiced by private industry and the Government; and

(e) Any other facts which the applicant believes are evidence that it is in the public interest for the Department to grant a limited exclusive license rather than a nonexclusive license and that such a limited exclusive license should be granted to the applicant.

§ 6.58 Processing of Applications.

(a) Applications for licenses shall be evaluated on bases consistent with the policy set forth in § 6.53 of this subpart.

(b) Upon determination that a nonexclusive license may be granted to the applicant, the appropriate terms and conditions thereof shall be negotiated. The grant of a license shall be dependent upon agreement by the applicant to terms and conditions acceptable to the Department.

(c) After receipt of application(s) for a limited exclusive license, a determination shall be made as to whether the invention may properly be the subject of a limited exclusive license. If it is determined that the invention may properly be the subject of such a license, then a notice shall be published in the FEDERAL REGISTER advising of receipt of application(s) for a limited exclusive license on the particular invention, and that other interested applicants for such a license, may, in accordance with § 6.57 of this Subpart, submit applications within twenty (20) days from date of the notice. Applications mailed after twenty (20) days of the date of notice in the FEDERAL REGISTER will not be considered. Thereafter, all applications will be considered and a prospective limited exclusive licensee selected. A notice thereof shall be published in the FEDERAL REGISTER, and shall include:

(1) Identification of the invention;

(2) Identification of the proposed licensee;

(3) Duration and scope of the contemplated license; and

(4) A statement to the effect that the license will be granted unless:

(i) An application for a nonexclusive license, submitted by a responsible applicant pursuant to § 6.56, is received by the Department within 60 days from the publication of the notice in the FEDERAL REGISTER, and the Department determines that the applicant has established that he has already achieved or is likely to bring the invention to the point of practical application within a reasonable period under a nonexclusive license; or

(ii) a third party presents evidence satisfactory to the Department that it would not be in the public interest to grant (a) a limited exclusive license for the invention, or (b) a limited exclusive license to the particular prospective licensee, or (c) a limited exclusive license upon the proposed duration and scope.

(d) During the 60-day period of notice of a prospective limited exclusive licensee, an application for a nonexclusive license will not be entertained in opposition to the prospective licensee from anyone who has previously applied for a limited exclusive license and been denied the same.

(e) Applications for a limited exclusive license received after commencement of the 60-day period of notice of a prospective licensee shall not be considered.

(f) Upon expiration of the 60-day period of notice of a prospective licensee, all written responses to the notice shall be considered and a determination made whether to (1) grant the requested limited exclusive license, (2) grant a limited exclusive license of a duration or scope different from those in the notification, (3) grant a nonexclusive license, or (4) decline to grant a nonexclusive or limited exclusive license at that time. If it is determined to award a limited exclusive license, such license will be granted only upon the final negotiation of terms and conditions acceptable to the Department.

(g) The determination for granting a limited exclusive license shall be based in part upon a finding that no applicant for a nonexclusive license has brought or will bring the invention within a reasonable period, to the point of practical application as specified in the limited exclusive license, and that to grant the limited exclusive license would be in the public interest.

§ 6.59 Terms of Nonexclusive License.

(a) A nonexclusive license shall be granted subject to the provisions of any other licenses.

(b) The duration of the license shall be for a period as specified in the license agreement, normally a period of two years, provided that the licensee complies with all the terms of the license.

(c) The license shall require the licensee to bring the invention to the point of practical application within a period specified in the license, or such extended period as may be agreed upon, and to continue to make the benefits of the invention reasonably accessible to the public.

(d) The license may be granted for all, or less than all fields of use of the invention, and throughout the United States of America, its Territories and possessions, the Commonwealth of Puerto Rico, and the District of Columbia, or in any lesser geographic portion thereof.

(e) After termination of the initial period specified in the license agreement, the Department may at its option extend the license, subject, however, to a restriction thereof to the fields of use and/or geographic areas in which the licensee has brought the invention to the point of practical application and continues to make the benefits of the invention reasonably accessible to the public.

(f) The license may extend to wholly-owned subsidiaries of the licensee but shall be nonassignable and nontransferable without approval of the Department, except to the successor for that part of the licensee's business to which the invention pertains.

(g) The license shall require the licensee to submit periodic reports at least annually on the anniversary date of the grant of the license, unless otherwise specified, on the licensee's efforts to achieve practical application of the invention, and the extent to which benefits of the invention are continued to be made accessible to the public. The reports shall contain information within the licensee's knowledge, or which the licensee may acquire under normal business practices, pertaining to the commercial use being made of the invention and other information which the Department may determine is pertinent to the Department's licensing activities and is specified in the license.

(h) Normally, royalties shall not be charged under nonexclusive licenses granted to U.S. citizens on Government inventions; however, the license may be subject to such other terms and conditions as the Department may deem in the public interest.

(i) Subject to the terms and conditions specified in the license and the rights reserved to the Government in this section, the licensee shall be granted the nonexclusive right to make, use, and/or sell the invention.

§ 6.60 Terms of Limited Exclusive Licenses.

(a) The license may be granted for all, or less than all fields of use of the Government invention, and throughout the United States of America, its Territories and possessions, the Commonwealth of Puerto Rico, and the District of Columbia, or in any lesser geographic portion thereof.

(b) Subject to the terms and conditions of the license and the rights reserved to the Government in this section, the licensee shall be granted the exclusive right to make and/or use and/or sell the invention.

(c) The duration of the license shall be the subject of negotiation but shall be for a period less than the terminal portion of the patent, the period remaining being sufficient to make the invention reasonably available for the grant of nonexclusive licenses; and such period of exclusivity shall not exceed five years unless it is determined on the basis of a written submission supported by a factual showing that a longer period is necessary to permit the licensee to enter the market and recoup his reasonable costs in so doing.

(d) The license shall require the licensee to bring the invention to the point of practical application within a period specified in the license, or within such longer period as determined by the Department, and to continue to make the benefits of the invention reasonably accessible to the public.

(e) The license shall require the licensee to expend a specified minimum amount of money and/or to take other specified actions within a stated period of time to bring the invention to the point of practical application.

(f) The license shall be subject to the irrevocable, royalty-free right of the Government of the United States to practice, and have practiced, the invention by or on behalf of the Government of the United States and any foreign government or intergovernmental organizations pursuant to any existing or future treaty or agreement with the United States.

(g) The license shall reserve to the Department the right to require the licensee to grant sublicenses to responsible applicants on terms that are reasonable in the circumstances (i) to the extent that the invention is required for public use by Government regulations, (ii) as may be necessary to fulfill health or safety needs, or (iii) for other public purposes. In the event reasonable royalties cannot be agreed upon, the Department shall unilaterally determine such royalties subject to appeal under § 6.64.

(h) The license may extend to wholly-owned subsidiaries of the licensee but shall be nonassignable and nontransferable without approval of the Department, except to successors of that part of the licensee's business to which the invention pertains.

(i) A licensee may grant sublicenses under the license subject to the approval of the Department. Each sublicense granted by a licensee shall make reference to the limited exclusive license and be subject to the terms and conditions of the limited exclusive license. A copy of any such sublicense shall be furnished to the Department. The sublicensee shall have the same rights, duties, and obligations under this subpart as a limited exclusive licensee.

(j) The license shall require the licensee to submit periodic reports at least annually on the anniversary date of the grant of the license, unless otherwise specified, on the licensee's efforts to achieve practical application of the invention, and the extent to which benefits of the invention are continued to be made reasonably accessible to the public. The reports shall contain information within the licensee's knowledge, or which the licensee may acquire under normal business practices, pertaining to the commercial use being made of the invention and other information which the Department may determine is pertinent to its licensing activities and is specified in the license. The licensee shall fully and promptly reply to any specific requests for such information by the Department.

(k) A limited exclusive license of a Government invention may require the payment of royalties, and be subject to other terms and conditions, when the licensing situation and the policy in § 6.53 considered together, indicate that it is in the public interest to do so.

§ 6.61 Modification or Revocation.

(a) Any nonexclusive or limited exclusive license granted pursuant to this subpart may be modified in any manner or revoked by the Department if the licensee at any time defaults in making any payments or reports required by the license, or commits any breach of any covenant or agreement therein contained.

(b) A license may also be revoked by the Department if the licensee wilfully omits a material fact in the license application or any report required in the license agreement.

(c) Before modifying or revoking any license granted pursuant to this subpart for any cause, the Department shall by registered mail forward to the licensee and any sublicensee of record, at the last address filed with the Department, a written determination of breach of an identified term of the license, and notice of intention to modify or revoke the license. The licensee and any sublicensee shall be allowed thirty (30) days after receipt of such notice to remedy such breach of any covenant or agreement contained in the license or to otherwise show cause why the license should not be modified or revoked.

§ 6.62 Notice of Grant, Modification, or Revocation of Limited Exclusive License.

(a) If a limited exclusive license has been granted, modified, or revoked pursuant to this subpart, notice thereof shall be published in the FEDERAL REGISTER. Such notice shall include:

(1) Identification of the invention;

(2) Identification of the licensee;

(3) Duration and scope of the limited exclusive license;

(4) That such limited exclusive license is being granted or revoked, or the nature of the modification thereof; and

(5) The effective date of the grant, modification, or revocation.

§ 6.63 Solicitor.

The Solicitor shall make all determinations, and shall grant, deny, modify, or revoke licenses in accordance with sections §§ 6.58, 6.59, 6.60 and 6.61.

§ 6.64 Appeals.

(a) An applicant for a license, a licensee, a sublicensee, or other party who has participated under this subpart shall have the right to appeal any decision of the Department concerning the grant, denial, interpretation, modification, or revocation of a license or sublicense under this subpart by the filing of a notice of appeal with the Director, Office of Hearings and Appeals, Department of the Interior, 4015 Wilson Boulevard, Arlington, Va., 22203, within thirty (30) days from the date of receipt of a notice by the Department of the decision or, if there has been no such notice to the person desiring to appeal, then within thirty (30) days from publication in the FEDERAL REGISTER of the facts which identify such a decision. An appeal by a sublicensee must be brought by or in the name and with the consent of the licensee.

(b) Upon notice of appeal the Director, Office of Hearings and Appeals, will designate an ad hoc Invention Licensing Appeals Board to decide such an appeal. The Board will consist of three members having an equal vote. Parties

V 38 - 157 AUG 15 73 XUM

will be advised of the designation of the Board, its composition and chairman.

(c) Appeals taken under this section will be in accordance with procedures contained in this section and 43 CFR, Part 4, Subpart G, provided that where appropriate the Chairman may designate special procedural rules where the circumstances so warrant.

§ 6.65 Litigation.

A licensee is granted the right to sue at his own expense any party who infringes the rights set forth in the license and covered by the licensed patent. The licensee may join the Government upon consent of the Attorney General as a party complainant in such suit but without expense to the Government, and the licensee shall pay all costs and any final judgment or decree that may be rendered against the Government in such suit. The Government shall have an absolute right to intervene in any suit at its own expense. The licensee shall be obligated to furnish promptly to the Government, upon request, copies of all pleadings and other papers filed in any such suit and of evidence adduced in proceedings relating to the licensed patent including, but not limited to, negotiations or settlement and agreements settling claims by a licensee based on the licensed patent, and all other books, documents, papers, and records pertaining to such suit. If as a result of any such litigation the patent shall be declared unvalid, the license and all sublicenses granted thereunder shall be null and void.

JAMES T. CLARKE,
Assistant Secretary of the Interior.

AUGUST 9, 1973.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 991]

HOPS OF DOMESTIC PRODUCTION

Proposed Expenses of the Hop Administrative Committee and Rate of Assessment for the 1973–74 Marketing Year

Notice is given of proposed expenses of the Hop Administrative Committee, and the rate of assessment, for the 1973–74 marketing year. The proposal is pursuant to §§ 991.55 and 991.56 of Order No. 991, as amended (7 CFR Part 991). The amended marketing order regulates the handling of hops of domestic production, and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The proposal is based on the unanimous recommendation of the Hop Administrative Committee. Proposed expenses of the Committee for the 1973–74 marketing year, beginning August 1, 1973, total $175,245. The proposed rate of assessment is 0.3 cent per pound of salable hops handled by each handler during the 1973–74 marketing year.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposal should file the same, in quadruplicate, with the Hearing Clerk, U. S. Department of Agriculture, Room 112, Administration Building, Washington, D. C. 20205, to be received not later than August 27, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is as follows:

§ 991.308 Expenses of the Hop Administrative Committee and rate of assessment for the 1973–74 marketing year.

(a) *Expenses.* Expenses in the amount of $175,245 are reasonable and likely to be incurred by the Hop Administrative Committee during the marketing year beginning August 1, 1973, for its maintenance and functioning and for such purposes as the Secretary may, pursuant to the provisions of this part, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for said marketing year, payable by each handler in accordance with § 991.56, is fixed at 0.3 cent per pound of salable hops.

Dated: August 9, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division.

Animal and Plant Health Inspection Service

[9 CFR Part 91]

EXPORT RESTRICTIONS ON CATTLE AND SWINE

Notice of Proposed Rulemaking

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that, pursuant to provisions of the Act of August 30, 1890, the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, and the Act of March 4, 1907, as amended (21 U.S.C. 105, 112, 113, 120, 121, and 612–614), the Animal and Plant Health Inspection Service is considering whether or not changes are needed in the regulations contained in 9 CFR Part 91 to protect United States export markets for swine and cattle.

Statement of considerations. The Department has received reports that two shipments of swine of United States origin may have caused extensive outbreaks of transmissible gastroenteritis in swine of two South American countries and that cattle received from the United States were infested with cattle grubs on arrival in three other countries.

The Act of March 4, 1907 requires the Secretary to cause a careful inspection to be made of all cattle, sheep, swine, goats, horses, mules and other equines intended and offered for export to foreign countries to insure that such livestock are free from disease. Scientific knowledge, and laboratory testing procedures are available which will reasonably insure that swine are not infected with transmissible gastroenteritis and grubicides are available for treatment which when applied will destroy at least 95 percent of the cattle grubs in any cattle.

The additional health requirements under consideration for export swine would include a negative serum neutralization test, in a dilution of 1:16, within 30 days preceding the date of exportation and would limit the source of swine for export to herds where transmissible gastroenteritis has not been known to exist for at least 12 months preceding the date of exportation and no additions have been made to such herds during the 30 days immediately preceding exportation.

The additional health requirements under consideration for all cattle intended for export, except cattle for slaughter purposes, would require that such cattle be treated for hypodermosis (cattle grubs) with a duly registered pesticide in accordance with label instructions at least once not less than 10 days nor more than 30 days immediately preceding the date of export.

The Department requests data, views, arguments, and any other information from the public relating to the need, if any, of revising the existing regulations and adding additional health requirements for swine and cattle as specified. Also, the Department wishes to determine whether or not additional health requirements to insure that swine for export are free of transmissible gastroenteritis will limit the source of potential exports and whether or not requiring treatment for hypodermosis (cattle grubs) will substantially increase costs for cattle exported. Such data, views, or arguments, would be most useful if they contain published scientific articles or other evidence which will support the views of the writer. The publishing of this notice should not be construed to mean that the present regulations in 9 CFR Part 91 are, in any way, negated. The present regulations continue in effect unless at some subsequent time they are amended.

Any person who wishes to submit written data, views, arguments, or information concerning this notice may do so by filing them with the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, Room 821–A, Federal Center Building, Hyattsville, Maryland 20782, before October 15, 1973.

All written submissions made pursuant to this notice will be made available for public inspection at Room 821–A, Federal Center Building, Hyattsville, Maryland, during regular hours of business (8 a.m. to 4:30 p.m. Monday to Friday, except holidays) in a manner convenient to the public business (7 CFR 1.27(b)).

Comments submitted should bear a reference to the date and page number of this issue in the FEDERAL REGISTER.

Done at Washington, D.C., this 10th day of August, 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-16951 Filed 8-14-73;8:45 am]

[9 CFR Parts 304, 305, 317]

TENANCIES AND SUBSIDIARIES IN OFFICIAL ESTABLISHMENTS

Notice of Proposed Rulemaking

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that the Animal and Plant Health Inspection Service is considering amending Parts 304, 305, and 317 of the Federal meat inspection regulations (9 CFR 304.1, 305.1, and 317.2), pursuant to the authority contained in the Federal Meat Inspection Act, as amended (34 Stat. 1260, as amended; 21 U.S.C. 601 et seq.), to eliminate the provisions allowing persons to operate as tenants or subsidiaries in establishments without a separate grant of Federal inspection.

Statement of Considerations: The Federal meat inspection regulations permit persons operating as tenants or subsidiaries in official establishments to prepare products at such establishments without an independent grant of Federal inspection, by registering with the Department. Once registered, tenants and subsidiaries are then entitled to have their products marked with the official devices and to use certificates and labels bearing the marks of Federal inspection of the establishment in which they operate, and to whom the official grant of inspection was made. Such an arrangement has caused several problems in determining responsibility for compliance with provisions of the Act and regulations, such as sanitary maintenance of facilities. It also appears to make it easier for persons to conduct operations subject to the Act who might not be eligible for a grant of inspection under the Act.

This proposal would more definitely identify and fix responsibility for compliance with the Act and regulations by each entity conducting operations subject to the Act, because each such entity, whether tenant, subsidiary or landlord, would have to make formal application and meet the requirements of the Act and regulations for a grant of inspection.

It is proposed to amend the Federal meat inspection regulations in 9 CFR Parts 304, 305, and 317 as set forth below.

PART 304—APPLICATIONS FOR INSPECTION; GRANT OR REFUSAL OF INSPECTION

1. The Table of Contents with respect to § 304.1, the heading for § 304.1, and the text for § 304.1 would be amended to read as follows:

Sec.
304. Application for inspection.

• • • • •

§ 304.1 Application for inspection.

(a) Before the inspection is granted, each person conducting operations at an establishment subject to the Act, whether tenant, subsidiary, or landlord, shall make application therefor to the Administrator as provided for in this part.

(b) Every application under this section shall be made on an official form furnished by the Program, available from any Regional Director identified in § 301.2(iii) of this chapter, and shall be completed to include all information requested. Trade names of the applicant for labeling purposes, shall be inserted in the appropriate blank in the application. Each applicant for inspection will be held responsible for compliance with the Act and the regulations in this subchapter if inspection is granted. Preparation of product and other operations at the establishment for which inspection is granted may be conducted only by the applicant named in the application.

(c) In cases of change of ownership or location, a new application shall be made.

• • • • •

PART 305—OFFICIAL NUMBERS; INAUGURATION OF INSPECTION; WITHDRAWAL OF INSPECTION; REPORTING OF VIOLATION

2. The Table of Contents and heading for § 305.1 would be amended, and the text of paragraph (c) of that section would be amended to read as follows:

Sec.
305.1 Official numbers.

§ 305.1 Official numbers.

• • • • •

(c) When inspection has been granted to any applicant at an establishment, it shall not be granted to any other person at the same establishment. Tenants or subsidiaries operating as separate entities in the same building or structure may operate separate establishments therein under their own grant of inspection.

• • • • •

PART 317—LABELING; MARKING DEVICES, AND CONTAINERS

3. Section 317.2(g)(1) would be amended to read as follows:

§ 317.2 Labels: definition; required features.

• • • • •

(g)(1) The name or trade name of the person that prepared the product may appear as the name of the manufacturer or packer without qualification on the label. Otherwise the name of the distributor of the product shall be shown with a phrase such as "Prepared for • • •" or "Distributed by • • •." The place of business of the manufacturer, packer, or distributor shall be shown on the label by city, State, and postal ZIP code when such business is listed in a telephone or city directory, and if not listed in such directory, then the place of business shall be shown by street address, city, State, and postal ZIP code.

• • • • •

Any person wishing to submit written data, views, or arguments concerning the proposed amendments may do so by filing them in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by October 19, 1973.

Any person desiring opportunity for oral presentation of views should address such requests to the Compliance Staff, Field Operations, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, so that arrangements may be made for such views to be presented prior to the date specified in the preceding paragraph. A record will be made of all views orally presented.

All written submissions and records of oral views made pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk during regular hours of business, unless the person makes the submission to the Staff identified in the preceding paragraph and requests that it be held confidential. A determination will be made whether a proper showing in support of the request has been made on grounds that its disclosure could adversely affect such person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C. on August 9, 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 121]

FOOD STARCH-MODIFIED

Proposal To Specify Sequence in Etherification Treatment

Published elsewhere in this issue of the FEDERAL REGISTER an order amends § 121.1031 (21 CFR 121.1031) of the food additive regulations by providing for the safe use of a food starch modified by etherification. The order prescribes the sequence of etherifying treatments as 0.1 percent epichlorohydrin followed by 25 percent propylene oxide. Section 121.1031(e) currently prescribes the use of a food starch modified by etherification with the combined treatment of these same two substances at levels not to exceed 0.1 percent epichlorohydrin and 10 percent propylene oxide.

In evaluating data supporting the order cited above, it has come to the attention of the Commissioner of Food and Drugs

V 38-157 AUG 15 73 XUM

that the etherification of the food starch with these two chemicals, already provided for in the regulation, was by a sequential rather than a combination treatment. Thus, in order to identify the modified food starch that has been shown to be safe by feeding studies, the Commissioner concludes that the listing for the already regulated additive should be amended to specify the sequence of etherification treatment as, "propylene oxide, not to exceed 10 percent, followed by epichlorohydrin, not to exceed 0.1 percent."

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(d), 72 Stat. 1787; 21 U.S.C. 348(d)) and under authority delegated to the Commissioner (21 CFR 2.120), it is proposed that the listing for "Epichlorohydrin, not to exceed 0.1 percent, combined with • • •" in paragraph (e) of § 121.1031 be revised to read as follows:

§ 121.1031 **Food starch-modified.**

• • • • • •

(e) • • •

Limitation
• • •
Propylene oxide, not to exceed 10 percent, followed by epichlorohydrin, not to exceed 0.1 percent.
• • •

Interested persons may, on or before October 15, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: August 7, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Social and Rehabilitation Service

[45 CFR Part 205]

PUBLIC ASSISTANCE EXCEPTION FROM TIMELY NOTICE—PROBABLE FRAUD

Notice of Proposed Rule Making

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare. The proposed regulations establish an exception from timely notice where probable fraud is the reason for discontinuation, suspension, termination, or reduction of assistance, under Titles I, IV-A, X, XIV, XVI and XIX of the Social Security Act.

The exception was published as part of the proposed regulations published April 20, 1973 (36 FR 3034) but was withdrawn from the final regulations because of concerns expressed in the comments. As now proposed, the exception is limited to situations where the agency has verified facts supporting their allegation of fraud and where the agency has provision for an immediate hearing providing the recipient the opportunity to show the allegations are incorrect.

Prior to the adoption of the proposed regulations, consideration will be given to any comments, suggestions, or objections thereto which are submitted in writing to the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, D.C. 20201 on or before September 14, 1973. Comments received will be available for public inspection in Room 5121 of the Department's offices at 301 C Street, SW., Washington, D.C. on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (area code 202-963-7361).

AUTHORITY: Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302)

Dated: July 27, 1973.

JAMES S. DWIGHT, JR.,
Administrator, Social and Rehabilitation Service.

Approved: August 10, 1973.

CASPAR W. WEINBERGER,
Secretary.

Section 205.10(a)(4)(ii) is revised to add subdivision (J) as set forth below:

§ 205.10 **Hearings.**

(a) *State plan requirements.* • • •

• • • • • •

(4) In cases of intended action to discontinue, terminate, suspend or reduce assistance:

• • • • • •

(ii) The agency may dispense with timely notice but shall send adequate notice not later than the date of action when:

• • • • • •

(J) The agency has evidence clearly indicating that assistance should be discontinued, suspended, terminated, or reduced because of the criminal fraud of the recipient; and

(*1*) where possible, the facts which such evidence indicates have been verified through collateral sources; and

(2) the agency did not have such evidence in sufficient time to send timely notice; and

(3) an immediate hearing is offered and made available to the recipient.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Airworthiness Docket No. 72-SW-26]

MOONEY MODEL M20 SERIES

Proposed Airworthiness Directive

Amendment 39-1455 (37 FR 11462), A.D. 72-12-2 as amended by Amendment 39-1482 (37 FR 13336) requires lubrication of the flight control system and landing gear system rod end bearings and the addition of specific grease fittings on Mooney Model M20 series airplanes. After issuing Amendment 39-1482 the agency determined that landing gear failures are still occurring due to misrigging necessitating the issuance of additional instructions. Therefore, the agency is considering superseding Amendment 39-1482 with a new A.D. that requires retraction tests and inspection of the landing gear rigging in addition to the requirements of A.D. 72-12-2.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in triplicate to the Federal Aviation Administration, Regional Counsel, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before September 14, 1973 will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in light of the comments received. All comments will be available, both before and after the closing date for comments, at the office of the Regional Counsel, Southwest Region, Fort Worth, Texas, for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

MOONEY: Applies to Mooney Models M20, M20A, M20B, M20C, M20D, M20E, M20F and M20G airplanes.

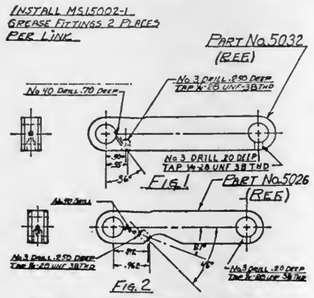
Compliance required as indicated.

To prevent corrosion and/or misrigging in the flight control and landing gear systems which may result in binding or seizure of the joints and loss of flight control or collapse of the landing gear, accomplish the following:

(a) Within 25 hours time in service after July 10, 1972 unless already accomplished within the last 25 hours time in service and thereafter at intervals not to exceed 12 calendar months from the last inspection or 100 hours time in service from the last inspection, whichever comes first, lubricate all flight control systems and landing gear system rod end bearings with a silicone spray lubricant or with an FAA approved equivalent lubricant.

(b) Within the next 50 hours time in service after July 10, 1972, unless already accomplished, install retracting links, P/N 530003-13 (1 ea.) and 510011-13 (2 ea.) on all M20B, C, E, F, and G aircraft and on M20D models converted to a retractable gear or equivalent parts approved by the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Southwest Region, FAA, Fort Worth, Texas. The new links incorporate grease fittings and improved overcenter travel resulting in lower preload rigging. New links are not required if the existing installations use -13 links which have

grease fittings. (Reference Mooney Service Bulletin M20-155 dated 6-15-67, or later FAA approved revision.)



NOTE: For M20 and M20A models the present retract links are to be modified by the addition of grease fittings as shown in figures 1 and 2 attached. Follow procedures in Mooney Service Bulletin M20-155 dated 6-15-67, or later FAA approved revision, for removal and replacement of links. Service Bulletins, Service Letters and Service Instructions referenced in this A.D. may be obtained from AACT, Louis Schreiner Field, Kerrville, Texas.

(c) At the next lubrication as required in (a) and thereafter at the same interval as specified in (a), perform a landing gear retraction test and check the landing gear rigging. Information regarding rigging may be found in Mooney Service Instruction No. 20-31, dated 6-25-68 for Models M20 and M20A, Mooney Service Instruction No. M20-32 dated 11-3-72 for other models or later FAA approved revisions.

This supersedes Amendment 39-1455 (37 FR 11462), A.D. 72-12-2 as amended by Amendment 39-1482 (37 FR 13336).

Issued in Fort Worth, Texas on August 1, 1973.

A. H. THURBURN,
Acting Director, Southwest Region.

[FR Doc.73-16765 Filed 8-14-73;8:45 am]

[14 CFR PART 71]

[Airspace Docket No. 73-WA-7]

PITTSBURGH, PA., TERMINAL CONTROL AREA

Proposed Adoption

The Federal Aviation Administration (FAA) is considering the adoption of a Group II Terminal Control Area (TCA) for Pittsburgh, Pa. Rules for the control and segregation of all aircraft operated within terminal control areas are contained in Part 91, §§ 91.70 and 91.90 of the Federal Aviation Regulations. Further information concerning flight within TCAs is contained in FAA Advisory Circular 91-30, Terminal Control Areas (TCAs), dated 6/11/70.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Additionally, comments are invited on the potential impacts of this proposal on the quality of the human environment. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received on or before October 15, 1973 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Rules Docket, Room 916, 800 Independence Avenue, S.W., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The establishment of terminal control areas at 22 large hub airports was proposed in Notice 69-41 and supplemental notices thereto, and adopted on May 20, 1970 (35 FR 7782), to create a safer environment in those congested terminal areas. The need for TCAs has been well established, and a priority implementation schedule has been developed which is based on the air traffic congestion at each location, the capability of the terminal air traffic control facility to provide separation service to VFR aircraft, the experience gained from earlier established TCAs, and the publication dates of associated aeronautical charts.

The issue of whether or not to establish a TCA at each of the specified locations was decided as a result of Notice 69-41 and is not within the scope of this notice. This notice is intended to produce the input necessary to design an appropriate airspace configuration that can provide the safest environment with the least impact on the airspace users. TCAs have now been designated at all Group I locations, and this notice proposes a configuration for a Group II TCA at Pittsburgh, Pa.

An FAA/Industry meeting was held in Pittsburgh on February 28, 1973, to consider user operational requirements. It was suggested that the TCA configuration presented at the meeting be modified by defining the east and west extensions as radials of the Imperial VORTAC. This modification along with the configuration presented was generally acceptable to those in attendance.

In consideration of the foregoing and for reasons stated in Docket No. 9880 (35 FR 7782), it is proposed to amend Part 71 of the Federal Aviation Regulations by adding the following to § 71.401(b) Group II Terminal Control Areas.

PITTSBURGH, PA., TERMINAL CONTROL AREA

PRIMARY AIRPORT

Greater Pittsburgh Airport (Latitude 40° 29'37" N., Longitude 80°13'54" W.) Imperial VORTAC (Latitude 40°29'12" N., Longitude 80°14'03" W.)

Boundaries (Based on Imperial VORTAC (IRL) Arcs, DME Distances and radials):

1. *Area A.* That airspace extending upward from the surface to and including 8,000 feet MSL within the Pittsburgh, Pa., (Greater Pittsburgh) Control Zone.

2. *Area B.* That airspace extending upward from 2,500 feet MSL to and including 8,000 feet MSL within a 10-mile radius of IRL VORTAC; excluding Area A.

3. *Area C.* That airspace extending upward from 4,000 feet MSL to and including 8,000 feet MSL within a 20-mile radius of IRL VORTAC and between the 20 and 30-mile radii of the IRL VORTAC extending from the 076°T (081°M) radial clockwise to the 106°T (111°M) radial and from the 259°T (264°M) radial clockwise to the 288°T (293 °M) radial; excluding Areas A and B.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on August 9, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-16855 Filed 8-14-73;8:45 am]

Federal Railroad Administration

[49 CFR Part 217]

[Docket No. RSOR-1; Notice 3]

RAILROAD OPERATING PRACTICES

Extension of Time for Filing Comments; New Date for Public Hearing

On May 14, 1973, the Federal Railroad Administration (FRA) published in the FEDERAL REGISTER a notice of proposed rule making to add a new Part 217 to Title 49 of the Code of Federal Regulations to establish initial rules respecting railroad operating practices (38 FR 12617). The closing date for comments and date for public hearing provided in that notice were re-scheduled to August 14, 1973, and August 15, 1973, respectively, in a second notice of rule making published at 38 FR 14865.

The Association of American Railroads (AAR) has filed a request for additional time to submit the views and arguments of its member railroads and to make an oral presentation. This request was made, in part, due to the FRA's late response in issuing an interpretation of the scope and intent of the proposed rules as asked by the AAR in a letter of July 5, 1973. The July 5 letter and the FRA's interpretation are available in the public docket.

For good cause shown in the AAR request, the FRA has decided to extend the closing date for filing written comments and to set a new time for the public hearing. The new deadline for filing written comments is September 19, 1973, except that written statements may be submitted at the oral hearing. Written comments received after September 19, other than at the oral hearing, will be considered only so far as practicable. The new time and the place for the oral hearing are 10:00 a.m., September 20, 1973, in Room 5332, Nassif Building, 400 Seventh St., SW., Washington, D.C. Persons wishing to make an oral presenta-

V 38-157 AUG 15 73 XUM

tion should notify the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, 400 Seventh St., SW., Washington, D.C. 20590, before September 20. Participants should refer to the original notice (38 FR 12619) for a brief statement of the procedures to be followed at the hearing.

(Sec. 202, 84 Stat. 971; 45 U.S.C. 431; § 1.49 (n), 49 CFR 1.49(n))

Issued in Washington, D.C. on August 7, 1973.

DONALD W. BENNETT,
Chief Counsel.

[FR Doc.73-16857 Filed 8-14-73;8:45 am]

Office of Pipeline Safety

[49 CFR Part 192]

[Notice No. 73-2; Docket No. OPS-24]

GAS IN TRANSMISSION LINES

Odorization Requirements

The Office of Pipeline Safety is considering amending Part 192 of Title 49, Code of Federal Regulations, to require odorization of gas in certain transmission lines, and to prescribe special patrolling and leakage survey requirements for transmission lines on the basis of their class location and whether or not they are carrying odorized gas.

Interested persons are invited to comment on the proposed amendment by submitting written information, views, or arguments. Communications should be identified by the notice number and docket number and submitted in duplicate to the Office of Pipeline Safety, Department of Transportation, Washington, D.C. 20590. Comments received by Sept. 28, 1973, will be considered before final action is taken on the proposal. All comments received will be available for examination by interested persons in the Rules Docket at the Office of Pipeline Safety.

The present requirement for odorization of gas in transmission lines represents an interim measure that was adopted to permit the continued application of State law pending outcome of a study by the Office of Pipeline Safety (OPS). That study has now been completed. Its conclusions, reflected in this notice, are based on comments made in response to previous notices (70-5, 35 FR 5482; 70-11, 35 FR 9293; 70-13, 35 FR 13470), an informal public hearing held on September 17, 1970, and on information which has been furnished by recent contacts with transmission operators, distribution operators, and State commissions experienced in the transportation of odorized gas in transmission lines.

In the transmission lines of those operators who odorize gas, a number of leaks have been located through odorization. The fact of such results refutes any contentions that odorization is appropriate only for distribution mains and service lines and that high pressure leaks are detectable only by other means. Odorization allows the early detection of leaks and does not limit detection to company employees. In a number of cases, odorization led to discovery of leaks that would not have been disclosed until later by the means normally used.

Some transmission operators unfamiliar with odorization are concerned over possible difficulties in handling odorized gas as it goes through compressor stations and through high pressure metering and regulating stations. They also fear an adverse effect on the operation of dehydration units and the possibility of false gas leak scares at the time of blow down for maintenance. However, operators with long experience in odorizing all their transmission facilities, including compressors, regulators, and measuring stations, have reported no significant problems once a system is stabilized. Normally, odorizers are placed downstream of dehydration units so that the units are not subject to adverse effects. Moreover, even though blow down may be required for maintenance, adequate planning with advance notice to the public should minimize problems caused by odorant dropping out of the gas.

With regard to stability of odorizing systems, during the early stages of an odorization program there may be considerable fade of odorant level, particularly in extensive piping systems. However, over a long period of operation, the system tends to stabilize. Moreover, experience has shown that once a reasonable degree of stability has been reached in a transmission line, the distribution companies supplied gas from that line have little problem maintaining a stable concentration.

The OPS recognizes that odorization of gas destined for use in some industrial processes would serve no purpose and could even be detrimental. Thus, where odorants would be detrimental to the industrial process itself, or where strong plant odors characteristic of the customer's process would mask the natural gas odorants, odorization should not be required. Accordingly, it is proposed to except the gas in transmission lines intended for use in such industrial processes from the odorization requirement.

Comments in response to previous notices observed that considerable expense would be incurred by operators and consumers in providing deodorizing equipment to prepare the gas from odorized transmission lines for industrial and other uses where odorization is detrimental. As proposed in this notice, however, the exceptions to the odorization requirement in such cases would make deodorization equipment unnecessary and equipment costs for deodorization are therefore not a consideration.

There should be little or no problem of odorization poisoning of the hydrostatic test water that is removed by pigging operations after requalification or uprating tests, or of poisoning the liquids that are required to be initially removed from the gas. Most liquids are removed at the dehydration plants near the point of production prior to odorization. Odorization of transmission lines is required only where the lines go into populated areas, and most liquids are removed by that time.

A situation may exist in which a distributor is supplied from two or more transmission systems that use different odorants. Such distributors have reported no problems of compatibility and no potentially hazardous conditions. One distributor that is supplied gas odorized with mercaptan has supplemented this with cyclic-sulfide without problems.

The effectiveness of transmission line odorization has been questioned in the case of a small leak in a buried high pressure transmission pipeline, because of the odor adsorption properties of soil and the refrigeration effect of expanding high pressure gas. However, although there may be some initial reduction of the detectable qualities of the odorant due to these causes, such effects last for a limited time only. While the type of soil influences the adsorption rate, moisture in the soil and in the gas and a high gas velocity reduce the adsorption rate. Moreover, the refrigeration effect, which forms a shield of ice crystals, thus reducing the area of soil adsorbent surface, combined with the high vaporization pressure of mercaptans at low temperature and the high solubility of mercaptans in natural gas, tends to carry the odorant from high pressure gas at low temperature through to the surface better than at lower pressure with little temperature drop. Field tests using mercaptan type odorants have shown them to be effective and detectable in the atmosphere around underground leaks from high pressure gas lines.

There now exist high pressure gas transmission pipelines in Class 4 locations that run parallel to other utility lines underneath the solid paving of city streets. To permit these transmission lines to be operated without odorization while gas distribution lines in the same street operating at much lower pressure and stress levels are required to be odorized is illogical. While for these and other built-up areas, flame ionization surveys appear to be an effective means of locating small leaks, such surveys are required only on a periodic basis. However, people who have a normal sense of smell are in the area everyday and are capable of detecting any escaping odorized gas.

Under this proposal, a general requirement for odorization of gas in transmission lines in Class 3 and Class 4 locations would be established. Exceptions would be provided, however, for gas in transmission lines enroute to underground storage fields, and in Class 3 locations enroute to predominantly Class 1 or Class 2 locations. Since the transmission lines in such locations are relatively few and are not those normally supplying distribution systems, safety considerations do not indicate that the cost of odorization is justified. As noted above, there is also an exception for gas intended for use in an industrial process where the presence of odorant would be detrimental.

Under the proposal, additional requirements for patrolling would be set forth in § 192.705 and new requirements for conducting leakage surveys would be established in a new § 192.706. Such requirements are consistent with the odorization requirements proposed in § 192.625 and give effect to the need for increased surveillance of transmission lines in which the gas is not odorized and of transmission lines in the higher class locations.

In consideration of the foregoing, it is proposed to amend Part 192 of Title 49 of the Code of Federal Regulations as set forth below.

1. It is proposed to amend § 192.625 by amending paragraph (g) and adding a new paragraph (h) to read as follows:

§ 192.625 Odorization of gas.

* * * * *

(g) Except as provided in paragraph (h) of this section, combustible gases in transmission lines in Class 3 and Class 4 locations must be odorized as provided in paragraphs (b) through (f) of this section.

(h) Notwithstanding paragraph (g) of this section, odorization of combustible gas in a transmission line is not required—

(1) When the gas is enroute to an underground storage field;

(2) In a Class 3 location through which the line is passing enroute to a predominantly Class 1 or Class 2 location; or

(3) In a Class 3 location when any part of the gas is intended for use in an industrial process in which the presence of odorant would be detrimental.

2. It is proposed to amend § 192.705 to read as follows:

§ 192.705 Transmission lines: patrolling.

(a) Each operator shall have a patrol program to observe surface conditions on and adjacent to the transmission line right-of-way for indications of leaks, construction activity, and other factors affecting safety and operation.

(b) The frequency of the patrol must be determined by the size of the line, the operating pressures, the class location, terrain, weather, and other relevant factors, but in no case at intervals exceeding 1 year.

(c) In addition to the frequency requirements of paragraph (b) of this section, each transmission line must be patrolled—

(1) At intervals not exceeding 6 months in a Class 3 location when carrying unodorized gas;

(2) At intervals not exceeding 3 months in a Class 4 location whether carrying odorized or unodorized gas; and

(3) At highway and railroad crossings more often and in greater detail than adjoining areas of the transmission line.

3. It is proposed to add a new § 192.706 to read as follows:

§ 192.706 Transmission lines: leakage surveys.

(a) Each operator of a transmission line shall provide for periodic leakage surveys in its operating and maintenance plan.

(b) Leakage surveys of a transmission line must be conducted at intervals not exceeding 1 year except that gas detector surveys must be conducted—

(1) At intervals not exceeding 6 months in a Class 3 location when carrying unodorized gas; and

(2) At intervals not exceeding 3 months in a Class 4 location whether carrying odorized or unodorized gas.

This notice is issued under the authority of the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. 1671 et seq.), § 1.58(d) of the regulations of the Office of the Secretary of Transportation (49 CFR 1.58(d)), and the redelegation of authority to the Director, Office of Pipeline Safety, set forth in Appendix A of Part 1 of the regulations of the Office of the Secretary of Transportation (49 CFR Part 1).

Issued in Washington, D.C. on Aug. 9, 1973.

JOSEPH C. CALDWELL,
Director,
Office of Pipeline Safety.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

APPROVAL AND PROMULGATION OF STATE IMPLEMENTATION PLANS; OHIO

Opportunity for Public Comment on Proposed Transportation and/or Land Use Control Strategies

On June 15, 1973, pursuant to section 110(a) of the Clean Air Act and 40 CFR Part 51, the Administrator announced his disapproval of the control strategy for photochemical oxidants in the Cincinnati, Toledo, and Dayton regions of Ohio due to the lack of timely submittal of transportation control plans. This was published in the FEDERAL REGISTER on June 22, 1973 (38 FR 16550).

The Administrator has proposed a transportation control plan for Cincinnati (38 FR 17702, July 2, 1973). The Administrator has not proposed plans for Toledo and Dayton because of preliminary indications that no transportation controls are necessary in those regions.

If, prior to promulgation, a State has adopted and submitted a plan or revision which the Administrator determines to be in accordance with applicable requirements, the State plan will be approved in lieu of promulgation. This notice is issued to advise the public that supplemental information has been received from the State of Ohio regarding these three regions, and that comments may be submitted on whether the control strategy for photochemical oxidants in the regions should be approved or disapproved by the Administrator under section 110(a) of the Clean Air Act. Only comments received within 21 days from the publication of this notice will be considered. Notice of opportunity to comment on State plans has been published previously on April 24, April 27, May 4, June 1, June 22, and July 18, 1973.

A more detailed description of the information submitted is set forth below.

OHIO

A document entitled "Implementation Plan to Achieve Ambient Air Quality Standards for Photochemical Oxidants—Cincinnati Air Quality Control Region," dated March 1973, was received on July 16, 1973, along with a submittal letter from the Governor dated June 29, 1973. A public hearing on the plan was held by the Ohio Environmental Protection Agency on May 29, 1973. The plan states that a 44 percent reduction in hydrocarbon emissions is necessary in order to attain the oxidant standard, and that the standard will be met by July 1975 without any control measures other than the stationary source controls in the original plan. In order to attain this result, the plan states that mobile source emissions will decline sufficiently due to a combination of the Federal Motor Vehicle Control Program for new cars, as well as expected improved bus service and traffic flow improvements resulting from completion of the interstate highway and bridge system.

A document entitled "Implementation Plan to Achieve Ambient Air Quality Standards for Photochemical Oxidants—Toledo Air Quality Control Region," dated March 1973, was received on July 16, 1973, along with a submittal letter from the Governor dated June 29, 1973. A public hearing was held by the Ohio Environmental Protection Agency on May 30, 1973. The plan states that a 50 percent reduction in hydrocarbon emissions is necessary in order to attain the oxidant standard, and that the standard will be met by 1975 without any control measures other than the stationary source controls in the original plan. In order to attain this result, the plan states that mobile source emissions will decline sufficiently due to the Federal Motor Vehicle Control Program for new cars. For informational purposes, the plan includes a discussion of programs underway to improve traffic flow in Toledo.

A document entitled "Implementation Plan to Achieve Ambient Air Quality Standards for Photochemical Oxidants—Dayton Air Quality Control Region," dated July 1973, was received on August 3, 1973, along with a submittal letter from the Governor dated July 24, 1973. A public hearing was held on May 17, 1973, by the Ohio Environmental Protection Agency. The plan states that the prescribed standard can be achieved in the Dayton Region without any control measures other than the stationary source controls in the original plan. This conclusion is based on data for calendar year 1972, which include maximum oxidant readings substantially below the maximum measured in 1971. The State proposes to submit a revised control strategy on or about November 15, 1973, if air quality data from 1973 show the need for one. The document submitted contains a preliminary strategy which might be used, including an inspection program for light-duty vehicles, improvements in mass transit, and an epi-

V 38 157 AUG 15 73 XUM

sode control plan during periods of air stagnation.

Copies of the proposed plans are available at the Program Support Branch, Division of Air and Water Programs, Environmental Protection Agency, Region V, 1 North Wacker Drive, Chicago, Illinois 60606, and at the Ohio Environmental Protection Agency, 450 East Town Street, Columbus, Ohio 43216. The Cincinnati plan is available at the Cincinnati Division of Air Pollution Control, 2400 Beekman Street, Cincinnati, Ohio 45214, the Dayton plan at the Regional Air Pollution Control Agency, 451 West Third Street, County Government Plaza, Dayton, Ohio 45402, and the Toledo plan at the Toledo Pollution Control Agency, 26 Main Street, Toledo, Ohio 43605.

Dated: August 10, 1973.

ROBERT L. SANSOM,
Assistant Administrator for Air and Water Programs.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 95]

[Docket No. 19798; FCC 73-820]

ANTENNA HEIGHT RESTRICTIONS

Notice of Proposed Rule Making

In the matter of amendment of § 95.37 (c) concerning the antenna height restrictions on Class C or D stations in the Citizens Radio Service.

1. The Commission has under consideration the petitions for rule making in the above-entitled matter which have been submitted by the Five County C. B. Club, Inc. (RM-800), the late George Nims Raybin (RM-953), the Electronic Industries Association (RM-1688), Alert (RM-1714), the Illinois State Citizens Band Radio Association Inc., (RM-2126), and the United States Citizens Radio Council (RM-2147). All of the foregoing petitions request amendment of § 95.31 to increase the permissible height for Class D station antennas.

2. RM-800 requests that antennas be allowed to be 20 feet above any natural formation, tree, or man-made structure within a specified distance from the antenna structure. RM-953 requests that § 95.37(c)(1) and (2) be amended by changing "20" to "25." RM-1688 requests essentially two changes to allow antennas to be 60 feet high, (1) if they are not within one mile from airport or, (2) if they are shielded by a structure located within 500 yards of the antenna structure. RM-1714 proposes a limitation of 200 feet except within a specified slope pattern. RM-2126 proposes to allow antennas to be as high as 100 feet and would establish a slope pattern. RM-2147 requests a maximum height of 80 feet except within a specified slope pattern.

3. The Commission is in agreement with the basic thrust of these petitions for rule making. The present Class D antenna rules, see § 95.37(c), have resulted in some inequities and as pointed out in RM-2147 in some cases is discriminatory to Citizens licensees as opposed to other land mobile radio operators. However, any change the Commission makes in the rules affecting antenna height limitations must meet at least the following criteria. First, it must be capable of uniform application without the necessity for Commission consideration on an individual application basis of the facts in a particular case. The large volume of Citizens radio applications received each month precludes any rule which would require such an individual determination. Second, the uniform application of the rule must result in no situation where the antenna might be considered to be a potential hazard to air navigation under Federal Aviation Administration (FAA) regulations. Third, the rule must be written in a manner so as to be easily understood and applied to particular situations by licensees.

4. None of the suggested rules contained in the foregoing petitions comply with all of these criteria. RM-800, 953, 1688, and 1714 all fail to comply with the FAA regulations. RM-2126 and 2147 would require the Commission to make a determination on certain applications that no antenna hazard exists. Accordingly, the Commission is unable to find that any of the proposed rule amendments contained in the aforementioned petitions present a viable alternative to our present Class D antenna rules.

5. Moreover, putting aside the FAA standards and the need for individual examination by the Commission of proposed antenna construction, the Commission is somewhat concerned that any rule based on a slope pattern, as many of the six petitions are, will prove difficult for licensees to understand and apply properly. Slope patterns, it should be emphasized, are not measured from ground level but from the established elevation (mean sea level) of the airport. While other radio services, with the exception of the Amateur Radio Service, use slope patterns, licensees in those services have trained manufacturers representations available for consultation and assistance. Citizens Radio Service licensees for the most part do not have that type of assistance available to them.

6. Nevertheless, the Commission proposes to amend § 95.37(c) to provide some relaxation of the antenna height limitations. Currently, a Class C or D station antenna must comply with at least one of the limitations contained in subparagraphs 1 through 4 of that section. The Commission proposes to amend § 95.37(c) to allow a Class D or Class C antenna and its supporting structure to be as high as 60 feet, in many cases, if it is more than 6,000 feet from an airport. For antenna structures located within 20,000 feet of an airport we are proposing a slope pattern but with an explanatory note. This note sets forth the procedure a licensee must use in order to determine the maximum permitted antenna height when his antenna structure is located within the slope pattern. It is important to emphasize that our proposed rule still will present some difficulties in application. A licensee who wants to erect an antenna higher than 20 feet within 20,000 feet of an airport will be required to determine his antenna site's height above sea level and also the airport's established elevation (height above mean sea level). Under our proposed rule he may then erect an antenna to the limit of the slope pattern from the level of the airport but not more than 60 feet above ground level. A practical example of this requirement is that if the nearest airport is 40 feet above sea level, the antenna site is 50 feet above sea level and 4,000 feet from the airport, then the antenna may only be 30 feet above ground level not 40 feet as might otherwise be supposed. Another example of this is if the nearest airport is 50 feet above sea level, the antenna site is 40 feet above sea level and 4,000 feet from the airport, then the antenna may be 50 feet above ground level. The practical effect on the proposed rule is that an applicant must drawn an imaginary horizontal line from the level of the airport to this antenna site. From that imaginary line, he may erect an antenna of one foot in height for every 100 feet in horizontal distance from the nearest point of the runway but not more than 60 feet above ground level. See figures 1 and 2.

7. The primary purpose of permitting such an increase in height is to enable licensees to erect antennas above nearby obstacles which may absorb radiated energy and thus decrease ability to communicate. The Commission believes that the 60 foot maximum proposal of this notice represents a reasonable antenna height which will accomplish this purpose. Moreover, this increase in permissible height may tend to decrease television interference problems since it will allow increased height differential between Class D antennas and television antennas.

8. These proposed amendments will provide in substantial degree the relief requested in these six petitions while still meeting the criteria set forth in paragraph 3 of this notice. The text of the proposed amendment is set forth in the attached Appendix. We invite, however, suggestions and comments from informed persons on how we might be able to simplify these proposed rules and whether increased antenna heights will cause undue interference.

9. The proposed greater antenna heights will, however, result in a general escalation in transmission distances. When high gain directional antennas, e.g., Yagis and cubical quads, are employed, the increase in propagated signal strength by sky wave transmission may be sufficient to encourage illegal long distance skip communications. Accordingly, we are inviting specific comments on whether we should ban the use of high gain directional antennas in the Class D service after January 1, 1976, while permitting Omni-directional antennas with a maximum gain of 3 dB.

10. Authority for this action is contained in sections 4(i) and 303 of the Communications Act of 1934, as amended.

11. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before October 15, 1973, and reply comments on or before October 26, 1973. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

12. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission.

Adopted: August 2, 1973.

Released: August 8, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

Part 95 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 95.37 is amended to read as follows:

§ 95.37 Limitations on antenna structures.

* * * * *

(c) A Class C or Class D station operated at a fixed location shall employ a transmitting antenna which complies with at least one of the following:

NOTE: a manmade structure is any construction other than a tower, mast, or pole.

1. The antenna and its supporting structure does not exceed 20 feet in height above ground level; or

2. The antenna and its supporting structure does not exceed by more than 20 feet the height of any natural formation, tree or man-made structure on which it is mounted; or

3. The antenna is mounted on the transmitting antenna structure of another authorized radio station and does not exceed the height of the antenna supporting structure of the other station; or

4. The antenna is mounted on and does not exceed the height of the antenna structure otherwise used solely for receiving purposes, which structure itself complies with subparagraph (1), (2), or (5) of this paragraph.

5. The highest point of the antenna or its supporting structure does not exceed 60 feet above ground level and the highest point also does not exceed one foot in height above the established airport elevation for each 100 feet of horizontal distance from the nearest point of an airport runway.

Determining maximum antenna height for class C/D citizens radio service stations under subparagraph 5. The highest point, for an antenna installation used in a station licensed in the Class C and Class D categories of the Citizens Radio Service, is 60 feet above ground level, except where the installation would penetrate an imaginary sloping line extending outward from an airport runway. In such areas, antenna installations could pose hazards to operating aircraft. Only those installations which would exceed one foot above the nearest runway for every 100 feet from the runway would be limited to less than 60 feet in height. Because the antenna site ground level may be at a different elevation than the runway, both points must be referenced to a common line, in this case mean sea level, in order to determine the maximum allowable antenna height above ground level. Prior to erecting an antenna structure, the following procedure must be followed to determine the maximum allowable antenna height above ground level (MAAHAGL).

Step 1. The use of a suitable topographic map(s) is necessary. From the map(s), determine the elevation above mean sea level (AMSL) of the antenna site.

Elevation of antenna site = ------ feet AMSL.

Step 2. Contact the operator of the airport having the runway nearest to the antenna site, and determine the elevation AMSL of the point on the runway nearest to the antenna site.

Elevation of nearest airport runway = ------ feet AMSL.

Step 3. From the map(s), determine the distance in feet between the antenna site and the nearest point on the runway.

Distance from nearest airport runway = ------ feet.

Step 4. Determine the maximum allowable height of the antenna installation *above the nearst airport runway.* This is done by dividing the distance between the antenna site and the runway (determined in step 3), by 100.

Maximum allowable height of antenna installation above nearest airport runway (within the 60 feet above antenna site ground level limitations).

(divide) ------ (from step 3) = ------ feet. 100

Step 5. Determine the maximum allowable height of the antenna installation above mean sea level. This is done by adding the height determined in step 4 to the elevation of the runway determined in step 2.

Maximum allowable height of the antenna installation above mean sea level.

------ feet AMSL (from step 2)
(add) +------ feet (from step 4) =------ feet AMSL

Step 6. Determine the maximum allowable height of the antenna installation above ground level. This is the maximum vertical distance from the topmost point of the antenna installation above the ground level immediately below that point. This is done by substracting the elevation of the antenna site (determined in step 1) from the maximum allowable height of the antenna installation above mean sea level (determined in step 5).

Maximum allowable antenna height above ground level (MAAHAGL)

------ feet AMSL (from step 5)
(subtract) −------ feet AMSL (from step 1) =------ feet

NOTE: In no case may the MAAHAGL exceed 60 feet! In case the elevation of the antenna site (determined in step 1) exceeds the maximum allowable height of the antenna installation above mean sea level (determined in step 5), the MAAHAGL shall be 20 feet.

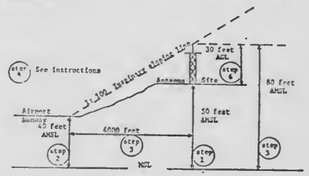

Figure 1. Elevation of antenna site above elevation of runway.

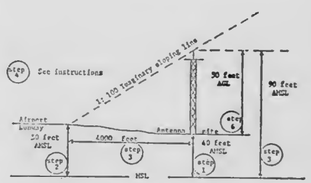

Figure 2. Elevation of antenna site below elevation of runway.

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 545]

[No. 73-1112]

FEDERAL SAVINGS AND LOAN SYSTEM

Proposed Amendment Relating to Loans on Second or Vacation Homes

AUGUST 8, 1973.

The Federal Home Loan Bank Board considers it advisable to propose an amendment of § 545.6-1(a) of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.6-1(a)) for the purpose of limiting the authority of a Federal savings and loan association regarding the making of certain loans in excess of 80 percent of the security property's value to the making of such loans on the security of a borrower's single-family dwelling which the borrower certifies is or will be his "principal" dwelling place. Pursuant to the present provisions of said § 545.6-1(a), such loans also may be made on the security of a borrower's second or vacation home.

Accordingly, the Federal Home Loan Bank Board hereby proposes to amend said § 545.6-1(a) by revising subdivision (iv) of subparagraph (4) thereof to read as set forth below.

Interested persons are invited to submit written data, views, and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 101 Indiana Avenue, NW., Washington, D.C. 20552, by September 15, 1973, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential

[1] Commissioners H. Rex Lee and Reid absent.

V 38-157 AUG 15 73 XUM

treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the general regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

§ 545.6–1 Lending powers under sections 13 and 14 of Charter K.

Any Federal association which has Charter K may, under sections 13 and 14 thereof, make the following types of loans on the security of first liens on improved real estate and the use by such an association of loan plans, practices, and procedures which comply with the applicable provisions of §§ 545.6 to 545.6–13, are hereby approved by the Board:

(a) *Homes or combination of homes and business property*—

(1) *Monthly installment loans.* Subject to the limitations of § 545.6–7, installment loans may be made on homes or combination of homes and business property for an amount not in excess of 75 percent of the value thereof, repayable monthly within 30 years or, if an insured or guaranteed loan, within the period acceptable to the insuring or guaranteeing agency: *Provided,* That, when the members of such an association have authorized loans to be made for an amount exceeding 75 percent of the value, such loans may be made up to the percentage of value authorized by the members but not in excess of:

(i) 80 percent of the value, if the loan is not an insured or guaranteed loan;

(ii) The maximum percentage of the value acceptable to the insuring agency, if an insured loan;

(iii) 80 percent of the value, plus the amount guaranteed if a guaranteed loan.

. . . . .

(4) *Loans in excess of 80 percent of value.* The limitation of 80 percent set forth in subdivision (i) of subparagraph (1) of this paragraph shall be 90 percent in the case of any loan with respect to which the following requirements are met:

. . . .

(iv) The borrower, including a purchaser who assumes the loan, has executed a certification in writing stating (a) that no lien or charge upon such property, other than the lien of the association or liens or charges which will be discharged from the proceeds of the loan, has been given or executive by the borrower or has been contracted or agreed to be so given or executed, and (b) that the borrower is actually occupying the property as the borrower's principal dwelling or that the borrower in good faith intends to do so;

. . . . . .

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] EUGENE M. HERRIN,
Assistant Secretary.

Office of Hearings and Appeals

[Docket No. M 74–10]

W. B. SPRADLIN COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), W. B. Spradlin Coal Company, located at Lafollette, Tennessee, has filed a petition to modify the application of 30 CFR 77.1605(k) to its Mine No. 1.

30 CFR 77.1605(k) reads as follows:

(k) Berms or guards shall be provided on the outer bank of elevated roadways.

In support of its petition, petitioner states that the addition of berms or guardrails would make it impossible to maintain proper drainage and would hamper snow removal. The road would ice over during winter months and the grader now used for maintenance could no longer be used. Petitioner also states that additional man-hours and equipment would be needed for road maintenance which would result in an increased accident potential during snow and ice conditions. The installation of guardrails would not be effective because they would have to be built on fill material.

As an alternative method petitioner wishes to continue maintaining its roads by its currently existing methods. Petitioner states that by using its current methods of maintenance, its roads, are as safe as possible.

Petitioner contends that the application of the mandatory standard will result in a diminution of safety to miners in the affected area. Petitioner contends that berms and guardrails would create a drainage hazard by creating improper drainage which would cause washouts and hazardous conditions in wet weather. The road is too narrow to build berms, therefore, solid rock would have to be blasted, resulting in a highwall which would be a new hazard.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before September 14, 1973. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES M. DAY,
Director, Office of Hearings and Appeals.

[INT FES 73-44]

FINAL ENVIRONMENTAL STATEMENT ON THE PROPOSED ENDANGERED SPECIES CONSERVATION ACT OF 1973

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Public Law 91-190, the Department of the Interior has prepared a final environmental statement for the proposed Endangered Species Conservation Act of 1973 (HR 4758).

The proposed legislation would amend present authority enbodied in the Endangered Species Conservation Act of 1969. Among provisions of the new legislation are (1) expansion of the definition of endangered to include species and subspecies not only threatened with extinction but those likely within the foreseeable future to become threatened with extinction; (2) provision for the first time of Federal regulation of the taking of endangered non-migratory species; (3) restoration of authority to acquire lands and waters with Land and Water Conservation Funds; and (4) increase the penalties for violation of the Act. Overall result of the action will be more effective protection and management of more species and subspecies, both native and foreign.

Copies of the final statement are available for inspection at the following locations:

Bureau of Sport Fisheries and Wildlife
1500 N.E. Irving Avenue
Portland, Oregon 97208
Bureau of Sport Fisheries and Wildlife
500 Gold Avenue, S.W.
Albuquerque, New Mexico 87103
Bureau of Sport Fisheries and Wildlife
Federal Building, Fort Snelling
Twin Cities, Minnesota 55111
Bureau of Sport Fisheries and Wildlife
17 Executive Park Drive
Atlanta, Georgia 30329
Bureau of Sport Fisheries and Wildlife
U.S. Post Office and Courthouse
Boston, Massachusetts 02109
Bureau of Sport Fisheries and Wildlife
10597 West Sixth Avenue
Denver, Colorado 80215
Bureau of Sport Fisheries and Wildlife
Office of Area Director
813 D Street
Anchorage, Alaska 99501
Bureau of Sport Fisheries and Wildlife
Office of Environmental Quality
Department of the Interior
Room 2246
18th and C Streets, N.W.
Washington, D.C. 20240

Single copies may be obtained by writing the Chief, Office of Environmental Quality, Bureau of Sport Fisheries and Wildlife, Department of the Interior, Washington, D.C. 20240. Comments concerning the proposed action should also be addressed to the Chief, Office of Environmental Quality. Please refer to the statement number above.

Dated: August 7, 1973.

JOHN M. SEIDL,
Deputy Assistant Secretary—Program Development and Budget.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

CITIZENS ADVISORY COMMITTEE ON CIVIL RIGHTS

Notice of Determination

Notice is hereby given that the Secretary of Agriculture will appoint a Citizens Advisory Committee on Civil Rights for the purpose of reviewing the Department's policies, practices and procedures which promote equality of opportunity. The Secretary has determined that establishment of this Committee is in the public interest in connection with the duties imposed on the Department by law.

The Committee members will be from varied backgrounds and interests. The Committee, which will report to the Secretary, will terminate two years from the date of establishment.

This notice is given in compliance with Public Law 92-463. Views and comments of interested persons must be received by the Director, Office of Equal Opportunity, on or before September 14, 1973.

All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Office of Equal Opportunity, during regular business hours (7 CFR 1.27 (b)).

Dated: August 9, 1973.

JOE WRIGHT,
Assistant Secretary for Administration.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

NATIONAL AERONAUTICS & SPACE ADMINISTRATION

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00038-00-41700. APPLICANT: National Aeronau-

V38-157 AUG 15 73 XUM

tics & Space Administration, Ames Research Center, Moffett Field, California 94035. ARTICLE: Accessories for Cilas VD-320(c) Laser System. MANUFACTURER: Compagnie Industrielle Des Lasers, France. INTENDED USE OF ARTICLE: The articles are accessories for a Cilas VD-320(c) laser system used in fundamental studies of the interaction of intense (laser) radiation with matter. Investigations of the possible self-focusing of laser light in a plasma, spontaneous magnetic field in laser-produced plasma, and anomolous soft x-ray emission in a laser plasma are now in progress. In addition, the stimulation of long chain organic dye vapors, using the second and fourth harmonics of the fundamental (1.06 u) Nd^3-glass output wavelength will be investigated.

COMMENTS: No comments have been received with respect to this application.

DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

REASONS: The application relates to compatible accessories for an instrument that had been previously imported for the use of the applicant institution. The article is being furnished by the manufacturer which produced the instrument with which the article is intended to be used and is pertinent to the applicant's purposes.

The Department of Commerce knows of no similar accessories being manufactured in the United States, which is interchangeable with or can be readily adapted to the instrument with which the foreign article is intended to be used.

A. H. STUART,
Director, Special Import Programs Division.

VETERANS ADMINISTRATION HOSPITAL—DURHAM

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D. C. 20230.

DOCKET NUMBER: 73-00516-33-46040. APPLICANT: Veterans Administration Hospital Chief, Supply Service, 508 Fulton Street, Durham, N.C. 27705. ARTICLE: Electron Microscope, model JEM 100B. MANUFACTURER: JEOL Ltd., Japan. INTENDED USE OF ARTICLE: The article is intended to be used for studies of various types of materials. In general, human, animal microbial and viral tissues will be studied. Also, homogenized, centrifuged fractions of tissue will be examined, for example, in order to determine their content. Studies will range from low magnification survey studies to high resolution membrane and protein subunit analysis. Planned experiments include: (1) Study of spherical and tubular particles in the serum of patients with hepatitis and in the serum of asymptomatic chronic carriers.

(2) Studies on macromolecules such as fibrin, DNA, ribosomes, antibodies (such as IgM), collagen, muscle proteins, etc., and

(3) Low power studies on kidney biopsies.

The article will also be used for training of residents, medical and graduate students, and technologists, including student technologists in various aspects of electron microscopy.

COMMENTS: No comments have been received with respect to this application.

DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. REASONS: The foreign article has a specified resolving capability of 3 Angstroms. The most closely comparable domestic instrument is the Model EMU-4C electron microscope manufactured by the Forgflo Corporation. The Model EMU-4C has a specified resolving capability of 5 Angstroms. (The lower the numerical rating in terms of Angstrom units, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare in its memorandum dated July 27, 1973 that the additional resolving capability of the foreign article is pertinent to the purposes for which the foreign article is intended to be used. We, therefore, find that the Model EMU-4C is not of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director, Special Import Programs Division.

[FR Doc.73-16847 Filed 8-14-73;8:45 am]

UNIVERSITY OF CALIFORNIA

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00241-31-41700. APPLICANT: University of California, Los Alamos Scientific Laboratory, Post Office Box 990 Los Alamos, NM 87544. ARTICLE: Amplifier, double discharge for CO_2 laser system. MANUFACTURER: Lumonics Research Ltd., Canada. INTENDED USE OF ARTICLE: The article is intended to be used as a preamplifier stage for a 1000 Joule CO_2 laser system currently under construction which will be used to investigate radiation damage in materials and the feasibility of controlled thermonuclear fusion.

COMMENTS: No comments have been received with respect to this application.

DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

REASONS: The foreign article provides the capabilities of a 10.6 mircrometer wavelength, CO_2 laser amplifier. The article will be used as a preamplifier stage for a 1000 joule CO_2 laser system which requires amplification of a 1 multi-joule pulse to 50 multi-joules. We are advised by the National Bureau of Standards (NBS) in its memorandum dated July 31, 1973 that the capabilities of the article described above are pertinent to the applicant's research studies. NBS further advises that it knows of no domestically manufactured instrument scientifically equivalent to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director, Special Import Programs Division.

[FR Doc.73-16850 Filed 8-14-73;8:45 am]

UNIVERSITY OF CALIFORNIA

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 72-00431-65-46070. APPLICANT: University of California, Lawrence Livermore Laboratory, CA 94550. ARTICLE: Scanning electron microscope, Model S-4. MANUFACTURER: Cambridge Scientific Instruments, Ltd., United Kingdom. INTENDED USE OF ARTICLE: The article is intended to be used in research programs in the solid state/thin film area, specifically, surface topography of nucleating thin films, diagnostics of integrated, emulsion studies of holographic plates, and laser mirrows. For organic Chemistry programs the article will be used in the study of nucleation, growth, and peculiar morphologies of organic crystalline solids. In support of the general Metallurgy programs, the article will be used to great advantage in the study of fracture mechanics, hydrogen embrittlement, properties, of composite materials, and dynamic deformation studies. The article will also be used for dynamic phase transformation studies in the temperature range from −115°C. to +400°C. in Plutonium Metallurgy programs. Additionally, surface morphological and contamination rate studies on ceramic and salt-type materials and metal hydrides as well as characterization of particulate matter pertinent to environmental studies will require the use of the article.

COMMENTS: No comments have been received with respect to this application.

DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the article was ordered (February 16, 1972).

REASONS: The foreign article is equipped with an electron gun having a Lanthanum Hexaboride (LaB_6) rod emitter. The use of an LaB_6 emitter instead of a tungsten filament source increases the resolution capability of a scanning electron microscope resulting in obtaining a greater amount of useful information from the specimen being observed. We are advised by the National Bureau of Standards (NBS) in its memorandum dated July 31, 1973 that the LaB_6 emitter is pertinent to the applicant's intended research. NBS further advises that it knows of no domestic manufacturer that could supply an LaB_6 equipped scanning electron microscope at the time the foreign article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the foreign article was ordered.

A. H. STUART,
Director, Special Import Programs Division.

UNIVERSITY OF CALIFORNIA—LOS ANGELES

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00511-75-41700. APPLICANT: University of California-Los Angeles, 405 Hilgard Avenue, Los Angeles, Calif. 90024. ARTICLE: Model TEA-103-IF laser. MANUFACTURER: Lumonics Research, Ltd., Canada. INTENDED USE OF ARTICLE: The article is intended to be used for studies of high density plasmas to determine the degree of reflection or absorption of 10.6 u laser radiation by plasmas.

COMMENTS: No comments have been received with respect to this application.

DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

REASONS: The foreign article is a high-powered (5 joules output in fundamental mode, 1 to 2 joules in central spot with angular divergence 0.6 milliradian) CO_2 laser (10.6 micrometer wavelength). We are advised by the National Bureau of Standards (NBS) in its memorandum dated July 31, 1973 that the specifications of the article cited above are pertinent to the applicant's research studies involving coupling of energy and momentum locally into a plasma via non linear effects. NBS further advises that it knows of no domestically manufactured instrument scientifically equivalent to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director, Special Import Programs Division.

[FR Doc.73-16853 Filed 8-14-73;8:45 am]

UNIVERSITY OF ILLINOIS

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00246-33-46595. APPLICANT: University of Illinois at Urbana-Champaign, Purchasing Division, 223 Administration Building, Urbana, Ill. 61801. ARTICLE: Pyramitome, Model LKB 11800-1. MANUFACTURER: LKB Produkter AB, Sweden. INTENDED USE OF ARTICLE: The article is intended to be used to obtain sections for use in the electron microscope from limited, nearby regions in the glomerulus of man and various animals which are oriented to each other at 90°. The article will also be used in the courses Biology-Chemistry 429; Electron Microscopy with Laboratory and Biology-Chemistry 493; Advanced Electron Microscopy (research projects) to teach graduate students in the Biological Sciences new modern method of preparing materials for study under the electron microscopes.

COMMENTS: No comments have been received with respect to this application.

DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

REASONS: The foreign article has the ability to trim two precise pyramids oriented at exactly 90° from each other from which ultrathin sections may be cut. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated July 27, 1973 that the characteristic described above is pertinent to the applicant's three dimensional study of the glomeruli and their capillary walls. HEW further advises that it knows of no domestic instrument having an equivalent capability and accuracy of angle measurement.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director, Special Import Programs Division

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00350-33-46040. APPLICANT: University of Washington, Department of Genetics

V 38 - 157 AUG 15 73 XUM

SK–50, Seattle, Wash. 98195. ARTICLE: Electron microscope, Model EM 201. MANUFACTURER: Philips Electronic Instruments NVD, The Netherlands. INTENDED USE OF ARTICLE: The article is intended to be used for studies of isolated biological particles including avian ribosome crystals and yeast chromatin particles by negative staining in sodium phosphotungstate, uranyl acetate, and other heavy-metal salts to determine their three-dimensional structures. Sections of plastic-embedded cells from which these particles are derived will also be examined by the article. Examination of spread deoxyribonucleic acid (DNA) molecules, prepared by the methods of Kleinschmidt and others will also be carried out. Another research application will be in the development of very small electron-dense particles—10 to 20 Angstroms in diameter—to serve as means of marking the locations of particular macromolecules within ribosomes, chromatin particles, and other highly organized aggregates. In addition the article will be used for teaching of pertinent electron microscopic methods to graduate students in genetics and biochemistry. This instruction is encompassed by the course entitled Genetics 584, Analysis of Genetic and Biochemical Systems by Electron Microscopy.

COMMENTS: No comments have been received with respect to this application.

DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the article was ordered (November 20, 1972).

REASONS: The foreign article is equipped with a eucentric goniometer stage, capable of motion through large angles. At the time the foreign article was ordered, the most closely comparable domestic instrument was the Model EMU–4C electron microscope manufactured by Forgflo Corporation. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated July 27, 1973 that the eucentric goniometer stage of the foreign article is pertinent to the applicant's studies involving examination of the third dimensional ultrastructure of single ribosomes and ribosome crystals to determine the macromolecular orientation. HEW further advises that the Model EMU–4C does not have a scientifically equivalent stage. We, therefore, find that the EMU–4C is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the foreign article was ordered.

A. H. STUART,
Director Special Import Programs Division.

UNIVERSITY OF WISCONSIN

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73–00526–01–90000. APPLICANT: University of Wisconsin, department of biochemistry, 420 Henry Hall, Madison, Wis. 53706. ARTICLE: Rotating anode X-ray generator, model GX–6. MANUFACTURER: Elliott Automation Radar Systems, Ltd., United Kingdom. INTENDED USE OF ARTICLE: The article is intended to be used to make X-ray diffraction studies of single crystals of macromolecules like proteins and nucleic acids. The intensities of the thousands of reflections made by X-rays from the generator passing through the crystal will be photographically recorded and then processed to aid in the calculation of an electron density map which reveals the three-dimensional architecture of these giant molecules.

COMMENTS: No comments have been received with respect to this application.

DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

REASONS: The foreign article provides a focused spot of minimal size and a rotating target for maximum x-ray power. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated July 27, 1973 that both of the characteristics of the article described above are pertinent to the applicant's research studies. HEW further advises that it knows of no domestic instrument that provides both of the pertinent characteristics.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director, Special Import Programs Divisions.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

National Marine Fisheries Service

MARINE MAMMAL PROTECTION ACT

Notice of Issuance of Letters of Exemption

Notice is hereby given that, on July 16 and 19, 1973, as authorized by section 101(c) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq., 86 Stat. 1027 (1972)), and § 216.13 of the regulations Governing the Taking and Importing of Marine Mammals (37 FR 28177, 28182, December 21, 1972), Letters of Exemption from the provisions of the Act on grounds of undue economic hardship were issued to the following named persons authorizing them to engage in the following described activities, subject to the conditions specified in the Letters:

(1) On July 16, 1973, to Bernd Gerhard Wuersig, Division of Biological Sciences, State University of New York at Stony Brook, Stony Brook, New York 11790, to capture by net and affix radio transmitting devices to as many as three dusky dolphins (*Lagenorhynchus obscurus*) and to affix visual tags to as many as 12 dusky dolphins within one-half mile of the shore of Golfo San Jose, Chubut, Argentina, between July 16 and October 21, 1973, for the purposes of scientific research. A notice containing a summary of this application was published in the FEDERAL REGISTER on May 16, 1973 (38 FR 13839).

(2) On July 19, 1973, to John L. Hrachovec, President, Black Hills Marineland, Inc., P.O. Box 1243, Rapid City, South Dakota 57701, to take three California sea lions (*Zalophus californianus*) for public display. A notice containing a summary of this application, and containing a request to take also one Atlantic bottle-nose dolphin (*Tursiops truncatus*) was published in the FEDERAL REGISTER on March 6, 1973 (38 FR 6088) and, after notice in the FEDERAL REGISTER on April 6, 1973 (38 FR 8758) a public hearing to consider the application was held in Pensacola, Florida on April 25, 1973. Prior to the hearing, the Applicant's request to take the Atlantic bottlenose dolphin was withdrawn when the Applicant contracted to lease a dolphin from another displayer.

(3) On July 19, 1973, to Dr. H. L. Stone, Chief, Cardiovascular Control Section, Division of Comparative Marine Neurobiology, Galveston, Texas, to take and hold 10 California sea lions (*Zalophus californianus*) to continue scientific research efforts to describe their diving reflexes elicited by face immersion. A notice containing a summary of this application, describing a request for 20 sea lions, was published in the FEDERAL REGISTER on March 7, 1973 (38 FR 6087) and, after notice in the FEDERAL REGISTER on April 6, 1973 (38 FR 8757) a public hearing to consider the application was held in Galveston, Texas, on April 24, 1973. At that hearing, the Applicant reduced his request from 20 to 15 sea lions. The decision to grant an exemption for only 10 sea lions was based on the fact that the holding facility for the sea lions, Sea-Arama Marineworld in Galveston, Texas, could maintain only 10 sea lions properly between the date of issuance of the Letter of Exemption and October 21, 1973, after which no sea lions could be taken under a Letter of Exemption.

(4) On July 19, 1973, to Keith C. Koontz, P.O. Box 87, Savoonga, Alaska, to take by shooting as many as 10 bearded seals (*Erignathus barbatus*), 30 ringed seals (*Pusa hispida*), 30 harbor seals (*Phoca vitulina*) and 10 ribbon seals (*Histriophoca fasciata*) for subsistence purposes. A notice containing a summary of this application was published in the FEDERAL REGISTER on June 15, 1973 (38 FR 15742).

(5) On August 1, 1973, to Clyde A. Hill, San Diego Zoological Garden, P.O. Box 551, San Diego, California 92112, to take four ringed seals (*Pusa hispida*), two bearded seals (*Erignathus barbatus*), and two ribbon seals (*Histriophoca fasciata*) for public display. A notice containing a summary of this application and containing a request to take also four southern sea lions (*Otaria byronia*) was published in the FEDERAL REGISTER on June 8, 1973 (38 FR 15088). The request to take the southern sea lions was denied due to the Applicant's failure to demonstrate that he would suffer undue economic hardship should an exemption for these animals not be granted.

Copies of the applications for the exemptions, of the Letters of Exemption and of all supporting documents except documents containing information exempt from public disclosure pursuant to the Freedom of Information Act (5 U.S.C. 522(b)), are available for inspection at the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, and at the National Marine Fisheries Service Regional Offices.

The Regional Offices are located at the following addresses: Southwest Region, 300 South Ferry Street, Terminal Island, California 90731, telephone 213–831–9281; Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930, telephone 617–281–0640; Southeast Region, William C. Cramer Federal Office Building, 144 First Avenue South, St. Petersburg, Florida 33701, telephone 813–893–3141; Northwest Region, Lake Union Building, 1700 Westlake Avenue North, Seattle, Washington 98109, telephone 206–442–7575; Alaska Region, P.O. Box 1668, Juneau, Alaska 99801, telephone 907–586–7221.

Dated: August 8, 1973.

ROBERT W. SCHONING,
Director.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No. NFD–121]

JOHN F. SULLIVAN

Appointment as Federal Coordinating Officer

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11725 of June 27, 1973; and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D–73–238, to administer the Disaster Relief Act of 1970 (Public Law 91–606, 84 Stat. 1744), I hereby appoint John F. Sullivan as Federal Coordinating Officer to perform the duties specified by section 201 of that Act for the Disaster listed below, effective July 1, 1973:

State	Disaster Number	Declaration Date
Massachusetts: Vice Philip D. Bassett, appointed July 4, 1972 (37 FR 13585, July 11, 1972).	325	March 6, 1972

Dated: July 31, 1973.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

CIVIL AERONAUTICS BOARD

[Docket Nos. 24963 and 24964; Order 73–8–53]

ALLEGHENY AIRLINES, INC.

Order to Show Cause

Application of Allegheny Airlines, Inc. for an amendment of its certificate of public convenience and necessity for Route 97 so as to delete Poughkeepsie, New York.; application of Allegheny Airlines, Inc. for authority to suspend service temporarily at Poughkeepsie, New York.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 10th day of August, 1973.

By Order 73–2–39, February 9, 1973, the Board set for hearing an application filed by Allegheny Airlines to delete Poughkeepsie, New York, from the carrier's route 97. The prehearing conference was held on April 3, 1973, but by Notice of May 9, 1973, the Administrative Law Judge deferred further procedural steps pending disposition of a motion filed by Allegheny to delete Poughkeepsie via Show Cause procedures. Allegheny's motion was filed in response to a letter sent to the Administrative Law Judge by the county executive of Dutchess County, New York (Poughkeepsie) which advised that the County would not oppose Allegheny's application or participate further in the proceeding. The New York State Department of Transportation also advised the Administrative Law Judge that it would not oppose Allegheny's request.

Upon consideration of the pleadings and all the relevant facts, the Board has decided to issue an Order to Show Cause proposing to amend Allegheny's certificate so as to delete Poughkeepsie. The Board tentatively finds and concludes that the public convenience and necessity require the amendment of Allegheny's certificate so as to delete Poughkeepsie. It further tentatively finds that Allegheny is fit, willing and able properly to perform the transportation to be authorized in the proposed certificate and to conform to the provisions of the Act and the Board's rules, regulations and requirements thereunder.

By Orders 70–1–130, January 27, 1970, and 70–12–159, December 31, 1970, the Board authorized Mohawk Airlines (Allegheny's predecessor) to suspend service temporarily at Poughkeepsie contingent upon a satisfactory level of air taxi replacement service. The Board noted at that time that Poughkeepsie had been a low traffic-generating point, that suspension would eliminate an uneconomic point from the local service carrier's system, and that the replacement air taxi service would be commensurate with the community's traffic-generating potential. Nothing over the past two to three years casts doubt on those conclusions. Indeed, Allegheny indicates that resumption of service would result in an operating loss of about $58,000 and increase its subsidy need by approximately $81,000, assuming one round trip five days per week between Poughkeepsie and Binghamton with Convair 580 aircraft. Similarly, the carrier observes that Poughkeepsie is connected to the national air transportation network by air taxi service to New York, Boston, Washington, Binghamton, and Burlington, Vermont; that there is rail and bus service available to numerous destinations; and that the city is located adjacent to an excellent network of limited-access four-lane highways.

Interested persons will be given fourteen days following service of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered, That:

1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein amending Allegheny's certificate of public convenience and necessity for route 97 so as to delete Poughkeepsie, N.Y.; [1]

2. Any interested persons having objection to the issuance of an order mak-

[1] Condition (15) will also be appropriately amended.

V 38-157 AUG 15 73 XUM

ing final any of the proposed findings, conclusions, or certificate amendments set forth herein shall, within fourteen days after service of a copy of this order, file with the Board and serve upon all persons listed in paragraph 5, below, a statement of objections together with a detailed summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections;

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. A copy of this order shall be served upon Allegheny Airlines, the New York State Department of Transportation, the County of Dutchess, the Department of Aviation of the County of Dutchess, and the Bureau of Operating Rights.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

[FR Doc.73-16979 Filed 8-14-73;8:45 am]

[Docket 25691, 25725, 22859; Order 73-8-46]

AMERICAN AIRLINES, INC., ET AL.

Order of Suspension

Container loading and/or unloading proposed by American Airlines, Inc. Braniff Airways, Inc. United Air Lines, Inc.; Domestic Air Freight Rate Investigation.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 9th day of August, 1973.

By tariff revisions bearing the posting dates of June 28 and July 10, and marked to become effective August 12, 1973, American Airlines, Inc. (American), Braniff Airways, Inc. (Braniff), and United Air Lines, Inc. (United) propose to establish a rule providing carrier loading and/or unloading at airport terminals and "city terminals." [1]

At the designated airport terminals, the rule proposes loading or unloading, but not both, by the several carriers at specified charges, as follows:

Container Type	Charge per Container		Carrier
	Loading	Unloading	
A	N.A.	$18.00	AA, BN, UA
LD-3	$18.00	6.00	BN, UA
LD-3	N.A.	6.00	AA
LD-5	N.A.	11.00	AA
LD-7	N.A.	15.00	AA

N.A.—No service available.

[1] Rule 19 in Airline Tariff Publishers, Inc., Agent, CAB 131.

The carriers also propose to establish provisions for loading and/or unloading service to be performed by the carrier at the carrier's city terminals, as follows:

Container Type	Charge per Container			
	Loading		Unloading	
	Rate per cwt.	Minimum Charge	Rate per cwt.	Minimum Charge
A, LD-7	$.60	$18.00	$.60	$18.00
B	.60	10.80	.60	10.80
LD-1, LD-3	.60	6.60	.60	6.60
B-2, LD-N	.60	5.10	.60	5.10
D, LD-W	.60	3.00	.60	3.00

A list of 55 city terminals is contained in the proposals. Of these, 16 are apparently located at the chief commercial airport of the cities involved.[2]

In support of the proposals the carriers assert that, inter alia, this rule will extend container service to shippers who lack sufficient physical facilities to handle containers and will contribute growth to the container program by making container service available to more customers; will permit shippers to obtain loading or unloading service with full airline responsibility, and will enable the airlines to offer container service at virtually equivalent rates as motor carrier less-than-truckload service; and that the proposed charges cover the costs of container loading and/or unloading.

Complaints requesting rejection or, in the alternative, suspension and investigation of the proposed rule have been filed by The Flying Tiger Line Inc. (Tiger) and jointly by WTC Air Freight and Shulman Air Freight, Inc., air freight forwarders. The complaints state, inter alia, that this proposal will result in unjustified, broad-ranging, rate reductions on bulk traffic; that the necessary justification is not submitted; that the container discount would apply, but still leave the carrier with exposure to liability as on a bulk shipment; that the shipper will not be able to determine the transportation costs prior to loading; that the proposal does not demonstrate that carrier containerization of bulk traffic would result in sufficient cost savings to offset dilution; that the container discounts exceed the charges for loading and unloading; and that the proposal is not clear with respect to application of assembly and distribution rules. Tiger estimates that it would experience annual revenue dilution of approximately $966,000.

In their answers to the complaints, American[3] and United variously assert, among other things, that dilution of revenue will be minimal, if any; that no burden of loss and damage claims will be shifted to the airlines; that no significant portion of current bulk traffic will shift to containers; that approximately 50 percent of United's current lower-deck containerized traffic is now being loaded/unloaded by someone other than the shipper; that there are numerous container loading and unloading services available today outside the tariff performed by independent cartage agents and carrier subsidiaries; that the airline's cost for handling containerized freight remains the same whether the freight is containerized and tendered by the shipper to the airline or whether it is containerized and tendered by the ACI contractor; that the Board has previously endorsed the expanded availability of the container program to shippers lacking facilities; and that United does not and will not load daylight discounted containers on prime-time night freight flights, thus extending daylight discounts to bulk traffic.

The proposed rule for loading and/or unloading comes within the scope of the Domestic Air Freight Rate Investigation, Docket 22859, and its lawfulness will be determined in that proceeding. The issue now before the Board is whether to reject or suspend the proposal or permit it to become effective pending final decision of the Board in that investigation. We shall not reject the proposal because the filing conforms to the Board's tariff regulations.

Upon consideration of all relevant factors, however, the Board finds that the proposed rule should be suspended pending investigation. We believe that the proposal would significantly reduce the carrier economies of containerization for the shipments involved and reduce the justification for the current container discounts to shippers.

The container program instituted by the carriers several years ago involved incentive discounts to shippers on the basis of economies to the carriers. These economies were essentially grounded on the basis that carriers would receive loaded containers from consignors and tender such containers to consignees, thus bypassing the air freight terminals. This would save the airlines the cost of loading and unloading containers and of keeping track of numerous pieces, and reduce loss and damage.[4] In fact, the current tariff requires that containers entitled to a discount be loaded by the shipper and unloaded by the consignee at places other than the carriers' premises. Beginning in May 1971, however, certain carriers filed exceptions to the foregoing, along the following lines: (1) Carriers may unload at their premises specified container types; (2) consignees may unload containers at carriers' premises; and (3) shippers may load and/or consignees unload containers at carriers' premises (Orders 71-5-13, 71-5-52, and 72-10-42).

[2] The carriers, in addition, propose that the current pick-up and delivery rules, which cover service between shipper's dock and airport, be revised to permit stopping-in-transit at city terminals (at no increase in rates) for the loading or unloading services proposed.

[3] American and United filed separate answers to each of the two complaints. The answers on behalf of American were submitted by Air Cargo, Inc., the airlines' wholly owned subsidiary, which, inter alia, negotiates pick-up and delivery contracts with truckers for the airlines.

[4] Bulk traffic also moves in containers for the most part, but these containers are loaded and unloaded by the airlines.

The current proposals, however, go far beyond the present exceptions, to such an extent as to significantly alter the current containerization procedures. Instead of receiving loaded containers from shippers or their agents, carriers would receive bulk shipments and load them into LD-3 containers (the principal containers for wide-bodied jets) on their own premises, or load and unload other types of containers at city terminals. These city terminals are, in numerous cases, at the airports and close to the carrier's premises. As indicated above, a number of carriers currently offer unloading services at their own airport terminals.

At the current level of container rates, shippers would frequently find that container discounts significantly exceed the charges paid by the shippers and consignees for loading and unloading. Thus, in our view, carriers would often incur unwarranted dilution of revenues, inasmuch as they would grant container discounts to numerous bulk shipments that they would continue handling in the same fashion as now (carrier loading and unloading of containers).

In fact, the proposals may result in reducing the flexibility of carrier operations by permitting shippers to specify the container types desired. When carriers currently load bulk shipments in containers, they may be able to combine several shipments in the same container. But this would be impossible under this proposal.

In their answers, the carriers assert that there are currently available container loading and unloading services offered by concerns that enable shippers to obtain container discounts without loading the containers themselves. American refers to ACI contractors and United calls them independent entrepreneurs and carrier subsidiaries, stating that they operate at rates outside of the tariff.

The foregoing arguments miss the thrust of our objections. It has always been possible for shippers and consignees to have others perform loading and unloading of the containers for which discounts were offered. The point is that carriers incurred no costs for these operations, and their premises (allegedly overcrowded) were not utilized. Under the proposals, two of the three carriers would load certain containers at their own terminals and other containers at city terminals, frequently at the airports close to their own terminals.[5] Consequently, the carriers would load bulk shipments into containers, but would be giving container discounts under the proposed rule. Although the carriers assert that the loading and unloading charges would be compensatory, they are not closely related to the differential between the charges for bulk and containerized freight; thus, the economic basis for container discounts appears subverted. Such basic changes in the economics of containerized service should, in our view, await conclusion of the cost and other studies presently in process in the Domestic Air Freight Rate Investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

It is ordered, That:

1. Pending hearing and decision by the Board, the rates, charges, and provisions described in Appendix A hereto are suspended and their use deferred to and including November 9, 1973, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

2. Except to the extent granted herein, the complaint of The Flying Tiger Line Inc. in Docket 25691 and the joint complaint of WTC Air Freight and Shulman Air Freight, Inc., in Docket 25725 are dismissed; and

3. Copies of this order shall be filed with the tariff and served upon American Airlines, Inc., Braniff Airways, Inc., The Flying Tiger Line Inc., United Air Lines, Inc., WTC Air Freight, and Shulman Air Freight, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

[FR Doc. 73-16980 Filed 8-14-73;8:45 am]

[5] As indicated, the third carrier, American, proposes to load various containers at city terminals.

[Docket 23333 and 25280; Order 73-8-39]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Cargo Rate Matters

AUGUST 8, 1973.

Agreement adopted by the International Air Transport Association relating to cargo rate matters.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA). The agreement was adopted for expedited effectiveness at the Worldwide Cargo Traffic Conference held in May–June, 1973 at Mexico City.

The resolutions dealt with herein propose amendments to the specific commodity rate structure applicable within the Western Hemisphere. These amendments, insofar as they would affect air transportation, are set forth in Attachment A.[1] Additionally, the resolutions revalidate certain intra-Pacific commodity rates, not applicable in air transportation, due to expire September 29, 1973 for a one day period to September 30, 1973, and propose a new cargo escape resolution for application in the Mid Atlantic area. We will approve subject to conditions the amendments to Western Hemisphere specific commodity rates since these rates remain below the otherwise applicable general cargo rates, and will likewise approve subject to condition the new Mid Atlantic escape resolution. We will disclaim jurisdiction with respect to the resolution dealing with revalidation of the intra-Pacific specific commodity rates since none of the rates involved affect air transportation.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14:

1. It is not found that the following resolutions incorporated in Agreement 23748, as indicated in the attachment hereto, are adverse to the public interest or in violation of the Act provided that approval is subject to conditions stated herein:

Agreement C.A.B. 23748	IATA No.	Title	Application
R 1	590	(Expedited) Specific Commodity Rates Board (Amending)	1

Provided, That approval shall not constitute approval of the specific commodity descriptions contained herein for purposes of tariff publication; provided further that tariff filings shall be marked to become effective on not less than 30 days' notice from date of filing.

Agreement C.A.B. 23748	IATA No.	Title	Application
R 3	0012	Mid Atlantic Escape Resolution—Cargo (New)	1 2

Provided, That with respect to Resolution 0012, all notices sent or received pursuant to said resolution shall be filed with the Board at the same time and in the same manner as circulated to the carriers; provided further that any change, deletion, or addition to the Mid Atlantic cargo rate structure and related resolutions, whether or not in air transportation as defined by the Act, shall be filed with the Board under section 412 of the Act, and approved by the Board prior to being placed in effect.

2. It is not found that the following resolution, incorporated in Agreement 23748, as indicated, affects air transportation within the meaning of the Act:

Agreement C.A.B. 23748	IATA No.	Title	Application
R 2	590	(Expedited) Specific Commodity Rates Board (Amending)	3

Accordingly, *It Is Ordered That:*

1. Agreement C.A.B. 23748, R–1 and R–3, be and hereby is approved subject to the conditions set forth herein; and

2. Jurisdiction is disclaimed with respect to Agreement C.A.B. 23748, R–2.

Persons entitled to petition the Board for review of this order, pursuant to

[1] Attachment filed as part of the original document.

V 38-157 AUG 15 73 XUM

the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

[FR Doc.73-16977 Filed 8-14-73;8:45 am]

[Docket 23333; Order 73-8-30]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Specific Commodity Rates

AUGUST 7, 1973.

Agreement adopted by Joint Traffic Conferences of the International Air Transport Association relating to specific commodity rates.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic regulations, between various air carriers, foreign aid carriers, and other carriers, embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA) and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement names four additional specific commodity rates and the cancellation of an existing rate, as set forth in the attachment [1] hereto, reflecting reductions from general cargo rates; and was adopted pursuant to unprotested notices to the carriers and promulgated in an IATA letter dated July 27, 1973.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the conditions hereinafter ordered.

Accordingly, *It Is Ordered*, That:

1. Agreement C.A.B. 23822, R-1 through R-5 be and hereby is approved, provided that approval shall not constitute approval of the specific commodity descriptions contained herein for purposes of tariff publication, provided further that tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing; and

2. The findings and approval herein shall not be deemed to modify the findings and Order of the Board in its decision in Agreements Adopted by IATA Relating to North Atlantic Cargo Rates, Order 73-2-24 of February 6, 1973, as amended and finalized by Order 73-7-9 of July 5, 1973, and are subject to all provisions of such order.

Persons entitled to petition the Board for review of this order, pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

[FR Doc.73-16978 Filed 8-14-73;8:45 am]

[1] Attachment filed as part of the original document.

ENVIRONMENTAL PROTECTION AGENCY

CONNECTICUT

Request for State Program Approval for Control of Discharges of Pollutants to Navigable Waters

Section 402(b) of the Federal Water Pollution Control Act (33 USC 1251) provides that the Governor of a State desiring to administer the National Pollutant Discharge Elimination System (NPDES) program to control discharges into navigable waters within its jurisdiction may submit to the Administrator of the U.S. Environmental Protection Agency (EPA) a full and complete description of the program it intends to administer, including a statement from the State Attorney General that the laws of the State provide adequate authority to carry out the described program. The Administrator is required to approve each such submitted program unless he determines that (1) the State does not have adequate legal authority to comply with Section 402(b) of the Act, including the authority to issue permits which comply with all pertinent requirements of the Act and the authority to abate violations of any permit (including civil and criminal penalties); or (2) the State does not comply with the requirements for State permit programs promulgated by the Administrator pursuant to section 304(h)(2) of the Act. A complete description of the State program elements necessary for approval of the State program was published in Volume 37 of the FEDERAL REGISTER, December 22, 1972 (40 CFR 124), beginning at page 28390. (A copy is available by writing the above address.)

The State of Connecticut has submitted a full and complete Request for State Program Approval, and proposes that the Connecticut Department of Environmental Protection, Room 129, State Office Building, Hartford, Connecticut 06115 (Douglas Costle, Commissioner, 203/566-3245), operate the NPDES permit program for discharges into navigable waters of the State in compliance with the Act.

This request and program description may be inspected at the offices of the Water Compliance Unit of the Connecticut Department of Environmental Protection at the above address or at the Regional Office of the U.S. Environmental Protection Agency, John F. Kennedy Federal Building, Boston, Massachusetts 02203 (617/223-5600).

A public hearing to consider this request will be held at the Hall of the House, The State Capitol Building, Hartford, Connecticut, on September 13, 1973, at 10 a.m. It will continue until all present are heard.

The hearing panel will consist of the Administrator's representative who will serve as the Presiding Officer, the Commissioner of the Department of Environmental Protection or his representative, and the Regional Administrator, Region I, EPA, or his representative.

All interested persons wishing to comment upon or object to this request are invited to appear at the public hearing to present their views. Written comments may be presented at the hearing or submitted within 5 days thereafter either in person or by mail to the Regional Office of the U.S. Environmental Protection Agency at the above address, marked "Attention: Permits Branch".

Oral statements will be received and considered, but, for accuracy of the record, all testimony should be submitted in writing. Statements should summarize extensive written material so that there will be time for all interested persons to be heard. Persons submitting written statements are encouraged to bring additional copies for the use of the hearing panel and other interested persons.

A written transcript of the hearing will be made. The hearing record will be kept open for 5 days following the hearing to permit persons to submit additional written statements or to present evidence or views to rebut testimony presented at the hearing.

All comments or objections received on or prior to 5 days following the hearing date or presented at the public hearing, will be considered in the formulation of the Regional Administrator's recommendation to the Administrator regarding Connecticut's Request for State Program Approval. Further information can be obtained by contacting the EPA Permits Branch by telephone (617/223-3061) or in writing at the above address.

ALAN G. KIRK II,
Acting Assistant Administrator for Enforcement and General Counsel.

AUGUST 9, 1973.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19793; FCC 73-791]

CHASTAIN ET AL.

Order Regarding Oral Argument Before Commission En Banc

In the matter of referral of Chastain et al. v. AT&T from the United States District Court for the District of Columbia.

1. We have before us a Memorandum-Order of the Honorable Oliver Gasch, Judge, United States District Court for the District of Columbia, in the case of Paul Y. Chastain and Patsy P. Chastain, et al. v. American Telephone and Telegraph Company, dated December 18, 1972. This matter was instituted as an antitrust complaint for treble damages and injunctive relief filed with the Court on July 13, 1970. Petitioners, who are fifteen individuals or business organizations, alleged therein that the American Telephone and Telegraph Company (AT&T, sometimes referred to as the Bell System operating companies) acted unreasonably in refusing to provide mobile telephone service to users of a portable manual mobile telephone device, known as the Attache Phone, between 1968 and the time that the complaint was filed. The Memorandum-Order requests the Commission to determine the justness, reasonableness, validity and effect of this policy and practice under the Communications Act of 1934, as amended. We have also received a Petition for Oral Argument and Prompt Action filed by Petitioners on March 23, 1973; a Response filed April 5, 1973 by AT&T; and a Reply to AT&T's Response filed by Petitioners on April 19, 1973. In addition to the pleadings filed with us, we are considering certain documents filed with the Court, including Plaintiff's memorandum in support of its motion for summary judgment; a number of affidavits in support of Petitioners' position; Defendant's memorandum in opposition to the motion for summary judgment; affidavits of certain individuals in support of AT&T's position, particularly those of A. A. Bottani, Jr., and Richard T. Duggan; Plaintiff's reply to the memorandum in opposition to the motion for summary judgment; and a stipulation signed by the attorneys for the parties.

2. During the period of time covered by the complaint, Petitioners had been engaged in the selling or distributing of the Attache Phone. In their petition filed with us, they requested that we determine AT&T's practices with respect to the Attache Phone unreasonable between 1968 and the time that the antitrust complaint was filed with the Court, that the policy was without any sound basis in terms of protection of the company's facilities, and that further there is nothing in communications law or policy to bar the Court from proceeding on their motion for summary judgment. AT&T argued in its response that its refusal to allow Attache Phone operation in certain areas was, and is, justified, since its general use in those areas would be detrimental to many of its customers.

3. For the reasons stated below, we find that there are questions whether AT&T's exclusionary policy with respect to Petitioners' Attache Phone during the period of time in issue, may have been unreasonable and therefore in violation of sections 201(a) and 202(a) of the Act (47 U.S.C. 201(a), 202(a)); whether the company may have violated section 214 (a) of the Act (47 U.S.C. 214(a)) by discontinuing service without first receiving authority from the Commission to do so; and whether the company has been in continuous violation of its tariff obligation under section 203(c) of the Act (47 U.S.C. 203(c)). We have decided, therefore, to hold oral argument on these questions, as amplified below.

NATURE OF THE SERVICE [1]

4. The Attache Phone is a portable, manually operated mobile telephone contained in an attache case and designed for use in mobile telephone systems such as that provided by the Bell System operating companies. Unlike a vehicular mobile telephone, the Attache Phone is not installed for use in an automobile or truck. Consequently its owner is not limited to placing or receiving calls while in a vehicle, but may instead utilize the device from any physical location where he is able to obtain mobile telephone service.

5. An Attache Phone user places a call by first manually locating an idle channel, a process which requires selection by listening to see whether an available channel is free. When an idle channel is located, a mobile operator must intervene to connect him to the desired number. Incoming calls must also go through a mobile operator, who signals the unit and connects the call by utilizing an idle channel. The need for operator assistance characterizes the Attache Phone as a manual mobile telephone as opposed to one equipped with automatic, direct dial capability.

6. Automatic dial service is a distinguishing feature of Improved Mobile Telephone Service (IMTS), the system which AT&T has increasingly implemented within the last ten years. Under most circumstances, customers equipped with automatic, IMTS mobile telephones have no need for operator assistance. In addition, idle channels over which to place a call are selected automatically without having to first manually monitor all available channels in order to locate one which is not in use. As a result, calls are initiated and received in much the same way as the modern landline telephone.

7. Mobile telephone service originated in the mid-1940's on a manual basis, but like the transformation which affected the manual landline telephone, the introduction of advanced technology has produced many mobile telephone systems that are fully automatic. By 1971, 43 per cent of the mobile telephones registered with Bell System operating companies were equipped for automatic dial service (See Dugan affidavit, paras. 6, 9). This is a significant statistic since IMTS is of relatively recent vintage, the first proposal for an automatic mobile telephone system having been granted by the Commission in 1957. In 1962, the Bell Telephone Company of Pennsylvania was granted authority for a developmental station at Harrisburg. The company's proposal outlined the design of what was referred to as Improved Mobile Telephone Service, and the system described in its 1962 application is, for the most part, identical to present IMTS operations. Since its introduction, the Commission has been aware of the growing trend of telephone companies to convert to IMTS; and moreover we believe that this trend is in keeping with the public interest.

8. Part 21 of the Commission's rules and regulations (47 CFR, 21.14(b)), provides for licensing of mobile telephones under a blanket authorization of a carrier or individually to a mobile subscriber. A customer who wishes to utilize equipment provided by a Bell System operating company will be licensed under the specific company's blanket authorization. In such a case, the customer pays a monthly rate which includes the cost of service and the cost of using the equipment for mobile telephone exchange service.[2]

9. If instead, the customer desires to furnish his own equipment, he may obtain either manual or IMTS units from numerous suppliers located throughout the country. However, by utilizing other equipment than that provided by AT&T, he is not permitted to operate under the company's blanket authorization, and must apply individually to the Commission for a license. To be so licensed, the applicant must demonstrate that he has made appropriate arrangements with a carrier for the service requested (See 47 CFR 21.15(i)). He may achieve this by including within the application a "letter of intent" to provide the service within a specified service area, signed by an authorized official of the carrier.

10. This does not mean that a subscriber can receive service only in the area designated by the letter of intent. When the customer leaves his base station of registry, he may nevertheless qualify for service as a "roamer." Roamers are mobile telephone users who, although registered in one area, are temporarily in range of a "foreign" base station. In rendering service to roamers equipped with IMTS units, a foreign IMTS base station will complete calls manually with the assistance of a mobile operator.

16. AT&T responded by asserting that there was a sound basis for excluding the Attache Phone from IMTS areas, and that the petition contained factual allegations which were contradicted by AT&T's affidavits. For this reason, an evidentiary hearing was requested. At the same time, AT&T further stated that if no hearing were deemed necessary by the Commission, then an oral argument was acceptable, provided that Petitioners had asked for one on the assumption that their arguments must prevail notwithstanding AT&T's factual allegations. In any case, the company asserted that its participation in a Commission proceeding was without prejudice to its expressed position that the policy in issue is a matter of state regulatory authority, and therefore not subject to Commission ju-

[1] The description is based in part upon the contents of documents filed with both the Court and the Commission.

[2] This charge, as well as the regulations governing the exchange use of the service are filed with state or local regulatory authorities (See 47 U.S.C. 152(b), 221(b)).

V 38-157 AUG 15 73 XUM

risdiction or to attack under the antitrust laws.

17. Petitioners' reply disputed AT&T's position on jurisdiction. They claimed that the Bell System operating companies provided interstate service to mobile telephone subscribers, and offered their own affidavits which stated that the Attache Phone had been designed, at least in part, for interstate communication. Petitioners further maintained that no issues of fact were in contention that would require a hearing since they were prepared to accept AT&T's testimonial facts, although not the arguments by which ultimate conclusions were derived from testimonial facts.

COMMISSION JURISDICTION

18. We reject AT&T's contention that the Commission does not possess the jurisdictional authority to deal with this matter pursuant to the Act. AT&T argues that under Section 221(b) of the Act (47 U.S.C. 221(b)), the Commission has not been granted jurisdiction over the policy and practice in issue. It cites, in addition, a Public Notice of 1965 by which it claims the Commission affirmed its belief that it did not possess jurisdiction over mobile telephone service, Public Notice, 1 FCC 2d 830 (1965). Section 221(b) reads as follows:

> Subject to the provisions of section 301, nothing in this act shall be construed to apply, or to give the Commission jurisdiction, with respect to charges, classifications, practices, services, facilities, or regulations for or in connection with, wire, mobile, or point-to-point radio telephone exchange service, or any combination thereof, even though a portion of such exchange service constitutes interstate or foreign communication, in any case where such matters are subject to regulation by a State Commission or by local governmental authority.

19. AT&T has misconstrued section 221(b), for that section denies us jurisdiction over exchange service in cases where mobile service areas cross a state border, as it does in metropolitan Washington, D.C. To say that the Commission has no jurisdiction over local mobile telephone exchange service, is not to say that the Commission has no jurisdiction over mobile telephone service at all. The user of a mobile telephone is not only offered exchange service through AT&T's tariffs filed with the state regulatory agencies, but is offered interstate toll service pursuant to AT&T's Tariff FCC No. 263 (See sections 1.1; 3.4 of Tariff). By filing this tariff, AT&T must be held to concede that part of the use of mobile telephone service is subject to our jurisdiction under Title II of the Act. According to Petitioners' affidavits, the Attache Phone was designed to be used for interstate communication as well as for local exchange service (See Rosenberg affidavit, paras. 3–7; Hennings affidavit, paras. 1–4). Thus, we must conclude that we have jurisdiction over interstate, non-exchange calls placed by users of mobile telephone under Title II of the Act, and that we may therefore proceed with this matter in accordance with the Court's request and pursuant to our own statutory authority.

20. AT&T's reference to the 1965 Public Notice lends no support to its argument, for that document was concerned with miscellaneous common carriers providing mobile telephone service. Moreover, the Public Notice goes on to assert that the Commission does have jurisdiction with respect to any interstate toll calls transmitted through interconnection of a mobile system with the telephone network.

COMMISSION PROCEDURE

21. The Court has charged the Commission with the duty of determining the reasonableness and effect of AT&T's exclusionary policy with regard to Petitioners, while leaving to the Commission's discretion the scope of the administrative examination and the factors to be considered. We feel that an evidentiary hearing is not warranted. We have been presented with the memoranda in support of, and in opposition to summary judgment, affidavits of both parties, a number of relevant documents, the pleadings specifically filed with us, and a stipulation that it is the general practice and policy of the Bell System operating companies to refuse letters of intent for manual mobile telephones like the Attache Phone when the requested service will be rendered through an IMTS base station (See Stipulation, para. 4). In addition, for the purpose of reaching our conclusions, we are accepting as true all testimonial facts offered by AT&T. However, before reaching legal conclusions on these facts, we first wish to hear oral argument from the parties.

22. Thereafter, it is our intention to advise the Court of the reasonableness, pursuant to sections 201(a) and 202(a) of the Act, of AT&T's refusal to register Attache Phones in IMTS areas during the period of time covered in the complaint. We further wish to advise the Court on a possible violation of section 214(a) of the Act, and on certain tariff matters not certified to us, and which are governed by section 203 of the Act. We believe that proceeding in this manner will satisfy the mandate of the Court, and subsequently place it in a position to rule on the antitrust questions pending before it.

QUESTIONS GOING TO THE REASONABLENESS OF AT&T'S POLICY ON ATTACHE PHONES

23. We believe that questions are raised as to whether AT&T's policy with regard to Petitioners' customers in IMTS areas has violated sections 201(a) and 202(a) of the Act, during the period of time between 1968 and the filing of the antitrust complaint.

24. The purpose of mobile telephone service is primarily to afford the public an efficient way in which to engage in two-way voice communication apart from, but in conjunction with,[3] a landline telephone installation. Mobile telephone service is offered by both landline telephone companies and miscellaneous common carriers (also known as radio common carriers). The latter category is comprised of more than 600 independent communications operations, many of them physically interconnected with landline telephone companies.

25. Manual systems and IMTS systems are the two general classifications of mobile telephone service, and in order to examine the question of AT&T's reasonableness with regard to Petitioners, it is necessary to assess the mobile telephone market during the years covered by the complaint. In the areas designated for transition to IMTS, AT&T gave what it considered to be reasonable notice of the need to convert to automatic equipment. Accordingly, vehicular manual mobile telephone customers in these areas were obliged to change their equipment to vehicular IMTS units. This may have caused some inconvenience, but it is important to note that suitable vehicular equipment was readily available from those sources previously mentioned, i.e., Bell System operating companies or independent equipment suppliers.

26. However, it appears that the same may not be true for users or potential users of portable, non-vehicular mobile telephones. In 1968, there were only manual portables available on the market, and not until June 3, 1971 was a portable IMTS mobile telephone type accepted by the Commission. As a result, the effect of excluding portable manual telephones like the Attache Phone appears to have been to preclude the use of all portable mobile telephones in IMTS areas, regardless of channel congestion in individual IMTS areas, or of the availability of suitable portable units.

27. The primary factors cited by AT&T in defense of its policy include the ability to provide a better grade of service, or service to an increased number of users, or both, where IMTS service is provided and manual mobile telephones are not registered; the enhanced privacy that results from the use of IMTS service in the absence of manual mobile telephones; the more efficient use of scarce spectrum space that is a consequence of this pattern; the danger manual mobile telephones pose in IMTS areas because of their ability to "seize" channels to the detriment of users of dial mobile telephones; and the adverse impact of manual mobile telephones, which lack automatic channel selection, on the use of the mobile telephone network as a two-way communication service (See AT&T Response, para. 17).

28. Petitioner argues that these factors were not of the same magnitude in all IMTS areas principally because circumstances such as channel congestion can vary from area to area (See Reply to AT&T's Response, paras. 18, 19, 24, and 28). AT&T admits that each of the factors listed above does vary in seriousness according to the area, but emphasized that the registration of manual mobile telephones produces disadvantages in virtually every IMTS area (See AT&T Response, para. 17; Dugan affidavit, paras. 16–25; Bottani affidavit, paras. 14–35).

[3] Mobile-to-mobile service is included within Tariff FCC No. 263, 1.1.

29. Section 201(a) of the Act provides:

> It shall be the duty of every common carrier engaged in interstate or foreign communications by wire or radio to furnish such communication upon reasonable request therefor. . . .

30. The exclusion from registry of the Attache Phone at a time when technological advancement had not yet developed portable IMTS mobile telephones presents questions of whether the carrier has complied with section 201(a). We have a situation in which it appears that a policy of complete denial from registry had been instituted on the basis that inclusion of the Attache Phone would have harmed the IMTS system, and yet AT&T has admitted that any adverse impact will differ according to the particular area under consideration. Moreover, it appears AT&T has devised no rational standards by which to deal with the Attache Phone even though the effects of its use differed in varying IMTS areas. Under such circumstances, it is questionable whether denial of all requests for service made by users of the Attache Phone is reasonable. Such a blanket prohibition may not be justifiable under section 201(a), the Carterphone decision, 13 FCC 2d 420 (1968),[4] or the decision in Hush-A-Phone v. U.S., 99 U.S. App. D.C. 190, 238 F. 2d 266 (D.C. Cir., 1956),[5] in the absence of a showing that Attache Phone users could not have been accommodated in any IMTS area without an unacceptable impact on IMTS efficiency. We are not suggesting that exclusion of the Attache Phone would have been improper under all circumstances. It does not appear, however, that AT&T made an attempt to define those circumstances wherein prohibition from registry would have been reasonably appropriate. A blanket prohibition so broad that it failed to consider diverse factors in varying IMTS areas, raises a question of whether there was an unreasonable denial of service upon reasonable request.

31. There is nothing in the record before us to show that AT&T conducted any surveys or technical studies in order to distinguish the difference in the impact of Attache Phones in those IMTS areas with heavy subscriber congestion or an abundance of roamers, and in those areas where problems of congestion were less severe. We note that AT&T admits serving IMTS roamers manually in foreign IMTS areas (See Bottani affidavit, para. 12). From this, it appears that mobile operators were necessary in order to provide roamer service, and that manual units were capable of being accommodated, for IMTS roamers could have access to the mobile telephone system only if they operated in the manual mode. We have previously held that the telephone company could set up reasonable standards by which to deal with communications devices, Carterphone, 13 FCC 2d 420, 424 (1969); however, AT&T has,thusfar, made no showing that any thought was given by the company to the development of appropriate standards which might have been applied to Petitioners' customers. Instead these customers appear to have been, apparently, completely refused registration without regard to the condditions that existed at the time in specific IMTS areas, and despite the fact that the Attache Phone might have been accommodated in any IMTS area that provided service to roamers.

32. Section 202(a) of the Act reads as follows:

> It shall be unlawful for any common carrier to make any unjust or unreasonable discrimination in charges, practices, classifications, regulations, facilities, or services for or in connection with like communication service, directly or indirectly, by means or device, or to make or give any undue or unreasonable preference or advantage to any particular person, class of persons, or locality, or to subject any particular person, class of persons, or locality to any undue or unreasonable prejudice or disadvantage.

33. The exclusion of Attache Phones at a time when IMTS portable equipment was unavailable, presents the question of whether AT&T may have subjected Petitioners to an undue and unreasonable prejudice in derogation of Section 202(a). Although use of the Attache Phone might not have had a significantly deleterious effect on IMTS areas without heavy subscriber congestion, it appears that the refusal to register was absolute. If AT&T excluded the device from an entire mobile telephone market without a proper technological basis, Petitioners and their customers could have been unreasonably prejudiced and disadvantaged in violation of Section 202(a).

34. For the foregoing reasons, we believe that substantial questions are raised, which we do not now resolve, as to past violations of sections 201(a) and 202(a) of the Act. We recognize that recently there has been a significant change in market conditions regarding mobile telephones, i.e., portable IMTS units are now available. While we do not find at this time sufficient reason to institute a proceeding on our own motion as to the present propriety of AT&T's policy, we do not exclude the possibility of a properly supported complaint filed pursuant to section 208 of the Act (47 U.S.C. 208) which might allege facts sufficient to raise questions of present reasonableness with respect to AT&T's actions.

REQUIREMENTS OF SECTION 214(a) OF THE ACT

35. Section 214(a) of the Act provides:

> • • • No carrier shall discontinue, reduce, or impair service to a community, or part of a community unless and until there shall first have been obtained from the Commission a certificate that neither the present nor future public convenience and necessity will be adversely affected thereby. • • • Provided, however, that nothing in this section shall be construed to require a certificate or other authorization from the Commission for • • • changes in plant, operation or equipment, other than new construction, which will not impair the adequacy or quality of service provided.

36. When AT&T implemented its stated policy that manual mobile telephones would not be registered in IMTS areas, it did so without first obtaining authority from the Commission to discontinue the service. This omission may have adversely affected users and potential users of the Attache Phone.

37. Section 63.60 of the Commission's rules and regulations gives certain examples of discontinuance, reduction, or impairment of service, (47 CFR: 63.60). Among such examples are:

a. the closure by a carrier of a public telegraph office, a telephone exchange rendering interstate or foreign telephone toll service, a public toll station serving a community or part of a community • • •. (63.60(a)(1));

b. the reduction in hours of service by a carrier at a public telegraph office, at a telephone exchange rendering interstate or foreign telephone toll service, at any public toll station • • •, or at a public coast station (63.30(a)(2));

c. the termination or suspension by a carrier of pickup and delivery service in connection with message telegraph service to any community or part of a community • • • or the substitution of a delivery agency for the handling of messages in lieu of direct handling by a telegraph office (63.60(a)(3));

d. the dismantling or removal from service of any trunk line by a carrier which has the effect of impairing the adequacy or quality of service rendered to any community or part of a community (63.60(a)(4));

e. the severance by a carrier of physical connection with another carrier • • • or the termination or suspension

[4] Carterphone had similarly begun as an antitrust action, brought by the inventor of a device which permitted a person receiving an incoming landline telephone call to transmit such call from the location received to another location by use of two-way radio communication. AT&T's tariff had provided that no apparatus not furnished by the company could be attached to its facilities. The hearing examiner found that the device did not adversely affect the telephone system, and that the tariff to prohibit attachment was prospectively unreasonable since it did not take into consideration whether or not the device would cause harm, Carterphone, 13 FCC 2d 430 (1967). In reviewing the decision, the Commission found the tariff to be in violation of sections 201(b) and 202(a) of the Act, but further stated that it was not finding that the telephone company may not prevent the use of devices which do cause harm, Carterphone, 13 FCC 2d 420, 424 (1968).

[5] Hush-A-Phone involved the acceptability of a cup-like device mechanically fastened to the mouthpiece of a telephone handset. The Court held that a tariff prohibition of a customer supplied foreign attachment interfered with the telephone subscriber's right reasonably to use his telephone in ways which were privately beneficial without being publicly detrimental. After Hush-A-Phone, the Commission directed AT&T to rescind any tariff regulations that prohibited a customer from using, in connection with interstate or foreign service, any device which did not injure its employees, its facilities, the public in its use of those facilities, or impair the operation of the telephone system. Hush-A-Phone v. AT&T, 22 FCC 112 (1957).

V 38 157 AUG 15 73 XUM

of the interchange of traffic with such other carrier (63.60(a)(5)).

38. The foregoing examples are not exclusive, and we find that the discontinuance from registry of manual mobile telephone service in IMTS areas may have been a discontinuance under section 214(a) of the Act. Manual mobile telephone service was offered to registered subscribers in each of the IMTS area communities in issue. When registry ceased to become possible, this service was discontinued on a regular basis without the procedures required by section 214(a).

39. In these circumstances, we think that substantial question is raised as to whether there has been a violation of section 214(a).

REQUIREMENTS OF SECTION 203 OF THE ACT

40. AT&T's Tariff FCC No. 263 applies to long distance message telecommunications service offered by the company. It appears that AT&T did not set forth in its tariffs the exclusion of manual mobile telephones from registry in certain areas. section 203(c) of the Act provides:

• • • No carrier shall • • • (3) employ or enforce any practices affecting such charges [for interstate communications] except as specified in such schedule.

41. From February 1, 1968, to the present time, the only interstate tariff limitations on service to vehicles in AT&T's tariff offering are:

Public Land Mobile Service is available to vehicles equipped for this service when within range of a Base Station through which such service is furnished.* Service is subject to transmission, atmospheric and like limitations (see Attachment, Tariff FCC No. 263, section 3.4.1(a)(2)).

42. The tariff sections relating to mobile telephone service cite no other limitations, and we see nothing within the tariff which might be reasonably construed to limit service only to automatic dial equipped mobile telephone equipment.

43. For the foregoing reasons, we think questions are raised as to whether AT&T has been in continuing violation of section 203(c).

44. In view of the foregoing questions, we find that oral argument should be held upon the issues below.

45. We request that 10 days prior to oral argument, AT&T supply us with facts as to whether, or to what extent, if any, the exclusion of the Attache Phone from IMTS areas was based upon technical surveys or any other studies carried out before the policy decision to exclude Attache Phone from registry was implemented. Moreover, if surveys or studies were made, we request that AT&T provide independent results from each separate area where such surveys, etc., were conducted. AT&T should also list those areas which converted to IMTS in which no surveys, etc., were made prior to conversion.

46. Accordingly, oral argument will be held on the following issues:

(a) To determine whether or not AT&T failed to furnish communication service to persons wishing to use Attache Phones upon reasonable request therefor in violation of 201(a) of the Act.

(b) To determine whether or not AT&T unjustly or unreasonably discriminated against persons wishing to use Attache Phones in the practices and regulations pursued by the company in violation of section 202(a) of the Act.

(c) To determine whether or not AT&T was in violation of section 214(a) of the Act for failing to apply to the Commission for certification to discontinue mobile telephone service to persons wishing to use Attache Phones in IMTS areas on a registered basis.

(d) To determine whether or not AT&T is in violation of section 203(c) of the Act for failing to include within FCC Tariff No. 263 the provision that manual service is not rendered to manual mobile telephone users on a registered basis in IMTS areas.

47. *It is ordered,* (a) That oral argument will be held before the Commission *en banc* at 9:30 a.m. on September 24, 1973, (b) That the parties here designated are authorized to present oral argument in the following order for the times designated:

Chastain, et al., 30 minutes.
AT&T, 30 minutes.

and (c) That Chastain, et al. may reserve part of their time for rebuttal.

48. *It is further ordered,* That the Petition for Oral Argument and Prompt Action filed March 23, 1973, by Petitioners is granted, to the extent indicated above.

Adopted: July 26, 1973.

Released: Aug. 2, 1973.

By the Commission.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

[FR Doc.73-16909 Filed 8-14-73;8:45 am]

*Stations other than vehicles which are authorized by the Federal Communications Commission to communicate with a Base Station are considered as vehicles (See Attachment, Tariff FCC No. 263, section 3.4.1(a)(2)).

FEDERAL MARITIME COMMISSION

PORT OF PORTLAND AND COOK INDUSTRIES, INC.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, N.W., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before September 4, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Lloyd B. Robinson, Esq.
Legal & Regulatory Department
Port of Portland
Box 3529
Portland, Oregon 97208

Agreement No. T-2832, between the Port of Portland (Port) and Cook Industries, Inc. (Cook), provides for the construction and 30-year lease (with renewal options) of a grain elevator and terminal facility at the Port of Portland, Oregon. Cook will operate the facility as a public agricultural products facility and will act as Port's agent in its construction. As rental, Cook will pay Port a monthly amount which when added to the amount on deposit in a bond fund shall be equal to the amount payable as interest and principal on the bonds used in financing the facility. Port will assess and collect all dockage charges at its posted tariff rates, while Cook will collect all wharfage, service and facility charges, storage and other charges at a published tariff rate. The Port is restricted from entering into a more favorable leasing arrangement with a new grain elevator for 15 years from the date the 1973 bonds are issued. By Order of the Federal Maritime Commission.

Dated: August 10, 1973.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Dockets Nos. CI74-68, CI74-69, CI74-70]

ANADARKO PRODUCTION CO.

Notice of Applications

AUGUST 9, 1973.

Take notice that on July 31, 1973, Anadarko Production Company (Applicant), P.O. Box 9317, Fort Worth, Texas 76107, filed in Docket Nos. CI74-68, CI74-69, CI74-70 applications pursuant to section 7(c) of the Natural Gas Act and § 2.75 of the Commission's General Policy and Interpretations (18 CFR 2.75) for certificates of public convenience and necessity authorizing sales for resale and deliveries of natural gas in interstate commerce to Trunkline Gas Company (Trunkline) from Block 639, West Cameron Area, Block 338, West Cameron Area, and Block 320, Vermilion Area respectively, offshore Louisiana, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Applicant in Docket No. CI74-68 proposes under the optional gas pricing procedure to sell natural gas from Block 639, West Cameron area to Trunkline at a rate of 45.0 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment, pursuant to a contract dated July 19, 1973. Said contract provides for a 1.0-cent per Mcf price escalation, for tax reimbursement to the seller and for a term of 20 years. Applicant estimates monthly deliveries of gas at 455,400 Mcf.

Applicant in Docket No. CI74-69 proposes to sell from Block 338, West Cameron area, to Trunkline at a rate of 45.0 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment, pursuant to a contract dated July 19, 1973. Said contract provides for a 1.0-cent per Mcf price escalation per year, for tax reimbursement to the seller, and for a term of 20 years. Applicant estimates monthly deliveries of gas at 375,000 Mcf.

Applicant in Docket No. CI74-70 proposes to sell gas from Block 320 Vermilion area, to Trunkline at a rate of 45.0 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment, pursuant to a contract dated July 19, 1973. Said contract provides for a 1.0-cent per Mcf price escalation per year, for tax reimbursement to the seller, and for a term of 20 years. Applicant estimates monthly deliveries at 562,500 Mcf.

Applicant states that the gas offered for certification pursuant to each contract has not been previously sold in the interstate market, nor have any applications been previously filed with the Commission for certification of the sales of such gas.

Applicant asserts that the sale of gas at the proposed price with escalations is reasonable as the cost of exploration and production from these areas is higher than those applicable in other producing areas because of the water depth and the price of obtaining the leases from the United States Government. Applicant further asserts that the proposed sales at the stated rates with escalations are in line with those being charged by other producers for gas from the same areas and that since the Commission has approved other sales from the same general area at this price level it would be reckless for Applicant, a moderate sized producer, to attempt to provide similar services at a lesser price. Applicant further asserts that the rates in the instant applications are lower than those in other contracts for both intrastate and interstate sales of gas and for sales of substitute fuels including liquefied natural gas and synthetic gas from naphtha or coal.

Any person desiring to be heard or to make any protest with reference to said applications should on or before September 4, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceedings. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, hearings will be held without further notice before the Commission on these applications if no petitions to intervene are filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificates is required by the public convenience and necessity. If petitions for leave to intervene are timely filed or if the Commission on its own motion believes that formal hearings are required, further notice of such hearings will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearings.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16969 Filed 8-14-73;8:45 am]

[Docket No. CI74-71]

ARKLA EXPLORATION CO.

Notice of Application

AUGUST 9, 1973.

Take notice that on July 31, 1973, Arkla Exploration Company (Applicant), P.O. Box 1734, Shreveport, Louisiana 71151, filed in Docket No. CI74-71 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Arkansas Louisiana Gas Company from the Mathers Ranch Field, Hemphill County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 60,000 Mcf of gas per month for one year at 45.0 cents per Mcf at 14.65 psia within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before August 23, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed wth the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16958 Filed 8-14-73;8:45 am]

[Docket No. CI73-495]

CORBIN J. ROBERTSON, ET AL.

Amendment to Application

AUGUST 9, 1973.

Take notice that on July 30, 1973, Corbin J. Robertson, et al. (Applicants), 500 Jefferson Building, Houston, Texas 77002, filed in Docket No. CI73-495 an amendment to its application filed January 22, 1973 in said docket pursuant to section 7(c) of the Natural Gas Act and § 2.75 of the Commission's General Policy and Interpretations (18 CFR 2.75) providing for the sale for resale and delivery of natural gas in interstate commerce to Northern Michigan Exploration Company (Northern Michigan) from the South Gibson Area and the Cherokee Area in Terrebone and St. Marys Parishes, Louisiana, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

In its application of January 22, 1973, Applicant proposes, among other things, to sell gas at an initial rate of 46.4 cents per Mcf, plus 3.3 cents per Mcf tax reimbursement and subject to upward and downward Btu adjustment. The contract

V 38-157 AUG 15 73 XUM

for said sale dated October 23, 1972, provided for 1.5 cents per Mcf annual escalation commencing on October 23, 1973, for reimbursement to the seller of 7/8 of existing and any additional State of Louisiana production, severance, gathering and similar taxes and for a term of 20 years. The application was consolidated with those of Northern Michigan in Docket Nos. CI72-301 and CI72-770 for hearing. The parties are now waiting for the initial decision in said proceeding. As the October 23, 1972, contract expired on its own terms because the Commission did not issue a certificate before July 23, 1973, Applicants and Northern Michigan entered into a new contract dated July 24, 1973.

Applicant now proposes to sell approximately 150,000 Mcf of gas per month at an initial rate of 62.2 cents per Mcf at 15.025 psia, plus 7/8 of 3.3 cents per Mcf tax reimbursement, subject to upward and downward Btu adjustment, within the contemplation of Section 2.75. The new contract provides for a 1.5-cent per Mcf annual escalation commencing on October 23, 1973, for reimbursement to seller for 7/8 of existing or additional State of Louisiana production, severance, gathering, and similar taxes and for a term of 20 years. Applicant also states that the new period of time for receiving a certificate shall be from July 23, 1973, until October 23, 1973.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before August 31, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Persons who have heretofore filed protests or petitions to intervene need not file again.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16970 Filed 8-14-73;8:45 am]

DYCO PETROLEUM CORP.

[Docket No. CI73-763]

Notice Deferring Procedural Dates

AUGUST 7, 1973.

On August 2, 1973, Dyco Petroleum Corp. requested that the procedural dates as fixed by order issued July 23, 1973, in the above matter be postponed indefinitely. The request states that Northern Natural Gas Co. supports the request.

Upon consideration, notice is hereby given that the procedural dates in the above matter are deferred pending further order of the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16897 Filed 8-14-73;8:45 am]

[Docket No. CP73-334]

EL PASO NATURAL GAS CO.

Findings and Order

AUGUST 7, 1973.

In the matter of Certificate (Temporary) Gas Supply—Curtailment—Practice and Procedure (Hearing)—Waiver of Regulations granted.

On June 15, 1973, as supplemented July 24, 1973, El Paso Natural Gas Company (El Paso) filed an application pursuant to section 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the construction and operation of proposed additional facilities for the injection into and withdrawal from the Rhodes Reservoir, Lea County, New Mexico, of natural gas and authorizing the sale for resale and delivery of natural gas in interstate commerce from the Rhodes Reservoir during the 1973–74 heating season, all as more fully set forth in the application. On that date El Paso also filed certain proposed changes in its currently effective FPC Gas Tariff [1] for purposes of effectuating the proposed storage service.

El Paso requests temporary authorization to construct and operate the aforementioned facilities on the basis of a need to commence construction by July 15, 1973, in order for the storage volumes to be available for the 1973–74 heating season. It also requests waiver of the requirements of § 154.22 of the Commission's regulations under the Natural Gas Act in order that the proposed tariff sheets be allowed to become effective concurrently with the date of temporary authorization.

More specifically, El Paso proposes to drill up to 25 new storage injection and withdrawal wells and to construct and operate approximately 5.6 miles of 4 and 6-inch pipeline to connect the proposed additional wells to the existing facilities. Additionally, El Paso plans to recondition and workover 13 existing injection and withdrawal wells, and to make piping and scrubber modifications at the Jal No. 1 Plant that will permit the utilization of the existing 4,400 horsepower compression and dehydration plant facilities for the withdrawal cycle in addition to normal operations. All of these facilities will be located in Lea County, New Mexico.

In view of the deficiency in its current gas supply, El Paso anticipates that it will be unable to serve all of the Priority 1 [2] and Priority 2 [3] requirements of its Southern Division System during the 1973–74 heating season.

Alleviating a portion of this projected deficiency is the underlying reason for El Paso's proposal to reactivate the Rhodes Reservoir in Lea County, New Mexico, which is expected to provide a peaking service only for the east-of-California Priority 1 and 2 requirements during the 1973–74 heating season.

Under the instant proposal an additional 5.0 million Mcf of gas will be injected into storage during the period July through October, 1973, of which 2.9 million Mcf will be considered to be cushion gas and the remaining 2.1 million Mcf as working gas. This will provide the storage capability for a peak day withdrawal rate of approximately 63,000 Mcf.

El Paso estimates a possible 7.5 million Mcf deficiency for Priority 1 and 2 requirements for the 1973–74 heating season, of which 2.0 million Mcf will be attributable to its east-of-California market area and the remainder to its two California customers. Since the capability of the proposed storage project is limited, withdrawals are expected to meet Priority 1 and 2 requirements of the east-of-California customers only. El Paso maintains that the California distributor customers will receive the same amount of gas during the injection and withdrawal periods as would have been delivered without the storage facility and that the California customers do not oppose the project. The California customers are partial requirement customers with other sources of supply and their own storage facilities, whereas the east-of-California customers are total requirement customers that presently have no storage or peak shaving facilities.

El Paso proposes to increase the curtailment of its east-of-California customers that will benefit from the storage project during the injection period. For purposes of filling the contemplated storage, these customers will be required to absorb the additional 5 million Mcf curtailment for the July, August and September, 1973 period, thus incurring an aggregate three-month curtailment of 21.5 million Mcf. Inasmuch as the east-of-California customers' Priority 5 [4] requirement for this period is 38.5 million Mcf, El Paso asserts that the total curtailment can be satisfied within the Priority 5 category.

The estimated cost of this proposal is $2,216,363, which will be financed from funds on hand and short-term borrowings. Recovery of this cost is contemplated through a 0.64¢ per Mcf surcharge on Priority 1 and 2 deliveries to east-of-California customers during the period November 1973 through March, 1974.

During the 1973–74 heating season, when on any day the available supply is not sufficient to fulfill systemwide Priority 1 and 2 requirements, El Paso will allocate the available supply to the California and east-of-California customers in accordance with its curtailment plan. The remaining Priority 1 and 2 deficiency of the east-of-California customers will then be supplied by withdrawals from the Rhodes Reservoir.

In order to carry into effect the proposed storage project El Paso submitted the tariff sheets enumerated supra footnote (1). With respect to Original Volume No. 1, El Paso proposes to amend Section 11, Priorities and Curtailments, of the General Terms and Conditions to include a new Section 11.3A entitled Rules Concerning Storage Operations to Protect Priorities 1 and 2 and § 11.3B entitled Surcharge Related to Storage Operations. These provisions provide inter alia a differentiation between the primary curtailment level which would be based on available supply, exclusive of storage, and would be applicable to all customers, and a secondary level that would apply to all except the Rate Schedule G (California) customers for the injection of storage gas.

Pursuant to our notice published in the FEDERAL REGISTER, protests and petitions for leave to intervene were due on or before July 16, 1973. A notice of intervention was filed on July 9, 1973, by The People of the State of California and the Public Utilities Commission of the State of California, and timely petitions for leave to intervene were filed by Pacific Gas and Electric Company, Southwest Gas Corporation, California Gas Producers Association, Southern California Gas Company, San Diego Gas & Electric Company, Navajo Tribal Utility Authority, Salt River Project Agricultural Improvement and Power District (Salt River), and Tucson Gas & Electric Company (Tucson). Although Tucson and Salt River do not oppose the issuance of temporary authorization, they state that additional information will be necessary to determine the extent and necessity of the curtailment required for injection as well as the reasonableness of the surcharge and the method of billing and determinates. Tucson requests that this matter be set for an expedited hearing.

In view of the gas supply deficiency prevailing on El Paso's system as evidenced by its application herein and the record in Docket No. RP72-6, we find that an emergency does exist. Accordingly, we shall grant El Paso temporary authorization to proceed with construction and operation of the proposed facilities. However, we believe that the issues raised by certain customers in their petitions for leave to intervene should be resolved after development in an evidentiary hearing.

We shall require El Paso to submit testimony and exhibits supporting its position on the aforesaid issues. After distribution of this evidence, we are of the view that a conference should be scheduled to endeavor to settle the issues raised in this proceeding. If the conference does not result in a settlement, we will hereinafter set forth the procedures to be followed for the trial of this proceeding.

The Commission finds:

(1) Based upon the allegations presented in the request for a certificate authorizing the construction and operation of proposed additional facilities for the injection into and withdrawal from the Rhodes Reservoir of natural gas and authorizing the sale for resale and delivery of natural gas in interstate commerce from the Rhodes Reservoir during the 1973–74 heating season, the Commission finds that an emergency exists, and a temporary certificate should be issued as hereinafter ordered and conditioned.

(2) It is necessary and proper for purposes of carrying out the provisions of the Natural Gas Act that the provisions of § 154.22 of the Commission's regulations under the Natural Gas Act be waived, and that the tariff sheets filed by El Paso as set forth in footnote (1) above be accepted for filing to become effective as of the date of issuance of this order, subject to any further orders by the Commission in this proceeding.

(3) Participation by the above named petitioners in this proceeding may be in the public interest.

(4) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing to determine whether the public convenience and necessity require the grant of a certificate of public convenience and necessity to El Paso, and that the issues in this proceeding be scheduled for hearing in accordance with the procedures hereinafter set forth.

The Commission orders:

(A) Upon the terms and conditions of this order, a temporary certificate of public convenience and necessity is issued in this docket authorizing Applicant to construct and operate certain facilities for the injection into and withdrawal from the Rhodes Reservoir, Lea County, New Mexico, of natural gas and authorizing the sale for reseale and delivery of natural gas in interstate commerce from the Rhodes Reservoir during the 1973–74 heating season, all as more fully set out in the application herein.

(B) The temporary certificate issued above is conditioned as follows:

(1) Said temporary certificate shall take immediate effect and remain in effect pending final resolution of the issues raised herein.

(2) The issuance of this temporary certificate and the acceptance of El Paso's tariff filing, to be concurrently effective therewith in Ordering paragraph (C) below are without prejudice to such final disposition of this application for certificate as the record may require.

(3) The maximum inventory of natural gas stored in the Rhodes Reservoir shall not exceed 16.7 million Mcf at 14.73 psia and 60 degrees F., without prior authorization of the Commission.

(4) Applicant shall submit semiannual reports (to coincide with termination of the injection and withdrawal cycles) containing the following information on proposed operations:

(a) The volumes of natural gas injected and the volumes withdrawn during each month of the cycle.

(b) The volume of natural gas in the storage field at the end of the cycle.

(c) The maximum daily injection and withdrawal rates experienced during the cycle.

(d) The shut-in reservoir or wellhead pressure of each well in the storage field and the average of such pressures.

(e) The average working pressure on maximum days (referred to in Item (c)) taken at a central measuring point where the total volume injected or withdrawn is measured.

(f) A map of the most recent interpretation of the underground structure; this map need not be filed if there is no material change from the map previously filed.

(g) A tabulation of wells drilled, cleaned, or recompleted with subsea depth of formation and casing settings. Copies of any new core analysis, backpressure tests, or electric logs.

(5) Reports shall be continued to be filed until the storage inventory volume has reached or closely approximated the maximum volume permitted herein for two years thereafter.

(C) The provisions of § 154.22 of the Commission's Regulations under the Natural Gas Act are hereby waived, and the tariff sheets set forth in footnote (1) above are hereby accepted for filing to be effective as of the date of issuance of this order, subject to any further orders by the Commission in this proceeding.

(D) On or before August 24, 1973, El Paso shall file its case-in-chief providing evidentiary support for its proposal.

(E) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter I), a public hearing shall be held in this proceeding commencing with a prehearing conference on September 12, 1973, at 10 a.m. (e.d.t.) in a hearing room of the Federal Power Commission, Washington, D. C., for the purpose of incorporating into the record the testimony and exhibits previously distributed. Immediately thereafter the Presiding Administrative Law Judge will convene a conference for the purpose of endeavoring to settle the issues involved in this proceeding.

(F) In the event that a settlement of the issues does not result from said conference, the Presiding Administrative

[1] Consisting of First Revised Sheet No. 63–C and Original Sheet Nos. 63–C.1 and 63–C.2 to Original Volume No. 1; First Revised Sheet No 1–M and Original Sheet Nos. 1–M.1 and 1–M.2 to Third Revised Volume No. 2; and First Revised Sheet No. 7–MM and Original Sheet Nos. 7–MM.1 and 7–MM.2 to Original Volume No. 2A.

[2] *Priority 1.* Residential, small commercial (less than 50 Mcf on a peak day) and residential needs associated with industrial requirements served directly or indirectly. [The Priority 1 through Priority 5 categories are set forth in Commission Opinion No. 634, El Paso Natural Gas Company, Docket No. RP72–6, issued October 31, 1972, mimeo ed., page 8]

[3] *Priority 2.* Large commercial requirements and industrial requirements for plant protection, feedstock and process needs.

[4] *Priority 5.* Industrial requirements for large volume (in excess of 3,000 Mcf per day) boiler-fuel use where existing alternate fuel capability is present.

V 38 157 AUG 15 73 XUM

Law Judge will reconvene the hearing for the purpose of ruling on all unsatisfied data requests or any other relevant matters presented. Cross-examination will commence immediately thereafter except to the extent that it is deemed impractical in light of outstanding, unsatisfied data requests. In that event the Presiding Administrative Law Judge will prescribe an appropriate date for commencement of cross-examination as well as for the filing of any answering testimony.

(G) The above named petitioners are hereby permitted to become interveners in this proceeding, subject to the rules and regulations of the Commission; *Provided, however,* That the participation of said interveners shall be limited to matters affecting asserted rights and interests specifically set forth in their petitions for leave to intervene; and *Provided, further,* That the admission of said interveners shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(H) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for the purpose [see Delegation of Authority, 18 CFR 3.5(d)] shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Project No. 2219]

GARKANE POWER ASSOCIATION, INC.

Notice of Application for Approval of Exhibit L

AUGUST 7, 1973.

Public notice is hereby given that application was filed March 9, 1971, and supplemented on July 13, 1972, under the Federal Power Act (16 U.S.C. 791a–825r) by the Garkane Power Association, Inc. (Correspondence to: Mr. Glen P. Willardson, General Manager, Garkane Power Association, Inc., 56 East Center, Richfield, Utah 84701) for Commission approval of Exhibit L for the Boulder Creek Project No. 2219 located on West Fork Boulder Creek in Garfield County, Utah.

The application seeks approval of an amendment to the license for Boulder Creek Project No. 2219 for a constructed recovery pond, pumphouse, and pump used for the purpose of recovering 1–2 cubic feet per second of water which is coming to the surface from springs underneath or leakage through the West Fork diversion dam. Attempts by the Licensee to locate any leaks have been unsuccessful. The recovered water would be utilized in the powerplant for peaking purposes.

Any person desiring to be heard or to make protest with reference to said application should on or before September 13, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-16902 Filed 8-14-73;8:45 am]

[Project 485]

GEORGIA POWER CO.

Notice of Application for New License for Constructed Project

AUGUST 9, 1973.

Public notice is hereby given that application for new license has been filed December 13, 1971, under the Federal Power Act (16 U.S.C. 791a–825r) by Georgia Power Company (Correspondence to: Mr. I. S. Mitchell III, Vice President and Secretary, Georgia Power Company, P.O. Box 4545, Atlanta, Georgia 30302), for its constructed Bartletts Ferry Project No. 485 located in the counties of Lee and Chambers in the State of Alabama, and county of Harris in the State of Georgia on the Chattahoochee River. The Bartletts Ferry Project would be redeveloped to add 100,000 kw of new capacity to the existing 65,000 kw development. The project affects navigable waters of the United States.

The existing Bartletts Ferry Project consists of (1) a nonoverflow earth fill section approximately 1,040 feet long and generally 55 feet high, (2) a concrete gravity buttressed spillway crest elevation 499.16 feet (U.S.G.S.), 634 feet long with a maximum height of about 150 feet, (3) a concrete intake 92 feet long, (4) a 286 foot long connecting earth dike on the west side, (5) a reservoir having a surface area of about 5,850 acres at full pond elevation 520.16 (U.S.G.S.) and extending 10 miles upstream, (6) penstocks, (7) a 132 foot long powerhouse located 300 feet downstream from the dam and containing one 20,000 kw generating unit and three 15,000 kw generating units, (8) an outdoor 12/115 kv substation, and (9) other facilities appurtenant to operation of the project.

According to the application the estimated net investment is $6,578,540 which is less than the estimate of fair value. Applicant listed basic premises for determining severance damages and estimated partial severance damages as $46,845,000 but did not estimate a total. The annual taxes paid to State and local taxing authorities is $325,785.

Applicant plans to add an additional 100,000 kw of capacity at the project. The new facilities would consist of (1) an additional concrete intake section about 118 feet long to be constructed in the upstream toe of the existing nonoverflow earth fill section; (2) two 22 foot diameter welded steel penstocks about 350 feet long; (3) an additional powerhouse containing two 50,000 kw generating units; (4) an emergency spillway consisting of an earth fill section about 900 feet long, with a 190 foot long fuse plug section constructed of compacted rock fill with an impervious core, crest elevation 584.16 feet (U.S.G.S); (5) an additional substation adjacent to the powerhouse; and (6) all other facilities and interests appurtenant to redevelopment (and project operation). The estimated cost of the redevelopment is $15,939,333.

Applicant states that there are eight privately owned commercial facilities on the reservoir, seven of which provide public access areas to the reservoir. Applicant has cleared several areas for use by bank fishermen and provides two boat launching sites. There is further recreational development planned by the applicant at this time.

Applicant's market for project power (existing and redevelopment) is its service areas in Georgia, part of the Southern Company System. Average annual energy generated is 397,900,000 kwh. Applicant maintains a minimum continuous flow downstream of 800 c.f.s.

Any person desiring to be heard or to make protest with reference to said application should on or before October 10, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[Docket No. E-8125]

KANSAS POWER AND LIGHT CO.

Filing of Revised Fuel Clause

AUGUST 3, 1973.

Take notice that on July 30, 1973, the Kansas Power and Light Co. (KPL) filed a revised fuel clause pursuant to the Commission's order issued May 31, 1973, in the above referenced docket, wherein the Commission directed KPL to file within 60 days of the date of the issuance of the order a fuel clause in conformance with Opinion No. 633. KPL states that the revised fuel clause is proposed to be substituted for the fuel clause originally filed in Tariff Schedule RCW–73, Wholesale Service—Rural Electric Cooperative, applicable to this class of service which superseded RCW–67. KPL states that the fuel of clause has the effect of recovering (with respect to the fuel cost component of purchased power) the seller's cost of the fuel which is consumed to generate such power as distinguished from the company's cost of fuel which might be attributed to such power.

Any person desiring to be heard or to protest said filing should file comments or protests with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such comments or protests should be filed on or before August 15, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken. Copies of this application are on file with the Commission and are available for public inspection.

MARY B. KIDD, *Acting Secretary.*

[Docket No. E-8125]

THE KANSAS POWER AND LIGHT CO.

Filing of Settlement Agreement

AUGUST 3, 1973.

Take notice that on July 30, 1973, the Kansas Power and Light Company (KPL) filed in the above-referenced docket a Settlement Agreement (Agreement) dated June 29, 1973, and a Petition to file settlement agreement, waive hearing, and for order placing rates into effect and terminating proceeding (Petition). According to KPL, the Agreement resolves the issues between all parties and the company requests that the Commission authorize the filing of the revised rate schedule to take effect from and after May 16, 1973, without suspension. The company further requests that the procedural dates be continued indefinitely pending Commission action upon the Petition and Settlement.

Any person desiring to be heard or to protest said filing should file comments or protests with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with § 1.8 and § 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such comments or protests should be filed on or before August 15, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. E-8331]

KENTUCKY UTILITIES CO.

Notice of Application

AUGUST 7, 1973.

Take notice that on July 23, 1973, Kentucky Utilities Co. (Applicant) filed an application seeking an order of the Commission pursuant to section 204 of the Federal Power Act authorizing the issuance of $60,000,000 in short-term notes to commercial banks and commercial paper, including $14,952,175 of such notes and commercial paper which Applicant is presently permitted and entitled to issue, without an order of the Commission, pursuant to the exemption provided by subsection (e) of said section 204.

Applicant is incorporated under the laws of the State of Kentucky, with its principal business office at Lexington, Kentucky, and is engaged in the electric utility business in central, southeastern and western Kentucky.

The notes to commercial banks are to mature not more than 12 months from their respective dates of issuance and the notes in the form of commercial paper to commercial paper dealers are to mature not more than nine months from their respective dates of issuance, but in any event (as to both notes and commercial paper) not later than December 31, 1975. Each note to a bank will bear interest at an interest rate not to exceed either (a) the prime rate of interest prevailing at such bank at the date of issuance of the note or (b) the applicable prime rate or rates of interest prevailing at such bank during the term of the note, determined as follows: as to each three-month period of the term of the note, at such rate of interest prevailing on the first business day of such three-month period. The commercial paper will be issued at rates not exceeding the discount rate prevailing at the date of issuance.

The proceeds from the issuance of the notes and commercial paper will be used to provide flexibility for the Applicant in meeting its 1973, 1974 and 1975 construction programs, which are estimated at $60,230,000 for 1973, $69,835,000 for 1974 and $94,093,000 for 1975.

Any person desiring to be heard or to make any protest with reference to said application should file with the Federal Power Commission, Washington, D.C. 20426, on or before August 21, 1973, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[FR Doc.73-16900 Filed 8-14-73;8:45 am]

[Docket No. RP72-132]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Revision to Tariff

AUGUST 9, 1973.

Take notice that on July 27, 1973, Natural Gas Pipeline Company of America (Natural) tendered for filing revised tariffs sheets for its FPC Gas Tariff. Natural states that this filing is made in compliance with Commission order of July 18, 1973, and reflects the elimination of Coal Option Payments in the amount of $1,000,000, a reassignment of the cost of service effect of Advance Payments for Gas 100% to the Commodity Component, and a recalculation of its PGA adjustment on the basis of the Base Average Purchased Gas Cost underlying the settlement agreement approved by the aforementioned Commission order.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with § 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 27, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Project 108]

NORTHERN STATES POWER CO.

Order Denying In Part Motion To Continue Hearings and for Other Purposes

AUGUST 7, 1973.

In a notice issued on July 16, 1973, the Administrative Law Judge designated to preside in this proceeding fixed the time and place of a public hearing session, now scheduled to commence on August 14, 1973, in Hayward, Wisconsin. An Intervenor, the Lac Courte Oreilles Band of Lake Superior Chippewa Indians, joined by several other Intervenors, on July 30, 1973, filed a motion to achieve three results: (1) To postpone

V 38-157 AUG 15 73 XUM

the August 14 hearing until the Commission rules on the question of its authority to issue both an annual license and a new license for Project No. 108; (2) to provide that testimony taken at the scheduled public hearing session be accorded the status of evidence; and (3) to require that hearings in this proceeding be directed to, among other things, the issue of Federal take over of Project No. 108.

To the extent that it concerns the first two points, we deny the motion. As to the first point, the issuance on August 6, 1973, upon the direction of the Commission, of a public notice concerning a new annual license issued on that date to the Northern States Power Company, indicates that an opinion of the Commission, to which there will be a dissent, is forthcoming. As to the second point, the nature of the hearings and their conduct is a matter that we leave to the Presiding Administrative Law Judge, consistent with our orders of June 28 and September 8, 1972, in this proceeding, and with our general policy as set forth in our rules of practice and procedure. As to the third point, the recommendations concerning take over from the Departments of Agriculture and the Interior are already a subject of this proceeding, as indicated by our order of June 28, 1972. Such recommendations have the effect of making those Departments parties to this proceeding under § 16.8 of our regulations.

The Commission orders: The motion filed on July 30, 1973, by the Lac Courte Oreilles Band of Lake Superior Chippewa Indians, and other Intervenors herein, is denied to the extent indicated.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Project No. 308]

PACIFIC POWER & LIGHT CO.

Notice of Application for New License

AUGUST 9, 1973.

Public notice is hereby given that application for new license has been filed on June 22, 1971, under the Federal Power Act (17 U.S.C. 791a–825r) by Pacific Power & Light Company, (Correspondence to: George L. Beard, Senior Vice President, Pacific Power & Light Company, Public Service Building, Portland, Oregon 97204; Leighton and Sherline, 1701 K Street, N.W., Washington, D.C. 20006; and Rives, Bonyhadi, Hall and Epstein, 1400 Public Service Building, Portland, Oregon 97204) for its constructed Wallowa Falls Project No. 308. The project is located in the State of Oregon, County of Wallowa, on the East Fork of the Wallowa River, near the town of Joseph, partly within the Wallowa-Whitman National Forest.

The project includes an 18 foot high rock-filled log-crib dam approximately 120 feet long forming a forebay with an area of about 0.2 acre on the East Fork of Wallowa River; water from Royal Purple Creek is diverted into the forebay through a 250 foot long 8-inch pipe. A steel penstock 5,680 feet long delivers forebay water to an indoor type power house with a single 1500 horsepower impulse type turbine driving a generator rated at 1375 kva.

There is no indication of recreational use of the project lands. It should be noted, however, that the project is located partially within the Wallowa-Whitman National Forest and is in an area inhabited by mule deer and Rocky Mountain elk. Also anadromous fish do not utilize the rivers upstream of Wallowa Lake and only a few kokanee inhabit the East Fork of the Wallowa River.

Any person desiring to be heard or to make protest with reference to said application should on or before October 15, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project No. 487]

PENNSYLVANIA (WALLENPAUPACK PROJECT)

Notice of Application for Change in Land Rights

AUGUST 7, 1973.

Public notice is hereby given that application was filed October 18, 1972, under the Federal Power Act (16 U.S.C. 791a–825r) by the Pennsylvania Power & Light Co. (Correspondence to: Mr. Austin Gavin, Executive Vice President, Pennsylvania Power & Light Co., 901 Hamilton Street, Allentown, Pennsylvania 18101 and Mr. Gennaro D. Caliendo, Attorney, Pennsylvania Power & Light Co., 901 Hamilton Street, Allentown, Pennsylvania 18101) for change in land rights for constructed Project No. 487, known as the Wallenpaupack Project, located in Wayne and Pike Counties in the vicinity of the City of Scranton and Town of Straudsberg, Pennsylvania, on the Wallenpaupack Creek.

Applicant proposes to convey approximately 0.55 acre of project land in Pike County, Palmyra Township to the Commonwealth of Pennsylvania, Department of Transportation for the purpose of highway construction.

Pennsylvania Power & Light Co. would have the right to use the property affected by the highway construction at any time for project purposes as contemplated in the license issued by the Federal Power Commission for Wallenpaupack Project No. 487.

Any person desiring to be heard or to make protests with reference to said application should on or before September 20, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[Docket No. 72-134]

EASTERN SHORE NATURAL GAS CO.

Notice of Revision to Tariff

AUGUST 9, 1973.

Take notice that on June 12, 1973, Eastern Shore Natural Gas Company (Eastern Shore) tendered for filing as a part of its FPC Gas Tariff the following revised tariff sheets:

Third Revised Sheet No. 3A
Third Revised PGA-1

Eastern Shore states that the revised tariff sheets increase its rates under the CD-1, CD-E, G-1, E-1, I-1 and PS-1 schedules to reflect an increase in purchased gas cost occasioned by the filing of a purchased gas cost increase by Transcontinental Gas Pipe Line Corporation on May 31, 1973, in FPC Docket No. RP73-69. Eastern Shore requests waiver of the notice requirements of § 154.22 of the Regulations under the

Natural Gas Act and of § 20.2 of its General Terms and Conditions to the extent necessary to permit the tariff sheets to become effective as of July 1, 1973.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with § 1.8 and § 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 16, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-66]

FARMERS ROYALTY POOL

Notice of Application

AUGUST 8, 1973.

Take notice that on July 30, 1973, Farmers Royalty Pool (Applicant), 3535 NW 58th Street, Oklahoma City, Oklahoma 73112, filed in Docket No. CI74-66 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Natural Gas Pipeline Company of America from the South Parker Field, Woodward County, Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell for eighteen months approximately 30,000 Mcf of gas per month at 45.0 cents per Mcf at 14.65 p.s.i.a., subject to Btu adjustment, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before August 24, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. R-433]

RESERVES DEDICATION IN THE TEXAS GULF COAST AND SOUTHERN LOUISIANA AREAS

Order Granting Rehearing

AUGUST 6, 1973.

Associated Gas Distributors (AGD) on July 20, 1973, filed an application for rehearing of the Commission's order issued June 21, 1973, in the above-entitled proceeding denying AGD's motion to make the submittal by pipelines of reserves dedication reports mandatory, in lieu of voluntary as now provided in Order No. 459 issued November 10, 1972, in Docket No. R-433.

Solely for the purpose of allowing us an opportunity to give full and adequate consideration to the matters set forth in AGD's application for rehearing, we grant such application.

The Commission finds: It is appropriate and in the public interest in the administration of the Natural Gas Act that rehearing be granted for the purpose of further consideration.

The Commission orders: The application for rehearing filed by AGD is granted for the purpose of further consideration.

By the Commission.

[Dockets Nos. RP72-91, etc.]

SOUTHERN NATURAL GAS CO.

Proposed Changes in FPC Gas Tariff

AUGUST 9, 1973.

Take notice that Southern Natural Gas Company, on July 31, 1973, tendered for filing 13 revised tariff sheets containing proposed changes in its FPC Gas Tariff, Sixth Revised Volume No. 1. On August 3, 1973, Southern tendered substitute tariff sheets for 12 of the sheets tendered on July 31. The proposed changes would increase revenues above those provided for in the Stipulation and Agreement dated May 23, 1973, in the captioned proceedings by an additional $766,013 based on the billing determinants included in Appendix B of the Stipulation and Agreement.

On July 23, 1973, the FPC approved the Stipulation and Agreement in Docket Nos. RP72-91 et al. The tendered tariff sheets are proposed to become effective forty days following the Commission's approval of the Stipulation and Agreement on September 1, 1973, pursuant to paragraph (4), Article III, of that agreement.

Copies of this filing have been served on all jurisdictional customers, interested state commissions and all parties to the proceedings.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 24, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16961 Filed 8-14-73;8:45 am]

[Docket No. RP73-49]

SOUTH GEORGIA NATURAL GAS CO.

Revision to Tariff

AUGUST 9, 1973.

Take notice that on August 2, 1973, South Georgia Natural Gas Company (South Georgia) tendered for filing as

V 38-157 AUG 15 73 XUM

part of Original Volume No. 1 to its FPC Gas Tariff the following revised tariff sheets:

Substitute Third Revised Sheet No. 3A
Substitute Twenty-Eighth Revised Sheet No. 5
Substitute Twenty-Seventh Revised Sheet No. 6
Substitute Nineteenth Revised Sheet No. 9
Substitute Eighteenth Revised Sheet No. 11
Substitute Twenty-Second Revised Sheet No. 12B

South Georgia states that the above sheets represent a rate change under its PGA clause, such clause approved to become effective April 14, 1973, by Commission Order in FPC Docket No. RP73–49 issued April 13, 1973. The company further states that it proposes to increase its rates $71,731 for the purpose of tracking a rate increase filing by Southern Natural Gas Company (Southern) on July 31, 1973, which would increase South Georgia's cost of gas $113,393 annually. South Georgia intends that this filing be in substitution for revised tariff sheets tendered on May 29, 1973. An effective date of September 1, 1973, is requested.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 27, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–16974 Filed 8–14–73;8:45 am]

[Dockets Nos. RP71–130 and RP72–58]

TEXAS EASTERN TRANSMISSION CORP.

Notice of Proposed Changes in FPC Gas Tariff

AUGUST 3, 1973.

Take notice that Texas Eastern Transmission Corporation (Texas Eastern), on June 11, 1973, tendered for filing proposed changes in its FPC Gas Tariff, Third Revised Volume No. 1. The proposed changes revised section 12 of the General Terms and Conditions of Texas Eastern's FPC Gas Tariff which contains procedures to be followed whenever it is necessary to curtail deliveries of natural gas to its jurisdictional customers. The current modification would substitute a new Second Revised Sheet No. 92 for the one submitted May 31, 1973. This new Second Revised Sheet No. 92 supersedes First Revised Sheet No. 92 in Texas Eastern's current tariff.

Texas Eastern states that it is submitting these changes to comply with the Commission's Order issued January 24, 1973, in Docket Nos. RP71–130 and RP72–58. In addition, it states that it is incorporating into its curtailment procedures a modification of the nine priorities of service set forth in the Commission's statements of policy in Order Nos. 467, 467–A and 467–B (Docket No. R–469).

The modification of the nine priorities of service would place in category (2) any firm industrial sales of up to 300 Mcf per day in addition to the industrial requirements for plant protection, feedstock and process needs, and pipeline customer storage injection requirements presently included.

Texas Eastern states that copies of the new Substitute Second Revised Sheet No. 92 are being posted in accordance with Section 154.16 of the Commission rules and regulations.

Any person desiring to be heard or to make protest with reference to said filing should on or before August 17, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The filing is on file with the Commission and is available for public inspection.

MARY B. KIDD,
Acting Secretary.

[Docket No. RP72–98]

TEXAS EASTERN TRANSMISSION CORP.

Proposed Change in Rates and Charges

AUGUST 10, 1973.

Take notice that on July 31, 1973, Texas Eastern Transmission Corporation (Texas Eastern) filed five substitute revised tariff sheets in Docket No. RP72–98, to reflect the rates set forth in Appendix D of its Second Revised Stipulation and Agreement dated July 27, 1973, adjusted to reflect those rate changes made by the Company subsequent to March 1, 1973, and further adjusted to reflect the rate changes provided in Articles V and VI of the July 25, 1973, Stipulation and Agreement. Texas Eastern requests waiver of the Commission's rules and regulations and proposes that the instant filed sheets become effective August 1, 1973. Copies of the tender have been served upon all authorized purchasers and interested state commissions.

Any person desiring to do so may file comments in writing with the Commission with respect to such rates. Such comments should be filed on or before August 22, 1973. The July 31, 1973, tender is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72–99]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Extension of Time and Postponement of Hearing

AUGUST 9, 1973.

Motions for an extension of time within which to file and serve evidence and for a postponement of the hearing date fixed by order issued July 30, 1973, in the above-designated proceeding have been filed by the following:

Piedmont Natural Gas Company, Inc.
Brick Institute of America
General Motors Corporation and Johns-Manville Fiber-Glass, Inc.
Consolidated Edison Company of New York, Inc.
The City of New York
United Cities Gas Company
North Carolina Utilities Commission

A joint answer in support of the motion of Piedmont Natural Gas Company, Inc., was filed by Atlanta Gas Light Company. The Brooklyn Union Gas Company filed a telegram opposing all motions for an extension of time.

Upon consideration, notice is hereby given that the procedural dates set by the order issued July 30, 1973, are modified as follows:

Service of direct testimony and exhibits by Transco, September 4, 1973.
Service of testimony in opposition to Transco's curtailment procedures, September 4, 1973.
Hearing to commence, September 18, 1973 (10:00 a.m., edt).

KENNETH F. PLUMB,
Secretary.

[FR Doc.16975 Filed 8–14–73;8:45 am]

[Docket No. RP73–94]

VALLEY GAS TRANSMISSION, INC.

Further Extension of Time and Postponement of Prehearing Conference and Hearing

AUGUST 9, 1973.

On August 7, 1973, Valley Gas Transmission, Inc. filed a motion for a limited extension of time of the procedural dates fixed by a notice issued July 12, 1973. The motion states that all parties have been contacted and none have any objection. The motion also states that there is a settlement conference scheduled for August 13, 1973, at 2:30 p.m. in Room 6200, of the Federal Power Commission.

Upon consideration, notice is hereby given that the procedural dates in the above designated matter are further modified as follows:

Staff service of evidence, September 4, 1973.
Intervener service of evidence, September 13, 1973.
Prehearing conference, September 26, 1973 (10:00 a.m., EDT).
Company rebuttal evidence served, October 5, 1973.
Hearing, October 11, 1973 (10:00 a.m., EDT).

KENNETH F. PLUMB,
Secretary.

NATIONAL POWER SURVEY; TECHNICAL ADVISORY COMMITTEE ON CONSERVATION OF ENERGY

Notice of Meeting and Agenda

Agenda for a meeting of the Technical Advisory Committee on Conservation of Energy Task Force on Environmental Aspects to be held at the Federal Power Commission Offices 825 North Capitol Street, N.E. Washington, D.C., 1:30 p.m., August 20, 1973, Room 5200.

1. Meeting called to order by the FPC Coordinating Representative.
2. Objectives and purposes of meeting:
A. Approval of minutes of July 9, 1973 meeting.
B. Review final draft of Jim MacKenzie's study entitled "Some Adverse Environmental Effects of Energy Consumption through the Year 2000".
C. Review the final draft of Fred Lawrence's study entitled "The Impact of Environmental Protection Legislation on Energy Use".
D. Review initial draft of Marc Roberts' study on economic and policy aspects of conservation of energy.
E. Other Business.
3. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee which statements, if in written form, may be filed before or after the meeting, or, if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–16894 Filed 8–14–73;8:45 am]

EASCOGAS LNG, INC., ET AL.

Scheduling Formal Hearings, and Establishing Procedures

AUGUST 7, 1973.

Eascogas LNG, Incorporated Docket Nos. CP73–47, CP73–8 Algonquin LNG, Incorporated Docket No. CP73–139 Algonquin Gas Transmission Company Docket No. CP73–197 New England LNG Company, Inc. Docket No. CP73–199.

On June 25, 1973, Eascogas LNG, Incorporated, Algonquin LNG, Incorporated, Algonquin Gas Transmission Company, and New England LNG Company, Incorporated (Petitioners) filed an application for rehearing of our "Order Denying Motion for The Setting of a Prehearing Conference," issued in the above-titled proceedings on May 25, 1973. In the Application for Rehearing,[1] Petitioners request that we modify our order of May 25, 1973, by setting for hearing the issues involved in these dockets and granting such further relief as may be appropriate.

In our May 25, 1973 order we pointed out that Petitioners, who are also the Applicants in the above-docketed cases, had failed to submit supplementary environmental data requested by our Staff within sufficient time to allow us to grant their "Motion for The Setting of a Prehearing Conference." For this, and other reasons related largely to Petitioners' failure to prosecute their case in a timely manner, we denied their motion for a prehearing conference.

It appears now that Applicants have basically complied with certain requests of our Staff. There remain, however, several significant obstacles, discussed below, to a hasty resolution of the proceedings. Despite the numerous deficiencies still attendant to the Eascogas proposal, however, we consider it desirable to expedite the processing of their applications filed in these proceedings. The natural gas shortage which this country is currently experiencing illustrates the necessity for resolving applications which propose additional gas supplies as promptly as possible. Accordingly, we shall grant Petitioners' instant motion by consolidating the five applications which comprise the "Eascogas Project" and scheduling a formal hearing herein on those issues which we deem pertinent to the proposal.

We do not grant the instant motion without reservation, however. While preliminary environmental procedure now appears to be sufficiently near completion to warrant modifying our earlier order, many of the factors which concerned us therein and collectively led us to deny the setting of a prehearing conference at that time, are still unresolved. Therefore, our action herein is conditioned upon the several matters discussed below.

Initially, we note that, while the Department of State has by letter dated July 20, 1973, expressed no objection to the Eascogas project, no reply has yet been received from the Department of Defense to our standard request for its policy views. Defense's delay can be at least partially attributed to the Applicant's failure to supply that Department with certain requested information.[2] The viewpoints of State and Defense are not binding on us. However, as we pointed out in our order of May 25, 1973, it is our well-established policy to seek their advice on all foreign importation projects. We see no reason to further delay a hearing pending Defense's response. However, we will withhold any final disposition of the applications until Defense has informed us as to its position.

A more troubling aspect of this project is the current uncertain status of the Staten Island terminal facilities owned by Distrigas affiliates which the Applicants in Eascogas propose to use.[3] It is true, as Applicants assert in their motion, that those facilities are primarily an issue for the *Distrigas* proceedings, and that Eascogas will neither own nor operate facilities anywhere. On the other hand, we cannot blind ourselves to the very real impact the Eascogas project, should it be approved as proposed, would have on Distrigas facilities. The public interest in general, and NEPA in particular, require that we take into account the natural consequences of any proposal before us. In light of this, any authorization which we may grant for this project will be expressly conditional upon the satisfactory resolution of and Commission authorization for the operation of the Distrigas facilities.

Additionally, the environmental procedure to be followed appears to still be somewhat unsettled. As we stated in our order of May 25, 1973, the *Greene County* decision[4] and Commission Order No. 415–C require that the Staff Environmental Statement, together with any comments received thereon, be presented at any hearing(s) in a proposal. In light of this, we further stated that we believe it would be impracticable for us to schedule a hearing while the preparation of Staff's statement is still in its infancy, especially in light of the required 45-day period for circulation for comments of the statement. As we further pointed out, Staff's preparation of the Eascogas statement has been delayed to considerable extent by the Applicant's tardiness in filing all of the applications and in responding to environmental deficiency questions.

Although the Staff statement has not yet been circulated for comment, we deem it appropriate for us now to schedule a hearing in these proceedings, with a view to the 45-day circulation period and time required thereafter for finalization of Staff's statement. We still unqualifiedly reject any suggestions for a "phased" hearing which would separate the environmental testimony from the other issues. We shall therefore direct that, should testimony on all other issues be completed prior to the finalization of Staff's statement or the receipt of all environmental comments, the record shall remain open for purposes of receiving such environmental testimony in evidence and further trial of the issues involved therein. No decision by the Presiding Administrative Law Judge shall be issued prior to the completion of such testimony and subsequent closing of the record.

[1] An application for rehearing of our order of May 25, 1973 does not lie within Commission procedures. We shall, therefore treat Petitioners' application as a motion for reconsideration.

[2] It is indeed uncertain whether Defense has even yet received all of the requested information. The Department has requested information from each distribution company to receive gas from the Eascogas project. In copies filed with the Commission of the information supplied by Applicants to Defense, data from at least two distribution companies involved, Elizabethtown Gas Company and New England LNG, Inc., was lacking.

[3] By order issued May 25, 1973, in *Distrigas Corporation* Docket Nos. CP73–78, CP73–132, CP73–135; *Distrigas Pipeline Corporation*, Docket No. CP73–148; and *Distrigas of New York Corporation*, Docket Nos. CP73–205, CP73–230 (rehearing denied June 20, 1973), we required the Applicants therein to submit Section 7 applications relative to the proposed operations of their facilities. To date, no such applications have been filed.

[4] *Greene County Planning Board, et al.* v. *F.P.C.*, 455 F.2d 412 (2nd Cir., 1972) cert. denied 409 U.S. 849 (1972).

V 38 - 157 AUG 15 73 XUM

Applicant's motion proposes numerous issues on which testimony would be filed and considered in the Eascogas hearing. While we believe all of the issues therein enumerated to be relevant, we do not consider the list exhaustive. Further issues, the consideration of which we deem vital, include reliability of service of the foreign supply, shipping costs, the heavy dependence of New England and New Jersey distributors on foreign LNG to meet residential and commercial markets, availability of alternative fuels for the markets to be served by the instant project, environmental impact of the facilities proposed in the Providence, Rhode Island area, total economic feasibility of the project, overall project safety, and any such other issues as may be pertinent and appropriate.

The Commssion notes that there exists an interrelationship between the five above-entitled docket numbers, and concludes that their ultimate disposition would best be accomplished in a consolidated proceeding. The Commission therefore shall consolidate Docket Nos. CP73–47, CP73–88, CP73–139, CP73–197, and CP73–199 for hearing and disposition of all issues.

The Commission finds.

(1) The Application for Rehearing, filed June 25, 1973 in these proceedings should be granted to the extent that it requests the scheduling of a formal hearing and consolidation of these proceedings. The scheduling of a prehearing conference, as was requested in Applicant's original "Motion for The Setting of a Prehearing Conference," filed April 6, 1973 and denied by our order of May 25, 1973, appears unnecessary in view of the delineation of the issues above. To the extent that the Application for Rehearing may request the setting of such a conference, it is denied.

(2) It is appropriate that the proceedings in the above-named applications be consolidated for hearing and decision.

(3) It is necessary in the public interest that the consolidated proceedings involving the above-named applications be set for hearing in accordance with the procedure described above.

The Commission orders.

(A) Docket Nos. CP73–47, CP73–88, CP73–139, CP73–197, and CP73–199 are consolidated for purposes of hearing and disposition.

(B) The direct case of the Applicants and all intervenors in support thereof shall be filed and served on all parties on or before August 27, 1973. The Presiding Administrative Law Judge shall fix dates for the filing of answering testimony after completion of cross-examination on direct testimony.

(C) A formal hearing shall be convened in these proceedings in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C., on September 18, 1973, at 10:00 a.m. (EST). Such hearing shall consider testimony on the issues listed above and any other issues which may be relevant to the proceedings, and shall remain open until the submission of the Commission Staff's final environmental statement and any comments received on the draft statement. Furthermore, no initial decision shall be issued prior to the submission of such environmental testimony. The Chief Administrative Law Judge will designate an appropriate officer of the Commission to preside at the formal hearing of these matters, pursuant to the Commission's Rules of Practice and Procedure.

(D) Any authorization which may be issued for the Eascogas proposal to use Distrigas Corporation's LNG terminal facilities on Staten Island, New York, shall be expressly conditional upon final Commission authorization of those facilities in the various *Distrigas* proceedings. In the event that Section 7 applications for the Distrigas Staten Island facilities are not forthcoming, as required by our above-mentioned order of May 25, 1973 issued in *Distrigas*, or final Commission authorization for those facilities is not granted, amended applications herein will be required for that portion of the Eascogas project which proposes to utilize such Distrigas facilities.

By the Commission.[1]

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. E-8332]

MINNESOTA POWER AND LIGHT CO.

Notice of Proposed Superseding Electric Service Agreement

AUGUST 7, 1973.

Take notice that Minnesota Power and Light Company (MPL) of Duluth, Minnesota on July 27, 1973, tendered for filing a proposed Electric Service Agreement between MPL and the Stuntz Cooperation Light and Power Association (Stuntz) of Hibbing, Minnesota. MPL states that the proposed Agreement is to supercede the present Agreement, FPC Rate Schedule No. 69, and requests that the proposed Agreement become effective as soon as possible. According to MPL, the proposed Agreement will have an adverse effect upon revenue.

Any person desiring to be heard or protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with the Commission's rules of practice and procedure. All such petitions or protests should be filed on or before August 24, 1973. Protests will be considered by the Commission in determining the appropriate action, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16896 Filed 8-14-73;8:45 am]

[Project No. 108]

NORTHERN STATES POWER CO.

Notice of Issuance of Annual License

AUGUST 6, 1973.

On February 24, 1970, Northern States Power Company, Licensee for Chippewa Reservoir Project No. 108 located in Sawyer County, Wisconsin, filed an application for a new license under section 15 of the Federal Power Act (Act) and Commission regulations thereunder (§§ 16.1–16.6).

The license for Project No. 108 was issued effective August 8, 1921, for a period ending August 7, 1971. Since expiration of the original license, the project has been operated under an annual license. On August 4, 1972 we issued notice that an annual license was issued to Northern States Power Company under section 15 of the Act for the period August 8, 1972, to August 7, 1973, or until Federal takeover, or the issuance of a new license for the project, whichever came first.

The Chippewa Reservoir (Flowage) Project consists of: (1) A dam about 1,290 feet long and about 45 feet high, comprising a concrete gravity control section 78 feet long with three tainter gates 20 feet wide and 26 feet high and three steel vertical sliding sluice gates 7 feet wide and 10 feet high, and two earthfill concrete core wall sections extending 234 feet on the west side and 978 feet on the east side; (2) Chippewa Reservoir which impounds 223,000 acre-feet of useable storage capacity with a water surface area of about 17,600 acres at normal full pool elevation 1313.0 (m.s.l.); and (3) all other facilities and interests appurtenant to operation of the project.

The Chippewa Reservoir is a storage reservoir, impounded primarily for regulation of the flow of the Chippewa River for downstream hydroelectric power production. There are no generating facilities at the project. During the winter months, the reservoir is drawn down to accommodate snow melt and spring rains thereby contributing to flood control. The regulated flow of the Chippewa River provides for low-flow augmentation downstream. During the summer months, as nearly as is practicable, reservoir fluctuations are held to three feet in the interest of recreational activities.

On September 1, 1972, Intervenors, Lac Courte Oreilles Band of Lake Superior Chippewa Indians, the Save the Chippewa Flowage Alliance, Inc., the Wisconson Resources Conservation Council, the Great Lakes Intertribal Council, Inc., and the American Indian Movement National Directors, Inc., challenged our jurisdiction to issue annual licenses by their pleading styled "Petition and Application for Rehearing" respecting the public notice given by the Secretary on

[1] Commissioner Brooke concurs in the order, with the exception of the commentary on the status of the Distrigas facilities. He adheres to the majority position expressed in Opinion Nos. 613 and 613A and in dissents to Commission orders of May 25 and June 20, 1973.

August 4, 1972, that an annual license has been issued to Northern States Power Company. Briefing on the question of the Commission's jurisdiction was provided for by our order of February 28, 1973. We are now considering the briefs on the law for the purpose of arriving at a determination.

In order that all rights be preserved and that the status quo be maintained pending issuance of our determination of the jurisdiction question we are hereby giving notice in accordance with Section 16.5 of our Regulations under the Federal Power Act of the issuance of annual license for Project No. 108 for the period of August 8, 1973, through August 7, 1974. We do so with the express condition that should we on the basis of the facts and briefs before us decide that we do not have jurisdiction the annual license will terminate as of the date of our opinion. Our action herein is not to be construed as a ruling on the jurisdictional issue raised by the pleading before us.

Further we believe that notwithstanding a pending decision on jurisdiction that the public interest will be served by holding the public hearing in the vicinity of the project as scheduled by the Administrative Law Judge at the Sawyer County Court House, Hayward, Wisconsin at 10:00 a.m. on August 14, 1973.

By direction of the Commission.[1]

MARY B. KIDD,
Acting Secretary.

[Docket Nos. RP71-16, etc.]

MIDWESTERN GAS TRANSMISSION CO.

Proposed Changes in FPC Gas Tariff

AUGUST 9, 1973.

Take notice that Midwestern Gas Transmission Company (Midwestern), on August 3, 1973, tendered for filing Third Revised Volume No. 1 of its FPC Gas Tariff to be effective on September 1, 1973. Such filing was made pursuant to Article I of the Amended Settlement Agreement dated May 24, 1973, and Ordering Paragraphs (A) and (B) of the Commission's order of July 24, 1973, in the above-entitled proceeding approving such Amended Settlement Agreement. Such filing reflects settlement rates, purchased gas cost adjustment provisions for the Southern and Northern Systems, and other tariff changes as provided by the Amended Settlement Agreement as approved by the Commission.

According to Midwestern, copies of this filing were served upon the Company's customers, interested state regulatory commissions, and all parties to the above-entitled proceeding.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 20, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Any person previously permitted to intervene in proceeding need not file a further petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket E-7690]

NEPEX MANAGEMENT COMMITTEE NEW ENGLAND POWER POOL

Notice of Amendment

AUGUST 9, 1973.

On June 8, 1973, the NEPOOL Management Committee (NEPOOL) filed an agreement amending NEPOOL Power Pool Agreement dated as of March 1, 1973, to become effective May 1, 1973. NEPOOL's filing further amended the NEPOOL Power Pool Agreement dated September 1, 1971, as amended by an Amendment dated as of July 1, 1972.

The amendment provides for the revision of five sections of the NEPOOL Agreement. Sections 3.3, 14.2 and 14.4 are amended so as to delete the $3,000.00 annual charge originally provided for in § 14.2. Sections 6.8 and 8.9 are amended to provide that any participant, without regard to size, may appeal actions of the Executive Committee and Operation Committee. NEPOOL states that amendment is intended to remove a financial burden which might have deterred smaller systems having entitlements in generating capacity from joining the pool and to facilitate appeals of the Executive Committee and Operation Committee actions by smaller systems. NEPOOL further states that the Amendment does not change the electric service provided under the NEPOOL Agreement or the facilities or charges related therein. It requests that the Commission waive the notice period and permit the Amendment to become effective May 1, 1973, pursuant to § 35.11 of the Commission's regulations. Copies of the Amendment have been sent to all participants under the NEPOOL Agreement and to each of the parties to the Commission Docket No. E-7690.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 N. Capitol St., NE Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 30, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8330]

CENTRAL ILLINOIS PUBLIC SERVICE CO.

Notice of Application

AUGUST 9, 1973.

Take notice that on July 23, 1973, Central Illinois Public Service Company (Applicant) filed an application pursuant to section 204 of the Federal Power Act seeking authority to issue, not to exceed $65,000,000 in aggregate principal amount of its unsecured short-term notes to commercial banks and commercial paper, including $29,163,040 of such notes and commercial paper which Applicant is presently permitted and entitled to issue, without an order of the Commission, pursuant to the exemption provided by section 204(e) of the Act.

Applicant is incorporated under the laws of the State of Illinois, with its principal executive office at Springfield, Illinois. It is a public utility engaged in generating, purchasing, transmitting, distributing and selling electric energy in portions of central and southern Illinois and serves approximately 278,300 customers with electricity.

The notes to commercial banks are to mature not more than 12 months from their respective dates of issuance, and the commercial paper to be sold to commercial paper dealers is to mature not more than nine months from its date of issuance, but in any event (as to both notes and commercial paper) not later than December 31, 1975. Each note to a bank will bear interest at an interest rate not to exceed either (a) the prime rate of interest prevailing at such bank at the date of issuance of the note or (b) the applicable prime rate or rates of interest prevailing at such bank during the term of the note, determined as follows: as to each three-month period of the term of the note, at such rate of interest prevailing on the first business day of such three-month period. The commercial paper will be issued at rates not exceeding the discount rate prevailing at the date of issuance.

The proceeds from the issuance of the notes and commercial paper will be used to provide flexibility for the applicant in meeting its 1973, 1974 and 1975 construction programs, which are estimated at $67,300,000 for 1973, $100,200,000 for 1974 and $126,200,000 for 1975.

Any person desiring to be heard or to make any protest with reference to said application should file with the Federal Power Commission, Washington, D.C. 20426, on or before August 21, 1973, peti-

[1] Commissioner Moody dissents to the issuance of this notice of issuance of annual license. Majority and dissenting opinions will be issued later.

V 38-157 AUG 15 73 XUM

tions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[Docket Nos. RP71-14, RP71-84, RP71-137, RP72-151]

EL PASO NATURAL GAS CO.

Notice of Certification of Proposed Stipulation and Agreement

AUGUST 8, 1973.

Take notice that on July 25, 1973, the Presiding Administrative Law Judge certified to the Commission a proposed Stipulation and Agreement which would dispose of all issues in the above-captioned rate proceedings of El Paso Natural Gas Company's (El Paso) Northwest Division System, with the exception of the issues of conjunctive billing and allocation of a portion of gas supply, as described therein. There was also certified by the Presiding Judge a motion of El Paso for approval of the Stipulation and Agreement and the record of the hearing relating to the proposed settlement, as described in the certification.

The Stipulation and Agreement, inter alia, (1) provides for rate reductions and refunds on the basis of the settlement rates specified for the periods involved in the various dockets; (2) provides for refunds due to sales in excess of test period volumes during the twelve month period ending December 31, 1973; (3) requires El Paso to flow-through the jurisdictional portion of producer-supplier refunds in accordance with the provisions of prior settlement agreements, tracking orders and El Paso's Purchase Gas Adjustment clause for its Northwest Division System.

Comments relating to the proposed Stipulation and Agreement may be filed with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, on or before August 23, 1973. The proposed Stipulation and Agreement and related record are on file with the Commission and available for public inspection.

[Docket No. E-8179]

GULF STATES UTILITIES CO.

Order Accepting for Filing, Initiating Investigation and Consolidating Proceedings

AUGUST 8, 1973.

On May 4, 1973, Gulf States Utilities (Gulf States) filed a letter agreement, dated August 10, 1970, changing its present FPC Rate Schedule No. 72 with Southwest Louisiana Electric Membership Corporation (Southwest). Gulf States states that the agreement provides for the following: (1) Extends the present contract term to August 1, 1983, (2) adds a fuel clause to the present Rate Schedule to be effective after August 1, 1973, (3) revises the Points of Delivery provisions, and (4) adds a provision concerning service interruptions.

Notice of the filing was issued on May 30, 1973, with comments, protests, or petitions to intervene due on or before June 11, 1973. No responses to this notice have been received.

On April 10, 1973, Gulf States, in Docket No. E-8121, had filed a general rate increase to its wholesale customers, including Southwest. In an order issued June 14, 1973, the Commission suspended in part the proposed increase to become effective on June 16, 1973. Included in the proposed filing was a revised fuel adjustment clause which differed from that filed in Docket No. E-8179, filed May 4, 1973.

By letter dated June 7, 1973, and July 18, 1973,[1] in response to our request for clarification of the fuel adjustment clause filed in Docket No. E-8179, Gulf States replied that the clause had been subject of correspondence concerning other rate schedules in 1970 and had been replaced by the clause included in the filing in Docket No. E-8121. The letter of July 18, 1973, substitutes, by agreement signed by Southwest, a revised fuel clause identical to that filed in Docket No. E-8121.

Gulf States requests an effective date of August 1, 1973. Even though the Commission issued a deficiency letter and this deficiency was corrected on July 20, 1973, we will establish an effective date of August 1, 1973. Our review indicates that the rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. Therefore, we shall institute an investigation under section 206 of the Federal Power Act to determine the justness and reasonableness of the rates.

We note that in Docket No. E-8121, the Commission in its order of June 14, 1973, instituted an investigation under section 206 of the Federal Power Act with respect to the fuel adjustment clause contained in the FPC Rate Schedule with Southwest. Since the fuel adjustment clause in Docket No. E-8179 is identical to the clause in Docket No. E-8121, common issues of law and fact are raised. We will accordingly order consolidation of these dockets. Consistent with this action, the dates for service of evidence and hearing in this docket will be identical to those in Docket No. E-8121.

The Commission finds. (1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing under section 206 of the Federal Power Act to determine the justness and reasonableness of the fuel adjustment cause in Docket No. E-8179 filed May 4, 1973.

(2) Good cause exists for consolidation of Docket Nos. E-8121 and E-8179.

(3) Consistent with our action consolidating Docket Nos. E-8121 and E-8179, the procedural dates set forth in our June 14, 1973, order in the former docket shall be the procedural dates in the instant filing.

The Commission orders. (A) The agreement filed May 4, 1973, between Gulf States and Southwest is hereby accepted for filing, to become effective August 1, 1973, as requested.

(B) An investigation into the justness and reasonableness of the fuel adjustment clause with Southwest at Docket No. E-8179 is hereby instituted under section 206 of the Federal Power Act.

(C) Docket Nos. E-8121 and E-8179 are hereby consolidated and set for hearing in accordance with the schedule established in our order of June 14, 1973, in Docket No. E-8121.

(D) Nothing contained in this order shall relieve the Applicant of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Gas 91-370, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(E) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16836 Filed 8-14-73;8:45 am]

[1] This letter was received July 20, 1973, which is considered the filing date.

[Docket No. ID-1699, etc.]

JOHN L. HANKINS ET AL.

Notice of Applications

AUGUST 9, 1973.

Take notice that the following applications were filed on the stated dates, pursuant to section 305(b) of the Federal Power Act, for authority to hold the position of officer or director of more than one public utility, or the position of officer or director of a public utility and officer or director of a firm authorized to market utility securities, or the position of officer or director of a public utility and officer or director of a company suppling electric equipment to such public utility.

Any person desiring to be heard or to make any protest with reference to said applications should on or before August 27, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to the proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[Docket No. E-8341]

MONTAUP ELECTRIC CO.

Notice of Wholesale Electric Service Agreement

AUGUST 8, 1973.

Take notice that on July 30, 1973, Montaup Electric Company (Montaup) of Fall River, Massachusetts tendered for filing its proposed contract for sale of electric power to Newport Electric Corporation (Newport) of Newport, Rhode Island. Montaup states that the sale to Newport is comprised of a portion of Montaup's unit purchases from three electrical power generation facilities,[1] and that the charges to Newport are the exact cost of this power to Montaup (.5 percent of the purchase made by Montaup from each of the three generation plants). According to Montaup, the sole exception to the direct passage on to Newport of its own costs is the charge to Newport for the transmission of power from Boston Edison's Pilgrim No. 1 Unit, for which movement Montaup uses its own and other facilities. Montaup contends that the equitable method for charging Newport for the wheeling charge would be to use the NEPOOL agreement's Pool Transmission Facilities charge (even though Pilgrim No. 1 is not a pool-planned unit) which is agreed upon at $6.00 per kw year, subject to adjustments when the actual figures become available.

According to Montaup, agreement on the contract was reached by April 1, 1973, although delays in drafting prevented execution of the contract until July 13, 1973. Montaup requests that the contract be allowed to become effective as of April 1, 1973, the intended effective contract date, and that prior notice requirements be waived, as the only persons affected by the waiver would be the contract parties. Montaup states that copies of the filing have been sent to both parties to the contract and to the Rhode Island Division of Public Utilities.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 24, 1973. Protest will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[1] Maine Yankee Atomic Power Company, Vermont Yankee Nuclear Power Corporation, and Boston Edison Company (from its Pilgrim No. 1 nuclear power unit).

[Project No. 2713]

NIAGARA MOHAWK POWER CORP.

Notice of Application for License for Constructed Project

AUGUST 8, 1973.

Public notice is hereby given that application for a major license was filed December 7, 1970, under the Federal Power Act (17 U.S.C. 791a-825r) by Niagara Mohawk Power Corporation (Correspondence to: Mr. Lauman Martin, Senior Vice President and General Counsel, Niagara Mohawk Power Corporation, 300 Erie Boulevard West, Syracuse, New York 13202) for Oswegatchie River Project No. 2713, located in the towns of Fine and Oswegatchie, and near the City of Ogdensburg, St. Lawrence County, New York, on the Oswegatchie River.

The Oswegatchie River Project, which has an installed capacity of 26,380 kw, consists of:

A. Eel Weir Development consisting of (1) an Ambursen type dam approximately 1,012 feet long with a maximum height of 25 feet, (2) a reservoir with surface area of about 96 acres, and (3) a powerhouse containing one 500 kw unit and two 1,100 kw units.

B. South Edwards Development consisting of (1) a concrete gravity type dam approximately 200 feet long with a maximum height of 51 feet, (2) a reservoir with a surface area of about 69 acres, (3) a steel pipe 1,142 feet long and 10 feet in diameter, and (4) a powerhouse containing one 680 kw unit and two 1000 kw units.

C. Flat Rock Development consisting of (1) a concrete gravity type dam approximately 568 feet long with a maximum height of 70 feet, (2) a reservoir with surface area of about 137 acres, (3) a steel penstock 40 feet long and 9½ feet in diameter, and (4) a powerhouse containing two 3,000 kw units.

D. Browns Falls Development consisting of (1) a concrete gravity type dam approximately 871 feet long with a maximum height of 65 feet, (2) a reservoir with surface area of about 171 acres, (3) a wood stove pipe 3,673 feet long and 12½ feet in diameter, (4) a steel pipe 2,400 feet long and 11 feet in diameter, (5) two steel penstocks 142 feet long and 8 feet in diameter, and (6) a powerhouse containing two 7,500 kw units.

E. All other facilities and interests appurtenant to operation of the project.

Applicant has filed a system-wide Recreational Use Plan covering proposed recreational facilities for 82 hydroelectric developments including Project No. 2713. The Commission is acting upon this plan separately.

Any person desiring to be heard or to make protest with reference to said application should on or before October 5, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-78]

ORANGE AND ROCKLAND UTILITIES, INC.

Notice of Certification of Settlement Agreement

AUGUST 8, 1973.

Take notice that on August 3, 1973, a Settlement Agreement (Agreement) purporting to resolve all issues in this docket

V 38-157 AUG 15 73 XUM

was certified to the Commission by the Presiding Administrative Law Judge, upon motion of Orange and Rockland Utilities (O&R). According to O&R, the Agreement resolves issues relating to rate of return, rate design, and the treatment of depreciation in O&R's proposed tariff sheets. The tariff sheets as originally filed were to become effective, subject to refund, on August 1, 1973, at the end of the five month suspension period ordered by the Commission. No specific effective date is proposed for the tariff sheets as amended pursuant to the Agreement.

Any person desiring to be heard or to protest said certification should file comments or protests with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such comments or protests should be filed on or before August 20, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken. Copies of this certification are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-16844 Filed 8-14-73;8:45 am]

[Project No. 233]

PACIFIC GAS AND ELECTRIC CO.

Notice of Application for New License for Constructed Project

AUGUST 9, 1973.

Public notice is hereby given that application for new major license (rellcense) has been filed October 28, 1970, under the Federal Power Act (16 U.S.C. 791a–825r) by Pacific Gas and Electric Company (Correspondence to: Mr. J. F. Roberts, Jr., Vice President-Rates and Valuation, Pacific Gas and Electric Company, 245 Market Street, San Francisco, California 94106) for its constructed Project No. 233 located in Shasta County, California.

Project No. 233 consists of:

(A) Pit 3 Development. (1) Pit 3 Dam; (2) Lake Britton, the reservoir formed by Pit 3 Dam; (3) Rock Creek Diversion Dam; (4) concrete tunnels and condult 19 feet in diameter with a total length of about 21,300 feet; (5) a steel pipeline 2 feet in diameter and approximately 2,700 feet long; (6) three steel penstocks, 10 feet in diameter and 600 feet in length each; (7) three generators, 26,730 kw each and, (8) appurtenant facilities.

(B) Pit 4 Development. (1) Pit 4 Dam; (2) Pit 4 Reservoir, which also serves as the afterbay for Pit 3 powerhouse; (3) a tunnel 19 feet in diameter and approximately 21,500 feet in length; (4) two steel penstocks, each 12 feet in diameter and about 820 feet in length; (5) two generators, 45,000 kw each; (6) appurtenant facilities.

(C) Pit 5 Development. (1) Pit 5 Dam; (2) Pit 5 Reservoir, which also serves as the afterbay for Pit 4 powerhouse; (3) Pit 5 Open Conduit Dam; (4) a reservoir formed by the open conduit dam; (5) two tunnels 19 feet in diameter and a total length of approximately 28,400 feet; (6) the open conduit canal about 3,000 feet in length; (7) four steel penstocks 8 feet in diameter and each about 1400 feet in length; (8) four generators, two rated at 38,280 kw each and the other two at 32,000 kw each; (9) appurtenant facilities.

According to the application: (1) The project is carried on Licensee's books at a net amount of $56,379,432 as of December 31, 1969. There are several indicia of fair market value, among them reproduction cost new less depreciation. On this basis, the value of the Pit 3, 4 and 5 Project is currently estimated at $192,-750,000; no definite figure for severance damages is given by the Applicant; (2) the Applicant states that the Pit 3, 4 and 5 Project accounts for about $3,843,000 annually in tax revenue to local, state and federal tax agencies. Applicant currently pays property taxes of $1,664,000 per year on project properties in Shasta County. Taxes on income currently attributable to the project total approximately $2,179,000 of which $1,884,000 is paid to the United States and $295,000 to the State of California.

Lake Britton is the project's principal recreation attraction though short reaches of the Pit River and Hat Creek also offer recreation opportunities in the project area. For example, Lake Britton offers opportunities for sedentary and mass appeal recreation while the Pit River Canyon offers opportunities for the hiker or fisherman.

To date, in excess of $92,000 has been invested by Licensee for conservation and recreation developments in Project 233 as part of its system-wide watershed development program.

Any person desiring to be heard or to make protest with reference to said application should on or before October 8, 1973, file with the Federal Power Commission, Washington, DC 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[Docket No. E-8242]

PUBLIC SERVICE COMPANY OF OKLAHOMA

Order Amending Certain Procedings, Initiate a Proceeding Under Section 206, Dismiss a Section 206 Proceeding and Accept for Filing Under Section 205, Suspend Proposed Rates, and Establish Hearing Procedures

AUGUST 8, 1973.

On May 30, 1973, Public Service Company of Oklahoma (PSCO) tendered for filing proposed changes in its FPC Rate Schedule Nos. 163, 168–171, 173, 176–179, 182, and 185, proposing an effective date of August 1, 1973. By order of July 30, 1973, the filing was accepted under section 205 of the Federal Power Act, the rates requested were suspended until January 1, 1974, and intervention was granted six customers of PSCO. Additionally, a proceeding under section 206 with regard to the terms and conditions of the affected customers was initiated and an investigation under section 206 was ordered as to the rates proposed to be charged the City of Pawhuska and the Anadarko Public Works Authority (Anadarko).

Upon further review of the above order and the contracts of the affected parties, we have concluded that the July 30, 1973, order in this docket should be amended in the manner set forth below.

On page three of the prior order, the second sentence of the second paragraph should be amended to read: "Therefore, since the contracts presently bar a unilateral change in the terms and conditions, we will reject the filing under section 205 as to those issues."

With respect to the Anadarko, further review of their contract with PSCO persuades us that Mobile-Sierra[1] is not a bar to PSCO's proposed rate increase in this instance. Therefore, we will amend our prior order by dismissing the section 206 proceeding as to the rates charged Anadarko, accepting PSCO's application as to Anadarko under section 205, suspending the rates requested until January 1, 1974, and consolidating the proceeding with the section 205 hearing previously ordered in this docket.

We also find that the contract between PSCO and the City of Marlow bars a unilateral rate increase filing under the limitations of Mobile-Sierra. PSCO in this instance is prohibited not only from unilaterally changing terms and conditions, but also from unilaterally increasing rates. Accordingly, we will reject PSCO's filing under section 205 as to Marlow (FPC Rate Schedule No. 185), but we will institute a section 206 proceeding as to the rates, terms and conditions applicable to Marlow and consolidate the proceeding with the one initiated in our July 30, 1973, order in this docket.

The Commission orders. (A) Paragraph 3 of the Commission's findings in the July 30, 1973, order (mimeo p. 4) are amended to read:

"The motion to reject should be granted as to the terms and conditions of service reflected in PSCO's filing. The motion to reject should also be granted with regard to the proposed rates to be charged the City of Pawhuska and the City of Marlow. In all other respects, the motion to reject should be denied."

(B) Paragraph 4 of the Commission's findings in the order of July 30, 1973, (mimeo p. 4) are amended to read:

"Good cause exists to institute a proceeding under section 206 as to the terms and conditions of service proposed by PSCO's filing and with respect to the rates proposed to be charged the City of Pawhuska and the City of Marlow."

(C) Ordering paragraph A of the July 30, 1973 order (mimeo p. 4) in this docket is amended as follows:

"PSCO's proposed rate increase for its FPC Rate Schedule Nos. 163, 168–171, 173, 177–179, and 182 is accepted for filing under section 205 of the Federal Power Act. PSCO's proposed rate increase for its FPC Rate Schedule Nos. 176 (Pawhuska) and 185 (Marlow) is rejected. PSCO's filing for changes of terms and conditions in service to all affected customers is rejected under section 205 and an investigation under section 206 is initiated as to the proposed changes in terms and conditions of service in the contracts between PSCO and its customers mentioned herein. An investigation under section 206 is also initiated with respect to the rates proposed to be charged the City of Pawhuska and the City of Marlow. Pending a hearing and decision, thereon, the proposed rates are hereby suspended and the use thereof deferred until January 1, 1974, or until such time as they are made effective in the manner provided in the Federal Power Act. Increased rates and charges collected after January 1, 1974, and found by the Commission in this proceeding to be unjustified, shall be refunded according to the Commission's regulations.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

WISCONSIN PUBLIC SERVICE CORP.

Notice of Filing of Revised Fuel Clause

AUGUST 8, 1973.

Take notice that on July 20, 1973, Wisconsin Public Service Corporation (WPS) tendered for filing a revised fuel clause pursuant to the Commission's order issued June 26, 1973, in this docket, wherein the Commission directed WPS to file within 30 days of the date of the issuance of the order a fuel clause in conformance with Opinion No. 633. The proposed revision is 5th Revised Sheet No. 1, Volume No. 1 of Schedule W–1.

Any person desiring to be heard or to protest said filing should file comments or protests with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such comments or protests should be filed on or before August 20, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[812-3467]

FUNDAMERICA OF JAPAN, INC.

Application for Order

AUGUST 9, 1973.

Notice is hereby given that Fundamerica of Japan, Inc. (the "Fund"), 530 Fifth Avenue, New York, NY 10036, registered as a diversified, open-end management investment company under the Investment Company Act of 1940 ("the Act"), has filed an application pursuant to section 6(c) of the Act for exemption from section 22(d) of the Act and Rule 22c-1 under the Act to permit public offerings of Fund shares in Japan to non-United States nationals at public offering prices which may differ from those described in the prospectus of the Fund used in the United States. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

The Fund, a corporation organized under the laws of Delaware, makes continuous offerings of its mutual fund shares in both Japan and the United States. The Japanese general distributors for the continuous offerings are the Nomura Securities Co., Ltd. ("Nomura"), and Merrill Lynch, Pierce, Fenner and Smith, S.A. (Tokyo Branch) ("Merrill Lynch SA"). The distribution agreement between the Fund and the Japanese general distributors also contemplates block offerings of the Fund's shares in Japan. Under this arrangement, Nomura and Merrill Lynch SA, without existing orders from investors, would purchase a fixed number of shares from the Fund at a price determined in the manner described hereinafter and then resell such shares to investors.

Section 22(d) of the Act requires, in substance, that the securities of a registered investment company may be sold to the public only at the current public offering price described in the prospectus of the company.

Rule 22c-1 provides, in pertinent part, that a redeemable security must be sold at a price based on the current net asset value of the security which is next computed after receipt of an order to purchase such security.

The Fund seeks an order, pursuant to section 6(c) of the 1940 Act, exempting it, and sales of its shares in Japan to non-United States nationals in proposed block offerings, from the provisions of section 22(d) of the Act and Rule 22c-1 under the Act to the extent that these provisions would prevent such sales at prices which, though described in block offering prospectuses, would be other than the current offering prices described in the prospectuses used in respect to the continuous offering of the Fund's shares in the United States and Japan, and at prices which would be based on net asset values determined prior to such sales to the public.

In each block offering of shares of the Fund in Japan, Nomura and Merrill Lynch SA would purchase shares from the Fund at the net asset value next computed in accordance with Rule 22c-1. Within a short period of time, generally expected to be no more than six business days, they would sell these shares in Japan solely to non-United States nationals. In accordance with Japanese marketing practices, the purchase price on resale would be the lesser of the price at which Nomura or Merrill Lynch SA purchased such shares from the Fund plus the applicable sales charge or the net asset value determined as of the close of the market on the day previous to the resale plus the applicable sales charge. To protect the Fund from large scale redemptions if a block offering should fail, shares not sold during the block offering period would not be redeemed by Nomura and Merrill Lynch SA but would be retained and sold in a subsequent continuous offering at the net asset value next to be determined. Nomura and Merrill Lynch SA plan to offer Fund shares in block offerings solely in the manner and at public offering prices determined in the manner described above. Because of the time normally required to obtain an exemption under the Act, the Fund is seeking an exemption from section 22(d) of the Act and Rule 22c-1 thereunder for any and all block offerings it may make in Japan in the manner previously described. The Fund states that such an exemption is necessary to enable it to compete effectively in Japanese capital markets.

Section 6(c) of the Act authorizes the Commission, upon application, to exempt any person, security or transaction, or any class or classes of persons, securities or transactions, from the provisions of the Act and Rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

The Fund represents that the exemption of said proposal from the provisions of section 22(d) and Rule 22c-1 pursuant to section 6(c) is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than September 4, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[812-3478]

GNMA MORTGAGE-BACKED SECURITY FUND, SERIES 1, ET AL.

Filing of Application for Exemption and Confidential Treatment

AUGUST 9, 1973.

In the matter of the GNMA Mortgage-Backed Security Fund, Series 1 (And subsequent series); Paine, Webber, Jackson & Curtis Inc., 140 Broadway, New York, NY 10005; Dean Witter & Co. Inc. 45 Montgomery St., San Francisco, CA 94106; Reynolds Securities Inc., 120 Broadway, New York, NY 10005.

Notice is hereby given that The GNMA Mortgage-backed Security Fund, Series 1 ("Fund"), registered under the Investment Company Act of 1940 ("Act") as a unit investment trust, and its sponsors, Paine, Webber, Jackson & Curtis Incorporated, Dean Witter & Co. Incorporated and Reynolds Securities Inc. ("Sponsors") (hereinafter collectively referred to as "Applicants") have filed an application pursuant to section 6(c) of the Act for an order exempting the Fund from the provisions of section 14(a) of the Act and exempting the frequency of the Fund's capital gains distributions and the secondary market operations of the Sponsors from Rules 19b-1 and 22c-1, respectively, under the Act, and pursuant to section 45(a) of the Act granting confidential treatment to profit and loss statements supplied by the Sponsors in connection with certain registration statements filed with the Commission from time to time.

All interested persons are referred to the application on file with the Commission for a statement of Applicants' representations contained therein, which are summarized below.

The exemptive order is requested for Series 1 and subsequent funds sponsored by the Sponsors and meeting the description of such Funds in the application. The Fund, Series 1 and each future Fund will be governed by a trust agreement for that Fund (hereinafter called the "Trust Agreement") under which the Sponsors will act as such and United States Trust Company of New York will act as Trustee and Evaluator. The Trust Agreement for each Fund will contain standard terms and conditions of trust common to all Funds. Pursuant to the Trust Agreement, the Sponsors will deposit with the Trustee not less than $5,000,000 principal amount of underlying Mortgage-backed Securities (hereinafter called the "Securities") which the Sponsors shall have accumulated for such purpose. Simultaneously with such deposit the Trustee will deliver to the Sponsors registered certificates for not less than 5,000 Units, which will represent the entire ownership of the Fund. These Units are in turn to be offered for sale to the public by the Sponsors.

It shall be noted that the Securities will not be pledged or be in any other way subjected to any debt at any time after the Securities are deposited in the Fund. All of the Securities will be GNMA Mortgage-backed Securities the principal and interest on which is guaranteed as to payment by the Government National Mortgage Association. The Sponsors have accumulated the Securities for the purpose of deposit in Series 1 of the Fund and will follow a similar procedure of accumulating the Securities for each future Fund. In selecting the Securities, the following factors are considered: (1) The variety of mortgage-backed securities available, (2) the price of the Securities relative to other comparable mortgage-backed securities, (3) maturities of such Securities, (4) the issuers of such Securities and (5) the location of the mortgaged properites collateralizing such Securities.

Each Fund will consist of the underlying Securities, such mortgage-backed securities as may continue to be held from time to time in exchange or substitution for any of the Securities upon certain refundings, accrued and undistributed interest and undistributed cash. Certain of the Securities may from time to time be sold under circumstances set forth in the Trust Agreement or may be redeemed or may mature in accordance with their terms. The proceeds from such dispositions will be distributed to holders of units ("Units") of the Fund and not reinvested. There is no provision in the Trust Agreement for Series 1 of the Fund, and there will be no provision in the Trust Agreement for any future Series, for the sale and reinvestment of the Securities, and such activity will not take place. Reference is made to the Trust Agreement and to the Prospectus

V 38 - 157 AUG 15 73 XUM

for the Fund for a full explanation of the operation of the Funds.

Each Unit for a particular Fund will represent a fractional undivided interest in that Fund. The numerator of the fractional undivided interest represented will be 1 and the denominator will be equal to the number of Units then outstanding in the Fund. Units of each Fund will be redeemable. In the event that any Units shall be redeemed, the denominator of the fraction will be reduced and the fractional undivided interest represented by such Unit increased. Units will remain outstanding until redeemed or until the termination of the Trust Agreement. The Trust Agreement may be terminated by 100% agreement of the Unit-holders of the Fund, or, in the event that the value of the Securities shall fall below 20 percent of the principal amount of Securities originally deposited in the Fund, upon direction of the Sponsors to the Trustee and shall be automatically terminated on a date 50 years after the date of its creation. There is no provision in the Trust Agreement for Series 1 of the Fund and there will be no provision in the Trust Agreements for future Funds, for the issuance of any Units after the initial offering of Units (except that the secondary trading by the Sponsors in the Units is deemed the issuance of Units under the Act) and such activity will not take place.

Following the deposit of Securities for each Fund by the Sponsors with the Trustee, and following the declaration of effectiveness of that Fund's registration statement under the Securities Act of 1933 and clearance by the securities authorities of various States, the Sponsors will offer the Units of that Fund to the public at the public offering price set forth in the Prospectus, plus accrued interest.

While not obligated to do so, the Sponsors intend to maintain a market for the Units of Series of Fund and continually offer to purchase such Units at prices based on the aggregate of the then current offering prices of the Securities in the Fund. If the supply of Units exceeds demand, or for some other business reason, the Sponsors may discontinue purchases of Units at prices based on the offering prices of the Securities. In this event the Sponsors may nonetheless purchase Units, as a service to Unitholders, at a price based on the then current redemption value of those Units. In no event will the price offered by the Sponsors for repurchase of Units be less than the then current redemption value, based on the current bid prices for the Securities in the Fund.

Section 14(a). Section 14(a) of the Act requires that a registered investment company (a) have a net worth of at least $100,000 prior to making a public offering of its securities, (b) have previously made a public offering and at that time have had a net worth of $100,000 or (c) have made arrangements for at least $100,000 to be paid in by 25 or fewer persons before acceptance of public subscriptions.

On the Date of Deposit of the portfolio Securities for Series 1 of the Fund, and before any Unit of that Series is offered to the public, the application asserts that the Fund will have a net worth of at least $5 million represented by the market value of the Securities deposited with the Trustee on that date. While the size of the portfolios of future Funds has not been established, the Sponsors anticipate that in no event would the portfolio of any Fund be less than $5 million.

In connection with this request for exemption, the Sponsors have agreed that they will refund on demand and without deduction, all sales charges to purchasers of Units of a Fund if, within 90 days from the time when that Fund becomes effective under the Securities Act, the net worth of the Fund shall be reduced to less than $100,000 or if the Fund shall have been terminated. The Sponsors further agree to instruct the Trustee on the Date of Deposit of each Fund that in the event redemption by the Sponsors of Units constituting a part of the unsold Units shall result in that Fund having a net worth of less than $5 million, the Trustee shall terminate the Fund in the manner provided in the Trust Agreement and distribute all Securities and other assets deposited with the Trustee pursuant to the Trust Agreement as provided therein. The Sponsors further agree, in such event, to refund any sales charges to any purchaser of Units purchased from the Sponsors or any dealer participating in the underwriting on demand and without deduction.

Rule 22c–1. The application also seeks an order pursuant to Section 6(c) of the Act exempting the secondary market operations of Applicant's Sponsors from the provisions of Rule 22c–1 under the Act. The Sponsors propose to adopt the practice of valuing the Fund's Units, for repurchase and resale by the Sponsors in the secondary market, at prices computed once a week as of the close of business on the last business day of the week, effective for all transactions made during the following week. The evaluation is to be made by Applicant's Trustee and Evaluator, United States Trust Company of New York.

Rule 22c–1 provides, in part, that redeemable securities of registered investment companies must be sold, redeemed or repurchased at a price based on the current net asset value (computed on each day during which the New York Stock Exchange is open for trading not less frequently than once daily as of the time of the close of trading on such Exchange) which is next computed after receipt of a tender of such security for redemption or of an order to repurchase or sell such security.

Applicants assert that the pricing by the Sponsors in the secondary market in no way affects the Fund's assets, and that Unitholders benefit from such pricing procedure by receiving a normally higher repurchase price for their Units without the cost burden of daily evaluations of the Unit redemption value. In addition, the application states that the Sponsors have undertaken to adopt a procedure whereby the Evaluator, without a formal evaluation, will provide estimated evaluations on trading days. In the case of a purchase by the Sponsors, if the Evaluator cannot state that the previous Friday's offering side evaluation is at least equal to the current bid side evaluation, the Sponsors will order a new offering side evaluation for the purpose of such purchase. Also, in the case of such a purchase, if the Evaluator cannot state that the previous Friday's offering side evaluation, to be paid to a Unitholder, is no more than one-half point lower than the current offering side evaluation, a full evaluation will be ordered to determine the current offering side evaluation to be paid the Unitholder. In the case of sale by the Sponsors, if the Evaluator cannot state that the previous Friday's offering side evaluation is no more than one-half point ($5 on the purchase of a unit representing approximately $1,000 face amount of underlying Securities) greater than the current offering side evaluation, a full evaluation will be ordered. Applicants assert that this procedure will minimize the risk to the selling Unitholders of the Units without imposing the expense of daily evaluations upon the Fund's investors.

Rule 19b–1. Rule 19b–1(a) under the Act provides, in substance, that no registered investment company which is a "regulated investment company" as defined in Section 851 of the Internal Revenue Code shall distribute more than one capital gain distribution in any one taxable year. Paragraph (b) of the Rule contains a similar prohibition for a company not a "regulated investment company" but permits a unit investment trust to distribute capital gain distributions received from a "regulated investment company" within a reasonable time after receipt.

Distributions of principal and interest to Unitholders of the Fund are to be made on a monthly basis. Distributions of principal constituting capital gains to Unitholders may arise in two instances: (1) Prepayment of mortgages underlying the Securities in the Fund, including prepayment penalties; and (2) if Units redeemed by the Trustee and Securities from the portfolio are sold to provide the funds necessary for such redemption each Unitholder will receive his pro-rata portion of the proceeds from the Securities sold. In such instances, a Unitholder may receive in his distribution funds which constitute capital gains since in many cases the value of the portfolio Securities redeemed or sold will have increased since the date of initial deposit.

Paragraph (b) of Rule 19b–1 provides that a unit investment trust may distribute capital gains received from a "regulated investment company" within a reasonable time after receipt. Applicants state that the purpose of this provision is to avoid forcing unit investment trusts to accumulate valid distributions received throughout the year and distribute them only at year end. Applicants contend that their situation is within the intended objectives of this provision. However, in order to comply with the literal requirements of the Rule, a Fund would be forced to hold any moneys which would constitute capital gains upon distribution until the end of its taxable year. Applicants also contend that such a practice would clearly be to the detriment of the Unitholders.

In support of the requested exemption, the application states that the dangers against which Rule 19b–1 is intended to guard do not exist in Applicants' situation since the events which give rise to capital gains are independent of any action by the Sponsors and the Trustee. In addition, it is alleged that the amounts involved in a normal distribution of principal are relatively small in comparison to the normal interest distribution, at least during the early years of the Fund and dependent upon the amortization schedule of the underlying Securities, and such distributions are clearly indicated in accompanying reports to Unitholders as a return of principal.

Section 6(c) of the Act provides, in part, that the Commission may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions from any provisions of the Act or of any rules or regulations under the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Section 45(a). Applicants also seek an order of the Commission pursuant to section 45(a) of the Act granting confidential treatment to the profit and loss statements of the Sponsors, submitted in connection with registration statements of Fund, Series 1 and Subsequent Funds, filed with the Commission from time to time.

Section 45(a) of the Act provides in pertinent part that information filed with the Commission "shall be made available to the public, unless and except insofar as the Commission * * * by order upon application, finds that public disclosure is neither necessary nor appropriate in the public interest or for the protection of investors."

Applicants submit that public disclosure of the Sponsors' profit and loss statements is neither necessary nor appropriate in the public interest or for the protection of investors. Investors in the Fund are not offered an opportunity to acquire any interest whatsoever in the Sponsors. Apart from the Sponsors' minimal obligation under the Trust Agreements to designate Securities for liquidation by the Trustee to the extent necessary to provide funds for redemption (which obligation may be performed by the Trustee or successor Sponsors if not performed by the Sponsors), and certain other contingent supervisory responsibilities, the Sponsors have virtually no discretionary authority relating to the management of the Fund. Applicant states that the Sponsors thus function primarily as underwriters of the Fund. Applicants assert that there is no legitimate interest on the part of investors in the public disclosure of the profit and loss statements of the Sponsors acting as underwriters from whom the Units are purchased.

In addition, Applicants submit that to the extent that the Sponsors' solvency may conveivably be thought relevant to the maintenance of the secondary market, the Sponsors' financial information which appears in the prospectus, contains adequate information in this regard. Moreover, there is clear disclosure in the prospectus of the Sponsors' right to terminate secondary market activities in a Fund at any time. Even in the absence of a secondary market. Unitholders nevertheless retain the protection of their right under the Trust Agreements to the redemption of their Units upon presentation of such Units to the Trustee. Upon such redemption, the Unitholders receive cash equal to the "Unit Value" of the Units computed with regard to the underlying assets of the Fund. The soundness of the investors' interests in the Funds, it is stated, is solely a function of the value of the underlying Securities, the payment of principal of and interest on which is guaranteed by Government National Mortgage Association. Applicants thus represent that the profitability of the Sponsors will in no way enhance or diminish the prospect for an orderly payment of the underlying Securities.

Notice is further given, that any interested person may, not later than August 28, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the addresses stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

ATTACHMENT

623–1	Sample Letter Regarding Denial of Requested Classification and Reasons Therefor

CHAPTER 623

CLASSIFICATION PROCEDURE

SECTION 623.1

Commencement of Classification

1. Each registrant shall be administratively assigned to Class 1–H as of the time of his registration and thereafter shall have his classification reopened and considered anew by his local board whenever:

a. His random sequence number (RSN) is equal to or below the administrative processing number (APN) established by the Director of Selective Service for his year-of-birth group, or

b. The local board receives new information which would qualify him for a classification lower than 1–H.

2. The registrant's classification shall be determined on the basis of the official forms of the Selective Service System and other written information in his file, oral statements by the registrant at his personal appearance before the local board, appeal board, or National Selective Service Appeal Board, and oral statements by the registrant's witnesses at his personal appearance before the local board.

No written summary of the oral information presented at a registrant's personal appearance that was prepared by a member of the local board or compensated employee of the Selective Service System will be considered by the local board or placed in the registrant's file folder unless a copy of it has been furnished to the registrant. No information in any other document in the registrant's file shall be considered in classifying the registrant into a class available for military or alternate service unless that docu-

V 38 - 157 AUG 15 73 XUM

ment was supplied by the registrant or a copy of it or a fair resume of its contents has been furnished him by the Selective Service System.

SECTION 623.2

Consideration of Classes

Every registrant other than a registrant eligible for classification in Class 1-AM shall be placed in Class 1-A; except that when grounds are established to place a registrant in any one of the classes listed in the following table, the registrant shall be classified in the lowest class for which he is determined to be eligible, with Class 1-A-O considered the highest class and Class 4-A considered the lowest class:

Class 1-A-O	*Class 4-C*
1-A-OM	4-D
1-O	1-H
1-OM	4-G
2-AM	4-F
2-S	4-W
2-D	1-D
2-M	1-W
3-A	1-C
4-B	4-A

SECTION 623.3

Action to be Taken When Classification Determined

1. Within ten working days after the local board has classified or reclassified a registrant (except a registrant who is classified in Class 1-C because of his entry into active service in the armed forces, or in Class 1-W because of his entry into alternate service), it shall mail him a Status Card (SSS Form 7). When a registrant is classified in Class 2-AM, 2-S, 2-D, 2-M, or 3-A, the date of termination of the deferment shall be entered on the Status Card. When mailing a Status Card to a registrant classified in Class 1-O, the local board shall include a Conscientious Objector Skills Questionnaire (SSS Form 152) together with a return envelope preaddressed to the local board.

2. The effective date of the classification, the class, and the date of termination if applicable, will be entered on page 1 of the Registrant File Folder (SSS Form 101). The date of classification, the class, the vote, and the date of mailing the Status Card, will be entered on page 8 of the Classification Questionnaire (SSS Form 100), if present in the file folder, or on page 2 of the Registrant File Folder. The class and the date of mailing of the Status Card will also be entered on the Classification Record (SSS Form 102).

3. A notice of all classification actions, including administrative assignments to Class 1-H, for each local board will be posted in a conspicuous place in the local board office for a period of 60 days. The posting requirement for administrative assignments to Class 1-H will be met by use of the administrative assignment to Class 1-H section of the latest RIB output report, *List of Classifications*, (LOC), a copy of which should be posted on the local board bulletin board as soon as practicable following verification. For showing all classifications resulting from local board action, the Minutes of Local Board Meeting Continuation Sheet (SSS Form 112-A) will be used and the third copy of this form will be posted on the local board bulletin board together with the copy of the administrative assignment to Class 1-H section of the most current LOC. Minutes of Local Board Meeting Continuation Sheet should be posted as soon as prepared following the local board meeting.

4. When a person is unable to ascertain the current classification of a specific registrant from these posted notices, an employee of the local board, upon request, shall consult the Classification Record and shall furnish the person making the inquiry the current classification of such registrant.

5. In the event the local board classifies a registrant in a class other than that which he requested, it shall record its reasons on a Report of Information (SSS Form 119) which shall be prepared in an an original and one copy and signed by a local board member or compensated employee who was present at the meeting at which the registrant was classified, and the copy filed in the registrant's file. The local board shall inform the registrant of such reasons at the time it mails him a Status Card by enclosing the original of the Report of Information. (Sample letter for this purpose is Attachment 623-1 to this Chapter).

SECTION 623.4

Issuing a Replacement Status Card (SSS Form 7)

The Status Card shall be issued to a registrant by the local board with which he is registered, upon his written request, as a replacement for the Registration Certificate, the Notice of Classification, or the Status Card, which has been lost, destroyed, mislaid, stolen, or surrendered to the armed forces upon his entry on active duty. (See Chapter 613)

SECTION 623.5

Registrants Transferred for Classification

1. After completing the Registration Card (SSS Form 1), and before the local board of record (the registrant's own local board) has undertaken the classification of a registrant, other than his initial assignment into Class 1-H, he may be transferred to another local board by the State Director for classification if he is so far from his local board as to make complying with notices a hardship.

2. After completing the Registration Card, a registrant may be transferred to another local board by the Director or State Director for classification at any time (1) when the local board cannot act on his case because of disqualification, or (2) when a majority of the members of the local board, or a majority of the members of every panel thereof if the board has separate panels, withdraws from consideration of the registrant's classification because of any conflicting interest, bias, or other reason, or (3) when the State Director deems such transfer to be necessary in order to assure equitable administration of the selective service law.

SECTION 623.6

Procedure Upon Transfer for Classification

1. The local board from which the registrant is transferred shall prepare, in triplicate, an Order for Transfer for Classification (SSS Form 114), shall send one copy thereof to the registrant, and shall transmit the original to the local board to which the registrant is transferred, together with all papers pertaining to the registrant except the Registration Card and the remaining copy of the Order for Transfer for Classification. The local board from which the registrant is transferred shall, with red ink, note the transfer in the "Remarks" column of the Classification Record.

2. The local board to which the registrant is transferred shall classify the registrant. It shall follow the same procedure as in the case of one of its own registrants if a request for a personal appearance, a request for reopening, or an appeal is filed. It shall give the same notices and maintain the same records as are sent and maintained for its own registrants, except that it shall use a separate page in its Classification Record for transferred registrants and shall make all entries on that page in red ink. The local board to which the registrant is transferred shall prepare a duplicate Registrant File Folder. After the classification, after the personal appearance, when requested, and after the determination on appeal, when taken, the local board to which the registrant is transferred shall return to the local board of record all papers pertaining to the registrant except the duplicate Registrant File Folder and the Order for Transfer for Classification, and file the duplicate Registrant File Folder as instructed in Section 603.1. In the proper column of the Classification Record the local board to which the registrant is transferred shall note the date of the returning of the papers.

3. The classification made by the local board to which a registrant is transferred shall be appealed through that local board only. The local board of record shall accept and enter on the Classification Record and the Minutes of Local Board Meeting (SSS Form 112), without any change, the classification reported by the board which classified the registrant. If the local board of record receives new information that might affect the registrant's classification, the board shall send the information and the registrant's file to the board to which he was transferred, for further consideration; provided, that if the reason for the disqualification of the local board or other reason for the original transfer for classification no longer exists, the local board of record may consider the new information and classify the registrant in the same manner as if he had never been transferred for classification.

SAMPLE LETTER REGARDING DENIAL OF REQUESTED CLASSIFICATION AND REASONS THEREFOR

(Local Board Stamp)

TO:---------- ----------
Date of Mailing

SSN:----------

Dear----------,

This is to advise you that the classification you requested has been denied by the local board. A new Status Card (SSS Form 7) reflecting your classification is enclosed.

The reason(s) for denial of the requested classification is set forth on the enclosed Report of Information (SSS Form 119) which you may wish to retain for your personal records.

612.3	Responsibilities of the Local Board
612.4	Interpreters
612.5	Care and Custody of Registration Cards, Status Cards and Notices of Classification

CHAPTER 612

DUTIES IN REGISTRATION

SECTION 612.1

Responsibility of State Director of Selective Service

The State Director of Selective Service shall supervise the registration processes within his state. Each State Director of Selective Service may, with the approval of the Director of Selective Service, make such modifications of the procedures contained in this chapter as may be necessary in order to properly effect a complete registration.

SECTION 612.2

Registrars

1. Any member of a local board or compensated employee of the Selective Service System may perform the duties of registrar without special appointment. The State Director shall appoint as registrar within his state responsible persons whose services can be secured without compensation. Officers assigned to Selective Service Reserve Units and National Guard Sections are not compensated employees of the System (except during periods of active duty), but may be appointed by the State Director to serve as registrars. When the services of registrars cannot be secured without compensation, the State Director of Selective Service, with the approval of the Director of Selective Service, may appoint registrars on a compensated basis. Compensated employees of the Selective Service System shall serve as registrars whenever possible in lieu of appointing other persons as registrars to serve with compensation.

2. Each person appointed as an uncompensated registrar shall execute an Oath of Office and Waiver of Pay (SSS Form 400) before undertaking any duties as registrar.

3. For each place of registration having more than one appointed registrar, the State Director shall designate a chief registrar who shall be responsible for the proper conduct of the registration at each such place.

4. The State Director shall be responsible for the training of registrars in their duties, including familiarization with the regulations and procedures governing registration.

SECTION 612.3

Responsibilities of the Local Board

1. The State Director of Selective Service may authorize a local board to supervise one or more registrars in its area of jurisdiction or the State Director may retain this supervisory function.

2. The State Director may designate a local board to furnish registration forms and supplies to individual registrars. These forms and supplies will include: SSS Forms 1, 4, 119, instruction sheet for preparing SSS Form 1, Registrar's Handbook, pre-addressed envelopes, ballpoint pens, posters and brochures.

3. No expense shall be incurred in connection with the registration except upon the prior approval of the State Director of Selective Service.

SECTION 612.4

Interpreters

Whenever the services of interpreters are necessary in conducting the registration, the local board may utilize such interpreters as may be required.

SECTION 612.5

Care and Custody of Registration Cards, Status Cards and Notices of Classification

The chairman of the local board is charged with the care and custody of the Registration Cards (SSS Form 1), Status Cards (SSS Form 7), and Notices of Classification (SSS Form 110), where appropriate, received by him from the State Director of Selective Service. He shall guard against their loss or destruction and shall not permit anyone to tamper with them and shall warn all persons concerned against entrusting them to the custody of unauthorized persons.

BYRON V. PEPITONE,
Director.

AUGUST 9, 1973.

TARIFF COMMISSION

[337-33]

CERTAIN DISPOSABLE CATHETERS AND CUFFS THEREFOR

Notice of Investigation and Hearing

A complaint was filed with the U.S. Tariff Commission on June 30, 1972, on behalf of Multi-Med Industries, Inc., Southfield, Michigan, and Martin Mattler, Franklin, Michigan, alleging unfair methods of competition and unfair acts in the importation and sale of certain disposable catheters and cuffs therefor which are embraced within the claims of U.S. Patent No. 3,417,753. Complainant alleges that the effect or tendency of the unfair methods or acts is to destroy or substantially injure an industry, efficiently and economically operated, in the United States in violation of the provisions of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337). The complaint names E-Z-EM Company, Inc., Westbury, New York, as an importer of the subject products. Having conducted, in accordance with § 203.3 of the Commission's rules of practice and procedure (19 CFR 203.3), a preliminary inquiry with respect to the matters alleged in the said complaint, the U.S. Tariff Commission, on August 8, 1973, ordered:

That, for the purposes of section 337 of the Tariff Act of 1930, an investigation be instituted with respect to the alleged violations in the importation and sale in the United States of certain disposable catheters and cuffs therefor made in accordance with the claims of U.S. Patent No. 3,417,753; and that a public hearing be held.

The Commission decided not to recommend at this time that the President issue a temporary exclusion order.

The public hearing will be held on October 9, 1973, at 10 a.m., e.d.t., in the Hearing Room, U.S. Tariff Commission Building, Eighth and E Streets, NW., Washington, D.C. All parties concerned will be afforded an opportunity to be present, to produce evidence, and to be heard concerning the subject matter of the investigation. Interested parties desiring to appear and give testimony at the hearing should notify the Secretary of the Commission in writing at least 5 days in advance of the opening of the hearing.

Public notice of the receipt of the complaint and initiation of the preliminary inquiry was published in the FEDERAL REGISTER on July 13, 1972 (37 FR 13733). Notice of an extension of time for filing written views and expansion of scope of the preliminary inquiry was published in the FEDERAL REGISTER on August 31, 1972 (37 FR 17785). The complaint was served upon the party named in the complaint and upon all known interested parties. The complaint has been available for inspection by interested persons continually since issuance of the notice, at the Office of the Secretary, located in the U.S. Tariff Commission Building, and also in the New York City office of the Commission, located in Room 437 of the Customhouse.

Issued: August 9, 1973.

By order of the Commission.

[SEAL] G. PATRICK HENRY,
Acting Secretary.

DEPARTMENT OF LABOR

Office of the Secretary

GENERAL ELECTRIC CO.

Investigation Regarding Certification of Eligibility of Workers To Apply for Adjustment Assistance

After reviewing the Tariff Commission's report on its investigation of the petition for adjustment assistance filed on behalf of workers formerly employed at the Buffalo, N.Y. plant of General Electric Co., New York, N.Y. (TEA-W-196), under section 301(c)(2) of the Trade Expansion Act of 1962, and in which report the Commission being equally divided, made no finding with respect to transistors and diodes, the President decided, under the authority of section 330(d)(1) of the Tariff Act of 1930 as amended, to consider the findings of those Commissioners who found in the affirmative as the finding of the Commission. Accordingly, he has advised the Secretary of Labor that he may certify the group of workers involved as eligible to apply for adjustment assistance.

In view of the Tariff Commission's report, the President's authorization, and the responsibilities delegated to the Secretary of Labor under section 8 of the Executive Order 11075 (28 FR 473), the Director, Office of Foreign Economic Policy, Bureau of International Labor Affairs, has instituted an investigation, as provided in 29 CFR 90.5 and this notice. The investigation relates to the determination of whether any of the group of workers covered by the Tariff Commission report should be certified as eligible to apply for adjustment assistance, provided for under Title III, Chapter 3, of the Trade Expansion Act of 1962, including the determination of related subsidiary subjects and matters, such as the date unemployment or underemployment began or threatened to begin and the subdivision of the firm involved to be specified in any certification to be made, as more specifically provided in subpart B of CFR, part 90.

Interested persons should submit written data, views, or arguments relating to the subjects of investigations to the Director, Office of Foreign Economic Policy, U.S. Department of Labor, Washington, D.C. 20210 on or before August 22, 1973.

Signed at Washington, D.C. this 8th day of August, 1973.

GLORIA G. VERNON,
Director, Office of Foreign Economic Policy.

V 38 157 AUG 15 73 XUM

HUBBARD SHOE CO., INC.

Investigation Regarding Certification of Eligibility of Workers to Apply for Adjustment Assistance

The Department of Labor has received a Tariff Commission report containing an affirmative finding under Section 301 (c)(2) of the Trade Expansion Act of 1962 with respect to its investigation of a petition for determination of eligibility to apply for adjustment assistance filed on behalf of the former workers of the Hubbard Shoe Co., Inc., Rochester, N.H. (TEA-W-202). In view of the report and the responsibilities delegated to the Secretary of Labor under Section 8 of Executive Order 11075 (28 FR 473), the Director, Office of Foreign Economic Policy, Bureau of International Labor Affairs, has instituted an investigation, as provided in 29 CFR 90.5 and this notice. The investigation relates to the determination of whether any of the group of workers covered by the Tariff Commission report should be certified as eligible to apply for adjustment assistance, provided for under Title III, Chapter 3, of the Trade Expansion Act of 1962, including the determination of related subsidiary subjects and matters, such as the date unemployment or underemployment began or threatened to begin and the subdivision of the firm involved to be specified in any certification to be made, as more specifically provided in Subpart B of 29 CFR Part 90.

Interested persons should submit written data, views or arguments relating to the subjects of investigation to the Director, Office of Foreign Economic Policy, U.S. Department of Labor, Washington, D.C. on or before August 22, 1973.

Signed at Washington, D.C. this 8th day of August 1973.

GLORIA G. VERNON,
Director, Office of Foreign Economic Policy.

DEPARTMENT OF STATE

[Public Notice 396]

TREATIES AND OTHER INTERNATIONAL AGREEMENTS

Notice of Proposed Rulemaking

Consideration is being given by the Department of State to the revision of Chapter 700 of Volume 11 of the Foreign Affairs Manual.

The proposed revision is a codification of Department of State Circular 175 dated December 22, 1955, as amended and issued in Chapter 700 of Volume 11 of the Foreign Affairs Manual. The Foreign Affairs Manual (FAM) is an internal instruction for Department of State personnel. Chapter 700 of Volume 11 has heretofore been available for public inspection and copying in accordance with 5 U.S.C. 552(a)(2). However, revisions thereto have not previously been published for the information of the public and with an opportunity for public comment thereon. The proposed revision is being published because of the public interest in the manner in which treaties and other international agreements are entered into by the United States.

The current revision is a substantive one with respect to the sections regarding the constitutional bases on which treaties and other international agreements are entered into by the United States, the sections regarding consultation with the Congress, and with respect to sections calling upon all officers to cooperate in the application of the Case Act (1 U.S.C. 112(b)) which requires that all international agreements other than treaties be transmitted to the Congress within 60 days after they enter into force. Otherwise, the revision is merely a rearrangement of other existing sections with some editorial improvement.

The purpose of the revised procedures is to ensure (1) that orderly and uniform procedures are followed in the negotiation and signature of treaties and other international agreements; (2) that constitutional bases of authority are followed in the making of treaties and other international agreements by the United States; (3) that timely and otherwise appropriate consultation with the Congress is had with respect to the negotiation of international agreements and the procedure by which they are brought into force; and (4) that the laws regarding the transmission of international agreements other than treaties to the Congress and the publication of treaties and other international agreements are faithfully observed.

Interested persons are invited to submit written comments, or suggestions regarding the proposed revision to the Assistant Legal Adviser for Treaty Affairs, Office of the Legal Adviser, Room 5420, Department of State, Washington, D.C., 20520, not later than September 21, 1973.

700—TREATIES AND OTHER INTERNATIONAL AGREEMENTS

710 *Purpose.* a. The purpose of this chapter is to ensure that orderly and uniform procedures are followed in the negotiation, signature, publication and registration of treaties and other international agreements of the United States. It is also designed to ensure the maintenance of complete and accurate records on treaties and agreements and the publication of authoritative information concerning them.

b. The chapter is not a catalog of all the essential rules or information pertaining to the making and application of international agreements. It is limited to regulations necessary for general guidance.

720 NEGOTIATION AND SIGNATURE

720.1 *Circular 175 Procedure.* This subchapter is a codification of the substance of Department Circular No. 175, December 13, 1955, as amended, on the negotiation and signature of treaties and executive agreements. It may be referred to for convenience and continuity as the "Circular 175 Procedure."

720.2 *General Objectives.* The objectives are to ensure:

a. That the making of treaties and other international agreements for the United States is carried out within constitutional and other appropriate limits;

b. That the objectives to be sought in the negotiation of particular treaties and other international agreements are approved by the Secretary or an officer specifically authorized by him for that purpose;

c. That timely and appropriate consultation is had with congressional leaders and Committees on treaties and other international agreements;

d. That firm positions departing from authorized positions are not undertaken in negotiations without the approval of the Legal Adviser and the Interested assistant secretaries or their deputies;

e. That the final texts developed are approved by the Legal Adviser and the interested assistant secretaries or their deputies and, when required, brought a reasonable time before signature to the attention of the Secretary or an officer specifically designated by him for that purpose;

f. That authorization to sign the final text is obtained and appropriate arrangements for signature are made;

g. That there is compliance with the requirements of the Case Act on the transmission of the texts of international agreements other than treaties to the Congress (see section 724); the law on the publication of treaties and other international agreements (see section 725) and treaty provisions on registration (see section 750.2–3).

721 EXERCISE OF THE INTERNATIONAL AGREEMENT POWER

721.1 *Determination of Type of Agreement.* The following principles, considerations, and procedures will be observed in determining whether an international agreement shall be dealt with by the United States as a treaty to be brought into force with the advice and consent of the Senate, or as an executive agreement to be brought into force on some other constitutional basis.

721.2 *Constitutional Requirements.* There are two procedures under the Constitution through which the United States becomes a party to international agreements. Those procedures and the constitutional parameters of each are:

(a) *Treaties:* International agreements (regardless of their title, designation or form) whose entry into force with respect to the United States takes place only after the Senate has given its advice and consent are "treaties". The President, with the advice and consent of two-thirds of the Senators present, may enter into an international agreement on any subject genuinely of concern in foreign relations so long as the agreement does not contravene the United States Constitution: and

(b) *Executive agreements:* International agreements brought into force with respect to the United States on a constitutional basis other than with the advice and consent of the Senate are "executive agreements" (international agreements other than treaties). There are three constitutional bases for executive agreements as set forth below. An international agreement may be concluded pursuant to one or more of these constitutional bases:

(i) *Executive agreements pursuant to treaty:* The President may conclude an international agreement pursuant to a treaty brought into force with the advice and consent of the Senate, whose provisions constitute authorization for the agreement by the Executive without subsequent action by the Congress;

(ii) *Executive agreements pursuant to legislation:* The President may conclude an international agreement on the basis of existing legislation or subject to legislation to be enacted by the Congress; and

(iii) *Executive agreements pursuant to the constitutional authority of the President:* The President may conclude an international agreement on any subject within his constitutional authority so long as the agreement is not inconsistent with legislation enacted by the Congress in the exercise of its constitutional authority. The constitutional sources of authority for the President to conclude international agreements include:

(1) The President's authority as Chief Executive to represent the nation in foreign affairs;

(2) The President's authority to receive Ambassadors and other public ministers;

(3) The President's authority as "Commander-in-Chief";

(4) The President's authority to "take care that the laws be faithfully executed".

721.3 *Criteria for Selecting Among Constitutionally Authorized Procedures.* In determining a question as to the procedure which should be followed for any particular international agreement due consideration is given to the following factors along with those in section 721.2.

(a) *Domestic factors:* (i) Whether the agreement involves important interests, commitments or risks affecting the nation as a whole;

(ii) Whether the agreement would affect State laws or the powers reserved to the States under the Constitution;

(iii) Whether the agreement can be given effect without the enactment of subsequent legislation by the Congress;

(iv) Past United States practice with respect to similar agreements;

(v) The preference of the Congress with respect to a particular type of agreement.

(b) *International factors:* (i) The degree of formality desired for an agreement;

(ii) The proposed duration of the agreement, the need for prompt conclusion of an agreement and the desirability of concluding a routine or short term agreement;

(iii) The general international practice with respect to similar agreements.

In determining whether any international agreement should be brought into force as a treaty or as an executive agreement the utmost care shall be exercised to avoid any invasion or compromise of the constitutional powers of the Senate, the Congress as a whole, or the President.

721.4 *Questions as to Type of Agreement to be Used; Consultation with Congress.* (a) All legal memorandums accompanying Circular 175 requests (see section 722.3(c)(iii)) will discuss thoroughly the bases for the type of agreement recommended.

(b) When there is any question whether an international agreement should be concluded as a treaty or as an executive agreement, the matter is brought to the attention of the Legal Adviser of the Department. If the Legal Adviser considers the question to be a serious one, he will transmit a memorandum thereon to the Assistant Secretary for Congressional Relations and other officers concerned. Upon receiving their views on the subject he shall, if the matter has not been resolved, transmit a memorandum thereon to the Secretary for his decision. Every practicable effort will be made to identify such questions at the earliest possible date so that consultations may be completed in sufficient time to avoid last-minute consideration.

(c) Consultations on such questions will be held with congressional leaders and committees as may be appropriate. Arrangements for such consultations shall be made by the Assistant Secretary for Congressional Relations and shall be held with the assistance of the Office of the Legal Adviser and such other offices as may be determined. Nothing in this section shall be taken as derogating from the requirement of appropriate consultations with the Congress in accordance with section 723.1e in connection with the initiation of, and developments during, negotiations for international agreements, particularly where the agreements are of special interest to the Congress.

722 ACTION REQUIRED IN NEGOTIATION AND/OR SIGNATURE OF TREATIES AND AGREEMENTS

722.1 *Authorization Required to Undertake Negotiations.* Negotiations of treaties, or executive agreements, or for their extension or revision are not to be undertaken, nor any exploratory discussions undertaken with representatives of another government, until authorized in writing by the Secretary or an officer specifically authorized by him for that purpose. Notification of termination of any treaty or executive agreement requires similar authorization.

722.2 *Scope of Authorization.* Approval of a request for authorization to negotiate a treaty or other international agreement does not constitute advance approval of the text nor authorization to agree upon a date for signature or to sign the treaty or agreement. Authorization to agree upon a given date for, and to proceed with, signature must be specifically requested in writing, as provided in section 722.3. This applies to treaties and other agreements to be signed abroad as well as those to be signed at Washington. Special instructions may be required, because of the special circumstances involved, with respect to multilateral conventions or agreements to be signed at international conferences.

722.3 *Request for Authorization to Negotiate and/or Sign; Action Memorandum.* (a) A request for authorization to negotiate and/or sign a treaty or other international agreement takes the form of an Action Memorandum addressed to the Secretary and cleared with the Office of the Legal Adviser, the Office of the Assistant Secretary for Congressional Relations, other appropriate bureaus, and any other agency (such as Defense, Commerce, etc.) which has primary responsibility or a substantial interest in the subject matter. It is submitted through the Executive Secretariat.

(b) The Action Memorandum may request one of the following: (i) authority to negotiate, (ii) authority to sign, or (iii) authority to negotiate and sign. The request in each instance states that any substantive changes in the draft text will be cleared with the Office of the Legal Adviser and other specified regional and/or functional bureaus before definitive agreement is reached. Drafting offices consult closely with the Office of the Legal Adviser to ensure that all legal requirements are met.

(c) The Action Memorandum is accompanied by (i) the draft, if available, of any agreement or other instrument intended to be negotiated, (ii) the text of any agreement and related exchange of notes, agreed minutes or other document to be signed, and (iii) a memorandum of law prepared in the Office of the Legal Adviser.

(d) Where it appears that there may be obstacles to the immediate public disclosure of the text upon its entry into force, the Action Memorandum shall include an explanation thereof (see sections 723.2 and 723.3).

722.4 *Separate Authorizations.* When authorization is sought with respect to a particular treaty or other agreement, either multilateral or bilateral, the Action Memorandum for this purpose outlines briefly and clearly the principal features of the proposed treaty or other agreement, indicates any special problems which may be encountered, and, if possible, the contemplated solutions of those problems.

722.5 *Blanket Authorizations.* In general, blanket authorizations are appropriate *only* in those instances where, in carrying out or giving effect to provisions of law or policy decisions, a series of agreements of the same general type is contemplated; that is, a number of agreements to be negotiated according to a more or less standard formula (e.g., P.L. 480 Agricultural Commodities Agreements; Educational Exchange Agreements; Investment Guaranty Agreements; Weather Station Agreements, etc.) or a number of treaties to be negotiated according to a more or less standard formula (e.g., consular conventions: extradition treaties, etc.). Each request for blanket authorization shall specify the officer or officers to whom the authority is to be delegated. The basic precepts under section 722.3 apply equally to requests for blanket authorizations.

722.6 *Certificate on Foreign-Language Text.* (a) Before any treaty or other

V 38 - 157 AUG 15 73 XUM

agreement containing a foreign-language text is laid before the Secretary (or any person authorized by him) for signature, either in the Department or at a post, a signed memorandum must be obtained from a responsible language officer of the Department certifying that the foreign-language text and the English-language text are in conformity with each other and that both texts have the same meaning in all substantive respects. A similar certification must be obtained for exchanges of notes that set forth the terms of an agreement in two languages.

(b) In exceptional circumstances the Department can authorize the certification to be made at a post.

722.7 *Transmission of Texts to Secretary.* The texts of treaties and other international agreements must be completed and approved in writing by all responsible officers concerned sufficiently in advance to give the Secretary, or the person to whom authority to approve the text has been delegated, adequate time before the date of signing to examine the text and dispose of any questions that arise. Posts must transmit the texts to the Department as expeditiously as feasible to assure adequate time for such consideration. Except as otherwise specifically authorized by the Secretary, a complete text of a treaty or other international agreement must be delivered to the Secretary or the Acting Secretary, or other person authorized to approve the text, before any such text is agreed upon as final or any date is agreed upon for its signature.

723 Responsibility of Office or Officer Conducting Negotiations

723.1 *Conduct of Negotiations.* The office or officer responsible for any negotiations must ensure:

a. That during the negotiations no position is communicated to a foreign government or to an international organization as a United States position that goes beyond any existing authorization or instructions;

b. That no proposal is made or position is agreed to beyond the original authorization without approval by the appropriate assistant secretaries or their deputies, the Legal Adviser's Office, and also, in the case of the treaties or other international agreements which concern responsibilities of AID, the Director of AID, or his Deputy;

c. That all significant policy-determining memorandums and instructions to the field on the subject of the negotiations are submitted to and cleared by the Office of the Legal Adviser, all assistant secretaries concerned or their deputies, and also, in the case of treaties or other international agreements which concern responsibilities of AID, the Director of AID, or his Deputy;

d. That the Secretary is kept informed in writing of important policy decisions and developments, including any particularly significant departures from substantially standard drafts that have been evolved;

e. That with the advice and assistance of the Assistant Secretary for Congressional Relations, the appropriate congressional leaders and committees are advised of the intention to negotiate significant new international agreements, consulted concerning such agreements, and kept informed of developments affecting them, including especially whether any legislation is considered necessary or desirable for the implementation of the new treaty or agreement. Where the proposal for any especially important treaty or other international agreement is contemplated, the Office of the Assistant Secretary for Congressional Relations will be informed as early as possible by the office responsible for the subject;

f. That in no case, after accord has been reached on the substance and wording of the texts to be signed, do the negotiators sign an agreement or exchange notes consituting an agreement until a request under section 722.3 for authorization to sign has been approved and, if at a post abroad, until finally instructed by the Department to do so as stated in section 730.3. If an agreement is to be signed in two languages, each language text must be cleared in full with the Language Services Division or, if at a post abroad, with the Department before signature, as required by section 722.6;

g. That due consideration is given also to the provisions of sections 723.2–723.9, 730.3, and 731 of this Chapter; and

h. That, in any case where any other department or agency is to play a primary or significant role or has a major interest in negotiation of an international agreement, the appropriate official or officials in such department or agency are informed of the necessity of complying with the requirements of this subchapter.

723.2 *Avoiding Obstacles to Publication and Registration.* The necessity of avoiding any commitment incompatible with the law requiring publication (see section 725) and with the treaty provisions requiring registration (see section 750.2–3) should be borne in mind by U.S. negotiators. Although negotiations may be conducted on a confidential basis, every practicable effort must be made to assure that any definitive agreement or commitment entered into will be devoid of any aspect which would prevent the publication and registration of the agreement.

723.3 *Questions on Immediate Public Disclosure.* In any instance where it appears to the U.S. representatives that the immediate public disclosure upon its entry into force of an agreement under negotiation would be prejudicial to the national security of the United States, the pertinent circumstances shall be reported to the Secretary of State and his decision awaited before any further action is taken. Where such circumstances are known before authorization to negotiate or to sign is requested, they shall be included in the request for authorization. All such reports and requests are to be cleared with the Office of the Legal Adviser.

723.4 *Public Statements.* No public statement is to be made indicating that agreement on a text has been reached, or that negotiations have been successfully completed, before authorization is granted to sign the treaty or other agreement. If such authorization has been granted subject to a condition that no substantive change in the proposed text is made without concurrence of the Office of the Legal Adviser and other specified offices, no such public statement is to be made until definitive agreement on the text has been reached with the concurrence of the Office of the Legal Adviser and the other specified offices. Normally, such a public statement is made only at the time a treaty or other agreement is actually signed, inasmuch as it remains possible that last-minute changes will be made in the text. Any such statement prior to that time must have the concurrence of the Office of the Legal Adviser, the Office of the Assistant Secretary for Congressional Relations, and the other specified offices, and the approval of the Secretary or the Department principal who originally approved the Action Memorandum request under "Circular 175 Procedure."

723.5 *English-Language Text.* Negotiators will assure that every bilateral treaty or other international agreement to be signed for the United States contains an English-language text. If the language of the other country concerned is one other than English the text shall be done in English and, if desired by the other country, in the language of that country. A United States note that constitutes part of an international agreement effected by exchange of notes shall always be in the English-language. If it quotes in full a foreign office note the quotation shall be rendered in English translation. A U.S. note shall not be in any language in addition to English unless specifically authorized. The note of the other government concerned may be in whatever language that government desires.

723.6 *Transmission of Signed Texts to Assistant Legal Adviser for Treaty Affairs.* a. The officer responsible for the negotiation of a treaty or other agreement at any post is responsible for ensuring the most expeditious transmission of the signed original text, together with all accompanying papers such as agreed minutes, exchanges of notes, agreed interpretations, plans, etc., to the Department for the attention of the Assistant Legal Adviser for Treaty Affairs: *Provided*, That where originals are not available accurate certified copies are obtained and transmitted as in the case of the original. (See sections 723.7, 723.8 and 723.9). The transmittal is by airgram, not by transmittal slip or Operations Memorandum.

b. Any officer in the Department having in his possession or receiving from any source a signed original or certified copy of a treaty or agreement or of a note or other document constituting a part of

a treaty or agreement must forward such documents immediately to the Assistant Legal Adviser for Treaty Affairs.

723.7 *Transmission of Certified Copies to the Department.* When an exchange of diplomatic notes between the mission and a foreign government constitutes an agreement or has the effect of extending, modifying, or terminating an agreement to which the United States is a party, a properly certified copy of the note from the mission to the foreign government, and the signed original of the note from the foreign government, are sent, as soon as practicable, to the Department for the attention of the Assistant Legal Adviser for Treaty Affairs. The transmittal is by airgram, *not* by transmittal slip or Operations Memorandum.

Likewise, if, in addition to the treaty or other agreement signed, notes related thereto are exchanged (either at the same time, before hand or thereafter), a properly certified copy (copies) of the note(s) from the mission to the foreign government are transmitted with the signed original(s) of the note(s) from the foreign government.

In each instance, the mission retains for its files certified copies of the note exchanged. The United States note is prepared in accordance with the rules prescribed in the Correspondence Handbook. The note of the foreign government is prepared in accordance with the style of the foreign office and usually in the language of that country. Whenever practicable, arrangements are made for the notes to bear the same date.

723.8 *Certification of Copies.* If a copy of a note is a part of an international agreement, such copy is certified by a duly commissioned and qualified Foreign Service officer either (a) by a certification on the document itself, or (b) by a separate certification attached to the document. A certification on the document itself is placed at the end of the document. It indicates, either typed or rubber stamped, that the document is a true copy of the original signed (or initialed) by (*insert full name of signing officer*), and it is signed by the certifying officer. If a certification is typed on a separate sheet of paper, it briefly describes the document certified and states that it is a true copy of the original signed (or initialed by) (*full name*) and it is signed by the certifying officer. The certification may be stapled to the copy of the note.

723.9 *Preparation of Copies for Certification.* For purposes of accuracy of the Department's records and publication and registration, a certified copy must be an exact copy of the signed original. It must be made either by typewriter (ribbon or carbon copy) or by facsimile reproduction on white durable paper (not by the duplimat method) and must be *clearly legible*. In the case of notes, the copy shows the letterhead, the date and, if signed, an indication of the signature or, if merely initialed, the initials which appear on the original. It is suggested that, in the case of a note from the mission to the foreign government, the copy for certification and transmission to the Department be made at the same time the original is prepared. If the copy is made at the same time, the certificate prescribed in section 723.8 may state that the document is a true and correct copy of the signed original. If it is not possible to make a copy at the same time, the original is prepared, the certificate indicates that the document is a true and correct copy of the copy on file in the mission. The word "(Copy)" is not placed on the document which is being certified; the word "(Signed)" is not placed before the indication of signatures. Moreover, a reference to the transmitting airgram, such as "Enclosure 1 to Airgram No. 18 (etc.)," is not placed on the certified document. The identification of such a document as an enclosure to an airgram may be typed on a separate slip of paper and attached to the document, but in such a manner that it may be easily removed without defacing the document.

724 Transmission of International Agreements Other Than Treaties to the Congress; Compliance With the Case Act

All officers will be especially diligent in cooperating to assure compliance with the Case Act, "An Act To require that international agreements other than treaties, hereafter entered into by the United States, be transmitted to the Congress within sixty days after the execution thereof." That Act, approved August 22, 1972 (86 Stat. 619; 1 U.S.C. 112b), provides as follows:

"The Secretary of State shall transmit to the Congress the text of any international agreement other than a treaty, to which the United States is a party as soon as practicable after such agreement has entered into force with respect to the United States but in no event later than sixty days thereafter. However, any such agreement the immediate public disclosure of which would, in the opinion of the President, be prejudicial to the national security of the United States shall not be so transmitted to the Congress but shall be transmitted to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives under an appropriate injunction of secrecy to be removed only upon due notice from the President."

725 Publication of Treaties and Other International Agreements of the United States

The attention of all officers is directed to the requirements of the Act of September 23, 1950 (64 Stat. 979; 1 U.S.C. 112(a)) which provides as follows:

The Secretary of State shall cause to be compiled, edited, indexed, and published, beginning as of January 1, 1950, a compilation entitled "United States Treaties and Other International Agreements", which shall contain all treaties to which the United States is a party that have been proclaimed during each calendar year, and all international agreements other than treaties to which the United States is a party that have been signed, proclaimed, or with reference to which any other final formality has been executed, during each calendar year. The said United States Treaties and Other International Agreements shall be legal evidence of the treaties, international agreements other than treaties, and proclamations by the President of such treaties and agreements, therein contained, in all the courts of the United States, the several States, and the Territories and insular possessions of the United States.

730 Procedures for Concluding International Agreements

730.1 *Method of Concluding Bilateral and Multilateral Agreements.* An agreement may be concluded (entered into) by the process of bilateral negotiations which result either in the signing of a single instrument in duplicate or in exchange of diplomatic notes, or by the process of multilateral negotiations, usually at an international conference to which the governments concerned send official delegations for the purpose of formulating and signing an agreement.

730.2 *Bilateral Treaties and Agreements.* 730.2–1 *Negotiation and Background Assistance.* Whenever the negotiation of a new international agreement is under consideration, the post or the Department office having primary responsibility informs the Legal Adviser and may, if considered necessary, request background material and advice regarding relevant provisions in existing treaties and agreements, the general treaty relations of this Government with the government or governments concerned, and other pertinent information.

730.2–2 *Role of Office of the Legal Adviser.* a. *Legal Review of Draft Agreements.* As soon as tentative provisions for an agreement are considered or drafted, the Office of the Legal Adviser is requested to make available the services of an attorney-adviser to ensure that the agreement is properly drafted and agreed policy is expressed clearly and fully. The Office of the Legal Adviser prepares a draft in the first instance upon the request of another office.

b. *Legal Clearance Required.* Any draft of a proposed treaty or agreement, or any outgoing correspondence regarding the negotiation, signature, and ratification or approval, as well as the existence, status, and application, of any international agreement to which the United States is or may become a party, is cleared with the Office of the Legal Adviser and with other appropriate bureaus or offices.

730.3 *Instructions to Negotiators.* When an agreement is to be concluded at a foreign capital, the Department designates the American negotiator or negotiators, and he or they are given appropriate instructions. If the agreement to be negotiated is a treaty which will be referred to the Senate, the Secretary of State may at some time prior to or during the negotiations issue or request the President to issue a "full power" (see section 732) constituting formal authorization for the American negotiators to sign the agreement. Such

V 38 157 AUG 15 73 XUM

a "full power" is not customary with respect to an executive agreement. The receipt or possession of a "full power" is never to be considered as a final authorization to sign. That authorization is given by the Department by a written or telegraphic instruction, and no signature is affixed in the absence of such instruction. If the proposal for an agreement originates with the United States, the American negotiators as a rule furnish a tentative draft of the proposed agreement for submission to the other government for its consideration. The negotiators submit to the Department any modification of the draft or any counter-proposal made by the other government and await instructions from the Department. If the original proposal emanates from a foreign government, the mission forwards the proposal to the Department and awaits its instructions.

730.47 *Preparation of Texts for Signature.* If an agreement is to be signed at a post abroad as a single instrument (in duplicate), the engrossing is customarily done in the foreign office on paper supplied by it, along with a binding and ribbons to tie the pages in place. However, the mission may lend assistance if the foreign office so desires. There is no universal standard as to the kind or size of paper which must be used (each foreign office has its own "treaty paper"), and the texts may be engrossed either by typing or by printing. For every bilateral agreement there must be two originals, one for each government. Each original must embody the full text of the agreement in all the languages in which the agreement is to be signed, subject only to the principle of the "alternat."

In the case of an agreement effected by exchange of notes, the United States note is prepared in accordance with 5 FAM 220–224 and the rules prescribed in the Correspondence Handbook. The note of the foreign government is prepared in accordance with the style of the foreign office and usually in the language of that country. Whenever practicable, arrangements are made for the notes to bear the same date.

730.5 *Principle of the Alternat.* 730.5–1 *Arrangement of Texts.* When English and a language other than English are both used, the texts in the two languages are placed (a) in parallel, vertical columns on the same page, the columns being approximately of equal width, or (b) on opposite facing pages of the document the entire width of the typed or printed space on the page, or (c) in "tandem" fashion, that is, with one text following the other. The tandem procedure is the most widely used as it is the most expeditious.

If the first-mentioned style is used, the English text is placed in the left column of each page in the original to be retained by the United States, and the foreign text appears in the right column. In the other original, to be retained by the foreign government, the foreign text appears in the left column, and the English text in the right column.

If the two languages are placed on opposite facing pages of the document, the English text occupies the left-hand page and the foreign text the right-hand page in the United States original, and conversely in the foreign government's original.

If the two languages are placed "tandem" fashion, the English text is placed first in the United States original, and conversely in the foreign government's original.

If the parallel column style is used, each representative will sign once in the center of the page of each of two originals. If either the "opposite facing page" or "tandem" style is used, the concluding part (usually beginning "In Faith Whereof," "In Witness Whereof," "Done," etc.) should appear engrossed in paralled columns on the page on which the signature will appear, so that only one set of signatures is required for each separately bound document. If parallel columns are not feasible, the concluding paragraphs can be placed "tandem" fashion on the page on which the signatures appear.

If an oriental text is one which, from the occidental viewpoint, reads from back to front, it may be possible to join the two texts in a single document so that the signatures appear, roughly speaking, in the center of the document. Separate documents for the two languages are not desirable if any of the methods first mentioned is feasible, although extraordinary circumstances may justify exceptions. In the event of exceptional circumstances affecting the engrossing, it would be well for the negotiators to seek instructions from the Department.

730.5–2 *Arrangement of Names and Signatures; Use of Titles.* In the original to be retained by the United States, the United States and the plenipotentiary of the United States are named first in both the English and foreign texts, wherever the names of the countries or of the plenipotentiaries occur together conjunctively or disjunctively; and the signature of the plenipotentiary of the United States appears above the signature of the foreign plenipotentiary. Conversely, throughout both of the language texts of the original to be retained by the foreign government, that government and its plenipotentiary are named first and his signature appears above the signature of the U.S. plenipotentiary. Some countries prefer that the signatures be side by side. Where that procedure is followed, the signature of the United States plenipotentiary appears on the left and that of the foreign plenipotentiary on the right of the original to be retained by the United States; on the original to be retained by the foreign government the signature of the foreign plenipotentiary will appear on the left and the signature of the United States plenipotentiary on the right. The position of full sentences or paragraphs in the text is never transposed in the alternate procedure.

The general practice and preference of the Department of State is not to use titles along with signatures, especially where the President or the Secretary of State signs. However, if preferred by the other party or parties concerned, titles may be typed below the place where each signer will affix his signature.

731 Conformity of Texts

After the documents have been engrossed on the basis of agreed texts, and before the signing of the agreement, the negotiators or other responsible officers on each side make sure that the texts in both originals of the engrossed agreement are in exact conformity with the texts in the drafts agreed to, and especially that where a foreign language text is included it is in conformity in all substantive respects with the English text. Prior to engrossing it should have been determined that the foreign-language text is essentially (i.e., as a matter of substance) in accord with the English text, and that it has received the clearance of the Department as required in section 722.6.

732 Exchange or Exhibition of Full Powers

Each representative who is to sign a treaty is furnished a full power signed by the Head of State, Head of Government, or Minister for Foreign Affairs. More than one representative may be named in a single full power. Formal full powers may be (but customarily are not) issued also for the signing of certain executive agreements. When issued, the full power is formal evidence of the authority of the representative to sign on behalf of his government. It names the representative and shows his title and a clear indication of the particular agreement which he is entitled to sign. If the agreement itself requires the exchange of full powers, they are exchanged. If not, they may be either exchanged or exhibited by the representatives on the occasion of signing the agreement, as may be preferred by the foreign representative. If exchanged, the original full power of the foreign representative is forwarded to the Department with the United States original of the signed agreement. If the representatives retain the original of their respective full powers, the foreign representative is requested to furnish a xerox, other offset copy or a certified copy of his full power.

733 Signature and Sealing

When the engrossing of a treaty or other international agreement which is to be signed as a single instrument has been completed, mutually convenient arrangements for its signature are made by the host government. In the case of treaties, the signatures of the representatives may be accompanied by their respective seals, ribbons being fastened in the seals and binding the document. The same procedure may be followed for other agreements signed as single instruments. It is not essential that seals be affixed unless the agreement specifically so requires. The representative's personal seal, if available, is used when seals accompany the signatures, except that if the other government concerned prefers official seals, the seal of the mission may be used.

(*NOTE:* A personal seal may consist of a signet ring with initial(s) or family crest, written initials, etc.)

734 *Exchange of Ratifications.* 734.1 *Time and Place for Exchange.* It is customary for a treaty to contain a simple provision to the effect that the instruments of ratification shall be exchanged at a designated capital, and that the treaty shall enter into force on the date of such exchange or at the expiration of a specified number of days or months following the date of exchange. As all treaties signed on the part of the United States are subject to ratification by and with the advice and consent of the Senate, and as the time required for action on any particular treaty cannot be foreseen, it is preferable that provision is made in the treaty that the instruments of ratification are to be exchanged "as soon as possible" rather than within a specified period.

734.2 *Effecting and Exchange.* In exchanging instruments of ratification the representative of the United States hands to the representative of the foreign government a duplicate original of the President's instrument of ratification. In return, the representative of the foreign government hands to the representative of the United States the instrument of ratification executed by the head or the chief executive of the foreign government. A protocol, sometimes called *proces-verbal* or "Protocol of Exchange of Ratifications" attesting the exchange is signed by the two representatives when the exchange is made. No full power is required for this purpose. The protocol of exchange is signed in duplicat originals, one for each government, and the principle of the alternate is observed as in the treaty. Before making the exchange and signing the protocol of exchange, the diplomatic representative of the United States satisfies himself that the ratification of the foreign government is an unqualified ratification, or subject only to such reservations or understandings as have been agreed to by the two governments.

734.3 *Notification of Date of Exchange.* In all cases, but particularly in those in which the treaty enters into force on the day of the exchange, it is essential that the mission notify the Department by telegram when arrangements have been completed for the exchange, and also when the exchange actually takes place. By the first pouch after the exchange takes place, if possible, the mission forwards to the Department the instrument of ratification of the foreign government and the United States Government's original of the signed protocol of exchange. The Department then will take such steps as may be necessary to have the proclamation of the treaty executed by the President.

740 Multilateral Treaties and Agreements

740.1 *General.* The procedures for the making of multilateral agreements are in many respects the same as those for the making of bilateral agreements, e.g., the general requirements in regard to full powers, ratification, proclamation and publication. This subchapter covers those procedures which are at variance with bilateral procedures.

740.2 *Negotiation.* 740.2–1 *Function of International Conference.* The international conference is the device usually employed for the negotiation of multilateral agreements. The greater the number of countries involved, the greater the necessity for such a conference. If only three or four countries are involved, it may be convenient to carry on the preliminary negotiations through correspondence and have a joint meeting of plenipotentiaries to complete the negotiations and to sign the document.

740.2–2 *Invitation.* Traditionally, the international conference was convened by one government extending to other interested governments an invitation (acceptance usually assured beforehand) to participate, the host government bearing most, if not all, of the expense incident to the physical aspects of the conference. This is still often the practice, but increasing numbers of conferences have been convened under the auspices, and at the call, of international organizations.

740.2–3 *Statement of Purpose.* When a call is made or invitations are extended for a conference for the formulation of a multilateral agreement, it is customary for a precise statement of purpose to accompany the call or the invitations. Sometimes, the invitation is also accompanied by a draft agreement to be used as a basis for negotiations. If the conference is called under the auspices of an international organization, the precise statement of purpose or the draft agreement may be prepared in preliminary sessions of the organization or by the secretariat of the organization.

740.2–4 *Instructions to Negotiators.* The U.S. delegation to a conference may be comprised of one or more representatives. As a rule, the U.S. delegation is furnished written instructions by the Department prior to the conference in the form of a position paper for the U.S. delegation cleared with the Secretary or an officer specifically authorized by him and with other appropriate Department officers, under the procedures described in section 722.3. The Office of the Legal Adviser in all instances reviews drafts of international conventions to be considered in meetings of an international orgaization of which the United States is a member; when necessary, it also provides legal assistance at international conferences and meetings.

740.2–5 *Final Acts of Conference.* The "Final Act" of a conference must not contain international commitments. A Final Act must be limited to such matters as a statement or summary of the proceedings of the conference, the names of the states that participated, the organization of the conference and the committees established, resolutions adopted, the drafts of international agreements formulated for consideration by governments concerned, and the like. If an international agreement is to be opened for signature at the close of the conference, a text thereof may be annexed to the Final Act but must not be incorporated in the body thereof; the text to be signed must be prepared and bound separately for that purpose. Where a Final Act appears to embody international commitments, the United States representative reports the same to the Department and awaits specific instructions before taking any further action.

741 *Official and Working Languages.* a. *General.* The working languages of the conference and the official languages of the conference documents are determined by the conference. A conference does not necessarily adopt all of the same languages for both purposes. It is customary and preferable for all the official languages in which the final document is prepared for signature to be designated as having equal authenticity. It is possible, however, for the conference to determine, because of special circumstances, that in the event of dispute one of the languages is to prevail and to include in the text of the agreement a provision to that effect. Before a United States delegation concurs in any such proposal, it must request instructions from the Department.

b. *English-Language Text.* Negotiators will use every practicable effect to assure that an English-language text is part of the authentic text of any multilateral treaty negotiated for the United States. Where any question exists on this subject the negotiators should seek further instructions.

742 Engrossing

742.1 *Language or Languages Used in Texts.* The multilateral agreement drawn up at an international conference is engrossed for signature in the official language or languages adopted by the conference. (See section 741.) The engrossing ordinarily will be done by the conference secretariat.

742.2 *The Principle of the Alternat.* The principle of the alternat (see section 730.5) does not apply in the case of a multilateral agreement, except in the remote case when an agreement between three or four governments is prepared for signature in the language of all the signatories and each of those governments is to receive a signed original of the agreement. Customarily, a multilateral agreement is prepared for signature in a single original, comprising all the official languages. That original is placed in the custody of a depositary (either a government or an international organization) which furnishes certified copies to all governments concerned.

742.2–1 *Arrangement of Texts.* The arrangement of multilateral agreement texts varies, depending largely on the number of languages used. As in the case of bilateral agreements, however, the basic alternatives in the case of multilateral agreements are parallel-columns, facing-pages, or "tandem," as follows:

a. *Parallel Columns.* If an agreement is to be signed in only two languages, the preferred method of arrangement of the texts is in parallel, vertical columns. This

V 38 - 157 AUG 15 73 XUM

method may be used also if only three languages are used, but the three columns are necessarily so narrow that the method has been rarely used in such cases. When there are four official languages, however, it is possible to use the parallel-column method by placing two of the language texts on a left-hand page and the other two language texts on the facing right-hand page; this method has been used often and to good advantage in various inter-American agreements with English, Spanish, French, and Portugese. If any of the languages is oriental, the parallel-column method may be inexpedient and one of the other methods may be necessary.

b. *Facing Pages.* If an agreement is to be signed in only two languages, and circumstances make it necessary or desirable, the facing-page method may be used for engrossing the texts for signature, so that one of the language texts will be on a left-hand page and the other will be on the facing right-hand page. When this method is used, it is desirable that at least the concluding part (usually beginning "In Faith Whereof," "In Witness Whereof," "Done," etc.) be engrossed in parallel columns on the page at the end of the texts in both languages so that only one set of signatures is required. If parallel columns are not feasible, the concluding paragraphs can be placed tandem-fashion (one language text after another) on the page at the end of the texts in both languages.

c. *Tandem.* If neither the parallel-column nor the facing-page arrangement is feasible for an agreement to be signed in two languages, and especially if signed in three or more languages, the texts may be arranged in tandem-style, i.e., one complete text following the other. This allows readily for any number of official texts; the tandem-style precedent of the Charter of the United Nations is followed for the preparation of agreements formulated under the auspices of the United Nations. It is desirable, whenever practicable, that the concluding part of each text be placed with the concluding part of each of the other texts in parallel columns on the page on which the first of the signatures appears, although the tandem arrangement described at the end of section 742.2–1b can be used.

742.2–2 *Arrangement of Names and Signatures.* The arrangement of names and signatures, although it may seem a minor matter, sometimes presents difficulties in the case of multilateral agreements. There may be variations of arrangements, depending on particular factors, but the arrangement most generally used is alphabetical according to the names of the countries concerned. An alphabetical listing, however, presents the further question, even when there are only two languages, of what language is to be used in determining the arrangement. It is a common practice to use the language of the host government or for an agreement formulated under the auspices of an international organization, to follow the precedents established by that organization. It is possible, in the event that agreement could not be reached regarding the arrangement of names of countries and signatures of plenipotentiaries, to have a drawing of lots, a device seldom used. In any event, the question is one to be determined by the conference.

742.3 *Conformity of Texts.* It is the primary responsibility of the delegations, acting in conference, to determine the conformity of the agreement texts which are to be signed. However, the conference secretariat has a responsibility for checking the texts carefully to ensure that, when put in final form for signature, the texts are in essential conformity.

743 Full Powers

In the case of a multilateral agreement drawn up at an international conference, this Government customarily (almost invariably, in the case of a treaty) issues to one or more of its representatives at the conference an instrument of full power authorizing signature of the agreement on behalf of the United States. In some instances, issuance of the full power is deferred until it is relatively certain that the agreement formulated is to be signed for the United States (see section 732). Ordinarily, that full power is presented by the representatives to the secretary general of the conference upon arrival of the delegation at the conference site. It may be submitted in advance of arrival, but usually that is not necessary. When the conference has formally convened, it usually appoints a credentials committee, to which all full powers and other evidence of authorization are submitted for examination. The full powers and related documents are retained by the credentials committee or the secretary general until the close of the conference. At the close of the conference, the full powers, related documents, and the signed original of the agreement are turned over to the government or the international organization designated in the agreement as the depositary authority, to be placed in its archives.

744 Signature and Sealing (See Also Section 733)

744.1 *Signature.* Most multilateral agreements are signed. Some, however, are adopted by a conference or organization after which governments become parties by adherence, accession, acceptance or some other method not requiring signature (e.g., conventions drawn up and adopted at sessions of the International Labor Organization). Procedures for the deposit of an instrument of adherence, accession, or acceptance are similar to procedures for the deposit of instruments of ratification. In some cases, accession or approval can be accomplished by formal notice through diplomatic channels.

744.2 *Seals.* Multilateral treaties do not usually provide for the use of seals along with the signatures of representatives. The large number of signatures would make the use of seals difficult and cumbersome.

745 Disposition of Final Documents of Conference

At the close of a conference, the remaining supply of working documents (e.g., records of committee meetings, verbatim minutes, etc.) usually is placed in the custody of the host government or the organization which called the conference for appropriate disposition. It is not proper for definitive commitments constituting part of the agreement to be embodied in such working documents. Definitive commitments must be incorporated only in a final document to be signed or adopted as an international agreement. The final documents of the conference may include a Final Act (see section 740.2–5) and, separately the text(s) of agreement(s). The practice of signing a Final Act is still followed in many cases. In any event, any agreement formulated at the conference must be engrossed as a separate document and signed or adopted. The signed or adopted originals of the final documents of the conference are turned over to the government or international organization designated in such documents as depositary. If the conference is not held under the auspices of an organization, it is customary for the host government to be designated depositary, but it might be appropriate, even in such case, to name an organization, such as the United Nations, as depositary. The decision is made by the conference, with the concurrence of the government or international organization concerned.

746 Procedure Following Signature

746.1 *Understandings or Reservations.* If it is necessary to inform other governments concerned, and perhaps obtain their consent, with respect to an understanding or reservation imposed by the Senate in its advice and consent, this Government communicates with the depositary, which then carries on the necessary correspondence with the other governments concerned.

746.2 *Deposit of Ratification.* When the depositary for a multilateral agreement is a foreign government or an international organization, the United States instrument of ratification (or adherence, accession, acceptance, etc.) is sent by the Department to the appropriate Foreign Service mission or to the United States representative to the organization if there is a permanent representative. The mission or the representative deposits it with the depositary authority in accordance with the terms of the accompanying instruction from the Department concerning the time of deposit. When this Government is depositary for a multilateral agreement, posts are not authorized to accept instruments of ratification of foreign goverments, i.e., the foreign government cannot deposit its instrument with the post. If a post is requested to transmit an instrument of ratification to the Department, it must make clear to the foreign government that the post is acting only as a transmitting agent and that the ratification cannot be considered as accepted for deposit until received and examined by the Department.

746.3 *Registration* (*See also section 750.2–3*). It is generally recognized that the depositary for a multilateral agreement has a primary responsibility for such registration. Normally, the depositary has custody not only of the original document of agreement but also of instruments of ratification and other formal documents. Consequently, the depositary is the most authoritative source of information and documentation.

750 Procedural Responsibilities

Carrying out and providing advice and assistance respecting the provisions of this chapter are the responsibility of the Assistant Legal Adviser for Treaty Affairs, who:

a. Makes all arrangements and supervises ceremonies at Washington for the signature of treaties or other international agreements; and prepares or arranges for the preparation of texts of treaties and other agreements to be signed in Washington;

b. Prepares or arranges for preparation of the Secretary of State's reports to the President, and the President's messages to the Senate for transmission of treaties for advice and consent to ratification;

c. Prepares instruments of ratification or adherence, instruments or notifications of acceptance or approval, termination notices, and proclamations with respect to treaties or other international agreements;

d. Makes arrangements for the exchange or deposit of instruments of ratification, the deposit of instruments of adherence, the receipt or deposit of instruments or notifications of acceptance or approval, and termination notices, with respect to treaties or other international agreements;

e. Prepares instructions to posts abroad and notes to foreign diplomatic missions at Washington respecting matters in d;

f. Takes all measures required for the transmission to the Congress of all international agreements other than treaties, as required by the Case Act (see Section 724), and the publication and registration of treaties and other international agreements to which the United States is a party (see sections 725 and 750.2–3).

g. Reviews all drafts of international agreements, proposals by other Governments or international organizations, instructions and position papers, all Circular 175 requests and accompanying Memorandums of Law.

750.1 *Engrossing Documents for Signature.* After the text of a treaty or other agreement is approved in writing in accordance with section 722.7, the document is engrossed for signature in the Department.

Adequate time (normally 7 business days) is allowed for the engrossing (typing on treaty paper), comparing, etc., of the treaty or other agreement to be signed, in order to assure sufficient time for the preparation of accurate texts in duplicate for signature, including, in the case of documents to be signed in a foreign language, sufficient time for the Language Services Division to prepare any translations required, check any existing foreign-language draft, and check the engrossed foreign-language text. The determination of the amount of time required in each instance to complete the engrossing is the responsibility of the Assistant Legal Adviser for Treaty Affairs.

750.2 *Publication and Registration.*

750.2–1 *Publication of Texts.* After the necessary action has been taken to bring into force the treaty or other international agreement concluded by the United States, it is published promptly in the Treaties and Other International Act Series issued by the Department. After publication in that series, the text of the treaty or other agreement is printed in the annual volume (which may consist of two or more bindings) of *United States Treaties and Other International Agreements* as required by law (see section 725). Treaties and other agreements concluded prior to January 1, 1950, were published in the United States Statutes at Large.

750.2–2 *Responsibility for Other Treaty Publications.* The Office of the Assistant Legal Adviser for Treaty Affairs prepares and maintains the annual publication *Treaties in Force*, an authoritative guide to the text and status of treaties and other international agreements currently in force for the United States. It also compiles and has published, in addition to the publication referred to in section 750.2–1, other volumes containing texts of treaties and other agreements as required or authorized by law. The "Treaty Information" part of the Department of State BULLETIN is compiled by that office.

750.2–3 *Registration.*

Article 102 of the United Nations Charter requires that every treaty and every international agreement entered into by a member of the United Nations be registered, as soon as possible, with the Secretariat and published by it. Article 83 of the Chicago Aviation Convention of 1944 requires registration of aviation agreements with the Council of the International Civil Aviation Organization.

750.3 *United States as Depositary.* a. Inquiries from foreign diplomatic missions at Washington and from American diplomatic missions abroad with respect to the preparation or deposit of instruments relating to any multilateral agreement of which the United States is depositary are referred to the Assistant Legal Adviser for Treaty Affairs. That officer is to be notified immediately of the receipt of any such document anywhere in the Department, inasmuch as a depositary is required to ascertain whether those documents are properly executed before accepting them for deposit, to keep accurate records regarding them, and to inform other governments concerned of the order and date of receipt of such documents.

b. Before any arrangements are proposed or agreed to for the United States to serve as depositary for any international agreement the views of the Assistant Legal Adviser for Treaty Affairs will be obtained.

750.4 *Records and Correspondence Custody.* a. The Assistant Legal Adviser for Treaty Affairs compiles and maintains authoritative records regarding the negotiation, signature, transmission to the Senate, and ratification or approval, as well as the existence, status, and application, of all international agreements to which the United States is or may become a party and, so far as information is available, of agreements between other countries to which the United States is not a party. Inquiries on these subjects are addressed to, and outgoing communications cleared with, the Office of the Legal Adviser.

b. To ensure that the records regarding the matters described in this section are complete and up to date, it is important that all relevant papers be referred to the Office of the Legal Adviser.

c. The Assistant Legal Adviser for Treaty Affairs is responsible for the custody of originals of bilateral agreements and certified copies of multilateral agreements pending entry into force and completion of manuscripts for publication. Following publication, such originals and certified copies are transferred to the National Archives. The Assistant Legal Adviser for Treaty Affairs retains custody of signed originals of multilateral agreements for which the United States is depositary, together with relevant instruments of ratification, adherence, acceptance, or approval, as long as those agreements remain active.

[SEAL] CHARLES N. BROWER,
Acting Legal Adviser
Department of State.

ATOMIC ENERGY COMMISSION

[Docket Nos. 50–445 and 50–446]

TEXAS UTILITIES GENERATING CO. ET AL.

Notice of Receipt of Application for Construction Permits and Facility Licenses; Availability of Applicants' Environmental Report, etc.

The Texas Utilities Generating Company, Dallas Power and Light Company, Texas Electric Service Company, and Texas Power and Light Company (the applicants), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, filed an application, which was docketed July 20, 1973, for authorization to construct and operate two generating units utilizing pressurized water reactors. The application was tendered on June 5, 1973. Following a preliminary review for completeness, it was accepted on July 18, 1973, for docketing.

The proposed nuclear facilities, designated by the applicants as the Comanche Peak Steam Electric Station, Units 1 and 2, are located on the applicants' site in Somervell County, Texas, approximately 4½ miles north of Glen Rose, Texas, and approximately 40 miles southwest of Fort Worth in North Central Texas. Each reactor is designated for initial operation at approximately 3411

V 38-157 AUG 15 73 XUM

megawatts (thermal), with a net electrical output of approximately 1159 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before September 30, 1973. The request should be filed in connection with Docket Nos. 50–445–A and 50–446–A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545, and at the Somervell County Public Library, On the Square, P.O. Box 417, Glen Rose, Texas 76043.

The applicants have also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, an environmental report dated June 5, 1973. The report has been made available for public inspection at the aforementioned locations. The report, which discusses environmental considerations related to the proposed construction of the Comanche Peak Steam Electric Station, Units 1 and 2 is also being made available at the North Central Texas Council of Governments, P.O. Box 5888, Arlington, Texas 76011.

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, requesting comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials thereon will be made available when received.

Dated at Bethesda, Maryland, this 24th day of July, 1973.

For the Atomic Energy Commission.

D. B. VASSALLO,
Chief, Pressurized Water Reactors, Branch No. 1, Directorate of Licensing.

Advisory Committee on Reactor Safeguards Working Group on Peaking Factors

Notice of Meeting

AUGUST 13, 1973.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 USC 2039, 2232 b.), the Advisory Committee on Reactor Safeguards Working Group on Peaking Factors will hold a meeting on August 29, 1973, in Room 1046, at 1717 H Street, NW, Washington, D.C. The purpose of this meeting will be to discuss calculational techniques and plant operating conditions related to peaking factors, with reference to nuclear reactors designed by the General Electric Company.

The following constitutes that portion of the Working Group's agenda for the above meeting which will be open to the public:

WEDNESDAY, AUGUST 29, 1973,
9:000 A.M.–4:00 P.M.

Discussion with the AEC Regulatory Staff and the General Electric Company.

In connection with the above agenda item, the Working Group will hold an executive session at 8:30 a.m., which will involve discussion of its preliminary views, and an executive session at approximately 4:30 p.m. to exchange opinions and formulate recommendations to the ACRS. In addition, prior to the executive session at the end of the day, the Working Group may hold a closed session with the Regulatory Staff and General Electric to discuss privileged information relating to nuclear fuel design, calculational techniques and plant operating conditions related to peaking factors, if necessary.

I have determined, in accordance with subsection 10(d) of Public Law 92–463, that the executive sessions at the beginning and end of the meeting will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b); and that a closed session may be held, if necessary, to discuss certain documents which are privileged, and fall within exemption (4) of 5 U.S.C. 552(b). It is essential to close such portions of the meeting to protect such privileged information and protect the free interchange of internal views and to avoid undue interference with Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Working Group is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than August 22, 1973, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon GE topical reports and various other related documents on file and available for public inspection at the Atomic Energy Commission's Public Documents Room, 1717 H Street, NW, Washington, D.C. 20545.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Working Group. To the extent that the time available for the meeting permits, the Working Group will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Working Group, between the hours of 1 p.m. and 3 p.m. on the day of the meeting.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Working Group, who is empowered to apportion the time available among those selected by him to to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled, and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on August 27, 1973, to the Office of the Executive Secretary of the Committee (telephone: 301–973–5651) between 8:30 a.m. and 5:15 p.m., Eastern Daylight Time.

(e) Questions may be propounded only by members of the Working Group and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20545. On request, copies of the minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20545 on or after October 29, 1973. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Advisory Committee Management Officer.

[FR Doc.73–17118 Filed 8–14–73;10:49 am]

[Docket Nos. 50–352 and 50–353]

PHILADELPHIA ELECTRIC CO.

Notice of Availability of Draft Environmental Statement for the Limerick Generating Station, Units 1 and 2

Pursuant to the National Environmental Policy Act of 1969 and the United States Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that a Draft Environmental Statement prepared by the Commission's Directorate of Licensing, related to the proposed Limerick Generating Station, Units 1 and 2, to be constructed by the Philadelphia Electric Company in Montgomery County, Pennsylvania, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. and in the Pottstown Public Library, 500 High Street, Pottstown, Pennsylvania 19464. The Draft Environmental Statement is also being made available at the Office of Radiological Health, Department of Environmental Resources, P.O. Box 2063, Harrisburg, Pennsylvania 17105 and at the Delaware Valley Regional Planning Commission, 1317 Filbert Street, Philadelphia, Pennsylvania 19107.

Copies of the Commission's Draft Environmental Statement may be obtained by request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

The Draft Environmental Statement incorporates recent information related to the consequences of the consumptive use of Delaware River water for plant operation and includes consideration of comments received on the December 1972 Draft Environmental Statement. The notice of availability for the Limerick Generating Station, Units 1 and 2, Draft Environmental Statement, dated December 1972, was published in the FEDERAL REGISTER on December 7, 1972 (37 FR 26053).

Pursuant to Appendix D, 10 CFR Part 50, interested persons may, on or before September 14, 1973, submit comments on the Draft Environmental Statement for the Commission's consideration. Federal and State agencies are being provided with copies of the Draft Environmental Statement (local agencies may obtain this document upon request). When comments thereon by Federal, State and local officials are received by the Commission, such comments will be made available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. and at the Pottstown Public Library, 500 High Street, Pottstown, Pennsylvania 19464.

Comments on the AEC's Draft Environmental Statement from interested members of the public should be addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Maryland, this 10th day of August 1973.

For the Atomic Energy Commission.

GEORGE W. KNIGHTON,
Chief Environmental Projects Branhc 1 Direciorate of Licensing.

COMMISSION ON CIVIL RIGHTS

ARIZONA

Notice of Hearing

Notice is hereby given, pursuant to the provisions of the Civil Rights Act of 1957, 71 Stat. 634, as amended, that a public hearing of the U.S. Commission on Civil Rights will commence on September 17, 1973, and that an executive session, if appropriate, will be convened on September 16, 1973, to be held at the Navajo Civic Center, Window Rock, Arizona.

The purpose of the hearing is to collect information concerning legal developments constituting a denial of equal protection of the laws under the Constitution because of race, color, religion, sex or national origin which affect educational opportunities, or the provision of medical and welfare services, or employment opportunities, or economic development for the Navajo Indians who reside on or near the Navajo Reservation in Arizona, New Mexico, or Utah; to appraise the laws and policies of the Federal Government with respect to denials of equal protection of the laws under the Constitution because of race, color, religion, sex or national origin as they affect the educational opportunities, or the provision of medical and welfare services, or employment opportunities, or economic development for Navajo Indians, in the above areas, and to disseminate information with respect to denials of equal protection of the laws because of race, color, religion, sex or national origin in the fields of education, medical and welfare sevices, employment, economic development, and related matters.

Dated at Washington, D.C., August 10, 1973.

STEPHEN HORN,
Acting Chairman.

CIVIL SERVICE COMMISSION

MEDICAL TECHNOLOGIST, WOOD, WISCONSIN

Establishment of Minimum Rates and Rate Ranges

Under authority of 5 U.S.C. 5303 and Executive Order 11721, the Civil Service Commission has increased special minimum salary rates and rate ranges as follows:

GS-644 MEDICAL TECHNOLOGIST SERIES

Geographic Coverage: Wood, Wisconsin.

Effective Date: First day of the first pay period beginning on or after August 19, 1973.

PER ANNUM RATES

Grade	1	2	3	4	5	6	7	8	9	10
GS-5	$8,979	$9,236	$9,493	$9,750	$10,007	$10,264	$10,521	$10,778	$11,035	$11,292

All new employees in the specified occupational level will be hired at the minimum rates.

As of the effective date, all agencies will process a pay adjustment to increase the pay of employees on the roles in the affected occupational level. An employee who immediately prior to the effective date was receiving basic compensation at one of the prior special rates shall receive basic compensation at the corresponding numbered rate authorized by this notice on or after each date. The pay adjustment will not be considered an equivalent increase within the meaning of 5 U.S.C. 5335.

Under the provisions of section 3-2b, Chapter 571, FPM. agencies may pay the travel and transportation expenses to first post of duty under 5 U.S.C. 5723, of new appointees to positions cited.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

(This special rate schedule for computer purposes is designated as Table No. 314)

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 10, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before August 31, 1973.

FSA No. 42731—*Grain, Grain Products and Related Articles from, to and Between Points in Illinois Freight Association, Southwestern and WTL Territories.* Filed by Western Trunk Line Committee, Agent, (No. A-2687), for interested rail carriers. Rates on beet pulp, dried, corn cobs, ground, mill feed and oat hulls, in carloads, as described in the application, from, to and between points in Illinois Freight Association, southwestern and western trunkline territories.

Grounds for relief—Revision in carload minimum weights.

Tariff—Supplement 35 to Western Trunk Line Committee, Agent, tariff 120-L, I.C.C. No. A-4868, and other schedules named in the application. Rates are published to become effective on September 15, 1973.

FSA No. 42732—*Chlorine to Brunswick, Georgia.* Filed by M. B. Hart, Jr., Agent, (No. A6333), for interested rail carriers. Rates on chlorine, in tank-car loads, as described in the application, from McIntosh, Alabama and Charleston, Tennessee, to Brunswick, Georgia.

Grounds for relief—Market competition and rate relationship.

Tariffs—Supplements 135 and 408 to Southern Freight Association, Agent, tariffs 820-E and 821-D, I.C.C. Nos. S-938 and S-484, respectively. Rates are published to become effective on September 20, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

KRUSE TRUCKING CO.

Notice of Filing of Petition

No. MC 72094 and No. MC 72094 (Sub-No. 3) (Notice of filing of petition for modification, clarification, and amendment of certificate), filed July 25, 1973. Petitioner: KRUSE TRUCKING CO. Hillside, N.J. 07205 Petitioner's representative: George A. Olsen 60 Tonnele Avenue Jersey City, N.J. 07306 Petitioner holds irregular-route, motor *common carrier* authority to transport (1) in No. MC 72094: *General commodities* (except those of unusual value, and except household goods as defined in *Practices of Motor Common Carrier of Household Goods*, 17 M.C.C. 467, dangerous explosives, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in Morris, Union, and Essex Counties, N.J., on the one hand, and, on the other, points in New York, N.Y.; and (2) in No. MC 72094 (Sub-No. 3): General commodities (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between New York, N.Y., on the one hand, and, on the other, points in Middlesex, Monmouth, and Somerset Counties, N.J. By the instant petition, petitioner requests (a) that an order be entered to amend said certificates by replacing the words "New York, N.Y." with the words "New York, N.Y., commercial zone, as described by the Commission in the report in *New York, N.Y., Commercial Zone*, 1 M.C.C. 665," or (b) that the Commission issue an appropriate order that the petitioner be empowered and permitted to designate as its terminal area, all points within which local operations may be conducted in the New York, N.Y., commercial zone as defined by the Commission.

No oral hearing is contemplated at this time, but anyone wishing to make representations in favor, or against, the relief sought in the petition may do so by the submission of written data, views, or arguments. An original and fifteen copies of such data, views, or arguments shall be filed with the Commission on or before October 8, 1973. A copy of each representation should be served upon petitioner's representative. Written material or suggestions submitted will be available for public inspection at the Offices of the Interstate Commerce Commission, 12th and Constitution, Washington, D.C., during regular business hours. Notice to the general public of the matter herein under consideration will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection and by filing a copy thereof with the Director, Office of the Federal Register.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. 63]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

AUGUST 10, 1973.

The following publications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by the new Special Rule 1100.247 of the Commission's Rules of Practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 868 (Sub-No. 8) (REPUBLICATION) filed July 28, 1970, published in the FR issue of October 8, 1970, and amended in republication on January 21, 1971, and in third publication this issue. Applicant: SIGNAL TRUCKING SERVICE, LTD. 3770 East 26th Street Vernon, CA 90023 Applicant's representative: Ernest D. Salm 3846 Evans Street Los Angeles, CA 90027 A Decision and Order of the Commission, Review Board Number 2, dated July 25, 1973, and served August 2, 1973, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, of (A) (1) *iron and steel articles*, (2) *non-ferrous metals*, and *non-ferrous metal products* (except household appliances and housewares), (3) *clay and clay products*, (4) *heavy machinery and heavy machinery parts*, (5) (a) *machinery, equipment, materials*, and *supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission and distribution of natural gas, petroleum, their products and byproducts, water, and sewage, and (b) *machinery, materials, equipment*, and *supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines used in the transmission of natural gas, petroleum, their products and byproducts, water, and sewage, (6) *contractors', mining, and military equipment, materials* and *supplies*, (7) *power or communications distribution and metal processing equipment, materials* and *supplies*, (8) *commodities* the transportation of which requires by reason of their size or weight the use of special equipment, (9) *electrical cables*, (10) *scrap metals*, and (11) *firefighting equipment, materials* and *supplies*, between points in California; and (B) *general commodities* (except household goods as defined by the Commission, commodities in bulk, classes A and B explosives, commodities requiring special equipment, and commodities of unusual value, and except motor vehicles and commodities in vehicles equipped with mechanical refrigeration), (1) between points in San Francisco, Alameda, San Mateo, and Contra Costa Counties, Calif., and (2) between points in Santa Clara County, Calif., San Mateo, Calif., points in San Mateo County located south of San Mateo on U.S. Highways 101 and 101 By-pass, Hayward, Calif., and points in Alameda County, Calif., located south of Hayward on California State Highways 9 and 17; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 87720 (Sub-No. 133) (REPUBLICATION) filed September 20, 1972, published in the FR issue of October 5, 1972, and republished this issue. Applicant: BASS TRANSPORTATION CO., INC. P.O. Box 391 Flemington, N.J. 08822 Applicant's representative: Bert Collins Suite 5193 5 World Trade Center New York, N.Y. 10048 An Order of the Commission, Review Board Number 2, dated June 15, 1973, and served June 25, 1973, finds that operation by applicant, in interstate or foreign commerce, as a *contract carrier* by motor vehicle, over irregular routes, (1) of *chemicals*, and *plastic materials and*

V 38-157 AUG 15 73 XUM

products from Fords, Garfield, Elizabeth, East Rutherford, Rockaway, Carlstadt, Belleville, Paterson, Moonachie, Piscataway and Linden, N.J., and New York, N.Y., to points in Indiana, Michigan, Ohio, Illinois, Missouri, Minnesota, Wisconsin, Kentucky, Iowa, and Kansas; and (2) of *materials, supplies and equipment*, utilized in the manufacture, sale and distribution of the commodities described in (1) above, from points in the named destination States to the above-described origins restricted in (1) and (2) above against the transportation of commodities in bulk, under a continuing contract, or contracts, with Tenneco, Inc., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

MC 130533 (NOTICE OF FILING OF PETITION TO ADD AN ADDITIONAL CONTRACTING SHIPPER) filed May 13, 1973. Petitioner: SILVEY & COMPANY a Corporation Highway 275 and Gifford Council Bluffs, Iowa 51501 Petitioner's representative: Donald L. Stern 530 Univac Building 7100 West Center Road Omaha, Nebr. 68106 Petitioner presently hold a motor *contract carrier* permit in No. MC 135033 issued November 19, 1971, authorizing transportation by motor vehicle, over irregular routes, of *such commodities* as are dealt in by retail department stores (except foodstuffs), from points in Alabama, Connecticut, Kentucky, (except Louisville and points in its commercial zone), Maryland, Massachusetts, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia and Ohio (except Cincinnati, Cleveland, Columbus and Toledo and points in their respective commercial zones), to Omaha, Nebr., under a continuing contract or contracts with J. L. Brandeis & Sons, Inc. By the instant petition, petitioner seeks to add Morris Industries, Inc. as an additional contracting shipper to the authority described above. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the Federal Register.

No. MC 130533 (NOTICE OF FILING OF PETITION TO ADD AN ADDITIONAL CONTRACTING SHIPPER) filed May 16, 1973 Petitioner: SILVEY & COMPANY a Corporation Highway 275 and Gifford Road Council Bluffs, Iowa 51501 Petitioner's representative: Donald L. Stern 530 Univac Building 7100 West Center Road Omaha, Nebr. 68106 Petitioner presently holds a motor *contract carrier* permit in No. MC 135033 issued November 19, 1971, authorizing transportation by motor vehicle, over irregular routes, of *such commodities* as are dealt in by retail department stores (except foodstuffs), from points in Alabama, Connecticut, Kentucky, (except Louisville and points in its commercial zone), Maryland, Massachusetts, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia and Ohio (except Cincinnati, Cleveland, Columbus and Toledo and points in their respective commercial zones), to Omaha, Nebr., under a continuing contract or contracts with J. L. Brandeis & Sons, Inc. By the instant petition, petitioner seeks to add Westside Supply, Inc. as an additional contracting shipper to the authority described above. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the Federal Register.

No. MC 134270 (NOTICE OF FILING OF PETITION TO MODIFY A RESTRICTION) filed July 18, 1973. Petitioner: M.H.C. MESSENGERS, a Corporation 31 Virginia Avenue Carteret, N.J. 02008 Petitioner's representative: Robert B. Pepper 168 Woodbridge Avenue Highland Park, N.J. 08904 Petitioner presently holds a motor *common carrier* certificate in No. MC 134270, issued May 19, 1972, authorizing transportation, by motor vehicle, over irregular routes, transporting: (1) *Radioactive material (medotopes)*, from New Brunswick, N.J., to points in the boroughs of Queens, Manhattan, Brooklyn, Bronx and Staten Island, N.Y., RESTRICTION: The operations authorized above, shall be limited in point of time to a period expiring 5 years after May 19, 1972; and (2) *vaccines, drugs, and medicines*, from Secaucus, New Brunswick, Bound Brook, Teterboro, and South Hackensack, N.J., to points in the boroughs of Queens, Manhattan, Brooklyn, Bronx and Staten Island, N.Y., RESTRICTION: The operations authorized herein are restricted against the transportation of shipments weighing in the aggregate more than 50 pounds from one consignor to one consignee on any one day. By the instant petition, petitioner seeks to apply its present aggregate weight per shipment restriction of 50 pounds solely to (2) above, and add to the existing restriction in (1) above the following: "operations are further restricted against the transportation of shipments weighing in the aggregate more than 3,000 pounds from one consignor to one consignee on any one day. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the Federal Register.

No. MC 135821 (NOTICE OF FILING OF PETITION TO ADD A SHIPPER) filed March 7, 1973. Petitioner: MADELINE MILESTONE 4233 Leiper St. Philadelphia, Pa. 19124 Petitioner's representative: John W. Frame Box 626, 2207 Old Gettysburg Road Camp Hill, Pa. 17011 Petitioner presently holds a motor *contract carrier* permit in No. MC-135821 issued July 24, 1972, authorizing transportation in interstate or foreign commerce, over irregular routes, of such *merchandise* as is dealt in by wholesale or retail department stores, between points located in that part of New York on and south of a line beginning at the New York-Pennsylvania State line at or near Hale Eddy, N.Y., and extending southeastward along New York Highway 17 to junction Interstate Highway 84, and thence eastward along Interstate Highway 84 to the New York-Connecticut State line; and points in that part of Connecticut on and south of a line beginning at the New York-Connecticut State line, and extending eastward along Interstate Highway 84 to junction Connecticut Highway 34 at or near Sandy Hook, Conn., thence southeastward along Connecticut Highway 34 to New Haven, Conn., and points in that part of Pennsylvania on and east of a line beginning at the New York-Pennsylvania State line at junction U.S. Highway 15 at or near Lawrenceville, Pa., and extending southward along U.S. Highway 15 to junction U.S. Highway 11, at or near Sandbury, Pa., thence southward along combined U.S. Highways 11 and 15 to junction U.S. Highway 11 at or near Camp Hill, Pa., thence southwestward along U.S. Highway 11 to the Pennsylvania-Maryland State line, and points in that part of Maryland on and east of a line beginning at the Pennsylvania-Maryland State line, and extending southward along U.S. Highway 15 to junction U.S. Highway 240 at or near Frederick, Md., thence along U.S. Highway 240 to the District of Columbia-Maryland Boundary line, and points in Charles County, Md., and points in New Jersey, Delaware, and the District of Columbia, restricted to the transportation of traffic moving from or to the stores and facilities of Lionel Leisure, Inc., under a continuing contract, or contracts, with Lionel Leisure, Inc., of New York, N.Y. By the instant petition, petitioner seeks to add the additional contracting shipper, Ideal Shoe Company, of Philadelphia, Pa., to the above described authority; and to amend the transportation restriction appropriately. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the Federal Register.

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATION UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 17470 (Sub-No. 1) filed June 7, 1973 Applicant: NEW YORK MASSACHUSETTS MOTOR SERVICE, INC. 83 Progress Street Springfield, Mass. 01103 Applicant's representative: Francis E. Barrett, Jr. 10 Industrial Park Road Hingham, Mass. 02043 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between points in Massachusetts. Note: Applicant states that the requested authority can be tacked at Springfield, Mass. with its existing authority to and from the New York City area to serve points in Massachusetts.

Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. The instant application m is a matter directly related to the Section 5 purchase proceeding in MC–F–11007, published in the FR issue of June 30, 1973. If a hearing is deemed necessary, applicant requests it be held at Springfield or Boston, Mass.

No. MC 42405 (Sub-No. 32) filed July 24, 1973 Applicant: MISTLETOE EXPRESS SERVICE, doing business as MISTLETOE EXPRESS, a Corporation P.O. Box 25125 Oklahoma City, Okla. 73125 Applicant's representative: Max G. NOTE: The instant application is a matter directly related to MC–F–11944 published in the FR issue of August 1, 1973. If a hearing is deemed necessary, applicant requests it be held at Great Bend or Wichita, Kans.

No. MC 98327 (Sub-No. 7) filed July 13, 1973 Applicant: SYSTEM 99, a Corporation 8001 Capwell Drive Oakland, Calif. 94621 Applicant's representative: Bertram S. Silver 140 Montgomery Street San Francisco, Calif. 94104 Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, and commodities in bulk), between Klamath Falls, Oreg., and Redding, Calif., from Klamath Falls over U.S. Highway 97 to Weed, Calif., thence over U.S. Highway 99 to Redding, and return over the same route, serving no intermediate points, and serving points in Shasta County, Calif., as an off-route points. Note: The instant application is a matter directly related to MC–F–11940 published in the FR issue of August 1, 1973. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 123389 (Sub-No. 16) filed June 28, 1973 Applicant: CROUSE CARTAGE COMPANY, a Corporation P.O. Box 151 Carroll, Iowa 51401 Applicant's representative: William S. Rosen 630 Osborn Building St. Paul, Minn. 55102 Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: *General commodities*, (except commodities in bulk, household goods as defined by the Commission, Classes A and B explosives, commodities of unusual value): REGULAR ROUTES: (A) (1) Between Kansas City, Mo., and Grant City, Mo., serving the intermediate and off-route points of North Star, King City, Stanberry, Carmack Corners, Gentry, Worth, Allendale, Sheridan, Ford City, Albany and Denver; (a) From Kansas City over U.S. Highway 169 to Grant City, and return over the same route; (b) From Kansas City over U.S. Highway 169 to junction Missouri State Highway 31; thence over Missouri State Highway 31 to junction U.S. Highway 169; thence over U.S. Highway 169 to Grant City, and return over the same route; (2) Between St. Joseph, Mo. and Grant City, Mo., serving the intermediate and off-route points of Avenue City, Rochester, Union Star, King City, Carmack Corners, Gentry, Worth, Allendale, Sheridan, Ford City, Albany and Denver; From St. Joseph, Mo., over U.S. Highway 169 to Grant City, and return over the same. IRREGULAR ROUTES: (B) (1) between King City, Mo., and points in Missouri; (2) between Albany, Mo., and points in that part of Missouri on and north of U.S. Highway 50 and on and west of U.S. Highway 65; and (3) between Carmack Corners, Gentry, Worth, Denver, Grant City and Allendale, Mo., and points in Missouri. Note: Applicant states that it will tack this requested authority with the authority held in Certificate No. MC 69036, Sub-No. 8, at common points in northwestern Missouri, if the purchase proceeding in MC–F–11869 is granted. The instant Application is a matter directly related to the Section 5 purchase proceeding in MC–F–11869, published in the FR issue of July 11, 1973. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Kansas City, Mo.

No. MC–FC–74342. Authority sought by transferee, 160 W. Master St., Inc., 160 W. Master Street, Philadelphia, Pa. 19122, formerly Hilda Pflaumer, 1735 N. 10th St., Philadelphia, Pa. 19122, for purchase of the operating rights of transferor, Trip Transport, Inc., 3301 South Galloway Street, Philadelphia, Pa. 19148. Applicant's representative: James H. Sweeney, 850 Charles St., Gloucester City, N.J. 08030. Operating rights in Certificate No. MC–42087 sought to be transferred: various specified commodities, from, to, or between points in New Jersey, Maryland, Pennsylvania, Delaware, and New York.

The subject application under section 212(b) of the Interstate Commerce Act is to be assigned for hearing at a time and place to be fixed, for the purpose of determining, among other things, whether transferee is the real party in interest and if so, whether it is fit, willing, and able properly to perform operations under the rights sought to be acquired; and whether the application otherwise conforms with the Rules and Regulations Governing Transfers of Rights to Operate as a Motor Carrier in Interstate or Foreign Commerce (49 C.F.R. 1132). Interested parties have 30 days from the date of this publication in which to file petitions for leave to intervene. Such petitions should state the reason or reasons for the intervention, where the petitioner wishes the hearing to be held, the number of witnesses to be presented, and the estimated time required for the presentation of evidence. The Bureau of Enforcement has been directed to participate as a party in the proceeding for the purpose of presenting evidence and otherwise developing the record.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under

V 38 157 AUG 15 73 XUM

Sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 C.F.R. 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC-F-11772 (Sub-No. 4). Application under section 5(1) of the Interstate Commerce Act for approval of an agreement between common carriers for the pooling of traffic. Applicants: T.I.M.E.-DC, INC., P.O. Box 2550, Lubbock, TX 79408 (MC-35320), with five (5) Arkansas carriers, namely: BURNETT TRUCK LINE COMPANY, P.O. Box B, Wynne, AR 72396 (MC-81617); GARRISON MOTOR FREIGHT, INC., P.O. Box 969, Harrison, AR 72601 (MC-109324); C. O. HAY, doing business as HAY TRUCKING CO., (C. LEON HAY, EXECUTOR), 954 So. Barton St., Memphis, TN 38106 (MC-844); HOLT TRUCK LINE, INC., P.O. Box 364, Conway, AR 72032 (MC-67692); and POTEET TRUCK LINES, INC., 1415 W. Broadway, Morrilton, AR 72110 (MC-28892), seeks to enter into an agreement for the pooling of traffic consisting of general commodities moving to and from points in Becks, Bee Branch, Bellefonte, Berryville, Biscoe, Glack Fish Lake, Brinkley, Burlington, Busch, Carlisle, Clinton, Conway, Damascus, Dennard, De Valls Bluff, Eureka Springs, Forrest City, Gateway, Goodwin, Green Forest, Harrison, Hazen, Lehi, Leslie, Madison, Marshall, Mayflower, Menifee, Morrilton, Omaha, Palestine, Plumberville, Preston, St. Joe, Valley Springs, Western Grove, and Wheatley, Ark. Attorney: Walter N. Bieneman, Suite 1700—One Woodward Ave., Detroit, MI 48226. T.I.M.E.-DC, INC., is authorized to operate as a common carrier in Texas, Oklahoma, Arkansas, Tennessee, Missouri and Kansas.

No. MC-F-11948. Authority sought for merger by WILLS TRUCKING, INC., Suite 615, 5755 Granger Rd., Cleveland, OH 44131, of the operating rights and property of BULK CARRIERS OF OHIO, INC., also of Cleveland, OH 44131, and for acquisition by PAUL W. WILLS, 2535 Center St., Cleveland, OH 44113, of control of such rights and property through the transaction. Applicants' attorneys: Edward R. Kirk, and Paul F. Berry, both of Suite 1660, 88 E. Broad St., Columbus, OH 43215. Operating rights sought to be merged: *Ferro alloys*, in bulk, in dump vehicles, as a *common carrier* over irregular routes, from Ashtabula, Ohio, and the site of the plant of the Electro-Metallurgical Company (division of the Union Carbide and Carbon Corporation) near Marietta, Ohio, to points in Indiana, Illinois, Kentucky, Maryland, Michigan, Missouri, New York, Pennsylvania and West Virginia. WILLS TRUCKING, INC., is authorized to operate as a *common carrier* in Michigan, Ohio, Indiana, Illinois, Iowa, Kentucky, Missouri, New York, Pennsylvania, Wisconsin, West Virginia, Maryland, Delaware, New Jersey, Virginia and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

NOTE: Pursuant to order dated November 4, 1968 in No. MC-F-10237, transferee acquired control of transferor.

No. MC-F-11949. Authority sought for control and merger by BOSS-LINCO LINES, INC., One Genesee St., Buffalo, NY 14240, of the operating rights and property of VALLETTA MOTOR TRUCKING CO., INC., 200 No. Main St., Vestal, NY 13850, and for acquisition by NOVO CORPORATION, 733 Third Ave., New York, NY 10017, of control of such rights and property through the transaction. Applicants' attorney: Harold G. Hernly, 118 N. St. Asaph St., Alexandria, VA 22314. Operating rights sought to be controlled and merged: *General commodities*, excepting among others, livestock, dangerous explosives, household goods and commodities in bulk, as a *common carrier* over regular routes, between Endicott, N.Y., and Lawrence, Mass., between Endicott, N.Y., and New York, N.Y., between Endicott, N.Y., and Philadelphia, Pa., between New Lebanon, N.Y., and East Lee, Mass., for operating convenience only, serving various intermediate and off-route points, between Brockton, and Lynn, Mass., serving all intermediate points; *general commodities*, excepting among others, classes A and B explosives, household goods, and commodities in bulk, over irregular routes, between Brockton, Holbrook, Braintree, Quincy, Milton, Boston, and Chelsea, Mass. BOSS-LINCO LINES, INC., is authorized to operate as a *common carrier* in Delaware, Maryland, New Jersey, New York, Pennsylvania, Virginia and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-11950. Authority sought for purchase by ROBCO TRANSPORTATION, INC., 3033 Excelsior Blvd., Minneapolis, MN 55416, of the operating rights of SIZER TRUCKING, INC., P.O. Box 1197, Rochester, MN 55901, and for acquisition by C. H. ROBINSON CO., also of Minneapolis, MN 55416, of control of such rights through the purchase. Applicants' attorneys: Donald A. Morken, 1000 First National Bank Bldg., Minneapolis, MN 55402, and Thomas Wolf, 611 Olmsted Co. Bank Bldg., Rochester, MN 55901. Operating rights sought to be transferred: *Meats, meat products and meat by-products, and etc.*, as a *common carrier* over irregular routes, from the plant site and storage facilities of Geo. A. Hormel & Co. at Austin, Minn., to points in Virginia, West Virginia, Delaware, Maryland, New Jersey, New York, Connecticut, Massachusetts, Rhode Island, New Hampshire, Vermont, Maine, Pennsylvania, and the District of Columbia, from the plant site and storage facilities of the Rod Barnes Packing Company at Huron, S. Dak., to points in Virginia, West Virginia, Delaware, Maryland, New Jersey, New York, Connecticut, Massachusetts, Rhode Island, New Hampshire, Vermont, Maine, Pennsylvania, and the District of Columbia, from the plant site and storage facilities of George A. Hormel & Co., at Fort Dodge, Iowa and Fremont, Nebr., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia and the District of Columbia, from the plant site and storage facilities of Scottsbluff Packing Company at Scottsbluff, Nebr., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia, from the plant site and storage facilities utilized by Wilson-Sinclair Co., at Albert Lea, Minn., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont and the District of Columbia, from Austin, Minn., to points in Cook County, Ill., from Austin, Minn., to Aboskie, N.C., and points in that part of Tennessee on and east of U.S. Highway 27 and on and north of Tennessee Highway 68, from the facilities of Wilson Certified Foods, Inc., at Cherokee, Iowa, and Omaha, Nebr., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia, and the District of Columbia, with restrictions; *frozen horsemeat*, from Jamestown, N. [Notice No. 108]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 8, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

[Notice No. 109]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 9, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

NOTICE OF FILING OF MOTOR CARRIER

AUGUST 3, 1973.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by § 1.245 of the Commission's rules of Practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall *not* be addressed to or filed with the Interstate Commerce Commission.

California Docket No. 54181 filed July 18, 1973 Applicant: McLAUGHLIN DRAYING CO. P.O. Box 1797 Sacramento, Calif. 95808 Applicant's representative: Raymond A. Greene, Jr. 100 Pine Street, Suite 2550 San Francisco, Calif. 94111 Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, except as hereinafter provided: Part I: (1) Between all points and places in the San Francisco Territory as described in Part II. (2) Between all points and places on or within 20 miles of the following routes: (a) Interstate Highway 80 between Roseville and San Francisco, inclusive; (b) State Highway 21 between its intersection with Interstate Highway 80 and its intersection with Interstate Highway 680; inclusive; (c) Interstate Highway 680 between its intersection with Interstate Highway 80 and its intersection with State Highway 17, inclusive; (d) State Highway 24 between Oakland and its intersection with Interstate Highway 680, inclusive; (e) Interstate Highway 580 between Oakland and its intersection with Interstate Highway 205, inclusive; (f) Interstate Highway 205 between its intersection with Interstate Highway 580 and U.S. Highway 50, inclusive; (g) U.S. Highway 50 between its intersection with Interstate Highway 205 and Sacramento, inclusive; (h) State Highway 4 between its intersection with Interstate Highway 80 and Stockton, inclusive. In performing the service herein authorized, applicant may make use of any and all streets, roads, highways and bridges necessary or convenient for the performance of said service.

Part II: SAN FRANCISCO TERRITORY includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Boundary Line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Company right of way at Arastradero Road; southeasterly along the Southern Pacific Company right of way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to E. Parr Avenue; easterly along E. Parr Avenue to the Southern Pacific Company right of way; southerly along the Southern Pacific Company right of way to the Campbell-Los Gatos city limits; easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101 to Tully Road; northeasterly along Tully Road to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs; northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga Avenue to Estates Drive; westerly along Estates Drive, Harbord Drive and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland boundary line; northerly along said boundary line to the campus boundary of the University of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway 40 to and including the City of Richmond; southwesterly along the highway extending from the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco Waterfront at the foot of Market Street; westerly along said waterfront and shore line to the Pacific Ocean; southerly along the shore line of the Pacific Ocean to point of beginning.

EXCEPT THAT applicant shall not transport any shipments of: (1) Used household goods and personal effects not packed in accordance with the crated property requirements set forth in paragraph (d) of Item No. 10-C of Minimum Rate Tariff No. 4-A. (2) Automobiles, trucks and buses, viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis. (3) Livestock, viz.: bucks, bulls, calves, cattle, cows, dairy cattle, ewes, goats, hogs, horses, kids, lambs, oxen, pigs, sheep, sheep camp outfits, sows, steers, stags or swine. (4) Liquids, compressed gases, commodities in semi-plastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers, or a combination of such highway vehicles. (5) Commodities when transported in bulk in dump trucks or in hopper-type trucks. (6) Commodities when transported in motor vehicles equipped for mechanical mixing in transit. (7) Cement. (8) Logs. (9) Commodities of unusual or extraordinary value. Intrastate, interstate and foreign commerce authority sought.

HEARING: Date, time and place not shown. Requests for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif., 94102, and should not be directed to the Interstate Commerce Commission.

By the Commission.

Guide to Record Retention Requirements

[Revised as of January 1, 1973]

This useful reference tool is designed to keep businessmen and the general public informed concerning the many published requirements in Federal laws and regulations relating to record retention.

The 90-page "Guide" contains over 1,000 digests which tell the user (1) what type records must be kept, (2) who must keep them, and (3) how long they must be kept. Each digest carries a reference to the full text of the basic law or regulation providing for such retention.

The booklet's index, numbering over 2,200 items, lists for ready reference the categories of persons, companies, and products affected by Federal record retention requirements.

Price: $1.50

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office Washington, D.C. 20402

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

PLUTONIUM INSTRUMENT COMPONENT—AEC notice of petition for rulemaking to allow export; comments by 10–15–73 22177

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Title 3—The President

PROCLAMATION 4231

Columbus Day, 1973

By the President of the United States of America

A Proclamation

The pages of history teach us that it is the extraordinary man who has shaped our past and thus determined much of what we are today. Such a man was Christopher Columbus, son of Italy and explorer of the New World.

Columbus launched the great age of discovery in the Americas. For five centuries, the spirit of discovery has continued to flourish here. On this Columbus Day, we can usefully reflect on the many ways in which that spirit still lives on, not only in our efforts to expand our physical horizons but in everything we do which helps us broaden our understanding of our world and of ourselves.

In recognizing our debt to the great navigator, we are mindful that his most enduring legacies to us are those qualities of vision, faith, and boldness without which progress can never take place. His determination to seek the truth against great odds continues to inspire our efforts to achieve a better and more peaceful world.

In tribute to the achievement of Columbus, the Congress of the United States, by joint resolution approved April 30, 1934 (48 Stat. 657), as modified by the act of June 28, 1968 (82 Stat. 250), requested the President to proclaim the second Monday in October of each year as Columbus Day.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate Monday, October 8, 1973, as Columbus Day. I invite the people of this Nation to observe that day in schools, churches, and other suitable places with appropriate ceremonies in honor of the great explorer. I also direct that the flag of the United States be displayed on all public buildings on the appointed day in memory of Christopher Columbus.

IN WITNESS WHEREOF, I have hereunto set my hand this fourteenth day of August, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred and ninety-eighth.

Richard Nixon

[FR Doc.73-17197 Filed 8-15-73;8:52 am]

V 38 - 158 AUG 16 73 XUM

PROCLAMATION 4232

General Pulaski's Memorial Day

By the President of the United States of America

A Proclamation

On the eleventh day of October, 1973, the people of the United States will honor the 194th anniversary of the death of Casimir Pulaski, a dedicated patriot who fought selflessly and courageously for the cause of freedom both in Poland and America. It was on October 11, 1779 that Pulaski gave his life for the infant American nation, dying in an attempt to free the city of Savannah, Georgia.

Today, in remembrance of his heroic sacrifice, we pay grateful tribute to Casimir Pulaski. As we do, we also pay tribute to all other Americans of Polish ancestry who have contributed to the greatness of America. Their energies and their devotion have been instrumental in the building of our country from our earliest years down to the present day.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate Thursday, October 11, 1973, as General Pulaski's Memorial Day, and I direct the appropriate officials to display the United States flag on that day on all Government buildings.

I also invite the people of America to set aside this day for appropriate ceremonies in honor of the memory of General Casimir Pulaski and his dedication to the defense of liberty.

IN WITNESS WHEREOF, I have hereunto set my hand this fourteenth day of August, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-eighth.

Richard Nixon

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 150—COST OF LIVING COUNCIL PHASE IV PRICE REGULATIONS

Correcting Amendments

The purpose of these amendments is to correct typographical and other errors and to clarify certain of the Phase IV price regulations.

Section 150.1(f) is amended to change the cross reference to Cost of Living Council procedural regulations. A new Part 155 has been added to replace the procedural regulations which were formerly included in Part 105.

Section 150.10(a) is amended to make clear that the highest of the three prices, base price, adjusted freeze price, or other price authorized under this part, is the price which a firm may not exceed under the general rule. Section 150.10(b) which sets forth the general rules for purchasers is also amended in the same manner.

A new rule governing profit margin overages of a firm which sells both custom and non-custom products is added to § 150.11(f). The new rule applies only to firms which would not be in violation of the profit margin limitation except for the charging of a price for a custom product. With respect to those firms, the Council will excuse a profit margin overage to the extent that the firm can demonstrate that the profit margin on those custom products or custom services does not exceed the base period profit margin of the firm.

Other changes are made in the Phase IV definitions. "Base period profit margin" is revised to clarify that revenues which are not included in annual sales or revenues as defined in § 150.31 are not to be included in measuring the base period profit margin. "Price increase" is corrected to indicate that the decrease in quantity of an item will also be regarded as a price increase. "Public utility" is amended to exclude mass transportation systems which are subject to special controls under Subpart P.

Section 150.54(f)(2) is amended to make clear that sales of property by State and local governments are exempt. The rule excluding certain firms from the requirement that they submit quarterly reports is also changed. A new exclusion is created which applies to a firm that has both 90 percent of its annual sales or revenues from exempt items and less than $50 million in annual sales or revenues from nonexempt items. The amendment is similar to the exclusion from the profit margin limitations which appears at § 150.11(3).

A mistake in §150.205(d) is corrected by inserting "customary initial percentage markup" in lieu of "allowable costs."

Section 150.303 is amended to provide alternate methods of computing customary initial percentage markup and gross margin. This change merely allows firms to continue to use their customary accounting practices and was inadvertently omitted. Section 150.306(a)(3) is also changed to require firms to state which option they have selected for the computation of their customary initial percentage markups or gross margins. Finally, the cross reference in § 150.310 is corrected to read § 150.306(a) instead of § 150.307(a).

Because the purpose of these amendments is to provide immediate guidance and information with respect to the Phase IV price regulations, the Council finds that publication in accordance with normal rule making procedure is impracticable and that good cause exists for making this amendment effective in less than 30 days.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat 743; Pub. L. 93-28, 87 Stat 27; E.O. 11730, 38 FR 19345; Cost of Living Council Order No. 14, 38 FR 1489)

In consideration of the foregoing, Part 150 of Chapter I of Title 6 of the Code of Federal Regulations is amended as follows effective 11:59 p.m., e.s.t., August 12, 1973.

Issued in Washington, D.C., on August 10, 1973.

JOHN T. DUNLOP,
Director,
Cost of Living Council.

§ 150.1 [Amended]

1. Section 150.1(f) is amended by changing the reference to "Part 105" to read "Part 155".

§ 150.10 [Amended]

2. Section 150.10(a) is amended to insert the phrase ", whichever is the highest," after the word "part".

3. Section 150.10(b) is amended to insert the phrase ", whichever is the highest," after the word "part".

4. Section 150.11(f) is amended by designating the present § 150.11(f) as § 150.11(f)(i) and adding a new § 150.11(f)(ii) to read as follows:

§ 150.11 Profit Margin Limitation.

* * * * *

(f) * * *

(ii) If a firm's activities subject to the profit margin limitations of this section include both the sale of custom products and services as defined in § 150.104 of this part and the sale of non-custom products and services and the firm is not in violation of the profit margin limitations of this section, the Cost of Living Council shall for purposes of determining compliance with § 150.104(b), excuse the profit margin overage to the extent that the firm can demonstrate that the profit margin on the custom products or custom services does not exceed the base period profit margin of the firm.

§ 150.31 [Amended]

5. Section 150.31 is amended in the definition of "Base period profit margin" by deleting the word "and" following the reference to "§ 150.56" and inserting a comma in lieu thereof and by inserting after the word "Subpart M" the phrase "and revenues not included in annual sales or revenues as defined in this section".

6. Section 150.31 is amended in the definition of "Price Increase" to insert the words "or quantity" following the word "quality".

7. Section 150.31 is further amended in the definition of "Public Utility" to read as follows:

* * * * *

"Public Utility" means a firm or that part of a firm which regularly furnishes the public or a recognized segment of the public with a commodity or service which is of public consequence and need whether or not that firm is under the jurisdiction of a regulatory agency, including gas, electric, telephone, telegraph, public transportation by vehicle or pipeline, water, and sewage disposal services, but excluding mass transportation system as defined in Subpart P of this Part.

§ 150.54 [Amended]

8. Section 150.54(f)(2) is amended by inserting the phrase "or State and local governments" after the word "States".

9. Section 150.161(b)(1) is amended to read as follows:

§ 150.161 Quarterly reports.

* * * * *

(b) * * *

(1) A firm which during its most recent fiscal year derived both (i) 90 percent or more of its annual sales or revenues from the sale of exempt items or from exempt sales and (ii) less than $50 million of its annual sales or revenues from the sale or lease of non-exempt items.

V 38-158 AUG 16 73 XUM

§ 150.205 [Amended]

10. Section 150.205(d) is amended by deleting the words "allowable costs" in the first sentence and inserting in lieu thereof "customary initial percentage markup".

11. Section 150.303 is amended to read as follows:

§ 150.303 Computing customary initial percentage markups and gross margins.

For the purposes of this subpart—

(a) Customary initial percentage markup = $\frac{\text{Initial price} - \text{Cost}}{\text{Initial Price or Cost}} \times 100$

Where:

Initial price = Total sales prices of all merchandise within a category when first offered for sale weighted for volume; and

Cost = Total invoice costs of all merchandise within a category plus transportation allocated to that merchandise.

(b) Gross margin = $\frac{\text{Revenues} - \text{Cost}}{\text{Revenues or Cost}} \times 100$

Where:

Revenues = Total revenues realized from the sales of merchandise within a category less returns and credits; and

Cost = Total invoice costs of all merchandise within a category plus transportation allocated to that merchandise.

12. Section 150.306(a)(3) is amended to read as follows:

§ 150.306 Merchandise pricing plans; firms with annual revenues of $50 million or more.

(a) • • •

(3) A completed form as specified by the Council on each pricing entity stating its selection of either the customary initial percentage markup or gross margin basis for control, whether in computing its customary initial percentage markups or gross margins pursuant to § 150.303 it uses in the denominator (i) initial price or cost or (ii) revenues or cost, respectively, and its selection of pricing base period and setting forth its categories, the pricing base period customary initial percentage markup applied to or the gross margin realized for each category, and the customary initial percentage markup applied to or the gross margin realized for each category during each fiscal quarter of the pricing base period;

§ 150.310 [Amended]

13. Section 150.310 is amended to change the reference to "§ 150.307(a)" to read "§ 150.306(a)".

§ 150.104 [Amended]

14. Section 150.104(b) is amended by inserting between the reference to "§ 150.11(d)(iii)" and the period the words "and § 150.11(f)(ii)".

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 73-SO-57]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Manning S.C., transition area.

The Manning transition area is described in § 71.181 (38 F.R. 435). In the description, an extension is predicated on Vance, S.C. VORTAC 100° radial. Since the VOR-A Instrument Approach Procedure to Wings and Wheels Airport, Santee, S.C., has been amended to utilize the Vance VORTAC 103° radial for the procedure turn, it is necessary to amend the description to predicate the extension on the 103° radial. Since this amendment is minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation regulations is amended, effective immediately, as hereinafter set forth.

In § 71.181 (38 F.R. 435), the Manning, S.C., transition area is amended as follows:

"• • • 100° radial • • •" is deleted and "• • • 103° radial • • •" is substituted therefor.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); Sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c))

Issued in East Point, Ga., on August 7, 1973.

PHILLIP M. SWATEK, *Director, Southern Region.*

[FR Doc.73-17007 Filed 8-15-73;8:45 am]

[Airspace Docket No. 73-GL-38]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation regulations is to alter the Carbondale, Illinois, control zone and the Marion, Illinois, transition area.

The approach bearings on two approach procedures to the Southern Illinois Airport, Carbondale, Illinois, have been changed slightly; therefore, airspace protecting these approaches requires a corresponding change.

Since these alterations are minor in nature and are in the interest of safety, compliance with the notice and public procedure provisions of the Administrative Procedures Act is unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective November 8, 1973, as hereinafter set forth:

In § 71.171 (38 F.R. 351), the following control zone is amended to read:

CARBONDALE, ILL.

Within a 5-mile radius of the Southern Illinois Airport (latitude 37°46'45"N., longitude 89°15'00"W.) and within 3 miles either side of the 338° bearing from the Southern Illinois Airport, extending from the 5-mile radius zone to 8 miles north of the airport; and within 3 miles either side of the 250° bearing from the Southern Illinois Airport extending from the 5-mile radius zone to 8 miles west of the airport. This control zone is effective during specific dates and times established in advance by Notice to Airmen. The effective dates and times will thereafter be continuously published in the Airman's Information Manual.

In § 71.181 (38 F.R. 435), the following transition area is amended to read:

MARION, ILL.

That airspace extending upward from 700 feet above the surface, bounded by a line beginning at latitude 37°53'40"N., longitude 88°48'35"W., thence west to latitude 37°56'25"N., longitude 89°02'-40"W., thence west to latitude 37°58'45" N., longitude 89°20'25"W., thence south to latitude 37°47'25"N., longitude 89°-26'00"W., thence south to latitude 37°-42'10"N., longitude 89°24'00"W., thence southeast to latitude 37°32'50"N., longitude 88°59'00"W., thence northeast to latitude 37°42'35" N., longitude 88°52'-15"W., thence north to the point of beginning; and that airspace extending upward from 1,200 feet above the surface 9.5 miles southeast of and 4.5 miles northwest of the 250° bearing from the Southern Illinois Airport, extending from the airport to 18.5 miles southwest, excluding that portion within the state of Illinois.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348); Sec. 6(c) Department of Transportation Act [49 U.S.C. 1655(c)])

Issued in Des Plaines, Illinois, on August 8, 1973.

LYLE K. BROWN, *Director, Great Lakes Region.*

[Docket No. 13114; Amdt. No. 877]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 F.R. 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, S.W., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue, S.W., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, *effective September 27, 1973.*

Daytona Beach, Fla.—Daytona Beach Regional Arpt., VOR Rwy 16, Amdt. 11
Dillon, Mont.—Dillon Arpt., VOR-A, Amdt. 5

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 33-5413]

PART 231—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES ACT OF 1933 AND GENERAL RULES AND REGULATIONS THEREUNDER

Filing Registration Statements for Variable Life Insurance Contracts

On January 31, 1973, the Commission announced that it had determined that

V 38 - 158 AUG 16 73 XUM

variable life insurance contracts are securities and that the offer and sale of such contracts would be subject to the provisions of the Securities Act of 1933 (Securities Act).[1] At the same time, the Commission also adopted exemptive rules under the Investment Company Act of 1940 and the Investment Advisers Act of 1940 for variable life insurance separate accounts and for insurance companies or affiliates thereof acting as investment advisers under certain specified conditions. In adopting these rules, the Commission took note of the body of state law which had developed and was continuing to develop in the area of insurance regulation.

In view of developing state regulatory requirements, companies which are considering the filing of a registration statement for variable life insurance contracts should determine, prior to filing, whether the policies to be offered can be sold in the jurisdiction in which offers will be made. In the Commission's view, sec. 6(a) of the Securities Act generally contemplates that at the time of the filing of a registration statement the registrant must have a present intention to commence selling when the registration statement is ordered effective;[2] and sec. 5(b) of that Act contemplates that at the time of filing there must be a reasonable certainty that the securities being offered can be legally sold upon effectiveness. It is the Commission's opinion that such reasonable certainty does not exist if the absence of enabling legislation, regulations or the approval of a policy by state insurance authorities would prevent the sale of a policy in the jurisdiction in which it is intended to be sold. Accordingly, a registration statement covering the offer and sale of a policy which cannot be sold because of the above limitations will not be accepted for filing under the Securities Act.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

AUGUST 2, 1973.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart C—Food Additives Permitted in Feed and Drinking Water of Animals or for the Treatment of Food-Producing Animals

Subpart D—Food Additives Permitted in Food for Human Consumption

PROPARGITE

A petition (FAP 3H5028) was filed by Uniroyal Chemical, Division of Uniroyal, Inc., Bethany, CT 06525, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348), proposing establishment of food additive tolerances (21 CFR Part 121) for residues of the insecticide propargite (2-(*p-tert*-butylphenoxy)cyclohexyl 2-propynyl sulfite) in dried apple pomace at 80 parts per million resulting from application of the insecticide to the growing raw agricultural commodity apples. (For a related document, see this issue of the FEDERAL REGISTER, page 22123).

The Reorganization Plan No. 3 of 1970, published in the FEDERAL REGISTER of October 6, 1970 (35 F.R. 15623), transferred (effective December 2, 1970) to the Administrator of the Environmental Protection Agency the functions vested in the Secretary of Health, Education, and Welfare for establishing tolerances for pesticide chemicals under sections 406, 408, and 409 of the Federal Food, Drug, and Cosmetic Act, as amended (21 U.S.C. 346, 346a, and 348). Pesticide and food additive tolerances for residues of propargite have previously been established.

Having evaluated the data in the petition and other relevant material, it is concluded that the tolerances should be established.

It is also concluded that the name propargite is the accepted common name for the insecticide (2-(*p-tert*-butylphenoxy) cyclohexyl 2-propynyl sulfite.

Therefore, pursuant to provisions of the Act (sec. 409(c)(1), (4), 72 Stat. 1786; 21 U.S.C. 348(c)(1), (4)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 F.R. 9038), Part 121 is amended by revising § 121.345 in Subpart C and § 121.1236 in Subpart D to read as follows:

§ 121.345 Propargite.

Tolerances are established for residues of the insecticide propargite (2-(*p-tert*-butylphenoxy) cyclohexyl 2-propynyl sulfite) in the following processed feeds, when present therein as a result of the application of this insecticide to growing crops:

80 parts per million in dried apple pomace.

40 parts per million in dried citrus pulp and dried grape pomace.

§ 121.1236 Propargite.

Tolerances are established for residues of the insecticide propargite (2-(*p-tert*-butylphenoxy) cyclohexyl 2-propynyl sulfite) in the following processed foods when present therein as a result of the application of this insecticide to growing crops:

30 parts per million in dried hops.

25 parts per million in raisins.

Any person who will be adversely affected by the foregoing order may at any time on or before September 17, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets, S.W., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on August 16, 1973.

(Sec. 409(c)(1), (4), 72 Stat. 1786; 21 U.S.C. 348(c)(1), (4))

Dated: August 13, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticides Programs.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-194]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 **Status of participating communities.**

State	County	Location	Map No.	State map repository	Local map repository	Effective date of authorization of sale of flood insurance for area
• • •	• • •	• • •	• • •	• • •	• • •	• • •
Colorado	El Paso	Palmer Lake, Town of.				Aug. 16, 1973, Emergency.
Connecticut	New London	Lyme, Town of				Do.
Pennsylvania	Bucks	Hulmeville, Borough of.				Do.
Do	Luzerne	Butler, Township of.				Do.

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968), effective Jan. 28, 1969 (33 F.R. 17804, Nov. 28, 1968), as amended (secs. 408-410, Public Law 91-152, Dec. 24, 1969), 42 U.S.C. 4001-4127; and Secretary's delegation of authority to Federal Insurance Administrator, 34 F.R. 2680, Feb. 27, 1969)

Issued: August 8, 1973.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 3-73-5R]

PART 127—SECURITY ZONES

Establishment of Security Zone, Newton Creek, Delaware River, Camden, New Jersey

This amendment to the Coast Guard's Security Zone Regulations, establishes the waters of the Delaware River, Camden, New Jersey as a security zone. This security zone is established to protect the M/V FEDOR POLETAVE while moored at Holt Terminal, Camden, New Jersey.

This amendment is issued without publication of a notice of proposed rule making and this amendment is effective in less than 30 days from the date of publication, because this security zone involves a foreign affairs function of the United States.

In consideration of the foregoing, Part 127 of Title 33 of the Code of Federal Regulations is amended by adding § 127.306, to read as follows:

§ 127.306 Newton Creek, Delaware River, Camden, New Jersey.

The area within the following boundary is a security zone: a line beginning at 39-54-25N, 075-07-32W; thence east to 39-54-25N, 075-07-21W; thence north to 39-54-28N, 075-07-21W; thence west to 39-54-28N, 075-07-32W; thence south to the beginning point.

(46 Stat. 220, as amended, § 6(b), 80 Stat. 937; 50 U.S.C. § 191, 49 U.S.C. § 1655(b); E.O. 10173, E.O. 10277, E.O. 10352, E.O. 11249; 3 CFR, 1949-1953 Comp. 356, 778, 873, 3 CFR 1964-1965 Comp. 349, 33 CFR Part 6, 49 CFR 1.46(b))

Effective date: This amendment is effective from 11:00 A.M. Eastern Daylight Time, Monday, 6 August 1973 to 6:30 P.M. Eastern Daylight Time, Monday, 6 August 1973.

Dated: August 6, 1973.

B. F. ENGEL,
Vice Admiral, United States Coast Guard Commander, Third Coast Guard District, Governors Island, New York.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Propargite

A petition (PP 2F1272) was filed by Uniroyal Chemical, Division of Uniroyal, Inc., Bethany, CT 06525, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of tolerances for residues of the insecticide propargite (2-(*p-tert*-butylphenoxy(cyclohexyl 2-propynyl sulfite) in or on the raw agricultural commodities alfalfa hay, clover hay, and mint at 25 parts per million; grapefruit at 5 parts per million; corn fodder and forage at 2 parts per million; and corn grain, fresh corn including sweet corn and popcorn (kernels plus cob with husk removed), and potatoes at 0.1 part per million (negligible residue).

Subsequently, the petitioner amended the petition by (a) increasing the proposed tolerance for residues of the insecticide in or on mint from 25 parts per million to 50 parts per million; (b) proposing a tolerance of 0.1 part per million for residues in the fat, meat, and meat byproducts of hogs; and (c) withdrawing the proposed tolerances in or on alfalfa hay, clover hay, and fresh corn. (For a related document, see this issue of the FEDERAL REGISTER, page 22122).

Based on consideration given the data submitted in the petition and other relevant materials, it is concluded that:

1. The insecticide is useful for the purpose for which the tolerances are being established.

2. There is no reasonable expectancy that residues in meat, milk, eggs, or poultry will exceed either the already established tolerances or the tolerances being established.

3. The tolerances established by this order will protect the public health.

4. The name propargite is the accepted common name for the insecticide (2-(*p-tert*-butylphenoxy)cyclohexyl 2-propynyl sulfite), and the regulation should be changed to so indicate.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority trans-

V 38-158 AUG 16 73 XUM

ferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), § 180.259 is revised to read as follows:

§ 180.259 Propargite; tolerances for residues.

Tolerances are established for residues of the insecticide propargite (2-(*p-tert*-butylphenoxy) cyclohexyl 2-propynyl sulfite) in or on raw agricultural commodities as follows:

55 parts per million in or on almond hulls.

50 parts per million in or on mint.

15 parts per million in or on hops.

10 parts per million in or on grapes.

7 parts per million in or on apricots, peaches, plums (fresh prunes), and strawberries.

5 parts per million in or on grapefruit, lemons, and oranges.

4 parts per million in or on nectarines.

3 parts per million in or on apples and pears.

2 parts per million in or on corn fodder and forage.

2 parts per million in milk fat (reflecting negligible residues of 0.08 part per million in milk).

0.1 part per million (negligible residue) in or on almonds, corn grain (including popcorn), cottonseed, potatoes, and walnuts.

0.1 part per million (negligible residue) in eggs and the fat, meat, and meat byproducts of cattle, goats, hogs, poultry, and sheep.

Any person who will be adversely affected by the foregoing order may at any time on or before September 17, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets, S.W., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on August 16, 1973.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: August 13, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.73-17113 Filed 8-15-73;8:45 am]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Dimethyl Sulfoxide

In response to a petition (PP 3E1364) submitted by Crown Zellerbach Corp., Chemical Products Division, Camas, WA 98607, a notice was published by the Environmental Protection Agency in the FEDERAL REGISTER of June 22, 1973 (38 FR 16392), proposing establishment of an exemption from the requirement of a tolerance for residues of dimethyl sulfoxide when used as a solvent or cosolvent in pesticide formulations intended for preemergence application or application prior to formation of edible parts of food plants. No comments or requests for referral to an advisory committee were received.

It is concluded that the proposal should be adopted.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), § 180.1001(d) is amended by revising the item "Dimethyl sulfoxide" in the table to read as follows:

§ 180.1001 Exemptions from the requirement of a tolerance.

* * * * * *

(d) * * *

Inert Ingredients	Limits	Uses
Dimethyl sulfoxide.	----------	Solvent or cosolvent for formulations used before crop emerges from soil or prior to formation of edible parts of food plants.
* * *	* * *	* * *

Any person who will be adversely affected by the foregoing order may at any time on or before September 17, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets, S.W., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on August 16, 1973.

(Sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e))

Dated: August 13, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.73-17116 Filed 8-15-73;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

PART 5A-1—GENERAL

Subpart 5A-1.12—Responsible Prospective Contractors

CHANGE IN SUPPLIERS BY PRIME CONTRACTOR

The following is to provide guidance for contracting officers when a contractor requests authority to change sources of supply, inspection, or production point.

The table of contents for Part 5A-1 is amended by the addition of the following new entry:

5A-1.1206 Change in suppliers by prime contractors.

Section 5A-1.1206 is added as follows:

§ 5A-1.1206 Change in suppliers by prime contractors.

(a) Before authorizing a contractor to change a designated source of supply or any designated inspection or production point, the contracting officer shall determine that such change will not be detrimental to the ability of the contractor to fulfill his obligations under the terms of the contract. If a favorable determination cannot be made without obtaining additional information, the contracting officer shall request a plant facilities evaluation.

(b) In making an evaluation of the requested change, contracting officers shall exercise similar precautions with regard to new sources as were taken in determining the acceptability of the initial supply source. If the contracting officer approves a change of supply source, inspection point, or production point, he shall issue an appropriate contract amendment specifying the nature of the change and the effective date. Where feasible, the amendment shall provide that delivery orders placed prior to the effective date will remain in effect as written. In determining the effective date, contracting officers shall take into consideration the time necessary for offices concerned to receive and take required actions thereunder.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5-1.101(c))

Effective date. This regulation is effective on the date shown below.

Dated: August 3, 1973.

M. J. TIMBERS,
Commissioner, Federal Supply Service.

[FR Doc.73-17075 Filed 8-15-73;8:45 am]

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 1-18; Notice 9]

PART 571—MOTOR VEHICLE SAFETY STANDARDS

Control Location, Identification, and Illumination

This notice amends Motor Vehicle Safety Standard No. 101 to allow a control position providing minimal illumination, effective September 1, 1973.

On February 27, 1973 the National Highway Traffic Safety Administration proposed (38 FR 5261) that paragraph S4.3 of 49 CFR 571.101, *Control location, identification, and illumination*, be amended to allow vehicle manufacturers the option of providing an instrument illumination control with either an "off" position, or one providing illumination "barely discernible to a vehicle operator whose eyes have adapted to dark ambient roadway conditions." The standard mandated an "off" position only as of September 1, 1973 and the agency's notice of February 27 granted the petition of Mercedes-Benz of North America for initiation of rulemaking to allow the option. Mercedes justified its request with its opinion that "under no circumstances should the driver . . . be without a certain amount of control illumination, and . . . a driver who is unfamiliar with [a] vehicle 'cannot possibly recognize the identification of the specified controls upon activating the head lamps switch when the rheostat has been turned off' ".

The comments received supported the proposal. Some reservations were expressed over the subjectivity of the proposed wording. The NHTSA recognized this problem in the notice when it commented "While this option does not provide a quantitative performance level per se, it is assumed that barely discernible' illumination would be of such low intensity that it does not produce glare on the instrument panel or a reflection in the windshield". However, no one suggested language more objective in nature, and the NHTSA has decided to adopt its proposed wording in the absence of a quantitative expression of light output. The NHTSA may conduct research that possibly could lead to further rule making in this area.

In consideration of the foregoing, the last sentence of paragraph S4.3 of 49 CFR 571.101, Motor Vehicle Safety Standard No. 101, is revised to read:

"On each vehicle to which this paragraph applies manufactured on or after September 1, 1973, a control shall be provided to adjust the intensity of control illumination, so that it is continuously variable from a position of either no illumination, or illumination that is barely discernible to a vehicle operator whose eyes have adapted to dark ambient roadway conditions, to a position providing illumination sufficient for the vehicle operator to readily identify the control under conditions of reduced visibility."

Effective date: September 1, 1973. Because the amendment is of a requirement effective September 1, 1973, and allows an optional means of compliance, it is found for good cause shown that an effective date earlier than 180 days after issuance is in the public interest.

(Secs. 103, 119, Pub. L. 89-563, 80 Stat. 718, 15 U.S.C. 1392, 1407; delegation of authority at 49 CFR 1.51).

Issued on August 9, 1973.

JAMES B. GREGORY,
Administrator.

[FR Doc.73-17069 Filed 8-15-73;8:45 am]

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER B—PRACTICE AND PROCEDURES

[Ex Parte No. 298]

PART 1107—REQUIREMENTS AND PROCEDURES RELATING TO RAILROAD RATE ADJUSTMENT ACT OF 1973

Correction

AUGUST 10, 1973.

The attention of the Commission was called today to the fact that the order of July 27, 1973, in this proceeding, under § 1107.1, "Requirements," of the rules therein prescribed erroneously covered only class I line-haul carriers. The first clause under that heading should be changed to read as follows:

Petition or petitions filed by class I line-haul railroads and other common carriers subject to part I of the Interstate Commerce Act under the provisions of subsection (4)(a) of section 15a of the act, * * *

A copy of this notice will be deposited with the Director, Office of the Federal Register, for publication therein.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.73-17103 Filed 8-15-73;8:45 am]

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Sand Lake National Wildlife Refuge, S. Dak.

The following special regulation is issued and is effective on August 16, 1973.

§ 32.12 Special regulations; big game; for individual wildlife refuge areas.

SOUTH DAKOTA

SAND LAKE NATIONAL WILDLIFE REFUGE

Public hunting of big game on the Sand Lake National Wildlife Refuge, South Dakota, is permitted only on the area designated by signs as open to hunting. This open area, comprising 20,000 acres, is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 West Sixth Avenue, Denver, Colorado 80215. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer, subject to the following conditions:

(1) Archery season—December 3 through December 31, 1973, both dates inclusive.

(2) Firearms season—November 24 through December 2, 1973, both dates inclusive.

(3) All hunters must exhibit their hunting license, deer tag and vehicle contents to Federal and State officers upon request.

(4) Hunters will not be allowed to drive on refuge maintained trails, but may park their vehicles outside the refuge and hunt on foot.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 31, 1973.

LOUIS S. SWENSON,
Refuge Manager, Sand Lake National Wildlife Refuge.

AUGUST 6, 1973.

[FR Doc.73-17035 Filed 8-15-73;8:45 am]

PART 32—HUNTING

National Wildlife Refuges in Certain States

The following special regulations are issued and are effective on September 1, 1973.

§ 32.12 Special regulations; migratory birds; for individual wildlife refuge areas.

ALABAMA

EUFAULA NATIONAL WILDLIFE REFUGE

Public hunting of mourning doves on the Eufaula National Wildlife Refuge, Alabama, is permitted only on those areas designated by signs as open to hunting. These open areas are delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 17 Executive Park Drive, N.E., Atlanta, Ga. 30329. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of mourning doves subject to the following special conditions.

(1) Hunting shall be permitted from 12 noon until sunset (Central time) on the follow dates:

(a) Houston Tract Unit—October 13, 20, 27 and November 3, 1973.

(b) Molnar Tract Unit—December 29, 1973 and January 5 and 12, 1974.

(2) Each hunter must have on his person a validated refuge hunting permit. Permits will be issued at the refuge on each day of the hunt on a first-come, first-serve basis.

V 38-158 AUG 16 73 XUM

(3) No hunters will be permitted within hunting areas before 11:45 A.M. each day.

(4) All firearms must be encased and/or unloaded when outside the designated hunting area.

(5) Each hunter who successfully takes a limit of mourning doves must leave the hunting area immediately.

(6) Retrievers used by hunters shall be under the control of the owner at all times.

(7) All hunters must check in and out of the refuge at the designated checking station.

(8) All litter (paper, empty shell boxes, etc.) must be removed by individual hunters.

(9) Wounded or dead doves falling outside the hunting area may be recovered, but firearms must be left inside hunting area.

(10) Vehicle parking will be limited to areas designated by refuge personnel.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 12, 1974.

ARKANSAS

HOLLA BEND NATIONAL WILDLIFE REFUGE

Public hunting of mourning doves on the Holla Bend National Wildlife Refuge, Arkansas, is permitted on an area delineated by public hunting signs. This open area, comprising approximately 500 acres, is delineated on a map available at refuge headquarters, Russellville, Arkansas 72801, and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 17 Executive Park Drive, NE., Atlanta, Ga. 30329. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of mourning doves, subject to the following special conditions.

(1) Hunting dates: September 1 and 8, 1973.

(2) Two hundred fifty permits will be issued for each hunt. Application may be made by postcard addressed to Holla Bend National Wildlife Refuge, P.O. Box 746, Russellville, Arkansas 72801. Cards may contain the name of only one hunter and should indicate a preference for either September 1 or 8. They must be received not later than August 17, 1973. A drawing will be held at 1:00 P.M., August 17, 1973, in the refuge office to determine permittees.

(3) No alcoholic beverages will be allowed in the hunting area.

(4) Hunters under 18 years of age must be accompanied by an adult.

(5) All firearms must be cased and/or unloaded when outside designated hunting areas.

(6) Dogs used as retrievers must comply with State dog licensing requirements.

(7) Hunting shall be from 12 noon until sunset each day of the hunt.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 8, 1973.

SOUTH CAROLINA

CAROLINA SANDHILLS NATIONAL WILDLIFE REFUGE

Public hunting of mourning doves is permitted on the open area of Carolina Sandhills National Wildlife Refuge, S.C. This open area, comprising approximately 350 acres, is delineated on a map available at refuge headquarters, McBee, S.C. 29101, and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 17 Executive Park Drive, N.E., Atlanta, Ga. 30329. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of mourning doves, subject to the following special conditions.

(1) Open Season. September 8, 1973—from noon until 4:30 P.M. September 15, 22, 29, and October 6, 1973—from noon until official sunset.

(2) Species and Bag Limit. Mourning doves only—12 birds per hunter each day. Hunters must leave the hunting area upon completing bag limits.

(3) Permits and Entry. Permits will be issued on a first-come, first-served basis to 300 hunters each day. Permits will be available from a permit station located across South Carolina Highway 145 from the Lake Bee Recreation Area. Permits will be sold from 10:30 A.M. until 2:30 P.M. each day of the hunt and they will cost $2 each on opening day and $1 each for subsequent hunts. Each hunter must secure his own permit and personally sign for the permit to be valid.

(4) Vehicles and Shooting Sites. Hunters must enter the hunting area at designated entrance points and utilize specified parking areas. These will be posted with signs. Maximum speed is 35 MPH. Loaded firearms in vehicles are prohibited. Soybean fields are CLOSED TO ALL ENTRY during the hunts to protect the interest of the refuge's cooperative farmer. Therefore, hunters and dogs are not to enter soybean fields under any circumstances.

(5) Weapons. Only shotguns and shells with shot sizes No. 6 or smaller are allowed. Shotguns capable of holding more than three shells (one in the chamber and two in the magazine) must be plugged in accordance with applicable State and Federal regulations. Guns must be unloaded and either encased or disassembled while being transported on the refuge.

(6) Dogs. Retrievers are allowed on the hunting area; however, they must be under control at all times. Hunters utilizing retrievers must have their permits appropriately stamped to authorize having dogs on the refuge.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 6, 1973.

JACK E. HEMPHILL,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 9, 1973.

[FR Doc.73-17027 Filed 8-15-73;8:45 am]

PART 32—HUNTING

Seedskadee National Wildlife Refuge

The following special regulation is issued and is effective August 16, 1973.

§ 32.12 Special Regulations; migratory game birds; for individual wildlife refuge areas.

WYOMING

SEEDSKADEE NATIONAL WILDLIFE REFUGE

Public hunting of mourning doves on the Seedskadee National Wildlife Refuge, Wyoming is permitted from September 1, 1973 to September 16, 1973, inclusive. All of the refuge area, comprising 12,370 acres, and so designated by signs, is open to hunting. Maps of the area are available at the refuge office, Room 118, Courthouse, Green River, Wyoming, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 West Sixth Ave., Denver, Colorado 80215. Hunting shall be in accordance with all applicable State regulations governing the hunting of mourning doves.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 16, 1973.

MERLE O. BENNETT,
Refuge Manager, Seedskadee National Wildlife Refuge, Green River, Wyoming.

JULY 27, 1973.

[FR Doc.73-17026 Filed 8-15-73;8:45 am]

PART 32—HUNTING

National Wildlife Refuges in Certain States

The following special regulations are issued and are effective on August 25, 1973.

§ 32.22 Special regulations; upland game; for individual refuge areas.

ALABAMA

WHEELER NATIONAL WILDLIFE REFUGE

Public hunting of rabbits, gray squirrels, foxes, raccoons, and opossums is permitted only on the areas designated by signs and/or delineated on maps which are available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329. Hunting shall be in accordance with all State and Federal regulations subject to the following special conditions:

(1) Hunting shall be by permit only. Permits may be obtained from the Refuge Manager under prescribed conditions.

(2) Foxes may be hunted with dogs, but without guns during the period October 1, 1973 through February 15, 1974, under conditions set forth in permits obtainable from the Refuge Manager.

(3) Gray squirrels and rabbits may be hunted October 15–20, 1973.

(4) Raccoons and opossums may be hunted February 11–16, 1974.

(5) Rabbits may be hunted February 19–23, 1974.

(6) Either shotguns, .22 rimfire rifles, non-powder burning rifles or bows and arrows may be used for squirrel hunting, but .22 rimfire rifles may not be used for other species listed. Raccoon and opossum hunting is limited to use of shotguns only. Not larger than No. 6 shot may be used for squirrel and rabbit hunting, nor larger than No. 8 for raccoon and and opossum hunting.

(7) Legal hours for entering and hunting on the refuge for raccoons and opossums shall be 6 p.m. to 5 a.m. inclusive; for rabbits 8 a.m. to 5 p.m. inclusive; and for squirrels all daylight hours.

(8) No hunting is permitted within 100 yards of buildings on the refuge boundary. No hunting is permitted on lands west of Flint Creek nor within the Triana Recreational Area.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuges generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through February 23, 1974.

ARKANSAS

WAPANOCCA NATIONAL WILDLIFE REFUGE

Public hunting of squirrels and raccoons is permitted only on the area designated by signs as open to hunting. This open area is delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 17 Executive Park Drive, NE, Atlanta, Georgia 30329. Hunting shall be in accordance with all State and Federal regulations subject to the following special conditions:

(1) Squirrels may be hunted October 1–15, 1973, during daylight hours only.

(2) Raccoons may be hunted November 1–15, 1973, from dark to 12 midnight only.

(3) Only shotguns and .22 caliber rifles may be used. Pistols and other sidearms are prohibited.

(4) Dogs are required during the raccoon hunts and are prohibited during the squirrel hunt.

(5) Cutting or burning of trees, fires, camping, and littering are prohibited.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 15, 1973.

WHITE RIVER NATIONAL WILDLIFE REFUGE

Public hunting of raccoon, squirrel and turkey on the White River National Wildlife Refuge, Arkansas, is permitted only on the areas designated by signs as open to hunting. These open areas are delineated on maps available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations subject to the following special conditions:

Raccoons:

(1) Raccoons may be taken without limit on the refuge November 1–3; November 8–10; and December 6–8, 1973.

(2) Weapons: Shotguns larger than 28 gauge and .22 caliber, rimfire rifles; no headlight hunting permitted.

(3) Camping will be permitted in designated areas only. No fires are permitted outside the camping area. No trees will be cut.

(4) Hunters must check in and out each day at the designated check station between the hours of 5 p.m. and 2 a.m. Shooting hours begin at 5 p.m. and close at 1 a.m.

(5) Boats will be prohibited on refuge waters. Hunters are not permitted to enter the refuge by boats from navigable waters.

(6) Littering of the refuge will be a violation.

(7) A Federal permit is required to enter the public hunting area.

Squirrel, rabbit, beaver, feral hogs, and turkey:

(1) Species to be taken: Squirrel, rabbit, beaver, feral hogs, and turkey by gun; and turkey by archery.

(2) Open season: Gun hunt (except turkey—October 1–15; Archery (turkey)—October 16–30; Turkey shotgun hunt—November 6–7, 1973.

(3) Bag limit: One turkey of either sex; rabbits—8; squirrel—8; no limit on beaver and hogs.

(4) Weapons: (a) Gun—shotguns and rimfire rifles are legal. Rifles larger than .22 caliber are prohibited. (b) Long bows only, with a minimum pull of 40 pounds and arrows with 7/8 inch minimum width blades.

(5) A federal permit is required to enter the public hunting area for the turkey gun hunt. No permit required for squirrel or archery turkey hunts.

The provisions of these special regulations supplement the regulations which govern hunting on national wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 9, 1973.

FLORIDA

ST. MARKS NATIONAL WILDLIFE REFUGE

Public hunting of upland game on the St. Marks National Wildlife Refuge, Florida, is permitted only on the area designated by signs as open to hunting. This open area, comprising approximately 1,200 acres, is delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State regulations governing the hunting of upland game.

KENTUCKY

REELFOOT NATIONAL WILDLIFE REFUGE

Public hunting of squirrels and raccoons on the Reelfoot National Wildlife Refuge, Kentucky, is permitted only on the area designated by signs as open to hunting. This open area, comprised of 2,034 acres, is delineated on maps available at refuge headquarters, Samburg, Tennessee and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 17 Executive Park Drive, Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State regulations covering the hunting of squirrels and raccoons subject to the following special conditions:

Squirrels:

(1) Squirrels may be hunted on the refuge from September 1–30, 1973.

(2) Only shotguns incapable of holding more than three shells and .22 caliber rifles are permitted.

(3) Dogs are not permitted.

(4) A Federal permit is not required to enter the public hunting area.

Raccoons: Raccoons may be taken without limit, on the Long Point refuge unit during the periods of October 1–6, 1973 and October 8–13, 1973.

(2) Hunting hours shall be from 7:30 p.m. to 12:30 a.m.

(3) The use of dogs and guns is permitted.

(4) No axes, saws, or other cutting implements will be permitted.

(5) A Federal permit will not be required, However, all hunters will be required to check in and check out at the designated check station, the location of which may be obtained from the Refuge Manager, Reelfoot National Wildlife Refuge, Samburg, Tennessee.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 13, 1973.

SOUTH CAROLINA

CAPE ROMAIN NATIONAL WILDLIFE REFUGE

Public hunting of rabbits, squirrels, and raccoons on the Bulls Island Unit of the Cape Romain National Wildlife Refuge, Awendaw, South Carolina, is permitted only on the area designated by signs as open to hunting. This open area,

V 38 158 AUG 16 73 XUM

comprising 2,500 acres, is delineated on maps available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State regulations governing the hunting of rabbits, squirrels, and raccoons except the following special conditions:

(1) The open season for hunting rabbits, squirrels, and raccoons is October 29–November 3, November 22–24, and December 10–15, 1973. Daylight hours only.

(2) Bow and arrows permitted. Firearms, crossbows, or any type mechanical bow prohibited. Drugged or poison arrows prohibited.

(3) No dogs allowed on the island.

(4) Hunters must check in with refuge personnel upon arrival and check out upon departure from Bulls Island.

(5) Hunters under 18 years of age must be accompanied by an adult.

(6) Camping for hunters is permitted in the designated campground only. Campsites may be erected 24 hours prior to each hunt and must be removed within 24 hours after the close of each hunt. Campsites and camp gear may not be left from one hunt to the next. Fires are restricted to the designated camp area. A camping fee of $1.00 per person per day will be required for use of the camping area during the hunts. Recreational camping by non-hunters is not permitted during the hunts.

(7) Permits are required and may be obtained at the refuge office on Bulls Island.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 17, 1973.

TENNESSEE

HATCHIE NATIONAL WILDLIFE REFUGE

The public hunting of squirrels and raccoons on the Hatchie National Wildlife Refuge is permitted on the area designated by signs as open to hunting. This open area, comprising 11,000 acres, is delineated on a map available at the refuge headquarters, Brownsville, Tennessee 38012 and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329. Hunting shall be in accordance with all State and Federal regulations subject to the following conditions:

(1) Seasons: Squirrels—August 25–September 20, 1973. Raccoons—October 12–November 14, 1973.

(2) Weapons: Only .22 caliber rifles or shotguns incapable of holding more than three shells are permitted. Possession of buckshot or slugs is in violation of refuge regulations.

(3) Camping is prohibited.

(4) Dogs are prohibited during the squirrel hunt, but are required to hunt raccoons.

(5) The hunting hours for raccoons shall be from sunset to midnight.

(6) No axes, saws, or other cutting implements will be permitted during the raccoon hunt.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 14, 1973.

LAKE ISOM NATIONAL WILDLIFE REFUGE

Public hunting of squirrels and raccoons on the Lake Isom National Wildlife Refuge, Tennessee is permitted only on the area designated by signs as open to hunting. This open area, comprised of 1,850 acres, is delineated on maps available at refuge headquarters, Samburg, Tennessee and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State regulations covering the hunting of squirrels and raccoons subject to the following special conditions:

Squirrels:

(1) Squirrels may be hunted on the refuge from September 1–30, 1973.

(2) Only shotguns incapable of holding more than three shells and .22 caliber rifles are permitted.

(3) Dogs are not permitted.

(4) A Federal hunting permit is not required to enter the public hunting area.

Raccoons:

(1) Raccoons may be taken, without limit, on the refuge during the period of October 8–13, 1973.

(2) Hunting hours shall be from 7:30 p.m. to 12:30 a.m.

(3) The use of dogs and guns is permitted.

(4) No axes, saws, or other cutting implements will be permitted.

(5) A Federal permit will not be required. However, all hunters will be required to check in and check out at the designated checking station, the location of which may be obtained from the Refuge Manager, Reelfoot National Wildlife Refuge, Samburg, Tennessee 38254.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 13, 1973.

REELFOOT NATIONAL WILDLIFE REFUGE

Public hunting of squirrels and raccoons on the Reelfoot National Wildlife Refuge, Tennessee is permitted only on the area designated by signs as open to hunting. This open area, comprised of 9,585 acres, is delineated on maps available at refuge headquarters, Samburg, Tennessee, and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State regulations covering the hunting of squirrels and raccoons subject to the following special conditions:

Squirrels:

(1) Squirrels may be hunted on the refuge from September 1–30, 1973.

(2) Only shotguns incapable of holding more than three shells and .22 caliber rifles are permitted.

(3) Dogs are not permitted.

(4) A Federal permit is not required to enter the public hunting area.

Raccoons:

(1) Raccoons may be taken, without limit, on the Long Point refuge unit during the periods of October 1–6, 1973 and October 8–13, 1973.

(2) Raccoons may be taken, without limit, on the Grassy Island refuge unit during the period of October 1–6, 1973.

(3) Hunting hours shall be from 7:30 p.m. to 12:30 a.m.

(4) The use of dogs and guns is permitted.

(5) No axes, saws, or other cutting implements will be permitted.

(6) A Federal permit will not be required. However, all hunters will be required to check in and check out at the designated check station, the location of which may be obtained from the Refuge Manager, Reelfoot National Wildlife Refuge, Samburg, Tennessee 38254.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 13, 1973.

C. EDWARD CARLSON,
Regional Director, Bureau of Sport Fisheries and Wildlife.

AUGUST 10, 1973.

[FR Doc.73-17028 Filed 8-15-73;8:45 am]

PART 32—HUNTING

Seedskadee National Wildlife Refuge

The following special regulation is issued and is effective August 16, 1973.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

WYOMING

SEEDSKADEE NATIONAL WILDLIFE REFUGE

Public hunting of cottontail rabbits on the Seedskadee National Wildlife Refuge, Wyoming is permitted from August 25, 1973 to December 31, 1973, inclusive. All of the refuge area, comprising 12,370 acres, and so designated by signs, is open to hunting. Maps of the area are available at the refuge office, Room 118 Courthouse, Green River, Wyoming, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 West Sixth Avenue, Denver, Colorado 80215. Hunting shall be in accordance with all applicable State regulations governing the hunting of cottontail rabbits.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 31, 1973.

MERLE O. BENNETT,
Refuge Manager, Seedskadee National Wildlife Refuge, Green River, Wyoming.

JULY 23, 1973.

[FR Doc.73-17022 Filed 8-15-73;8:45 am]

PART 32—HUNTING

Seedskadee National Wildlife Refuge

The following special regulation is issued and is effective August 16, 1973.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

WYOMING

SEEDSKADEE NATIONAL WILDLIFE REFUGE

Public hunting of sage grouse on the Seedskadee National Wildlife Refuge is permitted as follows: West of the Green River from August 25, 1973 to August 31, 1973 inclusive; East of the Green River from August 25, 1973 to September 3, 1973 inclusive. All of the refuge area, comprising 12,370 acres, and so designated by signs, is open to hunting. Maps of the area are available at the refuge office, Room 118, Courthouse, Green River, Wyoming and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 West Sixth Avenue, Denver, Colorado 80215. Hunting shall be in accordance with all applicable State regulations governing the hunting of sage grouse.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 3, 1973.

MERLE O. BENNETT,
Refuge Manager, Seedskadee National Wildlife Refuge, Green River, Wyoming.

JULY 27, 1973.

PART 32—HUNTING

De Soto National Wildlife Refuge

The following special regulation is issued and is effective August 16, 1973.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NEBRASKA

DE SOTO NATIONAL WILDLIFE REFUGE

Public hunting of deer on the De Soto National Wildlife Refuge, Nebraska, is permitted only on the area designated by signs as open to hunting. This area, comprising 1,200 acres, that lies west of the present Missouri River channel, is delineated on a map available at refuge headquarters and from the Area Manager, Bureau of Sport Fisheries and Wildlife, 601 E. 12th, Federal Building, Kansas City, Missouri 64106. Hunting shall be in accordance with state regulations governing the hunting of deer with bow and arrow and shall be permitted only during the regular Nebraska archery deer season, September 15, 1973 through November 9, 1973, and from November 19, 1973 through December 31, 1973.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 31, 1973.

JAMES E. FRATES,
Refuge Manager.

AUGUST 8, 1973.

[FR Doc.73-17021 Filed 8-15-73;8:45 am]

PART 32—HUNTING

Seedskadee National Wildlife Refuge

The following special regulation is issued and is effective August 16, 1973.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

WYOMING

SEEDSKADEE NATIONAL WILDLIFE REFUGE

Public hunting of antelope on the Seedskadee National Wildlife Refuge, Wyoming is permitted as follows: west of the Green River from September 1 through September 9, 1973, inclusive; east of the Green River from September 19 through September 30, 1973, inclusive. All of the refuge area, comprising 12,370 acres, and so designated by signs, is open to hunting. Maps of the area are available at the refuge office, Room 118 Courthouse, Green River, Wyoming, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 West Sixth Avenue, Denver, Colorado 80215. Hunting shall be in accordance with all applicable State regulations governing the hunting of antelope.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 30, 1973.

MERLE O. BENNETT,
Refuge Manager, Seedskadee National Wildlife Refuge, Green River, Wyoming.

JULY 26, 1973.

[FR Doc.73-17023 Filed 8-15-73;8:45 am]

PART 32—HUNTING

Seedskadee National Wildlife Refuge

The following special regulation is issued and is effective August 16, 1973.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

WYOMING

SEEDSKADEE NATIONAL WILDLIFE REFUGE

Public hunting mule deer on the Seedskadee National Wildlife Refuge is permitted from October 15 through October 31, 1973, inclusive. All of the refuge area, comprising 12,370 acres, and so designated by signs, is open to hunting. Maps of the area are available at the refuge office, Room 118, Courthouse, Green River, Wyoming and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 West Sixth Avenue, Denver, Colorado 80215. Hunting shall be in accordance with all applicable State regulations governing the hunting of mule deer.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 31, 1973.

MERLE O. BENNETT,
Refuge Manager, Seedskadee National Wildlife Refuge, Green River, Wyoming.

JULY 27, 1973.

[FR Doc.73-17025 Filed 8-15-73;8:45 am]

PART 32—HUNTING

Bitter Lake National Wildlife Refuge, N. Mex.

The following special regulation is issued and is effective on August 16, 1973.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NEW MEXICO

BITTER LAKE NATIONAL WILDLIFE REFUGE

The public hunting of deer on the Bitter Lake National Wildlife Refuge is permitted only on the North Tract and only during the period November 17, 1973 through December 2, 1973, inclusive. The hunting area comprising about 12,000 acres, is delineated on maps available at refuge headquarters, 13 miles northeast of Roswell, New Mexico, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, New Mexico 87103.

Hunting shall be in accordance with all applicable State regulations governing the hunting of deer.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 2, 1973.

BARNET W. SCHRANCK,
Refuge Manager, Bitter Lake National Wildlife Refuge, Roswell, New Mexico.

AUGUST 9, 1973.

V 38 - 158 AUG 16 73 XUM

Title 7—Agriculture

CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

PART 70—GRADING AND INSPECTION OF POULTRY AND EDIBLE PRODUCTS THEREOF; AND UNITED STATES CLASSES, STANDARDS AND GRADES WITH RESPECT THERETO

Grade A for Further Processing

Under authority contained in the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621–1627), the U.S. Department of Agriculture hereby amends the Regulations Governing the Grading and Inspection of Poultry and Edible Products Thereof and United States Classes, Standards, and Grades With Respect Thereto (7 CFR Part 70).

Statement of considerations. On July 6, 1973, a rulemaking proposal was published in the FEDERAL REGISTER (38 FR 18032) which would establish a U.S. Grade A—For Further Processing standard for turkeys, permit ducks, otherwise of A quality with portions of both wings missing beyond the second joint to be classified as U.S. Grade A, and set forth the Department's policy of nondiscrimination in the conduct of services and licensing of graders and inspectors.

Eleven letters were received by the Hearing Clerk on the proposal. Eight comments were in favor of the U.S. Grade A—For Further Processing standard for turkeys and two opposed. Five comments concerned the proposal on ducks and all were in favor of the proposal. In view of the support for and the desirability of the standards, the Department has decided to promulgate them as proposed.

The Amendments are as follows:

1. A new § 70.5 is added to read:

§ 70.5 **Nondiscrimination.**

The conduct of all services and the licensing of graders and inspectors under these regulations shall be accomplished without discrimination as to race, color, creed, sex, or national origin.

2. In § 70.91, a new paragraph (d) is added to read:

§ 70.91 **Marking graded products.**

* * * * *

(d) *Identification of U.S. Grade A—for further processing.* The grade mark indicated in Figure 3A, below, is restricted to turkeys meeting the requirements of § 70.364. The grade mark may be applied only to master shipping containers and not to individual birds. The block containing the words "For Further Processing" in Figure 3A shall be located as indicated and shall be at least as wide and at least ¼ as high as the height of the grade mark. The words "For Further Processing" shall be in the same boldness of type as the wording in the grade mark.

FIGURE 3A

3. In § 70.353, paragraph (f) is amended to read:

§ 70.353 **A Quality.**

* * * * *

(f) *Disjointed and broken bones and missing parts.* Parts are free of broken bones. The carcass is free of broken bones and has not more than one disjointed bone. The wing tips may be removed at the joint, and in the case of ducks and geese, the parts of the wing beyond the second joint may be removed if removed at the joint and both wings are so treated. The tail may be removed at the base. Cartilage separated from the breastbone is not considered as a disjointed or broken bone.

* * * * *

4. Immediately following § 70.363, a new center heading and a new § 70.364 are added to read:

UNITED STATES READY-TO-COOK GRADE FOR FURTHER PROCESSING

§ 70.364 **U.S. Grade A—For Further Processing.**

Any lot of ready-to-cook poultry composed of one or more turkey carcasses may be designated as "U.S. Grade A—For Further Processing" when each carcass in the lot meets the requirements for U.S. A quality as described in this subpart with the following exceptions: (a) Exposed flesh and discolorations of the skin and flesh may be as described for U.S. B quality in this subpart, (b) Any number of disjointed bones are permitted, (c) Part or all of one or both wings may be missing when severed at a joint, and (d) The back may be trimmed in an area not wider than the base of the tail and extending from the tail to the area between the hip joints.

Since the standards will more accurately reflect the market value of turkeys used in further processing, the heavy processing season is imminent and no special preparation would be required by the industry to implement the standards, it is in the public interest to make them effective as soon as possible. Accordingly, under the administrative procedure provisions in 5 U.S.C., 553, good cause is found for making the standards effective less than 30 days after publication in the Federal Register.

Done at Washington, D.C., this 10th day of August 1973, to become effective on August 15, 1973.

JOHN C. BLUM,
Acting Administrator.

[FR Doc.73-16942 Filed 8-15-73;8:45 am]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Regulation 445]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period August 17–23, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.715 **Valencia Orange Regulation 445.**

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing

opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges continues to be fairly good, with general activity about the same as in recent weeks. Prices f.o.b. averaged $3.46 per carton on a sales volume of 585 carlots during the week ended August 9, 1973, compared with $3.42 per carton on sales of 538 carlots a week earlier. Track and rolling supplies at 299 cars were down 34 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held, the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified: and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 14, 1973.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period August 17, 1973, through August 23, 1973, are hereby fixed as follows:

(i) District 1: Unlimited;

(ii) District 2: 475,000 cartons;

(iii) District 3: Unlimited."

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 15, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-17254 Filed 8-15-73;12:03 pm]

PART 910—LEMONS GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

Expenses and Rate of Assessment and Carryover of Unexpended Funds

This document authorizes expenses of $271,400 for the Lemon Administrative Committee, under Marketing Order No. 910, for the 1973–74 fiscal year and fixes a rate of assessment of $0.023 per carton of lemons handled in such period to be paid to the committee by each first handler as his pro rata share of such expenses.

On July 30, 1973, notice of proposed rule making was published in the FEDERAL REGISTER (38 FR 20265) regarding proposed expenses, the proposed rate of assessment and the proposed carryover of unexpended funds from the fiscal year ended July 31, 1973, pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in the States of California and Arizona. This notice allowed interested persons until August 10, 1973, during which they could submit data, views, or arguments pertaining to these proposals. None were submitted. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Lemon Administrative Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 910.211 **Expenses, rate of assessment, and carryover of unexpended funds.**

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Lemon Administrative Committee during the period August 1, 1973, through July 31, 1974, will amount to $271,400.

(b) *Rate of assessment.* The rate of assessment for said period, payable to each handler in accordance with § 910.41, is fixed at $0.023 per carton of lemons.

(c) *Carryover of Unexpected Funds.* That $20,000 of unexpended funds in excess of expenses incurred during the fiscal year ended July 31, 1973, be added to the reserve, established pursuant to § 910.42(a)(2).

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of lemons grown in the designated production area are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable lemons handled during the aforesaid period, and (3) such period began on August 1, 1973, and said rate of assessment will automatically apply to all such lemons beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 13, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-17107 Filed 8-15-73;8:45 am]

PART 930—CHERRIES GROWN IN MICHIGAN, NEW YORK, WISCONSIN, PENNSYLVANIA, OHIO, VIRGINIA, WEST VIRGINIA AND MARYLAND

Expenses and Rate of Assessment for the 1973–74 Fiscal Period and Carryover of Unexpended Funds

This document authorizes expenses of $107,200 of the Cherry Administrative Board, under Marketing Order No. 930, for the 1973–74 fiscal period and fixes a rate of assessment of $1.00 per ton of cherries handled in such period to be paid to the board by each first handler as his pro rata share of such expenses.

On July 16, 1973, notice of rulemaking was published in the FEDERAL REGISTER (38 FR 19047) regarding proposed expenses and the related rate of assessment for the period beginning May 1, 1973, and ending April 30, 1974, and carryover of unexpended funds pursuant to the marketing Order No. 930, (7 CFR Part 930), regulating the handling of cherries grown in Michigan, New York, Wisconsin, Pennsylvania, Ohio, Virginia, West Virginia and Maryland. The notice allowed interested persons until July 29, 1973 to submit written data, views, or arguments pertaining to such proposals. None were submitted. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice, which were submitted by the Cherry Administrative Board (established pursuant to said marketing order), it is hereby found and determined that:

V 38-158 AUG 16 73 XUM

§ 930.203 Expenses, rate of assessment, and carryover of unexpended funds.

(a) *Expenses.* Expenses which are reasonable and likely to be incurred by the Cherry Administrative Board during the 1973–74 fiscal period, May 1, 1973 through April 30, 1974 will amount to $107,200.

(b) *Rate of assessment.* The rate of assessment for such fiscal period payable by each handler in accordance with § 930.41 is fixed at $1.00 per ton of first handled cherries.

(c) Unexpended assessment funds in excess of expenses incurred during fiscal period ended April 30, 1973, shall be carried over as a reserve in accordance with § 930.42(a) of said marketing order.

Terms used in this part shall, when used herein, have the same meaning as is given to the respective term in said order and "ton of cherries" shall mean 2000 pounds of raw unpitted cherries.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) handling of the current crop of cherries is currently under way; (2) the relevant provisions of said marketing order require that the rate of assessment fixed for a particular season be applicable to all cherries from the beginning of such fiscal period; and (3) the fiscal period began May 1, 1973, and the rate of assessment herein fixed will automatically apply to all cherries beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 13, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-17108 Filed 8-15-73;8:45 am]

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Raisins Acquired Under Weight Dockage System

Correction

In FR Doc. 73-16403 appearing at page 21390 in the issue of Wednesday, August 8, 1973, the following changes should be made in § 989.210:

1. In paragraph (a), the word "tendered" in the first sentence should read "tenderer".

2. In paragraph (f), the word "PAC" in the seventh line should read "RAC".

3. In paragraph (f), the word "procesed" in the tenth and eleventh lines should read "processed".

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[50 CFR Part 216]

MARINE MAMMALS

Taking and Importing

On December 21, 1972, amended interim regulations governing the taking and importing of marine mammals, as required by section 103 of the Marine Mammal Protection Act of 1972 (Public Law 92–522), were published in the FEDERAL REGISTER (37 FR 28177). Publication was accompanied by a statement that written comments, views and objections to those regulations could be made to the Director, National Marine Fisheries Service, during the 60-day period ending February 21, 1973; and that final regulations on the matters covered by the interim regulations would be published as soon thereafter as practicable.

The comments, views and objections submitted with regard to the regulations published on December 21, 1972, have been considered. There are published herewith proposed final regulations which reflect these comments, views and objections insofar as they were thought to be consistent with the intent and provisions of the Act.

Over one-third of the comments on the amended interim regulations requested that the definition of "authentic native articles of handicraft and clothing" be amended so as to allow the production of these articles by the use of sewing machines and/or the use of commercial tanneries, as appropriate. An amendment allowing these uses appears in § 216.3 of the proposed final regulations. There were numerous requests for changes in other definitions which also have been incorporated into the proposed final regulations. Thus, in § 216.3, the definition of "take" has been stated to include "collection." In § 216.3, the definition of "native village or town" has been broadened to more accurately describe native enclaves present within predominantly non-native populations. In § 216.3, the definition of "subsistence purposes" was enlarged to more specifically describe the traditional utilization of marine mammals by natives. In § 216.3, the definition of "wasteful manner" was enlarged to authorize the discard by natives of the unusable portions of mammals. In § 216.23, the "native exception" was changed so as to allow the sale by natives in native villages and towns of edible portions of mammals.

In addition, the subpart and subsection numbers and headings were changed to correspond with similar numbers and headings in the Department of the Interior regulations on the taking and importing of marine mammals (37 FR 28173) and several minor changes in addition to those specifically enumerated above have been made.

On the other hand, certain other changes which were requested were not made because they were thought to be inconsistent with the intent and provisions of the Act. Thus, it was felt that a person not otherwise fulfilling the definition of "native" set out in (old) § 216.2(i) could not be considered to be a native solely because he (or she) was married to a native. It was felt that the collection of dead mammals, or mammal parts, from beaches should not be exempt from the provisions of the Act since it would be extremely difficult for the Service to ascertain whether, in fact, a given mammal was dead upon being taken. It was felt that the transfer or sale of mammals, or mammal parts, by natives to non-natives did not fall within the "direct consumption by Alaskan natives" language of (old) § 216.2(n). It was felt to be inappropriate to consider the review of Alaskan marine mammal laws, looking toward their possible approval under section 109 of the Act, prior to the Marine Mammal Commission having formally begun the discharge of its responsibilities under Title II of the Act.

A few other suggested changes also were not adopted on the grounds of inconsistency with the intent and provisions of the Act. All comments are available for review in the Office of the Director, National Marine Fisheries Service, 3300 Whitehaven Street, NW, Washington, D.C. 20235.

Written comments, views, or objections on these proposed regulations may be made to the Director, National Marine Fisheries Service, Washington, D.C. 20235 until the close of business on October 1, 1973.

It is hereby proposed to revise 50 CFR, Part 216, titled, "Marine Mammals, Taking and Importing," to read as follows:

PART 216—MARINE MAMMALS, TAKING AND IMPORTING

Subpart A—Introductions

Sec.
216.1 Purpose of regulations.
216.2 Scope of regulations.
216.3 Definitions.
216.4 Other laws and regulations.

Subpart B—Prohibitions

216.11 Prohibited taking.
216.12 Prohibited importation.
216.13 Prohibited uses, possession, transportation and sales.
216.14 Proof of compliance.

Subpart C—General Exceptions

Sec.
216.21 Actions permitted by international treaty, convention, or agreement.
216.22 Taking by State or local government officials.
216.23 Native exception.
216.24 Taking incidental to commercial fishing operations.
216.25 Exempted marine mammals and marine mammal products.

Subpart D—Special Exceptions

216.31 Scientific research permits and public display permits.
216.32 Undue economic hardship.
216.33 Waivers of the moratorium. [Reserved].
216.34 Procedures for issuance of permits and modification, suspension or revocation thereof.
216.35 Possession of permits.

Subpart E—Designated Ports

216.40 Importation at designated ports.

Subpart F—Penalties and Procedures for Their Assessment

216.51 Penalties.
216.52 Notice of proposed assessment; opportunity for hearing.
216.53 Waivers of hearing; assessment of penalty.
216.54 Appointment of administrative law judge and agency representative; notice of hearing.
216.55 Failure to appear; official transcript; record for decision.
216.56 Duties and powers of the administrative law judge.
216.57 Appearance of the respondent and the agency representative.
216.58 Evidence.
216.59 Filing of briefs.
216.60 Decisions.
216.61 Remission or mitigation.
216.62 Payments of penalty.
216.63 Forfeiture and return of seized property.
216.64 Holding and bonding.
216.65 Enforcement officers.

AUTHORITY: Title I of the Marine Mammal Protection Act of 1972, 86 Stat. 1027, 16 U.S.C. 1361–1407, Public Law No. 92–522.

Subpart A—Introduction

§ 216.1 Purpose of regulations.

The regulations in this part implement the Marine Mammal Protection Act of 1972, 86 Stat. 1027, 16 U.S.C. 1361–1407, Public Law 92–522, which, among other things, restricts the taking, possession, transportation, selling, offering for sale, and importing of marine mammals.

§ 216.2 Scope of Regulations.

This Part 216 applies solely to marine mammals and marine mammal products as defined in § 216.3. For regulations under the Act, with respect to other marine mammals and marine mammal products, see 50 CFR Part 18.

V 38-158 AUG 16 73 XUM

§ 216.3 Definitions.

In addition to definitions contained in the Act, and unless the context otherwise requires, in this Part 216:

"Act" means the Marine Mammal Protection Act of 1972, 86 Stat. 1027, 16 U.S.C. 1361–1407, Public Law 92–522.

"Alaskan Native" means a person defined in the Alaska Native Claims Settlement Act (43 U.S.C. sec. 1602(b)) (85 Stat. 588) as a citizen of the United States who is of one-fourth degree or more Alaska Indian (including Tsimishian Indians enrolled or not enrolled in the Metlaktla Indian Community), Eskimo, or Aleut blood, or combination thereof. The term includes any Native, as so defined, either or both of whose adoptive parents are not Natives. It also includes, in the absence of proof of a minimum blood quantum, any citizen of the United States who is regarded as an Alaska Native by the Native village or group, of which he claims to be a member and whose father or mother is (or, if deceased, was) regarded as Native by any Native village or Native group. Any such citizen enrolled by the Secretary of the Interior pursuant to section 5 of the Alaska Native Claims Settlement Act shall be conclusively presumed to be an Alaskan Native for purposes of this part.

"Authentic native articles of handicrafts and clothing" means items made by an Indian, Aleut or Eskimo which (a) were commonly produced on or before December 21, 1972, and (b) are composed wholly or in some significant respect of natural materials, and (c) are significantly altered from their natural form and which are produced, decorated, or fashioned in the exercise of traditional native handicrafts without the use of pantographs, multiple carvers, or similar mass copying devices. Improved methods of production utilizing modern implements such as sewing machines or modern tanning techniques at a tannery registered pursuant to § 216.23(c) may be used so long as no large scale mass production industry results. Traditional native handicrafts include, but are not limited to, weaving, carving, stitching, sewing, lacing, beading, drawing, and painting. The formation of traditional native groups, such as a cooperative, is permitted so long as no large scale mass production results.

"Commercial fishing operation" means the lawful harvesting of fish from the marine environment for profit as part of an on-going business enterprise. Such term shall not include sport fishing activities whether or not carried out by charter boat or otherwise, and whether or not the fish so caught are subsequently sold.

"Endangered Species" means a species or subspecies of marine mammal listed pursuant to the Endangered Species Conservation Act of 1969, 83 Stat. 275, 16 U.S.C. 668aa–668ee, P.L. 91–135, (see Part 17 of this Title).

"Incidental catch" means the taking of a marine mammal (1) because it is directly interfering with commercial fishing operations, or (2) as a consequence of the steps used to secure the fish in connection with commercial fishing operations: *Provided*, That a marine mammal so taken must immediately be returned to the sea with a minimum of injury and further, that the taking of a marine mammal, which otherwise meets the requirements of this definition shall not be considered an incidental catch of that mammal if it is used subsequently to assist in commercial fishing operations.

"Marine environment" means the oceans and the seas, including estuarine and brackish waters.

"Marine mammal" means those specimens of the following orders, which are morphologically and physiologically adapted to the marine environment, whether alive or dead, and any part thereof, including but not limited to, any raw, dressed, or dyed fur or skin: Cetacea (whales and porpoises), Pinnipedia, other than walrus (seals and sea lions).

"Native village or town" means any community, association, tribe, band, clan or group.

"Pregnant" means pregnant near term.

"Secretary" shall mean the Secretary of Commerce or his authorized representative.

"Subsistence" means the use of marine mammals taken by Alaskan Natives for food, clothing, shelter, heating, transportation, and other uses necessary to maintain the life of the taker or those who depend upon the taker to provide them with such subsistence.

"Take" means to harass, hunt, capture, collect, or kill, or attempt to harass, hunt, capture, collect, or kill, any marine mammal, including, without limitation, any of the following: The collection of dead animals, or parts thereof; the restraint or detention of a marine mammal, no matter how temporary; tagging a marine mammal; or the negligent or intentional operation of an aircraft or vessel, or the doing of any other negligent or intentional acts which result in the disturbing or molesting of a marine mammal.

"Wasteful manner" means any taking or method of taking which is likely to result in the killing of marine mammals beyond those needed for subsistence or for the making of authentic native articles of handicrafts and clothing or which results in the waste of a substantial portion of the marine mammal and includes, without limitation, the employment of a method of taking which is not likely to assure the capture or killing of a marine mammal, or which is not immediately followed by a reasonable effort to retrieve the marine mammal.

§ 216.4 Other laws and regulations.

(a) *Federal.* Nothing in this part, nor any permit issued under authority of this part, shall be construed to relieve a person from any other requirements imposed by a statute or regulation of the United States, including any applicable statutes or regulations relating to wildlife and fisheries, health, quarantine, agriculture, or customs.

(b) *State laws or regulations.* Section 109 of the Act provides that on or after December 21, 1972, no State may adopt any law or regulation with regard to the taking of marine mammals, or enforce any existing law or regulation which relates to the taking or protection of marine mammals. Any State may adopt laws or regulations relating to the taking or protection of any species or population stocks of marine mammals if the Secretary determines after review by him that such laws or regulations will be consistent with the provisions of the Act and the regulations in this part. In no event, however, will the Secretary approve any State laws or regulations which:

(1) Purport to authorize a State to issue permits in situations which would require a Federal permit under the Act unless and until appropriate Federal regulations have been issued under section 103 of the Act, and where appropriate, the Secretary has waived the moratorium on such taking or importation under section 101(a)(3) of the Act; or

(2) Purport to authorize a State to issue permits for scientific research or for public display (except that a State may, under authority of a general scientific research permit granted by the Secretary to it, assign individual scientific research permits to State employees or representatives of State universities or other State agencies, subject to the provisions of the general permit); or

(3) Purport to authorize the State to grant exemptions from the Act on the grounds of economic hardship.

(c) Any State may obtain a review and determination of its existing laws and regulations from the Secretary by submitting a written request to that effect to the Director, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235, accompanied by the following documents, unless otherwise specified by the Secretary:

(1) A complete set of laws and regulations to be reviewed, certified as complete, true and correct, by the appropriate State official;

(2) A scientific description by species and population stock of the marine mammals to be subjected to such laws and regulations;

(3) A description of the organization staffing and funding for the administration and enforcement of the laws and regulations to be reviewed;

(4) A description where such laws and regulations provide for discretionary authority on the part of State officials to issue permits, of the procedures to be used in granting or withholding such permits and otherwise enforcing such laws; and

(5) Such other materials and information as the Secretary may request or which the State may deem necessary or advisable to demonstrate the compatibility of such laws and regulations with the policy and purposes of the Act and the rules and regulations issued thereunder.

(d) In making a determination with respect to any State laws and regulations, the Secretary shall take into account:

(1) Whether such laws and regulations are consistent with the purposes and policies of the Act and the rules and regulations issued thereunder;

(2) The extent to which such laws and regulations are consistent with, or constitute an integrated management or protection program with, the laws and regulations of other jurisdictions whose activities may affect the same species or stocks or marine mammals; and

(3) The existence of or preparations for an overall State program regarding the protection and management of marine mammals to which the laws and regulations under review relate.

(e) To assist States in preparing laws and regulations relating to marine mammals, the Secretary will also, at the written request of any State, make a preliminary review of any such proposed laws or regulations. Such review will be strictly advisory in nature and shall not be binding upon the Secretary. Upon adoption of previously reviewed laws and regulations, the same shall be subject to a complete review for a final determination pursuant to these regulations. To be considered for preliminary review, all legislative and regulatory proposals must be forwarded to the Director, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235, and certified by the appropriate State official. In addition, they shall be accompanied to the extent available with the same materials required under paragraph (b) above, unless otherwise provided by the Secretary.

(f) All determinations by the Secretary (other than as a result of preliminary reviews of proposed laws and regulations) shall be final and binding on the parties.

(g) The implementation and enforcement of all State laws and regulations previously approved by the Secretary pursuant to this section shall be subject to continuous monitoring and review by the Secretary pursuant to such rules and regulations as he may adopt. Any modifications, amendments, deletions or additions to laws or regulations previously approved shall be deemed to be new laws and regulations for the purposes of these regulations and shall require review and approval by the Secretary before their adoption.

(h) Notwithstanding the foregoing, nothing herein shall prevent (1) the taking of a marine mammal by a State or local government official pursuant to § 216.22 of the regulations in this part, or (2) the adoption or enforcement of any law or regulation relating to any marine mammal taken or imported prior to the effective date of the Act.

Subpart B—Prohibitions

§ 216.11 Prohibited Taking.

Except as otherwise provided in Subparts C and D of this Part 216, it is unlawful for;

(a) Any person, vessel, or conveyance subject to the jurisdiction of the United States to take any marine mammal on the high seas, or

(b) Any person, vessel, or conveyance to take any marine mammal in waters or on lands under the jurisdiction of the United States, or

(c) Any person subject to the jurisdiction of the United States to take any marine mammal during the moratorium.

§ 216.12 Prohibited importation.

(a) Except as otherwise provided in Subparts C and D of this Part 216, it is unlawful for any person to import any marine mammal or marine mammal product into the United States.

(b) Regardless of whether an importation is otherwise authorized pursuant to Subparts C and D of this Part 216, it is unlawful for any person to import into the United States any:

(1) Marine mammal:

(i) Taken in violation of the Act, or

(ii) Taken in another country in violation to the laws of that country;

(2) Any marine mammal product if

(i) The importation into the United States of the marine mammal from which such product is made would be unlawful under paragraph (b)(1) of this section, or

(ii) The sale in commerce of such product in the country of origin if the product is illegal.

(c) Except in accordance with an exception referred to in Subpart C and §§ 216.31 (regarding scientific research permits only) and 216.32 of this Part 216, it is unlawful to import into the United States any:

(1) Marine mammal which was pregnant at the time of taking.

(2) Marine mammal which was nursing at the time of taking, or less than 8 months old, whichever occurs later.

(3) Specimen of endangered species or subspecies of marine mammals,

(4) Specimen taken from a depleted species or stock of marine mammals, or

(5) Marine mammal taken in an inhumane manner.

(d) It is unlawful to import into the United States any fish, whether fresh, frozen, or otherwise prepared, if such fish was caught in a manner proscribed by the Secretary of Commerce for persons subject to the jurisdiction of the United States, whether or not any marine mammals were in fact taken incident to the catching of the fish.

§ 216.13 Prohibited uses, possession, transportation, and sales.

It is unlawful for:

(a) Any person to use any port, harbor or other place under the jurisdiction of the United States for any purpose in any way connected with a prohibited taking or an unlawful importation of any marine mammal or marine mammal product; or

(b) Any person subject to the jurisdiction of the United States to possess any marine mammal taken in violation of the Act or these regulations, or to transport, sell, or offer for sale any such marine mammal or any marine mammal product made from any such mammal.

(c) Any person subject to the jurisdiction of the United States to use in a commercial fishery, any means or method of fishing in contravention of regulations and limitations issued by the Secretary of Commerce for that fishery to achieve the purposes of this Act.

§ 216.14 Proof of compliance.

In any case where any marine mammal or any marine mammal product, is offered for importation or entry, the importer may be required to show to the satisfaction of the Secretary whether the importation in question is in compliance with the requirements of the Act or regulations, the burden shall be on the importer to prove the identity of the marine mammal or marine mammal products or to show compliance with the regulations. Until such time as the importer can show compliance, the Director, National Marine Fisheries Service or the Supervisory Customs Inspector, may refuse to clear the marine mammal or the marine mammal product shipment for importation.

Subpart C—General Exceptions

§ 216.21 Actions permitted by international treaty, convention, or agreement.

The Act and these regulations shall not apply to the extent that they are inconsistent with the provisions of any international treaty, convention or agreement, or any statute implementing the same relating to the taking or importation of marine mammals or marine mammal products, which was existing and in force prior to December 21, 1972, and to which the United States was a party. Specifically, the regulations in Subpart B of this part and the provisions of the Act shall not apply to activities carried out pursuant to the Interim Convention on the Conservation of North Pacific Fur Seals signed at Washington on February 9, 1957, and the Fur Seal Act of 1966, 16 U.S.C. 1151–1187, as in each case, from time to time amended.

§ 216.22 Taking by State or local government officials.

(a) A State or local government official or employee may take a marine mammal in the normal course of his duties as an official or employee, and no permit shall be required, if such taking:

(1) Is accomplished in a humane manner;

(2) Is for the protection or welfare of such mammal or for the protection of the public health or welfare; and

(3) Includes steps designed to insure return of such mammal, if not killed in the course of such taking, to its natural habitat.

In addition, any such official or employee may, incidental to such taking, possess and transport, but not sell or offer for sale, such mammal and use any port, harbor, or other place under the jurisdiction of the United States. All steps reasonably practicable under the circumstances shall be taken by any such

V 38-158 AUG 16 73 XUM

employee or official to prevent injury or death to the marine mammal as the result of such taking. Where the marine mammal in question is injured or sick, it shall be permissible to place it in temporary captivity until such time as it is able to be returned to its natural habitat. It shall be permissible to dispose of a carcass of a marine mammal taken in accordance with this subsection whether the animal is dead at the time of taking or dies subsequent thereto.

(b) Each taking permitted under this Section shall be included in a written report to be submitted to the Secretary every six months beginning December 31, 1973. Unless otherwise permitted by the Secretary, the report shall contain a description of:

(1) The animal involved;

(2) The circumstances requiring the taking;

(3) The method of taking;

(4) The name and official position of the State official or employee involved;

(5) The disposition of the animal, including in cases where the animal has been retained in captivity, a description of the place and means of confinement and the measures taken for its maintenance and care; and

(6) Such other information as the Secretary may require.

§ 216.23 Native exceptions.

(a) *Taking.* Notwithstanding the prohibitions of Subpart B of this Part 216, but subject to the restrictions contained in this section, any Indian, Aleut, or Eskimo who resides on the coast of the North Pacific Ocean or the Arctic Ocean may take any marine mammal without a permit, if such taking is:

(1) By Alaskan Natives who reside in Alaska for subsistence, or

(2) For purposes of creating and selling authentic native articles of handicraft and clothing, and

(3) In each case, not accomplished in a wasteful manner.

(b) *Restrictions.*

(1) No marine mammal taken for subsistence may be sold or otherwise transferred to any person other than an Alaskan Native or delivered, carried, transported, or shipped in interstate or foreign commerce, unless:

(i) It is being sent by an Alaskan Native directly or through a registered agent to a tannery registered under subsection (c) of this section for the purpose of processing, and will be returned directly or through a registered agent to the Alaskan Native; or

(ii) It is an edible portion and it is sold in an Alaskan Native village or town.

(2) No marine mammal taken for purposes of creating and selling authentic native articles of handicraft and clothing may be sold or otherwise transferred to any person other than an Indian, Aleut or Eskimo, or delivered, carried, transported or shipped in interstate or foreign commerce, unless:

(i) It is being sent by an Indian, Aleut or Eskimo directly or through a registered agent to a tannery registered under subsection (c) of this section for the purpose of processing, and will be returned directly or through a registered agent to the Indian, Aleut or Eskimo; or

(ii) It has first been transformed into an authentic native article of handicraft or clothing; or

(iii) It is an edible portion and sold (A) in an Alaskan Native village or town, or (B) to an Alaskan Native for his consumption.

(c) Any tannery, or person who wishes to act as an agent, within the jurisdiction of the United States may apply to the Director, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235, for registration as a tannery or an agent which may possess and process marine mammal products for Indians, Aleuts, or Eskimos. The application shall include the following information:

(i) the name and address of the applicant;

(ii) a description of the applicant's procedures for receiving, storing, processing, and shipping materials;

(iii) a proposal for a system of book, keeping and/or inventory segregation by which the applicant could maintain accurate records of marine mammals received from Indians, Aleuts, or Eskimos, pursuant to this section;

(iv) such other information as the Secretary may request;

(v) a certification in the following language:

> I hereby certify that the foregoing information is complete, true and correct to the best of my knowledge and belief. I understand that this information is submitted for the purpose of obtaining the benefit of an exception under the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407) and regulations promulgated thereunder, and that any false statement may subject me to the criminal penalties of 18 U.S.C. 1001, or to penalties under the Marine Mammal Protection Act of 1972.

(vi) the signature of the applicant.

The sufficiency of the application shall be determined by the Secretary, and in that connection, he may waive any requirement for information, or require any elaboration or further information deemed necessary. The registration of a tannery shall be subject to such conditions as the Secretary prescribes, which may include, but are not limited to, provisions regarding records, inventory segregation, reports, and inspection. The Secretary may charge a reasonable fee for processing such applications, including an appropriate apportionment of overhead and administrative expenses of the Department of Commerce.

(d) Notwithstanding the preceding provisions of this section, whenever, under the Act, the Secretary determines any species of stock of marine mammals to be depleted, he may prescribe regulations pursuant to section 103 of the Act upon the taking of such marine animals by any Indian, Aleut, or Eskimo and, after promulgation of such regulations, all takings of such marine mammals shall conform to such regulations.

§ 216.24 Taking incidental to commercial fishing operations.

(a) Until October 21, 1974, marine mammals may be taken incidental to the course of commercial fishing operations, and no permit shall be required, so long as the taking constitutes an incidental catch. In any event, it shall be the immediate goal that the incidental kill or incidental serious injury of marine mammals permitted in the course of commercial fishing operations be reduced to insignificant levels approaching zero mortality and serious injury rate.

(b) In furtherance of the Secretary's research and development program under section 111 of the Act, the following regulations shall apply: Any duly authorized agents of the Secretary may from time to time, after timely oral or written notice to the vessel owner or charterer board and/or accompany commercial fishing vessels documented under the laws of the United States, whenever the Secretary determines that there is space available, on regular fishing trips, for the purpose of conducting research or observation operations. Such research and observation operations shall be carried out in such manner as to minimize interference with commercial fishing operations. No master, charterer, operator or owner of such vessel shall impair or in any way interfere with the research or observations being carried out. The Secretary shall provide for the payment of all reasonable costs directly related to the quartering and maintaining of such agents on board such vessels.

§ 216.25 Exempted marine mammals and marine mammal products.

(a) The provisions of the Act and these regulations shall not apply:

(1) To any marine mammal taken before December 21, 1972, or

(2) To any marine mammal product if the marine mammal portion of such product consists solely of a marine mammal taken before such date.

(b) The prohibitions contained in § 216.12(c) (3) and (4) shall not apply to marine mammals or marine mammal products imported into the United States before the date on which a notice is published in the FEDERAL REGISTER with respect to the designation of the species or stock concerned as depleted or endangered.

(c) Section 216.12(b) shall not apply to articles imported into the United States before the effective date of the foreign law making the taking or sale, as the case may be, of such marine mammals or marine mammal products unlawful.

Subpart D—Special Exceptions

§ 216.31 Scientific Research Permits and Public Display Permits.

(a) The Director may issue permits authorizing the taking and importation of marine mammals for scientific research. Any person desiring to obtain a scientific research or display permit may make application therefore to the Secretary. Such application shall be in writing, addressed to the Director, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235, and shall contain the following information:

(1) The name, address, and phone number of the applicant;

(2) A statement of the purpose, date, location and manner of the taking or importation;

(3) A description of the marine mammal or the marine mammal product to be taken or imported, including the species or subspecies involved; the population stock, when known; the number of specimens or products (or the weight thereof, where appropriate); and the anticipated age, size, sex, and condition (i.e. whether pregnant or nursing) of the animals involved;

(4) If the marine mammal is to be taken and transported alive, or held for public display, a complete description of the manner of transportation, care, and maintenance, including the type, size, and construction of the container or artificial environment; arrangements for feeding and sanitation; a statement of the applicant's qualifications and previous experience in caring for and handling captive marine mammals and a like statement as to qualifications of any common carrier or agent to be employed by the applicant to transport the animal; and a written certification of a licensed veterinarian knowledgeable in the field of marine mammals that he has personally reviewed the arrangements for transporting and maintaining the animal and that in his opinion they are adequate to provide for the well-being of the animal;

(5) If the application is for a scientific research permit, a detailed description of the scientific research project or program in which the marine mammal or marine mammal product is to be used including a copy of the research proposal relating to such program or project and the names and addresses of the sponsor or cooperating institutions and the scientists involved;

(6) If the application is for a scientific research permit, and if the marine mammal proposed to be taken or imported is listed as an endangered species pursuant to the Endangered Species Act of 1969, 83 Stat. 275, 16 U.S.C. 668aa–668ee, P.L. 91–135, or has been designated by the Secretary as depleted, a detailed justification of the need for such a marine mammal, including a discussion of possible alternatives, whether or not under the control of the applicant;

(7) If the application is for a public display permit, a detailed description of the proposed use to which the marine mammal or marine mammal product is to be put, including the manner, location, and times of display, whether such display is for profit, an estimate of the numbers and types of persons who it is anticipated will benefit for such display, and whether and to what extent the display is connected with educational or scientific programs.

There shall also be included a complete description of the enterprise seeking the display permit and its educational and scientific qualifications, if any;

Secretary may request;

(9) A certification in the following language:

> I hereby certify that the foregoing information is complete, true and correct to the best of my knowledge and belief. I understand that this information is submitted for the purpose of obtaining a permit under the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407) and regulations promulgated thereunder, and that any false statement may subject me to the criminal penalties of 18 U.S.C. 1001, or to penalties under the Marine Mammal Protection Act of 1972.

(10) Such application shall be signed by the applicant.

The sufficiency of the application shall be determined by the Secretary and in that connection, he may waive any requirement for information, or require any elaboration or further information deemed necessary.

(b) Upon receipt of an application for a scientific research permit or a public display permit, the Secretary shall forward the application to the Marine Mammal Commission together with a request for the recommendations of the Commission and the Committee of Scientific Advisors on Marine Mammals on the permit application. In order to comply with the time limits provided in these regulations, the Secretary shall request that such recommendation be submitted within 30 days of receipt of the application by the Commission. If the Commission or the Committee, as the case may be, does not respond within 30 days from the receipt of such application by the Commission, the Secretary shall advise the Commission in writing that failure to respond within 45 days from original receipt of the application (or such longer time as the Secretary may establish) shall be considered as a recommendation from the Commission and the Committee that the permit be issued. The Secretary may also consult with any other person, institution or agency concerning the application.

(c) Permits applied for under this section shall be issued, suspended, modified and revoked pursuant to regulations contained in § 216.34. In determining whether to issue a scientific research permit, the Secretary shall, among other criteria, consider whether the proposed taking or importation will be consistent with the policies and purposes of the Act; and whether the granting of the permit is required to further a bone fide and necessary or desirable scientific purpose, taking into account the benefits anticipated to be derived from the scientific research contemplated and the effect of the proposed taking or importation on the population stock and the marine ecosystem. In determining whether to issue a public display permit, the Secretary shall, among other criteria, consider whether the proposed taking or importation will be consistent with the policies and purposes of the Act; whether a substantial public benefit will be gained from the display contemplated, taking into account the manner of the display and the anticipated audience on the one hand, and the effect of the proposed taking or importation on the population stocks of the marine mammal in question and the marine ecosystem on the other; and the applicant's qualifications for the proper care and maintenance of the marine mammal or the marine mammal product, and the adequacy of his facilities.

(d) Permits applied for under this section shall contain terms and conditions as the Secretary may deem appropriate, including

(1) The number and kind of marine mammals which are authorized to be taken or imported;

(2) The location and manner in which such marine mammals may be taken or from which they may be imported;

(3) The period during which the permit is valid;

(4) The methods of transportation, care and maintenance to be used with live marine mammals;

(5) Any requirements for reports or rights of inspections with respect to any activities carried out pursuant to the permit;

(6) The transferability or assignability of the permit;

(7) The sale or other disposition of the marine mammal, its progeny or the marine mammal product; and

(8) A reasonable fee covering the costs of issuance of such permit, including an appropriate apportionment of overhead and administrative expenses of the Department of Commerce.

§ 216.32 Undue economic hardship.

(a) Persons other than those engaged in commercial fishing operations referred to in § 216.24 may be exempted by the Secretary from the provisions of the Act through October 20, 1973, if the Secretary determines to his satisfaction, that such persons will suffer an undue economic hardship. Any person desiring to obtain an economic hardship exemption may make application to the Secretary, except that in the case of an application which involves scientific research or public display, such application will only be accepted if made by the person who will actually undertake such scientific research or public display. The application shall be in writing, addressed to the Director, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235, and shall contain the following information:

(i) The information required by § 216.31(a) (1), (2), (3), (4), (8), (9), and (10);

(ii) A full statement of the facts, circumstances, and reasons why failure to grant an exemption under this section would lead to undue economic hardship together with all supporting documents including certified copies of all relevant corporate minutes and resolutions, contracts and agreements, financial commitments, and current and historical financial data. In particular, copies of all contracts, agreements, or other arrange-

V 38 158 AUG 16 73 XUM

ments entered into prior to the enactment of the Act necessitating the taking or importation of marine mammals or marine mammal products and documents showing the dollar amount of anticipated loss or economic hardship should be enclosed;

(iii) If the exemption sought relates to scientific research, a detailed description of the scientific research project or program in which the marine mammal or marine mammal product is to be used, including a copy of the research proposal relating to such program or project and the names and addresses of the sponsoring or cooperating institutions and the scientists involved;

(iv) If the exemption sought relates to scientific research, and if the marine mammal proposed to be taken or imported is listed as an endangered species pursuant to the Endangered Species Act of 1969, 83 Stat. 275, 16 U.S.C. 668aa–668ee, P.L. 91–135, or has been designated by the Secretary as depleted, a detailed justification of the need for such a marine mammal, including a discussion of possible alternatives, whether or not under the control of the applicant;

(v) If the exemption sought relates to public display, a detailed description of the proposed use to which the marine mammal or marine mammal product is to be put, including the manner, location, and times of display, whether such display is for profit, an estimate of the numbers and types of persons who it is anticipated will benefit from such display, and whether and to what extent the display is connected with educational or scientific programs. There shall also be included a complete description of the enterprise seeking the display permit and its educational and scientific, medical or governmental qualifications, if any.

The sufficiency of the application shall be determined by the Secretary and in that connection he may waive any requirement for information, or may require any elaboration or further information deemed necessary.

(b) In determining whether to issue an economic hardship exemption the Secretary shall consider among other criteria the following:

(1) The effect of granting the exemption on the species or populations stock in question and the marine ecosystem;

(2) The degree of economic hardship to be anticipated should the exemption not be granted;

(3) The economic and legal alternatives available to the applicant;

(4) The likelihood of the anticipated economic hardship; and

(5) Such of the criteria relative to the issuance of scientific research permits and/or public display permits as may be applicable to the application.

(c) Exemptions issued under this section shall contain such terms and conditions as the Secretary may deem appropriate, including—

(1) The number and kind of marine mammals which are authorized to be taken or imported;

(2) The location and manner in which such marine mammals may be taken or from which they may be imported;

(3) The period during which the exemption is valid;

(4) The methods of transportation, care, and maintenance to be used with live marine mammals;

(5) Any requirements for reports or rights of inspections with respect to any activities carried out pursuant to the exemption;

(6) The transferability or assignability of the exemption;

(7) The sale or other disposition of the marine mammal, its progeny, or the marine mammal product; and

(8) A reasonable fee covering the costs of issuance of such exemption, including an appropriate apportionment of overhead and administrative expenses of the Department of Commerce. In cases of nonprofit research, this fee may be waived by the Director, National Marine Fisheries Service.

(d) Failure to observe any of the terms and conditions of the exemption shall be cause for the revocation, suspension, or modification of the exemption by the Secretary in his sole discretion and may subject the exemption holder to the penalties of the Act.

(e) In no event shall an exemption to take or import marine mammals or marine mammal products be granted pursuant to this section which continues in effect beyond midnight of October 20, 1973.

(f) The decision of the Secretary regarding the granting or denial of an exemption or the revocation, modification or suspension thereof, shall be final and binding. Upon taking any such action, the Secretary shall notify the applicant or the exemption holder, as the case may be, in writing as soon as practicable of such action. The Secretary may, at his discretion, hold hearings on any applicant's request for an exemption under this section.

§ 216.33 Waivers of the moratorium. [Reserved]

§ 216.34 Procedures for Issuance of Permits and Modification, Suspension or Revocation Thereof.

(a) Whenever application for a permit is received by the Secretary which the Secretary deems sufficient, he shall, as soon as practicable, publish a notice thereof in the FEDERAL REGISTER. Such notice shall set forth a summary of the information contained in such application. Any interested party may, within 30 days after the date of publication of such notice, submit to the Secretary his written data or views with respect to the taking or importation proposed in such application and may request a hearing in connection with the action to be taken thereon.

(b) If a request for a hearing is made within the 30-day period referred to in paragraph (a) of this section, or if the Secretary determines that a hearing would otherwise be advisable, the Secretary may, within 60 days after the date of publication of the notice referred to in paragraph (a) of this section, afford to such requesting party or parties an opportunity for a hearing. Such hearing shall also be open to participation by any interested members of the public. Notice of the date, time, and place of such hearing shall be published in the FEDERAL REGISTER not less than 15 days in advance of such hearing. Any interested person may appear in person or through representatives at the hearing and may submit any relevant material, data, views, comments, arguments, or exhibits. A summary record of the hearing shall be kept.

(c) As soon as practicable but not later than 30 days after the close of the hearing (or if no hearing is held, as soon as practicable after the end of the 30 days succeeding publication of the notice referred to in paragraph (a) of this section) the Secretary shall issue or deny issuance of the permit. Notice of the decision of the Secretary shall be published in the FEDERAL REGISTER within 10 days after the date of the issuance or denial and indicate where copies of the permit, if issued, may be obtained.

(d) Any permit shall be subject to modification, suspension, or revocation by the Secretary in whole or in part in accordance with these regulations and the terms of such permits. The permittee shall be given written notice by registered mail, return receipt requested, of any proposed modification, suspension, or revocation. Such notice shall specify:

(1) The action proposed to be taken along with a summary of the reasons therefore; and

(2) The steps which the Permittee may take to demonstrate or achieve compliance with all lawful requirements;

(3) Shall advise the permittee that he is entitled to a hearing thereon, if a written request for such a hearing is received by the Secretary within 10 days after receipt of the aforesaid notice or such other date as may be specified in the notice by the permittee. The time and place for the hearing, if requested by the permittee, shall be determined by the Secretary and written notice thereof given to the permittee by registered mail, return receipt requested, not less than 15 days prior to the date of hearing specified. The Secretary may, in his discretion, allow participation at the hearing by interested members of the public. The permittee and others participating may submit all relevant material, data, views, comments, arguments, and exhibits at the hearing. A summary record shall be kept of any such hearing.

(e) The Secretary shall make a decision regarding the proposed modification, suspension, or revocation, as soon as practicable after the close of the hearing, or if no hearing is held, as soon as practicable after the close of the 10-day period during which a hearing could have been requested. Notice of the modification, suspension, or revocation shall be published in the FEDERAL REGISTER within 10 days from the date of the Secretary's decision. In no event shall the proposed action take effect until notice of the Secretary's decision is published in the FEDERAL REGISTER.

§ 216.35 Possession of permits.

(a) Any permit issued under these regulations must be in the possession of the person to whom it is issued (or an agent of such person) during:

(1) The time of the authorized taking or importation;

(2) The period of any transit of such person or agent which is incident to such taking or importation; and

(3) Any other time while any marine mammal taken or imported under such permit is in the possession of such person or agent.

(b) A duplicate copy of the issued permit must be physically attached to the container, package, enclosure, or other means of containment, in which the marine mammal is placed for purposes of storage, transit, supervision, or care.

Subpart E—Designated Ports

§ 216.40 Importation at designated ports.

Any marine mammal or marine mammal product which is subject to the jurisdiction of the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce and is intended for importation into the United States shall be subject to the provisions of 50 CFR Part 13.

For the information of importers, designated ports of entry for the United States are:

New York, N.Y.
Miami, Fla.
Chicago, Ill.
San Francisco, Calif.
Los Angeles, Calif.
New Orleans, La.
Seattle, Wash.
Honolulu, Ha.

additionally, marine mammals or marine mammal products which are entered into Alaska, Hawaii, Puerto Rico, Guam, American Samoa or the Virgin Islands and which are not to be forwarded or transhipped within the United States may be imported through the following ports:

Hawaii—Honolulu
Puerto Rico—San Juan
Guam—Honolulu, Ha.
American Samoa—Honolulu, Ha.
Virgin Islands—San Juan, P.R.

Importers are advised to see 50 CFR Part 13 for importation requirements and information.

Subpart F—Penalties and Procedures for Their Assessment

§ 216.51 Penalties.

Any person who violates any provision of the Act or of any permit or regulation, including without limitation, conditions imposed by the Secretary with respect to the taking, importing, maintenance or transporting of marine mammals or marine mammal products, issued thereunder may be assessed a civil penalty by the Secretary of not more than $10,000 for each violation. Each unlawful taking or importation shall be a separate offense.

§ 216.52 Notice of Proposed Assessment; Opportunity for Hearing.

(a) Prior to the assessment of a civil penalty pursuant to section 105(a) of the Act, a notice of proposed assessment issued by the Secretary shall be served personally or by registered or certified mail, return receipt requested, upon the person believed to be subject to a penalty (the respondent). The notice shall contain:

(1) A concise statement of the facts believed to show a violation;

(2) A specific reference to the provisions of the Act, regulations, or permit allegedly violated; and

(3) The amount of penalty proposed to be assessed.

The notice shall inform the respondent that he has 20 days from receipt of the notice in which to request a hearing or to waive it. The request or waiver shall be in writing and addressed to the Director, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235. The notice shall further inform the respondent that if he does not respond to the notice within the 20 days allowed, he shall be deemed to have waived his right to a hearing and to have consented to the making of an assessment without a hearing.

(b) With his request for a hearing or with his written waiver of a hearing, the respondent may submit objections to the proposed assessment. He may deny the existence of the violation or ask that no penalty be assessed or that the amount be reduced. The respondent must set forth in full all facts supporting his denial of the alleged violation or his request for relief.

§ 216.53 Waiver of Hearing; Assessment of Penalty.

(a) If a written waiver of a hearing is timely made, or if a hearing is deemed to have been waived as provided in § 216.52(a), the Secretary shall proceed either to make an assessment of a civil penalty or to rescind the proposed assessment, taking into consideration such showing as may have been made by respondent pursuant to § 216.52(b). Such action shall become the final administrative decision of the Secretary when rendered, and any civil penalty assessed shall be collected in accordance with § 216.62. Notice of such final decision shall be promptly sent to the respondent by registered or certified mail, return receipt requested.

(b) If, despite the waiver of a hearing, the Secretary believes that there are material facts at issue which cannot otherwise be satisfactorily resolved, he may refer the case to an administrative law judge as provided in § 216.54.

§ 216.54 Appointment of Administrative Law Judge and Agency Representative; Notice of Hearing.

(a) If a written request for a hearing has been timely made, or the Secretary determines, pursuant to § 216.53(b), that a hearing should be held, the case shall be assigned to an administrative law judge appointed pursuant to 5 U.S.C. 3105. Written notice of the assignment shall promptly be given to the respondent, together with the name and address of the person who will present evidence on behalf of the Secretary at the hearing (the agency representative), and thereafter all pleadings and other documents shall be filed directly with the administrative law judge, with a copy served on the agency representative or the respondent as the case may be.

(b) The Secretary shall deliver to the administrative law judge a copy of the notice of proposed assessment, any response of the respondent thereto, and other materials deemed relevant to the case and shall furnish to the respondent a copy of any such materials not already in respondent's possession.

(c) The administrative law judge shall promptly cause to be served on the parties notice of the time and place of the hearing, which shall not be less than 10 days after service of the notice of hearing except in extraordinary circumstances.

§ 216.55 Failure to Appear; Official Transcript; Record for Decision.

(a) If the respondent fails to appear at the hearing, he will be deemed to have consented to a decision being rendered on the record made at the hearing.

(b) The Secretary shall provide the services of an official reporter who shall make the [only] official transcript of the proceedings. Copies of the official transcript may be obtained from the official reporter upon payment of the charges therefor.

(c) The transcript of testimony and exhibits, together with all papers and requests filed in the proceedings, shall constitute the exclusive record for decision.

§ 216.56 Duties and Powers of the Administrative Law Judge.

It shall be the duty of the administrative law judge to inquire fully into the facts as they relate to the matter before him. Upon assignment to him and before submission of the case, pursuant to § 216.60, to the Secretary, the administrative law judge shall have authority to

(1) Rule on offers of proof and receive relevant evidence;

(2) Take or cause depositions to be taken whenever the ends of justice would be served thereby;

(3) Regulate the course of the hearing and, if appropriate, exclude from the hearing persons who engage in misconduct, and strike all testimony of witnesses refusing to answer any questions ruled to be proper which are related to such questions;

(4) Hold conferences for the settlement or simplification of the issues by consent of the parties or upon his own motion;

(5) Dispose of procedural requests, motions or similar matters and order hearings reopened prior to issuance of

V 38 158 AUG 16 73 XUM

the administrative law judge's report and recommendations;

(6) Grant requests for appearance of witnesses or production of documents;

(7) Limit lines of questioning or testimony which are immaterial, irrelevant, or unduly repetitious;

(8) Examine and cross-examine witnesses and introduce into the record documentary or other evidence;

(9) Request the parties at any time during the hearing to state their respective positions concerning any issue in the case or theory in support thereof;

(10) Continue, at his discretion, the hearing from day-to-day, or adjourn it to a later date or to a different place;

(11) Take official notice of any matters not appearing in evidence in the record which are among the traditional matters of judicial notice; or of technical or scientific facts within the general or specialized knowledge of the Department of Commerce as an expert body; or of a document required to be filed with or published by a duly constituted Government body: *Provided,* That the parties shall be given notice, either during the hearing or by reference in the administrative law judge's decision, of the matters so noticed, and shall be given adequate opportunity to show the contrary;

(12) Prepare, serve, and submit his report and recommendations pursuant to § 216.60;

(13) Take any other action necessary and not prohibited by this section.

§ 216.57 Appearance of the Respondent and the Agency Representative.

The respondent and the agency representative shall have the right to appear at such hearing in person, by counsel, or by other representative, to examine and cross-examine witnesses to the extent required for a full and true disclosure of the facts, to conduct oral argument at the close of testimony and to introduce into the record relevant documentary or other evidence, except that the participation of either party shall be limited to the extent prescribed by the administrative law judge.

§ 216.58 Evidence.

All evidence which is relevant, material, reliable, and probative, and not unduly repetitious or cumulative, shall be admissible in the hearing.

§ 216.59 Filing of briefs.

The respondent and the agency representative may submit a brief to the administrative law judge. The original and one copy of such brief shall be filed within 7 days after the close of the hearing, except that the administrative law judge may, for good cause, grant an extension of such time for filing.

§ 216.60 Decisions.

(a) After the close of the hearing and the receipt of briefs, if any, the administrative law judge shall expeditiously prepare an initial decision. The initial decision shall contain findings of fact, conclusions, and the reasons or basis therefor, upon the material issues presented, and shall specifically find whether the respondent committed the violations alleged and, if so, the amount of the civil penalty to be assessed.

(b) The administrative law judge shall cause his initial decision to be served on the respondent and the agency representative within 20 days after the close of the hearing or the receipt of all briefs, whichever is later, and shall forthwith transfer the record in the case to the Secretary.

(c) Within 10 days of receipt of the initial decision of the administrative law judge, either the respondent or the agency representative may file with the Secretary an appeal of the initial decision. If no appeal is received within such period, the initial decision shall become the final administrative decision of the Secretary. If an appeal is received within such period, the Secretary shall render a final decision after considering the record and the appeal. Notice of an appeal by either party shall be promptly given in writing to the other party and notice of the Secretary's final decision upon appeal shall be promptly given in writing to both parties.

§ 216.61 Remission or mitigation.

For good cause shown, the Secretary may at any time remit or mitigate the assessment of a civil penalty made under the provisions of these regulations.

§ 216.62 Payment of penalty.

The respondent shall have 15 days from receipt of the final assessment decision within which to pay the penalty assessed. Upon a failure to pay the penalty, the Secretary may request the Attorney General to institute a civil action in the appropriate United States District Court to collect the penalty.

§ 216.63 Forfeiture and return of seized property.

(a) Whenever any cargo or marine mammal or marine mammal product has been seized pursuant to 107 of the Act, the Secretary shall expedite any proceedings commenced under these regulations.

(b) Whenever a civil penalty has been assessed by the Secretary under these regulations, any cargo, marine mammal, or marine mammal product seized pursuant to 107 of the Act shall be subject to forfeiture. If respondent voluntarily forfeits any such seized property or the monetary value thereof without court proceedings, the Secretary may apply the value thereof, if any, as determined by the Secretary, toward payment of the civil penalty.

(c) Whenever a civil penalty has been assessed under these regulations, and whether or not such penalty has been paid, the Secretary may request the Attorney General to institute a civil action in an appropriate United States District Court to compel forfeiture of such seized property or the monetary value thereof to the Secretary for disposition by him in such manner as he deems appropriate. If no judicial action to compel forfeiture is commenced within 30 days after final decision-making assessment of a civil penalty, pursuant to § 216.60, such seized property shall immediately be returned to the respondent.

(d) If the final decision of the Secretary under these regulations is that respondent has committed no violation of the Act or of any permit or regulations issued thereunder, any marine mammal, marine mammal product, or other cargo seized from respondent in connection with the proceedings under these regulations, or the bond or other monetary value substituted therefor, shall immediately be returned to the respondent.

(e) If the Attorney General commences criminal proceedings pursuant to section 105(b) of the Act, and such proceedings result in a finding that the person accused is not guilty of a criminal violation of the Act, the Secretary may institute proceedings for the assessment of a civil penalty under this part: *Provided,* That if no such civil penalty proceedings have been commenced by the Secretary within 30 days following the final disposition of the criminal case, any property seized pursuant to section 107 of the Act shall be returned to the respondent.

(f) If any seized property is to be returned to the respondent, the Regional Director shall issue a letter authorizing such return. This letter shall be dispatched to the respondent by registered mail, return receipt requested, and shall identify the respondent, the seized property, and, if appropriate, the bailee of the seized property. It shall also provide that upon presentation of the letter and proper identification, the seized property is authorized to be released. All charges for storage, care, or handling of the seized property accruing 5 days or more after the date of the return receipt shall be for the account of the respondent: *Provided,* That if it is the final decision of the Secretary under these regulations that the respondent has committed the alleged violation, all charges which have accrued for the storage, care, or handling of the seized property shall be for the account of the respondent.

§ 216.64 Holding and Bonding.

(a) Any marine mammal, marine mammal product, or other cargo seized pursuant to section 107 of the Act shall be delivered to the appropriate Regional Director of the National Marine Fisheries Service (see § 201.2 of this title) or his designee, who shall either hold such seized property or arrange for the proper handling and care of such seized property.

(b) Any arrangement for the handling and care of seized property shall be in writing and shall state the compensation to be paid. The Regional Director of the National Marine Fisheries Service, or his designee, shall attempt immediately to notify the respondent by telephone, but in any case shall, within 48 hours of the receipt of the seized property, dispatch notice thereof by registered or certified mail, return receipt requested, to the respondent. Such notice shall describe the property seized, including its declared value, and state the time, place, and reason for the seizure. Such notice shall also give the name and telephone number of a person in the Regional Director's Office who may be contacted regarding such seized property.

(c) The Regional Director of the National Marine Fisheries Service, upon written request of the respondent, may permit the respondent to post a bond or other surety satisfactory to the Regional Director, in lieu of the seized property: *Provided,* That posting of bond or other surety will not be permitted in the case of a living marine mammal seized under the Act. Such bond or other surety shall be in the amount of $10,000 for each alleged violation, as determined by the Regional Director, or an amount equal to the value of the seized property, whichever is greater. Such posting of bond or other surety will not be permitted unless the Regional Director is convinced that the respondent intends to maintain possession or control of the seized property until all proceedings regarding the seized property are completed; or unless the Regional Director is convinced that release of the seized property will not adversely interfere with such proceedings or with the purposes of the Act.

§ 216.65 Enforcement Officers.

Enforcement Agents of the National Marine Fisheries Service shall enforce the provisions of the Act and may take any actions authorized by the Act with respect to enforcement. In addition, the Secretary may utilize, by agreement, the personnel, services, and facilities of any other Federal Agency for the purposes of enforcing this Act. Pursuant to the terms of section 107(b) of the Act, the Secretary may also designate officers and employees of any State or of any possession of the United States to enforce the provisions of this Act.

Dated: August 13, 1973.

ROBERT W. SCHONING,
Director, National Marine Fisheries Service.

[29 CFR Parts 1910, 1927]

EMERGENCY TEMPORARY STANDARD FOR CERTAIN CARCINOGENS

Amended Notice of Proposed Rulemaking

On May 3, 1973, an emergency temporary standard on certain carcinogens was published in the Federal Register (38 FR 10929). In accordance with section 6(c) of the Williams-Steiger Occuptional Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655), a notice of proposed rulemaking was published in the July 16, 1973, issue of the FEDERAL REGISTER (38 FR 18900). The notice proposed (1) the adoption of the emergency temporary standard on certain carcinogens as a "permanent" standard; (2) the adoption of supplementary rules the substance of which was described; and (3) the adoption of a new Part 1927 on permits for the use of carcinogens. The notice also included an invitation to interested persons to participate in the rulemaking in writing and orally at a hearing scheduled for September 11, 1973.

On July 27, 1973, a revision of the May 3, 1973, emergency temporary standard on the carcinogens involved was published in the FEDERAL REGISTER (38 FR 20074). Accordingly, pursuant to sections 6(b) and (c) of the Williams-Steiger Occupational Safety and Health Act of 1970, the July 16, 1973, notice of proposed rulemaking is amended as follows:

(1) The proposal to adopt 29 CFR 1910.93c, reading as set forth at pages 18901–18902 of the July 16 issue of the FEDERAL REGISTER, is withdrawn. In lieu thereof, it is proposed to adopt 29 CFR 1910.93c as revised on July 27, 1973, and reading as set forth at pages 20074–20076 of the July 27 issue of the FEDERAL REGISTER; and

(2) The informal hearing scheduled for September 11, 1973, will be held in Hearing Room B of the Interstate Commerce Commission, 12th Street and Constitution Avenue, NW., Washington, D.C.

The remaining proposals and terms of the July 16 notice are unchanged, except that references to § 1910.93c shall be deemed to be to § 1910.93c as revised.

Signed at Washington, D.C. this 13th day of August, 1973.

JOHN STENDER,
Assistant Secretary of Labor.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social and Rehabilitation Service

[45 CFR Part 205]

PUBLIC ASSISTANCE PROGRAMS

Safeguarding Information

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare. The proposed regulations implement provisions of section 413 of Public Law 92–603 (Social Security Amendments of 1972) which provides for release of case information (adult categories only) to public officials for their purposes.

Prior to the adoption of the proposed regulations, consideration will be given to any comments, suggestions, or objections thereto which are submitted in writing to the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, 330 Independence Avenue, S.W., Washington, D.C. 20201, on or before September 17, 1973. Comments received will be available for public inspection in Room 5121 of the Department's offices at 330 C Street, S.W., Washington, D.C., on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (area code 202–963–7361).

(Sec. 1102, 49 Stat. 647; 42 U.S.C. 1302)

Dated: June 14, 1973.

FRANCIS D. DEGEORGE,
Acting Administrator, Social and Rehabilitation Service.

Approved: August 6, 1973.

CASPER W. WEINBERGER,
Secretary.

Section 205.50(a) of Part 205, Chapter II, Title 45 of the Code of Federal Regulations is revised to read as set forth below:

§ 205.50 Safeguarding information.

(a) *State plan requirements.* A State plan under Title I, IV–A, X, XIV, XVI, or XIX of the Social Security Act, except as provided in paragraph (b) of this section, must meet the requirements specified below:

(1) Pursuant to State statute which imposes legal sanctions:

(i) Provide safeguards which permit the use or disclosure of information concerning applicants or recipients only for purposes directly connected with the administration of the State plan except as provided in paragraph (a)(6) of this section;

(ii) Provide that the State agency has authority to implement and enforce the provisions for safeguarding information about applicants and recipients; and

(iii) Provide that publication of lists or names of applicants and recipients shall be prohibited.

(2) The agency shall publicize provisions governing the confidential nature of information about applicants and recipients, including the legal sanctions imposed for improper disclosure and use, and shall make such provisions available to applicants and recipients and to other persons and agencies to whom information is disclosed.

(3) The agency shall inform applicants and recipients that information may be disclosed to public officials who require it in connection with their official duties as provided in paragraph (a)(6) of this section or to other persons for purposes directly connected with the administration of the State plan.

(4) All materials sent or distributed to applicants, recipients, or medical vendors, including material enclosed in envelopes containing checks, shall be limited to those which are directly related to the administration of the program and do not have political implications. Under this requirement:

(i) Specifically excluded from mailing or distribution are materials such as "holiday" greetings, general public announcements, voting information, alien registration notices;

(ii) Not prohibited from such mailing or distribution are materials in the immediate interest of the health and wel-

V 38-158 AUG 16 73 XUM

fare of applicants and recipients, such as announcements of free medical examinations, availability of surplus food, and consumer protection information;

(iii) Only the names of persons directly connected with the administration of the program are contained in material sent or distributed to applicants, recipients, and vendors, and such persons are identified only in their official capacity with the State or local agency.

(5) The agency shall have clearly defined criteria which govern the types of information that are safeguarded and the conditions under which such information may be released or used. Under this requirement:

(i) Types of information to be safeguarded include but are not limited to:

(a) The names and addresses of applicants and recipients and amounts of assistance provided (unless excepted under paragraph (b) of this section);

(b) Information related to the social and economic conditions or circumstances of a particular individual;

(c) Agency evaluation of information about a particular individual;

(d) Medical data, including diagnosis and past history of disease or disability, concerning a particular individual.

(ii) The release or use of information concerning individuals applying for or receiving financial or medical assistance is restricted to persons or agency representatives who are subject to standards of confidentiality which are comparable to those of the agency administering the financial and medical assistance programs.

(iii) In the event of the issuance of a subpoena for the case record or for any agency representative to testify concerning an applicant or recipient, the court's attention is called, through proper channels to the statutory provisions and the policies or rules and regulations against disclosure of information. Release of information pursuant to a subpoena for the case record or for any agency representative to testify concerning an applicant or recipient in judicial proceedings related to welfare fraud, child support, child custody, conservatorship, guardianship, dependency and appropriate juvenile court matters is directly connected with the administration of the State plan.

(iv) The same policies are applied to requests for information from a governmental authority, the courts, or a law enforcement official as from any other outside source.

(v) Sharing information concerning applicants or recipients with other public or private agencies when the agencies are assisting the State or local agency in determination and verification of eligibility or related matters is directly connected with the administration of the State plan. Such agencies shall not use shared information for any purpose not directly connected with the administration of the State plan.

(6) Applicable to titles I, X, XIV, and XVI only:

(i) Pursuant to State statute which imposes legal sanctions, provide safeguards which permit the use or disclosure of information concerning applicants or recipients to public officials who require such information in connection with their official duties;

(ii) Require, as a condition for the disclosure of such information, a written statement by the public official or his designee, specifying the information requested and certifying that the information is required for, and shall be used only in connection with, the performance of his official duties. The statement shall further specify that such information shall not be disclosed to other parties except in connection with the official duties for which the public official was initially provided the information. The use by others of information obtained from the agency is subject to the conditions of the original disclosure. Employees of public agencies who are designated by a public official to request information of the welfare agency must be employed at the level of supervisory or executive staff;

(iii) Provide that the disclosure of information shall in each instance be specifically authorized by the director of the agency or his designee, who must be at the level of supervisory or executive staff. The agency shall not obtain additional information on behalf of the requesting public officials. Location, compilation, and furnishing of information already in the agency's possession remain the responsibility of the agency. The agency may charge a reasonable fee to defray its costs of locating, compiling, and transmitting requested information;

(iv) Provide that the agency shall not disclose to any person, including public officials, information obtained from the Social Security Administration which is subject to limitations imposed pursuant to section 1106 of the Social Security Act and by regulations issued pursuant thereto, unless specifically authorized to the contrary by the Social Security Administration; and

(v) Provide that the agency shall maintain a record of the circumstances under which disclosures are made.

FEDERAL POWER COMMISSION

[18 CFR 141]

[Docket No. RM74-2]

STORAGE CAPACITY AND FUEL STORED

Monthly Report

AUGUST 6, 1973.

Take notice that, pursuant to 5 U.S.C. § 553 and sections 202, 301, 304(a), 309 and 311 of the Federal Power Act, the Commission proposes to issue a new FPC Form No. 423–Storage, Monthly Report of Fuel Storage Capacity and Fuel Stored, to be designated in 18 CFR § 141.61, prescribing the collection of data on fuel storage capacity and the actual amount of fuel stored on a monthly basis from each steam, gas turbine and internal combustion engine plant of electric utilities subject to Commission jurisdiction. While the information sought by means of the instant proposal relates to matters separate and distinct from fuel cost and quality data which is the concern of FPC Form No. 423, the Commission in the exercise of its supervisory jurisdiction under the Federal Power Act has chosen to use the reporting criteria under FPC Form No. 423 as a convenient guideline and the monthly filing requirement as an amenable vehicle for the elicitation of this information.

As presently constituted, FPC Form No. 423 requires that a separate form be completed by each electric power producer for each of its steam electric generating plants having a capacity of 25 megawatts or more during the reporting month. The completed form is due on the 45th day after the close of the reference month.[1] On July 19, 1973, the Commission issued a Notice of Proposed Rulemaking in Docket No. R–432(A), which proposes to amend FPC Form No. 423 to expand the types of generating plants of electric utilities subject to the reporting requirements therein to include gas turbine and internal combustion engine plants in addition to the steam generating plants presently required to report. The instant proposal is designed to conform with the scope of the proposed amendment of FPC Form No. 423. The proposal in this Docket will require that all steam, gas turbine and internal combustion engine generating plants of jurisdictional electric utilities file monthly, as an adjunct to their filing of FPC Form No. 423, a copy of proposed FPC Form No. 423–STORAGE.

The general statutory mandate of the Federal Power Commission conveys responsibility to insure the reliability of electric power generation in the United States. In order to effectively supervise both independent and interconnected systems reliability the Commission believes that information on fuel storage capacity at each electric utility generating facility and information with regard to fuel which is in fact in storage at these facilities will provide a basis for a more accurate evaluation of both regional and nationwide preparedness with respect to electric power generation. The information proposed to be garnered will also aid in an effective determination on a month-by-month and plant-by-plant basis of each plant's preparedness to meet its generation commitments.

The format of this proposed FPC Form No. 423–STORAGE and the specific information required to be disclosed are set forth in Attachment A.

Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, not later than August 31, 1973, data, views, comments or suggestions in writing concerning all or part of the amendment proposed herein. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, 825 North Capitol Street, NE, Room 1000, Washington, D.C. 20426, during regular business hours. The Commission will consider all such written submittals before acting on the matters herein proposed. An original and 14 conformed copies should be filed with the Secretary of the Commission. In addition, interested persons wishing to have their comments considered in the clearance of the proposed amendment to FPC Form No. 423, pursuant to 44 U.S.C. §§ 3501–3511, may, at the same time, submit a conformed copy of their comments directly to the Clearance Officer, Office of Statistical Policy, Office of Management and Budget, Washington, D.C. 20503. Submittals to the Commission should indicate the name, title, mailing address and telephone number of the person to whom communications concerning the proposal should be addressed, and whether the person filing them requests a conference with the staff of the Federal Power Commission to discuss the proposed amendment. The staff, in its discretion, may grant or deny requests for conference.

By direction of the Commission.

MARY B. KIDD,
Acting Secretary.

[1] On June 7, 1972, the Commission issued Order No. 453 in Docket No. R–432 enacting the new 18 CFR § 141.61 and FPC Form 423. On August 3, 1972, the Commission issued an order denying the application for rehearing in Docket No. R–432 made by the National Coal Association. This denial was appealed to the United States Circuit Court of Appeals for the District of Columbia. National Coal Association v. Federal Power Commission, No. 72–1919, D.C. Cir., filed October 2, 1972. The parties to this appeal filed, on May 14, 1973, a joint motion to withdraw the above appeal, which was approved by the Court *nunc pro tunc*. Subsequently, on the application of Alabama Power Company and other electric utilities, the Commission, on March 2, 1973, issued Order Denying Petition for Amendment of the Commission's regulations with Respect to Form No. 423, in Docket No. R–432. An Order Denying Rehearing in this matter was issued on April 16, 1973, and this denial has been appealed to the Circuit Court of Appeals for the District of Columbia. Alabama Power Company, *et al.* v. Federal Power Commission, No. 73–1436, D.C. Cir. filed April 25, 1973.

[50 CFR Part 18]

MARINE MAMMALS

Notice of Proposed Rulemaking

Regulations were published in the FEDERAL REGISTER of December 21, 1972 (37 FR 28173–28177) to implement the Marine Mammal Protection Act of 1972 (86 Stat. 1027). Although these were final rules, comments, suggestions and objections were invited for a sixty day period until February 21, 1973. Twenty-seven comments were received.

It is proposed to amend the regulations to: (i) Reflect comments received, (ii) correct certain technical errors, and (iii) set forth in full, Subpart D—(a) Scientific Research and Public Display Permits, (b) Undue Economic Hardship Exemptions, (c) Procedures for Issuance of Permits, and revocation of Permits.

As a result of continuing consultation with interested parties, including representatives of the U.S. Department of Commerce, (which has jurisdiction over the other marine mammals—seals, sea lions, porpoises and whales), the rules published on December 21, 1972 (37 FR 28173–28177) have been reworded for clarity and for purposes of uniformity. The regulations of the two Departments will now be virtually identical in format and substance.

The procedures to be followed in the assessment of civil penalties will be contained in Part 11 (§§ 11.11 through 11.24) of this subchapter, which will be applicable to the assessment of civil penalties under this Part 18 when the revision of subchapter B, which was proposed in 38 FR 10208 on April 25, 1973, becomes effective.

Comments were received in the following categories: (1) The exemption for Indians, Aleuts and Eskimos—many comments objected to the disallowance of sewing machines in making authentic native handicrafts and clothing; (2) Definition of Pregnant—several comments urged the adoption of the Department of Commerce definition; and (3) several comments requested that § 18.22 be amended to require reports from local governments.

The Comments received and the continuing consultations have resulted in the following changes:

1. *Section 18.2*—Deletes reference to "other marine mammals and marine mammal products". This has been replaced by listing those families under Department of Commerce jurisdiction.

2. *Section 18.3—Authentic native articles of handicraft*—Deletes reference to sewing machines as an example of modern implements.

Commercial fishing operation—Adds definition.

Incidental catch—Clarifies the definition and inserts the word "fishing," between commercial and operations in last line.

Marine Mammal—Clarifies the definition and deletes reference to sub-specific names.

Native village or town—New wording to conform with Department of Commerce definition.

Take—Deletes the sentence appearing after the colon and replaces it with new language.

3. *Section 18.4*—Makes reference to both (a) Federal and (b) State laws.

4. *Section 18.14*—Adds a new section requiring the importer to show the identity of marine mammal or marine mammal product being imported.

5. *Section 18.21*—New addition which identifies the specific convention which is considered to be referred to in the statutory exception.

6. *Section 18.22*(b)—Renumbered subsection (a) and added a new subsection (b) requiring submission of a written report every six months.

7. *Section 18.23*(c)—Adds a new section which provides for a tannery and other persons to act as registered agents for processing and possession of marine mammal products for Indians, Aleuts or Eskimos.

8. *Section 18.24*—Rewritten for clarity by inserting after Secretary of Commerce, the sentence "However, any marine mammal taken as an incidental catch may not be retained."

9. *Subpart D—§ 18.31*—Scientific Research and Public Display Permits, has been drafted to conform with Department of Commerce § 216.31. General information and certification require-

V 38 158 AUG 16 73 XUM

ments required in the permit application are contained in 50 CFR 12.12(a).

10. *Section 18.32*—Undue economic hardship exemption renumbered as scientific research and public display sections have been combined.

11. *Section 18.33*—Waiver of the Moratorium [Reserved]—Renumbered.

12. *Section 18.34*—New section on Procedures for issuance of permits and modification, suspension or revocation conforms with Department of Commerce, § 216.34.

Subpart A—Introduction

Sec.
18.1 Purpose of regulations.
18.2 Scope of regulations.
18.3 Definitions.
18.4 Other laws and regulations.

Subpart B—Prohibitions

18.11 Prohibited taking.
18.12 Prohibited importation.
18.13 Prohibited uses, possession, transportation, and sales.
18.14 Proof of compliance.

Subpart C—General Exceptions

18.21 Actions permitted by international treaty, convention, or agreement.
18.22 Taking by State or local government officials.
18.23 Native exceptions.
18.24 Taking incidental to commercial fishing operations.
18.25 Exempted marine mammals or marine mammal products.

Subpart D—Special Exceptions

18.31 Scientific research permits, and Public display permits.
18.32 Undue economic hardship.
18.33 Waiver of the Moratorium [Reserved].
18.34 Procedures for issuance of permits and modification, suspension, or revocation thereof.

Subpart E—Depleted Species or Stocks [Reserved]

AUTHORITY: Marine Mammal Protection Act of 1972, 86 Stat. 1027, 16 U.S.C. 1361–1407, Public Law 92–522.

Subpart A—Introduction

§ 18.1 Purpose of regulations.

The regulations contained in this part implement the Marine Mammal Protection Act of 1972, 86 Stat. 1027, 16 U.S.C. 1361–1407, Public Law 92–522, which among other things, restricts the taking, possession, transportation, selling, offering for sale, and importing of marine mammals.

§ 18.2 Scope of regulations.

This Part 18 applies solely to marine mammals and marine mammal products as defined in § 18.3. For regulations under the Act with respect to cetacea (whales and porpoises), pinnipedia, other than walrus (seals and sea lions), see 50 CFR Part 216.

§ 18.3 Definitions.

In addition to definitions contained in the Act and in Part 10 of this subchapter, and unless the context otherwise requires, in this Part 18:

"Act" means the Marine Mammal Protection Act of 1972, 86 Stat. 1027, 16 U.S.C. 1361–1407; Public Law 92–522.

"Alaskan Native" means a person defined in the Alaska Native Claims Settlement Act [43 U.S.C. section 1603(b) (85 Stat. 588)] as a citizen of the United States who is of one-fourth degree or more Alaska Indian (including Tsimshian Indians enrolled or not enrolled in the Metlaktla Indian Community), Eskimo, or Aleut blood, or combination thereof. The term includes any Native, as so defined, either or both of whose adoptive parents are not Natives. It also includes, in the absence of proof of a minimum blood quantum, any citizen of the United States who is regarded as an Alaska Native by the Native village or town of which he claims to be a member and whose father or mother is (or, if deceased, was) regarded as Native by any Native village or Native town. Any citizen enrolled by the Secretary pursuant to section 5 of the Alaska Native Claims Settlement Act shall be conclusively presumed to be an Alaskan Native for purposes of this part.

"Authentic native articles of handicrafts and clothing" means items made by an Indian, Aleut, or Eskimo which (a) were commonly produced on or before December 21, 1972, and (b) are composed wholly or in some significant respect of natural materials, and (c) are significantly altered from their natural form and which are produced, decorated, or fashioned in the exercise of traditional native handicrafts without the use of pantographs, multiple carvers, or similar mass copying devices. Improved methods of production utilizing modern implements such as sewing machines or modern techniques at a tannery registered pursuant to § 18.23(c) may be used so long as no large scale mass production industry results. Traditional native handicrafts include, but are not limited to, weaving, carving, stitching, sewing, lacing, beading, drawing, and painting. The formation of traditional native groups, such as cooperatives, is permitted so long as no large scale mass production results.

"Commercial fishing operation" means the lawful harvesting of fish from the marine environment for profit as part of an on-going business enterprise. Such term shall not include sport fishing activities whether or not carried out by charter boat or otherwise, and whether or not the fish so caught are subsequently sold.

"Endangered species" means a species or subspecies of marine mammal listed pursuant to the Endangered Species Conservation Act of 1969 (See Part 17 of this subchapter).

"Incidental catch" means the taking of a marine mammal (a) because it is directly interfering with commercial fishing operations, or (b) as a consequence of the steps used to secure the fish in connection with commercial fishing operations: *Provided, however*, That a marine mammal so taken must immediately be returned to the sea with a minimum of injury; and *Provided, further*, That the taking of a marine mammal which otherwise meets the requirements of this definition shall not be considered as incidental catch of that mammal if it is used subsequently to assist in commercial fishing operations.

"Marine mammal" means specimens of the following species, whether alive or dead, and any part thereof, including but not limited to, any raw, dressed, or dyed fur or skin:

Scientific name:	Common name
Ursus maritinus	Polar Bear.
Enhydra lutris	Sea Otter.
Odobenus rosmarus	Walrus.
Dugong dugong	Dugong.
Trichechus manatus	West African manatee.
Trichechus inunguis	West Indian manatee.
Trichechus senegalensis	Amazonian manatee.

NOTE: Common names given may be at variance with local usage, they are not required to be provided by the Act, and they have no legal significance.

"Native village or town" means any community, association, tribe, band, clan, or group.

"Pregnant" means pregnant near term.

"Subsistence" means the use by Alaskan Natives of marine mammals taken by Alaskan Natives for food, clothing, shelter, heating, transportation, and other uses necessary to maintain the life of the taker or for those who depend upon the taker to provide them with such subsistence.

"Take" means to harass, hunt, capture, collect, or kill, or attempt to harass, hunt, capture, collect, or kill any marine mammal, including, without limitation, any of the following: The collection of dead animals or parts thereof; the restraint or detention of a marine mammal, no matter how temporary; tagging a marine mammal; or the negligent or intentional operation of an aircraft or vessel, or the doing of any other negligent or intentional acts which results in the disturbing or molesting of a marine mammal.

"Wasteful manner" means any taking or method of taking which is likely to result in the killing or injuring of marine mammals beyond those needed for subsistence purposes or for the making of authentic native articles of handicrafts and clothing or which results in the waste of a substantial portion of the marine mammal and includes without limitation the employment of a method of taking which is not likely to assure the capture or killing of a marine mammal, or which is not immediately followed by a reasonable effort to retrieve the marine mammal.

§ 18.4 Other laws and regulations.

(a) (See 50 CFR 10.2 in regards to other Federal laws and regulations).

(b) Section 109 of the Act provides that on or after December 21, 1972, no State may adopt any law or regulation, or enforce any existing law or regulation, which relates to the taking of marine mammals or which in effect nullifies an exemption or exception created by the Act, unless such laws or regulations have been previously reviewed my the Secretary and determined by him to be consistent with the provisions of the Act and the regulations in this part. In no event, however, will the Secretary approve any State laws or regulations which:

(1) Purport to authorize a State to issue permits in situations which would require a Federal permit under the Act, unless and until appropriate Federal regulations have been issued under section 103 of the Act, and where appropriate, the Secretary has waived the moratorium on such taking or importation under section 101(a)(3) of the Act; or

(2) Purport to authorize a State to issue permits for scientific research or for public display (except that a State may, under authority of a general scientific research permit granted by the Secretary to it, assign individual scientific research permits to State employees or representatives of State universities or other State agencies, subject to the provisions of the general permit); or

(3) Purport to authorize the State to grant exemptions from the Act on the grounds of economic hardship under § 18.32.

(c) Any State may obtain a review and determination of its existing laws and regulations from the Secretary by submitting a written request to that effect to the Director accompanied by the following documents, unless otherwise specified by the Secretary:

(1) A complete set of laws and regulations to be reviewed, certified as complete, true and correct, by the appropriate State official;

(2) A scientific description by species and population stock of the marine mammals to be subjected to such laws and regulations;

(3) A description of the organization, staffing and funding for the administration and enforcement of the laws and regulations to be reviewed;

(4) A description, where such laws and regulations provide for discretionary authority on the part of State officials to issue permits, of the procedures to be used in granting or withholding such permits and otherwise enforcing such laws; and

(5) Such other materials and information as the Secretary may request or which the State may deem necessary or advisable to demonstrate the compatibility of such laws and regulations with the policy and purposes of the Act and the rules and regulations issued thereunder.

(d) In making a determination with respect to any State laws and regulations, the Secretary shall take into account:

(1) Whether such laws and regulations are consistent with the purpose and policies of the Act and the rules and regulations issued thereunder;

(2) The extent to which such laws and regulations are consistent with, or constitute an integrated management or protection program with, the laws and regulations of other jurisdictions whose activities may affect the same species or stocks or marine mammals; and

(3) The existence of or preparations for an overall State program regarding the protection and management of marine mammals to which the laws and regulations under review relate.

(e)(1) To assist States in preparing laws and regulations relating to marine mammals, the Secretary will also, at the written request of any State, make a preliminary review of any such proposed laws or regulations. Such review will be strictly advisory in nature and shall not be binding upon the Secretary. Upon adoption of previously reviewed laws and regulations, the same shall be subject to a complete review for a final determination pursuant to these regulations. To be considered for preliminary review, all legislative and regulatory proposals must be forwarded to the Director and certified by the appropriate State official. In addition, they shall be accompanied to the extent available with the same materials required under paragraph (b) of this section, unless otherwise provided by the Secretary.

(2) All determinations by the Secretary (other than as a result of preliminary reviews of proposed laws and regulations) shall be final.

(f) The implementation and enforcement of all State laws and regulations previously approved by the Secretary pursuant to this section shall be subject to continuous monitoring and review by the Secretary pursuant to such rules and regulations as he may adopt. Any modifications, amendments; deletions or additions to laws or regulations previously approved shall be deemed to be new laws and regulations for the purposes of these regulations and shall require review and approval by the Secretary before their adoption.

(g) Notwithstanding the foregoing, nothing herein shall prevent (1) the taking of a marine mammal by a State or local government official pursuant to § 18.22 of the regulations in this part, or (2) the adoption or enforcement of any law or regulation relating to any marine mammal taken or imported prior to the effective date of the Act.

Subpart B—Prohibitions

§ 18.11 Prohibited taking.

Except as otherwise provided in Subparts C and D of this Part 18, it is unlawful for:

(a) Any person, vessel, or conveyance subject to the jurisdiction of the United States to take any marine mammal on the high seas, or

(b) Any person, vessel, or conveyance to take any marine mammal in waters or on lands under the jurisdiction of the United States.

§ 18.12 Prohibited importation.

(a) Except as otherwise provided in Subparts C and D of this Part 18, it is unlawful for any person to import any marine mammal or marine mammal product into the United States.

(b) Regardless of whether an importation is otherwise authorized pursuant to Subparts C and D of this Part 18, it is unlawful for any person to import into the United States any:

(1) Marine mammal:

(i) Taken in violation of the Act, or

(ii) Taken in another country in violation of the laws of that country;

(2) Any marine mammal product if

(i) The importation into the United States of the marine mammal from which such product is made would be unlawful under subparagraph (1) of this paragraph, or

(ii) The sale in commerce of such product in the country of origin of the product is illegal.

(c) Except in accordance with an exception referred to in Subpart C and §§ 18.31 and 18.33 of this Part 18, it is unlawful to import into the United States any:

(1) Marine mammal which was pregnant at the time of taking,

(2) Marine mammal which was nursing at the time of taking, or less than 8 months old, whichever occurs later,

(3) Specimen of an endangered species or subspecies of marine mammals,

(4) Specimen taken from a depleted species or stock of marine mammals, or

(5) Marine mammal taken in an inhumane manner.

(d) It is unlawful to import into the United States any fish, whether fresh, frozen, or otherwise prepared, if such fish were caught in a manner proscribed by the Secretary of Commerce for persons subject to the jurisdiction of the United States, whether or not any marine mammals were in fact taken incident to the catching of the fish.

§ 18.13 Prohibited uses, possession, transportation, and sales.

Except as otherwise provided in the Act or these regulations, it is unlawful for:

(a) Any person to use any port, harbor or other place under the jurisdiction of the United States for any purpose in any way connected with a prohibited taking or any unlawful importation of any marine mammal or marine mammal products; or

(b) Any person subject to the jurisdiction of the United States to possess any marine mammal taken in violation of the Act or these regulations, or to transport, sell, or offer for sale any such marine mammal or any marine mammal product made from any such mammal.

(c) Any person subject to the jurisdiction of the United States to use in a commercial fishery, any means or method of fishing in contravention of regulations and limitations issued by the Secretary of Commerce for that fishery to achieve the purposes of this Act.

§ 18.14 Proof of compliance.

In any case where any marine mammal or any marine mammal product is imported into the United States, the importer may be required to show to the satisfaction of the Director whether the importation in question is in compliance with the requirements of the Act or regulations, and the burden shall be on the importer to prove the identity of the marine mammal or marine mammal products or to show compliance with the regulations. Until such time as the importer can show compliance, the Director, or the Supervisory Customs Inspector, may refuse to clear the marine mammal or marine mammal product prior to final

V 38-158 AUG 16 73 XUM

clearance for entry into the United States for domestic consumption or use.

Subpart C—General Exceptions

§ 18.21 Actions permitted by international treaty, convention, or agreement.

The Act and these regulations shall not apply to the extent that they are inconsistent with the provisions of any international treaty, convention or agreement, or any statute implementing the same, relating to the taking or importation of marine mammals or marine mammal products, which was existant and in force prior to December 21, 1972, and to which the United States was a party. Specifically, the regulations in Subpart B of this part and the provisions of the Act shall not apply to activities carried out pursuant to the Interim Convention on the Conservation of North Pacific Fur Seals signed in Washington on February 9, 1957, and the Fur Seal Act of 1966, 16 U.S.C. 1151–1187, as, in each case, from time to time amended.

§ 18.22 Taking by State or local government officials.

(a) A State or local government official or employee may take a marine mammal in the course of his duties as an official or employee and no permit shall be required, if such taking:

(1) Is accomplished in a humane manner;

(2) Is for the protection or welfare of such mammal or for the protection of the public health or welfare; and

(3) Includes steps designed to insure return of such mammal, if not killed in the course of such taking, to its natural habitat.

In addition, any such official or employee may, incidental to such taking, possess and transport, but not sell or offer for sale, such mammal and use any port, harbor or other place under the jurisdiction of the United States. All steps reasonably practicable under the circumstances shall be taken by any such employee or official to prevent injury or death to the marine mammal as the result of such taking.

(b) Each taking permitted under this Section should be included in a written report, to be submitted to the Director every six months, beginning December 31, 1973. Unless otherwise permitted by the Secretary, the report shall contain a description of:

(1) The animal involved;

(2) The circumstances requiring the taking;

(3) The method of taking;

(4) The name and official position of the State official or employee involved;

(5) The disposition of the animal, including in cases where the animal has been retained in captivity, a description of the place and means of confinement and the measures taken for its maintenance and care; and

(6) Such other information as the Secretary may require.

The reports shall be mailed to the Director, Bureau of Sport Fisheries and Wildlife, U.S. Department of the Interior, Washington, D.C. 20240.

§ 18.23 Native exceptions.

(a) Taking: Notwithstanding the prohibitions of Subpart B of this Part 18, but subject to the restrictions contained in this section, any Indian, Aleut, or Eskimo who resides on the coast of the North Pacific Ocean or the Arctic Ocean may take any marine mammal without a permit, if such taking is:

(1) By Alaskan Natives who reside in Alaska and such taking is for subsistence; or

(2) For purposes of creating and selling authentic native articles of handicraft and clothing, and

(3) In each case, not accomplished in a wasteful manner.

(b) Restrictions: (1) No marine mammal taken for subsistence may be sold or otherwise transferred to any person other than an Alaskan Native or delivered, carried, transported, or shipped in interstate or foreign commerce, unless:

(i) It is being sent by an Alaskan Native directly or through a registered agent to a tannery registered under paragraph (c) of this section for the purpose of processing, and will be returned directly or through a registered agent to the Alaskan Native; or

(ii) It is an edible portion and it is sold in a native village or town in Alaska

(2) No marine mammal taken for purposes of creating and selling authentic native articles of handicraft and clothing may be sold or otherwise transferred to any person other than an Indian, Aleut or Eskimo, or delivered, carried, transported or shipped in interstate or foreign commerce, unless:

(i) It is being sent by an Indian, Aleut or Eskimo directly or through a registered agent to a tannery registered under paragraph (c) of this section for the purpose of processing, and will be returned directly or through a registered agent to the Indian, Aleut or Eskimo; or

(ii) It has been first transformed into an authentic native article of handicraft or clothing; or

(iii) It is an edible portion and it is sold (A) in an Alaskan native village or town or (B) to an Alaskan Native for his consumption.

(c) Any tannery, or person who wishes to act as an agent, within the jurisdiction of the United States may apply to the Director for registration as a tannery or an agent which may possess and process marine mammal products for Indians, Aleuts, or Eskimos. The application shall include the following information:

(1) The name and address of the applicant;

(2) A description of the applicant's procedures for receiving, storing, processing, and shipping materials;

(3) A proposal for a system of bookkeeping and/or inventory segregation by which the applicant could maintain accurate records of marine mammals received from Indians, Aleuts, or Eskimos, pursuant to this section;

(4) Such other information as the Secretary may request;

(5) A certification in the following language:

I hereby certify that the foregoing information is complete, true, and correct to the best of my knowledge and belief. I understand that this information is submitted for the purpose of obtaining the benefit of an exception under the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407) and regulations promulgated thereunder, and that any false statement may subject me to the criminal penalties of 18 U.S.C. 1001, or to penalties under the Marine Mammal Protection Act of 1972.

(6) The signature of the applicant. The sufficiency of the application shall be determined by the Secretary, and in that require any elaboration or further information deemed necessary. The registration of a tannery shall be subject to such conditions as the Secretary prescribes, which may include, but are not limited to, provisions regarding records, inventory segregation, reports, and inspection. The Secretary may charge a reasonable fee for such applications, including an appropriate apportionment of overhead and administrative expenses of the Department of Interior.

(d) Notwithstanding the preceding provisions of this section, whenever, under the Act, the Secretary determines any species of stock of marine mammals to be depleted, he may prescribe regulations pursuant to sec. 103 of the Act upon the taking of such marine mammals by any Indian, Aleut, or Eskimo and, after promulgation of such regulations, all takings of such marine mammals by such person shall conform to such regulations.

§ 18.24 Taking incidental to commercial fishing operations.

Persons may take marine mammals incidental to commercial fishing operations until October 21, 1974: *Provided*, That such taking is by means of equipment and techniques prescribed in regulations issued by the Secretary of Commerce. However, any marine mammal taken as an incidental catch may not be retained. It shall be the immediate goal that the incidental kill or incidental serious injury of marine mammals permitted in the course of commercial fishing operations be reduced to insignificant levels approaching a zero mortality and serious injury rate.

§ 18.25 Exempted marine mammals or marine mammal products.

(a) The provisions of the Act and these regulations shall not apply:

(1) To any marine mammal taken before December 21, 1972, or

(2) To any marine mammal product if the marine mammal portion of such product consists solely of a marine mammal taken before such date.

(b) The prohibitions contained in § 18.12(c) (3) and (4) shall not apply to marine mammals or marine mammal products imported into the United States before the date on which notice is published in the FEDERAL REGISTER of the proposed rulemaking with respect to the designation of the species of stock concerned as depleted or endangered:

(c) Section 18.12(b) shall not apply to articles imported into the United States before the effective date of the foreign law making the taking or sale, as the case may be, of such marine mammals or marine mammal products unlawful.

Subpart D—Special Exceptions

§ 18.31 Scientific research permits and public display permits.

The Director may, upon receipt of an application and in accordance with the issuance criteria of this section, issue a permit authorizing the taking and importation of marine mammals for scientific research purposes or for public display.

(a) *Application procedures.* Applications for permits to take and import marine mammals for scientific research purposes or for public display shall be submitted by letter of application to the Director. Each such application shall contain the general information and certification required by § 12.12(a) of this Subchapter plus the following additional information:

(1) A statement of the purpose, date, location and manner of the taking or importation;

(2) A description of the marine mammal or the marine mammal products to be taken or imported, including the species or subspecies involved; the population stock, when known, the number of specimens or products (or the weight thereof, where appropriate); and the anticipated age, size, sex, and condition (i.e., whether pregnant or nursing) of the animals involved;

(3) If the marine mammal is to be taken and transported alive, a complete description of the manner of transportation, care and maintenance, including the type, size, and construction of the container or artificial environment; arrangements for feeding and sanitation; a statement of the applicant's qualifications and previous experience in caring for and handling captive marine mammals and a like statement as to the qualifications of any common carrier or agent to be employed to transport the animal; and a written certification of a licensed veterinarian knowledgeable in the field of marine mammals that he has personally reviewed the arrangements for transporting and maintaining the animals and that in his opinion they are adequate to provide for the well-being of the animal;

(4) If the application is for a scientific research permit, a detailed description of the scientific research project or program in which the marine mammal or marine mammal product is to be used including a copy of the research proposal relating to such program or project and the names and addresses of the sponsor or cooperating institution and the scientists involved;

(5) If the application is for a scientific research permit, and if the marine mammal proposed to be taken or imported is listed as an endangered species pursuant to the Endangered Species Conservation Act of 1969, or has been designated by the Secretary as depleted, a detailed justification of the need for such a marine mammal, including a discussion of possible alternatives, whether or not under the control of the applicant; and

(6) If the application is for a public display permit, a detailed description of the proposed use to which the marine mammal or marine mammal product is to be put, including the manner, location, and times of display, whether such display is for profit, an estimate of the numbers and types of persons who it is anticipated will benefit from such display, and whether and to what extent the display is connected with educational or scientific programs. There shall also be included a complete description of the enterprise seeking the display permit and its educational, and scientific qualifications, if any.

(b) *Review by Marine Mammal Commission.* Upon receipt of an application the Secretary shall forward the application to the Marine Mammal Commission together with a request for the recommendations of the Commission and the Committee of scientific advisors on marine mammals. In order to comply with the time limits provided in these regulations, the Secretary shall request that such recommendation be submitted within 30 days of receipt of the application by the Commission. If the Commission or the Committee, as the case may be, does not respond within 30 days from the receipt of such application by the Commission, the Secretary shall advise the Commission in writing that failure to respond within 45 days from original receipt of the application (or such longer time as the Secretary may establish) shall be considered as a recommendation from the Commission and the Committee that the permit be issued. The Secretary may also consult with any other person, institution or agency concerning the application.

(c) *Issuance criteria.* Permits applied for under this section shall be issued, suspended, modified and revoked pursuant to regulations contained in § 18.34. In determining whether to issue a scientific research permit, the Secretary shall, among other criteria, consider whether the proposed taking or importation will be consistent with the policies and purposes of the Act; and whether the granting of the permit is required to further a bona fide and necessary or desirable scientific purpose, taking into account the benefits anticipated to be derived from the scientific research contemplated and the effect of the purposed taking or importation on the population stock and the marine ecosystem. In determining whether to issue a public display permit, the Secretary shall, among other criteria, consider whether the proposed taking or importation will be consistent with the policies and purposes of the Act whether a substantial public benefit will be gained from the display contemplated, taking into account the manner of the display and the anticipated audience on the one hand, and the effect of the proposed taking or importation on the population stocks of the marine mammal in question and the marine ecosystem on the other; and the applicant's qualifications for the proper care and maintenance of the marine mammal or the marine mammal product, and the adequacy of his facilities.

(d) *Additional permit conditions.* In addition to the general conditions set forth in Part 12 of this Subchapter B, permits issued under this section shall be subject to the following:

(1) Any permit issued under these regulations must be in the possession of the person to whom it is issued (or an agent of such person) during:

(i) The time of the authorized taking or importation;

(ii) The period of any transit of such person or agent which is incidental to such taking or importation; and

(iii) Any other time while any marine mammal taken or imported under such permit is in the possession of such person or agent.

(2) A duplicate copy of the issued permit must be physically attached to the container, package, enclosure, or other means of containment, in which the marine mammal is placed for purposes of storage, transit, supervision, or care.

(e) *Tenure of permits.* The tenure of permits for scientific research or public display shall be that as designated on the face of the permit.

§ 18.32 Undue economic hardship.

(a) Persons other than those engaged in commercial fishing operations referred to in § 18.24 may be exempted by the Secretary from the provisions of the Act through October 20, 1973, if the Secretary determines to his satisfaction, that such person will suffer an undue economic hardship.

(b) Any person desiring to obtain an economic hardship exemption may make application to the Secretary, except that in the case of an application which involves scientific research or public display, such application will only be accepted if made by the person who will actually undertake such scientific research or public display. The application shall be in writing, addressed to the Director and shall contain the following information:

(1) The information required by § 12.12(a) of this subchapter and § 18.31 (b) (1), (2), and (3);

(2) A full statement of the facts, circumstances, and reasons why failure to grant an exemption under this section would lead to undue economic hardship together with all supporting documents, including certified copies of all relevant corporate minutes and resolutions contracts and agreements financial commitments, and current and historical financial data. In particular, copies of all contracts, agreements, or other arrangements entered into prior to the enactment of the Act necessitating the taking or importation of marine mammals or marine mammal products and documents showing the dollar amount of anticipated loss or economic hardship should be enclosed;

(3) If the exemption sought relates to scientific research a detailed description

V 38 158 AUG 16 73 XUM

of the scientific research project or program in which the marine mammal or marine mammal product is to be used, including a copy of the research proposal relating to such program or project and the names and addresses of the sponsoring or cooperating institutions and the scientists involved;

(4) If the exemption sought relates to scientific research and if the marine mammal proposed to be taken or imported is listed as an endangered species pursuant to the Endangered Species Act of 1969, or has been designated by the Secretary as depleted, a detailed justification of the need for such a marine mammal, including a discussion of possible alternatives, whether or not under the control of the applicant;

(5) If the exemption sought relates to public display, a detailed description of the proposed use to which the marine mammal or marine mammal product is to be put, including the manner, location, and times of display, whether such display is for profit, an estimate of the numbers and types of persons who it is anticipated will benefit from such display, and whether and to what extent the display is connected with educational or scientific programs. There shall also be included a complete description of the enterprise seeking the display permit and its educational, and scientific qualifications, if any; and

(6) Such other information as the Director may request.

The sufficiency of the application shall be determined by the Secretary and in that connection he may waive any requirement for information, or may require any elaboration or further information deemed necessary.

(c) In determining whether to issue an economic hardship exemption the Secretary shall consider among other criteria the following:

(1) The effect of granting the exemption on the species or population stock in question and the marine ecosystem;

(2) The degree of economic hardship to be anticipated should the exemption not be granted;

(3) The economic and legal alternatives available to the applicant;

(4) The likelihood of the anticipated economic hardship; and

(5) Such of the criteria relative to the issuance of scientific research permits and/or public display permits as may be applicable to the application.

(d) Exemptions issued under this section shall contain such terms and conditions as the Secretary may deem appropriate, including

(1) The number and kind of marine mammals which are authorized to be taken or imported;

(2) The location and manner in which such marine mammals may be taken or from which they may be imported;

(3) The period during which the exemption is valid;

(4) The methods of transportation, care, and maintenance to be used with live marine mammals;

(5) Any requirements for reports or rights of inspections with respect to any activities carried out pursuant to the exemption;

(6) The transferability or assignability of the exemption;

(7) The sale or other disposition of the marine mammal, its progeny, or the marine mammal product.

(e) Failure to observe any of the terms and conditions of the exemption shall be cause for the revocation, suspension, or modification of the exemption by the Secretary in his sole discretion and may subject the exemption holder to the penalties of the Act.

(f) In no event shall an exemption to take or import a marine mammal or marine mammal product be granted pursuant to this section which continues in effect beyond midnight of October 20, 1973.

(g) The decision of the Secretary regarding the granting or denial of an exemption or the revocation, modification or suspension thereof, shall be final and binding. Upon taking any such action, the Secretary shall notify the applicant or the exemption holder, as the case may be, in writing as soon as practicable of such action. The Secretary may, at his discretion, hold hearings on any applicant's request for an exemption under this section.

§ 18.33 Waiver of the moratorium [Reserved].

§ 18.34 Procedures for issuance of permits and modification, suspension or revocation thereof.

(a) Whenever application for a permit is received by the Secretary which the Secretary deems sufficient, he shall, as soon as practicable, publish a notice thereof in the FEDERAL REGISTER. Such notice shall set forth a summary of the information contained in such application. Any interested party may, within 30 days after the date of publication of such notice, submit to the Secretary his written data or views with respect to the taking or importation proposed in such application and may request a hearing in connection with the action to be taken thereon.

(b) If the request for a hearing is made within the 30 day period referred to in paragraph (a) of this section, or if the Secretary determines that a hearing would otherwise be advisable, the Secretary may, within 60 days after the date of publication of the notice referred to in paragraph (a) of this section, afford to such requesting party or parties an opportunity for a hearing. Such hearing shall also be open to participation by any interested members of the public. Notice of the date, time, and place of such hearing shall be published in the FEDERAL REGISTER not less than 15 days in advance of such hearing. Any interested person may appear in person or through representatives at the hearing and may submit any relevant material, data, views, comments, arguments, or exhibits. A summary record of the hearing shall be kept.

(c) As soon as practicable but not later than 30 days after the close of the hearing (or if no hearing is held, as soon as practicable after the end of the 30 day succeeding publication of the notice referred to in paragraph (a) of this section) the Secretary shall issue or deny issuance of the permit. Notice of the decision of the Secretary shall be published in the FEDERAL REGISTER within 10 days after the date of such issuance or denial. Such notice shall include the date of the issuance or denial and indicate where copies of the permit, if issued, may be obtained.

(d) Any permit shall be subject to modification, suspension, or revocation by the Secretary in whole or in part in accordance with these regulations and the terms of such permits. The permittee shall be given written notice by registered mail, return receipt requested, of any proposed modification, suspension, or revocation. Such notice shall specify:

(1) The action proposed to be taken along with a summary of the reasons therefor;

(2) In accordance with 5 U.S.C. 558, the steps which the permittee may take to demonstrate or achieve compliance with all lawful requirements; and

(3) That the permittee is entitled to a hearing thereon, if a written request for such a hearing is received by the Secretary within 10 days after receipt of the aforesaid notice or such other later date as may be specified in the notice to the permittee. The time and place of the hearing, if requested by the permittee, shall be determined by the Secretary and a written notice thereof given to the permittee by registered mail, return receipt requested, not less than 15 days prior to the date of hearing specified. The Secretary may, in his discretion, allow participation at the hearing by interested members of the public. The permittee and other parties participating may submit all relevant material, data, views, comments, arguments, and exhibits at the hearing. A summary record shall be kept of any such hearing.

(e) The Secretary shall make a decision regarding the proposed modification, suspension, or revocation, as soon as practicable after the close of the hearing, or if no hearing is held, as soon as practicable after the close of the 10 day period during which a hearing could have been requested. Notice of the modification, suspension, or revocation shall be published in the FEDERAL REGISTER within 10 days from the date of the Secretary's decision. In no event shall the proposed action take effect until notice of the Secretary's decision is published in the FEDERAL REGISTER.

Subpart E—Depleted Species of Stocks [Reserved]

Interested persons are invited to submit written comments, suggestions, or objections, concerning this proposed amendment to the Director, Bureau of Sport Fisheries and Wildlife, U.S. Department of the Interior, Washington, D.C. 20240. Comments received by September 24, 1973, will be considered.

F. V. SCHMIDT,
Acting Director, Bureau of Sport Fisheries and Wildlife.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 910]

HANDLING OF LEMONS GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Proposed Size Regulation

This notice invites written comment relative to a proposal submitted by the Lemon Administrative Committee that the size regulation currently in effect through September 29, 1973, be continued in effect during the period September 30, 1973, through September 28, 1974. The proposal would continue unchanged the current minimum size requirements for lemons at 1.82 inches in diameter (size 235's in cartons). The size requirements are those which have been found to provide consumers with lemons of acceptable maturity and juice content.

Notice is hereby given that the Department is considering a proposed size regulation for lemons grown in Arizona and designated part of California, pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910) regulating the handling of lemons grown in Arizona and designated part of California. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The current size regulation, Lemon Regulation 499, Amendment 1 (36 FR 18636; 37 FR 17542), is effective through September 29, 1973, and the proposed regulation would continue, through September 28, 1974, the same size requirements on the handling of lemons as are currently in effect. The proposed regulation would limit the handling of lemons grown in District 1, District 2, or District 3 to lemons measuring 1.82 inches or larger. The proposal was submitted by the Lemon Administrative Committee, established under said amended marketing agreement and order as the agency to administer the terms and provisions thereof. The regulation recommended by the committee reflects its appraisal of the lemon crop and the current and prospective marketing conditions. The size limitations proposed are designed to prevent the handling of lemons, on and after the proposed effective date, of sizes smaller than those herein specified so as to provide consumers with a plentiful supply of lemons of acceptable maturity and juice content consistent with (1) the overall size composition of the crop, and (2) improving returns to growers pursuant to the declared policy of the act. The committee advises there are more than adequate quantities of lemons available in a broad range of sizes to fill all market needs, and lemons smaller than 235's have negligible sales opportunity in fresh form, because they are costly to prepare for market and have lower juice yield than larger lemons.

Order. (a) From September 30, 1973, through September 28, 1974, no handler shall handle any lemons grown in District 1, District 2, or District 3, which are of a size smaller than 1.82 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit: *Provided*, That not to exceed 5 percent, by count, of the lemons in any type of container may measure smaller than 1.82 inches in diameter.

(b) As used in this section "handle", "handler", and "District 1", "District 2", and "District 3" each shall have the same meaning as when used in the said amended marketing agreement and order.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed regulation shall file same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than August 31, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: August 10, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

INTERSTATE COMMERCE COMMISSION

[Notice No. 320]

ASSIGNMENT OF HEARINGS

AUGUST 13, 1973.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

No. 35834 Sub 1, Increased Rates, Seatrain Lines, California, No. 35834 Sub 2, Increased Rates, Trans-Continental Freight Bureau, No. 35834 Sub 3, Increased Rates, United States Lines, now assigned September 17, 1973, will be held in Room 13025, 450 Golden Gate Avenue, San Francisco, Calif.

MC 114004 Sub 124, Chandler Trailer Convoy, Inc., now assigned October 10, 1973, at Washington, D.C., is cancelled, and transferred to Modified Procedure.

MC-138297, Central Florida Coach Lines, Inc., now assigned August 27, 1973 at Washington, D.C., is postponed to October 15, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

FD 26241, Penn Central Transportation Company Reorganization, now being assigned hearing August 13, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 5623 Sub 22, Arrow Trucking Co., now assigned September 10, 1973, MC 74321 Sub 64, B. F. Walker, Inc., now assigned September 10, 1973, MC 76032 Sub 297, Navajo Freight Lines, Inc., now assigned September 10, 1973, MC 82841 Sub 104, Hunt Transportation, Inc., now assigned September 10, 1973, MC 83539 Sub 360, C & H Transportation Co., Inc., now assigned September 10, 1973, MC 83835 Sub 96, Wales Transportation, Inc., now assigned September 10, 1973, MC 113855 Sub 262, International Transport, Inc., now assigned September 10, 1973, MC 119493 Sub 100, Monkem Company, Inc., now assigned September 12, 1973, MC 82063 Sub 43, Klipsch Hauling Co., now assigned September 17, 1973, MC 106400 Sub 92, Kaw Transport Company, now assigned September 17, 1973, MC 107496 Sub 873, Ruan Transport Corporation, now assigned September 17, 1973, MC 111401 Sub 376, Groendyke Transport, Inc., now assigned September 17, 1973, MC 115331 Sub 336, Truck Transport, Inc., now assigned September 17, 1973, will be held in Room 609, Federal Office Building, 911 Walnut Street, Kansas City, Missouri.

MC-107012 Sub 17, Reble Motor Freight, Inc., is continued to October 23, 1973, in Room 918 Federal Office Building, 167 North Main Street, Memphis, Tenn.

MC-77972 Sub 19, Merchants Truck Line, Inc., now assigned September 10, 1973, will be held in Room 918, Federal Office Building, 167 North Main Street, Memphis, Tenn.

MC-F-11768, Lee Way Motor Freight, Inc.—Control and Merger—Loving Truck Lines, Inc., DBA Loving Truck Line, & FD-27294 Lee Way Motor Freight, Inc., Notes, now assigned September 10, 1973, will be held in Room 5404, Federal Office Building, 700 West Capital Street, Little Rock, Arkansas.

MC 29886 Sub 285, Dallas & Mavis Forwarding Co., Inc., MC 124947 Sub 17, Machinery Transports, Inc., is continued to September 5, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

I&S No. 8847, Free Time on Export Traffic, U.S. Ports, is continued to September 10, 1973, (1 week), at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 2935 Sub 38, Adirondack Transit Lines, Inc., now being assigned October 15, 1973, at Albany, N.Y., in a hearing room to be later designated.

MC 7840 Sub 4, St. Lawrence Freightways, Inc., now being assigned October 18, 1973, at Albany, N.Y., in a hearing room to be later designated.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. 334]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before September 5, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74322. By order of August 9, 1973, the Motor Carrier Board, on reconsideration, approved the transfer to Lee Goddard, Inc., Bay City, Mich., of Certificate No. MC-82951 issued to Barney Kosofsky, dba Barney's Cartage Co., Detroit, Mich., authorizing the transportation of: General commodities, usual exceptions, serving Detroit, Mich., and between Detroit, Mich., and the International Boundary line at the port of Entry at Detroit, Mich., and Heavy Machinery, and numerous specified commodities, between points in the lower peninsula of Michigan, and between points therein, on the one hand, and, on the other, points in Indiana, Illinois, Ohio, Kentucky, New York, and Connecticut. Frank J. Kerwin, Jr., Attorney, 1961 Guardian Bldg., Detroit, Mich. 48226. Stanley M. Weingarden, Attorney, 1100 Fisher Bldg., Detroit, Mich. 48202.

No. MC-FC-74470. DUAL OPERATIONS ARE INVOLVED. By order of August 10, 1973, the Motor Carrier Board approved the transfer to Bibey Trucking Company, Inc., Perryville, Md., of Permit No. MC-119337 issued February 2, 1971, to The Whyte Trucking Company, Inc., Havre De Grace, Md., authorizing the transportation of: Sand and gravel, in bulk, from pits at or near North East, Md., to specified points in Delaware, under continuing contracts with Mason-Dixon Sand and Gravel Company. Chester A. Zyblut, Attorney, 1522 K Street, N.W., Washington, D.C. 20005.

No. MC-FC-74502. By order of August 9, 1973, the Motor Carrier Board approved the transfer to Amber Warehouse, Inc., Totowa, N.J., of Certificate No. MC-126173 issued to Booth Freight Lines, Inc., Totowa, N.J., authorizing the transportation of: General commodities, usual exceptions, between New York, N.Y., on the one hand, and, on the other, points in specified counties in New Jersey. Robert B. Pepper, Practitioner, 168 Woodbridge Avenue, Highland Park, N.J. 08904.

No. MC-FC-74529. By order of August 10, 1973, the Motor Carrier Board approved the transfer to Karl B. Hertz, doing business as Karl B. Hertz Transportation, Pomona, Calif., of Certificate No. MC-126565 issued May 3, 1972, to Industrial Heavy Transport, Santa Fe Springs, Calif., authorizing the transportation of sulphur, cottonseed meal, crushed stone, meat and bone scraps, and metallic ore, in bulk, in dump vehicles, from and to specified points in California and Arizona. Mr. Jerry Solomon Berger, Attorney at Law, 9454 Wilshire Blvd. (10th Floor), Beverly Hills, Calif. 90212.

No. MC-FC-74614. By order of August 10, 1973, the Motor Carrier Board approved the transfer to Elizabeth Lucera, Philadelphia, Pa., of Certificate No. MC-9975 issued August 16, 1961, to Merle H. Miller, doing business as Miller Moving Company, Perkasie, Pa., authorizing the transportation of household goods between points in the Philadelphia, Pa., Commercial Zone on the one hand, and, on the other, points in Pennsylvania, New Jersey, New York, Delaware, and Maryland, and to Washington, D.C. Mr. Edwin L. Scherlis, Attorney at Law, 1209 Lewis Tower Building, Philadelphia, PA 18944.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. 64]

MAWSON AND MAWSON, INC., ET AL.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

AUGUST 10, 1973.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed by October 15, 1973, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the* FEDERAL REGISTER *of a notice that the proceeding has been assigned for oral hearing.*

No. MC 76 (Sub-No. 4) filed June 26, 1973 Applicant: MAWSON & MAWSON, INC. Old Lincoln Hwy. P.O. Box 125 Langhorne, Pa. 19047 Applicant's representative: Paul F. Sullivan 711 Washington Bldg. Washington, D.C. 20005 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wheel and axle assemblies, parts and accessories therefor, and articles used in the manufacture of such assemblies*, between the plant site of Foreman Manufacturing Company at Pine Grove, Pa., on the one hand, and, on the other, points in Connecticut, Delaware, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, New Jersey, New York, New Hampshire, Ohio, Rhode Island, Virginia, Vermont, and West Virginia, restricted to traffic originating at or destined to the named plant site. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 297 (Sub-No. 5) filed July 11, 1973 Applicant: WOODLAND TRUCK LINE, INC. 635 Park Street Woodland, Wash. 98674 Applicant's representative: Lawrence V. Smart, Jr. 419 N.W. 23rd Avenue Portland, Oreg. 97210 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper products and door components*, from Woodland, Wash. to points in Oregon and (2) *lumber*, from points in Oregon to Woodland, Wash. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg.

No. MC 2229 (Sub-No. 179) filed June 4, 1973 Applicant: RED BALL MOTOR FREIGHT, INC. 3177 Irving Boulevard P.O. Box 47407 Dallas, Tex. 75247 Applicant's representative: Douglas Anderson (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, articles requiring special equipment), serving points in Adams, Arapahoe and Jefferson County, Colo., as off-route points in connection with carrier's regular-route operations to and from Denver, Colo. Note: If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 3854 (Sub-No. 24) filed May 11, 1973 Applicant: BURTON LINES, INC. P.O. Box 11306 East Durham Station Durham, N.C. 27703 Applicant's representative: Edward G. Villalon 1032 Pennsylvania Building Pennsylvania Ave. & 13th St., N.W. No. MC 106644 (Sub 156) filed July 5, 1973 Applicant: SUPERIOR TRUCKING COMPANY, INC. 2770 Peyton Road, N.W. P.O. Box 916 Atlanta, Ga. 30301 Applicant's representative: Archie B. Culbreth Suite 246, 1252 West Peachtree St., N.W. Atlanta, Ga. 30309 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Wild animals*, in cages, and (2) *feed, supplied and equipment* used in the care of wild animals, and *personal effects of attendants*, when moving in or on the same vehicle with wild animals, between points in the United States, including Alaska (but excluding Hawaii). Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or Los Angeles, Calif.

No. MC 107295 (Sub-No. 653) filed July 5, 1973 Applicant: PRE-FAB TRANSIT CO., a Corporation 100 South Main Street Farmer City, Ill. 61842 Applicant's representative: Mack Stephenson (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Enameled steel silos, loading and unloading devices, waste storage tanks, livestock scales, livestock feed bunkers, forage metering devices, animal waste spreader tanks, livestock feeding systems and parts and accessories* for the above named commodities, from the plant site of A. O. Smith Corporation at DeKalb, Ill., to points in the United States (except Alaska and Hawaii). Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Milwaukee, Wis.

No. MC 107515 (Sub-No. 855) filed June 4, 1973 Applicant: REFRIGERATED TRANSPORT CO., INC. P.O. Box 308 Forest Park, Ga. 30050 Applicant's representative: Paul M. Daniell, P.O. Box 872, Atlanta, Ga. 30301 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs, meats, meat products, and meat by-products*, from points in Ohio, to points in Alabama, Arkansas, California, Colorado, Florida, Georgia, Louisiana, Mississippi, Oklahoma, North Carolina, South Carolina, Tennessee, Texas, Virginia and West Virginia, restricted against tacking with any of applicant's existing authority. Note: Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 107515 (Sub-No. 863) filed July 5, 1973 Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308 Forest Park, Ga. 30050 Applicant's representative: Paul M. Daniell P.O. Box 872 Atlanta, Ga. 30301 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products and articles distributed by meat packinghouses* as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from Chino, Calif., to points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, the District of Columbia, and Florida, restricted to products originating at the plantsite and storage facilities of Swift Fresh Meats Co., and destined to the above named states. Note: Common control and dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 107882 (Sub-No. 30) filed June 20, 1973 Applicant: ARMORED MOTOR SERVICE CORPORATION 160 Ewingville Road Trenton, N.J. 08638 Applicant's representative: Herbert Alan Dubin 1819 H Street, N.W. Washington, D.C. 20006 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Food coupons*, between points in the United States (except Alaska and Hawaii), under a continuing contract with General Services Administration. Note: Applicant currently holds common carrier authority in MC 125729, therefore dual operations may be involved. Applicant states that the requested authority duplicates in part, its existing authority in MC 107882 Sub-No. 21. If the instant application is granted, applicant will submit for revocation that portion duplicative of the authority sought herein. If a hearing is deemed necessary, applicant requests it be held at Trenton, N.J., or Washington, D.C.

No. MC 109326 (Sub-No. 106) filed June 14, 1973 Applicant: C & D TRANSPORTATION CO., INC. P.O. Box 10506 New Orleans, La. 70121 Applicant's representative: William P. Jackson, Jr. 919–18th Street, N.W. Washington, D.C. 20006 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, and articles* distributed by meat packinghouses as described in Sections A and C of Appendix I to the report in *Description in Motor Carrier Certificates*, 61 M.C.C. 209 & 766 (except hides and commodities in bulk), from the plantsite and storage facilities of John Morrell & Co., at Shreveport, La., to points in Alabama, Georgia, Florida, Mississippi, North Carolina, South Carolina, and Tennessee. Note: Dual operations and common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or New Orleans, La.

No. MC 109584 (Sub-No. 152) filed July 20, 1973 Applicant: ARIZONA-PACIFIC TANK LINES, a Corporation 5773 South Prince Street P.O. Box 192 Littleton, Colo. 80120 Applicant's representative: Mr. Kenneth E. Stolz (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sulphuric acid and liquid sulfur dioxide*, in bulk, in tank vehicles, from points in Arizona to points in California. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Phoenix, Ariz.

No. MC 109677 (Sub-No. 45) filed May 15, 1973 Applicant: FORT EDWARD EXPRESS CO., INC. Route 9, Saratoga

V 38-158 AUG 16 73 XUM

Road Fort Edward, N.Y. 12828 Applicant's representative: Harold G. Hernly Wrape and Hernly 118 North St. Asaph Street Alexandria, Va. 22314 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquefied petroleum gas*, in bulk, in tank vehicles, from the ports of entry on the International Boundary Line between the United States and Canada at or near Champlain and Trout River, N.Y.; Derby Line, Highgate and Norton, Vt., to points in New Hampshire and Vermont, and points in Clinton, Essex, Franklin, Hamilton, Herkimer, Jefferson, Lewis, Saratoga, St. Lawrence, Warren and Washington Counties, N.Y. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Albany, N.Y., or Washington, D.C.

No. MC 109689 (Sub-No. 248) (AMENDMENT) filed April 27, 1973, published in the FR issue of June 28, 1973, and republished, as amended this issue. Applicant: W. S. HATCH CO., a Corporation 643 South 800 West Woods Cross, Utah 84087 Applicant's representative: Mark K. Boyle 345 South State Street Salt Lake City, Utah 84111 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum, and petroleum products*, in bulk, from points in Duchesne County, Utah, to points in Arizona, Colorado, Idaho, Nevada, New Mexico, and Wyoming; (2) *sodium bicarbonates*, from Rock Springs, Wyo., to points in Arizona, California, Oregon, Washington, and Texas; and (3) *tallow*, in bulk, from the facilities of Missouri Beef Packers, Inc., at or near Boise, Idaho, to points in Washington, Oregon, California, Nevada, Arizona, New Mexico, Utah, Idaho, Colorado, Wyoming, Montana, Nebraska, North Dakota, South Dakota, Texas, Kansas, and Oklahoma. Note: The purpose of this republication is to indicate that applicant additionally seeks to provide service to points in New Mexico; and to clarify the tacking information. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah.

No. MC 110420 (Sub-No. 683) filed July 2, 1973 Applicant: QUALITY CARRIERS, INC. P.O. Box 186 Pleasant Prairie, Wis. 53158 Applicant's representative: Fred H. Figge (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cleaning, scrubbing and scouring compounds*, in bulk, from Watertown, Wis., to points in Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, Pennsylvania, South Dakota, and Tennessee, and (2) *chemicals and raw materials* used or useful in the production of cleaning, scrubbing and scouring compounds, in bulk, from points in destination territory named in (1) above, to Watertown, Wis. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Milwaukee, Wis.

No. MC 110420 (Sub-No. 684) filed July 2, 1973 Applicant: QUALITY CARRIERS, INC. P.O. Box 186 Pleasant Prairie, Wis. 53158 Applicant's representative: Fred H. Figge (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foundry facings, liquid mold release products, quenching compounds and hydraulic fluids*, from Howell, Mich., to points in Illinois, Indiana and Ohio, and (2) *cutting oil, rust preventive compounds, soluble oils, metal working petroleum oils and water based metal working lubricant*, in bulk, in tank vehicles, from Howell, Mich., to points in Illinois, Indiana, Kentucky, Missouri, Ohio, and Wisconsin. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 111310 (Sub-No. 12) filed July 2, 1973 Applicant: BEER TRANSIT, INC. P.O. Box 338 Hartland, Wis. 53029 Applicant's representative: Michael J. Wyngaard 329 West Wilson Street Madison, Wis. 53703 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Malt beverages and advertising equipment, premiums, materials and supplies* when shipped therewith from Milwaukee, Wis., to points in Minnesota, and (2) *empty malt beverage containers and rejected shipments* from points in Minnesota to Milwaukee, Wis. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Madison or Milwaukee, Wis.

No. MC 111383 (Sub-No. 35) filed June 20, 1973 Applicant: BRASWELL MOTOR FREIGHT LINES, INC. 3925 Singleton Blvd. P.O. Box 4447 Dallas, Tex. 75208 Applicant's representative: Lawrence A. Winkle 4645 North Central Expressway Dallas, Tex. 75205 Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): (1) Between New Orleans, La., and Meridian, Miss., as an alternate route for operating convenience only, serving no intermediate points: From New Orleans, over U.S. Highway 11 to junction Interstate Highway 10, thence over Interstate Highway 10 to junction Interstate Highway 59, thence over Interstate Highway 59 to Meridian; and (2) Between New Orleans, La., and Montgomery, Ala., as an alternate route for operating convenience only, serving no intermediate points: From New Orleans, La., over U.S. Highway 90 to junction Interstate Highway 10, thence over Interstate Highway 10 to junction Interstate Highway 65, thence over Interstate Highway 65 to Montgomery, and return over the same routes. Note: If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 111401 (Sub-No. 391) filed July 5, 1973 Applicant: GROENDYKE TRANSPORT, INC. 2510 Rock Island Boulevard P.O. Box 632 Enid, Okla. 73701 Applicant's representative: Alvin J. Meiklejohn, Jr. Suite 1600 Lincoln Street 1660 Lincoln Street Denver, Colo. 80203 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, in tank vehicles, from points in Orange and Jefferson Counties, Tex., to points in Alabama, Arkansas, Louisiana, Mississippi, Georgia, North Carolina, South Carolina, Florida, and Tennessee. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La., or Atlanta, Ga.

No. MC 111545 (Sub-No. 186) filed May 31, 1973 Applicant: HOME TRANSPORTATION COMPANY, INC. 1425 Franklin Road Marietta, Ga. 30062 Applicant's representative: Robert E. Born P.O. Box 6426 Station A Marietta, Ga. 30062 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except truck tractors) and *parts, implement, attachments, accessories and supplies* for tractors, from Savannah, Ga. and Jacksonville, Fla., to points in Louisiana, Missouri, Illinois, Iowa, Wisconsin, Kentucky, Indiana, Ohio, the Lower Peninsula of Michigan, Virginia, West Virginia, Maryland, Delaware, New Jersey, and Pennsylvania. Note: Applicant states that the requested authority can be tacked: (1) At points in Iowa with its Subs 94 and 98 to serve points in Minnesota, Nebraska, and Kansas; (2) At points in Illinois and Missouri with the authority it presently holds under MC–F–11218, to serve points in Wyoming, Arkansas, Colorado, Kansas and New Mexico; and (3) At points in Missouri with Sub 167, to serve points in Arizona and Utah; limited to "size and weight" articles of those self-propelled weighing 15,000 pounds or more. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at either Atlanta, Ga.; Chicago, Ill. or Washington, D.C.

No. MC 112696 (Sub-No. 48) filed June 26, 1973 Applicant: HARTMANS, INCORPORATED P.O. Box 898 Harrisonburg, Va. 22801 Applicant's representative: Edward G. Villalon 1032 Pennsylvania Building Pennsylvania Avenue & 13th Street Washington, D.C. 20004 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Malt beverages*, from Pabst (Houston County), Ga., to Lynchburg, Va., *and empty bottles, containers, kegs, pallets, and skids*, from Lynchburg, Va., to Pabst (Houston County), Ga.; and (2) *shoes*, from Harrisonburg, Va., to the facilities of Consolidated Shoe Company in Campbell County, near Lynchburg, Va. Note: Applicant states that the requested authority in (2) above, can be tacked with its existing authority at Harrisonburg, Va., to provide a through service from Boston, Mass. and Gettysburg, Pa., to Lynchburg, Va. If a hearing is deemed necessary, applicant requests it to be held at Lynchburg, Va. or Washington, D.C.

No. MC 113436 (Sub-No. 4) filed July 5, 1973 Applicant: AUTOMOBILE CARRIERS, INC. 3401 North Dort Highway P.O. Box 128 Flint, Mich. 48501 Applicant's representative: Walter N. Bieneman Suite 1700—One Woodward Avenue Detroit, Mich. 48226 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Automobiles, trucks and buses*, as described in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, in initial movements in truckaway service, from Janesville, Wis., to points in the Lower Peninsula of Michigan. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Detroit, Mich.

No. MC 113651 (Sub-No. 158) filed May 8, 1973 Applicant: INDIANA REFRIGERATOR LINES, INC. 2404 North Broadway Muncie, Ind. 47303 Applicant's representative: Henry A. Dillon (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, and articles distributed by meat packinghouses* (except hides and commodities in bulk) and *dressed rabbits* when shipped in mixed shipments with meats, meat products, meat by-products and articles distributed by meat packinghouses; (1) from Denver, Colo., to points in Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Maryland, Delaware, the District of Columbia, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Tennessee, Kentucky, Ohio, Michigan, Indiana, Illinois, Louisiana, Mississippi, Iowa, Texas, Arkansas, Oklahoma, and Missouri; and (2) from Denver, Colo., to points in Staten Island, Brooklyn, Manhattan, Queens, Kings, Orange, Putnam, Rockland, Westchester, Suffolk and Nassau Counties, N.Y.; Fairfield County, Conn.; Mercer, Monmouth, Middlesex, Sommerset, Hunterdon, Arren, Morris, Sussex, Passaic, Bergen, Hudson, Union, Salem, Rochester, Atlantic, Cape May, Ocean and Burlington Counties, N.J.; Lancaster, Lebanon, Berks, Lehigh, North Hampton, Bucks, Montgomery, Delaware, Chester, New Castle, York, Adams, and Franklin Counties, Pa., restricted in (1) and (2) above to traffic destined to the named states. Note: Applicant indicates that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo., or Washington, D.C.

No. MC 113678 (Sub-No. 504) filed June 25, 1973 Applicant: CURTIS, INC. 4810 Pontiac Street Commerce City, Colo. 80222 Applicant's representative: Richard A. Peterson P.O. Box 80806 Lincoln, Nebr. 68501 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foods, food products, and foodstuffs, and advertising equipment, materials and supplies when shipped therewith* (except commodities in bulk), from points in Ohio and points in Boone, Campbell and Kenton Counties, Nebr., to points in Kentucky, Illinois, Indiana, Iowa, Nebraska, Colorado Kansas, Missouri, Michigan, Minnesota, Wisconsin, Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New York, New Jersey, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia and the District of Columbia. Note: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority in Subs 90, 92, 99, 111, 133, 149, 157, 190, 257, 262, 284, 330, 331, 350, 376, 387 and 428, however, tacking with these subs is unfeasible because of the circuity involved and also the duplicative nature of some of the authority makes such tacking unnecessary, therefore applicant has no intention to tack these subs with its existing authority. Tacking, however, is possible with applicant's Subs 38 and 162 at points in Colorado, to serve the additional destination states of Arizona, California, Nevada, New Mexico, Washington, Oregon, Idaho and Montana. Applicant further states that it has no present intention to tack Subs 38 and 162. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 114019 (Sub-No. 248) filed June 18, 1973 Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC. 7000 South Pulaski Road Chicago, Ill. 60629 Applicant's representative: Arnold L. Burke 127 North Dearborn Street Chicago, Ill. 60602 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers and enclosures* therefor, from Terre Haute, Ind., to points in Illinois, Kentucky, Michigan, Missouri, Ohio and Wisconsin, and *empty pallets* on return, restricted to traffic originating at the above named origin and destined to the above named destinations. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 115311 (Sub-No. 154) filed June 13, 1973 Applicant: J & M TRANSPORTATION CO., INC. P.O. Box 488 Milledgeville, Ga. 31001 Applicant's representative: Paul M. Daniell P.O. Box 872 Atlanta, Ga. 30301 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lumber*, (a) from the plantsite and warehouse facilities of Georgia Pacific Corporation at or near Dudley, Enfield, and Whiteville, N.C., to points in Alabama, Florida, Georgia, Kentucky, South Carolina, and Tennessee, and (b) from the plantsite and warehouse facilities of Georgia Pacific Corporation at or near Alcolu, Prosperity, Russellville, and Varnville, S.C., to points in Alabama, Florida, Georgia, North Carolina, Kentucky, and Tennessee; (2) *particleboard*, (a) from the plantsite and warehouse facilities of Georgia Pacific Corporation at or near Whiteville, N.C., to points in Alabama, Arkansas, Louisiana, Texas, Oklahoma, Kansas, Missouri, Nebraska, South Dakota, and North Dakota, Tennessee, Mississippi, Colorado, New Mexico, Florida, Georgia, and South Carolina, and (b) from the plantsite and warehouse facilities of Georgia Pacific Corporation at or near Russellville, S.C., to points in Alabama, Florida, Georgia, Kentucky, North Carolina, Tennessee, and Virginia. Note: Applicant states that the requested authority in (2) (a) and (2) (b) above, can be tacked with its pending Sub 120 to provide additional service from the Georgia Pacific Corporation plantsite at Vienna, Ga., to serve the additional destination states of Arkansas, Louisiana, Texas, Oklahoma, Kansas, Missouri, Nebraska, South Dakota, North Dakota, Colorado, and New Mexico; and further indicates that the requested authority in (1) (b) above can be tacked at Cordova, Ala., with its existing authority in its Sub-No. 106, to serve points in Kentucky. Applicant indicates it has no present intention to tack. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 115311 (Sub-No. 156) filed June 28, 1973 Applicant: J & M TRANSPORTATION CO., INC. Post Office Box 488 Milledgeville, Ga. 31061 Applicant's representative: Paul M. Daniell Post Office Box 872 Atlanta, Ga. 30301 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal wall studs and metal wall studs tracking*, from Monroe, Ga., to points in Florida, Alabama, Mississippi, Louisiana, Texas, Arkansas, Tennessee, Kentucky, North Carolina, South Carolina, Virginia, West Virginia and the District of Columbia. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 115975 (Sub-No. 19) filed June 6, 1973 Applicant: C.B.W. TRANSPORT SERVICE, INC. P.O. Box 48 Wood River, Ill. 62095 Applicant's represent-

V 38-158 AUG 16 73 XUM

ative: Earnest A. Brooks, II 1301 Ambassador Building St. Louis, Mo. 63101 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lubricating grease and lubricating* oils, in bulk, in tube trailers, in tank vehicles and in carrier-owned containers of not less than 300 gallons capacity, from the plantsite of International Lubricant Corporation at New Orleans, La., to points in Alabama, Arkansas, Colorado, Florida, Georgia, Illinois, Indiana, Kentucky, Maryland, Michigan, Mississippi, Missouri, New Jersey, Ohio, Pennsylvania, South Carolina, Tennessee, Texas, Virginia and West Virginia, under a continuing contract with Shell Oil Company, Houston, Tex. Note: Applicant currently holds common carrier authority in MC 127910 Sub-No. 1, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or St. Louis, Mo.

No. MC 116763 (Sub-No. 260) filed June 25, 1973 Applicant: CARL SUBLER TRUCKING, INC. North West Street Versailles, Ohio 45380 Applicant's representative: H. M. Richters (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Carpet and clay tile, and materials and supplies* used in the manufacture, installation and distribution of carpet and clay tile (except commodities in bulk), (1) from Bristow, Okla., to points in the United States (except Alaska and Hawaii), and (2) from points in the United States (except Alaska and Hawaii) to Bristow, Okla. Note: Applicant states that the requested authority can be tacked with its existing authority, but is willing to accept a no tacking restriction. Applicant further states no duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Tampa, Fla.

No. MC 116763 (Sub-No. 261) (AMENDMENT) filed June 22, 1973, published in the FR issue of August 9, 1973, and republished as amended this issue. Applicant: CARL SUBLER TRUCKING, INC. North West Street Versailles, Ohio 45380 Applicant's representative: H. M. Richters (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fruits and vegetables, fruit and vegetable products, concentrates, beverages, and beverage preparations*, from points in Florida, to points in Connecticut, Delaware, Indiana, Maine, Maryland, Massachusetts, the Lower Peninsula of Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia. Note: Applicant states that the requested authority can be tacked with its existing authority held in MC 116763, Sub-No. 58 to originate traffic at Martinsburg, W. Va., destined to points in Louisiana, Mississippi, and Missouri, but it has no present intention to tack. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. The purpose of this republication is to correctly reflect the tacking information. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 117565 (Sub-No. 90) filed July 5, 1973 Applicant: MOTOR SERVICE COMPANY INC. Route 3 P.O. Box 448 Coshocton, Ohio 43812 Applicant's representative: John R. Hafner (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials, equipment, and supplies* used in the manufacture, processing and distribution of bathroom and plumbing fixtures and *parts, attachments, and accessories* for bathroom and *plumbing fixtures, plastic products, shower stalls, china and earthenware goods, and counter tops*, from points in the United States (except Alaska and Hawaii), to points in Spencer and Vanderburgh Counties, Ind. Note: Dual operations may be involved. Applicant states that the requested authority cannot be tacked with its present authority. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Indianapolis, Ind.

No. MC 138442 (Sub-No. 2) filed June 18, 1973 Applicant: GORDON M. EBBERT doing business as: JADE AIR CARGO Bldg. 429 P.O. Box 866, Grant County Airport Moses Lake, Wash. 98837 Applicant's representative: Robert G. Gleason 5403 Rainier Avenue South Seattle, Wash. 98118 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), restricted to traffic having a prior or subsequent movement by air, between Seattle-Tacoma International Airport, Spokane International Airport, Portland International Airport, Yakima Airport, Coulee Dam Municipal Airport, and those airports located at or near Ellensburg, Sunnyside, Pasco, Wenatchee, Okanogan, Omak, Twisp, Brewster, Ephrate, Moses Lake, Othello, Cashmere, Chelan, Waterville and Oroville, Wash., on the one hand, and on the other, points in Washington lying east of the Cascade Mountain Range (except points lying east of U.S. Highway 395 as it extends from the Washington-Oregon border to its junction with U.S. Highway 2, points lying north of U.S. Highway 2, between its junction with U.S. Highway 395, and its junction with Washington State Highway 21, at or near Wilbur, Wash., and those points lying east of Washington State Highway 21, as it extends from said junction to the United States-Canadian International Boundary). Note: If a hearing is deemed necessary, applicant does not specify a location.

No. MC 138471 (Sub-No. 1) filed July 5, 1973 Applicant: DANIEL J. LEONARD, doing business as LEONARD TRUCKING 1878 Delameter Road Castle Rock, Wash. 98611 Applicant's representative: David C. White 2400 S.W. Fourth Avenue Portland, Oreg. 97201 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Wooden shakes and shingles*, from points in Washington on and west of U.S. Highway 97, to points in California, and (2) *wine and malt beverages*, from Azusa, Los Angeles, Madera, Modesto, San Francisco, and Van Nuys, Calif., to Chehalis and Longview, Wash. Note: If a hearing is deemed necessary, applicant does not specify a location.

No. MC 138626 filed April 9, 1973 Applicant: LESLIE OAKLEY JR. AND BARRY OAKLEY doing business as: OAKLEY BROTHERS TRUCKING Fairfield, Mont. 59436 Applicant's representative: L. D. Nybo 529 Great Falls National Bank Bldg. Great Falls, Mont. 59401 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Plastic, aluminum, and steel irrigation pipe* of various sizes and dimensions and *fittings* used incident thereto; *wheel line sprinklers, sprinkler components and materials and equipment* used incident to wheel line sprinkler devices, from Eugene, Portland, and Clackamas, Oreg.; Tacoma, Seattle, and Spokane, Wash.; and Boise, Idaho, to points in Montana, under a continuing contract, or contracts, with Mountain Supply Co., Inc. and distributors and manufacturers of the named commodities. Note: If a hearing is deemed necessary, applicant requests it be held at Great Falls, Mont. or Spokane or Seattle, Wash.

No. MC 138691 (Sub-No. 1) filed July 2, 1973 Applicant: EVERGREEN DISTRIBUTING COMPANY, INC. 1610 W. Markle Avenue Vancouver, Wash. 98660 Applicant's representative: Russell M. Allen 1200 Jackson Tower Portland, Oreg. 97205 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Shakes and trim*, from the mill of Longview Booming Co., Inc. at or near Longview, Wash., to points in California, under contract with Longview Booming Co., Inc. Note: If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg. or Longview, Wash.

No. MC 138808 filed June 11, 1973 Applicant: A. M. TRUCKING, INC. Box 345 Oak Ridge, N.J. 07438. Applicant's representative: George A. Olsen 69 Tonnele Avenue Jersey City, N.J. 07306 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Paper bags, paper boxes, wrapping paper, plastic bags, and materials, equipment and supplies* used or useful in the manufacture and sale of the foregoing commodities, between points in Connecticut, Delaware, Kentucky, Maryland, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Virginia, and the District of Columbia, under a continuing contract with Equitable Bag Co., Inc. Note: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y. or Washington, D.C.

No. MC 138846 (Sub-No. 2) filed July 3, 1973 Applicant: A. C. WHITE STORAGE COMPANY, INC. 660 Edgewood Ave., N.E. Atlanta, Ga. 30312 Applicant's representative: J. Michael May 1000 Fulton Federal Bldg. Atlanta, Ga. 30303 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Ranges, ovens, range tops, range hoods, refrigerators, disposal units, trash compactors, dish washers, vacuum systems, air conditioners, kitchen cabinets, and attachments, and accessories* for the above named commodities, from points in Fulton County, Ga., to points in Alabama, and those in Florida in and north of the southern boundaries of Dixie, Gilchrist, Alachua, Putnam and Flagler Counties, Fla., under a continuing contract, or contracts, with Tappan, Division of The Tappan Company. Note: Applicant holds common carrier authority in MC 120606 (Sub-No. 1), therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed

necessary, applicant requests it be held at Atlanta, Ga., or Washington, D.C.

No. MC 138870 (Sub-No. 1) filed July 2, 1973 Applicant: MOBILE TRUCK CONTROL, INC. P.O. Box 2525 Mobile, Ala. 36601 Applicant's representative: Alice M. Meadows 804 First Federal Towers Mobile, Ala. 36616 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Containerized* (intermodal) *freight*, all kinds, with prior or subsequent move via water, and *empty containers*, between any port in Mobile County, Ala., on the one hand, and, on the other, points in Alabama, Georgia, Tennessee, Kentucky, and those in Mississippi north of a line extending from the intersection of the eastern boundary of Mississippi and U.S. Highway 98, westwardly along U.S. Highway 98 to its intersection with Mississippi Highway 26, westwardly along Mississippi Highway 26 to the western boundary of Mississippi, and points in that portion of Florida west of the Suwannee River, and to include the city limits of all cities contiguous to all of the aforementioned boundaries. Note: If a hearing is deemed necessary, applicant requests it be held at Mobile, Ala.

No. MC 138874 filed June 20, 1973 Applicant: PACKARD, INC. P.O. Drawer "H" Buras, La. 70041 Applicant's representative: Henry O'Connor, Jr. 1440 Oil & Gas Bldg. New Orleans, La. 70112 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Oilfield equipment and materials, timbers, machinery, pipe, cement, lumber and materials, supplies and equipment* to be used in the construction, development, operation and maintenance of facilities for the discovery and development of natural gas and petroleum and *fertilizer and building materials*, used in excavating and construction of dirt work, between points in Louisiana. Note: The purpose of the instant application is to convert applicant's Certificate of Registration to a certificate of public convenience and necessity. If a hearing is deemed necessary, applicant requests it be held at New Orleans, or Baton Rouge, La.

No. MC 138875 filed June 18, 1973 Applicant: SHOEMAKER TRUCKING COMPANY 8624 Franklin Road Boise, Idaho 83705 Applicant's representative: F. L. Sigloh P.O. Box 7651 Boise, Idaho 83707 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *wood and steel trusses and component parts and laminated wooden beams*, from plantsites of Trus-Joist Corporation, located at points in the United States on and west of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, Minn., thence northward along the western boundary of Itasca and Koochiching Counties, Minn., to the International Boundary line between the United States and Canada, to points in the United States in the territory described above. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Boise, Idaho.

No. MC 138877 filed April 26, 1973 Applicant: SOUTHERN IDAHO DISTRIBUTING COMPANY OF BOISE, INC. P.O. Box 525 Eagle, Idaho 83616 Applicant's representative: Larry D. Ripley P.O. Box 1559 1010 Bank of Idaho Building Boise, Idaho 83701 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Wine and beer*, from points in California, Oregon and Washington, to points in Idaho south of the Salmon River; and (2) *beer*, from points in Arizona, to points in Idaho south of the Salmon River. Note: If a hearing is deemed necessary, applicant requests it be held at Boise, Twin Falls, or Pocatello, Idaho.

No. MC 138908 filed January 22, 1973 Applicant: ROGER GARRIS Route 115 Saylorsburg, Pa. 18353 Applicant's representative: Michael J. Wetmore 401 Prospect Street E. Stroudsburg, Pa. 18301 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Stone and stone products, slate and slate products*, between points in Northampton, Monroe, Carbon, Pike, Wayne, Luzerne, Wyoming, Lehigh and Lackawanna Counties, Pa., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), and (2) *granite and granite products, marble and marble products, stone and stone products, and wollastonite*, between points in Clinton, Franklin, St. Lawrence, Jefferson, Lewis, Oswego, Oneida, Herkimer, Hamilton, Fulton, Montgomery, Saratoga, Washington, Warren, and Essex Counties, N.Y., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), and (3) *stone and stone products, granite and granite products, marble and marble products, slate and slate products, wollastonite and mineral pigments*, between Lemoille, Caledonia, Chittenden, Washington, Addison, Orange, Rutland, Windsor, Bennington and Windham Counties, Vt., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). Note: If a hearing is deemed necessary, applicant requests it be held at Scranton, Pa.

No. MC 138918 filed July 5, 1973 Applicant: LIONEL L. GUMM, doing business as GUMM TRUCKING CO. 1816 Dunkirk Drive Lexington, Ky. 40504 Applicant's representative: Richard E. Vimont 139 Market Street P.O. Box 2086 Lexington, Ky. 40501 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Corrugated and fiber boxes and containers, and materials and supplies* used in the manufacture of corrugated and fiber boxes and containers, (a) between the plant site of Alton Box Board Co., at Lexington, Ky., on the one hand, and, on the other, points in New Albany and Jeffersonville, Ind., and (b) between the plant site of Alton Box Board Co., at Aurora, Ind., on the one hand, and, on the other, the plant site of Alton Box Board Co., at Lexington, Ky., under contract with Alton Box Board Co. Note: If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky.

MOTOR CARRIER OF PASSENGERS

No. MC 28339 (Sub-No. 8) filed July 11, 1973 Applicant: BREMERTON-TACOMA STAGES, INC. 1936 Westlake Avenue Seattle, Wash. 98101 Applicant's representative: James E. Wilson 1032 Pennsylvania Bldg. Pennsylvania Avenue & 13th St., N.W. Washington, D.C. 20004 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in special operations, in round trip sightseeing or pleasure tours, beginning and ending at points in Mason, Thurston, Pierce, and Kitsap Counties, Wash., and extending to points in the United States including Alaska, (but excluding Hawaii). Note: If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 58915 (Sub-No. 56) filed May 21, 1973 Applicant LINCOLN TRANSIT CO., INC. Route 46 East Paterson, N.J. 07407 Applicant's representative: Robert E. Goldstein 8 West 40th Street New York, N.Y. 10018 Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, and *express and newspapers* in the same vehicle with passengers, (1) Between junction Monmouth County Highway 524 and Stillwells Corner Road, and Monmouth County Highway 537 in Monmouth County, N.J.: From junction Monmouth County Highway 524 and Stillwells Corner Road over Monmouth County Highway 524 to junction Iron Bridge Road, thence over Iron Bridge Road to junction Monmouth County Highway 537, and return over the same route, serving all intermediate points; (2) Between junction Ocean County Road 549 and Garden State Parkway Interchange Road 91, and junction Burnt Tavern Road and Ocean County Road 549 in Ocean County, N.J.: From junction Ocean County Road 549 and Garden State Parkway Interchange Road 91 over Ocean County Road 549 to junction Herbertsville Road, thence over Herbertsville Road to junction Maple Avenue, thence over Maple Avenue to junction Burnt Tavern Road, thence over Burnt Tavern Road to junction Ocean County Road 549, and return over the same route, serving all intermediate points; and (3) Between junction Ocean County Road 526 and U.S. Highway 9, and Ocean County Road 549 in Ocean County, N.J.: From junction Ocean County 526 and U.S. Highway 9 over Ocean County Road 526 to junction Ocean County Road 549, and return over the same route, serving all intermediate points. Note: Common control may be involved. Applicant states that the requested authority will be joined with its existing authority to provide service to and from New York, N.Y.

V 38-158 AUG 16 73 XUM

If a hearing is deemed necessary, applicant requests it be held at Newark, N.J.

DEPARTMENT OF DEFENSE

Office of the Secretary of Defense

SCIENTIFIC ADVISORY BOARD OF THE ARMED FORCES INSTITUTE OF PATHOLOGY

Establishment, Organization and Functions

In accordance with the provisions of Public Law 92-463, Federal Advisory Committee Act, notice is hereby given that the Scientific Advisory Board of the Armed Forces Institute of Pathology has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The Office of Management and Budget has also reviewed the justification for this advisory committee and concurs with its establishment.

The charter for the Scientific Advisory Board of the Armed Forces Institute of Pathology is as follows:

Designation. The official designation of this committee is the Scientific Advisory Board of the Armed Forces Institute of Pathology (hereinafter referred to as "the Board").

Objectives and scope. The Board serves as a scientific advisory body to the Director, Armed Forces Institute of Pathology, to provide him and his staff with scientific and professional advice and guidance in matters pertaining to operational programs, policies and procedures of the AFIP central laboratory of pathology for the Department of Defense and other federal agencies with responsibilities for consultation, education and research in the field of pathology.

Duration. The period of time necessary for the Board to carry out its activities is continuing. However, the Director, Armed Forces Institute of Pathology, shall review the necessity for the Board biennially. He shall apply for continuation in accordance with the provisions of Public Law 92-463, Federal Advisory Committee Act, October 6, 1972 and applicable implementing directives, if it is deemed that the Board is still required.

Responsible agency. The Board shall report to the Director, Armed Forces Institute of Pathology.

Composition. The Board shall be composed of not more than 24 members, 20 selected from the civilian community on the basis of their national or international prominence in major specialties in medicine and science allied to the functions of the Institute and one representing the Professional Directorate of each military service and the Veterans Administration. Each member will be appointed upon the advice of the Director, Armed Forces Institute of Pathology, and concurrence of the Armed Forces Institute of Pathology's Board of Governors (Surgeons General of the Army, Navy and Air Force) by the Secretary of the Army.

Term of office shall be five years, with the initial terms staggered so that the appointments of one fifth of the Board shall expire each year. No member may serve two terms in succession. A former member may be reappointed to the Board after an interval of not less than one five-year term following completion of his last previous term.

Support. The agency responsible for providing necessary support to the Board is the Armed Forces Institute of Pathology.

Executive Secretary. The Board shall be assisted by an Executive Secretary and such other qualified civilian and military personnel as may be required in the administration of the activities of the board. The Executive Secretary shall be ex-officio the Executive Officer of the AFIP (as an additional duty). He is a full-time, salaried government employee who has the authority to adjourn any meeting which he considers not to be in the public interest.

The Executive Secretary shall be assisted by appropriate administrative and clerical staff of the Institute performing these functions in addition to their regularly assigned duties. The Director, Armed Forces Institute of Pathology, shall provide office space and funds for salaries, travel, office supplies and related expenses.

Duties. The duties of the Board are to advise the Director, Armed Forces Institute of Pathology, on matters pertaining to:

The character, scope, and adequacy of educational and experimental, statistical, and morphological research programs undertaken by the Institute to include their correlations with other medical specialties.

The correlation of education and research conducted in the Institute with that of other institutions to avoid unnecessary duplication and to facilitate the work of the Institute.

The utilization for educational and research purposes of the vast accumulation of pathologic material in the Institute to include their use in the Medical Museum.

The character, scope, and adequacy of the technical and professional training programs of the Institute for Medical Department personnel and others.

The use of new techniques, equipment, and scientific apparatus in consultation, education and research.

The character, size and adequacy of consultation services to include the development and evaluation of new pathologic tests and diagnostic procedures.

The continuation of review for quality control of pathologic diagnoses for the medical services.

Such other matters as are deemed of benefit to the Institute.

Estimated cost. The estimated annual operating cost of the Board is:

Office of the Executive Secretary:
Man-years: Military less than 1/12 man-year total. Civilian less than 1/12 man-year total.
Budget: $1,100 (civilians only).
The Board: Budget $10,000 (one 2-day meeting annually and 2 three-member subcommittees inclusive of travel and (honorarium).

Meetings. The Board shall meet at least once annually for a two-day period. Subcommittees (Study Teams) shall meet as required.

Operation. The Board shall operate in accordance with Public Law 92-463, Executive Order 11686, and implementing OMB and DoD regulations for Federal Advisory Committees.

Committee's termination date. Two years from the date of filing or when its mission is completed, whichever is sooner, or unless prior approval for its continuation is obtained.

Date Charter Filed.

MAURICE W. ROCHE, *Director, Correspondence and Directives Division, OASD (Comptroller).*

AUGUST 13, 1973.

DEPARTMENT OF DEFENSE HIGH-ENERGY LASER REVIEW GROUP

Establishment, Organization and Functions

In accordance with the provisions of Public Law 92-463, Federal Advisory Committee Act, notice is hereby given that the DoD High-Energy Laser Review Group has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The Office of Management and Budget has also reviewed the justification for this advisory committee and concurs with its establishment.

The charter for the DoD High-Energy Laser Review Group is as follows:

Purpose. The purpose of the Department of Defense High-Energy Laser Review Group (HELRG) is to advise the Director of Defense Research and Engineering (DDR&E), on a continuing basis, regarding economical and effective research, development, test and evaluation efforts in the field of high-energy laser weapon systems that are conducted within the DoD and to relate them to other national laser research programs.

Scope. The HELRG will provide a focal point for periodic and detailed review of all DoD plans and programs directed toward the research, development, and testing of high-energy laser weapon systems. The Group will periodically advise the DDR&E on current progress in high-energy laser technology, significant technological advances, and promising areas of new research worthy of additional support. Further, it will periodically analyze the level of coordination of DoD activities in high-energy laser RDT&E and make recommendations for improvement. It will provide a forum for exchange of program information between the DoD and other national laser programs.

Membership. The membership of the HELRG shall consist of nine members, designated alternates, and associate members as may be required to carry out the responsibilities of the Group.

Members. The DDR&E will appoint four members of the Group from qualified persons within the scientific community recognized for their preeminence in the fields of research and engineering. These members may include officials of other agencies or departments of the government who possess the expertise desired by the DDR&E. These members will serve for a renewable term of two years.

Members from the DoD will consist of the high-energy laser program manager, and a designated alternate each from the Army, Navy, and Air Force, and Defense Advanced Research Projects Agency; and one member from the staff of the DDR&E, the Assistant Director (Space and Advanced Systems). These members will serve for an indefinite term.

Associate Members. As set forth in Operations, the HELRG may establish formal subgroups and ad hoc study groups. Upon nomination by the HELRG and approval of the DDR&E, each member of the subgroups and ad hoc study groups shall be appointed to Associate Membership of the HELRG.

Chairman. The chairman of the HELRG will be the Assistant Director (Space and Advanced Systems), ODDR &E, a full-time, salaried employee of the U.S. Government, who will have authority to adjourn any meeting of the HELRG which is not considered to be in the public interest.

Functions. The functions of the HELRG include:

Review and consideration of all aspects of the high-energy laser RDT&E requirements, projects, and programs of the military departments and Defense Agencies.

Analysis and consideration of the high-energy laser programs of other executive departments and agencies of the government in order to assure appropriate consideration of these efforts in all of the Group's recommendations to the DDR&E.

Review, analysis, and consideration of Independent Research and Development (IR&D) expenditures by U.S. industry in the development of high-energy laser technology and components of equipment applicable to weapon system development.

Preparation of reports and analyses for presentation to the DDR&E summarizing the Group's activities, accomplishments and objectives and recommendations concerning the discharge of its functions.

Such other functions as are compatible with this charter and are considered appropriate by the DDR&E.

Operations. The HELRG will operate in accordance with provisions of Public Law 92-463, Executive Order 11686, and implementing Office of Management and Budget and Department of Defense regulations for Federal Advisory Committees.

In the execution of its functions the HELRG will operate under the supervision, administration, and control of the Assistant Director (Space and Advanced Systems), ODDR&E, and in accordance with established ODDR&E policies.

The HELRG shall meet regularly four times each year and at such other times as may be called by the Chairman or the DDR&E.

The procedures for developing the advice and recommendations of the HELRG shall be as flexible as is consistent with its purpose. The Group is authorized to establish, subject to the approval of the Assistant Director (Space and Advanced Systems), ODDR&E:

Formal subgroups to conduct continuing in-depth reviews of all major subdivisions of high-energy laser technology and to review and advise on other problems that may arise.

Informal ad hoc study teams to advise on immediate problems of a crisis or urgent nature. Such ad hoc study groups shall terminate when no longer required but in no case longer than twelve months.

The subgroups and study groups will carry out their work as a charge from the HELRG, and will report their findings to the Group for approval and consideration for further dissemination.

The HELRG will prepare for the DDR&E, not less frequently than once a year, a report summarizing its activities during the period covered and making program recommendations for the next period.

The Assistant Director (Space and Advanced Systems), ODDR&E, will arrange for the necessary support for the HELRG and its formal subpanels and ad hoc study groups.

V 38-158 AUG 16 73 XUM

Liaison. The HELRG shall maintain liaison with other groups and agencies both within and outside the Department of Defense, that have related interests.

Funding. The estimated total annual operating costs will be approximately $100,000. The time expended by government employees who are members of the HELRG is estimated as one man-year annually.

Termination. The HELRG shall terminate two years from the date the charter is filed or on completion of its mission, unless prior to that time its continuation is approved for another period of two years.

Date charter filed:

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Comptroller).

National Park Service

HONOKOHAU STUDY ADVISORY COMMISSION

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that meetings of the Honokohau Study Advisory Commission will be held on August 24, 25, and 26 on the Island of Hawaii.

The Commission was established by Public Law 92-346 to provide advice to the Secretary of the Interior on matters relating to the making of a study of the feasibility and desirability of establishing as a part of the National Park System an area comprising the site of Honokohau National Historic Landmark.

Members of the Commission are as follows:

Colonel Arthur Chun, Kailua-Kona (Chairman); Rev. Henry K. Boshard, Kailua-Kona; Ms. Nani Mary Bowman, Honolulu; Mr. Fred Cachola, Waianae; Mr. Alika Cooper, Hilo; Dr. Kenneth P. Emory, Honolulu; Mr. Homer A. Hayes, Honolulu; Mr. Kwai Wah Lee, Hilo; Ms. Iolani Luahine, Kailua-Kona; Mr. George Naope, Hilo; Mrs. Abbie Napeahi, Hilo; Mr. George Pinehaka, Honaunau, Kona; Mr. David K. Roy, Kailua-Kona; Mr. Pilipo Springer, Holualoa; and Mrs. Emily Kaai Thomas, Honolulu.

The matters to be considered at the meeting are:

1. Review of basic data gathered to date;
2. Review of outline of report;
3. Gathering of supplemental data and ideas from interested persons, agencies, and organizations;
4. Inspection of comparative areas which afford insight into Hawaiian cultural practices and resource uses, and park plans.

On August 24, the Commission will visit the City of Refuge National Historical Park. The morning of August 25, the Commission will visit the Puukohola Heiau National Historic Site. A formal meeting of the Commission will be held from 1:00 p.m. to 5:00 p.m. in the Kulana Naauao, 14 Keawe Street, Hilo, Hawaii. The Commission will visit the Kalapana District of Hawaii Volcanoes National Park on August 26.

The meeting will be open to the public, and participation is encouraged. Transportation will not be provided for members of the public for the field inspections. However, members of the public may participate in these inspections by providing their own transportation. Any person may file with the Commission a written statement concerning the matters to be discussed.

Persons wishing further information concerning the meeting, or who wish to submit written statements, may contact Robert L. Barrel, State Director, Hawaii, National Park Service, 677 Ala Moana Blvd., Suite 512, Honolulu, Hawaii 96813.

Minutes of the meeting will be available for public inspection four weeks after the meeting at the Office of the State Director, Hawaii, and the Director, Western Region, National Park Service, 450 Golden Gate Avenue, San Francisco, California 94102.

Dated: August 10, 1973.

STANLEY W. HULETT,
Associate Director, National Park Service.

NATURAL SCIENCES ADVISORY COMMITTEE

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Natural Sciences Advisory Committee will be held at 9 a.m., August 22, 1973, in Room 5546, Interior Building, 18th and C Streets, NW., Washington, D.C.

The Committee was established to render advice to the Director of the National Park Service regarding the management of natural resources within the National Park System, and the scientific information required to accomplish that task.

Members of the Committee are as follows:

Dr. Stanley A. Cain
University of California
Santa Cruz, California

Dr. A. Starker Leopold
University of California
Berkeley, California

Dr. Charles E. Olmsted
University of Chicago
Chicago, Illinois

Dr. Sigurd F. Olson
Ely, Minnesota

Dr. Alvin L. Bertrand
Louisiana State University
Baton Rouge, Louisiana

Dr. Durward L. Allen
Purdue University
Lafayette, Indiana

The meeting will be closed to the public. The Director of the National Park Service has made a determination in accordance with section 10(d) of the Federal Advisory Committee Act that the meeting will involve matters exempt from public disclosure under the provisions of 5 U.S.C. 552(b). However, any member of the public may file with the Advisory Committee a statement in writing concerning any of the matters to be discussed.

The purpose of the meeting is to consider individuals for the position of Chief Scientist of the National Park Service, and will involve the review of personnel files of various individuals. The meeting will also involve discussion of the internal personnel rules and practices of the National Park Service and the Department of the Interior.

Persons desiring further information concerning this meeting or who wish to file written statements may contact Dr. Theodore W. Sudia, Office of Natural Science, National Park Service, at 202 343-4011.

A report of the meeting will be prepared in accordance with the provisions of the Federal Advisory Committee Act.

Dated: August 9, 1973.

STANLEY W. HULETT,
Associate Director, National Park Service.

PROPOSED WILDERNESS CLASSIFICATION FOR GUADALUPE MOUNTAINS NATIONAL PARK, TEXAS

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act, the Department of the Interior has prepared a final environmental statement for Proposed Wilderness Classification for Guadalupe Mountains National Park, Texas.

The final environmental statement considers the designation of 46,850 acres of Guadalupe Mountains National Park as wilderness.

Copies are available from or for inspection at the following locations:

Southwest Regional Office
National Park Service
Old Santa Fe Trail
P.O. Box 728
Santa Fe, New Mexico 87501

Carlsbad Caverns National Park
P.O. Box 1598
Carlsbad, New Mexico 88220

Dated: August 8, 1973.

JOHN M. SEIDL,
Deputy Assistant Secretary of the Interior.

Office of the Secretary

E. E. WALL

Statement of Changes in Financial Interests

In accordance with the requirements of section 710(b)(6) of the Defense Production Act of 1950, as amended, and Executive Order 10647 of November 28, 1955, the following changes have taken place in my financial interests during the past six months:

(1) No change.
(2) Change: Sold 300 shares of Honeywell, Inc. stock. Purchased an unknown number of Standard Oil Company of California shares of common stock under the company plan. These purchases are made automatically by means of payroll deduction and I do not have information as yet regarding the total number of shares purchased since the last financial interest statement.
(3) No change.
(4) No change.

This statement is made as of August 23, 1973.

Dated: August 1, 1973.

E. E. WALL.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

EMERGENCY LOANS

Designation of Areas

It has been determined that a general need for agricultural credit which temporarily cannot be met by private, cooperative, or other responsible sources exists in certain counties in Washington as a result of a natural disaster caused by extremely low temperatures during the winter of 1972-73, associated with the lack of snow coverage and drought conditions developing from January through June 1973. Governor Daniel J. Evans, Governor of the State of Washington, has requested that the Secretary of Agriculture declare these areas as disaster areas. The incidence period for this disaster is December 1, 1972, through July 1, 1973. The following counties in Washington are affected by such natural disasters:

Ferry	Spokane
Pend Oreille	Stevens

Therefore, these counties are designated eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 93-24. Applications for Emergency loans must be received by this Department prior to October 9, 1973, for physical losses and prior to May 7, 1974, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 9th day of August, 1973.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

Forest Service

MULTIPLE USE PLAN ON THE PORCUPINE/BUFFALO HORN PLANNING UNIT

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Multiple Use Plan on the Porcupine/Buffalo Horn Planning Unit, Forest Service report number USDA-FS-DES (Adm) 73-94.

The environmental statement concerns a proposed implementation of a revised Multiple Use Plan for the Porcupine/Buffalo Horn Planning Unit, Gallatin Ranger District, Gallatin National Forest in Gallatin County, Montana. Forty-six thousand one hundred and sixty-seven acres are affected. Inventory analysis was done to the most intense level used by the Forest Service. The plan provides the District Ranger with detailed management prescriptions for the Unit. The Unit is broken into four subunits (management units) which contain similar resource problems, opportunities, and capabilities.

This draft environmental statement was filed with CEQ on August 9, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. & Independence Ave., S.W.
Washington, D.C. 20250

USDA, Forest Service
Northern Region
Federal Building
Missoula, Montana 59801

USDA, Forest Service
Gallatin National Forest
P.O. Box 130
Federal Bldg.
Bozeman, Montana 59715

A limited number of single copies are available upon request to Forest Supervisor Paul D. Weingart, Gallatin National Forest, P.O. Box 130, Federal Bldg., Bozeman, Montana 59715.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Please refer to the name and number of the environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor Paul D. Weingart, Gallatin National Forest, P.O. Box 130, Federal Bldg., Bozeman, Montana 59715. Comments must be received by September 23, 1973 in order to be considered in the preparation of the final environmental statement.

PHILIP L. THORNTON,
Deputy Chief, Forest Service.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

[Case No. 432]

ARTUR W. EVEN

Notice of Appeal

Statement. On August 4, 1972, the Bureau of International Commerce, Department of Commerce, issued an order, effective August 11, 1972, suspending for four years the US export privileges of Mr. Artur W. Even, Am Forsthaus Gravenbruch 53, 6078 Neu Isenburg 2, of the Federal Republic of Germany. The order was based on charges that Even made false and misleading statements to said Bureau's Office of Export Control and other offices of the U.S. Government in the course of pre-licensing and post-licensing investigations conducted under the Export Control Act of 1949, as amended; and (b) through such misrepresentations caused commodities to be exported from the U.S. and disposed of contrary to prior representations. The misrepresentations were made and the exports and dispositions were effected between 1967 and 1969.

Based on the same charges, the Bureau's order also suspended the US export privileges of Even's then employer, Otavi Minen und Eisenbahn Gesellschaft, of Frankfurt, FRE, for three years, of which all save the first five months, however, were subject to probationary terms. By a separate order of the same date, based on charges of a similar and related nature, the Bureau suspended for four years the export privileges of Dr. H. O. W. Brenner, then managing director of Otavi, and Even's top superior.

The Bureau's two orders were not published in the FEDERAL REGISTER at the time of their issuance, because of stays granted in connection with appeals to this Appeals Board, which were filed by all of the parties. On December 4, 1972, however, Otavi withdrew its appeal and the stay of the Even-Otavi order was vacated as to it. Such order was then put into effect by the Bureau, rewritten as a separate order, December 8, 1972 (37 FR 26444). The stay of the Even part of the original order remained in effect pending his appeal. Thereafter, Brenner's appeal was considered by the Board, and was denied on February 15, 1973. On February 27, the Bureau's separate order against Brenner was put into effect (38 FR 2573).

V 38-158 AUG 16 73 XUM

By letter dated February 12, the Board notified Even that considering (1) the exceptional nature of stays pending appeals of export denial orders, (2) the consequent obligation of an appellant to pursue his appeal promptly after a stay has been granted, and (3) Even's failure to attend the oral hearing before the Board that was requested by him, under time arrangements that had twice been made to accommodate him, the stay of the Bureau's order of August 4, 1972 was terminated. This was, of course, without prejudice to the oral hearing of Even's appeal at a later date, as he requested. The denial order against Even, therefore, went into effect on February 27, 1973 (38 FR 5271). This order omitted, however, the portions concerning Otavi which were covered by the separate order referred to above.

At Even's request, his appeal was reset for April 13, 1973, when he appeared in person at Washington, D.C. The Board permitted him to offer written and oral evidence as well as arguments. In addition to dealing with the merits, Even disclosed that while the original order was stayed he had been hired by the West German affiliate of an American company to handle the receipt and on forwarding of U.S. origin goods to the firm's customers. Noting the impact on him and his new employer of the order of February 27, Even urged that it be reversed on the merits, or at least modified to enable him to retain his position pending the appeal.

Thereafter, on May 30 and June 5, the American company, for its West German affiliate, also requested an exception to the Bureau's order, for the same purpose. Assurance was given that Even's work would be supervised by the management, who would not permit him to determine the destination of any consignments. On June 15, the West German affiliate was given permission to continue to allow Even to handle U.S. origin goods, pending this appeal, conditioned on effective management supervision.

SUMMARY OF BUREAU'S ORDER AND EVEN'S DEFENSE

Following is a summary of the key findings of the Bureau on which its order was based. To the extent contested by Even, each such finding is followed by a parenthetical summary of his rebuttal evidence offered to the Appeals Board.

1. According to the Bureau, during 1966–1969, Even was the manager of the metals trading department, and Brenner was the General Manager of Otavi, a large West Germany company engaged in the production and sale of rare metals and ceramics, for structural use and insulating material. It also had mining subsidiaries in South Africa. Its West German office, where Even and Brenner were located, was in Frankfurt, and it had plants in two nearby towns.

(a) In addition to his metals trading duties, Even (under Brenner's supervision) also purchased machinery and equipment for the plants.

(Even testified that at the beginning of this period he had only worked for Otavi about a year. Trained as a forwarder, he had to learn the metals business on the job. Throughout, instead of being a manager, Even was a specialist or clerk in the metals (raw materials and refractories) department, one of nine people under a Mr. Menthol. Even's duties concerned (a) selling products of the Neu Isenburg plant, i.e., germanium oxide and metal, and some special metals used in electronics; and (b) purchasing raw materials for that plant. In addition, directly on instructions from Brenner, the general manager, Even purchased machinery. He visited the plant at Neu Isenburg about once a month, but only visited the other plant twice in the whole period).

2. According to the Bureau, Even and Brenner, in Otavi's name, bought from a US firm and its Swiss subsidiary $450,000 of strategic US origin equipment and machinery for use in the manufacture and testing of semi-conductors (transistors and diodes). The US export licenses were granted, naming Otavi as ultimate consignee. In June 1967, before the equipment and machinery were exported by air freight from the US to Frankfurt, Even came to the US to expedite the shipment. At that time, in response to questions from one of the Bureau's investigators, Even said the equipment and machinery were to be used at the Neu Isenburg plant.

(a) However, as early as December 1966, Even and Brenner had negotiated a contract for Otavi to sell the same equipment and machinery to FIMORCO, a Munich trading firm. On arrival by air freight at Frankfurt, in June 1967, Otavi delivered the equipment and machinery to FIMORCO, which redelivered it to a Stuttgart firm. The machinery and equipment are believed to have been afterward re-exported to East Germany, to which they would not have been licensed by the Bureau.

(b) In October 1967, Even was involved in another similar transaction concerning a US-origin oscilloscope. Even told a Bureau investigator that this instrument was also to be used by Otavi, with the already installed machinery and equipment, in manufacturing semiconductors, although Even knew Otavi was not engaged in and had no intention of engaging that business.

(Even says that in 1967 he accompanied Brenner for the first time on a visit to FIMORCO, at Munich. During this conference, lasting four hours, he was called in by Brenner only when transportation questions were discussed. He also attended later meetings with Brenner, and telephoned FIMORCO, to advise it when a shipment arrived. On some transactions with FIMORCO he arranged to engage as the forwarder a firm for whom he had previously worked. He did not feel he could ask Brenner about FIMORCO's role in the transactions, and in view of his subordinate status did not think Brenner would tell him. He knew FIMORCO was an import-export trading firm and had no plant at which the equipment and machinery could be used. Only Brenner was involved in bringing FIMORCO into the deal. Even did not know of the execution of the contract in question between FIMORCO and Otavi until a year later, and then thought it had been made as a "straw" transaction only, for financing or tax reasons. Even thought the transistor-making and testing equipment was actually for an Otavi plant, as Brenner or another Otavi official had asked him to arrange with the plant manager to provide space for it, and no one told him later that this intention had been abandoned. He understood Otavi's use of the equipment was being kept secret because Otavi sold raw materials to other West German semiconductor manufacturers and did not want them to know it planned to go into competition with them).

3. According to the Bureau, between December 1968 and March 1969, Even falsely told representatives of the US Consulate General, in Frankfurt, in response to their questions, that: (a) Otavi originally ordered the equipment and machinery for use in one of its own plants, and only sold it to FIMORCO about July 1967, after the original intent failed. (b) Technicians who had accompanied him to US supplier for training purposes had been from FIMORCO.

(Even says that he made these representations in good faith, based on his then understandings from Brenner and other officials, and his own surmises).

(With respect to the two technicians Even had represented to be from FIMORCO, Even said they so introduced to him by Brenner and a man named Beyer, who had "started the whole thing." Even said he had no reason to doubt this introduction, and came to the US with those technicians on two occasions. Afterward, he talked to them several times, calling them at Beyer's place, at Garmisch. Much later he learned they were East Germans, who travelled on West German passports).

In addition to thus answering the findings in the Bureau's order, Even responded orally and in writing, as follows, to questions that arose during his appeal hearing:

1. Even contradicted certain testimony which had been furnished in the Bureau's hearing on the Otavi case. This testimony was to the effect that Even and Brenner had entered into these transactions for their personal gain, and not for the benefit of Otavi. Two individuals involved in the transactions were said to have paid them, i.e., Gaertner, an old friend of Even, who was at the time representing a Swiss firm, and Beyer, purportedly an official of the Swiss firm. Even denied they had paid him anything, and said he had not been a partner of Gaertner. He produced statements from them to confirm his denials.

2. However, Even admitted that Beyer "is the guy that did the actual transactions and started the whole thing. This was the guy that phoned me and came to me with that business. Then I turned him over to Brenner because I didn't know anything about that and gave it to Brenner because I heard how much money was involved. This was without my limits that I had in doing transactions on my own." (Tr. p. 30).

3. Even also admitted that Gaertner was an old personal friend, and was known to him to be a representative of a Swiss firm. Even said that at one time he had been instructed by Brenner to turn over to Gaertner certain equipment which had been on exhibition at the U.S. Trade Center in Frankfurt. Even said he had arranged for issuance of a West German import certificate on that equipment, but did not know whether his friend had exported it to Switzerland or obtained a West German export license. Even claimed that his friend later told him that he had handed over the equipment to the responsibility of the Swiss people, as his role was only to arrange for payment in West Germany. Even added that he later learned that Beyer had acted for the Swiss firm and hired his friend as sales and purchasing representative. Following his appeal hearing, Even modified his explanation of this transaction in a letter to the Board, saying that Brenner had asked him to check on transporting the equipment from the Frankfurt Trade Center to Vienna. He obtained information on routes and freight costs from a local forwarder and reported to Brenner, who later told him the equipment would remain in West Germany and would be picked up by Otavi's customer by truck.

4. Even admitted visiting Otavi's Neu Isenburg plant several times between June and October 1967, when he had represented to a Bureau investigator that the machinery and equipment were already installed there. However, he conceded that he never looked to see if the equipment and machinery were there, and only talked with the plant manager about raw materials for its inventory.

5. Even admitted being called into Brenner's office when a representative of the US Consulate General was there, but denied that the representative had asked anything about the US origin machinery and equipment or oscilloscope when he was present, only about how the operations were running. Even claimed that he had learned only after the Consul's visit that the equipment and machinery had been definitely sold to FIMORCO, and that he had then been instructed by Brenner to tell this to the Consul, in case the latter should call again. Even said he accordingly so told the Consular representative, when the latter phoned again a few days afterward.

6. Even several times particularly emphasized that he was never in a position to authorize any of the transactions in question, such power being at all times retained by Brenner.

DECISION

From its review of the record on which the Bureau's order against Even was based, together with the oral and written evidence and arguments on this appeal, the Appeals Board hereby concludes as follows:

1. The Bureau's order is well founded on the facts and law, with the following limited exceptions to the findings and conclusions of that order:

(a) Even was not the manager of Otavi's metals trading department, but was instead one of the subordinates to the manager, and Even was concerned with buying raw materials for and selling metal products of an Otavi plant. In addition, directly under Brenner, he was responsible for purchases of machinery and equipment.

(b) Even had no personal economic interest in any of the transactions involved in this case by way of commission, partnership arrangements, or otherwise.

These exceptions appear to result from the circumstances that: (a) although duly notified, neither Even nor Brenner appeared in person (and submitted only written answers) for the Bureau's hearing, and (b) Otavi there offered evidence only by Brodersen, the official who had succeeded Brenner as general manager, but who was not with Otavi at the time of the acts and transactions covered by such order.

2. These exceptions, while relevant to the nature and duration of the sanction to be imposed, are not deemed to affect the validity of the Bureau's order. The important basis of the Bureau's order concerns Even's representations to U.S. officials. This element of the case is sought to be answered by Even's claim that his representations to the U.S. officials were made in good faith, in reliance on information given him by Brenner and other Otavi personnel, whom he was not in a position to question. It is the Board's conclusion, however, based on all the evidence, that Even either knew or had information available to him from which he could have had timely knowledge that his representations to the officials would be and were misleading to the U.S. Government.

3. The determination in the Bureau's order, to deny Even U.S. export privileges for four years, was not unreasonable, arbitrary or capricious, on the basis of the then existing record. However, since then information has come forth which, in the opinion of this Board, warrants modification of the sanction of the Bureau's order, by reducing its term. This new information is additional to the foregoing, and is as follows: Brenner, who was the general manager of Otavi, and Even's direct superior in the purchases of machinery, was also denied U.S. export privileges for four years, by the separate Bureau order referred to above. Brenner did not elect to appear at either the Bureau's or the Board's hearings, and submitted answers to the Bureau and Board in which he merely sought to excuse the misrepresentations directly made by him to U.S. Consular officials as an intended joke. Even, however, at his own expense, appeared in person before the Board, to which he candidly offered his evidence, although he knew that not all of it was favorable to his cause. Also, it appears that Brenner is a Doctor of Jurisprudence, whereas Even is trained only as a forwarder. These factors, in the Board's opinion, warrant imposing a sanction of lesser duration on Even than on Brenner.

4. Giving due recognition to these differences between the Even and Brenner cases, it is the judgment of the Board that the Bureau's order against Even should be and hereby is modified:

(a) By reducing the duration of Even's denial of export privileges to a term of two years from February 27, 1973, the effective date of the Bureau's order; and

(b) By maintaining in effect the aforementioned exception previously granted pending his appeal, to allow Even to continue to be employed by the West German affiliate of the U.S. company, in the handling and on-forwarding of its U.S. origin goods, subject to effective management supervision, for the duration of this modified order, and provided Even continues to comply with U.S. export controls.

THEODORE L. THAU,
Acting Chairman.
NATHAN OSTROFF,
Board Member.

Maritime Administration

[Docket No. S-381]

OPERATING-DIFFERENTIAL SUBSIDY FOR CARRIAGE OF BULK CARGO PRINCIPALLY BETWEEN THE U.S. AND U.S.S.R.

Notice of Multiple Applications

Notice is hereby given that the corporations listed in Appendix A have filed applications for extension of operating-differential subsidy contracts to carry bulk cargoes to expire, unless extended, on December 31, 1973 (except for subsidized voyages in progress on that date). The bulk cargo carrying vessels proposed to be subsidized and a description of each of such vessels are also presented in Appendix A.

Said applications may be inspected in the Office of the Secretary, Maritime Subsidy Board, Maritime Administration, U.S. Department of Commerce, Washington, D.C., during regular working hours.

These vessels are to engage in the carriage of export bulk, raw and processed agricultural commodities in the foreign commerce of the United States (U.S.) from ports in the United States to ports in the Union of Soviet Socialist Republics (U.S.S.R.), or other permissible ports of discharge. Liquid and dry bulk cargoes may be carried from U.S.S.R. and other foreign ports inbound to U.S. ports during voyages subsidized for carriage of export bulk, raw and processed agricultural commodities to the U.S.S.R.

Full details concerning the U.S.-U.S.S.R. export bulk, raw and processed agricultural commodities subsidy program, including terms, conditions and restrictions upon both the subsidized operators and vessels, appear in the regulations published in the Federal Register on August 3, 1973 (38 F.R. 20807).

For purposes of section 605(c), Merchant Marine Act, 1936, as amended (Act), it should be assumed that each vessel named will engage in the trades described on a full-time basis through December 31, 1973 (with extension to termination of approved subsidized voyages in progress on that date). Each voyage must be approved for subsidy before commencement of the voyage. The Maritime Subsidy Board (Board) will act on each request for a subsidized voyage as an administrative matter under the terms of the individual operating-differ-

V 38-158 AUG 16 73 XUM

ential subsidy contract for which there is no requirement for further notices under section 605(c) of the Act.

The Board has previously found during fiscal year 1973, that section 605(c) was no bar to the grant of operating-differential subsidy to each of the applicants listed in Appendix A.

Any person having an interest in the granting of one or any of such applications and who would contest a finding of the Board that the service now provided by vessels of U.S. registry for the carriage of cargoes as previously specified is inadequate, must, on or before August 23, 1973, notify the Board's Secretary, in writing, of his interest and of his position, and file a petition for leave to intervene in accordance with the Board's rules of practice and procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Act and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing. Further, each such statement shall identify the applicant or applicants against which the intervention is lodged.

In the event requests for hearing and petitions regarding the relevant section 605(c) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled commencing at 10 a.m., August 24, 1973, and continuing on succeeding business days if required, in Room 4896, Department of Commerce Building, 14th and E Streets, N.W., Washington, D.C. 20235. The purpose of the hearing will be to receive evidence relevant to (1) whether the application(s) hereinabove described is one with respect to vessels to be operated in an essential service, served by citizens of the United States which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of U.S. registry is inadequate and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated thereon. Evidence concerning each application will be heard in the order in which applicants are listed in Appendix A.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Board will take such action as may be deemed appropriate.

Dated: August 10, 1973.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
Secretary.

[Docket No. S-382]

OPERATING-DIFFERENTIAL SUBSIDY FOR CARRIAGE OF BULK CARGO PRINCIPALLY BETWEEN THE U.S. AND U.S.S.R.

Intent To Extend Existing Agreements

Notice is hereby given that the corporations listed in Appendix A have filed applications for extension of operating-differential subsidy contracts to carry bulk cargoes to expire, unless extended, on December 31, 1973 (except for subsidized voyages in progress on that date). The bulk cargo carrying vessels proposed to be subsidized and a description of each of such vessels are also presented in Appendix A.

Said applications may be inspected in the Office of the Secretary, Maritime Subsidy Board, Maritime Administration, U.S. Department of Commerce, Washington, D.C., during regular working hours.

These vessels are to engage in the carriage of export bulk, raw and processed agricultural commodities in the foreign commerce of the United States (U.S.) from ports in the United States to ports in the Union of Soviet Socialist Republics (U.S.S.R.), or other permissible ports of discharge. Liquid and dry bulk cargoes may be carried from U.S.S.R. and other foreign ports inbound to U.S. ports during voyages subsidized for carriage of export bulk, raw and processed agricultural commodities to the U.S.S.R.

Full details concerning the U.S.-U.S.S.R. export bulk, raw and processed agricultural commodities subsidy program, including terms, conditions, and restrictions upon both the subsidized operators and vessels, appear in the regulations published in the Federal Register on August 3, 1973 (38 FR 20807).

For purposes of section 605(c), Merchant Marine Act, 1936, as amended (Act), it should be assumed that each vessel named will engage in the trades described on a full-time basis through December 31, 1973, unless the relevant operating-differential subsidy contract is extended (except for approved subsidized voyages in progress on that date). Each voyage must be approved for subsidy before commencement of the voyage. The Maritime Subsidy Board (Board) will act on each request for a subsidized voyage as an administrative matter under the terms of the individual operating-differential subsidy contract for which there is no requirement for further notices under section 605(c) of the Act.

The Board has previously found during fiscal year 1973, that section 605(c) was no bar to the grant of operating-differential subsidy to each of the applicants listed in Appendix A.

Any person having an interest in the granting of one or any of such applications and who would contest a finding of the Board that the service now provided by vessels of U.S. registry for the carriage of cargoes as previously specified is inadequate, must, on or before August 23, 1973, notify the Board's Secretary, in writing, of his interest and of his position, and file a petition for leave to intervene in accordance with the Board's rules of practice and procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Act and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing. Further, each such statement shall identify the applicant or applicants against which the intervention is lodged.

In the event requests for hearing and petitions regarding the relevant section 605(c) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled commencing at 10 a.m., August 24, 1973, and continuing on succeeding business days if required, in Room 4896, Department of Commerce Building, 14th and E Streets, N.W., Washington, D.C. 20235. The purpose of the hearing will be to receive evidence relevant to (1) whether the application(s) hereinabove described is one with respect to vessels to be operated in an essential service, served by citizens of the United States which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of U.S. registry is inadequate and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated thereon. Evidence concerning each application will be heard in the order in which applicants are listed in Appendix A.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Board will take such action as may be deemed appropriate.

Dated: August 10, 1973.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
Secretary.

National Technical Information Service

FEDERALLY-SPONSORED BUSINESS, ECONOMIC AND TECHNICAL REPORTS

Notice of Pricing Policy

Notice is hereby given of the following pricing schedule adopted by the National Technical Information Service (NTIS). The NTIS provides government and public availability of federally-sponsored business, economic and technical reports. Change to the NTIS price schedule follows:

REPORT PUBLICATIONS

NTIS provides publications on an ad hoc basis in microform, printed and machine form. The following price changes supersede the paper copy and microfiche prices announced in the February 11, 1971, and July 8, 1972, issues of the FEDERAL REGISTER.

STOCKED REPORTS (PAPER COPY)

Effective August 13, 1973, the price listing for *Stocked Reports* consolidates schedules entitled *Wide Interest Reports, Medium Interest Reports and Computer Products Reports.* The price change will have the effect of reducing current prices for *Wide Interest* and *Computer Products Reports* while providing cost recovery on *Medium Interest Reports.* The price change for *Stocked Reports* will not be retroactive.

Exceptions to this schedule will be made where unusual reproduction requirements exist.

Schedule is as follows:

Page range	Domestic selling price	Foreign selling price
001-025	$2.75	$5.25
026-050	3.00	5.50
051-075	3.50	6.00
076-100	3.75	6.25
101-125	4.25	6.75
126-150	4.50	7.00
151-175	4.75	7.25
176-200	5.25	7.75
201-225	5.50	8.00
226-250	5.75	8.25
251-275	6.25	8.75
276-300	6.50	9.00
301-325	7.00	9.50
326-350	7.25	9.75
351-375	7.75	10.25
376-400	8.00	10.50
401-425	8.25	10.75
426-450	8.75	11.25
451-475	9.00	11.50
476-500	9.50	12.00
501-525	9.75	12.25
526-550	10.00	12.50
551-575	10.50	13.00
576-600	10.75	13.25
601 up	$2.00 for each additional 100 page increments plus $2.50 per document for foreign surcharge.	

V 38-158 AUG 16 73 XUM

Certain special reports previously specially priced will continue to be treated as exceptions to this price schedule.

MICROFICHE REPORTS

Effective August 13, 1973, the price for individual orders for microfiche reports will be $1.45 domestic and $2.95 foreign, retroactive, regardless of announcement date.

Documents in excess of 1,000 printed pages will be specially priced.

Certain special reports previously specially priced will continue to be treated as exceptions to this price schedule.

WILLIAM T. KNOX,
Director.

[FR Doc.73-17012 Filed 8-15-73;8:45 am]

Office of Textiles

MANAGEMENT-LABOR TEXTILE ADVISORY COMMITTEE

Notice of Public Meeting

AUGUST 14, 1973.

The Management-Labor Textile Advisory Committee will meet at 2 p.m. on August 23, 1973 in Room 6802, Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

The Committee, which is comprised of 40 members representing the industry, trade associations, and trade unions, advises Department officials on conditions in the textile industry and on trade in textiles and apparel.

The agenda for the meeting is as follows:

1. Review of Import Trends
2. Report on Conditions in the Domestic Market
3. Implementation of Textile Agreements
4. Other Business

A limited number of seats will be available to the public. The public will be permitted to file written statements with the committee before or after the meeting. To the extent time is available at the end of the meeting the presentation of oral statements will be allowed.

Portions of future meetings which concern subjects not listed above will be open to public participation unless it is determined, in accord with § 10(d) of the Federal Advisory Committee Act and the OMB-Justice memorandum on Advisory Committee Management, that specifically identified portions will be closed.

Further information concerning the Committee may be obtained from Arthur Garel, Director, Office of Textiles, Main Commerce Building, U.S. Department of Commerce, Washington, D.C. 20230.

ARTHUR GAREL,
Director,
Office of Textiles.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

E. I. DU PONT DE NEMOURS & CO.

Notice of Petition for Food Additive

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (FAP 3B2902) has been filed by E. I. du Pont de Nemours & Co., 1007 Market St., Wilmington, DE 19898, proposing that § 121.2562 *Rubber articles intended for repeated use* (21 CFR 121.2562) be amended in paragraph (c)(4)(i) to provide for the safe use of ethylene polymer chlorosulfonylated in the manufacture of films or coatings intended for use in contact with food.

The environmental impact analysis report and other relevant material have been reviewed, and it has been determined that the proposed use of the additive will not have a significant environmental impact. Copies of the environmental impact analysis report are available in the Office of the Assistant Commissioner for Public Affairs, Rm. 15B-42 or the Office of the Hearing Clerk, Food and Drug Administration, Rm. 6-88, 5600 Fishers Lane, Rockville, MD 20852.

Dated: August 2, 1973.

VIRGIL O. WODICKA,
Director, Bureau of Foods.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[Docket No. N-73-160]

MODEL LEASE AND GRIEVANCE PROCEDURE

Notice of Hearing

On February 22, 1971, the Department of Housing and Urban Development issued to all local housing authorities Circulars Nos. RHM 7465.8, "Requirements and Recommendations to be Reflected in Tenant Dwelling Leases for Low-Rent Public Housing Projects," and RHM 7465.9, "Grievance Procedure in Low-Rent Public Housing Projects."

On June 19, 1973 (38 FR 15988), the Department gave notice that HUD is conducting a review and evaluation of the provisions of these Circulars and requested any comments or information from all interested organizations and individuals in writing on or before August 15, 1973.

In addition to this invitation for comments, the Department has decided to conduct a public hearing on the model lease and grievance procedure. The hearing which will be of record will discuss the following:

1. The effect of the implementation of these Circulars by local housing authorities on project management and operations.
2. What changes, if any, are necessary to achieve the objectives of these Circulars in promoting better tenant-management relations and in protecting the interests of the local housing authorities, the tenants, and HUD.

The hearing will be held as follows:

Date: September 17, 1973
Place: Auditorium, Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C.
Time: 9:00 a.m.—12:00 noon; 1:00 p.m.—4:00 p.m.

Arrangements for time to make oral presentations or any other communications regarding this hearing should be filed with the Director, Office of Housing Programs, Room 9112, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410, on or before Sept. 11, 1973. The Department reserves the right to limit the time of presentation and the number of appearances, if necessary.

Subsequent to the public hearing, a further notice of proposed rulemaking will be published in the FEDERAL REGISTER for written comment prior to final adoption by the Department of Housing and Urban Development.

Date: August 13, 1973.

JAMES T. LYNN,
Secretary of Housing and Urban Development.

[FR Doc.73-17143 Filed 8-15-73;8:45 am]

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[FRA E.O. No. 3, Amdt. 1]

EMERGENCY ORDER REGARDING USE OF CARS TRANSPORTING CLASS A EXPLOSIVES

Exception Regarding Cars Equipped With Cast Iron Brakeshoes

On August 9, 1973, the Federal Railroad Administration (FRA) issued an emergency order under the authority of section 203 of the Federal Railroad Safety Act of 1970 (45 U.S.C. 432) which prohibited the further transportation of Class A explosives (49 C.F.R. 173.53) by any railroad except under the conditions contained in the order (38 FR 21952). It was concluded through investigations of recent railroad accidents involving explosions of Tritonal and other bombs that an emergency situation involving a hazard of death or injury to persons existed which necessitated issuance of the order.

The emergency order requires, among other things, that each car used to transport Class A explosives must be equipped with one of three types of brake shoes listed in subdivision (a) of the order. The use of cast iron brake shoes, except those which are characterized as "high phosphorous", is not permitted by the order because cast iron shoes are high sparking in nature.

Nevertheless, it has come to the attention of the FRA that since cast iron shoes are in common usage, railroads must be given some time within which to equip their cars with the requisite brake shoes, or else discontinue the transportation of Class A explosives on a regular schedule. Railroads will also need time to distribute an adequate supply of the requisite brake shoes to repair points.

The FRA believes that it is in the public interest to give the railroads an opportunity to adequately equip their cars with brake shoes required by the order so as not to unduly disrupt transportation service. At the same time, control must still be exercised over the emergency situation that is apparent from the recent accidents. Therefore, effective immediately, the emergency order concerning the transportation of Class A explosives issued on August 9, 1973, (FRA E. O. No. 3), is amended by adding the following exception:

Until September 16, 1973, a railroad may transport Class A explosives in a car equipped with cast iron brake shoes if—

(1) all brake shoes on the car are cast iron;

(2) the car has a continuous steel sub-floor; and

(3) the railroad complies with the provisions of subdivision (c)(1)-(3) of the emergency order governing inspection of the car and each car coupled to that car in a train.

A civil penalty of not less than $250 nor more than $2500 will be assessed for each violation of this amendment to the emergency order, and each day of such violation will constitute a separate offense.

(Sec. 203; 84 Stat. 972, 45 U.S.C. 432; and §1.49(n) of the regulations of the Office of Secretary of Transportation, 49 C.F.R. 1.49(n)).

Issued in Washington, D.C. on August 14, 1973.

JOHN W. INGRAM,
Administrator.

[FR Doc.73-17151 Filed 8-15-73;8:45 am]

ATOMIC ENERGY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON ATLANTIC GENERATING STATION

Notice of Meeting

AUGUST 14, 1973.

In accordance with the purposes of sec. 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards Subcommittee on Atlantic Generating Station will hold a meeting on August 29, 1973 in Room 1046 at 1717 H Street, N.W., Washington, D.C. The purpose of this meeting will be to continue the review of the Preliminary Site Description Report for the Atlantic Generating Station, proposed as a barge mounted nuclear generating station to be located approximately 3 miles offshore of the Southeast coast of New Jersey, and approximately 11 miles Northeast of Atlantic City, New Jersey.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

Wednesday, August 29, 9:30 a.m.–3:30 p.m. Review of Preliminary Site Description Report, Atlantic Generating Station Units 1 and 2. (Presentations by Regulatory Staff and representatives of Public Service Electric and Gas Company of New Jersey and their representatives and discussions with these groups.)

In connection with the above agenda item, the Subcommittee will hold an executive session beginning at 8:30 a.m. which will involve a discussion of its preliminary views, and an executive session at the end of the day, consisting of an exchange of opinions of the Subcommittee members present and internal deliberations and formulation of recommendations to the ACRS. I have determined, in accordance with subsection 10(d) of Public Law 92-463, that the executive session at the beginning and end of the meeting will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b). It is essential to close such portions of the meeting to protect the free interchange of internal views and to avoid undue interference with agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by mailing 25 copies thereof, postmarked no later than August 23, 1973 to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon the Preliminary Site Description Report and related documents on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 and the Wallace R. Host Community Library, North School, Lafayette and Evans Avenue, Brigantine, New Jersey 08203.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statements and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of not more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1:30 p.m. and 3 p.m. on the day of the meeting.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on August 28, 1973, to the Office of the Executive Secretary of the Committee (telephone: 301-973-5651) between 8:30 a.m. and 5:15 p.m., Eastern Daylight Time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 and within approximately nine days at the Wallace R. Host Community Library, North School, Lafayette and Evans Avenue, Brigantine, New Jersey 08203. On request, copies of the minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 on or after October 29, 1973. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Advisory, Committee Management Officer.

[FR Doc.73-17171 Filed 8-15-73;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS WESTINGHOUSE SUBCOMMITTEE

Notice of Meeting

AUGUST 14, 1973.

In accordance with the purposes of secs. 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards Westinghouse Subcommittee will hold a meeting on August 30 and 31, 1973 at the Westinghouse Monroeville Nuclear Center, Haymaker and Northern Pike Roads, Monroeville, Pennsylvania. The purpose of this meeting will be to review various topics applicable to Westinghouse Electric Corporation designed pressurized water reactors.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

Thursday, August 30, 1973, 9:30-5:00 p.m. Review of various topics generic to boiling water reactors (presentations by the AEC Regulatory Staff and Westing-

V 38-158 AUG 16 73 XUM

house will be made and discussions with these groups will be held). If it becomes necessary to carry over the public session to August 31, an announcement will be made at the close of the public session on August 30, 1973.

In connection with the above agenda item, the Subcommittee will hold an executive session at 8:30 a.m., on August 30, 1973, which will involve a discussion of its preliminary views, an exchange of opinions of the Subcommittee members and internal deliberations and formulation of recommendations to the ACRS.

In addition on August 31, the Subcommittee will hold a closed session with the Regulatory Staff and Westinghouse to discuss privileged information relating to plant design and corporate research.

I have determined, in accordance with subsection 10(d) of Public Law 92–463, that the executive session at the beginning of the meeting will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b); and that a closed session will be held to discuss certain privileged information which comes within exemption (4) of 5 U.S.C. 552(b). It is essential to close such portions of the meeting to protect such privileged information and protect the free interchange of internal views and to avoid undue interference with agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule. If a portion of the meeting to be held on August 31 is to be open to the public, an announcement to that effect will be made at the close of the public session on August 30.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than August 23, 1973 to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon Westinghouse topical reports and various other documents on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and .ts usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1:30 p.m. and 3 p.m. on August 30, 1973.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obained by a prepaid telephone call on August 29, 1973 to the Office of the Executive Secretary of the Committee (telephone 301–973–5651) between 8:30 a.m. and 5:15 p.m., Eastern Daylight Time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Atomic Energy Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545. On request, copies of the minutes of the meeting will be available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545 on or after October 31, 1973. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Advisory Committee Management Officer.

[Docket No. 50–295]

COMMONWEALTH EDISON COMPANY

Notice of Issuance of Amendment to Facility Operating License

Notice is hereby given that, pursuant to an Order by the Atomic Safety and Licensing Board, dated July 24, 1973, the Atomic Energy Commission (the Commission) has issued Amendment No. 1 to Facility Operating License No. DPR–39 to Commonwealth Edison Company (Commonwealth Edison) for Zion Nuclear Power Station, Unit 1 (the facility). The facility is a pressurized, light water moderated and cooled reactor located at Commonwealth Edison's 250 acre site on the west shore of Lake Michigan in Zion, Lake County, Illinois. The facility is designed for operation at approximately 3250 megawatts thermal.

In accordance with the provisions of the amended license and the Technical Specifications appended thereto, Commonwealth Edison is authorized to perform operations at core power levels up to 1700 megawatts thermal (about 52% of rated power). Commonwealth Edison is further authorized to perform testing operations at core power levels exceeding 1700 megawatts thermal for not more than 480 hours to conduct tests described in Section VIII of Appendix A to the Stipulation in Commonwealth Edison's May 16, 1973 Motion to the Atomic Safety and Licensing Board. Such testing operations shall not exceed core power levels of 2440 megawatts thermal (about 75% of rated power).

The Director of Regulation has made appropriate findings as required by the Act and the Commission's regulations in 10 CFR Chapter 1, which are set forth in the license. The application for the license complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR Chapter 1.

The amended license is effective as of the date of issuance and shall expire eighteen (18) months from said date unless extended for good cause shown or upon earlier issuance of a superseding licensing action. However, operation of the facility is authorized for not more than 37 days following the date on which intervenors file their proposed findings of fact; thereafter, the reactor shall be placed in the cold shutdown operating mode.

Copies of Commonwealth Edison's Motion dated May 16, 1973, (2) the Board's Order dated July 24, 1973, (3) Amendment No. 1 to Facility Operating License No. DPR–39, and other relevant documents are available for public inspection in the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Waukegan Public Library, 128 N. County Street, Waukegan, Illinois. Copies of the amended license may be obtained upon request addressed to the Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Maryland, this 9th day of August 1973.

For the Atomic Energy Commission.

KARL R. GOLLER,
Chief Pressurized Water Reactors Branch No. 3, Directorate of Licensing.

[Docket No. 50–247]

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.

Notice of Issuance of Amendment to Facility Operating License

Notice is hereby given that pursuant to a supplemental Initial Decision of the Atomic Safety and Licensing Board dated August 9, 1973, the Atomic Energy Commission (the Commission) has issued Amendment No. 3 to Facility Operating License No. DPR–26 to Consolidated Edison Company of New York, Inc. authorizing continued testing and operation of the Indian Point Nuclear Generating Unit No. 2 at steady state reactor core power levels not in excess of 1379 megawatts thermal, in accordance with the provisions of the license and the Technical Specifications. This authority shall expire at midnight September 30, 1973, or upon the earlier issuance of a subsequent licensing action. The Indian Point Nuclear Generation Unit No. 2 is a pressurized water nuclear reactor located at the licensee's site in Westchester County, New York.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license. The application for the license complies with the standards and requirements of the Act and the Commission's rules and regulations.

A copy of (1) the supplemental Initial Decision dated August 9, 1973; (2) Amendment No. 3 to Facility Operating License No. DPR–26; (3) the report of the Advisory Committee on Reactor Safeguards dated September 23, 1970; (4) the Directorate of Licensing's Safety Evaluation dated November 16, 1970, and Supplements 1, 2, and 3 thereto, dated November 20, 1970; July 1971; and September 3, 1971; respectively; (5) The Final Facility Description and Safety Analysis Report and amendments thereto; (6) the applicant's Environmental Report dated August 6, 1970 and supplements thereto; (7) the Draft Environmental Statement dated April 13, 1972; and (8) the Final Environmental Statement dated September 1972, are available for public inspection at the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C., and the Hendrick Hudson Free Library, 31 Albany Post Road, Montrose, New York 10548. A copy of the license and the Safety Evaluation may be obtained upon request addressed to the United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Maryland, this 9th day of August 1973.

For The Atomic Energy Commission.

KARL KNIEL,
Chief, Pressurized Water Reactors Branch No. 2, Directorate of Licensing.

[Docket No. 50–366A]

GEORGIA POWER CO.

Change Notice for Prehearing Conference

In the matter of Georgia Power Company, Hatch Nuclear Plant—Unit 2.

By reason of the unavailability of the hearing room previously scheduled, *It is ordered*, That the hearing previously noticed will be held at the Veterans Administration building, 811 Vermont Avenue, NW, Room 115, Washington, D.C. 20545, on September 6, 1973, at 9:00 a.m.

Issued at Washington, D.C., August 13, 1973.

For the Atomic Safety and Licensing Board.

WALTER W. K. BENNETT,
Chairman.

[FR Doc.73–17077 Filed 8–15–73;8:45 am]

[Docket No. 50–219]

JERSEY CENTRAL POWER AND LIGHT COMPANY

Notice and Order Scheduling Prehearing Conference

Notice is hereby given that, in accordance with the Atomic Safety and Licensing Board's "Notice of Hearing on a Facility Operating License", dated March 2, 1973, and published in the Federal Register on March 8, 1973 (38 FR 6311), a prehearing conference will be held in the above-captioned proceeding on Tuesday, September 18, 1973, at 10:00 a.m., local time in the Township Meeting Room, Ocean Township Municipal Building, corner of Railroad Avenue and Corliss Street, Waretown, New Jersey.

The Prehearing Conference shall deal with the following matters:

1. Further identification and clarification of the issues.

2. The status of any discovery initiated by the parties.

3. The need for further discovery, and the time required to complete preparation for the Evidentiary Hearing.

4. Any pending motions.

5. Scheduling of the Evidentiary Hearing.

The attorneys for the respective parties are directed to confer in advance of the prehearing conference, in such manner as they deem appropriate, and to report to the Licensing Board at said Conference on any stipulations regarding matters in controversy, on any informal discovery that can be arranged between the parties, and on any other mutually agreeable procedures to expedite this proceeding.

Members of the public are welcome to attend the prehearing conference. However, no evidence will be received at the prehearing conference on September 18, 1973, which will consist of a Conference of Counsel for the various parties with the Board to develop procedures for the Evidentiary Hearing will be scheduled for a later date. Members of the public are invited to attend the evidentiary hearing, at which time statements of persons making limited appearances will be received. Notice of the date of the commencement of the Evidentiary Hearing will be given, both by publication in the FEDERAL REGISTER and by notice sent by mail directly to all members of the public who have requested to be so notified.

Issued at Washington, D.C., this 10th day of August, 1973.

It is so ordered.

ATOMIC SAFETY AND LICENSING BOARD,
ROBERT M. LAZO,
Chairman.

[FR Doc.73–17006 Filed 8–15–73;8:45 am]

KERR-McGEE CORP.

Prehearing Conference Order and Notice of Extension of Time To Intervene

In the matter of Kerr-McGee Corp., Kerr-McGee Building, Oklahoma City, Oklahoma, amendment to source material license SUB–1010.

Pursuant to Notice, a Prehearing Conference was held on August 14, 1973, in preparation for the Evidentiary Hearing on the above captioned matter relating to the request by the Kerr-McGee Corporation for amendment of its license authorizing the use of source material, which would permit subsurface disposal of certain liquid radioactive wastes. Counsel for the Applicant and for the Staff participated. Counsel for the Natural Resources Defense Council (NRDS) also appeared with respect to its "Petition to Require Publication of Proper Notice of Hearing", filed with the Commission and the Board on August 7, 1973.

Counsel for the NRDC presented argument with respect to its motion. The Staff and the Applicant responded. After discussion among the parties and the Board, the parties appeared to be in agreement that the essence of the issue raised by NRDC in its petition could be satisfactorily resolved with no objection from the parties if the Board would give notice and permit an extension of time within which petitions to intervene may be filed in the above captioned matter. After consideration of the petition filed and arguments made thereto, the Board agrees, and hereby gives:

Notice that by September 17, 1973, any person whose interest may be affected by this proceeding may file a petition for leave to intervene with respect to the above captioned matter. Such petition shall be filed in accordance with the requirements of § 2.714 of the AEC's rules of practice (10 CFR 2.714).

As required by § 2.714, a petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors:

(1) The nature of the petitioner's right under the Atomic Energy Act of 1954, as amended, to be made a party to the proceeding; (2) the nature and extent

V 38 158 AUG 16 73 XUM

of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene.

Any person who does not wish to, or is not qualified to, become a party to this proceeding may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715. A person making a limited appearance may only make an oral or written statement on the record, and may not participate in the proceeding in any other way. Persons desiring to make a limited appearance will so advise the Board not later than September 17, 1973.

Counsel for the Applicant and the Staff agreed to prepare a joint statement of the issues in this proceeding and to submit this to the Board.

In view of requests made by the Board for additional documentation and the need of the Applicant and the Staff for additional time to respond thereto, and in view of our holding in paragraph 2 above, the evidentiary hearing now scheduled to commence on August 27, 1973, is hereby canceled.

Issued at Washington, D.C., this 14th day of August 1973.

It is so ordered.

ATOMIC SAFETY AND LICENSING BOARD.
DALE F. BABCOCK,
Member.
LESTER KORNBLITH, JR.,
Member.
JOHN B. FARMAKIDES,
Chairman.

[Docket No. 50-282]

NORTHERN STATES POWER CO.

Notice of Issuance of a Facility Operating License

Notice is hereby given that pursuant to an order of the Atomic Safety and Licensing Board dated June 15, 1973, and memorandum and order dated July 11, 1973, the Atomic Energy Commission (the Commission) has issued Facility Operating License No. DPR-42 to Northern States Power Company which authorizes operation of the Prairie Island Nuclear Generating Plant, Unit 1, for testing purposes at reactor core power levels not in excess of 1485 megawatts thermal (90 percent of rated capacity), and for power generation at steady state reactor core power levels not in excess of 330 megawatts thermal (20 percent of rated capacity), in accordance with the provisions of the license and the Technical Specifications. The Prairie Island Nuclear Generating Plant, Unit 1, is a pressurized water nuclear reactor located at the licensee's site in Goodhue County, Minnesota.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license. The application for the license complies with the standards and requirements of the Act and the Commission's rules and regulations.

The license is effective as of its date of issuance and shall expire on August 9, 1974, unless extended for good cause shown or upon the earlier issuance of a superseding operating license.

A copy of (1) order dated June 15, 1973, and memorandum and order dated July 11, 1973; (2) Facility Operating License No. DPR-42, complete with Technical Specifications (Appendices "A" and "B"); (3) the report of the Advisory Committee on Reactor Safeguards dated April 18, 1973; (4) the Directorate of Licensing's Safety Evaluation dated September 28, 1972, and supplements thereto; (5) the Final Safety Analysis Report and amendments thereto; (6) the applicant's Environmental Report dated November 5, 1971, and supplements thereto; (7) the Draft Environmental Statement dated January 1973; and (8) the Final Environmental Statement dated May 1973, are available for public inspection at the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C. and the Environmental Library of Minnesota, 1222 S.E. 4th Street, Minneapolis, Minnesota 55414. A copy of the license and the Safety Evaluation may be obtained upon request addressed to the United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Maryland, this 9th day of August 1973.

For the Atomic Energy Commission.

KARL KNIEL,
Chief, Pressurized Water Reactors Branch No. 2, Directorate of Licensing.

[FR Doc.73-17078 Filed 8-15-73;8:45 am]

[Docket No. 50-285]

OMAHA PUBLIC POWER DISTRICT

Notice of Issuance of Amendment to Facility Operating License

Notice is hereby given that, pursuant to an Initial Decision by the Atomic Safety and Licensing Board, dated August 9, 1973, the Atomic Energy Commission (the Commission) has issued Amendment No. 1 to Facility Operating License No. DPR-40 to the Omaha Public Power District for the Fort Calhoun Station, Unit 1 (the facility). The facility is a pressurized water nuclear reactor located at Omaha Public Power District's site in Washington County, Nebraska. The facility is designed for operation at 1420 megawatts thermal.

The amended license authorizes operation of the Fort Calhoun facility at steady state reactor core power levels not to exceed 1420 megawatts thermal (rated power), in accordance with the Technical Specifications.

The Director of Regulation has made the appropriate findings as required by the Act and the Commission's regulations in 10 CFR Chapter 1, which are set forth in the amended license. The application for license complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR Chapter 1.

The amended license is effective as of the date of issuance, and shall expire at midnight on June 7, 2008.

Copies of (1) the Board's Initial Decision, (2) Amendment No. 1 to Facility Operating License No. DPR-40, complete with Technical Specifications, and other relevant documents are available for public inspection in the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C., and in the Blair Public Library, 1665 Lincoln Street, Blair, Nebraska. Copies of the amended license may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Maryland this 9th day of August 1973.

For the Atomic Energy Commission.

KARL R. GOLLER,
Chief, Pressurized Water Reactors Branch No. 3, Directorate of Licensing.

[Docket Nos. 50-443 and 50-444]

PUBLIC SERVICE CO. OF NEW HAMPSHIRE, ET AL.

Receipt of Application for Construction Permits and Facility Licenses; Availability of Applicants' Environmental Report; Time for Submission of Views on Antitrust Matter

Public Service Company of New Hampshire, The United Illuminating Company, Central Maine Power Company, The Connecticut Light and Power Company, Fitchburg Gas and Electric Light Company, Montaup Electric Company, New Bedford Gas and Edison Light Company, New England Power Company, Vermont Electric Power Company, Inc., Ashburnham Municipal Light Plant, Burlington Electric Light Department, Eastern Maine Electric Cooperative, Inc., Holyoke Gas and Electric Department, Hudson Light and Power Department, Hull Municipal Light Plant, Marblehead Municipal Light Department, Middleborough Gas and Electric Cooperative, Inc., North Attleborough Electric Department, South Norwalk Electric Works, and Templeton Municipal Light Plant (the applicants), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, have filed an application dated June 29, 1973, which was docketed on July 9, 1973, for authorization to construct and operate two electric generating units utilizing pressurized water reactors. The application was initially tendered on March 25, 1973. Following a preliminary review for completeness, it was rejected on May 7, 1973 for lack of sufficient information. The applicants submitted additional information on June 15, 1973 and the application was found acceptable for docketing.

The proposed nuclear facilities, designated by the applicants as the Seabrook Station, Units 1 and 2, are to be located at the applicants' site in Rockingham County, in the township of Seabrook, New Hampshire. Each unit is to be designed for initital operation at approximately 3411 megawatts thermal, with a net electrical output of approximately 1194 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before October 8, 1973. The submittal should reference Docket Nos. 50-443-A and 50-444-A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and at the Exeter Public Library, Front Street, Exeter, New Hampshire 03833.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, an environmental report dated June 29, 1973. The report has been made available for public inspection at the aforementioned locations. The report, which discusses environmental considerations related to the proposed construction of the Seabrook Station is also being made available at the Office of Comprehensive Planning, Office of the Governor, State House, Concord, New Hampshire 03301, and at the Southeastern New Hampshire Regional Planning Commission, 10 Front Street, Exeter, New Hampshire 03833.

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, requesting comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials thereon will be made available when received.

Dated at Bethesda, Maryland, this 26th day of July 1973.

For the Atomic Energy Commission.

KARL R. GOLLER,
Chief, Pressurized Water Reactors Branch No. 3, Directorate of Licensing.

[FR Doc.73-16347 Filed 8-8-73;8:45 am]

REGULATORY GUIDES

Notice of Issuance and Availability

The Atomic Energy Commission has issued a new guide in its Regulatory Guide series. The Regulatory Guide series has been developed to describe and make available to the public methods acceptable to the AEC Regulatory staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

The new guide is in Division 3, "Fuels and Material Facilities Guides." Regulatory Guide 3.12, "General Design Guide for Ventilation Systems of Plutonium Processing and Fuel Fabrication Plants," describes acceptable general design guidelines for ventilation systems of plutonium processing and fuel fabrication plants.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Comments and suggestions in connection with improvements in the guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Telephone requests cannot be accommodated.

Other Division 3 Regulatory Guides currently being developed include the following:

Seismic Design Classification for Plutonium Processing and Fuel Fabrication Plants
General Fire Protection Guide for Plutonium Processing and Fuel Fabrication Plants
Guide for Acceptable Waste Storage Methods at UF_6 Production Plants
Decommissioning of Uranium Milling Facilities
Fuel Reprocessing Plant Process Off Gas Waste Treatment Systems
Fuel Reprocessing Plant Confinement Barriers and Systems
Fuel Reprocessing Plant Reporting of Operating Information
Periodic Testing of Fuel Reprocessing Plant Protection System Actuation Functions
General Design Guide for Ventilation Systems of Fuel Reprocessing Plants
Earthquake Instrumentation for Fuel Reprocessing Plants
Standard Format and Content of License Applications for Storage only of Unirradiated Reactor Fuel

(5 U.S.C. 552 (a))

Dated at Bethesda, Maryland this 9th day of August 1973.

For the Atomic Energy Commission.

LESTER ROGERS,
Director of Regulatory Standards.

[Docket No. PRM-70-4]

TEXAS NUCLEAR CORP.

Filing of Petition for Rulemaking

Notice is hereby given that Texas Nuclear Corporation, 9101 Research Blvd., Austin, Texas, by letter dated July 17, 1973, has filed with the Atomic Energy Commission a petition for rulemaking.

The petitioner requests that the Commission amend its regulation 10 CFR Part 70 to authorize export under a general license of not more than 3 milligrams of contained plutonium-238 in a solid, encapsulated form as the component part of an instrument.

The petitioner states that Texas Nuclear Corporation manufactures a small, portable instrument which uses the technique of X-ray fluorescence to perform quantitative elemental analysis. The petitioner states also that the instrument can be used for onsite assay of rock or core samples, ore sorting, scrap sorting, alloy identification, analysis of additives and impurities, and a wide variety of other applications, and one of the most desirable isotope sources for sample excitation is plutonium-238.

A copy of the petition for rulemaking is available for public inspection in the Commission's Public Document Room, 1717 H Street, NW., Washington, DC. A copy of the petition may be obtained by writing the Rules and Proceedings Branch at the below address.

All interested persons who desire to submit written comments or suggestions concerning the petition for rulemaking should send their comments to the Rules and Proceedings Branch, Office of Administration—Regulation, U.S. Atomic Energy Commission, Washington, D.C. 20545, on or before October 15, 1973.

Dated at Germantown, Maryland this 9th day of August 1973.

For the Atomic Energy Commission.

GORDON M. GRANT,
Acting Secretary of the Commission.

[Docket No. 25756; Order 73-8-52]

FLYING TIGER LINE INC.

Order Granting Exemption

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 10th day of August 1973.

On August 1, 1973, The Flying Tiger Line Inc. (Flying Tiger) filed an application for an exemption from sections 401 and 403 of the Act to the extent necessary to allow it to serve Indianapolis, Indiana on two scheduled nonstop flights between Detroit, Michigan and Los Angeles, California.[1] Flying Tiger proposes to stop a DC-8-63F Detroit-Los Angeles flight in Indianapolis on August 13, 1973, and similarly, route a Los Angeles-Detroit DC-8-63F nonstop through Indianapolis on August 22, 1973.[2]

In support of its application, Flying Tiger alleges, *inter alia*, that the City of Indianapolis requires air transportation for the equipment of its police department's motorcycle drill team from Indianapolis to Los Angeles and return,[3] but that TWA, which provides the only Indianapolis-Los Angeles freighter service, has advised the City that it cannot accommodate the shipments on the dates requested. Flying Tiger also alleges that there would be no circuity involved in stopping in Indianapolis and argues that, in view of the lack of objection from TWA and the public need of the City of Indianapolis for the proposed service, the enforcement of sections 401 and 403 of the Act would be an undue burden on Flying Tiger by reason of the limited extent of, and unusual circumstances affecting, the proposed operation.

In light of the usual circumstances raised by the instant application, we are taking action pursuant to Rule 410 of the Board's rules of practice without awaiting the filing of answers or replies thereto.[4]

Upon consideration of the application and all the relevant facts, we have decided to exempt Flying Tiger from section 401 of the Act and the terms, conditions, and limitations of its certificate to the extent necessary to enable it to stop at Indianapolis on the Detroit-Los Angeles round-trip flight contemplated by its application. We will also exempt Flying Tiger from the tariff filing provisions of section 403 of the Act and permit it to provide the transportation in question at the rates set forth in the tariffs of TWA for comparable service in the market.

Considerations taken into account which warrant use of the exemption power of the Board are that this application is for 1 round-trip flight; that this operation will not adversely affect any other air carrier; that the expense of a certification proceeding would be disproportionate to the size of the operation, unduly burdensome on the carrier, and not in the public interest; and that to require a certification proceeding would have the practical effect of precluding the operation of the proposed flight.

Under all these circumstances, the Board finds that the enforcement of sections 401 and 403 of the Act, and the terms, and conditions of Flying Tiger's certificate for route 100, insofar as they would otherwise prohibit the operations authorized herein, would be an undue burden on Flying Tiger by reason of the limited extent of, and unusual circumstances affecting, the carrier's operations and would not be in the public interest.

Accordingly, it is ordered, That:

1. The Flying Tiger Line, Inc. be and it hereby is temporarily exempted from the provisions of section 401 of the Act and the terms, conditions, and limitations of its certificate of public convenience and necessity insofar as they would otherwise prevent it from performing one one-stop round trip between Detroit, Michigan, and Los Angeles, California, via Indianapolis, Indiana, departing on or about August 13, 1973, and returning on or about August 22, 1973;

2. The Flying Tiger Line Inc. be and it hereby is exempted from section 403 of the Act insofar as that section would require filing of a tariff for the carriage of the equipment of the Indianapolis Police Department's Motorcycle Drill Team on the flights authorized herein; and

3. This order may be amended or revoked at any time in the discretion of the Board without hearing.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

[FR Doc.73-17094 Filed 8-15-73;8:45 am]

[1] Flying Tiger is not presently certificated to serve Indianapolis, Indiana, nor does it publish rates for such service. Trans World Airlines (TWA), the only certificated carrier providing freighter service between Indianapolis and Los Angeles, has advised Flying Tiger that it has no objection to the grant of the instant application.

[2] Inasmuch as Flying Tiger does not have an Indianapolis-Los Angeles tariff, Flying Tiger proposes to charge the TWA general commodity container rate currently effective in the markets.

[3] The members of the team will be transported via scheduled passenger service.

[4] Pursuant to Rule 410(c) of the Board's Rules of Practice it is found that the public interest requires that the Board act without notice to other persons or the filing of answers.

[Docket No. 25424]

GATEWAY AVIATION LTD.

Notice of Prehearing Conference and Hearing Regarding Foreign Air Carrier Permit Application—Canada-United States—Casual, Occasional, or Infrequent Service

Notice is hereby given that a prehearing conference in the above-entitled matter is assigned to be held on September 13, 1973, at 10 a.m. (local time) in Room 503, Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C., before Administrative Law Judge Richard M. Hartsock.

Notice is also given that the hearing may be held immediately following conclusion of the prehearing conference unless a person objects or shows reason for postponement on or before September 6, 1973.

Dated at Washington, D.C., August 10, 1973.

[Docket No. 24488; Order 73-8-60]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Passenger Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 10th day of August 1973.

Agreements have been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of Traffic Conference 3 of the International Air Transport Association (IATA). The agreements, which were adopted by mail vote, have been assigned the above-designated C.A.B. agreement numbers.

The agreements now before the Board would reduce by one U.K. pound, certain fares between Singapore/Malacca/Kuala Lumpur/Penang, on the one hand, and various other points in Traffic Conference 3, on the other hand. Insofar as fares to and from U.S. territories and possessions are concerned, the fares being amended were previously disapproved by the Board in Order 73-7-54, and the level which results from the agreements here would remain above that of fares presently approved and in effect. Accordingly, the fares here proposed will be disapproved for the same reasons we disapproved the earlier filed increases.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, makes the following findings:

1. It is not found that the following resolutions, incorporated in Agreements C.A.B. 23820 and 23846 as indicated, are adverse to the public interest or in violation of the Act to the extent they do not directly apply in air transportation as defined by the Act;

Agreement C.A.B. 23820	*IATA Resolutions*
R-1	300(Mail 407)053
R-2	300(Mail 407)063
R-3	300(Mail 407)070a
Agreement C.A.B.	*IATA Resolution*
23846	300(Mail 412)080e

2. It is found that the following resolutions, incorporated in Agreements C.A.B. 23820 and 23846 as indicated, are adverse to the public interest and in violation of the Act to the extent they apply directly in air transportation as defined by the Act:

Agreement C.A.B. 23820	*IATA Resolutions*
R-1	300(Mail 407)053
R-2	300(Mail 407)063
R-3	300(Mail 407)070a
Agreement C.A.B.	*IATA Resolution*
23846	300(Mail 412)080e

Accordingly, it is ordered, That:

1. Agreement C.A.B. 23820, R-1 through R-3, and Agreement C.A.B. 23846 be and hereby are approved insofar as they do not directly apply in air transportation as defined by the Act; and

2. Agreement C.A.B. 23820, R-1 through R-3, and Agreement C.A.B. 23846 be and hereby are disapproved insofar as they directly apply in air transportation as defined by the Act.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN SPAIN

Entry or Withdrawal From Warehouse for Consumption

AUGUST 8, 1973.

On February 12, 1971, there was published in the FEDERAL REGISTER (36 FR 2944) a letter dated February 5, 1971 from the Chairman of the President's Cabinet Textile Advisory Committee to the Commissioner of Customs prohibiting entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products produced or manufactured in Spain, and exported from Spain on and after the date of said publication, for which Spain had not issued a visa. One of the visa requirements is that the visa include the signature of a Spanish official authorized to issue visas. The requirements were previously amended by directives of April 26, 1971 and May 19, 1971. (See 36 FR 8472 and 9805, respectively).

On July 12, 1973, the Government of Spain requested, and the Government of the United States acceded to the request, that Mr. Mariano Payá Vizcaíno be authorized to issue visas, replacing Mr. José Ramón Borrell, who will cease to sign.

Accordingly, there is published below a letter of August 8, 1973 from the Chairman, Committee for the Implementation of Textile Agreements to the Commissioner of Customs further amending the directive of February 5, 1971 to authorize Mr. Mariano Payá Vizcaíno to issue visas, replacing Mr. José Ramón Borrell, effective as soon as possible. A facsimile of Mr. Paya's signature is published as an enclosure to that letter.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

COMMISSIONER OF CUSTOMS
Department of the Treasury,
Washington, D.C. 20229.

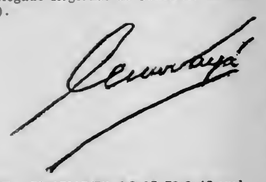
AUGUST 8, 1973.

DEAR MR. COMMISSIONER: This letter further amends the directive of February 5, 1971, from the Chairman of the President's Cabinet Textile Advisory Committee that directed you to prohibit, effective upon publication of the notice in the Federal Register, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products produced or manufactured in Spain and exported from Spain on and after the date of said publication, for which Spain had not issued a visa. One of the visa requirements is that the visa include the signature of a Spanish official authorized to issue visas. This directive was previously amended by directives of April 26, 1971 and May 19, 1971.

Pursuant to the authorities set forth in the aforementioned letter of February 5, 1971, that directive is further amended, effective as soon as possible, to authorize Mr.

V 38 - 158 AUG 16 73 XUM

Mariano Payá Vizcaíno to issue visas, replacing Mr. Jose Ramon Borrell. A facsimile of Mr. Payá's signature is enclosed for your information.



The actions taken with respect to the Government of Spain and with respect to imports of cotton textiles and cotton textile products from Spain have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore the directives to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

ADDITIONAL LIST OF AUTHORISED VISA SIGNATURES IN THE DOCUMENTS OF CONTROL OF SPANISH EXPORTS OF COTTON TEXTILE MANUFACTURERS SUBJECT TO THE TERMS OF THE BILATERAL AGREEMENT BETWEEN SPAIN AND THE UNITED STATES OF AMERICA.

Signature of Mr. Mariano Payá Vizcaíno (Subdelegado Regional de Comercio de Barcelona).

[FR Doc.73-17117 Filed 8-15-73;8:45 am]

COST OF LIVING COUNCIL

[Cost of Living Council Order No. 38]

GENERAL SERVICES ADMINISTRATOR

Delegation of Authority to Renegotiate Government Construction Contracts

For the purpose of (i) preventing windfall profits resulting from a reduction in the wage and salary level of employees of firms in the construction industry by action of the Construction Industry Stabilization Committee (CISC) or the Cost of Living Council (CLC), (ii) implementing § 150.453 of the Cost of Living Council regulations, (or any subsequent republication thereof, however designated), and acting pursuant to the Economic Stabilization Act of 1970, as amended, and the authority delegated to me by Executive Order 11695 and Cost of Living Council Order No. 14, I hereby delegate to the Administrator of the General Services Administration with respect to civilian executive agencies, and the Secretaries of the military departments and the Secretary of Defense with respect to the Department of Defense authority to:

(1) Require price redetermination of each fixed price construction contract of more than $500,000 which is affected by a wage and salary reduction caused by action of the CISC or CLC;

(2) Require that, after August 12, 1973, each successful offeror on a fixed price construction contract of more than $500,000 provide the government with such information during the life of that contract as is necessary to determine whether windfall profits have or will accrue from a wage or salary reduction caused by the CISC or CLC, and to make such arrangements with his subcontractors, regardless of tier, as may be necessary to insure that the information is provided;

(3) Prescribe in the Federal procurement regulations, and applicable regulations of the Department of Defense such rules and procedures as are necessary to carry out the purpose of this delegation; and

(4) Redelegate to any Federal agency of the United States any authority under this delegation.

Issued in Washington, D.C. on August 10, 1973.

JAMES W. MCLANE,
Deputy Director,
Cost of Living Council.

[FR Doc.73-17030 Filed 8-13-73;8:45 am]

FOOD INDUSTRY WAGE AND SALARY COMMITTEE

Notice of Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) notice is hereby given that the Food Industry Wage and Salary Committee, established under the authority of section 212(f) of the Economic Stabilization Act, as amended, section 4(a)(iv) of Executive Order 11695, and Cost of Living Council Order No. 14, will meet at 10 a.m., Wednesday, August 22, 1973, at 2025 M Street, NW., Washington, D.C.

The agenda will consist of discussions leading to recommendations on specific Phase II and Phase III wage cases in the food area, and future wage policy.

Since the above stated meeting will consist of discussions of future food wage policy and Phase II and III cases for decision, pursuant to authority granted me by Cost of Living Council Order 25, I have determined that the meeting would fall within exemption (5) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with the operation of the Committee.

Issued in Washington, D.C. on August 15, 1973.

HENRY H. PERRITT, Jr.,
Executive Secretary,
Cost of Living Council.

FOREST SERVICE

Draft	*Date*
Pleasant Valley Planning Unit, Kootenai N.F.	08/06

Montana

County: Lincoln, Sanders, Flathead

The statement refers to a proposed multiple use plan for the Pleasant Valley Planning Unit, Kootenai National Forest. The 41,000 acre Unit has been stratified into six management areas, which will be managed for such values as timber production, recreation, big game winter range production, and livestock forage. There will be road construction, with adverse impact to the natural conditions of the Forest. Other adverse effects will include soil and vegetative disturbance, and air and noise pollution. (121 pages)

(ELR ORDER # 31300) (NTIS ORDER # EIS 73 1300D)

Porcupine/Buffalo Horn Unit, Gallatin N.F.	08/09

Montana

County: Gallatin

The statement refers to the proposed implementation of a revised multiple use plan for the Porcupine/Buffalo Horn Planning Unit of the Gallatin National Forest. The 46,187 acre Unit is broken into four subunits; the majority of the Unit will be maintained in a roadless state, with some road construction on two drainages. There will be aerial logging, one highly developed campground, and three minimum-developed end-of-road facilities. Two trails will be constructed, and one will be reconstructed. Impact will be to elk and other wildlife, and to watersheds. (approximately 180 pages)

Draft	*Date*
Alvin W. Vogtle Nuclear Plant	08/07

Georgia

The statement refers to the proposed issuance of a construction permit to the Georgia Power Company. Each of the Plant's two units will use a pressurized reactor to produce 3,425 MWt, from which 1,100 MWe will be generated. Future output levels of 3,579 MWt and 1,159 MWe are anticipated. Cooling will be by natural draft towers, with water being drawn from the Savannah River at a consumptive rate of 14,930 gpm per unit. Construction of the Plant, a railroad spur, and transmission lines will require 13,916 acres. About 0.03% of the State's timber acreage will be removed for transmission line construction. Potentially significant archeological sites will be affected. (290 pages) (ELR ORDER #31305) (NTIS ORDER #EIS 73 1305D)

Final	*Date*
Donald C. Cook Station	08/08

Michigan

County: Berrien

The statement refers to the proposed continuation of construction permits and the issuance of operating licenses to the Indiana and Michigan Electric Co., and the Indiana and Michigan Power Co., for the start-up and operation of the station. The station consists of two units, each employing a pressurized water reactor to produce 3250 MWt and 1100 MWe. Heat will be discharged to Lake Michigan by a 1,645,000 gpm capacity once-through system. Approximately 650 acres of lakeshore duneland have been committed to the Station, precluding possible recreational use. Construction of the Station has started industrialization of an ecologically unique area which should be preserved. (approx. 300 pages)

Draft	*Date*
Unit 4, Brayton Point Generating Station	08/02

Massachusetts

The statement refers to the proposed addition of a 465 MW generating unit to the present capacity of 1025 MW at the three unit station. Modifications of the sea water intake and discharge facilities will be made. Plant additions will consist of a boiler building, a turbine building, a stack, and substation additions. There will be dredging of tidal waters; 14.4 million additional gallons of bay water will be used in condenser cooling. There will be entrainment of planktonic organisms, and entrapment of finfish and invertebrate species. Tanker arrivals will increase from five to seven ships per month. (Waltham District)
(ELR ORDER # 31288) (NTIS ORDER # EIS 73 1288D)

Mystic Power Station, Unit 7	08/03

Massachusetts

The statement refers to the proposed construction of a 600 MW oil fueled electric generating unit at the Station, along with modifications to existing sea water intake and discharge facilities. There will be dredging of 45,000 cu. yds. of spoil, to be disposed of in the ocean. Unit 7 will consume 646 cfs of Mystic River sea water for cooling. There will be entrainment or entrapment of marine organisms, and discharge to the Mystic River of chemicals used in plant cleaning. (Waltham District) (two volumes)
(ELR ORDER # 31291) (NTIS ORDER # EIS 73 1291D)

Final	*Date*
Blount Island Development	08/03

Florida

County: Duval

The statement refers to the proposed granting of a dredge and fill permit, pursuant to Section 10 of the River and Harbor Act of 1899, to the Jacksonville Port Authority. The project contemplated under authority of the permit involves the construction of a bulkhead in the Back River at Blount Island, behind which dredged spoil from both the Back and St. John's River would be deposited in the construction of an Offshore Power Systems (OPS) facility for the production of Floating Nuclear Plants (FNP). Modification of 950 acres will occur. A total of 275 acres of the Back River, with its present and future biological contribution to the St. John's ecosystem, will be committed to the project.

FEDERAL HIGHWAY ADMINISTRATION

Draft	*Date*
Clay-Herron Street Extension, Supplement	08/06

Alabama

County: Montgomery

The document supplements the draft environmental impact statement which was filed in March, 1972 (ELR Order # 3022; NTIS Order # PB 207 438D). A 4(f) determination for parkland is provided. (17 pages)
(ELR ORDER # 31297) (NTIS ORDER # EIS 73 1297D)

Winfield Bypass Southeast, US 78	08/06

Alabama

County: Marion, Fayette

The proposed project is the construction of 2.3 miles of the Winfield Bypass Southeast. The facility will require 42 acres of land and will displace 6 or 7 families. Adverse effects will also include the loss of wildlife, and increased air and noise pollution levels. (15 pages)
(ELR ORDER # 31302) (NTIS ORDER # EIS 73 1302D)

I 80N, Caldwell, Idaho	08/06

Idaho

County: Canyon

The proposed project is the construction of I 80, in the vicinity of Caldwell. The facility will require an unspecified amount of land for right-of-way, and will have an unspecified number of displacements. Adverse impact will also include loss of wildlife, and an increase in noise pollution levels. (114 pages)
(ELR ORDER # 31301) (NTIS ORDER # EIS 73 1301D)

US 641, Murray-Benton Road	08/06

Kentucky

County: Calloway, Marshald

Proposed is the relocation of 11 miles of U.S. 641. The project will require 465 acres of land for right-of-way, and will displace 9 families and one business. The facility will cross Rockhouse and Wades Creeks, requiring their channelization. Increases in water, air, and noise pollution will occur. (54 pages)
(ELR ORDER # 31299) (NTIS ORDER # EIS 73 1299D)

Routes 7 and 65, Missouri	08/06

Missouri

County: Benton

Proposed is the construction of Rt. 65 for a length of 7.5 miles. The facility will require 250 acres for right-of-way, and will displace 9 families and 1 business. Several streams will be traversed, causing erosion and increased water pollution.
(ELR ORDER # 31298) (NTIS ORDER # EIS 73 1298D)

L.R. 1131 (Second Avenue Bypass)	08/03

Pennsylvania

County: Allegheny

The project, the Second Avenue Bypass, is proposed to connect the northern approach of the Glenwood Bridge to the intersection of Greenfield Avenue and Second Avenue.

FEDERAL REGISTER, VOL. 38, NO. 158—THURSDAY, AUGUST 16, 1973

V 38-158 AUG 16 73 XUM

Project length is 2 miles. The amount of land required for right-of-way, and the number of displacements will depend upon the alignment selected. (58 pages)
(ELR ORDER # 31296) (NTIS ORDER # EIS 73 1296D)

U.S. COAST GUARD

Draft	*Date*
Hillsborough River Bridges, Tampa Florida	08/01

County: Hillsborough
The statement refers to the proposed Coast Guard approval of location and plans for dual fixed highway bridges and approaches across the Hillsborough River. The bridge project, which includes the construction of 5.2 miles of highway, will be part of the South Crosstown Expressway in Tampa. Adverse impact will include the displacement of 184 residences 63 businesses, and 40 trailer dwelling sites. Land piers will encroach upon a public park, necessitating a 4(f) determination. (approximately 350 pages)
(ELR ORDER # 31282) (NTIS ORDER # EIS 73 1282D)

New York Vessel Traffic System New York	08/09

County: several
The statement refers to a proposed system which will cover the geographic areas comprising the Port of New York, the Hudson River to Albany, and Long Island Sound to the west of Block Island, Rhode Island. The system will consist of a combination of vessel traffic system levels which will include VHF/FM communications, radar surveillance, a Traffic Separation System, and a Vessel Movement Reporting System. Radar and communications sites, and a vessel traffic operations center will be constructed. There will be adverse impact from construction disruption. (67 pages)
(ELR ORDER #31312) (NXIS ORDER #EIS 73 1312D)

International Bridge, Laredo Texas	08/01

County: Webb
The statement refers to the proposed approval of the location and plans for a fixed highway bridge to be constructed across the Rio Grande between Laredo and Nuevo Laredo, Tamaulipas, Mexico. The proposed span will supplement the existing Laredo International Bridge. The new bridge will strongly influence construction plans for causally related highway improvements in Laredo, and new border station facilities. Impact will include the acquisition of 18 city blocks and the displacement of 26 businesses and 146 residences. The taking of historical sites will necessitate a 4(f) determination. (166 pages)
(ELR ORDER #31283) (NTIS ORDER #EIS 73 1283D)

TIMOTHY ATKESON,
General Counsel.

ENVIRONMENTAL PROTECTION AGENCY

E.I. DU PONT DE NEMOURS & CO., INC.

Notice of Filing of Petition Regarding Pesticide Chemicals

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 4F1421) has been filed by E.I. du Pont de Nemours & Co., Inc., Wilmington, DE 19898, proposing establishment of tolerances (40 CFR Part 180) for combined residues of the fungicide benomyl (methyl 1-(butylcarbamoyl)-2-benzimidazolecarbamate) and its metabolites containing the benzimidazole moiety (calculated as benomyl) in or on the raw agricultural commodities bean vine forage at 50 parts per million and beans at 2 parts per million.

The analytical method proposed in the petition for determining residues of the fungicide is that of H. L. Pease and R. F. Holt, "Journal of the Association of Official Analytical Chemists", vol. 54, pp. 1399–1402 (1971).

Dated: August 13, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc 73-17112 Filed 8-15-73;8:45 am]

NOR-AM AGRICULTURAL PRODUCTS, INC.

Notice of Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 4F1419) has been filed by NOR-AM Agricultural Products, Inc., 1275 Lake Avenue, Woodstock, IL 60098, proposing establishment of tolerances (40 CFR Part 180) for combined residues of the insecticide formetanate hydrochloride (*m*-[[(dimethylamino) methylene] amino] phenyl methylcarbamate hydrochloride) and its metabolites containing the *m*-aminophenol moiety (calculated as formetanate hydrochloride) in or on the raw agricultural commodities almond hulls at 35 parts per million; almonds at 0.5 part per million; and liver and kidney of cattle, goats, hogs, horses, sheep, and poultry at 0.3 part per million.

The analytical methods proposed in the pesticide petition for determining residues of the insecticide are procedures in which residues are hydrolyzed to 3-aminophenol. For residues in plant tissues, the 3-aminophenol is analyzed colorimetrically by diazotization and coupling with *N*-1-naphthylenediamine dihydrochloride. For residues in kidney or liver, the 3-aminophenol is brominated to 2,4,6-tribromo-3-aminophenol and determined using a gas chromatograph equipped with an electron-capture detector.

Dated: August 13, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.73-17115 Filed 8-15-73;8:45 am]

FEDERAL MARITIME COMMISSION

[Docket Nos. 69–23, 71–49, 73–14]

GULF-PUERTO RICO LINES, INC.

First Supplemental Order of Investigation and Suspension

On April 5, 1973, the Commission ordered an investigation into the lawfulness of an ILA surcharge proposed by the Gulf-Puerto Rico Lines (GPRL) in the trade between the U.S. Gulf ports and ports in Puerto Rico.[1] The proposed 9 percent surcharge was suspended; the Commission, however, allowed GPRL a 4.9 percent interim surcharge. The entire 9 percent surcharge was to become effective on August 8, 1973.

On August 8, 1973, GPRL cancelled the surcharge and in its place proposed a general rate increase. The general increase is in the amount of 11 percent on all ocean freight rates and charges southbound and 4.9 percent northbound. Although the effective date of the general rate increase was shown as August 8, 1973, pursuant to Executive Order No. 11723 dated June 13, 1973 the full amount of increase was postponed to August 13, 1973.

The net effect of the general increase filing will (1) replace a 9 percent ILA surcharge with a general rate increase; (2) increase the rates paid by southbound shippers by 2 percent (9 percent surcharge replaced by an 11 percent general rate increase); and (3) reduce the rates paid by northbound shippers by 4.1 percent (9 percent surcharge replaced by a 4.9 percent general rate increase).

In support of the proposed increases, GPRL has submitted financial data pursuant to Amendment 1 to General Order 11 (46 CFR 512.3(d)). To date, no protests have been filed.

Upon consideration of the data, the Commission is of the view that the proposed increases should be suspended and incorporated into these consolidated proceedings and made the subject of a public investigation and hearing to determine whether they are unjust, unreasonable, or otherwise unlawful under section 18(a) of the Shipping Act, 1916, and/or section 4 of the Intercoastal Shipping Act, 1933. Good cause appearing:

It is ordered, That pursuant to the authority of sections 18(a) and 22 of the Shipping Act, 1916 and section 4 of the Intercoastal Shipping Act of 1933, an investigation is hereby instituted into the lawfulness of the proposed increases contained in Exhibit A, with a view to making such findings and orders as the facts and circumstances warrant. In the event the matter hereby placed under investigation is further changed, amended, or reissued, such matter will be included in this investigation;

It is further ordered, That pursuant to section 3, Intercoastal Shipping Act, 1933, the tariff matter listed in Appendix A is suspended and the use thereof deferred to and including December 8, 1973, unless otherwise ordered by this Commission;

It is further ordered, That there shall be filed immediately with the Commission by Gulf Puerto Rico Lines, Inc., a consecutively numbered supplement to the tariffs identified in Appendix A, which supplements shall bear no effective data, shall reproduce the portion of this order wherein the suspended matter is described and shall state that the aforesaid matter is suspended and may not be used until December 9, 1973, unless otherwise authorized by the Commission; and the rates and charges for the other provisions heretofore, in effect, and which were to be changed by the suspended matter shall remain in effect during the period of suspension, and neither the matter suspended, nor the matter which is continued in effect as a result of such suspension, may be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission;

It is further ordered, That copies of this order shall be filed with said tariff schedules in the Bureau of Compliance of the Federal Maritime Commission;

It Is Further Ordered, That this matter be joined with the matter previously set for investigation and hearing in Docket No. 69–23, *General Increases in Rates in the U.S. Gulf/Puerto Rico Trade*, Docket No. 71–49, *Gulf Puerto Rico Lines, Inc.—General Increases in Rates in the U.S. Gulf/Puerto Rico Trade*, and Docket No. 73–14, *Gulf Puerto Rico Lines, Inc.—Proposed ILA Surcharge Between U.S. Gulf Ports and Puerto Rico*, and that its lawfulness be determined by the same proceeding, by the same Administrative Law Judge of the Commission's Office of Administrative Law Judges;

It Is Further Ordered, That (I) a copy of this order be forthwith served upon the respondent herein and upon the Commission's Bureau of Hearing Counsel and published in the FEDERAL REGISTER; and (II) the respondent and Hearing Counsel be served with notice of time and place of the hearing;

All persons (including individuals, corporations, associations, firms, partnerships, public bodies) having an interest in this proceeding and desiring to intervene herein should notify the Secretary of the Commission promptly and file petitions for leave to intervene in accordance with Rule 5(1) of the Commission's rules of practice and procedure (46 CFR 502.72) with a copy to all parties to this proceeding.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[1] This order, No. 73–14, was consolidated with Docket Nos. 69–23 and 71–49 by Commission Order served May 25, 1973.

APPENDIX A

Gulf-Puerto Rico Lines, Inc.—FMC–F No. 1, 4th Revised Title Page 1.

[FR Doc.73-17086 Filed 8-15-73;8:45 am]

[Docket No. 73–52]

OCEAN TRAILER TRANSPORT CORP.

Order of Investigation and Suspension Regarding Proposed Reduced Rates Between Miami, Florida and San Juan, Puerto Rico

On July 11, 1973, Ocean Trailer Transport Corporation (OTTC) filed second revised page number 48, third revised page number 51, and third revised page number 54 to its Tariff F.M.C.–F #1, involving rates for cargo moving between Miami, Florida and San Juan, Puerto Rico. The revisions will become effective on August 13, 1973.

Second revised page number 48 contains proposed increases and reductions in OTTC's southbound *Freight, All Kinds* rates. Third revised page number 51 contains, *inter alia*, proposed reductions on various Southbound rates on "Paper and Paper Articles," as well as the addition to OTTC's tariff of a southbound rate on "Personal Effects and/or Household Goods N.O.S." Third revised page number 54 contains, *inter alia*, proposed reductions on OTTC's northbound *Freight, All Kinds* rates as well as proposed reductions on "Fruit and Vegetables," and "Refrigerated or Controlled Temperature Cargo, N.O.S." [previously OTTC had a rate only for "Refrigerated or Controlled Temperature Cargo, N.O.S.;" the "Fruits and Vegetables" rate is new, but is also a reduction from the previous refrigerated N.O.S. rate.]

Sea-Land Service, Inc. (Sea-Land), and TMT Trailer Ferry, Inc. (TMT) on July 31, 1973, filed protests to OTTC's proposed revisions to its Tariff F.M.C.–F #1, asking that the revisions in question be suspended and that an investigation be instituted to determine their lawfulness.

The protests of both parties are substantially the same, i.e. that the proposed revisions:

1. Will cause large scale diversions of cargo from "normal" ports of discharge to the port of Miami;

2. Will reduce rate levels to an unreasonably low level in violation of section 18(a) of the Shipping Act, 1916; and

3. That OTTC's continued use of its current *Freight, All Kinds*, commodity description lends itself to discrimination, and will inevitably result in the complete breadown of the current individual commodity rate structure.

No reply to the protests of Sea-Land and TMT has been forthcoming from OTTC.

OTTC, a relative newcomer to the trade in question (its tariff first became effective on March 8, 1973), does not have a General Order 11 submission on file with the Commission at the present time. OTTC did file, pursuant to 46 CFR 512.3(c)(5), a certificate stating that the revisions in question did not constitute a general rate reduction which would have necessitated filing of financial and operating data. The staff has no other current data regarding OTTC available upon which a determination could be made regarding the allegations of the protestants.

Upon consideration of the issues raised in the aforementioned protests, and realizing that the Commission is hampered by its lack of information regarding OTTC's finances and operations, the Commission is of the opinion that the aforementioned rate revisions should be suspended and made the subject of a public investigation and hearing to determine whether they are unjust, unreasonable or otherwise unlawful under section 18(a) of the Shipping Act, 1916, and sections 3 and 4, Intercoastal Shipping Act, 1933, or whether they subject any particular person, locality, or description of traffic to any undue or unreasonable prejudice or disadvantage in any respect whatsoever in violation of section 16 First, Shipping Act, 1916. Good cause appearing, Therefore:

It is ordered, That pursuant to the authority of section 22 of the Shipping Act, 1916, and sections 3 and 4 of the Intercoastal Shipping Act, 1933, an investigation is hereby instituted into the lawfulness of said revised rates for the purpose of making such findings and orders as the facts and circumstances warrant. In the event that the tariff matters hereby placed under investigation are further changed, amended or reissued, such changes are hereby ordered to be made a part of this investigation.

It is further ordered, That pursuant to section 3, Intercoastal Shipping Act, 1933, all rates contained on second revised page #48, the rates on "Paper and Paper Articles" and "Personal Effects and/or Household Goods N.O.S." on Third revised page number 51, and the rates on "Freight, All Kinds," "Fruits and Vegetables," and "Refrigerated and Controlled Temperature Cargo, N.O.S." on Third revised page number 54 of Ocean Trailer Transport Corporation Tariff F.M.C.–F #1 are hereby suspended and the use thereof deferred to and including December 12, 1973, unless otherwise ordered by this Commission.

It is further ordered, That there shall be filed immediately with the Commission by Ocean Trailer Transport Corporation consecutively numbered supplements to the aforesaid tariff, which supplements shall bear no effective date, shall reproduce the portion of this order wherein the suspended matters are described and shall state that the aforesaid matters are suspended and may not be used until December 13, 1973, unless otherwise authorized by the Commission; and the rates and charges heretofore in effect, and which were to be changed by the suspended matters shall remain in effect during the period of suspension, and neither the matters suspended nor the matters which are continued in e ect as a result of such suspension may be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

It is further ordered, That copies of this order shall be filed with the appropriate tariff schedules in the Bureau of Compliance of the Federal Maritime Commission.

It is further ordered, That Ocean Trailer Transport Corporation be named as respondent in this proceeding.

It is further ordered, That Sea-Land Service, Inc. and TMT Trailer Ferry, Inc. be named as complainants in this proceeding.

It is further ordered, That the provisions of Rule 12 of the Commission's rules of practice and procedure which require leave of the Commission to take testimony by deposition or by written interrogatory if notice thereof is served within 20 days of the commencement of the proceeding, are hereby waived for this proceeding inasmuch as the expeditious con-

V 38-158 AUG 16 73 XUM

duct of business so requires. The provision of Rule 12(h) which requires leave of the Commission to request admissions of fact and genuineness of documents if notice thereof is served within 10 days of commencement of this proceeding, is similarly waived.

It is further ordered, That this proceeding be assigned for public hearing before an Administratice Law Judge of the Commission's Office of Administrative Law Judges and that the hearing be held at a date and place to be determined by the Presiding Administrative Law Judge.

It is further ordered, That (I) a copy of this order be forthwith served upon the respondent and complainants herein and upon the Commission's Bureau of Hearing Counsel, and published in the FEDERAL REGISTER; and (II) the respondent, complainants and Hearing Counsel be duly served with notice of time and place of the hearing.

All persons (including individuals, corporations, associations, firms, partnerships and public bodies) having an interest in this proceeding and desiring to intervene herein should notify the Secretary of the Commission promptly and file petitions for leave to intervene in accordance with rule 5(1) of the Commission's rules of practice and procedure (46 CFR 502.72) with a copy to all parties to this proceeding.

By the Commission.

Secretary.

[FR Doc.73-17088 Filed 8-15-73;8:45 am]

[Docket No. 73-17]

SEA-LAND SERVICE, INC., AND GULF PUERTO RICO LINES, INC.

First Supplemental Order of Investigation Regarding Proposed Rules on Containers

On April 13, 1973, this Commission issued an Order of Investigation and Hearing on tariff amendments proposed by Sea-Land Service, Inc. (Sea-Land) and Gulf Puerto Rico Lines, Inc. (GPRL) relating to the handling of consolidated and less-than-trailer-load cargo. Sea-Land has now filed with the Federal Maritime Commission, 9th Revised Page 344 and 6th Revised Page 345A to its Tariff F.M.C.-F No. 21, to become effective August 20, 1973.[1] The amendments would add the following note to Sea-Land's Freight-All-Kinds (FAK) tariff provision:

> Note 22—where an effective collective bargaining agreement requires stripping and stuffing at carrier marine terminal, loading by shipper must be in other-than-carriers equipment subject to, (A) (B) and (C) below:
>
> (A) Expires November 1, 1973;
>
> (B) At time of booking, shipper must specify the size of carriers trailer required; and
>
> (C) Carrier will perform the transfer at carriers marine terminal from other than carriers equipment including full unloading, subject to a charge of $150.00 for a 35 foot trailer; $171.00 for a 40 foot standard and $194.00 for a 40 foot high cube trailer.

The FAK provision is also subject to the ILA container rules which are already under investigation in this proceeding and have been suspended to August 14, 1973. Under the proposed provisions an NVOCC or Consolidator will be able to use Sea-Land's FAK rate, providing it tenders the cargo to Sea-Land in a non-Sea-Land container and pays the additional charges specified in Note 22. The proposed service and manner of handling is substantially different from the handling of containers moving under the FAK description which have been loaded by the "beneficial owner" of the cargo. Cargo satisfying this definition is not subject to the ILA container rules and neither stripped and stuffed nor subject to additional charges.

The proposed changes were protested by the Commonwealth of Puerto Rico (Commonwealth) and the International Association of NVOCC's. The Commonwealth alleges that the changes are unjust and unreasonable in violation of section 18(a) of the Shipping Act, 1916, and do not meet the filing requirements of section 2 of the Intercoastal Shipping Act, 1933. The International Association of NVOCC's alleges that the charges set forth in Note 22 are discriminatory to the small shipper.

Upon consideration of the said tariff pages, and the protests filed thereto, the Commission is of the opinion that the above designated tariff matter should be made part of the public investigation and hearing in this proceeding to determine whether it is in violation of sections 16 First and 18(a) of the Shipping Act, 1916, and section 4 of the Intercoastal Shipping Act, 1933, by subjecting a particular description of traffic, person or locality to an undue or unreasonable prejudice or disadvantage. Good cause appearing, therefore:

It is ordered, That pursuant to the authority of sections 18(a) and 22 of the Shipping Act, 1916, and sections 3 and 4 of the Intercoastal Shipping Act, 1933, an investigation is hereby instituted into the lawfulness of said rule and charges published on 9th Revised Page 344 and 6th Revised Page 345A of Sea-Land's Tariff F.M.C.-F No. 21, with a view toward making such findings and orders as the law, the facts and the circumstances warrant.

It is further ordered, That as a part of this investigation a determination shall be made as to whether Sea-Land's said rule and charges are in violation of sections 16 First and 18(a) of the Shipping Act, 1916, and section 4 of the Intercoastal Shipping Act, 1933.

It is further ordered, That this matter be joined with the matters set for investigation and hearing in Docket No. 73-17 and that the lawfulness of said rule be determined in the same proceeding, by the same Administrative Law Judge of the Commission's Office of Administrative Law Judges.

It is further ordered, That a copy of this order shall forthwith be served on all persons previously made parties in Docket No. 73-17 and published in the FEDERAL REGISTER.

It is further ordered, That the provisions of Rule 12 of the Commission's Rules of Practice and Procedure which require leave of the Commission to take testimony by deposition or by written interrogatory if notice thereof is served within 20 days of the commencement of the proceeding, are hereby waived for this proceeding inasmuch as the expeditious conduct of business so requires. The provision of Rule 12(h) which requires leave of the Commission to request admissions of fact and genuineness of documents if notice thereof is served within 10 days of commencement of the proceeding, is similarly waived.

All persons, (including individuals, corporations, associations, firms, partnerships and public bodies) having an interest in this proceeding and desiring to intervene therein should notify the Secretary of the Commission promptly and file petitions for leave to intervene in accordance with Rule 5(1) of the Commission's rules of practice and procedure (46 CFR 502.72) with a copy to all parties to this proceeding.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[FR Doc.73-17089 Filed 8-15-73;8:45 am]

[Docket No. 73-12]

SEA-LAND SERVICE, INC., ET AL.

First Supplemental Order of Investigation and Suspension Regarding Proposed ILA Surcharges in U.S. Atlantic and Gulf/Puerto Rico Trade

By an order dated March 16,.1973, this Commission instituted an investigation and hearing to determine the lawfulness of a 15.2 percent surcharge proposed by Sea-Land Service, Inc. (Sea-Land), Seatrain Lines, Inc. (Seatrain), and Transamerican Trailer Transport, Inc. (TTT) to allegedly offset increased labor costs resulting from their contract with the International Longshoremen's Association (ILA). The Commission suspended the proposed surcharges but allowed the carriers to file an interim surcharge of 5.2 percent. Pursuant to Executive Order 11723, dated June 13, 1973, the application of the full amount of the surcharge was postponed to August 13, 1973.

On August 7, 1973, respondent carriers proposed to place into effect a general rate increase in the trade between the U.S. Atlantic Coast and Puerto Rico amounting to 17.2 percent southbound and 5.2 percent northbound.[1] These increases will cancel and replace the proposed surcharges which are the subject of Commission investigation in this proceeding.

[1] The full amount of these increases may not be charged until August 13, 1973, in accordance with Executive Order 11723, dated June 13, 1973.

[1] It has also filed a special permission application to advance the effective date of these pages to the earliest possible date or alternatively August 14, 1973.

In support of the proposed increases, each of the carriers file data in compliance with the requirements of amendment 1 to General Order 11 (46 CFR 512.3(d)).

Numerous protests to the increase were filed alleging generally that the increases are unreasonably large, will adversely affect the Puerto Rico economy, and are contrary to Government efforts to curb inflation.

Upon consideration of the data submitted, and the protests filed, the Commission is of the opinion that the proposed increases should be suspended and made the subject of a public investigation and hearing to determine whether they are unjust, unreasonable, or otherwise unlawful under sections 16 and 18 (a) of the Shipping Act, 1916, and/or sections 3 and 4 of the Intercoastal Shipping Act, 1933. In view of the fact that the general increases are projected to generate approximately the same amount of additional revenues as the proposed surcharges, and of the fact that the surcharges are being cancelled without any alleged change in the labor contracts which prompted them, the Commission is of the further belief that the matter should be included in the public investigation and hearing now designated as Docket No. 73-12, *Sea-Land Service, Inc., Seatrain Lines, and Transamerican Trailer Transport, Inc. Proposed ILA Surcharges in the U.S. Atlantic and Gulf/Puerto Rico Trade*. Good cause appearing:

Therefore, it is ordered, That pursuant to the authority of section 22 of the Shipping Act, 1916, and sections 3 and 4 of the Intercoastal Shipping Act, 1933, an investigation is hereby instituted into the lawfulness of the tariff matter listed in Appendix A to make such findings and orders as the facts and circumstances warrant. In the event the matter hereby placed under investigation is further changed, amended, or reissued, such matter will be included in this investigation;

It is further ordered, That pursuant to section 3, Intercoastal Shipping Act, 1933, the tariff matter shown in Appendix A is hereby suspended and the use thereof deferred to and including December 8, 1973, unless otherwise ordered by this Commission;

It is further ordered, That there shall be filed immediately by Sea-Land Service, Inc., Seatrain Lines, Inc. and Transamerican Trailer Transport Inc., consecutively numbered supplements to the tariffs listed in Appendix A, which supplements shall bear no effective date, shall reproduce the portion of this order wherein the suspended matters are described and shall state that the matters are suspended and may not be used until December 9, 1973, unless otherwise authorized by the Commission and that the suspended matters may not be changed, except as ordered herein until this proceeding has been disposed of, or until the period of suspension has expired, whichever comes first, unless otherwise ordered by the Commission;

It is further ordered, That as a part of this investigation, a determination shall be made as to whether any portion of the proposed increases is designed to recover costs applicable to only one port and, if so, whether the application of the increase to all ports gives any undue or unreasonable preference or advantage to the one port, or subjects the remaining ports to any undue or unreasonable prejudice or disadvantage, pursuant to section 16 First of the Shipping Act, 1916.

It is further ordered, That as a part of this investigation, a determination shall be made as to whether the proposed increases listed in Appendix A are violative of section 18(a) of the Shipping Act, 1916;

It is further ordered, That this matter be joined with the matter previously set for investigation and hearing in Docket No. 73-12, *Sea-Land Service, Inc., Seatrain Lines, Inc., Transamerican Trailer Transport, Inc. Proposed ILA Surcharges in the U.S. Atlantic and Gulf/Puerto Rico Trade*, and that their lawfulness be determined in the same proceeding by the same Administrative Law Judge of the Commission's Office of Administrative Law Judges;

It is further ordered, That copies of this order shall be filed with the appropriate tariff schedules in the Bureau of Compliance of the Federal Maritime Commission;

It is further ordered, That the following persons be designated as complainants in accordance with the Commission's rules of practice and procedure:

The Commonwealth of Puerto Rico;
Anibal L. Arsuaga, Inc.;
The Chamber of Commerce of Puerto Rico;
Fibres International Corporation;
Glamorgan Pipe & Foundry Company, Inc.;
Glen Alden Corporation;
International Playtex Corporation;
The B.V.C. Company;
Schenley Distillers, Inc.;
Geo. A. Hormel, & Co.;
Oscar Mayer & Co.;
John Morrell & Co.;
Metal Litho International, Inc.;
Metal Litho Corp.;
Tinplate Lithograph Co.; and
Metal Litho West Virginia Corp.

It is further ordered, That these proceedings be scheduled for public hearing to be held at a date and place to be determined by the Presiding Administrative Law Judge;

It is further ordered, That (I) a copy of this order be forthwith served upon respondents and complainants herein and upon the Commission's Bureau of Hearing Counsel and published in the FEDERAL REGISTER; and (II) the respondents, complainants, and Hearing Counsel be duly served with notice of time and place of hearing.

It is further ordered, That the provisions of Rule 12 of the Commission's rules of practice and procedure which require leave of the Commission to take testimony be deposition or written interrogatory if notice thereof is served within 20 days within commencement of the proceeding, are hereby waived for this proceeding inasmuch as the expeditious conduct of business so requires. The provision of Rule 12(h) which requires leave of the Commission to request admissions of fact and genuiness of documents if notice thereof is served within ten days of commencement of the proceeding, is similarly waived.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) having an interest in this proceeding and desiring to intervene therein, should notify the Scretary of the Commission promptly and file petitions for leave to intervene in accordance with rule 5(1) of the Commission's rules of practice and procedure (46 CFR 502.72) with a copy to all parties to this proceeding.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secrctary.

FEDERAL POWER COMMISSION

[Docket Nos. RI74-17, et al.]

RATE CHANGES

Order Providing for Hearing and Suspension [1]

AUGUST 7, 1973.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the

[1] Does not consolidate for hearing or dispose of the several matters herein.

V 38 - 158 AUG 16 73 XUM

Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly Sections 4 and 15, the regulations pertaining thereto [18 CFR, Chapter I], and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[2] Suspended in docket No. RI73-320 until Aug. 7, 1973.
[3] Currently no deliveries.
[4] Reflects partial reimbursement for the 0.5 percent increase in the Texas Production Tax which became effective Oct. 1, 1969.
[5] Pursuant to Order No. 390.
[6] Includes B.t.u. adjustment.
[7] Accepted subject to refund in Docket No. RI70-243 as of July 10, 1973.

The proposed tax reimbursement increase of Sun Oil Co. under FPC Gas Rate Schedule No. 432 reflects the 0.5 percent increase in the Texas Production Tax which became effective October 1, 1969. Pursuant to Order No. 390 the proposed increase is accepted subject to the existing suspension in Docket No. RI70-243 to become effective July 10, 1973, the date of filing.

The proposed increases of Mobil, Phillips Petroleum Co., and Sun Oil Co. under FPC Gas Rate Schedule No. 516 exceed the rate limit for a one day suspension, and, are, therefore, suspended for five months from the expiration of the 30 day statutory notice period or the contractual effective date, whichever is later.

The remaining proposed increases do not exceed the rate limit for a one day suspension and are therefore suspended for one day from the expiration of the 60 day notice period or the contractual effective date, whichever is later.

The producers' proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's statement of general policy No. 61-1, as amended (18 CFR, Chapter I, Part 2, § 2.56).

Nothing contained in this order shall relieve the respondents of any responsibility imposed by the Economic Stabilization Act of 1970, (Pub. L. 91-379, 84 Stat. 799, as amended by Pub. L. 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

[FR Doc.73-16891 Filed 8-15-73;8:45 am]

FEDERAL RESERVE SYSTEM

BARNETT BANKS OF FLORIDA, INC.

Acquisition of Bank

Barnett Banks of Florida, Inc., Jacksonville, Florida, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 per cent or more of the voting shares of Edison National Bank in Fort Myers, Fort Myers, Florida ("Edison Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls 43 banks with total deposits of $1.3 billion, representing approximately 7 per cent of the total deposits of commercial banks in the State, and is the second largest banking organization in Florida. (All banking data are as of December 31, 1972, and reflect holding company acquisitions approved as of July 31, 1973, including seven new acquisitions since January 1, 1973.) The acquisition of Bank ($61 million in deposits) would increase Applicant's share of the total State deposits by 0.31 per cent, and it would remain the second largest banking organization in Florida.

Edison Bank is the third largest bank in the Lee County banking market (the relevant market) where it controls 14.5 per cent of market deposits. The proposed acquisition would represent Applicant's initial entry into this market. Upon consummation of the proposal, Applicant is committed to sever the affiliation (through director interlocks) between Edison Bank and Security National Bank, Fort Myers (deposits of $11.4 million).

Applicant's banking subsidiary nearest to Bank is approximately 85 miles away. In view of this distance and the prohibitive branch banking laws of Florida, competition between Edison Bank and any banking subsidiary of Applicant does not exist at present and is unlikely to develop in the future.

There are 11 banks in the Lee County market, and the two largest control over 50 per cent of the market deposits. Although Applicant has the capability and expertise to enter this market *de novo*, there are three remaining independent banks which offer holding company access to the market as well as seven proposals for new banks. In addition, through this transaction Security National Bank will lose its affiliation with Edison Bank and will offer an additional independent bank in the market. The loss of Applicant as a potential entrant into the market is not considered adverse in view of the relatively large number of potential entrants with *de novo* capability. The Board concludes that the acquisition would have no significant adverse effects on the competitive situation or the concentration of banking resources in the area.

Applicant has recently injected capital into certain of its subsidiary banks and has increased its own equity capital by converting debentures to common stock. It has also completed a public stock offering. In addition, Applicant has committed itself to improve the capital position of Edison Bank through an injection of equity capital. In light of these actions, the Board finds the financial condition and managerial resources of the Applicant, its subsidiaries, and Edison Bank as satisfactory; and prospects for each are favorable.

There is no evidence that the 11 banks in the market are failing to meet the banking needs of the community, and Applicant does not intend any immediate change in services offered by the proposed subsidiary. Edison Bank, however, will be able to benefit from larger lending limits and the expertise of specialized personnel in the holding company organization. Accordingly, considerations relating to convenience and needs of the communities to be served are consistent with approval. It is the Board's judgment that consummation of the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[1] effective August 8, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

MOUNTAIN BANK

Merger of Banks

Mountain Bank, Roanoke, Virginia, a nonoperating proposed State member bank of the Federal Reserve System, has applied for the Board's approval pursuant to the Bank Merger Act (12 U.S.C. 1828(c)) of the merger of that bank with Mountain Trust Bank, Roanoke, Virginia under the charter of Applicant and the name of Mountain Trust Bank.

As required by the Act, notice of the proposed merger, in form approved by the Board, has been published, and the Board has requested reports on competitive factors from the Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation. The Board has considered the application in light of factors set forth in the Act.

On the basis of the record, the application is approved for the reasons summarized in the Board's Order of July 24, 1973 relating to the application of First & Merchants Corporation, Richmond, Virginia, to acquire all of the voting shares of the successor by merger to The Mountain Trust Bank, Roanoke, Virginia, provided that said transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order, or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Richmond, pursuant to delegated authority.

By order of the Board of Governors,[1] effective August 8, 1973.

V 38 158 AUG 16 73 XUM

PHILADELPHIA NATIONAL CORP.

Acquisition of Hartzler Mortgage Company

Philadelphia National Corporation, Philadelphia, Pa., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Hartzler Mortgage Company, Columbus, Ohio. Notice of the application was published on May 16, 1973 in The Columbus Dispatch, a newspaper circulated in Franklin County, Ohio and on May 18, 1973 in the Mansfield News-Journal, a newspaper circulated in Richland County, Ohio.

Applicant states that the proposed subsidiary would engage in the activities or originating and servicing real estate mortgage loans. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Philadelphia.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than September 3, 1973.

Board of Governors of the Federal Reserve System, August 7, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-17017 Filed 8-15-73;8:45 am]

TEXAS COMMERCE BANCSHARES, INC.

Order Approving Acquisition of Bank

Texas Commerce Bancshares, Inc., Houston, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of the successor by merger to Irving Bank and Trust Company, Irving, Texas ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none have been timely received.

Applicant controls fourteen banks with deposits of $1,796.4 million, representing 5.18 percent of total deposits in commercial banks in the State of Texas, and Applicant is the fourth largest banking organization in the state.[1] Approval of the proposed acquisition would not result in any significant increase in the concentration of banking resources in Texas

Bank is situated in Irving, Texas, a suburban community with a population of approximately 97,000 bordering Dallas, and is located within the Dallas RMA. Bank has $59.1 million in deposits, a .79 percent share of market deposits, and ranks 13th of 110 banks in the market. Applicant does not have a subsidiary bank in the Dallas market: its closest banking subsidiary is located in San Angelo, Texas, approximately 228 miles to the southwest. The disfances separating the institutions, the number of banks in the intervening area, and Texas' prohibition of branch banking effectively eliminate the possibility of significant present competition between any of Applicant's existing subsidiary banks and the proposed subsidiary and make it unlikely that such conditions will develop in the future. Although the market appears attractive for *de novo* entry, the transaction would have no adverse effect on potential competition. Any such possible anticompetitive impact is effectively negated by Applicant's record of refraining from *de novo* entry outside the market area of its corporate headquarters in Houston, by Applicant's being only one of many potential entrants, and by Bank's suburban location and relatively small size preventing any reasonable consideration of Bank as the potential lead bank of a newly formed holding company and characterizing the acquisition as a "foothold" entry into the market. To the extent that Applicant could provide greater services to Bank, the proposed transaction would enhance Bank's ability to compete effectively with larger banking organizations presently in the market.

The financial and managerial resources and future prospects of Applicant, its existing subsidiary banks, and Bank are regarded as satisfactory and consistent with approval.

Considerations related to the convenience and needs of the community to be served lend weight to approval of the application. The already rapid rate of growth in the Irving community is projected to experience sharper acceleration due to the new Dallas-Fort Worth Regional Airport; the new and expanded services for Bank proposed and to be supported in development by Applicant, as well as Applicant's considerable resources, should enable Bank to more readily keep pace with the greater credit needs and the demand for a wider range of services that such development in the area will require. It is the judgment of the Federal Reserve Bank of Dallas that the balance of the statutory factors favors approval and that the transaction is in the public interest.

On the basis of the record as summarized above, the Federal Reserve Bank of Dallas approves the application, provided that the transaction shall not be consummated (a) before the thirtieth calendar day following the date of this Order or (b) later than three months after the date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Dallas pursuant to delegated authority, and further provided that the transaction shall be in compliance with the provisions of Section 3(e) of the Act (12 U.S.C. 1842(e)) regarding status as an insured bank as defined in section 3(h) of the Federal Deposit Insurance Act (12 U.S.C. 1813(h)).

By order of the Federal Reserve Bank of Dallas, acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System, effective August 7, 1973.

[SEAL] ROBERT H. BOYKIN,
Secretary.

[File No. 811-1468]

INDEX FUND, INC.

Filing of Application

AUGUST 10, 1973.

Notice is hereby given that Index Fund, Inc., c/o Charles E. McGuinness, Suite 1115, 36 West 44th Street, New York, New York 10036 ("Applicant"), registered under the Investment Company Act of 1940 ("Act") as an open-end diversified management investment company, has filed an application pursuant to sec. 8(f) of the Act, for an order of the Commission declaring that Applicant has ceased to be an investment company. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

The application states, among other things, that Applicant and the Pilgrim Fund, Inc., a Maryland corporation, also a registered investment company under the Act, entered into an Agreement and Plan of Reorganization ("Plan") on November 8, 1972; that the shareholders of Applicant approved the Plan on December 15, 1972; and that pursuant to the Plan, Applicant sold substantially all of its assets to Pilgrim in exchange for shares of its $1.00 par value capital stock, which stock was then distributed to Applicant's shareholders. As a result of the consummation of the Plan, Applicant has no assets other than sufficient cash to prosecute claims Applicant has pending in the United States District Court for the Southern District of New York. Such claims arose, according to the application, from actions taken by Mr. Robert R. Hagopian while he was President of both Applicant and its investment adviser, Meridian Management Corporation. A special bank account will be established for any net proceeds from these actions, which will then be distributed to Applicant's shareholders.

The application further states that Applicant has ceased engaging in any business activity; that it has no plans to engage in any business activity in the future; and that it is effecting its dissolution pursuant to the corporation laws of Massachusetts.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than September 4, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communications should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the matter herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for a hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Recording Secretary.

[Release Nos. 33-5411 and 34-10296]

LITIGATION AND ADMINISTRATIVE PROCEEDINGS AFFECTING PROFESSIONALS PRACTICING BEFORE THE COMMISSION

Notice of Inquiry

In recent years there has been a significant increase in the amount of civil and criminal litigation and of administrative disciplinary proceedings involving professionals such as accountants and attorneys who practice before the Commission. The disclosure rules and forms adopted by the Commission under the Securities Act of 1933 and the Securities Exchange Act of 1934 do not contain provisions expressly requiring disclosure relating to such litigation. However, several judicial proceedings have been instituted recently which include allegations that the failure of issuers to disclose litigation involving accounting firms in proxy statements subject to the Commission's proxy rules resulted in omissions of material facts. Approval or ratification by shareholders of selections of the firms as auditors for the next year was being sought in each case.

The Commission believes that these cases also raise questions with respect to disclosure of litigation affecting other types of professionals who practice before the Commission, such as attorneys, engineers and appraisers. Accordingly, the Commission has authorized an inquiry by its Division of Corporation Finance in conjunction with the Office of the Chief Accountant to obtain information from and ascertain views of interested persons relating to these issues. The Commission's staff will be contacting certain professional organizations in this regard. However, the Commission solicits information and comments from other interested persons as well. Those submitting comments should consider and address themselves particularly to the following:

1. What standard of materiality, if any, should be applied?

2. Are the type of professional involved in the litigation including the nature of his connection with the filing and whether an individual professional or a firm are involved in the litigation relevant considerations?

3. Is the identity of other parties to the litigation, e.g., the issuer, a relevant consideration?

4. Should any requirement for disclosure vary depending on the nature (criminal, civil, injunctive action, administrative proceeding) and status of the litigation (whether the litigation is pending or final order or judgment entered)?

5. Should litigation other than that arising under the federal securities laws be considered?

6. Is the nature of the filing in which such disclosure, if any, might be required (e.g., 1933 Act registration statement or 1934 Act registration statement, proxy statement or report) a relevant consideration?

7. What would be the appropriate form of disclosure, if any?

8. What would be the appropriate period of time during which such disclosure, if any, should be required?

It should be emphasized that the Commission has reached no determination with respect to these matters. After consideration of the views and comments obtained as the result of this inquiry, the Commission will consider whether appropriate rules or guidelines should be adopted (after appropriate opportunity for comment) to set standards for disclosure of litigation or proceedings relating to professionals practicing before the Commission. Until this inquiry is completed the staff will not suggest such disclosure except under unusual circumstances. In the interim, it is the responsibility of issuers filing with the Commission to determine whether disclosure of litigation relating to professionals who participate in the preparation of or report on some aspect of a filing is required under the securities laws.

Persons desiring to comment on this subject should submit their comments in writing to Ronald F. Hunt, Secretary, Securities and Exchange Commission, Washington, D.C. 20549 prior to September 15, 1973. All such communications will be placed in the public files of the Commission and should refer to File No. S7-488.

By the Commission.

[SEAL] SHIRLEY E. HOLLIS,
Recording Secretary.

[File No. 811-1174]

PROFESSIONAL PORTFOLIO FUND, INC.

Filing of Application

AUGUST 10, 1973.

Notice is hereby given that Professional Portfolio Fund, Inc. ("PPF"), 1600 Kapiolani Boulevard, Honolulu, Hawaii 96814, formerly a Hawaii corporation registered as an open-end, non-diversified management investment company under the Investment Company Act of 1940 ("Act"), has filed an application pursuant to sec. 8(f) of the Act for an order of the Commission declaring that PPF has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations set forth therein which are summarized below.

PPF stated that on May 11, 1973, its shareholders approved the sale of substantially all of its assets in exchange for shares of common stock of The Pegasus Fund, Inc. ("Pegasus"), a Maryland corporation registered under the Act as an open-end, diversified management investment company, and that such sale and exchange took place as of the close of business on such date. PPF further states that pursuant to the Agreement and Plan of Reorganization with Pegasus, the common stock received by PPF has been distributed to PPF's shareholders. PPF represents that all liabilities in connection with the sale and dissolution of PPF have been paid or assumed by Financial Advisors, Inc., its former investment advisor; that the Investment Advisory Agreement pursuant to which PPF's assets were managed by Financial Advisors, Inc. has been terminated; that on May 11, 1973 a Certificate of Dissolution was filed by PPF with the Department of Regulatory Agencies of the State of Hawaii and that the dissolution of PPF was effective upon such filing under the laws of the State of Hawaii; and that as a result of the distribution of the shares of Pegasus received by PPF, PPF has no security holders. PPF further represents that as a result of the distribution of said Pegasus shares, PPF has no assets.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than September 5, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the matter herein may be issued by the Commission upon the basis of the information stated in the application, unless an order for hearing upon said proposal shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[File No. 811-2343]

STRUTHERS CAPITAL CORP.

Filing of Application

AUGUST 10, 1973.

Notice is hereby given that Struthers Capital Corporation ("Applicant"), 630 Fifth Avenue, New York, New York 10020, a New York corporation, has filed an application pursuant to sec. 6(c) of the Investment Company Act of 1940 ("Act") for an amended order exempting it from all provisions of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person from any provisions of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant, all of the capital stock of which consists of 1,000 shares of Common Stock having a par value of $1.00 per share, is presently owned by Struthers Wells Corporation ("Struthers"). Applicant was formed by Struthers in April 1968 and has operated as a small business investment company ("SBIC") licensed by the Small Business Administration ("SBA") under the Small Business Investment Act of 1958, as amended ("SBIA"), since August 9, 1968 when Applicant acquired all of the business and assets of Developers Small Business Investment Corporation, a New Jersey corporation licensed under the SBIA. Applicant has previously received from the Commission an Order pursuant to Section 6(c) of the Act exempting Applicant from all provisions of the Act and the rules and regulations thereunder, subject to certain conditions (Investment Company Act Release No. 5461, August 9, 1968) (the "Order").

Applicant's business consists of furnishing equity capital and making long-term loans to small businesses, and through a wholly owned subsidiary supplying management, financial and other

services on a fee basis to such small businesses. The major portion of revenues are derived from interest received on account of outstanding investments and certificates of deposit. At November 30, 1972, Applicant and its subsidiary had total assets of $2,677,118 (exclusive of $1,992,516 of cash items), of which its investments (net of allowances for possible losses) amounted to $2,559,645. At May 31, 1973, such total assets aggregated $2,700,482 (exclusive of $1,839,000 of cash items), of which investments (net of allowances for possible losses) amounted to $2,592,380. At that date, Applicant had no debt securities, other than amounts payable to Struthers or to the Small Business Administration. For the year ended November 30, 1972, Applicant had total revenues of $278,788 and incurred a net loss of $17,162. For the six month period ended May 31, 1973, Applicant had total revenues of $135,000 and operated on a break-even basis.

Pursuant to a Stock Purchase Agreement, dated July 26, 1973 (the "Agreement"), between Struthers and Prudential Funds, Inc. ("Prudential"), a Delaware corporation Struthers has agreed to sell and Prudential has agreed to buy all of the authorized, issued and outstanding shares of Applicant's Common Stock for a cash consideration of $2,100,000. The Agreement provides that simultaneously with the sale of Applicant's Common Stock, Struthers will purchase from Applicant the interest of Applicant in certain real property and related stock investments and advances for the amount of $636,335.50, which interests represent aproximately 15 percent of the assets of Applicant. The Agreement has been approved by the Boards of Directors of Applicant, Struthers and Prudential and is subject to certain conditions, including the granting by the Commission of an amendment to the Order to permit the ownership of the shares of Applicant by Prudential under the same terms and conditions as specified in the Order.

The transfer of all the outstanding stock of Applicant from Struthers to Prudential will leave Applicant in its present status as a wholly owned subsidiary of an operating parent whose shares are traded on the American Stock Exchange. Section 3(b)(3) of the Act excepts from the definition of investment company any issuer all of the outstanding securities of which (other than short-term paper and director's qualifying shares) are owned by a company primarily engaged in a business other than that of investing, reinvesting, owning, holding, or trading in securities. Applicant represents that Prudential is engaged, and intends to engage, primarily in businesses other than investing, reinvesting, owning, holding or trading in securities and that Applicant upon consummation of the proposed transaction would continue to be excepted from status as an investment company, pursuant to sec. 3(b)(3), except for indebtedness of Applicant represented by subordinated notes and debentures held by the SBA. Applicant asserts that there is no public interest in regulating Applicant under the Act solely on the basis of such debt not held by Prudential, since the SBA is in a position under the provisions of the SBIA amply to protect itself with respect to this investment.

Applicant has agreed that an amended order granting the application may be based upon conditions providing that no person other than Prudential or the SBA shall at any time own any security of Applicant (other than short-term paper) and providing for the periodic filing with the Commission of certain financial and other information concerning Applicant and Prudential, and that such amended Order be applicable to permit the change in control of Applicant from Struthers to Prudential and shall not apply to any other or further change of control, directly or indirectly.

Prudential was incorporated in Delaware on December 21, 1965, under the name of Prudential Drilling Funds, Inc., and effective July 1, 1966, it took over the oil and gas management business of Prudential Oil Corporation which had been the manager of previous Prudential oil and gas programs since its original incorporation in Connecticut in 1959. Since 1960, Prudential and its predecessor have publicly offered unit participations in and administered oil and gas exploration programs known as the Prudential Drilling Fund Programs (the "Programs"), which provide facilities for unit participation by individuals in high income tax brackets in a number of oil and gas drilling ventures. Prudential also owns interests in oil and gas properties which have been acquired from time to time through the purchase of unit participations in certain of the Programs for its own account, and in certain instances by purchase from others.

Prudential presently has three wholly-owned subsidiaries: Prudential Ventures Corp., a Delaware corporation which is registered as broker-dealer under the Securities Exchange Act of 1934 and participates in the offering and sale of units in the Programs; Battery Park Resources Corp., a Delaware corporation, which owns certain real estate interests; and Connecticut Exploration Corp., a Connecticut corporation which holds title to certain Canadian leasehold interests and properties as nominee for participants in prior Programs administered by Prudential.

Prudential employs approximately 50 persons, of which approximately 25 persons, including petroleum engineers and landmen, perform services in connection with the Programs and are located in Prudential's oil and gas offices in Houston, Texas. Prudential's principal executive offices are located at One New York Plaza, New York, New York 10004.

Total consolidated revenues of Prudential and its subsidiaries for the fiscal year ended May 31, 1972 and for the nine months ended February 28, 1973, amounted to $3,567,000 and $3,514,000, respectively. Revenues attributable to Prudential's oil and gas interests, net of operating expenses, amounted to approximately 45 percent of total consolidated revenues of Prudential and its subsidiaries for the fiscal year ended May 31, 1972 and approximately 55 percent of such total consolidated revenues for the nine months period ended February 28, 1973. Commission income earned by Prudential and its subsidiaries from subscriptions to the Programs (from which revenues commission payments are made to N.A.S.D. members assisting in the offering and sale of unit participations in the Programs) amounted to approximately 36 percent of consolidated total revenues for the fiscal year ended May 31, 1972 and approximately 35 percent of consolidated revenues for the nine months ended February 28, 1973.

Total assets of Prudential and its subsidiaries at May 31, 1972 and February 28, 1973 aggregated $16,729,654 and $14,603,686, respectively, of which oil and gas interests (net of depreciation, depletion and amortization) aggregated $6,346,517 and $5,181,969, respectively. For the year ended May 31, 1972, Prudential and its subsidiaries incurred a consolidated net loss of $4,558,739 and for the nine months period ended February 28, 1973, a consolidated net loss of $207,000 was realized.

Prudential has concluded that diversification into the SBIC field, as an adjunct to its present operations, would allow it to use certain of its existing management and technical resources to assist Applicant in the infusion of venture capital into new businesses.

Notice is further given that any interested person may, not later than August 29, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an amended order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

[File No. 811-1915]

WISCONSIN LIFE INSURANCE CO. VARIABLE ACCOUNT A

Filing of Application

AUGUST 10, 1973.

Notice is hereby given that The Wisconsin Life Insurance Company Variable Account A ("Applicant"), 709 North Segoe Road, Madison, Wisconsin 53705, registered under the Investment Company Act of 1940 ("Act") as a unit investment trust, has filed an application pursuant to sec. 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant has requested withdrawal of its registration statement on Form S-6 under the Securities Act of 1933 which it filed in 1969 and which has never become effective. Applicant represents that none of its securities have ever been offered or sold to the public, and that current business conditions do not warrant offering its securities at this time. Applicant further represents that it is a dormant trust engaging in no business activities.

Section 3(c)(1) of the Act excepts from the definition of investment company any issuer whose outstanding securities are beneficially owned by not more than 100 persons and which is not making and does not presently propose to make a public offering of its securities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than September 5, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application may be issued by the Commission upon the basis of the information stated in said application, unless an order for a hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS, *Recording Secretary.*

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

STANDARDS ADVISORY COMMITTEE ON CARCINOGENS

Notice of Meeting

Notice is hereby given that the Standards Advisory Committee on Carcinogens, established under section 7(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 656), will meet on the following dates: Tuesday, August 21, 1973, at 9:30 a.m. in conference Room 216 A, B, C, and D of the Main Labor Building, 14th Street and Constitution Avenue, NW., Washington, D.C.; Wednesday, August 22, 1973, at 9:00 a.m., and Thursday, August 23, 1973, at 9 a.m., in Conference Room 107 A, B, and C of the Main Labor Building; and Friday, August 24, 1973, at 8:30 a.m., in Conference Room 216 A, B, C, and D of the Main Labor Building.

The agenda provides for further discussion by the committee of the development of recommendations for a standard on carcinogens.

The meetings shall be open to the public. Written data, views, or arguments concerning the subject to be considered may be filed, together with 25 copies thereof, with the Committee's Executive Secretary up to the close of business on August 21, 1973. Submissions timely received will be provided to the members of the Committee and will be included in the record of the meetings.

All written communications should be addressed as follows:

Milton W. Umbenhouer, Acting Executive Secretary, Standards Advisory Committees, OSHA-OSMC Railway Labor Building, Room 509 U.S. Department of Labor Washington, D.C. 20210

Signed at Washington, D.C. this 14th day of August 1973.

JOHN STENDER, *Assistant Secretary of Labor.*

Federal Campaign Funds

V 38-158 AUG 16 73 XUM

Title 11—Federal Elections

CHAPTER I—COMPTROLLER GENERAL

SUBCHAPTER B—DISCLOSURE OF FEDERAL CAMPAIGN FUNDS

EARMARKED CONTRIBUTIONS OR EXPENDITURES

Parts 11 and 14 are amended to require complete disclosure under title III of the Act of all transactions pertaining to contributions or expenditures (including transfers of funds) which have been "earmarked" by the original donor or some other person for ultimate delivery to, or for the benefit of, a specific Federal candidate or political committee. The amendment to part 19 makes clear that the prohibition of contributions in the name of another does not preclude the making or acceptance of any "earmarked" contribution which is properly reported under these amendments to the regulations.

The detailed disclosure procedures required under these amendments are illustrated by examples printed at page — of this issue of the FEDERAL REGISTER.

These amendments are effective on August 16, 1973.

PART 11—SCOPE AND DEFINITIONS

1. A new § 11.25 is added as follows:

§ 11.25 Earmark, earmarked or earmarking.

"Earmark," "earmarked," and "earmarking" mean any and all designations, instructions or encumbrances (including but not limited to those which are direct or indirect, express or implied, oral or written) which cause or result in all or any portion of a contribution or expenditure being made to or expended for the benefit of a specific candidate or political committee.

(Sec. 308(a)(13), 86 Stat. 17, 2 U.S.C. 438, Interpret or apply section 301, 86 Stat. 11, 2 U.S.C. 431)

PART 14—REPORTS BY POLITICAL COMMITTEES AND CANDIDATES TO THE COMPTROLLER GENERAL

2. Section 14.2 is amended by revising paragraph (b)(4) to read as follows:

§ 14.2 Form and contents.

* * * * *

(b) Each report by such committee or candidate under this part (except subparagraph (12) of this paragraph) shall disclose—

* * * * *

(4) The name and mailing address of each political committee or candidate from which the reporting committee or the candidate received, or to which that committee or candidate made, any transfer of funds in any amount during the reporting period, together with the amounts and dates of all transfers and complete identification, under the provisions of § 14.12 of this subchapter, for each transfer of earmarked funds.

* * * * *

(Sec. 308(a)(13), 86 Stat. 17, 2 U.S.C. 438. Interpret or apply section 304, 86 Stat. 14, 2 U.S.C. 434)

PART 19—PROHIBITION OF CONTRIBUTIONS IN THE NAME OF ANOTHER

3. A new § 14.12 is added as follows:

§ 14.12 Disclosure of earmarked contributions and expenditures.

(a) Each candidate, political committee, and other person required to file reports under the Act who receives an earmarked (see definition in § 11.25 of this subchapter) contribution or makes an earmarked expenditure (including any transfer of funds) that is subject to the reporting requirements of the Act and this subchapter shall report the full name and mailing address, occupation and principal place of business, if any, of the donor or any other person who originally earmarked the contribution or expenditure; the name and address of each political committee or candidate for whom the contribution or expenditure is earmarked; and the amount of such contribution or expenditure earmarked for each such candidate or political committee and the aggregate amount of such contribution or expenditure earmarked for each such candidate or political committee and the aggregate amount earmarked for each during the calendar year.

(b) The reporting required by this section shall be in addition to all other reporting of such contribution or expenditure required by the Act and this subchapter; shall be performed by all candidates, political committees and other persons receiving, expending, or transferring earmarked funds; and shall be reported together with all other required information on the appropriate Schedules A–D supplementing C.G. Election Forms 2 or 3.

(Sec. 308(a)(13), 86 Stat. 17, 2 U.S.C. 438. Interpret or apply section 304, 86 Stat. 14, 2 U.S.C. 434)

4. Section 19.1 is amended by designating the first paragraph thereof as (a) and adding a new paragraph (b) as follows:

§ 19.1 Prohibition.

(a) No person shall make a contribution (as defined in Part 11 of this subchapter) in the name of another person or in any other name than his own in connection with any candidate's campaign for nomination or election to the office of President or Vice President, and no person shall knowingly accept such a contribution made by one person in the name of another person or in any other name than the contributor's in connection with any such campaign. The foregoing sentence applies to any contributor, as well as to any candidate, or any officer or employee of a political committee, or any other person.

(b) Nothing in this section prohibits the making or acceptance of any earmarked contribution which is properly reported under this subchapter (see § 14.12 of this subchapter).

(Sec. 308(a)(13), 86 Stat. 17, 2 U.S.C. 438. Interpret or apply section 310, 86 Stat. 19, 2 U.S.C. 440)

COMPTROLLER GENERAL

FEDERAL CAMPAIGN FUNDS

Reporting Procedures for Earmarked Funds

Under section 308(a)(13) of the Federal Election Campaign Act of 1971, the Comptroller General has today issued revised regulations pertaining to the disclosure of "earmarked" contributions and expenditures. To illustrate the application of the newly issued amendment to the regulations and the related reporting requirements, sample reports based upon the following hypothetical example of "earmarking" are attached.

Example. On August 21, 1972, John Doe, 1500 Central Avenue, Boise, Idaho, 83702, an Executive Vice-President of the XYZ Corporation in Boise, contributed $5,000 to the Durango County Democratic Committee with instructions that the entire amount be transmitted to the Idaho State Central Democratic Committee and in turn transferred by that committee to "Democrats for Nixon," a national political committee supporting the re-election of President Nixon. On August 26, 1972, the Durango County Committee transferred $25,000 to the State Committee which included the $5,000 donated by John Doe and earmarked by him for Democrats for Nixon. The State Committee received the transfer on August 28 and transferred the $5,000 earmarked by John Doe to Democrats for Nixon on August 29. Democrats for Nixon received the transfer on the next day, August 30, 1972. In a previous reporting period John Doe had contributed $1,500 directly to the Idaho State Central Democratic Committee with instructions that $1,000 of that sum be conveyed to Democrats for Nixon.

The appendix illustrates the detail in which each of the foregoing transactions should be reported by all committees on their September 10 reports.

Forms and further information on this revision, or any other provision of our regulations, may be obtained from the Office of Federal Elections, U.S. General Accounting Office, 441 G Street, NW., Washington, D.C. 20548.

[SEAL] ELMER B. STAATS,
Comptroller General of the United States.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Presidential Documents

Title 3—The President

PROCLAMATION 4233

Leif Erikson Day, 1973

By the President of the United States of America

A Proclamation

Leif Erikson first established ties between the Nordic countries and the New World when he and his companion Norse explorers landed on the North American continent in the 11th century. Their success in the face of formidable odds provides a memorable example of how vision and faith and courage can achieve even the most elusive goals.

From Leif Erikson's day to ours, the Nordic culture has been a major influence in shaping the American character. As we honor his memory, we also honor the contributions of those who followed later in the path that he first traveled.

It is with these thoughts in mind that I happily comply with the request of the Congress of the United States, in a joint resolution approved September 2, 1964 (78 Stat. 849), that the President proclaim October 9 in each year as Leif Erikson Day.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate Tuesday, October 9, 1973, as Leif Erikson Day; and I direct the appropriate Government officials to display the flag of the United States on all Government buildings that day.

I also invite the people of the United States to honor the memory of Leif Erikson on that day by holding appropriate exercises and ceremonies in suitable places across our land.

IN WITNESS WHEREOF, I have hereunto set my hand this fifteenth day of August, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred and ninety-eighth.

Richard Nixon

V 38 - 159 AUG 17 73 XUM

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

General Services Administration

Section 213.3337 is amended to show that one position of Associate Administrator for Federal Management Policy is excepted under Schedule C.

Effective August 17, 1973, § 213.3337 (a) (13) is added as set out below.

§ 213.3337 General Services Administration.

(a) Office of Administrator for Federal Management Policy

• • • • • •

(13) Associate Administrator for Federal Management Policy.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 599]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period August 19–25, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.899 Lemon Regulation 599.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendations resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons continues active, exceeding supplies for 165's and larger sizes but has eased somewhat on 200's and 235's. Average f.o.b. price was $6.66 per carton the week ended August 11, 1973, compared to $6.11 per carton the previous week. Track and rolling supplies at 153 cars were up 8 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effectve during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 14, 1973.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period August 19, 1973, through August 25, 1973, is hereby fixed at 265,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 15, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73–17371 Filed 8–16–73;11:35 am]

[Area No. 3]

PART 948—IRISH POTATOES GROWN IN COLORADO

Expenses and Rate of Assessment

This document authorizes expenses of $3,625 for the Area No. 3 Committee under Marketing Order No. 948, as amended, during the 1973–74 fiscal period and fixes a rate of assessment of $0.007 per hundredweight of potatoes handled in such period to be paid to the committee by each first handler as his pro rata share of such expenses.

Notice of rule making regarding the proposed expenses and rate of assessment for Area No. 3 (Northern Colorado) was published in the July 13, 1973, FEDERAL REGISTER (38 FR 18672). This regulatory program is effective under the

V 38-159 AUG 17 73 XUM

Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

The notice afforded interested persons an opportunity to file written data, views, or arguments pertaining thereto not later than August 13, 1973. None was filed.

After consideration of all relevant matters, including the proposals set forth in the notice which were recommended by the Area No. 3 Committee it is hereby determined that:

§ 948.270 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred by the Area No. 3 Committee to enable it to perform its functions, under this part, during the fiscal period ending June 30, 1974, will amount to $3,625.

(b) The rate of assessment to be paid by each handler under this part shall be $0.007 per hundredweight of potatoes grown in Area No. 3 handled by him as the first handler during the fiscal period.

(c) Unexpended income in excess of expenses for the fiscal period ending June 30, 1974 may be carried over as a reserve.

(d) Terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97, as amended, and this part.

It is hereby found that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) the relevant provisions of this part require that the rate of assessment for a particular fiscal period apply to all assessable potatoes from the beginning of such period, and (2) the current fiscal period began on July 1, 1973, and the rate of assessment herein fixed will apply to all assessable potatoes beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

Dated: August 14, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-17142 Filed 8-16-73;8:45 am]

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

Expenses of the Prune Administrative Committee and Rate of Assessment for the 1973–74 Crop Year

Notice was published in the July 30, 1973, issue of the FEDERAL REGISTER (38 FR 20265) regarding proposed expenses of the Prune Administrative Committee, and rate of assessment, for the 1973–74 crop year, under §§ 993.80 and 993.81 of the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The notice afforded interested persons an opportunity to submit written data, views, or arguments with respect to the proposal. None were received.

The proposal was based on a unanimous recommendaion of the Prune Administrative Committee. Expenses of the Committee for the 1973–74 crop year were proposed at $160,000. Also proposed was an assessment rate of $1.00 per ton of assessable prunes. The Committee estimated that the 1973–74 assessable tonnage would be 160,000 natural condition tons.

After consideration of all relevant matter presented, including that in the notice, the information and recommendations submitted by the Prune Administrative Committee, and other available information, it is found that the expenses of the Prune Administrative Committee and the rate of assessment for the crop year beginning August 1, 1973, shall be as follows:

§ 993.324 Expenses of the Prune Administrative Committee and rate of assessment for the 1973–74 crop year.

(a) *Expenses.* Expenses in the amount of $160,000 are reasonable and likely to be incurred by the Prune Administrative Committee during the crop year beginning August 1, 1973, for its maintenance and functioning and for such other purposes as the Secretary may, pursuant to the applicable provisions of the marketing agreement, as amended, and this part, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for such crop year which each handler is required, pursuant to § 993.81, to pay to the Prune Administrative Committee as his pro rata share of the said expenses is fixed at $1.00 per ton of salable prunes handled by him as the first handler thereof.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) The relevant provisions of said marketing agreement and this part require that the rate of assessment fixed for a particular crop year shall be applicable to all salable prunes handled by handlers as the first handlers thereof; and (2) the current crop year began on August 1, 1973, and the rate of assessment herein fixed will automatically apply to all such prunes beginning with that date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 14, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division.

[FR Doc.73-17183 Filed 8-16-73;8:45 am]

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK) DEPARTMENT OF AGRICULTURE

[Milk Order No. 50]

PART 1050—MILK IN THE CENTRAL ILLINOIS MARKETING AREA

Order Suspending Certain Provisions

This order of suspension is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Central Illinois marketing area.

Notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 20626) concerning a proposed suspension of certain provisions of the order. Interested persons were afforded opportunity to file written data, views, and arguments thereon. None were filed in opposition.

After consideration of all relevant material, including the proposal set forth in the aforesaid notice, data, views, and arguments filed thereon, and other available information, it is hereby found and determined that for the month of August 1973 the following provisions of the order do not tend to effectuate the declared policy of the Act:

In § 1050.61(a) the term "route disposition" as it first appears, and the term "route" as it subsequently appears twice therein.

STATEMENT OF CONSIDERATION

This suspension action removes the limit on the categories of Class I disposition in Federal order marketing areas that shall be counted in the determination of whether a distributing plant has a greater volume of Class I sales in the Central Illinois marketing area than in any other Federal order marketing area. For distributing plants which meet the minimum pooling provisions under more than one order, full regulation is provided under the order for the market where the greatest volume of Class I sales is made. Under the Central Illinois order, only Class I route disposition is now counted in such determination. This suspension would include, additionally, Class I disposition to order plants in the respective marketing areas, as is provided under the Quad Cities-Dubuque order.

Mississippi Valley Milk Producers Association, Inc., requests the suspension action to facilitate continued regulation of the Borden, Inc., Pekin, Illinois, distributing plant under the Central Illinois order rather than its being pooled under the Quad Cities-Dubuque order in August 1973. This producer association supplies the Pekin plant with member producer milk.

Over one-third of the Class I disposition pooled under the Central Illinois order is associated with the Pekin plant. If this plant shifts regulation to the Quad Cities-Dubuque market, the change in Class I utilization percentages between the markets would result in a substantial reduction of the uniform price under the Central Illinois order and a substantial increase in the uniform price under the Quad Cities-Dubuque order. Consequently, it would have a disruptive impact on the milk procurement situation between the markets, as it is influenced by the relationship of uniform prices under the orders.

Also, if the Pekin plant were pooled under the Quad Cities-Dubuque order, it would adversely affect the aforementioned association's ability to continue supplying milk to the plant, since substantial additional hauling costs are incurred in moving its member milk to the Pekin location compared to plants located within the Quad Cities-Dubuque market, which are about 100 miles nearer to its member producers' farms. The Quad Cities-Dubuque order prices applicable at the Pekin plant location are the same as for plants located within 70 miles of Rock Island, Illinois (one of the Quad Cities).

It is hereby found and determined that thirty days' notice of the effective date hereof is impractical, unnecessary and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area in that it would facilitate pooling a major portion of the market's Class I utilization during August 1973;

(b) This suspension does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Notice of proposed rulemaking was given interested parties and they were afforded opportunity to file written data, views or arguments concerning this suspension.

Therefore, good cause exists for making this order effective for the month of August 1973.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for month of August 1973.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: August 17, 1973.

Signed at Washington, D.C., on: August 14, 1973.

CLAYTON YEUTTER,
Acting Secretary.

[FR Doc.73-17182 Filed 8-16-73;8:45 am]

Title 10—Atomic Energy

CHAPTER I—ATOMIC ENERGY COMMISSION

PART 19—NOTICES, INSTRUCTIONS AND REPORTS TO WORKERS; INSPECTIONS

The Atomic Energy Commission has adopted a new regulation, 10 CFR Part 19, Notices, Instructions and Reports to Workers; Inspections, which includes certain provisions for the options of workers engaged in licensed activities concerning Commission inspections. These provisions are comparable with those provided by the Department of Labor for inspections pursuant to the Occupational Safety and Health Act of 1970 (OSHA), as set out in 29 CFR Part 1903. Several requirements from 10 CFR Part 20 regarding information that licensees must provide for these workers are included in Part 19.

The basic purpose of the new Part 19 is to provide options to workers concerning inspections of working conditions regulated by the Commission comparable to those afforded for working conditions regulated by the Department of Labor.

The Commission published a notice of proposed rulemaking in the FEDERAL REGISTER on January 4, 1973 (38 FR 802) that included the proposed Part 19. Interested persons were invited to submit written comments or suggestions for consideration in connection with the proposed amendments within 45 days after publication of the notice of proposed rule-making in the FEDERAL REGISTER.

After consideration of the comments received and other factors involved, the Commission has adopted the proposed new part and associated amendments to Part 20 published for comment, with certain modifications and editorial changes, and has amended 10 CFR Parts 31, 34, 35, 40, 70, 115 and 150, to clarify the applicability of Part 19. The more important changes made in Part 19 and the amendments based largely on these comments, are as follows:

(1) In many cases, the licensee may not be the employer of the individual workers protected by the amendments. Since it is the responsibility of the licensee rather than the individual's employer to control radiological working conditions, the terms "employer" and "employee" have been eliminated. The terms "licensee" and "worker" or "individual" as appropriate are used instead.

(2) Licensees frequently conduct licensed activities at two or more locations often involving different kinds of work. It has been made clear that the intent of the posting requirements in the proposed § 19.11 was to make the relevant documents accesible to workers involved in the licensed activities at the location to which the documents, e.g., notices of violation, apply.

(3) It has been clarified that the requirement in § 19.11 for posting notices of violations, notices of proposed imposition of civil penalty, or orders issued pursuant to Subpart B of Part 2 of this chapter, applies only to documents relevant to radiological working conditions.

(4) In many cases, the documents required to be posted by the provisions of § 19.11 are complex, bulky, and of little interest to any but the workers engaged in the particular licensed activity. If adequate accessibility of these documents to workers is assured, it is considered acceptable instead to post a notice describing such documents, stating where they may be examined.

(5) Because of the time required to disseminate and post a notice of violation, proposed imposition of civil penalty, or order issued by the Commission, and to prepare a preliminary response if desired, the time within which documents are required to be posted has been changed in § 19.11 from 24 hours to 2 working days. Similarly, to take into account prompt corrective action, the time required for the documents to remain posted is changed from 10 working days (or until correction, whichever is later) to 5 working days (or until correction, whichever is later).

(6) Section 19.15 permits the worker to bring occupational radiological protection matters privately to the attention of the inspector; § 19.16 permits the worker to notify the Commission in writing about working conditions he believes are in violation of the Act, the regulations, or license conditions; on the other hand, § 19.12 requires the licensee to instruct the worker to report promptly to the licensee certain matters regarding working conditions. The interests of worker safety are best served in matters concerning working conditions if supervisors, who can act promptly to correct undesirable conditions, are notified promptly. It is the intent of this regulation to encourage the worker to notify the licensee of possibly undesirable conditions prior to his notifying the Commission, thus avoiding unnecessary delays in corrective action. The point is clarified.

In addition, a number of other minor and editorial changes have been made that reflect written comments received.

Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of title 5 of the United States Code, the following new Part 19 of Title 10, Chapter I, Code of Federal Regulations is published as a document subject to codification, to be effective on September 17, 1973.

A new Part 19 is added to read as follows:

Sec.
19.1 Purpose.
19.2 Scope.
19.3 Definitions.
19.4 Interpretations.
19.5 Communications.
19.11 Posting of notices to workers.
19.12 Instructions to workers.
19.13 Notifications and reports to individuals.
19.14 Presence of representatives of licensees and workers during inspections.
19.15 Consultation with workers during inspections.
19.16 Requests by workers for inspections.
19.17 Inspection not warranted; informal review.
19.30 Violations.
19.31 Application for exemptions.

AUTHORITY: Atomic Energy Act of 1954; as amended, and sections 552, 553 of title 5, U.S.C.

§ 19.1 Purpose.

The regulations in this part establish requirements for notices, instructions and reports by licensees to individuals participating in licensed activities, and options available to such individuals in connection with Commission inspections

V 38 159 AUG 17 73 XUM

of licensees to ascertain compliance with the provisions of the Atomic Energy Act of 1954, as amended, and regulations, orders and licensees issued thereunder regarding radiological working conditions.

§ 19.2 Scope.

The regulations in this part apply to all persons who receive, possess, use or transfer material licensed by the Commission pursuant to the regulations in Parts 30 through 35, 40, or 70 of this chapter, including persons licensed or authorized to operate a production or utilization facility pursuant to Part 50 or Part 115 of this chapter.

§ 19.3 Definitions.

As used in this part:

(a) "Act" means the Atomic Energy Act of 1954, (68 Stat. 919) including any amendments thereto;

(b) "Commission" means the United States Atomic Energy Commission;

(c) "Worker" means an individual engaged in activities licensed by the Commission and controlled by a licensee, but does not include the licensee.

(d) "License" means a license issued under the regulations in Parts 30 through 35, 40, or 70 of this chapter, including licenses to operate a production or utilization facility pursuant to Part 50 of this chapter. "Licensee" means the holder of such a license.

(e) "Restricted area" means any area access to which is controlled by the licensee for purposes of protection of individuals from exposure to radiation and radioactive materials. "Restricted area" shall not include any areas used as residential quarters, although a separate room or rooms in a residential building may be set apart as a restricted area.

§ 19.4 Interpretations.

Except as specifically authorized by the Commission in writing, no interpretation of the meaning of the regulations in this part by any officer or employee of the Commission other than a written interpretation by the General Counsel will be recognized to be binding upon the Commission.

§ 19.5 Communications.

Except where otherwise specified in this part, all communications and reports concerning the regulations in this part should be addressed to the Director of Regulatory Operations, U.S. Atomic Energy Commission, Washington, D.C. 20545. Communications, reports and applications may be delivered in person at the Commission's offices at 1717 H Street, NW., Washington, D.C.; at 7920 Norfolk Avenue, Bethesda, Maryland; or at Germantown, Maryland.

§ 19.11 Posting of notices to workers.

(a) Each licensee shall post current copies of the following documents: (1) The regulations in this part and in Part 20 of this chapter; (2) the license, license conditions, or documents incorporated into a license by reference, and amendments thereto; (3) the operating procedures applicable to licensed activities; (4) any notice of violation involving radiological working conditions, proposed imposition of civil penalty, or order issued pursuant to Subpart B of Part 2 of this chapter, and any response from the licensee.

(b) If posting of a document specified in paragraph (a) (1), (2) or (3) of this section is not practicable, the licensee may post a notice which describes the document and states where it may be examined.

(c) Form AEC–3, "Notice to Employees," shall be posted by each licensee wherever individuals work in or frequent any portion of a restricted area.

NOTE: Copies of Form AEC–3 may be obtained by writing to the Director of the appropriate U. S. Atomic Energy Commission Regional Regulatory Operations Office listed in Appendix "D", Part 20 of this chapter, or the Directorate of Licensing, U. S. Atomic Energy Commission, Washington, D.C. 20545.

(d) Documents, notices, or forms posted pursuant to this section shall appear in a sufficient number of places to permit individuals engaged in licensed activities to observe them on the way to or from any particular licensed activity location to which the document applies, shall be conspicuous, and shall be replaced if defaced or altered.

(e) Commission documents posted pursuant to paragraph (a) (4) of this section shall be posted within 2 working days after receipt of the documents from the Commission; the licensee's response, if any, shall be posted within 2 working days after dispatch by the licensee. Such documents shall remain posted for a minimum of 5 working days or until action correcting the violation has been completed, whichever is later.

§ 19.12 Instructions to workers.

All individuals working in or frequenting any portion of a restricted area shall be kept informed of the storage, transfer, or use of radioactive materials or of radiation in such portions of the restricted area; shall be instructed in the health protection problems associated with exposure to such radioactive materials or radiation, in precautions or procedures to minimize exposure, and in the purposes and functions of protective devices employed; shall be instructed in, and instructed to observe, to the extent within the worker's control, the applicable provisions of Commission regulations and licenses for the protection of personnel from exposures to radiation or radioactive materials occurring in such areas; shall be instructed of their responsibility to report promptly to the licensee any condition which may lead to or cause a violation of Commission regulations and licenses or unnecessary exposure to radiation or to radioactive material; shall be instructed in the appropriate response to warnings made in the event of any unusual occurrence or malfunction that may involve exposure to radiation or radioactive material; and shall be advised as to the radiation exposure reports which workers may request pursuant to § 19.13. The extent of these instructions shall be commensurate with potential radiological health protection problems in the restricted area.

§ 19.13 Notifications and reports to individuals.

(a) Radiation exposure data for an individual, and the results of any measurements, analyses, and calculations of radioactive material deposited or retained in the body of an individual, shall be reported to the individual as specified in this section. The information reported shall include data and results obtained pursuant to Commission regulations, orders or license conditions, as shown in records maintained by the licensee pursuant to Commission regulations. Each notification and report shall: be in writing; include appropriate identifying data such as the name of the licensee, the name of the individual, the individual's social security number; include the individual's exposure information; and contain the following statement:

This report is furnished to you under the provisions of the Atomic Energy Commission regulation 10 CFR Part 19. You should preserve this report for further reference.

(b) At the request of any worker, each licensee shall advise such worker annually of the worker's exposure to radiation or radioactive material as shown in records maintained by the licensee pursuant to § 20.401(a) and (c).

(c) At the request of a worker formerly engaged in licensed activities controlled by the licensee, each licensee shall furnish to the worker a report of the worker's exposure to radiation or radioactive material. Such report shall be furnished within 30 days from the time the request is made, or within 30 days after the exposure of the individual has been determined by the licensee, whichever is later; shall cover, within the period of time specified in the request, each calendar quarter in which the worker's activities involved exposure to radiation from radioactive materials licensed by the Commission; and shall include the dates and locations of licensed activities in which the worker participated during this period.

(d) When a licensee is required pursuant to § 20.405 or § 20.408 of this chapter to report to the Commission any exposure of an individual to radiation or radioactive material the licensee shall also provide the individual a report on his exposure data included therein. Such report shall be transmitted at a time not later than the transmittal to the Commission.

§ 19.14 Presence of representatives of licensees and workers during inspections.

(a) Each licensee shall afford to the Commission at all reasonable times opportunity to inspect materials, activities, facilities, premises, and records pursuant to the regulations in this chapter.

(b) During an inspection, Commission inspectors may consult privately with workers as specified in § 19.15. The licensee or licensee's representative may accompany Commission inspectors during other phases of an inspection.

(c) If, at the time of inspection, an individual has been authorized by the workers to represent them during Commission inspections, the licensee shall notify the inspectors of such authorization and shall give the workers' representative an opportunity to accompany the inspectors during the inspection of physical working conditions.

(d) Each workers' representative shall be routinely engaged in licensed activities under control of the licensee and shall have received instructions as specified in § 19.12.

(e) Different representatives of licensees and workers may accompany the inspectors during different phases of an inspection if there is no resulting interference with the conduct of the inspection. However, only one workers' representative at a time may accompany the inspectors.

(f) With the approval of the licensee and the workers' representative an individual who is not routinely engaged in licensed activities under control of the license, for example, a consultant to the licensee or to the workers' representative, shall be afforded the opportunity to accompany Commission inspectors during the inspection of physical working conditions.

(g) Notwithstanding the other provisions of this section, Commission inspectors are authorized to refuse to permit accompaniment by any individual who deliberately interferes with a fair and orderly inspection. With regard to areas containing information classified by an agency of the U.S. Government in the interest of national security, an individual who accompanies an inspector may have access to such information only if authorized to do so. With regard to any area containing proprietary information, the workers' representative for that area shall be an individual previously authorized by the licensee to enter that area.

§ 19.15 Consultation with workers during inspections.

(a) Commission inspectors may consult privately with workers concerning matters of occupational radiation protection and other matters related to applicable provisions of Commission regulations and licenses to the extent the inspectors deem necessary for the conduct of an effective and thorough inspection.

(b) During the course of an inspection any worker may bring privately to the attention of the inspectors, either orally or in writing, any past or present condition which he has reason to believe may have contributed to or caused any violation of the act, the regulations in this chapter, or license condition, or any unnecessary exposure of an individual to radiation from licensed radioactive material under the licensee's control. Any such notice in writing shall comply with the requirements of § 19.16(a).

(c) The provisions of paragraph (b) of this section shall not be interpreted as authorization to disregard instructions pursuant to § 19.12.

§ 19.16 Requests by workers for inspections.

(a) Any worker or representative of workers who believes that a violation of the Act, the regulations in this chapter, or license conditions exists or has occurred in license activities with regard to radiological working conditions in which the worker is engaged, may request an inspection by giving notice of the alleged violation to the Director of Regulatory Operations, to the Director of the appropriate Commission Regional Office, or to Commission inspectors. Any such notice shall be in writing, shall set forth the specific grounds for the notice, and shall be signed by the worker or representative of workers. A copy shall be provided the licensee by the Director of Regulatory Operations, Regional Office Director, or the inspector no later than at the time of inspection except that, upon the request of the worker giving such notice, his name and the name of individuals referred to therein shall not appear in such copy or on any record published, released, or made available by the Commission, except for good cause shown.

(b) If, upon receipt of such notice, the Director of Regulatory Operations or Regional Office Director determines that the complaint meets the requirements set forth in paragraph (a) of this section, and that there are reasonable grounds to believe that the alleged violation exists or has occurred, he shall cause an inspection to be made as soon as practicable, to determine if such alleged violation exists or has occurred. Inspections pursuant to this section need not be limited to matters referred to in the complaint.

(c) No licensee shall discharge or in any manner discriminate against any worker because such worker has filed any complaint or instituted or caused to be instituted any proceeding under the regulations in this chapter or has testified or is about to testify in any such proceeding or because of the exercise by such worker on behalf of himself or others of any option afforded by this part.

§ 19.17 Inspections not warranted; informal review.

(a) If the Director of Regulatory Operations or of the appropriate Regional Office determines, with respect to a complaint under § 19.16, that an inspection is not warranted because there are no reasonable grounds to believe that a violation exists or has occurred, he shall notify the complainant in writing of such determination. The complainant may obtain review of such determination by submitting a written statement of position with the Director of Regulation, U.S. Atomic Energy Commission, Washington, D.C. 20545, who will provide the licensee with a copy of such statement by certified mail, excluding, at the request of the complainant, the name of the complainant. The licensee may submit an opposing written statement of position with the Director of Regulation who will provide the complainant with a copy of such statement by certified mail. Upon the request of the complainant, the Director of Regulation or his designee may hold an informal conference in which the complainant and the licensee may orally present their views. An informal conference may also be held at the request of the licensee, but disclosure of the identity of the complainant will be made only following receipt of written authorization from the complainant. After considering all written and oral views presented, the Director of Regulation shall affirm, modify, or reverse the determination of the Director of Regulatory Operations or of the appropriate Regional Office and furnish the complainant and the licensee a written notification of his decision and the reason therefor.

(b) If the Director of Regulatory Operations or of the appropriate Regional Office determines that an inspection is not warranted because the requirements of § 19.16(a) have not been met, he shall notify the complainant in writing of such determination. Such determination shall be without prejudice to the filing of a new complaint meeting the requirements of § 19.16(a).

§ 19.30 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the Act or any regulation or order issued thereunder. A court order may be obtained for the payment of a civil penalty imposed pursuant to section 234 of the Act for violation of section 53, 57, 62, 63, 81, 82, 101, 103, 104, 107, or 109 of the Act or any rule, regulation, or order issued thereunder, or any term, condition or limitation of any license issued thereunder, or for any violation for which a license may be revoked under section 186 of the Act. Any person who willfully violates any provision of the Act or any regulation or order issued thereunder may be guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both, as provided by law.

§ 19.31 Application for exemptions.

The Commission may, upon application by any licensee or upon its own initiative, grant such exemptions from the requirements of the regulations in this part as it determines are authorized by law and will not result in undue hazard to life or property.

(Secs. 53, 63, 81, 103, 104, 161, 68 Stat. 930, 933, 936, as amended, 937, 948; 42 U.S.C. 2073, 2093, 2111, 2133, 2134, 2201)

Dated at Germantown, Maryland this 9th day of August 1973.

For the Atomic Energy Commission.

GORDON M. GRANT,
Acting Secretary of the Commission.

PART 20—STANDARDS FOR PROTECTION AGAINST RADIATION

Reports to Employees and Other Individuals

The Atomic Energy Commission published a notice in the FEDERAL REGISTER on January 4, 1973 (38 FR 805) that it had under consideration proposed amendments to 10 CFR Part 20 of the Commission's regulations. The amendments would transfer from 10 CFR Part 20 certain sections that would be incorporated in the new 10 CFR Part 19, and would add to 10 CFR Part 20 appropriate references to new 10 CFR Part 19 so that the transferred provisions could be easily found. A new section would be added containing the requirements for notification and reports to individuals which could include persons other than employees. The requirements for reports to individuals as specified in §§ 20.405(c) and 20.408 would be combined into one paragraph of the new section. Interested persons were invited to submit written comments or suggestions for consideration in connection with the proposed amendments within 45 days after publication of the notice of proposed rulemaking in the FEDERAL REGISTER.

After consideration of the comments received, the Commission has adopted the proposed amendments. Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of title 5 of the United States Code, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Part 20 are published as a document subject to codification, to be effective on September 17, 1973.

Concurrently with publication of this notice, the Atomic Energy Commission is publishing a new part to its regulations, 10 CFR Part 19, Notices, Instructions and Reports to Workers; Inspections.

1. Section 20.206 is amended to read as follows:

§ 20.206 Instruction of personnel.

Instructions required for individuals working in or frequenting any portion of a restricted area are specified in § 19.12 of this chapter.

§ 20.404 [Deleted]

2. Section 20.404 is deleted.

§ 20.405 [Amended]

3. Paragraph (c) of § 20.405 is deleted.

§ 20.406 [Deleted]

4. Section 20.406 is deleted.

§ 20.408 [Amended]

5. Section 20.408 is amended to delete the words "to such individual and".

6. A new § 20.409 is added to read as follows:

§ 20.409 Notifications and reports to individuals.

(a) Requirements for notifications and reports to individuals of exposure to radiation or radioactive material are specified in § 19.13 of this chapter.

(b) When a licensee is required pursuant to §§ 20.405 or 20.408 to report to the Commission any exposure of an individual to radiation or radioactive material, the licensee shall also notify the individual. Such notice shall be transmitted at a time not later than the transmittal to the Commission, and shall comply with the provisions of § 19.13(a) of this chapter.

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Dated at Germantown, Maryland, this 10th day of August 1973.

For the Atomic Energy Commission.

GORDON M. GRANT,
Acting Secretary of the Commission.

[FR Doc.73-17080 Filed 8-16-73;8:45 am]

MISCELLANEOUS AMENDMENTS TO CHAPTER

Notice is hereby given of the amendment of 10 CFR Parts 31, 34, 35, 40, 70, 115, and 150.

Concurrently with the publication of this notice, the Atomic Energy Commission is publishing a new part to its regulations, 10 CFR Part 19, Notices, Instructions and Reports to Workers; Inspections. Certain sections that formerly appeared in 10 CFR Part 20 have been transferred to 10 CFR Part 19. In 10 CFR Parts 31, 34, 35, 40, 70, 115, and 150, references to 10 CFR Part 20 are made. The amendments which follow add 10 CFR Part 19 where each reference to a transferred section of 10 CFR Part 20 is made.

Other sections of the new 10 CFR Part 19 provide options to workers concerning inspections of working conditions regulated by the Commission comparable to those that are afforded for working conditions regulated by the Department of Labor pursuant to the Occupation Safety and Health Act of 1970, as set out in 29 CFR Part 1903. The amendments to 10 CFR Parts 31, 35 and 40 which follow exempt certain holders of general licenses from the requirements of 10 CFR Part 19 as well as from 10 CFR Part 20. The amendment to 10 CFR Part 34 requires licensees to provide radiographers with copies of, and instruction in applicable sections of, 10 CFR Part 19 as well as 10 CFR Part 20. The amendments to 10 CFR Parts 70 and 150 subject certain general licensees under those parts to the provisions of 10 CFR Part 19 as well as to 10 CFR Part 20. The amendment to 10 CFR Part 115 subjects persons authorized to operate certain Commission-owned nuclear reactors to the provisions of 10 CFR Part 19 as well as 10 CFR Part 20.

Because these amendments relate solely to clarification and consistency with existing regulations, the Commission has found that notice of proposed rulemaking and public procedure thereon are unnecessary.

Accordingly, pursuant to the Atomic Energy Act of 1954, as amended, the following amendments of 10 CFR Parts 31, 34, 35, 40, 70, 115 and 150 of the Commission's regulations are published as a document subject to codification, to be effective on September 17, 1973.

PART 31—GENERAL LICENSES FOR BYPRODUCT MATERIAL

1. Paragraph (a) of § 31.2 of 10 CFR Part 31 is amended to read as follows:

§ 31.2 Terms and conditions.

(a) The general licenses provided in this part are subject to the provision of §§ 30.14(d), 30.34(a) to (e), 30.51 to 30.63 and Parts 19, 20 and 36 of this chapter[1] unless indicated otherwise in the language of the general license.

• • • • •

2. Subparagraph (7) of § 31.5(d) of 10 CFR Part 31 is amended to read as follows:

§ 31.5 Certain measuring, gauging or controlling devices.

• • • • •

(d) Persons who own, receive, acquire, possess or use a device pursuant to the general license contained in this section:

• • • • •

(7) Shall be exempt from the requirements of Parts 19 and 20 of this chapter, except that such persons shall comply with the provisions of §§ 20.402 and 20.403 of this chapter.

• • • • •

§ 31.7 [Amended]

3. Paragraph (b) of § 31.7 of 10 CFR Part 31 is amended by deleting "Part 20 of this chapter" and substituting therefor "Parts 19 and 20 of this chapter".

§ 31.8 [Amended]

4. Paragraph (c) of § 31.8 of 10 CFR Part 31 is amended by deleting "Part 20 of this chapter" and substituting therefor "Parts 19 and 20 of this chapter".

5. Subparagraph (3) of § 31.10(b) of 10 CFR Part 31 is amended to read as follows:

§ 31.10 General license for strontium 90 in ice detection devices.

• • • • •

(b) Persons who own, receive, acquire, possess, use or transfer strontium 90 contained in ice detection devices pursuant to the general license in paragraph (a) of this section:

• • • • •

(3) Are exempt from the requirements of Parts 19 and 20 of this chapter except that such persons shall comply with the provisions of §§ 20.301, 20.402, and 20.403 of this chapter.

• • • • •

§ 31.11 [Amended]

6. Paragraph (f) of § 31.11 of 10 CFR Part 31 is amended by deleting "Part 20 of this chapter" and substituting therefor "Parts 19 and 20 of this chapter".

PART 34—LICENSES FOR RADIOGRAPHY AND RADIATION SAFETY REQUIREMENTS FOR RADIOGRAPHIC OPERATIONS

7. Subparagraph (2) of § 34.31(a) of 10 CFR 34 is amended to read as follows:

§ 34.31 Limitations.

(a) The licensee shall not permit any person to act as a radiographer until such person:

• • • • •

(2) Has received copies of and instruction in the regulations contained in this part and in the applicable sections of Parts 19 and 20 of this chapter, AEC license(s), and the licensee's operating and emergency procedures, and shall have demonstrated understanding thereof; and

• • • • •

PART 35—HUMAN USES OF BYPRODUCT MATERIAL

§ 35.31 [Amended]

8. Paragraph (e) of § 35.31 of 10 CFR Part 35 is amended by deleting "Part 20 of this chapter" and substituting therefor "Parts 19 and 20 of this chapter".

PART 40—LICENSING OF SOURCE MATERIAL

§ 40.22 [Amended]

9. Paragraph (b) of § 40.22 of 10 CFR Part 40 is amended by deleting "Part 20 of this chapter" and substituting therefor "Parts 19 and 20 of this chapter".

PART 70—SPECIAL NUCLEAR MATERIAL

§ 70.19 [Amended]

10. Paragraph (c) of § 70.19 of 10 CFR Part 70 is amended by deleting "Part 20 of this chapter" and substituting therefor "Parts 19 and 20 of this chapter".

PART 115—PROCEDURES FOR REVIEW OF CERTAIN NUCLEAR REACTORS EXEMPTED FROM LICENSING REQUIREMENTS

11. Paragraph (b) of § 115.80 of 10 CFR Part 115 is amended to read as follows:

§ 115.80 Applicability of other regulations.

• • • • •

(b) Each holder of an authorization shall comply with the provisions of Parts 19 and 20 of this chapter to the same extent as if such authorization were a license issued under Part 50 of this chapter.

• • • • •

PART 150—EXEMPTIONS AND CONTINUED REGULATORY AUTHORITY IN AGREEMENT STATES UNDER SECTION 274

12. The prefatory language of paragraph (b) of § 150.20 of 10 CFR Part 150 is amended to read as follows:

§ 150.20 Recognition of Agreement State licenses.

• • • • •

(b) Notwithstanding any provision to the contrary in any specific license issued by an Agreement State to a person who engages in activities in a non-Agreement State under a general license provided in this section, the general license provided in this section is subject to the provisions of §§ 30.14(d), 30.34, and 30.51 to 30.63 inclusive of Part 30 of this chapter; §§ 40.41, 40.61 to 40.63 inclusive, 40.71, and 40.81 of Part 40 of this chapter; and §§ 70.32, 70.51 to 70.56 inclusive, 70.61, 70.62, and 70.71 of Part 70 of this chapter; and to the provision of Parts 19, 20, 71, and Subpart B of Part 34 of this chapter. In addition any person who engages in activities in non-Agreement States under a general license provided in this section:

• • • • •

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Dated at Germantown, Maryland this 10th day of August, 1973.

For the Atomic Energy Commission.

GORDON M. GRANT,
Acting Secretary of the Commission.

[FR Doc.73-17082 Filed 8-16-73;8:45 am]

PART 50—LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

PART 55—OPERATORS' LICENSES

Requalification Requirements for Operating Personnel of Production and Utilization Facilities

On June 14, 1972, the Atomic Energy Commission published in the FEDERAL REGISTER (37 FR 11785) for public comment proposed amendments to 10 CFR Part 55, Operators' Licenses, which would (1) provide for the use of requalification programs for operating personnel as a condition of license renewal and (2) establish minimum requirements for requalification programs for production and utilization facility operators and senior operators.

All interested persons were invited to submit comments or suggestions in connection with the proposed amendments within 60 days after publication of the notice of proposed rulemaking in the FEDERAL REGISTER. After careful consideration of the comments received in response to the notice of proposed rule making and other factors involved, the Commission has decided to adopt the amendments in the form set out below. The amendments as adopted reflect the suggestions in a number of the comments. The principal changes from the proposed amendments are as follows:

1. A new § 50.34(b)(8) has been added which requires that each application for a license to operate a facility include a description and plans for implementation of an operator requalification program which, as a minimum, meets the requirements of Appendix A of Part 5.

2. A new § 50.54(i-1) has been added which:

a. Clarifies that Appendix A of Part 55 is applicable to requalification programs for operators and senior operators of all production and utilization facilities;

b. Specifies that within three months after issuance of an operating license the facility licensee shall have in operation an operator requalification program;

c. Provides that, notwithstanding the provisions of § 50.59, the licensee shall not, except as specifically authorized by the Commission, make a change in an approved operator requalification program by which the scope, time allotted for the program or frequency in conducting different parts of the program is decreased; and

d. Requires holders of operating licenses in effect on the effective date of these amendments to submit an operator requalification program for Commission approval and concurrently implement that program within three months after the effective date of the amendments.

3. Section 55.31 has been revised to require a licensee, who has not, for any reason, been actively performing the functions of an operator or a senior operator for a period of four months or longer, to demonstrate to the Commission that his knowledge and understanding of facility operation and administration are satisfactory before resuming his licensed duties as an operator or a senior operator.

4. Section 55.33 has been revised to permit the submission to the Commission in an application for license renewal filed within two years after the effective date of these amendments a statement as to partial completion of a requalification program in cases where an operator has not completed the entire program at the time of license renewal because of the time necessary for the facility licensee to implement the requalification program prescribed in the amendments. The operator will be required to submit a statement covering those portions of the requalification program which have been completed as of the date of the application.

5. A new Section 1 entitled, "Schedule," has been added to Appendix A and existing Sections 1 through 5 of Appendix A have been renumbered 2 through 6, respectively. New Section 1 requires the requalification program to be conducted for a continuous period not to exceed two years and upon conclusion to be promptly followed by successive requalification programs.

6. Section 2 of Appendix A entitled, "Lectures", has been revised to:

a. Permit the use of an annual written examination given to each operator or senior operator to form the basis for the lecture series. Only areas where improved knowledge is required of an operator need be covered in the lecture series;

b. Permit the use of training aids such as films and videotapes; and

c. Encourage individual study on the part of each operator, but provide that a requalification program based solely

V 38-159 AUG 17 73 XUM

upon the use of films, videotapes and individual study is not an acceptable substitute for a lecture series.

7. Section 3 of Appendix A entitled, "On-the-Job Training," has been revised to:

a. Permit the substitution of control manipulations which demonstrate skill and/or familiarity with plant control systems to satisfy the requirements that an operator manipulate the plant controls;

b. Require that for reactors, the plant control manipulations consist of at least 10 reactivity control manipulations in any combination of reactor startups, reactor shutdowns or other control manipulations which demonstrate skill and/or familiarity with reactivity control systems; and

c. Permit the required control manipulations to be performed on plant simulators which reproduce the general operating characteristics of the facility involved and which have arrangements and controls similar to that of the facility. This modification is intended to allow the use of simulators which are similar to but not identical to the controls of the production or utilization facility to which the requalifiation program applies.

8. Section 4 of Appendix A entitled, "Evaluation," has been revised to:

a. Permit the use of annual written examinations to form the basis for the formal lecture series coverage for each operator or senior operator;

b. Require that if a plant simulator is used in the evaluation portion of the requalification program, it accurately reproduce the operating characteristics of the facility involved and closely parallel the arrangement of instrumentation and controls of the facility; and

c. Require each licensed operator and senior operator to participate in an accelerated requalification program where evaluation of performance clearly indicates the need.

9. Section 5 of Appendix A entitled, "Records", has been revised to better specify the content of records to be maintained to document each licensed operator's and senior operator's participation in the requalification program.

10. Section 6 of Appendix A entitled, "Alternative Training Programs," has been revised to require Commission approval of alternative requalification programs conducted by persons other than the facility licensee.

11. A new Section 7 entitled "Applicability to Research and Test Reactors and Non-Reactor Facilities" has been added to:

a. Clarify the applicability of the requirements of Appendix A with regard to research and test reactors and non-reactor facilities, such as fuel reprocessing plants, and

b. Require that significant deviations from the provisions of Appendix A of Part 55 in a proposed requalification program for such facilities be justified when the program is submitted to the Commission for approval.

12. Minor editorial changes have also been made to 10 CFR Part 55.

Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of Title 5 of the United States Code, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Parts 50 and 55 are published as a document subject to codification to be effective on September 17, 1973.

1. A new subparagraph (8) is added to § 50.34(b) to read as follows:

§ 50.34 Contents of applications: Technical information.

* * * * *

(b) * * *

(8) A description and plans for implementation of an operator requalification program. The operator requalifiation program shall, as a minimum, meet the requirements for those programs contained in Appendix A of Part 55 of this chapter.

In § 50.54, a new paragraph (i–1) is added to read as follows:

§ 50.54 Conditions of licenses.

Whether stated therein or not, the following shall be deemed conditions in every license issued:

* * * * *

(i–1) Within three (3) months after issuance of an operating license, the licensee shall have in effect an operator requalification program which shall, as a minimum, meet the requirements of Appendix A of Part 55 of this Chapter. Notwithstanding the provisions of § 50.59 the licensee shall not except as specifically authorized by the Commission, make a change in an approved operator requalification program by which the scope, time allotted for the program or frequency in conducting different parts of the program is decreased. Holders of operating licenses in effect on September 17, 1973, shall within three months after September 17, 1973, submit for Commission approval an operator requalification program which shall, as a minimum, meet the requirements of Appendix A of Part 55 of this chapter and concurrently implement such a program.

* * * * *

3. In § 55.31, paragraph (e) is redesignated as paragraph (f) and a new paragraph (e) is added to read as follows:

§ 55.31 Conditions of the licenses.

Each license shall contain and is subject to the following conditions, whether stated in the license or not:

* * * * *

(e) If a licensee has not been actively performing the functions of an operator or senior operator for a period of four months or longer, he shall, prior to resuming activities licensed pursuant to this part, demonstrate to the Commission that his knowledge and understanding of facility operation and administration are satisfactory. The Commission may accept as evidence, a certification by an authorized representative of the facility licensee or by the holder of an operating authorization by which the licensee has been employed.

* * * * *

4. Paragraph (a) (4) and (5) of § 55.33 are redesignated as paragraph (a) (5) and (6), respectively; a new paragraph (a) (4) is added, and paragraph (c) (2) is revised to read as follows:

§ 55.33 Renewal of licenses.

(a) Application for renewal of a license shall be signed by the applicant and shall contain the following information:

* * * * *

(4) A statement that during the effective term of his current license the applicant has satisfactorily completed the requalification program for the facility for which operator or senior operator license renewal is sought. In the case of an application for license renewal filed within two years after September 17, 1973, if the facility licensee has not implemented the requalification program requirements in time for the applicant to complete an approved requalification program before the effective term of his current license expires, the applicant shall submit a statement showing his current enrollment in an approved requalification program and describing those portions of the program which he had completed by the date of his application for license renewal.

* * * * *

(c) The license will be renewed if the Commission finds that:

* * * * *

(2) (i) The licensee has been actively and extensively engaged as an operator or as a senior operator under his existing license, has discharged his responsibilities competently and safely, and is capable of continuing to do so.

(ii) The licensee has completed a requalification program or is presently enrolled in a requalification program if the completion of the requalification program will occur after the expiration of his license as provided in subparagraph (a) (4) of this section.

(iii) If the requirements of paragraph (c) (2) (i) and (ii) of this section are not met, the Commission may require the applicant for renewal to take a written examination or an operating test or both.

* * * * *

5. An Appendix A is added to Part 55 to read as follows:

APPENDIX A

REQUALIFICATION PROGRAMS FOR LICENSED OPERATORS OF PRODUCTION AND UTILIZATION FACILITIES

Introduction

Section 50.54 of 10 CFR Part 50 requires that individuals who manipulate controls of production and utilization facilities be licensed as operators by the Commission and that individuals who direct the licensed activities of licensed operators be licensed as senior operators in accordance with 10 CFR Part 55. Section 55.33 of 10 CFR Part 55 requires that each licensed individual demonstrate his continued competence every two years in order for his license to be renewed. Competence may be demonstrated, in lieu of reexamination, by satisfactory completion of a requalification program which has been reviewed and approved by the Commission.

Periodic requalification for all operators and senior operators of production and utilization facilities is necessary for the personnel to maintain competence, particularly to respond to abnormal and emergency situations. The complexity of design and operating modes of production and utilization facilities require that ongoing comprehensive requalification programs be conducted for all licensed operators and senior operators as a matter of sound principle and practice.

Licensed operators and senior operators of production and utilization facilities who have been actively and extensively engaged as operators or as senior operators shall participate in requalification programs meeting the requirements of this Appendix. Individuals who maintain operator or senior operator licenses for the purpose of providing backup capability to the operating staff shall participate in the requalification programs except to the extent that their normal duties preclude the need for specific retraining in particular areas. Licensed operators or senior operators whose licenses are conditioned to permit manipulation of specific controls only shall participate in those portions of the requalification program appropriate to the duties they perform.

The requalification program requirements involving manipulation of controls may be performed on the facility for which the operator is licensed. However, the use of a simulator as specified in Paragraphs 3e and 4d of this appendix is permissible and such use is encouraged.

Requalification Program Requirements

1. *Schedule.* The requalification program shall be conducted for a continuous period not to exceed two years, and upon conclusion shall be promptly followed, pursuant to a continuous schedule, by successive requalification programs.

2. *Lectures.* The requalification program shall include preplanned lectures on a regular and continuing basis throughout the license period in those areas where annual operator and senior operator written examinations indicate that emphasis in scope and depth of coverage is needed in the following subjects:

a. Theory and principles of operation.

b. General and specific plant operating characteristics.

c. Plant instrumentation and control systems.

d. Plant protection systems.

e. Engineered safety systems.

f. Normal, abnormal, and emergency operating procedures.

g. Radiation control and safety.

h. Technical specifications.

i. Applicable portions of Title 10, Chapter I, Code of Federal Regulations.

Other training techniques including films, videotapes and other effective training aids may also be used.

Individual study on the part of each operator shall be encouraged. However, a requalification program based solely upon the use of films, videotapes and/or individual study is not an acceptable substitute for a lecture series.

3. *On-the-job training.* The requalification program shall include on-the-job training so that:

a. Each licensed operator of a production or utilization facility manipulates the plant controls and each licensed senior operator either manipulates the controls or directs the activities of individuals during plant control manipulations during the term of their licenses. For reactor operators and senior operators, these manipulations shall consist of at least 10 reactivity control manipulations in any combination of reactor startups, reactor shutdowns or other control manipulations which demonstrate skill and/or familiarity with reactivity control systems.

b. Each licensed operator and senior operator has demonstrated satisfactory understanding of the operation of all apparatus and mechanisms and knows the operating procedures in each area for which he is licensed.

c. Each licensed operator and senior operator is cognizant of facility design changes, procedure changes, and facility license changes.

d. Each licensed operator and senior operator reviews the contents of all abnormal and emergency procedures on a regularly scheduled basis.

e. A simulator may be used in meeting the requirements of paragraphs 2a and 2b if the simulator reproduces the general operating characteristics of the facility involved, and the arrangement of the instrumentation and controls of the simulator is similar to that of the facility involved.

4. *Evaluation.* The requalification program shall include:

a. Annual written examinations which determine areas in which retraining is needed to upgrade licensed operator and senior operator knowledge.

b. Written examinations which determine licensed operators' and senior operators' knowledge of subjects covered in the requalification program and provide a basis for evaluating their knowledge of abnormal and emergency procedures.

c. Systematic observation and evaluation of the performance and competency of licensed operators and senior operators by supervisors and/or training staff members including evaluation of actions taken or to be taken during actual or simulated abnormal and emergency conditions.

d. Simulation of emergency or abnormal conditions that may be accomplished by using the control panel of the facility involved or by using a simulator. Where the control panel of the facility is used for simulation, the actions taken or to be taken for the emergency or abnormal condition shall be discussed; actual manipulation of the plant controls is not required. If a simulator is used in meeting the requirements of paragraph 4c, the simulator shall accurately reproduce the operating characteristics of the facility involved and the arrangement of the instrumentation and controls of the simulator shall closely parallel that of the facility involved.

e. Provisions for each licensed operator and senior operator to participate in an accelerated requalification program where performance evaluations conducted pursuant to paragraphs 4a through 4d clearly indicate the need.

5. *Records.* Records of the requalification program shall be maintained to document each licensed operator's and senior operator's participation in the requalification program. The records shall contain copies of written examinations administered, the answers given the licensee, results of evaluations and documentation of any additional training administered in areas in which an operator or senior operator has exhibited deficiencies.

6. *Alternative training programs.* The requirements of this appendix may be met by requalification programs conducted by persons other than the facility licensee if such requalification programs are similar to the program described in paragraphs 1 through 5, and the alternative program has been approved by the Commission.

7. *Applicability to research and test reactors and non-reactor facilities.* To accommodate specialized modes of operation and differences in control, equipment, and operator skills and knowledge, the requalification program for each licensed operator and senior operator of a research or test reactor or of a non-reactor facility shall conform generally but need not be identical to the requalification program outlined in paragraphs 1 through 6 of this appendix. However, significant deviations from the requirements of this appendix shall be permitted only if supported by written justification and approved by the Commission.

(Sec. 161 b., i., 68 Stat. 948 as amended; 42 U.S.C. 2201 (b), (i))

Dated at Germantown, Maryland this 10th day of August 1973.

For the Atomic Energy Commission.

GORDON M. GRANT,
Acting Secretary of the Commission.

[FR Doc.73-17000 Filed 8-16-73;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 72-SW-39; Amdt. 39-1704]

PART 39—AIRWORTHINESS DIRECTIVES

Bell Model 204B and 205A-1 Helicopters

Amendment 39-1470, 37 FR 12308, A.D. 72-13-6, required inspections for fatigue cracks and corrosion and for proper assembly and sealing of Tail Rotor Grip Assemblies on Bell Model 204B, 205A, and 205A-1 helicopters. After issuing Amendment 39-1470, several reports were recently received of fatigue cracks in the internal threaded portion of the tail rotor grips with service times varying from 610 hours to 1000 hours time in service. These cracks are possibly due to corrosion. In the interest of safety, the A.D. is being superseded by a new A.D. which requires replacement of all Tail Rotor Grip Assemblies, P/N 204-011-706 or 204-011-728, as applicable, prior to 500 hours total time in service, with the exception of those with 495 or more hours which must be replaced within the next 5 hours time in service. In addition, appropriate sealing of the grip assemblies is required and an inspection of the tail rotor grip bearings is required to assure that they are in a serviceable condition. The new A.D. does not include the Model 205A, since these aircraft have all been converted to the Model 205A-1.

Since a situation exits that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

V 38-159 AUG 17 73 XUM

BELL. Applies to Bell Model 204B and 205A-1 helicopters certificated in all categories.

Compliance required within 5 hours time in service after the effective date of this A.D. for tail rotor grips with 495 or more hours total time in service on the effective date of this A.D., and prior to attaining 500 hours time in service for tail rotor grips with less than 495 hours total time in service on the effective date of this A.D., except that the aircraft may be flown in accordance with FAR 21.197 to a base where the inspections can be performed.

To prevent possible failure of the tail rotor grips, P/N 204-011-706 or 204-011-728, as applicable, to preclude corrosion in the retaining threads of the tail rotor grip, and to assure serviceable condition of the tail rotor grip bearings, accomplish the following:

(a) Remove the tail rotor hub and blade assembly from the helicopter, remove the blades from the grips, and remove the grips from the hub assembly in accordance with the appropriate model maintenance manual.

(b) Remove the tail rotor grip bearings from each yoke spindle and inspect the bearings for roughness or seizure. If the bearings are rough and unserviceable, replace the bearings prior to next flight.

(c) Replace the tail rotor grips prior to next flight.

(d) Assemble the tail rotor hub and blade assembly as noted in Section VI of Model 204B Maintenance and Overhaul Instruction Manual, or Section III of Model 205A/205A-1 Maintenance and Overhaul Instruction Manual, as applicable. Apply sealant to the inboard end of each grip as specified in Bell Helicopter Co. Service Letter No. 204B-86/205A-68, dated 12 February 1971, or later FAA approved revision, or as specified by an equivalent method approved by the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Southwest Region, FAA. Balance the assembly as noted in the appropriate model maintenance manual.

(e) Install and track the tail rotor hub and blade assembly as noted in Section VI of Model 204B Maintenance and Overhaul Instruction Manual, or Section III of Model 205A/205A-1 Maintenance and Overhaul Instruction Manual, as applicable.

(f) The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to the Service Manager, Bell Helicopter Company, P.O. Box 482, Fort Worth, Texas 76101

These documents may also be examined at the Office of the Regional Counsel, Southwest Region, FAA, 4400 Blue Mound Road, Fort Worth, Texas, and at FAA Headquarters, 800 Independence Ave., S.W., Washington, D.C. A historical file on this A.D. which includes the incorporated material in full is maintained by the FAA at its headquarters in Washington, D.C., and at the Southwest Region Office in Fort Worth, Texas.

(Bell Helicopter Company Service Bulletin Nos. 204-05-73-2, Rev. A, and 205-05-73-4, Rev. A, dated July 25, 1973, pertain to this subject.)

This supersedes Amendment 39-1470, 37 FR 12308, A.D. 72-13-6.

This amendment becomes effective August 20, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958; 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act; 49 U.S.C. 1655(c).)

Issued in Fort Worth, Texas, on August 9, 1973.

The incorporation by reference provisions in this document were approved by the Director of the Federal Register on June 19, 1967.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.73-17129 Filed 8-16-73;8:45 am]

[Airspace Docket No. 73-SO-56]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Hopkinsville, Ky., transition area.

The Hopkinsville transition area is described in § 71.181 (38 FR 435). In the description, there is a 6.5-mile radius predicated on the center of Hopkinsville-Christian County Airport, and an extention predicated on the 081° bearing from Christian RBN which were designated to provide controlled airspace protection for IFR aircraft departing the airport and IFR aircraft executing the NDB Runway 26 Instrument Approach Procedure. The installation of the Christian RBN did not materialize and it is necessary to alter the Hopkinsville transition area to revoke the portion predicated on Hopkinsville-Christian County Airport and the portion predicated on Christian RBN. Since these amendments lessen the burden on the public, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 71.181 (38 FR 435), the Hopkinsville, Ky., transition area is amended as follows: All after "(Lat. 36°37'15" N)" is deleted and "• • • (Long. 87°24'52" W • • •" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on August 8, 1973.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.73-17152 Filed 8-16-73;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart C—Food Additives Permitted in Feed and Drinking Water of Animals or for the Treatment of Food-Producing Animals

SUBCHAPTER C—DRUGS

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Tylosin

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (12-491V) filed by Elanco Products Co., P.O. Box 1750, Indianapolis, IN 46206, proposing that certain finished swine feeds containing tylosin not be required to comply with the provisions of section 512(m) of the Federal Food, Drug and Cosmetic Act. The supplemental application is approved.

This order also provides for recodification of the existing regulation concerning tylosin in feeds from Part 121 into Part 135e in accordance with § 3.517 (21 CFR 3.517).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) in accordance with § 3.517 and under authority delegated to the Commissioner (21 CFR 2.120), Parts 121 and 135e are amended as follows:

§ 121.217 [Revoked]

§ 121.225 [Amended]

1. In Part 121, § 121.217 is revoked and in § 121.225, subdivision (a)(3)(v) and paragraph (h) are revoked.

2. Part 135e is amended by adding two new §§ 135e.10 and 135e.36 as follows:

§ 135e.10 Tylosin.

(a) *Specifications.* Tylosin is the antibiotic substance produced by growth of *Streptomyces fradiae* or the same antibiotic substance produced by any other means.

(b) *Approvals.* Premix levels of 10, 40, and 100 grams per lb. granted to 014 in § 135.501(c) of this chapter.

(c) *Assay limits.* Finished feed not less than 75 percent nor more than 125 percent of labeled amount.

(d) *Special considerations.* (1) Maximum level approved in a medicated concentrate: chickens 200 grams per ton; swine 500 grams per ton.

(2) Finished swine feeds processed from premixes containing 10 grams per pound of tylosin (as tylosin phosphate) and conforming to the requirements of paragraph (f)(1) of this section, item 4 of this section are not required to comply with the provisions of section 512 (m) of the Federal Food, Drug, and Cosmetic Act.

(e) *Related tolerances.* See § 135g.15 of this chapter.

(f) *Conditions of use.* (1) It is used as follows:

Principal Ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
1. Tylosin	4-50			For chickens; as tylosin phosphate	For increased rate of weight gain and improved feed efficiency.
2. Tylosin	3.2-50	Penicillin		For chickens; 1.2 parts of penicillin to 2.0 parts of tylosin; as tylosin phosphate and procaine penicillin.	For increased rate of weight gain and improved feed efficiency.
3. Tylosin	20-50			For laying chickens; as tylosin phosphate.	For improved feed efficiency.
4. Tylosin	10-100			For swine; as tylosin phosphate; continuous use as follows:	For increased rate of weight gain and improved feed efficiency.
				Grams per ton	
				20-100	Prestarter or starter.
				20-40	Grower
				10-20	Finisher
5. Tylosin	10-100	Streptomycin		For swine in a combination containing tylosin and streptomycin in a 1 to 1 ratio; as tylosin phosphate and streptomycin sulfate, as follows:	For increased rate of weight gain and improved feed efficiency.
				Grams per ton	
				40-100	Up to 40 lb. animal weight.
				20-40	41-100 lb. animal weight.
				10-20	Over 100 lb. to market weight.
6. Tylosin	40-100			For swine; as tylosin phosphate; 3 weeks followed by 40 g. per ton until market weight; as tylosin phosphate.	Prevention of swine dysentery (vibrionic).
7. Tylosin	40-100			For swine; administer in feed as sole ration; as tylosin phosphate after treatment with tylosin in drinking water as tylosin base, 0.25 g. per gallon in drinking water for 3-10 days, 40-100 g. per ton in feed for 2-5 weeks.	Treatment and control of swine dysentery (vibrionic).
8. Tylosin	100			For swine; as tylosin phosphate	Maintaining weight gain and feed efficiency in the presence of atrophic rhinitis.
9. Tylosin	800-1,000			For broiler chickens; as tylosin phosphate; withdraw 5 days before slaughter; administer in feed to chickens 0 to 5 days of age, followed with second administration in feed for 24-48 hours at 3 to 5 weeks of age.	To aid in the control of chronic respiratory disease caused by *Mycoplasma gallisepticum.*
10. Tylosin	1,000			For replacement chickens; as tylosin phosphate; withdraw 5 days before slaughter; administer in feed to chickens 0 to 5 days of age, followed with second administration in feed for 24 to 48 hours at 3 to 5 weeks of age.	To aid in the control of chronic respiratory disease caused by *Mycoplasma gallisepticum.*

(2) Tylosin may also be used with:

(i) Zoalene as in § 121.207

(ii) Hygromycin B as in § 121.213

(iii) Amprollium as in § 121.210

§ 135e.36 Tylosin and sulfamethazine.

(a) *Specifications.* (1) Tylosin is the antibiotic substance produced by growth of *Streptomyces fradiae* or the same antibiotic substance produced by any other means.

(2) Sulfamethazine is the chemical N'-(4,6-dimethyl-2-pyrimidinyl) sulfanilamide.

(b) *Approvals.* Premix levels of 10 grams of tylosin per pound and 2.2 percent of sulfamethazine and 40 grams of tylosin per pound and 8.8 percent of sulfamethazine have been granted to Code No. 014 in § 135.501(c) of this chapter.

(c) *Assay limits.* Finished feed must contain not less than 75 percent nor more than 125 percent of tylosin and not less than 80 percent nor more than 120 percent of sulfamethazine.

Principal Ingredient	Grams per ton	Limitations	Indications for use
Tylosin and sulfamethazine.	100 100	For swine; as tylosin phosphate; withdraw 5 days before slaughter.	Maintaining weight gains and feed efficiency in the presence of atrophic rhinitis; lowering the incidence and severity of swine dysentery (vibrionic); control of swine pneumonias caused by bacterial pathogens (*P. multocida* and/or *C. pyogenes*); for reducing the incidence of bacterial enteritis caused by susceptible strains of Group E Streptococci. Only the sulfamethazine portion of this combination is active in controlling joint abscesses.

(d) [Reserved].

(e) *Related tolerances.* See §§ 135g.15 and 135g.27.

(f) *Conditions of use.* It is used as follows:

Effective date. This order shall be effective August 17, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: August 8, 1973.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[FCC 73-855]

PART 1—PRACTICE AND PROCEDURE

Forfeiture Checks

1. Our rules currently provide that checks submitted to us in payment of forfeiture are to be made payable to the Order of the Treasurer of the United States. The Treasury Department, however, has instructed agencies to cause remittors to inscribe checks to the Order of the specific agency and not to the Treasurer of the United States. We, therefore, herein amend our rules to substitute "Federal Communications Commission" in place of "Treasurer of the United States" as the payee set forth in §§ 1.80(g)(1), 1.80(i), 1.621(e), 1.991(b)(1) and 1.991(c) covering payment of forfeitures.

2. The amendments adopted herein are procedural in nature, and, hence, the prior notice, procedure, and effective date provisions of 5 U.S.C. § 553 are not applicable.

3. *Accordingly, it is ordered,* Effective August 21, 1973, pursuant to authority contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, and § 0.231(d) of the Commission's rules and regulations, that Part 1 is amended as set forth in the appendix attached hereto.

(Secs. 4, 303 48 Stat., as amended 1066, 1082; 47 U.S.C. 154, 303)

Adopted: August 8, 1973.

Released: August 13, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] VINCENT J. MULLINS,
Acting Secretary.

Part 1 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

Section 1.80(g)(1) and (i) are revised to read as follows:

[1] Commissioners H. Rex Lee, Reid and Hooks absent.

V.38-159 AUG 17 73 XUM

§ 1.80 Forfeiture proceedings (excluding those pertaining to broadcast licensees and permittees or ships and ship masters).

• • • • • •

(g) • • •

(1) *Payment of the forfeiture in the amount specified in the notice of apparent liability.* The forfeiture should be paid by check or money order drawn to the Order of the Federal Communications Commission and should be mailed to the Federal Communications Commission, Washington, D.C. 20554. The Commission does not accept responsibility for cash payments sent through the mails.

• • • • • •

(i) *Commission action after written statement or interview.* After the submission of a written statement and/or after a personal interview, as prescribed in paragraphs (g) and (h) of this section, the Commission will consider all relevant information available to it. Based on such considerations, the Commission will (1) cancel the forfeiture, or (2) offer to reduce the amount of the forfeiture, or (3) require the forfeiture to be paid in full. A notice of such Commission action, stating the amount of the forfeiture (if any), and the date by which it must be paid, will thereupon be mailed to the station licensee or radio operator involved. The forfeiture in the amount stated shall be paid by check or money order drawn to the Order of the Federal Communications Commission, Washington, D.C. 20554. The Commission does not accept responsibility for cash payments sent through the mails.

• • • • • •

§ 1.621(e) is revised to read as follows:

§ 1.621(e) Forfeiture relating to broadcast licensees and permittees.

• • • • • •

(e) Payment of forfeitures shall be made by check or similar means drawn to the Order of the Federal Communications Commission and mailed to the Commission.

• • • • • •

§ 1.991 (b)(1) and (c) are revised to read as follows:

§ 1.991 Forfeitures against ships and shipmasters.

• • • • • •

(b) • • •

(1) Payment of the forfeiture in the amount specified in the Notice of Apparent Liability. The forfeiture should be paid by check or money order drawn to the Order of the Federal Communications Commission and should be mailed to the Federal Communications Commission, Washington, D.C. 20554. The Commission does not accept responsibility for cash payments sent through the mails.

• • • • • •

(c) Commission action after written statement. After the submission of a written statement, as prescribed in paragraph (b) of this section, the Commission will consider all relevant information available to it. Based on such considerations, the Commission will (1) cancel the forfeiture, (2) offer to reduce the amount of the forfeiture, or (3) require the forfeiture to be paid in full. Notice of such Commission action, stating the amount of the forfeiture (if any) and the date by which it must be paid, will thereupon be mailed to the shipowner and/or the shipmaster involved. The forfeiture in the amount stated shall be paid by check or money order drawn to the Order of the Federal Communications Commission and shall be mailed to the Federal Communications Commission, Washington, D.C. 20554. The Commission does not accept responsibility for cash payments sent through the mails.

• • • • • •

[FR Doc.73-17147 Filed 8-16-73;8:45 am]

PART 87—AVIATION SERVICES

Use of Land Mobile Frequencies on Aircraft

In the matter of amendment of Part 87 of the rules to cross-reference provisions in the Land Mobile Radio Services concerning use of Land Mobile frequencies on board aircraft.

1. On August 1, 1973, we released a Report and Order in Docket No. 19545 concerning the use of Land Mobile frequencies on board aircraft. That Report and Order amended Parts 89, 91 and 93 of the Commission's rules by including provisions specifying the conditions under which Land Mobile frequencies could be used on board aircraft. There is a need for the convenience of the public and subscribers to Part 87 of our rules, for a cross-reference in Part 87 of the rules to these new provisions in Parts 89, 91 and 93 of the rules. The attached Appendix amends Part 87 by including such a cross-reference and fulfills this need.

2. The amendment adopted herein is editorial in nature and hence the prior notice procedure and effective date provisions of section 4 of the Administrative Procedure Act, 5 U.S.C. 553, do not apply. Authority for the promulgation of the amendment is contained in section 4(i) and 303(r) of the Communications Act of 1934, as amended.

3. Accordingly, Part 87 of the Commission's rules is amended as shown below, effective August 21, 1973.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: August 7, 1973.

Released: August 7, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
JOHN M. TORBET,
Executive Director.

Part 87 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 87.183(bb) is added to read as follows:

§ 87.183 Frequencies available.

• • • • • •

(bb) For frequencies in the Land Mobile Services that may under certain specific circumstances be authorized for use on board aircraft, see §§ 89.156, 91.162 and 93.164.

[FR Doc.73-17148 Filed 8-16-73;8:45 am]

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

[Docket No. FI-195]

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether

the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

• • • • • • •

CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

SUBCHAPTER F—ENROLLMENT

PART 43h—PREPARATION OF A ROLL OF ALASKA NATIVES

Eligibility, Appeals, Deadline for Amending Enrollment Applications

Correction

In FR Doc. 73-16380 appearing at page 21403 in the issue of Wednesday, August 8, 1973, in the signature to the document, the title of Kent Frizzell reading "Secretary of the Interior", should read "Acting Secretary of the Interior".

Title 41—Public Contracts and Property Management

CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

SUBCHAPTER E—SUPPLY AND PROCUREMENT

[FPMR Amdt. E-131]

PART 101-32—GOVERNMENT-WIDE AUTOMATED DATA MANAGEMENT SERVICES

Computer Performance Evaluation and ADP Simulation

This amendment codifies the regulations on ADP simulation issued in FPMR Temporary Regulations E-23 and E-24. It provides policies and procedures for obtaining ADP simulation and computer performance evaluation services from the Federal Computer Performance Evaluation and Simulation Center and places restrictions on the use of simulation in the ADPE procurement process. It provides that data processing requirements shall not be described solely in terms of simulation criteria, that solicitations not require or imply use of a specific simulator and that offers not be rejected solely on the basis of simulation results. It precludes procurement of hardware and software performance monitors without the approval of the Federal Computer Performance Evaluation and Simulation Center.

The table of contents for Part 101-32 is amended to provide the following new and revised entries:

Sec.

101-32.408-1	Restrictions on the use of simulation in the ADPE procurement process.
101-32.805	Federal Computer Performance Evaluation and Simulation Center.

Subpart 101-32.14—Computer Performance Evaluation and ADP Simulation

101-32.1400	Scope of subpart.
101-32.1401	Definitions.
101-32.1402	Functions of the Federal Computer Performance Evaluation and Simulation Center.
101-32.1402-1	Services available.
101-32.1402-2	Joint Policy Committee for ADP Simulation.
101-32.1402-3	Policy for obtaining ADP simulation and computer performance evaluation services from the Federal Computer Performance Evaluation and Simulation Center.
101-32.1403	Procedures for obtaining ADP simulation and computer performance evaluation services from the Federal Computer Performance Evaluation and Simulation Center.
101-32.1404	GSA responsibilities.

Subpart 101-32.15—101-32.46 [Reserved]

Subpart 101-32.4—Procurement and Contracting

1. Section 101-32.403-1 is amended to read as follows:

§ 101-32.403-1 Automatic data processing equipment.

GSA makes selected ADPE available to agencies through requirements type contracts when such contracts will provide for substantially lower equipment costs. Where ADPE is available from GSA requirements type contracts, this source shall be used by all agencies as the primary source to satisfy needs in accordance with the provisions of such contracts. However, when such contract provisions require prior authorization from GSA before placing orders, the agency involved shall notify the General Services Administration (CDP), Washington, DC 20405. This will permit GSA to allocate the distribution of available ADPE on such contracts. Copies of the contracts (not contractors' price lists) are distributed to recipients of the schedule FSC Group 74, Part VI. Additional copies are available from GSA regional offices or from the address shown above. Except for use of GSA requirements type contracts and as indicated in § 101-32.403-4 with respect to the potential use of the ADP Fund, and except as indicated in Subpart 101.32.14 concerning the acquisition of hardware performance monitors, agencies may procure ADPE without prior GSA approval provided:

• • • • • •

2. Section 101-32.403-2 is amended to read as follows:

§ 101-32.403-2 Software.

Except for software performance monitoring packages covered by Subpart 101-32.14, agencies may procure software for use with ADPE without prior approval of GSA when:

• • • • • •

3. Section 101-32.408-1 is added as follows:

§ 101-32.408-1 Restrictions on the use of simulation in the ADPE procurement process.

This section sets forth restrictions on the use of computer system simulation in automatic data processing equipment (ADPE) procurement.

(a) A simulation input definition format shall not be used as the only means of describing data processing requirements in solicitation documents. Any such format shall be accompanied by a narrative description of the ADP objectives and workload and any available application logic diagrams.

(b) Solicitation documents shall not be structured in such a way as to require

V 38-159 AUG 17 73 XUM

offerors/bidders to use a specific computer system simulator in order to offer/bid.

(c) Generally, offers/bids shall not be considered to be nonresponsive or not acceptable solely on the basis of simulation results.

(d) Information concerning procurement policies and procedures for ADP simulation and computer performance evaluation services is in Subpart 101–32.14.

Subpart 101–32.8—Federal Data Processing Centers

Section 101–32.805 is added as follows:

§ 101–32.805 Federal Computer Performance Evaluation and Simulation Center.

Information concerning the Federal Computer Performance Evaluation and Simulation Center is contained in Subpart 101–32.14.

Subpart 101–32.14 is added as follows:

Subpart 101–32.14—Computer Performance Evaluation and ADP Simulation

§ 101–32.1400 Scope of subpart.

(a) This subpart establishes policies and procedures for obtaining the ADP simulation and computer performance evaluation services provided by the Federal Computer Performance Evaluation and Simulation Center.

(b) The provisions of this subpart apply to all Federal agencies. These provisions are not applicable to Government contractors.

§ 101–32.1401 Definitions.

(a) *Computer performance evaluation.* Computer performance evaluation is the measurement or simulation of system software and hardware performance in the normal processing environment in order to identify any possible improvements in portions of the systems software or modifications of hardware configuration.

(b) *ADP simulation.* ADP simulation is the physical or mathematical representation of all or part of a computer system (including software) used for predicting or evaluating performance.

§ 101–32.1402 Functions of the Federal Computer Performance Evaluation and Simulation Center.

The Federal Computer Performance Evaluation and Simulation Center is operated by the Department of the Air Force under a delegation of authority from the Administrator of General Services. It provides technical assistance, support, and service on a reimbursable basis throughout the Federal Government for simulation, analysis, and performance evaluation of automatic data processing systems and is the primary source of supply for these services.

§ 101–32.1402–1 Services available.

(a) Services available nationally are comprised of internal resources and contractual services for computer systems simulation and performance evaluation. These services include simulation languages and packages for computer system simulations, software and hardware monitors for computer system performance evaluation, and special software programs designed to support computer system simulation and performance evaluation efforts, such as accounting systems analysis and workload modeling. The Center's services also include personal services such as those provided by simulation analysts. If the Center is unable to fulfill the requirement or if the requirement can be more economically fulfilled through commercial sources, the Center will authorize procurement of services through the requesting agency's applicable procurement activity.

(b) The services that the Center provides to an agency are intended to be temporary in nature and in response to specific questions or problems. A continuous simulation and performance evaluation program in support of individual user operations was not intended when the Center was established.

§ 101–32.1402–2 Joint Policy Committee for ADP Simulation.

A Joint Policy Committee for ADP Simulation has been established to provide overall policy guidance for management of the Center. Representatives from the Department of Defense, Department of the Air Force, National Bureau of Standards, and the General Services Administration are permanent members of this committee. Temporary membership is extended to agencies that are major users of the services provided by the Center. The Joint Policy Committee reviews and approves rates for services provided by the Center and approves requests for equipment or services required for operation. Disagreements arising between users and the Center which cannot be resolved are to be referred to the Joint Policy Committee for resolution.

§ 101–32.1402–3 Policy for obtaining ADP simulation and computer performance evaluation and services From the Federal Computer Performance Evaluation and Simulation Center.

(a) The Center is the primary source of supply for Federal agencies for ADP simulation and computer performance evaluation requirements, services, and products, including but not limited to computer systems simulators and hardware and software monitors. The Center provides using agencies with these ADP services at the least possible cost to the Government.

(b) The Center authorizes or issues all Government contracts for ADP simulation and performance evaluation systems.

(c) The Center authorizes or issues all Government contracts for software and hardware computer performance monitors.

(d) The Center advises whether a particular contract or ADP schedule is an appropriate source of supply or whether a new negotiated competition or sole source procurement is necessary for services which it cannot provide.

(e) Until the Department of the Air Force informs GSA of its ability to contract on a mutually agreeable, reimbursable basis for all ADP simulation services, including hardware and software performance monitors, GSA may negotiate such contracts or ADP schedules. Any ADP simulation contracts/schedules issued by GSA will include provisions requiring that agencies contact the Center for authorization prior to ordering from these contracts/schedules.

§ 101–32.1403 Procedure for obtaining ADP simulation and computer performance evaluation services from the Federal Computer Performance Evaluation and Simulation Center.

(a) Agencies requiring ADP simulation, computer performance evaluation assistance, hardware performance monitors, or software performance monitoring packages may request needed services from the Center. The mailing address is: Department of the Air Force, Federal Computer Performance Evaluation and Simulation Center, Washington, DC 20330.

(b) The Center provides or authorizes the requested services by the lowest cost available alternative or combination of alternatives listed below:

(1) By providing services from its own resources on a reimbursable basis to the requesting agency;

(2) By procuring, on a reimbursable basis, the necessary support from commercial sources for the requesting agency;

(3) By authorizing the requesting agency's procurement activity to:

(i) Procure necessary support from the ADP schedule or other existing contractual instruments; or

(ii) Execute a contract for services on either a negotiated competition or sole source basis; or

(4) By recommending to GSA that GSA procure required resources or issue a delegation of procurement authority to the requesting agency where unusual legal or procurement policy issues so dictate.

(c) If no action is taken by the Center within 20 workdays after receipt of full information from an agency involving a request for services, the agency may proceed as if a delegation of authority had, in fact, been granted. (To establish a common understanding of the 20 workday period, the Center will provide written verification of the date of receipt of the request. This date is subject to written modification by the Center if after review it is found that the request does not contain the full information required, or if unusual circumstances surrounding the procurement dictate that a longer period of time is required for the Center to complete its appraisal.)

§ 101–32.1404 GSA responsibilities.

GSA will periodically reimburse the Department of the Air Force from the Automatic Data Processing Fund for its cost applicable to the operation of the Center. GSA will bill users for services provided by the Center.

Subpart 101–32.15—101–32.46—[Reserved]

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(a))

Effective date. This regulation is effective on August 17, 1973.

Dated: August 10, 1973.

ARTHUR F. SAMPSON,
Administrator of General Services.

[FR Doc.73–17196 Filed 8–16–73;8:45 am]

SUBCHAPTER G—TRANSPORTATION AND MOTOR VEHICLES

[FPMR Amdt. G–25]

PART 101–39—INTERAGENCY MOTOR VEHICLE POOLS

Miscellaneous Amendments

This amendment provides current organizational titles, references, and addresses in certain sections of the subchapter regarding policies and procedures governing the establishment and operation of the Motor Pool Systems.

The table of contents for Part 101–39 is amended to include the following revised entries:

Sec.
101–39.207–1 Appeals to the Office of Management and Budget.
101–39.207–3 Effect of the Office of Management and Budget decision.

Subpart 101–39.2—Determinations

Sections 101–39.204, 101–39.205, 101–39.207–1, 101–39.207.2, and 101–39.207–3 are revised to read as follows:

§ 101–39.204 Records, facilities, personnel, and appropriations.

Whenever a determination is made to establish a motor pool system, GSA, with the assistance of the affected agencies, will prepare and present to the Director of the Office of Management and Budget a schedule of such records, facilities, personnel, and appropriations, if any, that are proposed for transfer to the motor pool system. The Director of the Office of Management and Budget will determine the records, facilities, personnel, and appropriations, if any, to be transferred.

§ 101–39.205 Issuance of determination.

The Administrator of General Services will furnish a copy of each determination, with a copy of the schedule of proposed transfer of records, facilities, personnel, and appropriations, to the Director of the Office of Management and Budget, and to each agency affected.

§ 101–39.207–1 Apeals to the Office of Management and Budget.

Any executive agency may appeal or request exemption from any or all proposals affecting it which are contained in a determination. Appeals shall be submitted in writing within 45 calendar days from the date of the determination to the Director of the Office Management and Budget, with a copy to the Administrator of General Services. Such appeals shall be accompanied by factual and objective supporting data and justification.

§ 101–39.207–2 Notification of appeal decision.

The Director of the Office of Management and Budget will review any determination from which an executive agency has appealed and will make a final decision on such appeal. The Director of the Office of Management and Budget will make such decisions within 75 calendar days after he receives the appeal, or as soon thereafter as practicable, on the basis of information contained in the Administrator of General Services' determination, the executive agency appeal therefrom, and any supplementary data submitted by the Administrator and the contesting agency. The Director of the Office of Management and Budget will send copies of decisions to the Administrator and to the heads of other executive agencies concerned.

§ 101–39.207–3 Effect of the Office of Management and Budget decision.

The decision of the Director of the Office of Management and Budget upon each appeal, if he holds that the Administrator of General Services' determination shall apply in whole or in part to the appealing agency, will state the extent to which the determination applies and the effective date of its application. To the extent that the decision on an appeal does not uphold the Administrator's determination, such determination will be of no force and effect.

Subpart 101–39.3—Motor Vehicle Exemptions

Section 101–39.302(d)(3) is revised to read as follows:

§ 101–39.302 Unlimited exemptions.

* * * * *

(3) Motor vehicles regularly used by the United States Postal Service for the distribution and transportation of mail.

Subpart 101–39.4—Establishment, Modification, and Discontinuance of Motor Pools

Sections 101–39.403–1, 101–39.403–2(b), 101–39.404.2, 101–39.404–4(b), and 101–39.404–5 are revised to read as follows:

§ 101–39.403–1 Provision for transfer.

All Government-owned motor vehicles acquired by executive agencies for official purposes which are operated, stored, or garaged within the designated area of a motor pool system (except those specifically exempt by Subpart 101–39.3 of this part, or by the determination of the Administrator of General Services, or by the decision of the Director of the Office of Management and Budget), and other related equipment and supplies shall, when requested by the Administrator in accordance with a determination, be transferred to the control and responsibility of the motor pool system. Facilities, personnel, records, and appropriations, as determined by the Director of the Office of Management and Budget pursuant to § 101–39.204, shall be included in the transfer.

§ 101–39.403–2 Documentation of transfer.

* * * * *

(b) Forward a signed copy to the appropriate regional Office of Administration, General Services Administration;

* * * * *

§ 101–39.404–2 Notification of discontinuance or curtailment of service.

The Administrator of General Services may discontinue or curtail a motor pool system when he determines that it is not the most economical method of rendering required motor vehicle service; but he will give at least 60 calendar days' notice of such intention to executive agencies affected and to the Director of the Office of Management and Budget before taking such action.

§ 101–39.404–4 Agency requests to withdraw participation.

* * * * *

(b) If the Administrator does not agree with such request and is unable to make arrangements which are mutually acceptable to him and to the head of the executive agency concerned, the agency's request for discontinuance or modification and the Administrator's reasons for not agreeing with the request will be forwarded to the Director of the Office of Management and Budget, who will make a final and binding decision.

§ 101–39.404–5 Transfers from discontinued or curtailed motor pool systems.

When a motor pool system is discontinued or curtailed, such transfers of vehicles and related equipment and supplies, personnel, records, facilities, and funds as may be appropriate will be made, subject to the approval of the Director of the Office of Management and Budget. Reimbursement for motor vehicles and related equipment and supplies acquired by GSA through expenditure made from, and not theretofore reimbursed to the General Supply Fund, or any revolving or trust fund authorized by law, shall be made by the agency receiving the motor vehicles and related equipment and supplies by an amount equal to the fair market value, as required by law (40 U.S.C. 491(g)).

Subpart 101–39.6—Official Use of Government Motor Vehicles and Related Motor Pool Services

Section 110–39.603–1 is revised to read as follows:

§ 101–39.603–1 Notification of violation.

When a violation of the provisions of § 101–39.602 comes to the attention of the agency operating the motor pool system, such agency shall notify the official in charge of the local office of the agency concerned, and furnish a copy of the notification to the General Services Administration (FZ), Washington, DC

V 38-159 AUG 17 73 XUM

20406, for transmission to he headquarters office of the agency concerned.

Subpart 101–39.7—Care of Vehicles

Section 101–39.706 is revised to read as follows:

§ 101–39.706 Modification or installation of accessory equipment.

The modification of an interagency motor pool vehicle or the installation of accessory equipment on such vehicle can be accomplished only when approved by the General Services Administration. The request for such modifications and installations shall be forwarded to the appropriate regional Director, Motor Equipment Division, Federal Supply Service, General Services Administration, for consideration.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. These regulations are effective on August 24, 1973.

Dated: August 10, 1973.

ARTHUR F. SAMPSON,
Administrator of General Services.

[FR Doc.73–17195 Filed 8–16–73;8:45 am]

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT

SUBCHAPTER C—MINERALS MANAGEMENT (3000)

[Circular No. 2348]

PART 3110—NONCOMPETITIVE LEASES

Subpart 3112—Simultaneous Offers

OFFER TO LEASE

On page 1281 of the FEDERAL REGISTER of January 11, 1973, there was published a notice and text of a proposed amendment to Subpart 3112 of Title 43, Code of Federal Regulations. The purpose of the amendment is (a) to clarify the regulation by specifying that an applicant may file only one lease application on any parcel offered under the simultaneous oil and gas leasing procedures and (b) to eliminate the requirement that advance rental must be submitted with simultaneous lease offers. Interested persons were given until May 15, 1973, to submit comments, suggestions, or objections to the proposed amendment. Fifty-eight comments were received. Most comments favored adoption of the clarifying amendment described in (a) above. Several persons did suggest that the requirement for including a $10.00 filing fee be stated clearly in the regulation. Section 3112.2–1 (a) (1) now sets forth that requirement.

Twenty-eight persons commenting on (b) above favored elimination of the advance rental provision and thirty opposed adoption of the regulation amendment. Some of the comments offered suggestions for improving the proposed regulations. Two of those suggestions have been adopted. Seven persons suggested that at least three alternates be drawn for each offered parcel to reduce the need for a redrawing. Section 3112.2–1(a)(3) provides for the drawing of three cards. Eighteen persons questioned the legality and wisdom of issuing a lease to a drawee in advance of receipt of the first year's rental. Section 3112.4–1 requires that the first year's rental be received in the proper office of the Bureau of Land Management within 15 days of receipt of a notice that such rental is due. Upon receipt of the rental, the lease will be issued.

Several persons questioned the savings in administrative costs which will accrue to the Government by deleting the advance rental provision. Approximately 500,000 simultaneous oil and gas lease entry cards are filed annually. The advance rental remittance is microfilmed with the entry card and retained until the drawing. Since only about one percent of the applications lead to issuance of a lease, approximately 495,000 advance rentals are returned to the applicants. This requires substantial administrative controls to strictly account for and insure safekeeping of the funds pending their return. Under the new system, it will be necessary to return only the card. A redesign of the entry card to allow return of a portion of the card without the use of an envelope is being considered. Many objections to the proposal to delete the advance rental requirement stated that it will encourage uninformed applicants and speculators. That assertion can be tested only in actual practice.

The proposed amendment of January 11, 1973, did not address § 3112.5–3 dealing with the return of advance rental payments to unsuccessful applicants. That action required by paragraph (a) of the section will no longer be applicable. Paragraph (b) of § 3112.5–3 states "unsuccessful drawees will be notified accordingly by the return of their respective entry cards." This provision is retained and incorporated into § 3112.2–1. The entire § 3112.5–3 is deleted from the regulations.

The proposed amendment is hereby adopted with the changes described above, and is set forth below. This amendment shall become effective September 17, 1973.

Subpart 3112 of Chapter II is amended as follows:

1. Subparagraphs (1), (2), (3) of paragraph (a) of § 3112.2–1 are revised and a subparagraph 4 is added to read as follows:

§ 3112.2–1 Offer to lease.

(a) • • •

(1) The entry card must be accompanied by a remittance covering the filing fee of $10. The filing fee may be paid in cash or by money order, bank draft, bank cashier's check or check.

(2) Only one complete leasing unit, identified by parcel number, may be included in one entry card. Lands not on the posted list may not be included. An offeror (applicant) is permitted to file only one offer to lease (entry card) for each numbered parcel on the posted list. Submission of more than one entry card by or on behalf of the offeror for any parcel on the posted list will result in the disqualification of all the offers submitted by that applicant for that particular parcel.

(3) Three entry cards will be drawn for each numbered leasing unit, and the order in which they are drawn will fix the order in which the successful drawee will be determined. Where less than three entry cards have been filed, all cards will be drawn to determine priority.

(4) Unsuccessful drawees will be notified by the return of their respective entry cards.

2. Section 3112.4–1 is revised to read as follows:

§ 3112.4–1 Rental payment.

A lease will be issued to the first drawee qualified to receive a lease upon payment of the first year's rental. Rental must be received in the proper office of the Bureau of Land Management within fifteen (15) days from the date of receipt of notice that such payment is due. The drawee failing to submit the rental payment within the time allowed will be automatically disqualified to receive the lease, and consideration will be given to the entry of the drawee having the next highest priority in the drawing.

3. Section 3112.5–1 is revised as follows:

§ 3112.5–1 Unqualified offeror.

If the successful drawees for a particular leasing unit are unqualified to receive the lease for any reason, including timely payment of the first year's rental, the lands in the numbered leasing unit shall be included in a subsequent list of lands available for filing under the simultaneous drawing procedure.

§ 3112.5–3 [Deleted]

4. Section 3112.5–3 is deleted.

JACK O. HORTON,
Assistant Secretary of the Interior.

AUGUST 15, 1973.

[FR Doc.73–17305 Filed 8–16–73;8:45 am]

Title 45—Public Welfare

SUBTITLE A—DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, GENERAL ADMINISTRATION

PART 5—AVAILABILITY OF INFORMATION TO THE PUBLIC

Miscellaneous Amendments

On March 30, the Department published a notice of proposed rulemaking proposing to amend 45 CFR Part 5 governing the release of records of the Department pursuant to the Freedom of Information Act. Comments were received from six persons or organizations.

One commentor objected to the regulation in general, stating that the Act speaks for itself and that "extensive effort at clarification and elaboration in the regulations causes confusion rather than clarity." We do not agree with this comment. The purpose of this Regulation is to provide clearer guidance to

Department employees and to those outside the Department concerning which records, as a matter of policy, will be released to the public. To the extent that a category is listed in the Regulation as generally non-releasable, Department employees are advised that the record should be examined to determine whether a discretionary release should be made. Such releases are encouraged as a matter of policy.

Several persons commented on the fee schedule. Notwithstanding the fact that the proposed $0.10 per page was a reduction in price from the $0.25 per page fee in effect since 1967, some felt that $0.10 a page for photo-copying was excessive and served to deter the release of information. The search charge has not been changed from the $3.00 an hour established in 1967, notwithstanding the fact that the cost of salaries has risen considerably since that time. None of the comments gave any relevant cost factors but merely stated that the government could obtain photo copies for less than $0.10 a page. These statements may be taking into account only the factors of paper and use of machines and may not take into consideration such factors as costs of salary, cost of fee collection, postage, and other indirect costs which the Office of Management and Budget in Circular A–25 provides should be taken into account. We, therefore, make no change in the fee schedule other than to provide that where records are not susceptible to photo-copying but must be reproduced by some other means, the charge to be fixed will be the actual cost as determined on a case-by-case basis.

Comments were received from persons having business with the Food and Drug Administration indicating a preference for the procedure proposed by the Food and Drug Administration to deal with trade secrets and other commercial and financial information. The Food and Drug Administration would permit those submitting information to identify the material it considers confidential and to intervene when the agency disagrees with the claim of confidentiality and proposes release of the records. It is not deemed practicable to institute such procedures on a Department-wide basis and to the extent that such persons deal with the Food and Drug Administration that procedure will be applicable to materials submitted to it.

Medicare fiscal intermediaries perform federal functions under Title 18 of the Social Security Act. By amendment, § 5.3 now defines "operating agency" to identify Social Security Administration, including Medicare fiscal intermediaries, as such an operating agency for purposes of the regulation.

Some confusion has apparently arisen as to the rules governing situations in which a document falls into more than one category. The purpose of the new format of the proposed regulation was to classify records by the various activities carried out by the Department rather than to tie types of records to particular exemptions under the Act, in order to provide more practical guidance to both employees and requestors. Nonetheless, it is obvious that any document may fall into more than one classification. Thus, correspondence from persons outside the Department which would normally be available under § 5.72(a) may in fact contain information of a commercial or financial nature which will not be available under § 5.71. Likewise, reports prepared by federal employees relating to internal management are not generally available because they will be intraagency or interagency communications. However, to the extent that such reports would contain non-factual information, such information will be excised and the document released to the requestor. These situations do not, in our view, impair the practical utility of the classification scheme.

With respect to a document which contains both information which is discloseable and information which is not discloseable, the proposed regulation at § 5.70 appeared to be ambiguous and has been amended to make clear that the non-discloseable information will be deleted and the balance of the record will be disclosed. Disclosure will be made whether or not the balance of the record is intelligible.

Section 5.51(c) is also changed to indicate that requests for information should be answered as soon as possible but in no event more than 10 working days from the date of receipt. Several comments suggested that, in keeping with the original proposal to set a time limit on initial requests, a time limit should also be within which appeals must be answered. The regulation now imposes a 20-day time limit for response to an appeal.

One request for a hearing was received. No hearing is required to be held under the Freedom of Information Act or the Administrative Procedure Act. Public participation has been invited by the notice of proposed rule-making. Inasmuch as the regulation constitutes a statement of Departmental policy no purpose would be served by the holding of a public hearing. The request for a hearing is therefore denied.

The regulation will be effective August 17, 1973.

Dated: August 14, 1973.

CASPAR W. WEINBERGER,
Secretary.

1. Section 5.3 is revised to read as follows:

§ 5.3 Operating agency.

As used in this part, "operating agency" means the constituent operating agencies of the Departement, i.e., the Center for Disease Control, the Health Resources Administration, the Health Services Administration, the National Institutes of Health, the Food and Drug Administration, the Office of Education, the National Institute of Education, the Social Security Administration (including itermediaries and carriers performing functions under their agreement entered into pursuant to section 1816 and 1842 of Social Security Act), and the Social and Rehabilitation Service. The Office of the Assistant Secretary for Health and the five health agencies, the Center for Disease Control, the Health Resources Administration, the Health Services Administration, the National Institutes of Health, and the Food and Drug Administration constitute the Public Health Service.

2. Section 5.4 is revised to read as follows:

§ 5.4 Heads of Office of Secretary and operating agencies.

The heads of the Office of the Secretary, the Public Health Service, and the operating agencies are as follows:

Office of the Secretary—Secretary of Health, Education, and Welfare.
Public Health Service—Assistant Secretary for Health.
Food and Drug Administration—Commissioner of Food and Drugs.
Center for Disease Control—Director, Center for Disease Control.
Health Resources Administration—Administrator, Health Resources Administration.
Health Services Administration—Administrator, Health Services Administration.
National Institutes of Health—Director, National Institutes of Health.
Office of Education—Commissioner of Education.
National Institute of Education—Director, National Institute of Education.
Social Security Administration—Commissioner of Social Security.
Social and Rehabilitation Service—Administrator, Social and Rehabilitation Service.

3. Section 5.11 is revised to read as follows:

§ 5.11 Purpose and scope.

This part constitutes the regulation of the Department respecting the availability to the public, pursuant to the Act, of records of the Department. It informs the public what records are generally available and where and how they may be obtained. To the extent that they are not inconsistent with this regulation, it does not revoke, modify, or supersede the following regulations of the Public Health Service, of the operating agencies, or of subsidiaries of operating agencies:

Public Health Service—42 CFR Part 1.
Food and Drug Administration—21 CFR Parts 1, 2, 4, 8, 121, 130, 135, 146, and 191 (see Notice of Proposed Rulemaking 37 FR 9128 May 5, 1972).
Saint Elizabeths Hospital, NIHM, PHS—42 CFR Part 300.
Social Security Administration—20 CFR Part 401 and Part 422, Subpart E.

4. Section 5.31 is amended to read as follows:

§ 5.31 Information centers or facilities.

• • • • • •

(b) • • •

• • • • • •

Region III—P.O. Box 13716, Philadelphia, PA 19101.

• • • • • •

Region X—Arcade Plaza Building, 1321 Second Avenue, Seattle, WA 98101.

(c) Centers are maintained for the Office of the Secretary and the operating agencies, or subsidiaries thereof, at the following locations:

V 38-159 AUG 17 73 XUM

Office of the Secretary	HEW North Building, 330 Independence Avenue SW., Washington, DC 20201.
Food and Drug Administration	Federal Building No. 8, 200 C Street SW., Washington, DC 20204.
National Institutes of Health	Building No. 1, 9000 Rockville Pike, Bethesda, MD 20014.
Center for Disease Control	Center for Disease Control, Atlanta, Georgia 30333.
Health Resources Administration	Parklawn Building, 5600 Fishers Lane, Rockville, MD 20852.
Health Services Administration	Parklawn Building, 5600 Fishers Lane, Rockville, MD 20852.
Office of Education	Federal Office Building No. 6, 400 Maryland Avenue SW., Washington, DC 20202.
Social Security Administration	Altmeyer Building, 6401 Security Boulevard, Baltimore, MD 21235.
Social and Rehabilitation Service	HEW North Building, 330 Independence Avenue SW., Washington, DC 20201.
Saint Elizabeths Hospital, National Institute of Mental Health, Public Health Service.	Administration Building, St. Elizabeths Hospital, Martin Luther King, Jr. Avenue SE., Washington, DC 20032.
National Institute of Education	Room 628, 300 7th St., SW., Washington, DC. [Mail inquiries to NIE should be addressed to Office of Public Information, National Institute of Education, Code 600, Washington, D.C. 20202]

5. Section 5.32(c) is revised to read as follows:

§ 5.32 Information center officers.

* * * * *

(c) The information center officer for each of the operating agency information centers shall have, concurrently with other duly authorized officers, a like responsibility for the records of his operating agency. The information center officer for the respective operating agencies shall be as follows:

Health Services Administration Center for Disease Control, Health Resources Administration, and National Institutes of Health.	Director of Public Services, Department Information Center Officer.
Food and Drug Administration	Assistant Commissioner for Public Affairs.
Office of Education	Assistant Commissioner for Public Affairs.
Social Security Administration	Assistant Commissioner for Public Affairs.
Social and Rehabilitation Service	Assistant Administrator for Public Affairs.
National Institute of Education	Assistant to the Director for Public Information.

* * * * *

6. Section 5.51(c) is revised to read as follows:

§ 5.51 Procedure.

* * * * *

(c) A request should identify the requested record by brief description, containing the name, number, or date as applicable, sufficient to enable the record to be identified and located. It is the policy of the Department that requests be answered as soon as possible but in no event more than 10 working days from date of receipt; however, a reasonable time should be allowed for records to be located, evaluated, reproduced, and mailed. If the action cannot be completed within 10 days, a letter will be sent to the requester explaining the reasons for the delay.

* * * * *

7. Section 5.61 is revised to read as follows:

§ 5.61 Fee schedules.

The fee schedule for Office of the Secretary is as follows:

1. Search for records—$3 per hour; provided however that no charge will be made for the first one-half hour.

2. Reproduction, duplication, or copying of records—10 cents per page; provided however that no charge will be made where the total amount does not exceed 50 cents and provided further that where records are not susceptible to photo-copying, e.g. punch cards or magnetic tapes, the amount charged will be actual cost, as determined on a case-by-case basis.

3. Certification or authentication of records—$3 per certification or authentication.

4. Forwarding material to destination—postage, insurance, and special fees will be charged on an actual cost basis.

Fee schedules for operating agencies may be found in the applicable agency regulations; see § 5.11.

8. Subpart F—Exemptions, is deleted and the following new Subpart F—Availability of Specific Records, is substituted in lieu thereof:

Subpart F—Availability of Specific Records

Sec.
5.70 Policy.
5.71 Protection of personal privacy and proprietary information.
5.72 Records available.
5.73 Records not available.
5.74 Further disclosure by agency head.

Subpart F—Availability of Specific Records

§ 5.70 Policy.

This subpart specifies the types of records which the Department shall, in keeping with its policy of fullest possible disclosure, make available for inspection and copying. For clarity and purposes of guidance, there are also set forth below the kinds or portions of records which generally will not be released, except as may be determined under § 5.74. The appendix to this part contains some examples of the kinds of materials which, in accordance with § 5.72, will generally be released and other materials which, in accordance with § 5.73, are not normally available. Regulations of the operating agencies (see § 5.11) may provide for disclosure of records beyond that provided for in § 5.72.

In the event that any record contains both information which is discloseable and that which is not discloseable under this regulation, the nondiscloseable information will be deleted and the balance of the record disclosed.

§ 5.71 Protection of personal privacy and proprietary information.

As set forth with more particularity below, certain types of information in whatever record or document contained shall not be disclosed where disclosure would be inconsistent with individual rights of personal privacy or would violate obligations of confidentiality.

(a) Except to the extent specifically otherwise provided by regulations of operating agencies, no disclosure will be made of information of a personal and private nature, such as information in personnel and medical files, in welfare and social security records and any other information of a private and personal nature.

(b) Except to the extent specifically otherwise provided by regulations of operating agencies, information having a commercial, financial, or professional value and in which the person providing the information has a proprietary interest will not be disclosed if it is in fact confidential. In determining whether such information is in fact confidential, consideration may be given to such factors as (1) the general custom or usage in the occupation or business to which the information relates that it be held confidential, (2) the number and situation of the individuals who have access to such information, (3) the type and degree of risk of financial injury to be expected if disclosure occurs, and (4) the length of time such information should be regarded as retaining the characteristics noted above.

(c) Information obtained by the Department from any individual or organization, who furnishes it in reliance upon a provision for confidentiality authorized by applicable statute or regulation, will not be disclosed. This subpart does not itself authorize the giving of any pledge of confidentiality by any officer or employee of the Department.

This section does not preclude use of nondisclosable records or information from such records for authorized program purposes, including law enforcement purposes and litigation. Release of information of the nature described in this section to the individual or the organization to whom the information pertains or to an authorized representative

of either will not be deemed a disclosure within the meaning of this part.

§ 5.72 Records available.

The following records of the Department shall, subject to the exceptions set forth in §§ 5.71 and 5.73, be available upon request for inspection and copying.

(a) *Correspondence.* Correspondence between the Department or any official of the Department and individuals or organizations outside the executive branch of the Federal Government relating to or resulting from the conduct of the official business of the Department.

(b) *Records pertaining to grants.* (1) Portions of funded grant applications and other supporting documents submitted by applicants which are not excepted from disclosure by this subpart.

(2) Grant award documents.

(3) All State plans, amendments, and supplements thereto, including applications for the waiver of any provision thereof whether acted upon by the Department or not.

(c) *Contracts.* (1) Contract instruments.

(2) Portions of offers reflecting final prices submitted in negotiated procurements.

(d) *Reports on grantee, contractor, or provider performance.* Final reports of audits, surveys, reviews, or evaluations by, for, or on behalf of the Department, of performance by any grantee, contractor, or provider under any departmentally financed or supported program or activity, which reports have been transmitted to the grantee, contractor, or provider. However, such reports will be available only after 14 days (or after 30 days in the case of reports subject to the provisions of 20 CFR 401 and 422) have elapsed following transmittal of the report to the grantee, contractor, or provider.

(e) *Research, development, and demonstration project records.* The final report of a grantee or a contractor of the performance under any research, development, or demonstration project. Records, other than reports, produced in such projects, such as films, computer software, other copyrightable materials and reports of inventions, will be available, except that considerations relating to obtaining copyright and patent protection may require delay in disclosure for such period as necessary to accomplish such protection. Disclosure of records which are copyrightable or which reflect patentable inventions shall not confer upon the requester any license under any copyright or patent without regard to the holder or owner thereof.

§ 5.73 Records not available.

The following types of records or information contained in any record, in addition to those prohibited by law from disclosure are not available for inspection or copying, any provision of § 5.72 notwithstanding:

(a) *Intra-agency and inter-agency communications.* Communications within the Department, other than those described in § 5.72(d) or between the Department or any official of the Department and any other agency, department, or official of the executive branch of the Federal Government, to the extent they reflect the views or judgment of the writer or of other individuals. If disclosure of any factual portion of the communication would indicate the views or judgment being withheld from disclosure, then such factual portions will also be withheld.

(b) *Investigatory files.* (1) Investigatory files compiled for law enforcement purposes in cases not yet closed. A file is closed within the meaning of this regulation when a final decision has been made not to take enforcement action or enforcement action has been taken and has been concluded. For the purpose of this section "enforcement action" means any authorized action intended to abate, prevent, counteract, deter, or terminate violations of law and includes action involving possible civil, criminal, or administrative sanctions, whether such sanctions involve adversary proceedings or other procedures, such as termination of benefits, protective measures, etc.

(2) Investigatory files compiled for law enforcement purposes in cases that have been closed, to the extent that disclosure of such files would:

(i) Identify informants;

(ii) Name or otherwise identify, or make available statements with respect to, persons referred to in such file, so as unjustly to defame, embarrass, or prejudice such persons or their successors, affiliates, families, or descendants in their professional, commercial, occupational, community, or personal activities, or otherwise result in a clearly unwarranted invasion of personal privacy;

(iii) Release trade secrets, commercial or financial information, personnel files or medical files; or

(iv) Reveal policy recommendations, or other expression of views or opinions.

§ 5.74 Further disclosure by agency head.

(a) The head of any operating agency, or the Assistant Secretary for Administration and Management with respect to documents in the possession of the Office of the Secretary, or the Assistant Secretary for Health with respect to documents of the Public Health Service, or their designees may in particular instances except where prohibited by law, disclose documents or portions of documents described in § 5.73 if he determines that disclosure is in the public interest and is consistent with obligations of confidentiality and administrative necessity.

(b) In making such a determination, consideration may be given to the Department's responsibilities under law for dissemination to the public of information relating to public health, safety of products or services, education, and welfare.

(c) When such determination has been made, the particular document or portion of document to which it relates shall thereafter be available upon request for inspection and copying: *Provided however,* That use of nondiscloseable records or information from such records for authorized program purposes, including law enforcement purposes and litigation is not a disclosure within the meaning of this section.

Subpart G—Administrative Review

Section 5.82 is revised to read as follows:

§ 5.82 By whom review is made.

(a) Request for review shall be addressed to the Assistant Secretary for Administration and Management, or his designee, with respect to records of the Office of the Secretary, to the Assistant Secretary for Health, or his designee, with respect to the records of the Public Health Service, and to the head of the operating agency, or his designee, with respect to the records of the other operating agencies.

(b) The decision on review if adverse to the requester, shall be made only with the concurrence of the Assistant Secretary for Public Affairs, or his designee.

Section 5.85(a) is revised to read as follows:

§ 5.85 Decisions on review.

(a) Decisions on review shall be in writing within 20 days from receipt of the request for review. If the decision is in favor of the requester, the decision shall order records made available to the requester as provided in the decision.

* * * * *

APPENDIX

The following are some examples of specific records (or specific information relating to personnel, programs, or activities of this Department) listed according to whether or not they are available upon request for inspection and copying.

GRANTS

Generally Available[1]	*Generally not Available*[1]
Name of grantee, date, subject matter, and amount of grant.	Research protocol, design, processing, and other technical information to the extent proprietary or of a confidential nature.
Face sheet of funded grant application.	

[1] Since there may be unforeseen variations in the contents of documents in the examples given, or in the circumstances pertinent to the Government's activities concerning matters relating to such documents, these examples do not apply in each and every instance, and they do not override provisions of the regulation that may be applicable in a given case.

V 38 - 159 AUG 17 73 XUM

APPENDIX—Continued

GRANTS—continued

Final report of grantee	Confidential financial information of grantee.
Records of any funded grant other than research grants.	Raw research data and interim reports on research prior to submission of the final report.
Final report of any review or evaluation of grantee performance conducted or caused to be conducted by the Department.	Research or research training grant application on which award is not made.
Application for demonstration, experimental, or pilot project under section 1115 of the Social Security Act.	
State plan material.	

CONTRACTS

Name of contractor, subject matter, date, and amount of contract.	Trade secrets.
Contract performance review report.	Confidential pricing data contained in contract proposal if in the Department's judgment it is properly so designated by the offeror.
Deficiency report	Proprietary technical data contained in a contract proposal if in the Department's judgment it is properly so designated by offeror.
Report on performance of providers of medicare services.	Confidential financial information of contractor.
Final Report.	Draft of proposed final report submitted for comment prior to acceptance.
	Research protocol, design, processing, and other technical information to the extent proprietary or of a confidential nature, including proprietary contents of unsolicited proposals.
	Proposals on which no award is made.

ADVISORY COMMITTEES

Name of committee	Minutes or transcripts of committee meetings or portions thereof which are involved with matters exempt from mandatory disclosure under Freedom of Information Act.
Final report.	
Minutes or transcripts of meetings open to the public and not involved with matters exempt from mandatory disclosure under Freedom of Information Act.	

PERSONNEL INFORMATION

Name of employee, title of position, and location of regular duty station.	Home addresses of employees.
Grade, position description, and salary of public employees.	

AFFIRMATIVE ACTION PLAN FILED PURSUANT TO EXECUTIVE ORDER 11246

Approved action plan, including analysis, proposed remedial or affirmative steps to be taken with goals and timetables, policies on recruitment, hiring, and promotion, and description of grievance procedures.	

MISCELLANEOUS

	Names of individual beneficiaries of departmental programs or a list of the benefits they receive if release would be an unwarranted invasion of privacy.
	Earnings records, claims file, and other personal information maintained by or for the Social Security Administration.
	Office for Civil Rights investigatory files in open cases.

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Certain National Wildlife Refuges in Alaska

The following regulations are issued and are effective on August 17, 1973. These regulations apply to public hunting on portions of certain national wildlife refuges in Alaska.

General Conditions. Hunting shall be in accordance with applicable State regulations. Information relative to hunting may be obtained from Refuge Managers addressed to respective refuges.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

ALASKA

Migratory game birds may be hunted on the following refuge areas:

ALEUTIAN ISLANDS NATIONAL WILDLIFE REFUGE

Aleutian Islands National Wildlife Refuge, Pouch #2, Cold Bay, Alaska 99571.

Special condition. Hunting permitted only on Unimak, Adak, Attu, Shemya, and Atka.

ARCTIC NATIONAL WILDLIFE RANGE

Arctic National Wildlife Range, 1412 Airport Way, Fairbanks, Alaska 99701.

CLARENCE RHODE NATIONAL WILDLIFE RANGE

Clarence Rhode National Wildlife Range, P.O. Box 346, Bethel, Alaska 99559.

IZEMBEK NATIONAL WILDLIFE RANGE

Izembek National Wildlife Range, Pouch #2, Cold Bay, Alaska 99571.

Special condition. The landing of aircraft is prohibited except in the event of emergency.

KENAI NATIONAL MOOSE RANGE

Kenai National Moose Range, P.O. Box 500, Kenai, Alaska 99611.

Special conditions. Parts of the Kenai National Moose Range are closed to the operation of aircraft and motor boats. These regulations and maps are available at the Refuge office, Kenai, Alaska, and from the Alaska Area office, Bureau of Sport Fisheries and Wildlife, 813 "D" Street, Anchorage, Alaska.

KODIAK NATIONAL WILDLIFE REFUGE

Kodiak National Wildlife Refuge, P.O. Box 825, Kodiak, Alaska 99615.

Special condition. Except in the event of an emergency, the landing of aircraft on the Kodiak National Wildlife Refuge is restricted to lakes, streams, and other bodies of water.

Nunivak National Wildlife Refuge, P.O. Box 346, Bethel, Alaska 99559.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1974.

GORDON W. WATSON,
Area Director, Bureau of Sport Fisheries and Wildlife, Anchorage, Alaska.

JULY 31, 1973.

[FR Doc.78-17161 Filed 8-16-73;8:45 am]

PART 32—HUNTING

Washita National Wildlife Refuge, Okla.

The following special regulation is issued and is effective on August 17, 1973.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

OKLAHOMA

WASHITA NATIONAL WILDLIFE REFUGE

The public hunting of quail and cottontail rabbits on the Washita National Wildlife Refuge, Oklahoma, is permitted only on the areas designated by signs as open to hunting. This open area, comprising 2,200 acres, is delineated on maps available at refuge headquarters, Butler, Oklahoma, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, P.O. Box 1306, Albuquerque, New Mexico 87103.

Upland game hunting shall be in accordance with all applicable State regulations governing the hunting of quail and cottontail rabbits subject to the following special conditions:

(1) The open season for quail hunting on the refuge extends from November 20, 1973, through February 1, 1974, inclusive.

(2) The open season for cottontail rabbit hunting on the refuge extends from November 20, 1973, through February 1, 1974, inclusive.

(3) Hunting of either quail or cottontail rabbits is permitted only on Mondays, Tuesdays, Thursdays, Saturdays, and national holidays.

(4) Rifles and hand guns are prohibited on the refuge. Only shotguns are legal firearms for the taking of quail. Shotguns and/or long bows and arrows are legal weapons for the taking of cottontail rabbits.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through February 1, 1974.

ROBERT H. STRATTON, JR.,
Refuge Manager, Washita National Wildlife Refuge, Butler, Oklahoma.

AUGUST 1, 1973.

[FR Doc.73-17158 Filed 8-16-73;8:45 am]

PART 32—HUNTING

Arctic National Wildlife Range, Alaska

The following regulations are issued and are effective on August 17, 1973.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

ALASKA

ARCTIC NATIONAL WILDLIFE RANGE

Public hunting of upland game on the Arctic National Wildlife Range is permitted in accordance with applicable State regulations. Information relative to hunting may be obtained from the Refuge Manager at 1412 Airport Way, Fairbanks, Alaska 99701.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

ALASKA

ARCTIC NATIONAL WILDLIFE RANGE

Public hunting of big game animals on the Arctic National Wildlife Range is permitted in accordance with applicable State regulations. Information relative to hunting may be obtained from the Refuge Manager at 1412 Airport Way, Fairbanks, Alaska 99701.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1974.

DAVID L. SPENCER,
Area Refuge Supervisor, Bureau of Sport Fisheries and Wildlife, Anchorage, Alaska.

AUGUST 7, 1973.

[FR Doc.73-17162 Filed 8-16-73;8:45 am]

PART 32—HUNTING

Kodiak National Wildlife Refuge, Alaska

The following regulations are issued and are effective August 17, 1973.

General conditions. Hunting shall be in accordance with applicable State regulations.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

ALASKA

KODIAK NATIONAL WILDLIFE REFUGE

Upland game may be hunted on the following refuge:

Kodiak National Wildlife Refuge, P. O. Box 825, Kodiak, Alaska 99615.

Special condition. Except in the event of an emergency, the landing and operation of aircraft on the Kodiak National Wildlife Refuge is restricted to the lakes, streams, and other bodies of water.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

ALASKA

KODIAK NATIONAL WILDLIFE REFUGE

Big game may be hunted on the following refuge:

Kodiak National Wildlife Refuge, P.O. Box 825, Kodiak, Alaska 99615.

Special conditions. (1) Except in the event of an emergency, the landing and operation of aircraft on the Kodiak National Wildlife Refuge is restricted to the lakes, streams, and other bodies of water.

(2) A Federal permit is required to hunt brown bear. Permits will be nontransferable and issued by hunting area units on a priority application basis from public announcement dates. Permits may be obtained by applying to the Refuge Manager, Bureau of Sport Fisheries and Wildlife, P.O. Box 825, Kodiak, Alaska 99615.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1974.

GERRY ATWELL,
Refuge Manager, Kodiak National Wildlife Refuge, Kodiak, Alaska.

JULY 25, 1973.

[FR Doc.73-17159 Filed 8-16-73;8:45 am]

PART 32—HUNTING

Necedah National Wildlife Refuge, Wis.

The following special regulation is issued and is effective on August 17, 1973.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

WISCONSIN

NECEDAH NATIONAL WILDLIFE REFUGE

Public hunting of deer and unprotected mammal species as listed in the 1973 Wisconsin Big Game hunting regulations on the Necedah National Wildlife Refuge, Wisconsin is permitted with bow and arrow from September 15 through November 11, 1973 and December 1 through December 31, 1973 and with firearms from November 17 through November 25, 1973, but only on those areas designated by signs as open to hunting. These open areas, comprising approximately 39,000 acres are delineated on a map available at the refuge headquarters, Necedah, Wisconsin and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Hunting shall be in accordance with all applicable State and Federal regulations.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32,

V 38 - 159 AUG 17 73 XUM

and are effective through December 31, 1973.

GERALD H. UPDIKE,
Refuge Manager, Necedah National Wildlife Refuge, Necedah, Wisconsin 54646.

AUGUST 10, 1973.

[FR Doc.73-17157 Filed 8-16-73;8:45 am]

PART 33—SPORT FISHING

Certain Wildlife Refuges and Ranges in Alaska

The following special regulations are issued and are effective August 17, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

General Conditions: Fishing shall be in accordance with all applicable State regulations.

ALASKA

ALEUTIAN ISLANDS NATIONAL WILDLIFE REFUGE

Aleutian Islands National Wildlife Refuge, Cold Bay, Alaska 99571.

ARCTIC NATIONAL WILDLIFE RANGE

Arctic National Wildlife Range, 1412 Airport Way, Fairbanks, Alaska 99701.

BERING SEA NATIONAL WILDLIFE REFUGE

Bering Sea National Wildlife Refuge headquarters: Clarence Rhode National Wildlife Range, Post Office Box 346, Bethel, Alaska 99559.

CLARENCE RHODE NATIONAL WILDLIFE RANGE

Clarence Rhode National Wildlife Range, Post Office Box 346, Bethel, Alaska 99559.

IZEMBEK NATIONAL WILDLIFE RANGE

Izembek National Wildlife Range headquarters: Aleutian Islands National Wildlife Refuge, Cold Bay, Alaska 99571.

KENAI NATIONAL MOOSE RANGE

Kenai National Moose Range, Post Office Box 500, Kenai, Alaska 99611.

KODIAK NATIONAL WILDLIFE REFUGE

Kodiak National Wildlife Refuge, Box 825, Kodiak, Alaska 99615.

NUNIVAK NATIONAL WILDLIFE REFUGE

Nunivak National Wildlife Refuge headquarters: Clarence Rhode National Wildlife Refuge, Post Office Box 346, Bethel, Alaska 99559.

The provisions of these special regulations supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through August 31, 1974.

DAVID L. SPENCER,
Area Refuge Supervisor, Bureau of Sport Fisheries and Wildlife, Anchorage, Alaska.

JULY 31, 1973.

[FR Doc.73-17160 Filed 8-16-73;8:45 am]

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF THE INTERIOR

Office of Oil and Gas

[32A CFR Chapter X]

[Oil Import Reg. 1 (Rev. 5)]

NEW, EXPANDED OR REACTIVATED "PETROCHEMICAL CAPACITY"

Proposed Allocations of Imports of Crude Oil and Unfinished Oils—Districts I–IV, District V and Puerto Rico

On December 2, 1972, there was published in the FEDERAL REGISTER (37 FR 25722) a proposal for allocations of crude and unfinished oils to refiners and petrochemical plants based upon estimated inputs.

By Presidential Proclamation 4210 of April 18, 1973, volumetric quotas established under the Mandatory Oil Import Program were eliminated and provision was made, notwithstanding the levels established in section 2(a) of the Proclamation, that the Secretary of the Interior may make allocations to which license fees shall not be applicable to new, expanded, or reactivated refinery capacity and petrochemical plants for a period of five years from the date such facility comes onstream not to exceed 75 percent of estimated refinery inputs or the percentage of petrochemical plant inputs applicable.

After careful consideration of comments received in response to the December 2, 1972, proposed rulemaking and based on Proclamation 3279, as amended by Proclamation 4210, rulemaking for refiners was implemented by publication in the Federal Register on July 24 of a revised section 25 as part of Amendment 59 to Oil Import Regulation 1 (Revision 5), as amended.

To implement Proclamation 3279, as amended, as it applies to petrochemical plants, consideration is being given to adding a new section 25A to the Regulation. It is believed that the proposed new section will provide for equity of allocations among petrochemical producers, and be simpler to administer than alternatives considered. Allocations to heavy liquids plants (section 9B of the Regulation) are scheduled to begin on July 1, 1974. Such allocations are within the levels established by section 2(a) of Proclamation 3279, as amended, and will be reduced by a fraction of the original level each year until such allocations reach zero by April 30, 1980.

The proposed section would remove the volumetric limits, 4 million barrels for petrochemical capacity, on the quantity of inputs that any company could claim as a basis for an allocation based on estimated inputs and includes Puerto Rico as well as Districts I–IV and District V. The proposal provides for petrochemical capacity coming onstream after September 30 of the allocation period for which the allocation is requested. The requirement that a plant be in operation at least 60 days before an import license is issued is removed and in its place provision is made for an on-the-spot evaluation by the Office of Oil and Gas approximately 60 days before start-up.

The new section provides for calculating inputs on the basis of the pounds of qualified carbon and hydrogen content of the petrochemicals produced, dividing the quantity so determined by 250 to convert to barrels and multiplying the quotient by 75 percent to determine the allocation of imports of crude oil which a person will receive. For purposes of the new section, petrochemicals are defined and each new expanded or reactivated petrochemical capacity is treated as a separate entity for a total of sixty months.

Final action upon the proposed amendment is subject to the concurrence of the Chairman of the Oil Policy Committee.

Interested persons are invited to submit written comments on the proposed new section 25A on or before September 11, 1973, to the Director, Office of Oil and Gas, Department of the Interior, Washington, D.C. 20240. Each person who submits comments is asked to provide fifteen (15) copies.

DUKE R. LIGON,
Director.

AUGUST 14, 1973.

Section 25A Allocations of crude oil and unfinished oils—Districts I–IV, District V, and Puerto Rico—new, expanded or reactivated "petrochemical capacity" based upon estimated and actual inputs.

(a)(1) The Director may make allocations of imports of crude oil and unfinished oils with respect to new, expanded or reactivated "petrochemical capacity" as provided in this section.

(2) A person seeking such an allocation must file an application in the form prescribed by the Director. The application shall disclose in detail such information as the Director may require, including—

(i) The nature of the facility,

(ii) The location of the facility,

(iii) The petrochemicals and the pounds of each petrochemical produced or to be produced,

(iv) The pounds of carbon and hydrogen in the petrochemicals produced from qualified "petrochemical capacity" inputs,

(v) The capital outlay involved,

(vi) The identification of each feedstock and the source thereof,

(vii) The date that the facility went onstream or is scheduled to go onstream.

(b) For purposes of this section "petrochemical capacity" means a facility or plant complex:

(1) Which includes equipment for converting hydrocarbons to petrochemicals by chemical reaction.

(2) Which manufactures for plant use or sale one or more separate and distinct petrochemicals by chemical conversion of each separate "petrochemical capacity input" feedstock stream which is claimed by an applicant as a basis for obtaining an allocation.

(c) For purposes of this section "petrochemical capacity inputs" means feedstocks charged to a "petrochemical capacity.'

(1) And include only:

(i) Crude oil,

(ii) Unfinished oils (except those unfinished oils specifically excluded in subparagraph (2) of this paragraph) produced in Districts I–IV and District V and Puerto Rico and unfinished oils imported pursuant to an allocation;

(2) But do not include:

(i) Unfinished oils which are produced in a "petrochemical capacity" or petrochemical plant in the manufacture of petrochemicals and subsequently charged to a unit which is part of the same "petrochemical capacity" or petrochemical plant in which they were produced or to any other "petrochemical capacity" or petrochemical plant which is owned or controlled by the same person who claims the initial "petrochemical capacity inputs" or petrochemical plant inputs from which the unfinished oils are derived.

(ii) Unfinished oils which are obtained by transactions such as sales, purchases, or exchanges which are designed to avoid the exclusion specified in subdivision (i) of this subparagraph (2) and,

(iii) Benzene which met the ASTM standards for nitration grade or cumene, ethylbenzene, isoprene, meta-xylene, ortho-xylene or para-xylene which had a purity of 95 percent or more by weight but which subsequently has been recycled and mixed with other hydrocarbons, commingled, or purposely debased.

(d) For purposes of this section each item on the schedule in paragraph (k) of section 9B of this regulation with the exception of changes in the "condition" of several items listed and additions made, as noted below, is a petrochemical

V 38-159 AUG 17 73 XUM

if, and only if, it conforms to any notation opposite the item in column 2 and to the condition specified opposite the item in column 3. The "conditions" amended and additions made to the schedule in paragraph (k) of section 9B are as follows:

D—ASTM nitration grade
E—Petrochemical must be recovered in a state of 95 percent purity or more

Petrochemical	Limitations	Conditions
Benzene		D
Cumene		E
Ethylbenzene		E
Isoprene		E
Meta-Xylene		E
Ortho-Xylene		E
Para-Xylene		E

(e) (1) Each increment of new, expanded or reactivated "petrochemical capacity" will be treated as a separate entity under this paragraph (e) for a total of sixty months.

(2) If the new, expanded or reactivated "petrochemical capacity" is scheduled to come onstream during the allocation period for which the allocation is requested, the allocation shall be computed on the basis of inputs (divided by 365), calculated as in paragraph (f) (1) of this section, which it is estimated will be made to such capacity during that allocation period. In the event the new, expanded or reactivated "petrochemical capacity" comes onstream after September 30 of the allocation period for which the allocation is requested, the Director may, if requested by the applicant, extend the expiration date of the license or licenses to 120 days after the start-up date. An applicant who receives an allocation for a particular allocation period pursuant to this subparagraph (2) may be eligible for an allocation pursuant to subparagraph (3), (4), or (5) of this paragraph for the succeeding allocation periods.

(3) If the new, expanded or reactivated "petrochemical capacity" has come onstream during the allocation period immediately preceding the allocation period for which the allocation is requested, the allocation shall be computed on the basis of the sum (divided by 365) of (i) the "petrochemical capacity inputs" calculated as in paragraph (f) (1) of this section, actually made to the new, expanded or reactivated "petrochemical capacity" during the first nine months of the allocation period immediately preceding the allocation period for which the allocation is requested and (ii) the inputs, calculated as in paragraph (f) (1) of this section which it is estimated will be made to such capacity during the next number of months which, when combined with the months in clause (i), will constitute a period of twelve months.

(4) If the new, expanded or reactivated "petrochemical capacity" has been onstream for at least one year as of September 30, of the allocation period immediately preceding the allocation period for which the allocation is requested, the allocation shall be based on actual inputs (divided by 365), calculated as in paragraph (f) (1) of this section, to the facility during the preceding twelve months ending September 30; *Provided*, That, the facility will not have been onstream in excess of sixty months during the allocation period for which the allocation is requested.

(5) If the new, expanded or reactivated "petrochemical capacity" has not been onstream for a period of sixty months after earning an allocation under subparagraph (4) of this paragraph (e), an allocation will be made for the next allocation year based on actual inputs (divided by 365), calculated as in paragraph (f) (1) of this section, for the year ending September 30 of the previous allocation year. In computing the allocation, the Director will determine the number of days which, when added to the actual operating period in the previous allocation years, will constitute a period of sixty months. The facility will, for this number of days, earn an allocation under this section 25A.

(f) (1) The Director shall issue allocations with respect to new, expanded or reactivated "petrochemical capacity" based on inputs which will be calculated in the following manner:

$$\frac{\text{Total weight in pounds of actual and estimated carbon and hydrogen from qualified "petrochemical capacity inputs" contained in petrochemicals produced during any allocation period}}{250} = \text{Qualified inputs for the allocation period in barrels}$$

(2) The allocation shall be computed at seventy-five percent of the qualified inputs, calculated as in paragraph (f) (1) of this section, to such facilities as determined in subparagraphs (e) (2), (e) (3), (e) (4) or (e) (5) of this section 25A.

(3) For purposes of this section, where a person produced a petrochemical from a combination of inputs which qualify, under paragraph (c) of this section and inputs which do not so qualify, the hydrogen and carbon content of the produced petrochemical shall be deemed to have been derived entirely from the qualified inputs to the full extent of such qualified inputs except that such hydrogen and carbon shall not be deemed to have been derived from a qualified input from which the carbon and hydrogen could not actually have been derived.

(g) (1) If an allocation based in whole or in part on estimated inputs, calculated as in paragraph (f) (1) of this section, is made to an applicant pursuant to this section, the actual inputs calculated as a basis for allocations in the next succeeding allocation period or periods for which the applicant applies for an allocation or allocations under this regulation shall be adjusted upward or downward to compensate for the difference between the calculated estimated inputs and actual inputs made during the period for which inputs were estimated.

(2) If the calculated estimated inputs upon which an allocation is based exceed the calculated actual inputs made by more than ten percent of the calculated estimated inputs, then, in addition to the adjustment downward provided by subparagraph (1) of this paragraph, the applicant shall be penalized for the overestimate as provided in this subparagraph (2). As a penalty, the calculated actual inputs submitted by the applicant as a basis for allocation for the next succeeding period or periods for which the applicant applies for an allocation or allocations under this regulation shall be further reduced by the number of barrels by which the calculated estimated inputs exceeded the calculated actual inputs by more than ten percent. However, to the extent that an applicant demonstrates to the satisfaction of the Director that the excess of calculated estimated inputs over calculated actual inputs was attributable to acts of God, fire, government action, explosion, labor disputes, or other similar circumstances beyond the applicant's control, the Director may wave the penalty or reduce the number of barrels of excess for which the penalty will be imposed. Persons applying for and receiving allocations under this section whose new, expanded or reactivated "petrochemical capacity" fails to come onstream within the allocation period may be denied any allocation for the next succeeding period. The Director may elect not to apply this penalty in those cases where the applicant demonstrates to the satisfaction of the Director that a substantial effort was made to complete and to start up such facility and that the person's failure was attributable to acts of God, fire, government action, explosion, labor disputes, or other similar circumstances beyond the applicant's control.

(3) (i) Any person who has been granted an allocation for a new expanded or reactivated "petrochemical capacity" in Districts I–IV, District V or Puerto Rico may avoid the penalty prescribed in subparagraph (2) by returning on or before September 30 of the period for which the allocation was granted such a license or licenses for a downward adjustment, or, in lieu of returning such license or licenses, returning for downward adjustment a license issued to the person under section 9.

(ii) A request by an applicant who has received an allocation and license under this section for a downward adjustment shall be made in writing to the Director on or before September 30 of the allocation period for which the allocation and license were granted.

(4) Further adjustments will be made in addition to those described in subdivisions (i) and (ii) above. If the person has any other like "petrochemical capacity" or petrochemical plant and reductions are made in the inputs for this other capacity during the allocation periods as a result of the new, expanded or reactivated facility; in such a case, in determining inputs for the next allocation period, the inputs credit for the new facility application will be lowered by the amount that inputs were reduced in the applicant's other existing facilities in the year ending September 30 of the prior allocation period.

(5) The Director shall not issue a license under an allocation made pursuant to this section until (i) an on-the-spot evaluation of the new, expanded or reactivated "petrochemical capacity" has been conducted by compliance representatives of the Office of Oil and Gas and (ii) a written determination has been made by the Director that the facility is a bona fide "petrochemical capacity" as certified in the application, and that construction or reactivation has so far progressed that, in the Director's judgment, the plant will within sixty days from the date of such determination be ready for start-up and trials.

(h) No license issued for allocations made under this section may be sold, assigned, or otherwise transferred.

(i) (1) As used in this section 25A, "expanded petrochemical capacity" includes expansion of existing facilities by the addition of equipment, such as, but not limited to, stills, towers, pumps, and conversion units, or such additions to or modification of existing "petrochemical capacity" or petrochemical plant as have resulted in an increased processing capability of not less than fifteen percent in the particular "petrochemical capacity" or petrochemical plant under consideration over the petrochemical plant capacity or "petrochemical capacity" existing in that particular facility during the preceding twelve months.

(2) As used in this section 25A, "reactivated petrochemical capacity" means restoration to operation of "petrochemical capacity" which had been shut down for not less than twelve months immediately preceding its reactivation.

(j) An allocation made pursuant to this section shall entitle a person to a license or licenses which will allow the importation of unfinished oils in an amount not exceeding, in the aggregate 15% of the person's allocation.

(k) The hydrocarbon content of materials upon which an allocation under section 9 or section 9B of this regulation is based will not qualify as a basis for an allocation under this section.

(l) An applicant may not receive an allocation under this section 25A for new, expanded or reactivated "petrochemical capacity" for which inputs have been included in applications filed pursuant to section 9.

(m) Persons wishing to qualify for an allocation under this section 25A for the 1973 allocation period must file an application within thirty (30) days after publication of this section 25A in the Federal Register.

(n) A person who imports crude oil or unfinished oils under an allocation made under this section may exchange his imported crude oil either for domestic crude oil or for domestic unfinished oils or exchange his imported unfinished oils for domestic unfinished oils or for domestic crude oil. All such exchanges shall be governed by the provisions of subparagraphs (2), (3), (4), (5) and (6) of paragraph (b) of section 17 of this regulation.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 29]

TOBACCO

Designation of Auction Markets

Notice is hereby given that the Department proposes to amend Title 7, Part 29—Tobacco Inspection, by revising Subpart B, § 29.73 (7 CFR Part 29) to set forth the conditions under which the designation of a tobacco auction market will terminate. Notice is also given of proposed termination of the designation of certain auction markets which have ceased to function as such.

Statement of considerations. The Tobacco Inspection Act (7 U.S.C. 511) authorizes the Secretary of Agriculture to designate those auction markets where tobacco bought and sold thereon at auction, or the products customarily manufactured therefore, moves in commerce. After designation, inspection becomes mandatory at all auction sales conducted on such markets, and official inspection service is provided thereat free of charge. Regulations governing such designations are issued pursuant to the authority of section 14 of the Act (7 U.S.C. 511m), and are published at 7 CFR Part 29. The proposed amendment of said regulations would provide for automatic termination of such designation after a market has ceased operations.

There are presently seven designated markets which have been closed or otherwise inactive for periods ranging from 2 to 33 years. These markets are as follows:

Market	Date designated	Years inactive
Rocky Mount, Va.	June 26, 1942 (7 FR 4811)	9
Westmoreland, Tenn.	October 9, 1941 (6 FR 5147)	9
Bedford, Va.	June 18, 1936 (1 FR 757)	16
Scottsville, Ky.	June 21, 1950 (15 FR 4072)	17
Camp Taylor, Ky.	October 25, 1941 (6 FR 5478).	22
Paris, Tenn.	November 7, 1939 (4 FR 4537).	27
Drakes Branch, Va.	June 18, 1936 (1 FR 757)	33

In view of the long periods in which no sales have taken place at these seven locations, it must be concluded that there exists no economic demand for such services at these locations. The Department believes that the designation of these markets no longer carries any significance and therefore proposes to terminate the designation of each of these markets in order to remove any uncertainty regarding their status. These markets would be considered as "new markets" on any future request for services and could qualify for designation upon the basis of a need for services established at a hearing held in accordance with Subpart A, (7 CFR 29.1 through 29.3)

Recognition should be given to the fact that markets are not permanent, and may close due to a variety of economic factors, such as a change in the marketing activities of growers or in transportation facilities. In order to provide for such occurrences in the future, the Department proposes to revise the regulations to provide that the designation of a tobacco auction market shall terminate automatically by operation of law after the market has remained closed for two consecutive marketing seasons. It is unnecessary to provide for a hearing to determine the fact of closure of a market since the Department has particular knowledge of this fact, inasmuch as no lawful auction can be held without the services of official tobacco inspectors. Therefore it is proposed to amend 7 CFR Part 29, by revising § 29.73 as follows:

§ 29.73 Designation of Markets; Termination of Designation.

An auction market where tobacco bought or sold thereon at auction or the products customarily manufactured therefrom move in commerce may be designated under the Act by the Secretary after the Director has advised the Secretary that two-thirds of the growers voting in the referendum held in accordance with § 29.74 favored the designation of such market. When a market is designated by the Secretary, he shall give public notice of the fact and in such public notice he shall specify the date on which the requirement of inspection and certification of tobacco sold at auction on such market shall become effective. The Director may temporarily suspend the requirement of inspection and certification on a designated market when it is found impracticable to provide such services because competent inspectors are not obtainable or because the quantity of tobacco available for inspection is insufficient to justify the cost of such service. A designation shall terminate automatically at the end of any two consecutive marketing seasons during which a designated market does not conduct any sales of tobacco at auction. A market whose designation is terminated under this section shall be considered as a new market, as defined in § 29.1, and any future application for services shall be filed and determined in accordance with the provisions of §§ 29.3 and 29.2.

All interested persons who desire to submit written data, views, or arguments for consideration in connection with the proposed revision may file the same in four copies with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, on or before September 17, 1973.

V 38 159 AUG 17 73 XUM

All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Done at Washington, D.C., this 9th day of August, 1973.

CLAYTON YEUTTER,
Acting Secretary.

[FR Doc.73-17141 Filed 8-16-73;8:45 am]

[7 CFR Part 928]

HANDLING OF PAPAYAS GROWN IN HAWAII

Notice of Proposed Rule Making

This notice invites written comment relative to proposed continuance after September 9, 1973 of the requirement effective under the Marketing Agreement and Order No. 928 that papayas handled to destinations within the production area (Hawaii) shall grade at least Hawaii No. 1 grade. Unless so amended the minimum grade would revert to Hawaii No. 2 grade on September 10, 1973.

The proposal was submitted by the Papaya Administrative Committee, established pursuant to the said Marketing Agreement and Order No. 928, regulating the handling of papayas grown in Hawaii. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The committee, in proposing such continuance, reported that ample supplies of papayas of Hawaii No. 1 and higher grades would be available to meet consumer demand.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendment shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than August 28, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Continuance would be effected by amending paragraph (a)(1) of § 928.303 (Papaya Regulation 3; 37 FR 28410; 38 FR 2959, 21269) to read as follows:

§ 928.303 Papaya Regulation 3.

(a) During the period September 10, 1973 through December 31, 1973, no handler shall ship any container of papayas:

(1) To any destination within the production area unless said papayas grade at least Hawaii No. 1 and are of the size which individually weigh not less than 14 ounces: *Provided*, That papayas handled as Hawaii Fancy grade shall be of a size which individually weigh not less than 16 ounces.

* * * * *

Dated: August 14, 1973.

D. S. KURYLOSKI,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[7 CFR Part 959]

[Docket No. AO 322-A3]

ONIONS GROWN IN SOUTH TEXAS

Recommended Decision and Opportunity To File Exceptions

This document recommends adoption of an amendment to allow expenditures of marketing order funds for production research.

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given to the filing with the Hearing Clerk of this recommended decision with respect to the proposed further amendment of Marketing Agreement No. 143 and Order No. 959 (7 CFR Part 959), regulating the handling of onions grown in South Texas, hereinafter referred to collectively as the "order". The order is effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U.S.C. 601-674), hereinafter referred to as the "act".

Interested persons may file written exceptions to this recommended decision with the Hearing Clerk, U.S. Department of Agriculture, Room 112 Administration Building, Washington DC 20250, not later than the close of business on September 10, 1973. Exceptions should be filed in quadruplicate. All such communications will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Preliminary statement. The public hearing, on the record of which the recommended amendment of the order was formulated, was held in McAllen, Texas on July 10, 1973, pursuant to a notice thereof which was published in the FEDERAL REGISTER on June 8, 1973 (38 FR 15080). The notice contained a proposed amendment to the order which had been submitted to the Secretary of Agriculture with a request for a hearing thereon by the South Texas Onion Committee, the administrative agency established pursuant to the order.

Material issue. The material issue presented on the record of the hearing was the amendment of § 959.48 *Research and development*, to authorize production research.

Findings and conclusions. The following findings and conclusions on the material issue are based on the evidence presented at the hearing and the record thereof:

The order presently contains authority for committee expenditures on marketing research and development projects. Production research was not previously permitted by the Agricultural Marketing Agreement Act of 1937 until its amendment on June 25, 1970 (Public Law 91-292) to permit the conduct of production research under marketing orders through the use of funds furnished by the program. South Texas Onion growers have requested that the order be amended to include the authority for committee expenditures for production research to broaden the possibilities for research beneficial to the South Texas onion industry and its customers.

Successful marketing of high quality onions is the result of a complex interrelated production and marketing system. A fundamental requirement for successful, orderly marketing is the availability of good quality onions. The best grading, packing, transportation and wholesaling and retailing equipment and practices cannot improve the quality of a poor onion. All production steps from the selection of the seed and fields for planting through preparation for market are given careful consideration by the prudent grower who desires to grow good quality onions at the lowest possible cost.

Onions grown in South Texas during the winter and early spring are much more perishable than the storage type onions grown in other production areas during the summer and fall. Solutions for many of the problems affecting the quality, appearance, and shelf-life of onions are to be found in the use of better varieties, effective disease and insect control, better and more efficient soil preparation, cultivating and harvesting practices. These production problems span the whole operation from planting through harvest and preparation for market. The efficient production of a sustained supply of high quality onions requires a high degree of knowledge and proficiency on the part of onion producers. The record shows that production research now being done by private and public agencies is not adequate and the urgency for authorizing another source of funding research is emphasized by recent reductions and continuing limitations in funds, personnel, and facilities available to the Texas Agricultural Experiment Station and U.S. Department of Agricultural research agencies for South Texas onion production research.

Foremost among production problems is the need for a breeding program to develop improved varieties of so-called short-day onions, which are those onions grown during the winter and spring months.

Improved varieties are needed to;

(a) Increase yields per acre to reduce per unit production costs;

(b) Extend the harvesting season through mid-summer instead of ending in mid-May to spread out the marketing season and effect more orderly marketing;

(c) Permit long distance shipments and short-term storage to enable exports to distant foreign markets and even flow to market;

(d) Encourage greater acceptance by processors, such as freezers and dehydrators, who prefer a denser onion than is currently produced;

(e) Permit the use of labor saving techniques or procedures such as precision seeding and cultivation, and mechanical harvesting and handling;

(f) Increase resistance to diseases, insects and post-harvest deterioration, to reduce losses and increase retail shelf-life, and

(g) Reduce the incidence of seed stems to improve yields of salable onions.

Research is needed to control such diseases and decay organisms as pink root, purple blotch, fusarium bulb rot, Botrytis, Downy mildew and tip blight.

Other research is needed to reduce the amount of fungicides and other chemical materials used to control diseases and to develop improved weed control, irrigation techniques, and equipment. Engineering research is needed to develop improved mechanical equipment for production, harvesting, and handling operations.

As technological improvements occur, research will be needed to adapt these improvements for use by the onion industry. For example, computer technology might be adopted for use in scheduling and decision making for production operations. It is impossible to foresee all the needs at this time. Therefore, the authority of the committee to establish production research projects should not be limited to the problems mentioned above but should be sufficiently flexible, to the extent permitted under the Act, to facilitate timely development of production research programs suitable to problems that arise.

If a committee determines that production research projects should be undertaken, it should submit each project to the Secretary for approval. The committee should fully consider the cost of any such activities when developing its budget, both as to additional items of expenses and the applicable assessment rate. Committee expenditures for the costs of planning such research should be authorized on the basis of budgetary approval since planning and project development necessarily precede project recommendation to the Secretary for his approval.

In formulating production research projects the committee should be authorized to secure the advice and service of knowledgeable persons. The committee should be authorized to establish one or more subcommittees to assist it in the efficient and expeditious planning of production research projects or programs. An appropriate subcommittee could explore research methods, develop preliminary projects and programs, and make recommendations with respect to any such activities. Such subcommittee could also perform evaluations of activities at any stage of completion. The subcommittee should be prepared to give guidance and counsel to researchers working on approved projects and should have the authority to make necessary changes on such projects as long as the changes are within the overall project and guidelines already approved. Any change which would require greater expenditures than those approved would necessitate committee and Departmental approval, as would major changes which would deviate from the objectives and guidelines which had been established by the committee.

For any production research projects, the committee should be authorized to perform the projects itself or to contract for the conduct of such projects with a person or agency which specializes in this field of activity.

In submitting projects to the Secretary for his approval, the committee should include recommendations as to the funds to be obtained from assessments under the order and contributions and its appraisal of the relative urgency of individual projects whenever several possibilities are involved. The committee should review its production research program annually to appraise its effectiveness. Copies of the annual report on the program should be provided to the Secretary and made available at the committee office for examination by producers, handlers, and other interested persons. In view of the foregoing, it is concluded that the order should be amended to authorize production research.

Rulings on proposed findings and conclusions. July 30, 1973 was fixed as the latest date for the filing of briefs with respect to the facts presented in evidence at the hearings and on findings and conclusions which should be drawn therefrom. No brief was filed.

General findings. Upon the basis of the evidence introduced at the hearing and the record thereof, it is found that:

(1) The amended marketing agreement and order as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act with respect to onions produced in the production area, by establishing and maintaining such orderly marketing conditions therefore as will tend to establish, as prices to the producers thereof, parity prices and by protecting the interest of the consumer;

(2) The amended marketing agreement and order, as hereby proposed to be amended, regulate the handling of onions grown in the production area in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing order upon which hearings have been held;

(3) The amended marketing agreement and order, as both are hereby proposed to be amended, are limited in application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) The amended marketing agreement and order, as both are hereby proposed to be amended, prescribe, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to the differences in the production and marketing of onions grown in the production area; and

(5) All handling of onions as defined in this part is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

Recommended further amendment of the marketing agreement and order. The following amendment of the amended marketing agreement and order is recommended as the detailed means by which the aforesaid conclusions may be carried out:

Section 959.48 *Research and development* is amended to read as follows:

§ 959.48 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of production research, marketing research, and development projects designed to assist, improve, or promote the marketing, distribution, consumption or efficient production of onions. The expenses of such projects shall be paid from funds collected pursuant to § 959.42.

Copies of the notice of recommended decision may be obtained from the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, or may be inspected there.

Signed at Washington, D.C., on this 14th day of August, 1973.

JOHN C. BLUM,
Deputy Administrator, Regulatory Programs.

[21 CFR Part 121]

FOOD ADDITIVES

Name and Specification Change for Extracted Deglanded Cottonseed Flour

Acting on a petition submitted by U.S. Department of Agriculture, Agricultural Research Service, Southern Utilization Research and Development Division (presently Southern Marketing and Nutrition Research Division), 1100 Robert E. Lee Blvd., New Orleans, LA 70179, and by Dorr-Oliver, Inc., 77 Havemeyer Lane, Stamford, CT 06904, an order was published in the FEDERAL REGISTER of July 13, 1972 (37 FR 13713), amending § 121.1019 of the food additive regulations (21 CFR 121.1019) to provide for the safe use in food of a modified cottonseed product designated as "extracted, deglanded cottonseed flour." The petition concerned a product derived from decorticated, ground cottonseed kernels in a process that utilizes *n*-hexane as an extracting solvent which results in an end product containing less than 1 percent fat.

The Commissioner of Food and Drugs has considered a petition (FAP 3A2912) submitted by Grain Processing Corporation, P.O. Box 341, Muscatine, IA 52761, proposing that § 121.1019 be amended to change the name of the modified cottonseed product from "extracted, deglanded cottonseed flour" to "defatted cottonseed flour," essentially on the basis that the present designation is neither descriptive of the additive nor would such a lengthy name be suitable on the label

V 38 I 159 AUG 17 73 XUM

of manufactured foods containing the additive.

On the basis of the submitted information, and other relevant material, the Commissioner concludes that the simplified name "defatted cottonseed flour" should be adopted but that the additive should be further defined as containing less than 1 percent fat. The proposed name adequately describes the additive which is a dry, finely ground product with virtually all fat removed in the processing.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(d), 72 Stat. 1787; 21 U.S.C. 348(d)) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that § 121.1019 be amended by revising paragraphs (a)(2) and (c) to read as follows:

§ 121.1019 Modified cottonseed products intended for human consumption.

* * * * *

(a) * * *

(2) Decorticated, ground cottonseed kernels, in a process that utilizes *n*-hexane as an extracting solvent in such a way that no more than 60 parts per million of *n*-hexane residues and less than 1 percent fat by weight remain in the finished product.

* * * * *

(c) To assure safe use of the additive, the label of the food additive container shall bear, in addition to other information required by the act, the name of the additive as follows:

(1) The additive identified in paragraph (a)(1) of this section as "partially defatted, cooked cottonseed flour."

(2) The additive identified in paragraph (a)(2) of this section as "defatted cottonseed flour."

Interested persons may, on or before October 16, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: August 13, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Proposed Limitation on Federal Participation

Correction

In FR Doc. 73-15674 appearing at page 20994 in the issue of Friday, August 3, 1973, the material in parenthesis in the 21st line of § 81.106 (a)(4) should read "(which election shall constitute a determination by such agency that such expenditure is in conformity with such standards, criteria, and plans)".

Social and Rehabilitation Service

[45 CFR Part 250]

CONTRACTS FOR MANAGEMENT CONSULTING SERVICES

Notice of Proposed Rule Making

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare. The proposed regulations prescribe conditions for State contracts for management consulting services in a medical assistance program under title XIX of the Social Security Act, providing for prior approval of these contracts by the Social and Rehabilitation Service before they qualify for Federal financial participation. They supersede requirements in Handbook of Public Assistance Administration, Part V-4650.2, in respect to the medical assistance program, and are being issued to clarify conditions under which State agencies may request Federal financial participation in expenditures under such contracts. These regulations will permit better control of costs and better utilization of the products received.

Prior to the adoption of the proposed regulations, consideration will be given to any comments, suggestions, or objections thereto which are submitted in writing to the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, 330 Independence Avenue, S.W., Washington, D.C. 20201, on or before Sept. 17, 1973. Comments received will be available for public inspection in Room 5121 of the Department's offices at 301 C Street, S.W., Washington, D.C. on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (area code 202-963-7361).

(Sec. 1102, 49 Stat. 647, 42 U.S.C. 1302.)

Dated: June 14, 1973.

FRANCIS D. DEGEORGE,
Acting Administrator, Social and Rehabilitation Service.

Approved: July 10, 1973.

CASPAR W. WEINBERGER,
Secretary.

A new § 250.51 is added to Part 250, Chapter II, Title 45 of the Code of Federal Regulations, to read as follows:

§ 250.51 Contracts for management consulting services; conditions for Federal financial participation.

(a) *Conditions for claiming Federal financial participation.* (1) Federal financial participation is available in amounts paid under contracts made by State and local medical assistance agencies for management consulting services (as defined in paragraph (d) of this section) which have received prior approval of the Social and Rehabilitation Service. Contracts that have not received prior approval are not eligible for such Federal financial participation (except as provided in paragraph (a)(3) of this section). Contracts where the total value is less than $25,000 are exempt from the requirement for prior approval but must be submitted for approval prior to the end of the quarter for which Federal financial participation will be claimed for expenditures made thereunder. Incremental contracts (contracts for parts of jobs or splitting up a single job among several contracts) developed in order to qualify for the exemption from prior approval will not be eligible for Federal financial participation.

(2) A request for prior approval of a proposed contract should be submitted to the Regional Commissioner at least three months prior to the effective date of the contract to allow sufficient time for adequate review.

(3) Failure of the Service to act on a request for approval of a proposed contract for management consulting services with 90 days of receipt of such request will be considered to waive the requirement for prior approval of the request. Before the State may claim Federal financial participation in these circumstances, it must first take all reasonable and prudent steps to insure that its request has been received by the Service.

(b) *Information required.* Prior to the use of a contract for $25,000 or more for management consulting services, the single State agency must submit to the appropriate regional office of the Service a justification of the need for the proposed contract in terms of efficiency, economy and more effective administration of the State's medical assistance program in accordance with program regulation guides issued by the Service.

(c) *Assurances.* The State agency shall include a statement of the following assurances for each contract:

(1) A copy of the final report will be delivered to the Service.

(2) All interim reports, data collection forms, questionnaires, and other working papers that support the final report, including those that show the assumptions, criteria and product, will be made available on request to the Service for a period of three years after completion of the contract. This includes such materials prepared by both the prime contractor and subcontractors, if any.

(d) *Definition.* Management consulting services include any examination, survey, study, review, analysis, evaluation, or other type of advice or assistance for the purpose of installation of a system or procedure, improvement or assessment of effectiveness, efficiency or economy of the organization, management systems, processes, performance standards, methods, procedures, space or equipment layout or program operations of the single State agency. Such services do not include the design, development or installation of automatic data processing or information storage and retrieval systems.

ADDITIONAL CONTROL AREA

Proposed Designation

Correction

In FR Doc. 73-15639, appearing at page 20348 in the issue of Tuesday, July 31, 1973, in the third column on page 20349 under the heading "Boundaries," in the third line, the reference to "Long. 68°-57'00'" should read "Long. 68°00'00'".

[14 CFR Part 71]

[Airspace Docket No. 73-EA-67]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the Newark, N.J., control zone (38 FR 405).

New NDB and ILS instrument approach procedures prescribed for Newark International Airport and a review of the terminal airspace requirements for the Newark, N.J. terminal area indicates that alteration of the control zone is required to provide controlled airspace in consonance with Terminal Instrument Procedures (TERPS).

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before Sept. 17, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Newark, New Jersey, proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations by deleting the description of the Newark, N.J., control zone and by substituting the following in lieu thereof:

Within a 5-mile radius of the center, 40°-41'40" N., 74°10'02" W., of Newark International Airport, Newark, N.J., extending clockwise from a 030° bearing to a 263° bearing from the airport; within a 6-mile radius of the center of the airport, extending clockwise from a 263° bearing to a 342° bearing from the airport; within a 5.5-mile radius of the center of the airport, extending clockwise from a 342° bearing to a 030° bearing from the airport; within 2 miles each side of the Newark International Airport Runway 4L ILS localizer course, extending from the 5-mile radius to 2.5 miles northeast of the Chelsea OM and within 3 miles each side of the Kennedy VORTAC 283° radial extending from 22 miles to 29 miles northwest of the VORTAC.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on August 2, 1973.

L. J. CARDINALI,
Acting Director, Eastern Region.

[14 CFR Part 71]

[Airspace Docket No. 73-SW-52]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to alter controlled airspace in the Del Rio, Tex., terminal area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before September 17, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

1. In § 71.171 (38 FR 351), the Del Rio, Tex., control zone is amended to read:

DEL RIO, TEX.

Within a 5-mile radius of Laughlin AFB (latitude 29°21'35" N., longitude 100°46'35" W.); within 2 miles each side of the Laughlin VOR 297° radial extending from the 5-mile radius zone to 7 miles northwest of the VOR; within 3 miles each side of the Laughlin TACAN 315° radial extending from the 5-mile radius zone to 14 miles northwest of the TACAN; within 3 miles each side of the Laughlin VOR 330° radial extending from the 5-mile radius zone to 12 miles northwest of the VOR, and within 3 miles each side of the Laughlin VOR 147° radial extending from the 5-mile radius zone to 12 miles southeast of the VOR. This control zone is effective during the specific dates and times established in advance by Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

2. In § 71.181 (38 FR 435), the Del Rio, Tex., transition area is amended to read:

DEL RIO, TEX.

That airspace extending upward from 700 feet above the surface within a 12-mile radius of latitude 29°23'00" N., longitude 100°50'15" W., and within 4.5 miles west and 9.5 miles east of the Laughlin VOR 147° radial extending from the 12-mile radius area to 22 miles southeast of the VOR and within 9.5 miles east of the Laughlin VOR 330° radial extending from the 12-mile radius area to 18 miles northwest of the VOR, excluding the portion outside the United States.

The proposed amendments to controlled airspace will provide controlled airspace for aircraft executing current and proposed instrument approach and departure procedures and will conform the airspace to the current criteria.

This amendment is proposed under the authority of Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, TX., on August 7, 1973.

HENRY L. NEWMAN,
Director, Southwest Region.

[14 CFR Part 71]

[Airspace Docket No. 73-WA-10]

MINNEAPOLIS, MINNESOTA

Proposed Terminal Control Area

The Federal Aviation Administration (FAA) is considering the adoption of a Group II Terminal Control Area (TCA) for Minneapolis, Minnesota. Rules for the control and segregation of all aircraft operated within terminal control areas are contained in Part 91, §§ 91.70 and 91.90 of the Federal Aviation Regulations. Further information concerning flight within TCAs is contained in FAA Advisory Circular 91-30, Terminal Control Areas (TCAs), dated June 11, 1970.

Interested persons may participate in the proposed rule making by submitting

V 38-159 AUG 17 73 XUM

such written data, views or arguments as they may desire. Additionally, comments are invited on the potential impacts of this proposal on the quality of the human environment. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Ill. 60018. All communications received on or before October 16, 1973 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Rules Docket, Room 916, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The establishment of terminal control areas at 22 large hub airports was proposed in Notice 69-41 and supplemental notices thereto, and adopted on May 20, 1970 (35 FR 7782), to create a safer environment in those congested terminal areas. The need for TCAs has been well established, and a priority implementation schedule has been developed which is based on the air traffic congestion at each location, the capability of the terminal air traffic control facility to provide separation service to VFR aircraft, the experience gained from earlier established TCAs, and the publication dates of associated aeronautical charts.

The issue of whether or not to establish a TCA at each of the specified locations was decided as a result of Notice 69-41 and is not within the scope of this Notice. This Notice is intended to produce the input necessary to design an appropriate airspace configuration that can provide the safest environment with the least impact on the airspace users. TCAs have now been designated at all Group I locations, and this Notice proposes a configuration for a Group II TCA at Minneapolis, Minn.

On June 15, 1973, the FAA held an FAA/Industry meeting in Minneapolis to consider user operational requirements. The proposal contained herein was presented at the meeting and was acceptable to those in attendance.

In consideration of the foregoing and for reasons stated in Docket No. 9880 (35 FR 7782), it is proposed to amend Part 71 of the Federal Aviation Regulations by adding the following to § 71.401(b) Group II Terminal Control Areas.

MINNEAPOLIS, MINN., TERMINAL CONTROL AREA

Primary Airport. Minneapolis-St. Paul International Airport (Lat. 44°53'03"N., Long. 93°12'54"W.)

Minneapolis-St. Paul Distance Measuring Equipment (DME) Antenna (Lat. 44°52'28"N., Long. 93°12'21"W.)

BOUNDARIES

1. *Area A.*—That airspace extending upward from the surface to and including 8,000 feet MSL within a 6-mile radius of Minneapolis-St. Paul International Airport DME antenna.

2. *Area B.*—That airspace extending upward from 2300 feet MSL to and including 8,000 feet MSL within an 8.5-mile radius of Minneapolis-St. Paul International Airport DME antenna excluding Area A previously described.

3. *Area C.*—That airspace extending upward from 3,000 feet MSL to and including 8,000 feet MSL within a 12-mile radius of Minneapolis-St. Paul International Airport DME antenna excluding Areas A and B previously described.

4. *Area D.*—That airspace extending upward from 4,000 feet MSL to and including 8,000 feet MSL within a 20-mile radius of Minneapolis-St. Paul International Airport DME antenna excluding Areas A, B, and C previously described.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on August 10, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

LIGHTWEIGHT VEHICLE EXEMPTION

Notice of Public Hearings

In an advance notice of proposed rule making, Docket No. MC-50, published in the FEDERAL REGISTER on July 23, 1973 (38 FR 19692), the Director, Bureau of Motor Carrier Safety advised that he is in receipt of petitions seeking an exemption for certain lightweight vehicles from the accident-reporting requirements in the Motor Carrier Safety Regulations, and a separate petition for a total exemption from the regulations for the operations of all vehicles with a gross vehicle weight rating of 10,000 pounds and under. The notice invited comments on the subjects of the petitions and announced that public hearings on those subjects would be held in Washington, D.C.; San Francisco, California; and Kansas City, Missouri.

The purpose of this notice is to announce that the exact date, time, and location of the hearings is as follows:

Location	*Time and Date*
Dept. of Transportation, Nassif Building, 400 7th Street, SW Room 2230 Washington, D.C. 20590	Sept. 18, 1973 9 a.m.
Federal Building, 450 Golden Gate Avenue Room 13450 San Francisco, Calif. 94102	Oct. 10, 1973 9 a.m.
Federal Office Building, 601 E. 12th Street Room 140 Kansas City, Mo. 64106	Nov. 1, 1973 9 a.m.

Any person who wishes to present a written statement at the hearings should provide three copies of such statement for the Bureau of Motor Carrier Safety. Any person who wishes to make an oral statement at the hearings should notify the Director of the Bureau of Motor Carrier Safety, Washington, D.C. 20590, at least ten days prior to the date of the hearing at which he wishes to testify, stating the amount of time required for his initial statement.

This notice is given pursuant to section 10(a)(2) of Public Law 92-463, Federal Advisory Committee Act, effective January 5, 1973.

Issued on August 14, 1973.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[R 4330]

CALIFORNIA

Classification of Public Land for Disposal by Exchange

Pursuant to section 7 of the Act of June 28, 1934 (48 Stat. 1272), as amended (43 U.S.C. 315f), and to the regulations in 43 CFR 2400.0-3, the national resource lands described below are hereby classified for disposal by private exchange under the Act of June 28, 1934, as amended (48 Stat. 1272; 43 U.S.C. 315g) for lands within the Riverside District.

SAN BERNARDINO MERIDIAN, CALIFORNIA

T. 8 N., R. 4 W.,
sec. 6, all
sec. 7, all
sec. 10, NW¼NE¼, NW¼
sec. 18, all
sec. 19, lot 1 of NW¼, W½NE¼
T. 9 N., R. 4 W.,
sec. 31, all
T. 8 N., R. 5 W.,
sec. 2, all
sec. 3, all
sec. 10, all
sec. 11, all
sec. 12, all

The area described aggregates 6224.38 acres in San Bernardino County.

The notice of proposed classification was published on May 22, 1973 (38 FR 13587). The description of lands in that notice is modified to include Lot 1 of NW¼ and W½NE¼, Sec. 19, T. 8 N., R. 4 W., S.B.M. in this classification.

One protest was filed by a grazing lessee and two other protests were filed in his behalf during the period allowed in the notice of proposed classification. However, the protests relate to lands under lease in another area and have no bearing on the lands in the exchange classification. The lessee does have another grazing lease of which 1,280 acres are involved in the classification. This acreage represents only 3.5 percent of the total area under lease and disposition of the land will not significantly affect his grazing operations. The grazing use will be terminated with respect to the lands involved in the exchange classification upon transfer out of Federal ownership.

In accordance with the regulations in 43 CFR 2202.5, filing of a valid formal exchange application will segregate lands from appropriation under the public land laws, including the mining laws.

This classification shall be subject to the exercise of supervisory authority by the Secretary of the Interior for the purpose of administrative review. Interested parties may submit comments, suggestions or objections to the Secretary of the Interior, LLM, 320, Washington, D.C. 20240 on or before September 20, 1973.

J. R. PENNY,
State Director.

Office of Hearings and Appeals

[Docket No. M 74-11]

A. & W. AUGER CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), A. & W. Auger Corporation, located at Wartburg, Tennessee, has filed a petition to modify the application of 30 CFR 77.1605(k) to its Mine No. 1, Auger.

30 CFR 77.1605(k) reads as follows:

(k) Berms or guards shall be provided on the outer bank of elevated roadways.

In support of its petition, petitioner states that the addition of berms or guardrails would make it impossible to maintain proper drainage and would hamper snow removal. The road would ice over during winter months and the grader now used for maintenance could no longer be used. Petitioner also states

V 38 159 AUG 17 73 XUM

that additional man-hours and equipment would be needed for road maintenance which would result in an increased accident potential during snow and ice conditions. The installation of guardrails would not be effective because they would have to built on fill material.

As an alternative method petitioner wishes to continue maintaining its roads by its currently existing methods. Petitioner states that by using its current methods of maintenance, its roads, are as safe as possible.

Petitioner contends that the application of the mandatory standard will result in a diminution of safety to miners in the affected area. Petitioner contends that berms and guardrails would create a drainage hazard by creating improper drainage which would cause washouts and hazardous conditions in wet weather. The road is too narrow to build berms, therefore, solid rock would have to be blasted, resulting in a highwall which would be a new hazard.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before September 17, 1973. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES M. DAY,
Director,
Office of Hearings and Appeals.

SALMON RIVER-ROARING RIVER LAND USE PLAN, MT. HOOD NATIONAL FOREST

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Salmon River-Roaring River Land Use Plan, Mt. Hood National Forest, Oregon USDA-FS-DES-Adm 73-82.

The environmental statement concerns a proposed plan for the management of 81,700 acres in the Mt. Hood National Forest, including portions of two inventoried roadless areas. The proposal allocates land use and establishes management direction for eight subunits which are identified as being suitable for multiple-use, back country, landscape management zones or special interest areas.

This draft environmental statement was filed with CEQ 7-3-73.

Copies are available for inspection during regular working hours at the following locations:

USDA Forest Service
South Agriculture Bldg., Room 3230
12th St. & Independence Ave., S.W.
Washington, D.C. 20250

USDA Forest Service
Pacific Northwest Region
319 S.W. Pine Street
Portland, Oregon 97208

USDA Forest Service
Mt. Hood National Forest
340 N.E. 122nd Avenue
Portland, Oregon 97216

A limited number of single copies are available upon request to Forest Supervisor, Wright T. Mallery, Mt. Hood National Forest, P.O. Box 16040, Portland, Oregon 97216.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Please refer to the name and number of the environmental statement when ordering.

Copies of the environmental statement have been sent to various Federal, State and local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor, Wright T. Mallery, Mt. Hood National Forest, P.O. Box 16040, Portland, Oregon 97216. Comments must be received by November 1, 1973 in order to be considered in the preparation of the final environmental statement.

PHILIP L. THORNTON,
Deputy Chief, Forest Service.

Office of the Secretary

NATIONAL RICE ADVISORY COMMITTEE

Notice of Reestablishment

Notice is hereby given that the Secretary of Agriculture has reestablished the National Rice Advisory Committee for the purpose of advising the Secretary and other officials on domestic and export requirements for rice, production adjustment, and stabilization programs, and other matters relating to this commodity. The Secretary has determined that reestablishment of this committee is in the public interest in connection with the duties imposed on the Department by law.

The chairman of this committee is the Assistant Secretary for International Affairs and Commodity Operations, U.S. Department of Agriculture, Washington, D.C. 20250.

This notice is given in compliance with Public Law 92-463.

JOSEPH R. WRIGHT, JR.,
Assistant Secretary for Administration.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

Notice of Meeting

The Computer Systems Technical Advisory Committee of the U.S. Department of Commerce will meet August 30, 1973, at 9:30 a.m. in Room 6802 of the Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

Members advise the Office of Export Control, Bureau of East-West Trade, with respect to questions involving technical matters, worldwide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to computer systems, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

Agenda items are as follows:

1. Comments on minutes of previous meeting.
2. Presentation of papers or comments by the public.
3. Report on the work program.
4. Discussion of other necessary work assignments.
5. Executive Session:
   Discussion of, and progress report on, the work program:
   a. Foreign availability
   b. Performance characteristics
   c. Safeguards
6. Adjournment.

The Computer Systems Technical Advisory Committee was established January 3, 1973, and consists of technical experts from a representative cross-section of the industry in the United States and officials representing various agencies of the U.S. Government. The industry members are appointed by the Assistant Secretary for Domestic and International Business to serve a two-year term.

The public will be permitted to attend the discussion of agenda items 1-4, and a limited number of seats—approximately 25—will be available to the public for these agenda items. To the extent time permits, members of the public may present oral statements to the committee. Interested persons are also invited to file written statements with the committee.

With respect to agenda item (5), "Executive Session," the Assistant Secretary of Commerce for Administration, on July 17, 1973, determined, pursuant to Section 10(d) of P.L. 92-463, that this agenda item should be exempt from the provision of Sections 10(a)(1) and (a)(3), relating to open meetings and public participation therein, because the meeting will be concerned with matters listed in 5 USC 552(b)(1).

Further information may be obtained from Rauer H. Meyer, Director, Office of Export Control, Room 1886C, U.S. Department of Commerce, Washington, D.C. 20230 (A/C 202 + 967-4293).

Minutes of those portions of the meeting which are open to the public will be available 30 days from the date of the meeting upon written request addressed to: Central Reference and Records Inspection Facility, U.S. Department of Commerce, Washington, D.C. 20230.

Dated: August 15, 1973.

STEVEN LAZARUS,
Deputy Assistant Secretary for East-West Trade, U.S. Department of Commerce.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

GRIFFITH LABORATORIES, INC., ET AL.

Bread Deviating From Identity Standard; Temporary Permit for Market Testing

Pursuant to § 10.5 (21 CFR 10.5) concerning temporary permits to facilitate market testing of foods deviating from the requirements of standards of identity promulgated pursuant to section 401 of the Federal Food, Drug, and Cosmetic Act, notice is given that a temporary permit has been issued jointly to The Griffith Laboratories, Inc., 1415 West 37th St., Chicago, IL 60609; American Bakeries Co., 10 Riverside Plaza, Chicago, IL 60606; The Kreamo Bakers, Inc., 1910 Lincolnway West, South Bend, IN 46628; Bunny Bread Company, Inc., 5646 Lewis Rd., New Orleans, LA 70126, and Roskam Baking Company, Inc., 1140 Butterworth Avenue, SW., Grand Rapids, MI 49504.

This permit covers limited interstate market tests of bread, enriched bread, milk bread, raisin bread, and whole wheat bread, including the corresponding rolls and buns, that deviate from the respective standards of identity (§§ 17.1, 17.2, 17.3, 17.4, and 17.5) in that they contain added: (a) hydrolyzed wheat gluten in a quantity not to exceed 0.3 part for each 100 parts by weight of flour used, and (b) sodium acetate, sodium butyrate, sodium isobutyrate, sodium valerate, sodium isovalerate, and sodium hexanoate, alone or in any combination, in a total quantity not to exceed 0.006 part for each 100 parts by weight of flour used.

The principal display panel of the label on each container will bear a statement listing those ingredients itemized in (a) and (b) above which are added to the food. The statement will appear immediately following the name of the food except that other required information may intervene.

This permit will expire one year after the food is first introduced or delivered for introduction into interstate commerce or on the date when an amendment to the identity standard for bread (21 CFR 17.1) permitting the use of the specified ingredients becomes effective, whichever is sooner.

Dated: August 10, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Interstate Land Sales Registration

[Docket No. N-73-187; OILSR 0-0486-60-17]

ST. HUBERT 226

Order of Suspension

Notice is hereby given that on June 21, 1973, the Department of Housing and Urban Development, Office of Interstate Land Sales Registration, published in the FEDERAL REGISTER a notice of proceedings and opportunity for hearing, pursuant to 44 U.S.C. 1508, informing the Developer of alleged untrue statements or omissions of material facts in the Developer's statement of record (38 FR 16264). The Developer has failed to request a hearing pursuant to 24 CFR 1720.160 within 15 days of said notice. Accordingly, pursuant to 15 U.S.C. 1706(d) and 24 CFR 1710.45(b)(1), the order of suspension is being issued as follows:

ORDER OF SUSPENSION

1. Overseas Investors and Developers Corporation, hereinafter referred to as the Developer, being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq) and the rules and regulations lawfully promulgated thereto pursuant to 15 U.S.C. 1718, has filed its statement of record covering its subdivision located in Canada, (OILSR No. 0-0486-60-17), which became effective September 15, 1969, pursuant to 24 CFR 1710.21 of the Interstate Land Sales Regulations. Said statement is still in effect.

2. Pursuant to lawful delegation, as authorized by 15 U.S.C. 1715, the authority and responsibility for administration of the Interstate Land Sales Full Disclosure Act has been vested in the Interstate Land Sales Administrator.

3. Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1710.45(b)(1), if it appears to the Interstate Land Sales Administrator at any time that a statement of record, which is in effect, includes any untrue statement of a material fact or omits to state any material fact required to be stated therein or necessary to make the statement therein not misleading, the Administrator may, after notice, and after an opportunity for a hearing requested within 15 days of receipt of such notice, issue an order suspending the statement of record.

4. A notice of proceedings and opportunity for hearing was published in the FEDERAL REGISTER on June 21, 1973, pursuant to 44 U.S.C. 1508, informing the Developer of information obtained by the Office of Interstate Land Sales Registration showing an untrue statement of a material fact or an omission of a material fact required to be stated therein or necessary to make the statements therein not misleading in the above-specified statement of record (38 FR 16264). The Developer was notified of his right to request a hearing and that if he failed to request a hearing he would be deemed in default and the proceedings would be determined against him, the allegations of which would be determined to be true. The Developer has failed to request a hearing pursuant to 24 CFR 1720.160 within 15 days of publication of said notice of proceedings and opportunity for hearing.

Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1710.45(b)(1), the statement of record filed by the Developer covering its subdivision is hereby suspended, effective as of August 17, 1973. This order of suspension shall remain in full force and effect until the statement of record has been properly amended as required by the Interstate Land Sales Full Disclosure Act and the implementing Regulations.

Any sales or offers to sell made by the Developer or its agents, successors, or assigns while this order of suspension is in effect will be in violation of the provisions of said Act.

Issued in Washington, D.C., Aug. 13, 1973.

By the Secretary.

GEORGE K. BERNSTEIN,
Interstate Land Sales Administrator.

JOHN R. MCDOWELL,
Interstate Land Sales Deputy Administrator.

ATOMIC ENERGY COMMISSION

[Docket No. 50-237]

COMMONWEALTH EDISON CO.

Notice of Consideration of Conversion of Provisional Operating License to Full-Term Operating License and of Opportunity for Hearing

The Atomic Energy Commission (the Commission) will consider the issuance of a full-term facility operating license to the Commonwealth Edison Company (the licensee) which would authorize the licensee to possess, use and operate the Dresden Nuclear Power Station Unit 2 (the facility), located in Grundy County, Illinois, at its presently licensed steady state power level of up to 2527 megawatts (thermal) for a period of 40 years from the January 10, 1966, issuance

V 38-159 AUG 17 73 XUM

date of the construction permit (CPPR–18) in accordance with the provisions of the license and the Technical Specifications appended thereto, upon the completion of a favorable safety evaluation of the application by the Commission's Directorate of Licensing, the completion of the environmental review required by the Commission's regulations in 10 CFR Part 50, Appendix D, the receipt of a report on the application from the Advisory Committee on Reactor Safeguards (ACRS), and a finding by the Commission that the application (as amended) for the full-term facility license complies with the requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations in 10 CFR Chapter I. The facility is presently being operated in accordance with Provisional Operating License No. DPR–19 issued by the Commission on December 22, 1969.

The full-term license will not be issued until the Commission has made the findings, reflecting its review of the application under the Act which will be set forth in the proposed license, and has concluded that the issuance of the license will not be inimical to the common defense and security or to the health and safety of the public. The licensee has satisfied its obligation concerning indemnification as required by section 170 of the Act and 10 CFR Part 140 of the Commission's regulations.

The facility is subject to the provisions of section A of Appendix D to 10 CFR Part 50, which sets forth procedures applicable to review of environmental considerations for production and utilization facilities.

On or before September 17, 1973, the licensee may file a request for a hearing with respect to the issuance of a full-term facility operating license, and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice" in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed within the time prescribed in this notice, the Commission or an atomic safety and licensing board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel will rule on the request and/or petition and the Secretary of the Commission or the designated atomic safety and licensing board will issue a notice of hearing or an appropriate order.

A petition for leave to intervene must be filed under oath or affirmation in accordance with the provisions of 10 CFR 2.714. As required by 10 CFR 2.714, a petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) the nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

A request for a hearing or a petition for leave to intervene must be filed either by mail with the Office of the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, or by delivery to the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., not later than September 17, 1973. A copy of the petition and/or request should also be sent to the Chief Hearing Counsel, U.S. Atomic Energy Commission Washington, D.C. 20545, and to John W. Rowe, Esquire, Isham, Lincoln & Beale, Counselors at Law, One First National Plaza, Chicago, Illinois 60670, attorney for the licensee.

A petition for leave to intervene which is not timely will not be granted unless the Commission, the presiding officer, or the atomic safety and licensing board designated to rule on the petition and/or request determines that the petitioner has made a substantial showing of good cause for failure to file on time and after considering those factors specified in 10 CFR § 2.714(a)(1)–(4) and § 2.714(d).

For further details pertinent to the matters under consideration, see the licensee's application for conversion of Provisional Operating License No. DPR–19 to a full-term operating license dated November 15, 1972 (as substantially supplemented by filing dated March 16, 1973), the licensee's Environmental Report dated July 24, 1970, and the supplements thereto dated November 8, 1971, January 10, 1972, October 18, 1972, January 15, 1973, and March 12, 1973, and the Commission's Draft Environmental Statement issued June 1973, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Morris Public Library 604 Liberty Street, Morris, Illinois 60451. As they become available, the following documents may be inspected at the above locations: (1) the Safety Evaluation prepared by the Directorate of Licensing; (2) the Commission's Final Environmental Statement; (3) the report of the Advisory Committee on Reactor Safeguards on the application for a full-term facility operating license; (4) the proposed full-term operating license, and (5) the proposed technical specifications, which will be attached to the proposed full-term facility operating license.

Copies of items (1), (2), (3), and (4) may be obtained when available by request to the Deputy Director for Reactor Projects, Directorate of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Dated at Bethesda, Maryland this 6th day of August 1973.

For the Atomic Energy Commission.

ROBERT W. REID,
Acting Chief, Operating Reactors Branch No. 2, Directorate of Licensing.

[FR Doc.73–17001 Filed 7–16–73;8:45 am]

[Docket No. 50–249]

COMMONWEALTH EDISON CO.

Notice of Opportunity for Hearing

The Commonwealth Edison Company (the licensee) is the holder of Operating License No. DPR–25 (the operating license), issued by the Atomic Energy Commission on January 12, 1971. The operating license authorizes the licensee to possess, use, and operate a boiling water nuclear reactor, designated as the Dresden Nuclear Power Station Unit 3, at steady-state power levels up to a maximum of 2527 megawatts (thermal) at the licensee's site in Grundy County, Illinois, in accordance with the provisions of the license and the technical specifications appended thereto.

The facility is subject to the provisions of section B of Appendix D to 10 CFR Part 50, which sets forth procedures applicable to review of environmental considerations for production and utilization facilities for which construction permits or operating licenses were issued in the period January 1, 1970–September 9, 1971. Notice is hereby given, pursuant to the Commission's rules of practice, 10 CFR Part 2 and Appendix D to 10 CFR Part 50, implementation of the National Environmental Policy Act of 1969, that the Commission is providing an opportunity for hearing with respect to whether, considering those matters covered by Appendix D to 10 CFR Part 50, the existing full-term facility operating license should be continued, modified, terminated or appropriately conditioned to protect environmental values.

On or before September 17, 1973, the applicant may file a request for a hearing with respect to whether, considering those matters covered by Appendix D of 10 CFR Part 50, the subject facility operating license should be continued, modified, terminated, or appropriately conditioned to protect environmental values, and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's rules of practice

in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed within the time prescribed in this notice, the Commission or an atomic safety and licensing board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel will rule on the request and/or petition and the Secretary or the designated atomic safety and licensing board will issue a notice of hearing or an appropriate order.

A petition for leave to intervene must be filed under oath or affirmation in accordance with the provisions of 10 CFR 2.714. As required in 10 CFR 2.714, a petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

A request for a hearing or a petition for leave to intervene must be filed with the Office of the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, or may be delivered to the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., not later than September 17, 1973. A copy of the petition and/or request should also be sent to the Chief Hearing Counsel, Office of the General Counsel, U.S. Atomic Energy Commission, Washington, D.C. 20545 and to John W. Rowe, Esquire, Isham, Lincoln & Beale, Counselors at Law, One First National Plaza, Chicago, Illinois 60670, attorney for the licensee.

A petition for leave to intervene which is not timely will not be granted unless the Commission, the presiding officer, or the atomic safety and licensing board designated to rule on the petition and/or request determines that the petitioner has made a substantial showing of good cause for failure to file on time and after considering those factors specified in 10 CFR 2.714(a)(1)–(4) and 2.714(d).

For further details pertinent to the matter under consideration, see the licensee's Environmental Report dated July 24, 1970, and the supplements thereto dated November 8, 1971, January 10, 1972, October 18, 1972, January 15, 1973 and March 12, 1973, and the Commission's Draft Environmental Statement issued June 1973, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Morris Public Library, 604 Liberty Street, Morris, Illinois 60451.

When the Commission's Final Environmental Statement is issued, it will be available at the above locations and a copy may be obtained by request to the Deputy Director for Reactor Projects, Directorate of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

For the Atomic Energy Commission.

Dated at Bethesda, Maryland this 6th day of August 1973.

ROBERT W. REID,
Acting Chief, Operating Reactors Branch #2, Directorate of Licensing.

[FR Doc.73–17002 Filed 8–16–73;8:45 am]

[Docket Nos. 50–438 and 50–439]

TENNESSEE VALLEY AUTHORITY

Notice of Receipt of Application for Construction Permits and Facility Licenses and Availability of Applicant's Draft Environmental Statement: Time for Submission of Views on Antitrust Matter

The Tennessee Valley Authority (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed an application, which was docketed June 21, 1973, for authorization to construct and operate two generating units utilizing pressurized water nuclear reactors. The application was tendered on May 14, 1973. Following a preliminary review for completeness, it was accepted on June 14, 1973 for docketing.

The proposed nuclear facility, designated by the applicant as the Bellefonte Nuclear Plant, Units 1 and 2, is located at the Bellefonte site in Jackson County, Alabama, approximately six miles northeast of Scottsboro, Alabama. Each unit is designed for initial operation at a core power level of 3413 megawatts (thermal), and a gross electrical output of 1329 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before September 4, 1973. The request should be filed in connection with Docket Nos. 50–438–A and 50–439–A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545, and at the Scottsboro Public Library, 1002 South Broad Street, Scottsboro, Alabama 35768.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, a Draft Environmental Statement (in lieu of an environmental report) since TVA like other Federal agencies is subject to the requirements of Section 102 of the National Environmental Policy Act of 1969. The Statement (report) has been made available for public inspection at the aforementioned locations. The Statement, which discusses environmental considerations related to the proposed construction of the Bellefonte Nuclear Plant, Units 1 and 2, is also being made available at the Alabama Development Office, State Office Building, Montgomery, Alabama 36104 and Top of Alabama Regional Council of Governments, P.O. Box 308, City Hall 6th Floor, Huntsville, Alabama 35801.

After TVA's Statement has been analyzed by the Commission's Director of Regulation or his designee, an AEC Draft Environmental Statement will be prepared in accordance with the Commission's procedures in Appendix D to 10 CFR Part 50. Upon preparation of the AEC Statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of its availability requesting comments from interested persons. The summary notice will also state that comments of Federal agencies and State and local officials on the AEC Statement will be made available when received.

Dated at Bethesda, Maryland, this 23rd day of July 1973.

For the Atomic Energy Commission.

A. SCHWENCER,
Chief, Pressurized Water Reactors Branch No. 4 Directorate of Licensing.

[FR Doc.73–15782 Filed 8–2–73;8:45 am]

MILLSTONE POINT CO.

Receipt of Attorney General's Advice and Time for Filing of Petitions To Intervene on Antitrust Matters

The Commission has received, pursuant to section 105c of the Atomic Energy Act of 1954, as amended, a letter of advice from the Attorney General of the United States, dated August 10, 1973, a copy of which is attached as Appendix A.

Any person whose interest may be affected by this proceeding may, pursuant to § 2.714 of the Commission's rules of practice, 10 CFR Part 2, file a petition for leave to intervene and request a hearing on the antitrust aspects of the application. Petitions for leave to intervene and requests for hearing shall be filed in

V 38-159 AUG 17 73 XUM

the FEDERAL REGISTER by September 20, 1973 either (1) by delivery to the AEC Public Document Room at 1717 H Street, NW., Washington, D.C., or (2) by mail or telegram addressed to the Secretary, U.S. Atomic Energy Commission, Washington, D.C., 20545, Attn: Chief, Public Proceedings Branch.

For the Atomic Energy Commission.

ABRAHAM BRAITMAN,
Chief, Office of Antitrust & Indemnity, Directorate of Licensing.

APPENDIX A

Re: Connecticut Light and Power Company et al., Millstone Nuclear Power Station Unit No. 3, AEC Docket No. 50-423A, Department of Justice File 60-415-65.

AUGUST 10, 1973.

You have requested our advice pursuant to section 105 of the Atomic Energy Act of 1954, as amended by P.L. 91-560, in regard to the above-captioned application.

The applicants. Unit 3 of the Millstone Power Station is to be jointly owned by a rather large number of privately and publicly owned utilities in New England, and has been planned in conjunction with the region-wide generation expansion plan initiated by the New England Power Pool (NE POOL). The applicants fall into two groups. Nine of the applicants—all privately owned utilities—have made firm ownership commitments. The ownership shares are in the following percentages:

Connecticut Light & Power (CL&P)	39.750%
Hartford Electric Light Company (HELICO)	21.000%
Western Massachusetts Electric Company (WMECO)	14.250%
New England Power Company (NEPCO)	11.141%
United Illuminating Company (UI)	3.685%
Public Service Company of New Hampshire (PSNN)	3.891%
Central Vermont Public Service Corporation (CVPS)	3.694%
Montaup Electric Company (Montaup)	2.372%
Pitchburg Gas & Electric Light Company (Fitchburg)	0.217%
	100.000%

Northeast Utilities, the holding company system of which CL&P, HELCO and WMECO are members, thus is a 75% owner of Unit 3.

The second group of applicants are municipally owned electric companies, each of which will purchase its share of Unit 3 through one of the privately owned utility company applicants. CL&P, HELCO and WMECO (the NU companies) have agreed, provided certain conditions can be met, to make available to four municipal systems in Massachusetts presently served at wholesale by NU, a portion of their ownership interest, to wit:

Chicopee	1.35%
South Hadley Falls	.45%
Westfield	.90%
Holyoke (amount not yet announced)	

NEPCO has similarly agreed, upon fulfillment of various conditions, to apportion part of its ownership share among 13 of its municipal wholesale customers in Massachusetts, to wit:

Peabody	0.173%
North Attleborough	0.060%
Boylston	0.009%
West Boylston	0.029%
Wakefield	0.093%
Hull	0.027%
Shrewsbury	0.091%
Paxton	0.011%
Middleton	0.018%
Ashbrunham	0.011%
Templeton	0.015%
Ipswich	0.039%
Marblehead	0.057%

Finally, CVPS agreed to make available to the City of Burlington and Green Mountain Power Corporation 0.365% and 1.450% respectively. As an alternative, CVPS has offered all or part of its ownership interest to the Vermont Electric Power Corporation.

At this point it is uncertain whether all or any of the aforesaid municipal systems will actually become owners of Unit 3. There has been doubt that the municipal systems possess the requisite legal authority to participate in Unit 3, particularly as regards revenue bond authority. As is noted below, the Massachusetts legislature has now enacted legislation which will presumably remove all such legal obstacles and will permit the ownership participation by Massachusetts municipals.

Background. As we have previously indicated in our advice letter concerning the Boston Edison Company application for the Pilgrim Nuclear Power Station, AEC Docket No. 59-293, dated August 2, 1971, there have been allegations of anticompetitive behavior by the privately owned electric utilities against various municipal electric systems in New England, particularly in Massachusetts, during the past 10-12 years. Most of these allegations, together with the evidence bearing upon them are discussed in the brief filed by the Department of Justice in Eastern Electric Energy System holding company proceeding at the SEC. (A copy of this brief was furnished the Commission in conjunction with the Boston Edison application.)

The thread which runs throughout the allegations of anticompetitive behavior is that the large systems have in various ways precluded the small systems from gaining access to low cost bulk power supply on the same basis as the large systems. However, the situation has improved markedly in recent years. The contending factions—principally municipal systems in Massachusetts and Connecticut and the larger privately owned companies—have resolved many of the disputes of the past and are presently negotiating those which remain. For example, over the past 7 years there have been intensive discussions and negotiations concerning the formation of a New England power pool (NEPOOL) which would play a key role in the development, apportionment, delivery, and dispatch of future bulk power supply on a region-wide basis. Initially the publicly owned systems were excluded from such discussions, but several years ago all electric power systems, irrespective of type of ownership, were invited to participate; and a substantial number of publicly owned systems joined in the negotiations.

The record of progress in these negotiations to date is impressive. Most of the systems in the region—both publicly and privately owned—signed an agreement (The New England Power Exchange or NEPEX) which establishes centralized dispatch of bulk power supply on a regional basis. Negotiations concerning NEPOOL have been protracted, owing both to the enormous complexities of such an undertaking and the wide gap between the negotiating stances initially taken by the various participants. A pool agreement signed by most of the privately owned systems as well as by several publicly owned systems was submitted to the Federal Power Commission in November, 1971. However, many of the municipal systems, principally located in Massachusetts, disliked aspects of the agreement and refused to sign it. Instead, this group requested the FPC to refuse to accept the NEPOOL agreement for filing and thus rendering it at least temporarily inoperative. The Commission nonetheless accepted the agreement for filing and ordered a hearing to explore the issues raised by the municipal systems. In lieu of the FPC hearing, the parties returned to the bargaining table in hopes of negotiating away the problem areas. After the expenditure of considerable time, money and effort, the parties have agreed upon a settlement agreement, which is currently being circulated among the parties for signing. It is anticipated that the agreement will be signed by substantially all the electric systems in the region within the very near future.

The settlement agreement is multi-faceted. In the first place, it represents a compromise among the parties concerning the disputed portions of NEPOOL as filed with the FPC. The NEPOOL agreement as it now exists is much too complex and comprehensive to be fully described here. Suffice it to say that the NEPOOL agreement assures that bulk power supply for the entire region will henceforth be planned on a truly regional basis by the pool, and that each electric system in the region, irrespective of size, form of ownership or location, now has an opportunity to participate on the same basis as the large privately owned systems in the development and utilization of future bulk power supply arrangements. In fact, Millstone Unit No. 3 has been designated as a "Pool planned unit," and the 25% capacity excess to the needs of the NU system has been apportioned pursuant to the procedures set forth in the pool agreement.

The settlement agreement also provides that the signatories will not intervene in any proceeding in opposition to the grant of a license for any of 11 designated pool-planned units, including Millstone Unit No. 3. Accordingly, no system has filed a petition to intervene in opposition to the grant of a license for Millstone Unit No. 3.

Yet another facet of the settlement agreement concerns legislation. The privately owned systems agreed to support legislation in Massachusetts which would (1) permit municipal electric systems to issue revenue bonds so as to obtain the financing needed to allow ownership participation in the NEPOOL planned units and (2) sanction the participation by municipal systems in NEPOOL. For many years the municipal systems have sought revenue bond authority, and for years the privately owned companies have always succeeded in persuading the legislature not to grant such authority. It should be noted that all of the Massachusetts municipal system applicants for the Millstone Unit 3 license conditioned their willingness to acquire an ownership share upon the obtaining of such legislation. The Massachusetts legislature very recently passed the legislation, thus removing all legal impediments to participation by the Massachusetts municipals in NEPOOL and in NEPOOL planned facilities for bulk power supply.

Finally, the settlement agreement provides for the termination of the pending NEPOOL proceeding at the FPC, but we do not understand that this provision would preclude any NEPOOL member from subsequently bringing to the Commission's attention particular pool provisions which may produce unanticipated hardships or inequities.

Results of antitrust review. As noted earlier no systems have intervened in opposition to the grant of a license to the sponsors of Millstone Unit. No. 3. The inquiries which we made of electric power systems in New England relative to Unit No. 3 did reveal a few complaints, mostly from municipal systems. However, it should be noted that many of the responses are almost a year old, and thus were made before the settlement agreement was composed. One of the principal complaints—that NU, together with other private power companies, has consistently opposed revenue bond legislation needed by the municipal systems—has been eliminated in large part by the recent passage of such legislation in Massachusetts. The availability of revenue bond financing in connection with participation in NEPOOL planned units now makes access to Unit No. 3 a practical possibility for Massachusetts municipal systems.

Several of the municipal systems, noting that NU is the dominant factor in transmission in their regions, complain that NU transmission rates are too high. There is no allegation that NU has refused or does refuse to wheel power; hence there is no fact situation that such as gave rise to an antitrust violation in Otter Tail Power Co. v. United States, 93 S.Ct. 1022 (1973). In our judgment, the complaints which have been made about wheeling rates are more appropriately directed to the FPC, which exercises jurisdiction over such rates. It should also be noted that transmission of power from NEPOOL planned units to participating municipal systems is largely provided for under terms and conditions set forth in the basic NEPOOL agreement.

On February 13, 1973, a group of 6 municipal systems in Connecticut[1] filed an antitrust suit against CL&P, HELCO, NU and NU Service Co. seeking both treble damages and an injunction. All the plaintiffs have been wholesale customers of CL&P for many years. In 1972 CL&P filed a substantial rate increase with the FPC, and the 6 Connecticut municipals promptly intervened in opposition to the increase. The FPC set the matter down for a hearing, which is scheduled to commence in September 1973. The parties continued to negotiate about the rate, and it was in the midst of these negotiations that the antitrust complaint was filed. The defendants have filed an antitrust counterclaim against the municipal systems, and the case is pending. The pendency of the antitrust suit prompted the 6 Connecticut municipal systems to refuse to sign the NEPOOL settlement agreement and to decline membership in NEPOOL.

The 6 Connecticut municipal systems have not filed a petition for intervention in opposition to the grant of a license to Millstone Unit No. 3. We do not think it appropriate to pass judgment upon the allegations in the antitrust complaint, which have been denied by defendants. We note, however, that plaintiff's antitrust allegations are focussed upon the rates, terms, and conditions of CL&P's wholesale service to them. Several of the allegations as to restrictive contract and rate schedule provisions appear to relate to provisions previously, but no longer, in effect. Some of currently effective terms and conditions of CL&P's wholesale service have been put in issue in the FPC proceeding mentioned above. We have taken particular note of a provision contained in Appendix B to CL&P's Resale Service Rate Schedule-1, stating that "Energy supplied under this rate is not available for redelivery or economy interchange." The prohibition of "redelivery" would appear on its face to impose a substantial restriction on the buyer's use of purchased energy and to raise questions of inconsistency with the antitrust laws. See United States v. Arnold Schwinn & Co., 388 U.S. 365 (1967).

When we raised our concerns over this rate schedule provision with counsel for CL&P, we were informed that the company did not interpret the provision as imposing the broad restriction which the language, on its face, suggests and was willing to make a modification of that provision to make its intent clearer. Attached hereto is a letter from an official of CL&P setting forth the modification of Appendix B to CL&P's Rate Schedule-1 which the Company will announce its willingness to accept in the forthcoming FPC hearing.

Conclusion. In sum, negotiations among the contending factions in the New England power industry have produced what promises to be an era of good feeling. The anticompetitive behavior formerly attributed to the larger systems by the municipals has ceased to exist in most important respects, and the agreements among the systems which gave rise to this change in circumstance suggest that such anticompetitive behavior is unlikely to recur. Given this greatly improved situation and given the fact that the planning and development of Millstone Unit No. 3 was conducted pursuant to the principles laid down in the recent agreements, there appears to be no need for a hearing on the antitrust impact of Unit No. 3.

THE CONNECTICUT LIGHT AND POWER COMPANY, P.O. BOX 270, HARTFORD, CONNECTICUT 0601

Department of Justice
Washington, D. C.

Re: AEC Docket No. 50-423
Millstone Power Station Unit No. 3

AUGUST 8, 1973.

Gentlemen:

In the course of the antitrust review of the above nuclear license application being conducted by the Antitrust Division of the Department, a question has been raised as to the intent expressed in a provision of the electric tariff under which the Company is currently providing service to its wholesale electric customers in Connecticut. That tariff entitled "Resale Service Rate Schedule-1" was filed with the Federal Power Commission in 1972 and it became effective in January 1973 following a five months suspension.

Section I, Appendix B to the schedule provides in part as follows: "Energy supplied under this rate is not available for redelivery or economy interchange."

The question of the intent of the sentence just quoted has also been raised in the course of the current proceeding before the Federal Power Commission with respect to the rate schedule. We have been asked whether the provision is intended to forbid the use by one of the Company's customers of power supplied under the rate in resupplying a wholesale customer of its own. We have informed counsel representing our municipal customers in the proceeding that this was not the intent of the provision in question.

The hearing in the Federal Power Commission proceeding is scheduled to commence in September, 1973. Our presentation in that hearing will include an undertaking that the section in question in the rate schedule may be modified to read as follows in order to make our intent clear:

Availability and applicability. Power is supplied by the Company under this rate schedule for all or part of the Buyer's requirements for its own system use and resale to customers served from the Buyer's system. This rate schedule is not intended to specify the charges or terms and conditions of service which would be applicable if Buyer proposed to use the Company's transmission system in order to serve a customer not directly connected to its system.

Energy supplied under this rate is not available for economy interchange.

Power supplied under this rate schedule shall not be used by the Buyer or its customers in such a way as to cause an electrical disturbance on the lines of the Company or to impair the service rendered by the Company to any other customer.

Very truly yours,

THE CONNECTICUT LIGHT AND POWER COMPANY,
E. L. GROVE, JR.,
Vice President.

[1] Groton, Norwich, Jewett City, Wallingford and the Second and Third Taxing Districts of Norwalk.

[Docket No. 50-289]

METROPOLITAN EDISON CO. ET AL.

Notice of Prehearing Conference

AUGUST 15, 1973.

In the matter of Metropolitan Edison Co. et al. (Three Mile Island Nuclear Station, Unit 1).

A second prehearing conference in the above-captioned proceeding will be held at 10 a.m., local time, on Tuesday, August 28, 1973, in the House of Representatives Majority Caucus Room (Room 140), State Capitol, Harrisburg, PA 17108.

The purpose of the prehearing conference will be to consider the following matters:

1. Final specification of the issues, in the light of Intervenors' revised list of contentions filed on July 19, 1973;
2. Consideration of any stipulations filed by the parties;
3. Identification of witnesses;
4. Establishment of a schedule for the exchange of written testimony;
5. Establishment of a date for the hearing; and
6. Such other matters as may aid in the orderly disposition of the proceeding.

It is so ordered.

Issued at Washington, D.C., this 15th day of August 1973.

For the Atomic Safety and Licensing Board.

CHARLES A. HASKINS,
Chairman.

[FR Doc.73-17293 Filed 8-16-73;8:45 am]

[Docket No. 50-338, 50-339, 50-404, 50-405]

VIRGINIA ELECTRIC AND POWER CO.

Assignment of Members of Atomic Safety and Licensing Appeal Board

In the matter of North Anna Power Station, Units 1, 2, 3 and 4. Notice is hereby given that, in accordance with the authority in 10 CFR 2.787(a), the Chairman of the Atomic Safety and Licensing Appeal Panel has assigned the following panel members to serve as the Atomic Safety and Licensing Appeal Board for these proceedings:

Michael C. Farrar, Chairman
Dr. John H. Buck, Member
William C. Parler, Member

Dated: August 13, 1973.

ESTHER G. CUSATO,
Secretary to the Appeal Board.

CIVIL AERONAUTICS BOARD

[Docket No. 24488; Order 73-8-66]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Relating to Fares Over South Pacific

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 13th day of August, 1973. Docket No. 24488; Agreement C.A.B. 23596, R–1 through R–19; Agreement C.A.B. 23608, R–11; Agreement C.A.B. 23642, R–2.

By Order 73–7–55 of July 12, 1973, the Board approved an agreement adopted by the International Air Transport Association (IATA) which inter alia provided for certain increases in air fares for travel to/from the United States over the South Pacific. Due to the price freeze which became effective June 13, however, the U.S. carriers were prohibited from making tariff filings to implement the increased fares until further order of the Board.

Phase IV of the President's Economic Stabilization Program provides that air transportation charges will be exempt from further regulation of the Cost of Living Council. The purpose of this order is to authorize filing of the approved increases by U.S.- and foreign-flag carriers on not less than one day's notice.

Accordingly, it is ordered, That:

The U.S.- and foreign-flag carriers may file tariffs on not less than one day's notice implementing the increased fares in air transportation incorporated in Agreements C.A.B. 23596, C.A.B. 23608, and C.A.B. 23642, as approved by the Board in Order 73–7–55, July 12, 1973.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

NOTE: Minetti, member, filed a concurrence and dissent, which is filed as part of the original document.

[FR Doc.73-17181 Filed 8-16-73;8:45 am]

[Docket No. 24573]

WARDAIR CANADA LTD.

Notice of Hearing

In the matter of renewal and amendment of Foreign Air Carrier Permit (Canada-United States, and named third countries-United States: planeload (passenger and property), inclusive tour, and circle tour passenger charters).

Notice is hereby given that the hearing in the above-entitled matter postponed by notice dated November 3, 1972, (37 FR 23747), is scheduled to be held on September 6, 1973, at 10 a.m. (local time) in Room 503, Universal Building, 1825 Connecticut Avenue, NW, Washington, D.C.

Notice is also hereby given that revised proposed exhibits are to be circulated to all parties and to the Judge by August 24, 1973.

Dated at Washington, D.C., August 10, 1973.

[SEAL] FRANK M. WHITING,
Administrative Law Judge.

ENVIRONMENTAL PROTECTION AGENCY

CIBA-GEIGY CORP.

Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 3F1409) has been filed by CIBA-GEIGY Corp., Ardsley, NY 10502, proposing establishment of a tolerance (40 CFR Part 180) for residues of the herbicide 2-*tert*-butylamino-4-chloro-6-ethylamino-*s*-triazine in or on the raw agricultural commodities sorghum forage and grain at 0.1 part per million.

The analytical method proposed in the petition for determining residues of the herbicide and its triazine metabolites is a procedure in which the residue is extracted and then partitioned to separate the chloro and hydroxy compounds. The chloro compounds are determined by microcoulometric gas-liquid chromatography with halogen detector. The hydroxy compound is determined by thin-layer chromatography using silver nitrate-ultraviolet radiation detection.

Dated: August 9, 1973.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

ENVIRONMENTAL IMPACT STATEMENTS AND OTHER ACTIONS IMPACTING THE ENVIRONMENT

Availability of EPA Comments

Pursuant to the requirements of section 102(2)(C) of the National Environmental Policy Act of 1969 and section 309 of the Clean Air Act, as amended, the Environmental Protection Agency (EPA) has reviewed and commented in writing on Federal agency actions impacting the environment contained in the following appendices during the period of July 16, 1973, and July 31, 1973.

Appendix I contains a listing of draft environmental impact statements reviewed and commented upon in writing during this review period. The list includes the Federal agency responsible for the statement, the number and title of the statement, the classification of the nature of EPA's comments as defined in Appendix II, and the EPA source for copies of the comments as set forth in Appendix V.

Appendix II contains the definitions of the classifications of EPA's comments on the draft environmental impact statements as set forth in Appendix I.

Appendix III contains a listing of final environmental impact statements reviewed and commented upon in writing during this reviewing period. The listing will include the Federal agency responsible for the statement, the number and title of the statement, a summary of the nature of EPA's comments, and the EPA source for copies of the comments as set forth in Appendix V.

Appendix IV contains a listing of proposed Federal agency regulations, legislation proposed by Federal agencies, and any other proposed actions reviewed and commented upon in writing pursuant to section 309(a) of the Clean Air Act, as amended, during the referenced reviewing period. The listing includes the Federal agency responsible for the proposed action, the title of the action, a summary of the nature of EPA's comments, and the EPA source for copies of the comments as set forth in Appendix V.

Appendix V contains a listing of the names and addresses of the sources for copies of EPA comments listed in Appendices I, III, and IV.

Copies of the EPA Manual, setting forth the policies and procedures for EPA's review of agency actions, may be obtained by writing the Public Inquiries Branch, Office of Public Affairs, Environmental Protection Agency, Washington, D.C. 20460. Copies of the draft and final environmental impact statements referenced herein are available from the originating Federal department or agency or from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

Dated: August 10, 1973.

SHELDON MEYERS,
Director, Office of Federal Activities.

APPENDIX II

Adequacy of the Impact Statement

DEFINITION OF CODES FOR THE GENERAL NATURE OF EPA COMMENTS

Environmental Impact of the Action

LO—Lack of Objection
EPA has no objections to the proposed action as described in the draft impact statement; or suggests only minor changes in the proposed action.

ER—Environmental Reservations
EPA has reservations concerning the environmental effects of certain aspects of the proposed action. EPA believes that further study of suggested alternatives or modifications is required and has asked the originating Federal agency to reassess these aspects.

EU—Environmentally Unsatisfactory
EPA believes that the proposed action is unsatisfactory because of its potentially harmful effect on the environment. Furthermore, the Agency believes that the potential safeguards which might be utilized may not adequately protect the environment from hazards arising from this action. The Agency recommends that alternatives to the action be analyzed further (including the possibility of no action at all).

Category 1—Adequate
The draft impact statement adequately sets forth the environmental impact of the proposed project or action as well as alternatives reasonable available to the project or action.

Category 2—Insufficient Information
EPA believes that the draft impact statement does not contain sufficient information to assess fully the environmental impact of the proposed project or action. However, from the information submitted, the Agency is able to make a preliminary determination of the impact on the environment. EPA has requested that the originator provide the information that was not included in the draft statement.

Category 3—Inadequate
EPA believes that the draft impact statement does not adequately assess the environmental impact of the proposed project or action, or that the statement inadequately analyzes reasonable available alternatives. The Agency has requested more information and analysis concerning the potential environmental hazards and has asked that substantial revision be made to the impact statement.

Atomic Energy Commission			
F-AEC-06017-NY.	Nine Mile Point Nuclear Station, Unit 2, New York	EPA expressed satisfaction with the AEC's response to the radiological questions raised by EPA on the draft statement. However, EPA still has a problem with the water quality impact of the once through cooling system planned for the facility. EPA has requested that the proposed construction and operation schedules cited for unit 2 not be altered thereby enabling EPA a one year period in which the effects of the discharges from the unit 1 and Fitz Patrick plants may be physically monitored.	A
Department of Defense			
F-UAF-84009-00...	Testing of the advanced ballistic reentry systems (ABRES) radioactive sensors	EPA does not believe that the proposed testing will result in an unacceptable environmental impact. However, EPA expressed the belief that future tests involving flights with radioactive materials should be accompanied by a statement including a safety analysis.	A

APPENDIX IV

REGULATIONS, LEGISLATION AND OTHER FEDERAL AGENCY ACTIONS FOR WHICH COMMENTS WERE ISSUED BETWEEN JULY 16, 1973 AND JULY 31, 1973

Agency	Title	General nature of comments	Source for copies of comments
Atomic Energy Commission			
R-AEC-99021-00...	10 CFR Part 50—Licensing of production and utilization facilities.	In general EPA concurs with the proposed amendments described in the subject notice except for one matter. EPA recommended that the concepts used to determine reporting requirements for failures at various facilities be outlined in the final rules, and that the AEC provide for a mandatory notification if the limiting of control settings in nuclear fuel reprocessing plants does not function as required.	A
Department of Agriculture			
R-REA-99028-00...	7 CFR Part 1701—Appendix A—Rural electrification programs—Incentive payments by REA borrowers.	In general EPA's review has indicated that the matters covered in the above notice will not significantly affect air and water quality or other environmental protection areas under EPA's jurisdiction. Although we agree with the policy that REA borrowers should not use incentive payments to expand the use of electric power over other energy sources, we believe the rules should also preclude promoting nonessential demand for electric power.	A
L-DOA-99025-00...	The extension of the Agriculture Act of 1972.	EPA's comments suggest that a broader consideration of alternatives, including alternatives providing for environmental enhancement or actions to limit potentially adverse environmental effects of programs authorized by the act, be considered in the final impact statement and in the development of regulations implementing the act. The comments suggest that consideration be given to providing incentive for program participants to adopt practices to protect and enhance environmental values.	A

FEDERAL POWER COMMISSION

EL PASO NATURAL GAS CO.

Rate Schedule Cancellation and Service Agreement Tender

AUGUST 13, 1973.

Take notice that on July 5, 1973, El Paso Natural Gas Company ("El Paso") tendered for filing First Revised Sheet No. 14 to its FPC Gas Tariff, Original Volume No. 2A, which sheet cancels special Rate Schedule FS-2 contained in said tariff. El Paso also tendered for filing a Service Agreement dated May 1, 1973, between El Paso and the City of Spur, Texas, which according to El Paso, supersedes and cancels the Gas Sales Contract dated December 31, 1965, between El Paso and Cap Rock Gas Co., Inc. ("Cap Rock"), comprising Rate Schedule FS-2.

El Paso states that by an instrument of conveyance dated and effective May 1, 1973, Spur acquired from Cap Rock the distribution facilities serving Spur and, by the tendered Service Agreement, El Paso will continue natural gas service to Spur thereunder. Further, El Paso states the tendered service agreement also provides for a reduction in the maximum daily quantity of natural gas delivered to Spur from 1,720 Mcf per day to 900 Mcf per day and the elimination of the annual delivery obligation to Spur. El Paso filed concurrently with this tender a petition to amend the order issued August 21, 1969, as amended, at Docket No. CP69-23, requesting authorization for the reduction in maximum daily quantity and the elimination of the annual delivery obligation.

El Paso requests that the tendered tariff sheet and service agreement be accepted for filing and permitted to become effective on a date coincident with issuance of the amended order sought by the petition to amend filed concurrently herewith.

Any person desiring to be heard or to protest said Rate Schedule Cancellation and Service Agreement should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in an accordance with §§ 1.9 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 27, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-17121 Filed 8-16-73;8:45 am]

[Docket No. E-8323]

FLORIDA POWER AND LIGHT CO.

Change in Effective Date of Agreement

AUGUST 13, 1973.

Take notice that on July 31, 1973, Florida Power and Light Company (Florida) tendered a request for a change in the effective date of an agreement filed with the Commission on July 16, 1973. In the previous filing, Florida requested an effective date of September 16, 1973. Florida now asks that the effective date be changed to September 1, 1973.

Florida asserts that, since the effective date of the rate applicable under the agreement is September 1, 1973, the operational date of the agreement should be the same. To the extent necessitated by this request, Florida asks waiver of the notice requirements of the Commission's Regulations.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance, with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 17, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene.

KENNETH F. PLUMB,
Secretary.

SMALL BUSINESS ADMINISTRATION

INVESTMENT FUNDS, INC.

[License No. 03/04–0054]

Filing of Application for Transfer of Control of Licensed Small Business Investment Company

Notice is hereby given that an application has been filed with the Small Business Administration (SBA) pursuant to § 107.701 of the regulations governing small business investment companies (13 CFR 107.701(1973)), for application of the transfer of control of Investment Funds, Inc., 5513 Princess Anne Road, Virginia Beach, Virginia 23462, a Federal licensee under the Small Business Investment Act of 1958, as amended (the Act).

Investment Funds, Inc., was licensed on October 3, 1961, with private capital of $155,000, and it presently is at $260,760. The transfer of control will be from Investment Funds, Inc., to Equity Investment Funds, Inc., 213 East Main Street, Norfolk, Virginia 23510, with an increase in private capital up to $306,000.

Equity Investment Funds, Ins., is 100 percent owned by Equity Mortgage Corporation, 213 East Main Street, Norfolk, Virginia 23510. The only investor who will own 10 percent or more of Equity Mortgage Corporation and his position with Equity Investment Funds, Inc. is:

Gerald J. Friedman 6057 River Crescent Norfolk, Virginia 23505	President, Director

The other officers of Equity Investment Funds, Inc. are:

Thomas R. Dall 3604 Pine Road Portsmouth, Virginia 23704	Vice President, Director
Isadore S. Schwartz 300 Thole Street Norfolk, Virginia 23505	Secretary-Treasurer-Director
Samuel Sandler 234 North Blake Road Norfolk, Virginia 23505	Director

The proposed new owner does not intend to make any significant changes in the area of operations and investment policy. The principal office will be located at 213 East Main Street, Norfolk, Virginia 23510.

Matters involved in SBA's consideration of the application include the general business reputation and character of the proposed new owners, and the probability of successful operation of the company under their control and management in accordance with the Act and Regulations.

Notice is further given that any interested person may submit their comments on the proposed transfer of control to the Associate Administrator for Finance and Investment, Small Business Administration, 1441 L Street, NW., Washington, D.C. 20416, by August 27, 1973.

A similar notice shall be published by the proposed purchasers in a newspaper of general circulation in Norfolk, Virginia.

Dated: August 6, 1972.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[Declaration of Disaster Loan Area 1011]

PENNSYLVANIA

Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of July, 1973, because of the effects of a certain disaster, damage resulted to residences and business property located in the State of Pennsylvania;

Whereas, the Small Business Administration has investigated and has received reports of other investigations of conditions in the areas affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act, as amended;

Now, *Therefore,* as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Butler City and in and around Butler Township, Butler County, Pennsylvania, and adjacent affected areas, suffered damage or destruction resulting from overflow of small streams and flash flooding caused by heavy rains on July 25 and 26, 1973. Applications will be processed under the provisions of Public Law 93–24.

Office: Small Business Administration
District Office
1000 Liberty Avenue
Pittsburgh, Pennsylvania 15222

2. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to October 8, 1973.

Dated: August 9, 1973.

THOMAS S. KLEPPE,
Administrator.

Kevin I. Sullivan 81 Lehn Spring Drive Williamsville, New York 14221	Director
Donald Jerome Veniard 226 Elm Street Watertown, New York 13601	Director

The applicant with its principal place of business at 41 State Street, Albany, New York 12207, will begin operations with $300,000 of paid-in capital consisting of 200 shares of common stock sold to The New York Business Development Corporation.

The applicant will not concentrate its investments in any particular industry. It intends to supply equity capital to small business concerns not able to either attract investors or be successful in public offerings. To some extent, management advisory services will be made available to small business concerns by the staff.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owners and management, and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Act and the SBA Rules and Regulations.

Any person may, on or before August 27, 1973, submit to SBA written comments on the proposed Licensee. Any such communications should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 "L" Street, NW, Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Albany, New York.

Dated: August 8, 1973.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

TARIFF COMMISSION

[337–L–64]

ANALOG-TO-DIGITAL METERS

Extension of Time for Filing Written Views

On June 20, 1973, the United States Tariff Commission published notice of the receipt of a complaint under section 337 of the Tariff Act of 1930, filed by Weston Instruments, Inc., of Newark, New Jersey, alleging unfair methods of competition and unfair acts in the importation and sale of certain analog-to-digital meters (38 FR 16118). Interested parties were given until July 30, 1973, to file written views pertinent to the subject matter of a preliminary inquiry into the allegations of the complaint. The Commission has extended the time for filing written views until the close of business on September 28, 1973.

Issued: August 14, 1973.

By order of the Commission.

G. PATRICK HENRY,
Acting Secretary.

[AA1921–120]

CERAMIC GLAZED WALL TILE FROM THE PHILIPPINES

Determination of No Injury or Likelihood Thereof

AUGUST 10, 1973.

On May 11, 1973, the Tariff Commission received advice from the Treasury Department that ceramic glazed wall tile from the Philippines is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. In accordance with the requirements of section 201(a) of the Antidumping Act (19 U.S.C. 160(a)), the Tariff Commission instituted investigation No. AA1921–120 to determine whether an industry in the United States is being, or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

A public hearing was held on July 10, 1973. Notice of the investigation and hearing was published in the FEDERAL REGISTER of May 1, 1973 (38 FR 13788).

In arriving at a determination in this case, the Commission gave due consideration to all written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

On the basis of the investigation, the Commission has unanimously determined[1] that an industry in the United States is not being or is not likely to be injured, or is not prevented from being established, by reason of the importation of ceramic glazed wall tile from the Philippines, sold, or likely to be sold, at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

Statement of Reasons. The Antidumping Act, 1921, as amended, requires that the Tariff Commission find two conditions satisfied before an affirmative determination can be made. First, there must be injury, or likelihood of injury, to an industry in the United States, or an industry in the United States must be prevented from being established. Second, such injury, likelihood of injury, or prevention of establishment of an industry[2] must be "by reason of" the importation into the United States of the class or kind of foreign merchandise the

[1] Commissioner Young did not participate in the decision.

[2] The prevention of the establishment of an industry is not an issue in this case, and therefore will not be treated further.

V 38-159 AUG 17 73 XUM

Secretary of the Treasury has determined is being or is likely to be sold at less than fair value (LTFV). In the Commission's judgment the second condition has not been met in this investigation.

The product. Ceramic glazed wall tile imported from the Philippines is of lower quality when judged by specifications commonly adhered to by the U.S. industry and competes primarily in the apartment and condominium market, where lower quality tile is generally used. The industry that would be affected by the imports of Philippine tile at LTFV would be the facilities in the U.S. devoted to the manufacture of ceramic glazed wall tile.

U.S. consumption and import penetration. During 1967–69, U.S. apparent annual consumption of ceramic glazed wall tile rose each year; in 1969 it was 17 percent larger than in 1967. In 1970 such consumption dropped by 14 percent from the 1969 level. Thereafter, consumption rose again, and in 1972 it exceeded the 1969 level by 13 percent. The consumption of approximately 340 million square feet in 1972 was the highest recorded during the past 10 years. Shipments of domestic wall tile followed a generally similar pattern as consumption and were also at a record level in 1972.

Imports of wall tile from the Philippines first entered the United States in 1967; although such imports rose rapidly, they supplied only 1.6 percent of U.S. consumption of wall tile in 1972, the year in which the Treasury Department found LTFV sales of Philippine wall tile. Of the sales examined by the Treasury during February–September 1972; LTFV margins were found on only a part of Philippine tile sales to the United States. The penetration of the U.S. market by the LTFV imports was estimated to be less than 1 percent in 1972. The Treasury determined that, because of price revisions effected by the Philippine exporters, no Philippine wall tile had been sold in the United States at LTFV as of October 1972.

In 1972 when imports of ceramic glazed wall tile from the Philippines supplied 1.6 percent of U.S. consumption, imports from other sources supplied about 26 percent, U.S. consumption (an average of about 25 percent of consumption during the period 1967–71).

The domestic industry producing ceramic wall tile contended that it was injured or likely to be injured as a result of the concentration of imports of ceramic glazed wall tile from the Philippines into selected metropolitan areas of the United States. Official statistics, based on port-of-unlading data, show such a concentration in 1972; however, the magnitude of such imports relative to consumption or sales by domestic producers in these areas cannot be clearly identified. Imports from other foreign sources were concentrated in those metropolitan areas in a volume which far exceeded the volume of imports from the Philippines.

No injury by reason of LTFV sales. In 1972, when Treasury found sales at LTFV and when total imports from the Philippines had reached their highest level of U.S. market penetration of 1.6 percent, the U.S. wall-tile-producing industry did not show evidence of injury. The volume and value of domestic shipments increased annually from 1970 to 1972 as did employment and man-hours worked in the U.S. ceramic wall tile industry. The profitability of operations of domestic companies followed a similar upward trend. In 1972, inventories of some U.S. producers were depleted, and orders were being filled directly from their production lines, while some producers were compelled to allocate tile among their customers. As a matter of fact, the volume of imports from foreign sources other than the Philippines was greater and may have been the cause of any difficulties experienced by the U.S. wall tile industry. The Commission could not substantiate any evidence of sales lost by the domestic industry to Philippine wall tile imported at LTFV. The Commission also was unable to find clear evidence of any price suppression or depression by reason of LTFV sales of Philippine ceramic wall tile.[3]

No likelihood of injury by reason of LTFV sales. In determining no likelihood of injury to a domestic industry, by reason of LTFV sales of Philippine ceramic glazed wall tile, the Commission took into consideration the current health and efficiency of the domestic wall-tile-producing industry, the prospects of continued expanding U.S. demand for wall tile, the elimination of the dumping margins by the Philippine producers, changes in currency valuation, and the increase in the U.S. rate of duty on Philippine wall tile effective January 1, 1974.

Conclusion. On the basis of the foregoing, we conclude that a domestic industry is not being, or is not likely to be, injured by reason of imports of ceramic glazed wall tile from the Philippines sold, or likely to be sold, at less than fair value.

By order of the Commission.

[AA1921-129]

POLYCHLOROPRENE RUBBER FROM JAPAN

Notice of Investigation and Hearing

Having received advice from the Treasury Department on July 31, 1973, that polymerized chlorobutadiene, commonly known as polychloroprene rubber from Japan is being, or is likely to be, sold at less than fair value, the United States Tariff Commission on August 10, 1973, instituted investigation No. AA1921–129 under section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

Hearing. A public hearing in connection with the investigation will be held in the Tariff Commission's Hearing Room, Tariff Commission Building, 8th and E Streets, NW, Washington, D.C. 20436, beginning at 10 a.m., e.d.t., on Thursday, September 20, 1973. All parties will be given an opportunity to be present, to produce evidence, and to be heard at such hearing. Requests to appear at the public hearing should be received by the Secretary of the Tariff Commission, in writing, at its office in Washington, D.C., not later than noon, Friday, September 14, 1973.

Issued: August 13, 1973.

By order of the Commission.

[SEAL] G. PATRICK HENRY, *Acting Secretary.*

[TEA-W-206]

BOWER ROLLER BEARING DIVISION

Workers' Petition for a Determination; Notice of Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the workers and former workers of the Detroit, Michigan, plants of the Bower Roller Bearing Division of the Federal Mogul Corporation, Southfield, Michigan, the United States Tariff Commision, on August 10, 1973, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with roller bearings (of the types provided for in items 680.35 and 680.36 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed on or before August 27, 1973.

The petition filed in this case is available for inspection at the Office of the Secretary, United States Tariff Commission, 8th and E Streets, NW., Washington, D.C., and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

Issued: August 13, 1973.

By order of the Commission.

[SEAL] G. PATRICK HENRY, *Acting Secretary.*

[337-L-65]

CERTAIN ELECTRONIC AUDIO AND RELATED EQUIPMENT

Extension of Time

On July 30, 1973, the U.S. Tariff Commission published notice of the receipt of a complaint under section 337 of the Tariff Act of 1930, filed by District Sound, Inc., Washington, D.C., alleging unfair methods of competition and unfair acts in the importation and sale of certain electronic audio and related equipment (38 FR 20303). Interested parties were given until September 7, 1973, to file written views pertinent to the subject matter of a preliminary inquiry into the allegations of the complaint. The Commission has extended the time for filing written views until the close of business, September 30, 1973.

Issued: AUGUST 13, 1973.

By order of the Commission.

[Notice 335]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by Division 3 of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's general rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before September 17, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74343. By order of August 10, 1973, Division 3, acting as an Appellate Division, approved the transfer to Kobros Transportation System, Inc. Henderson, Ky., of a portion of the operating rights in Certificate No. MC-124951 (Sub-No. 32) issued January 18, 1971 to Wathen Transport, Inc., Henderson, Ky., authorizing the transportation of various commodities between, from and to specified points and areas in Alabama, Arkansas, Georgia, Illinois, Indiana, Kentucky, Louisiana, Michigan, Mississippi, Missouri, Ohio and Tennessee. George M. Catlett, 703 McClure Bldg., Fronkfort, Ky., 40601 Attorney for applicants.

[Notice No. 110]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 10, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

[3] Commissioners Bedell, Parker, Moore, and Ablondi observe that under the time requirements of this investigation the Commission was hampered by the failure of the domestic tile producers to make full and timely response to Commission questionnaires. As a result, the Commission has been deprived of information within the control of the U.S. industry relating to its contention concerning injury in regional market areas.

WATER PROGRAMS

Secondary Treatment Information

V 38 - 159 AUG 17 73 XUM

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER D—WATER PROGRAMS

PART 133—SECONDARY TREATMENT INFORMATION

On April 30, 1973, notice was published in the FEDERAL REGISTER that the Environmental Protection Agency was proposing information on secondary treatment pursuant to section 304(d)(1) of the Federal Water Pollution Control Act Amendments of 1972 (the Act). Reference should be made to the preamble of the proposed rulemaking for a description of the purposes and intended use of the regulation.

Written comments on the proposed rulemaking were invited and received from interested parties. The Environmental Protection Agency has carefully considered all comments received. All written comments are on file with the Agency.

The regulation has been reorganized and rewritten to improve clarity. Major changes that were made as a result of comments received are summarized below:

(a) The terms "1-week" and "1-month" as used in § 133.102 (a) and (b) of the proposed rulemaking have been changed to 7 consecutive days and 30 consecutive days respectively (See § 133.102 (a), (b), and (c)).

(b) Some comments indicated that the proposed rulemaking appeared to require 85 percent removal of biochemical oxygen demand and suspended solids only in cases when a treatment works would treat a substantial portion of extremely high strength industrial waste (See § 133.102(g) of the proposed rulemaking). The intent was that in no case should the percentage removal of biochemical oxygen demand and suspended solids in a 30 day period be less than 85 percent. This has been clarified in the regulation. In addition, it has been expressed as percent remaining rather than percent removal calculated using the arithmetic means of the values for influent and effluent samples collected in a 30 day period (See § 133.102(a) and (b)).

(c) Comments were made as to the difficulty of achieving 85 percent removal of biochemical oxygen demand and suspended solids during wet weather for treatment works receiving flows from combined sewer systems. Recognizing this, a paragraph was added which will allow waiver or adjustment of that requirement on a case-by-case basis (See § 133.103(a)).

(d) The definition of a 24-hour composite sample (See § 133.102(c) of the proposed rulemaking) was deleted from the regulation. The sampling requirements for publicly owned treatment works will be established in guidelines issued pursuant to sections 304(g) and 402 of the Act.

(e) In § 133.103 of the proposed rulemaking, it was recognized that secondary treatment processes are subject to upsets over which little or no control may be exercised. This provision has been deleted. It is no longer considered necessary in this regulation since procedures for notice and review of upset incidents will be included in discharge permits issued pursuant to section 402 of the Act.

(f) Paragraph (f) of § 133.102 of the proposed rulemaking, which relates to treatment works which receive substantial portions of high strength industrial wastes, has been rewritten for clarity. In addition, a provision has been added which limits the use of the upwards adjustment provision to only those cases in which the flow or loading from an industry category exceeds 10 percent of the design flow or loading of the treatment works. This intended to reduce or eliminate the administrative burden which would be involved in making insignificant adjustments in the biochemical oxygen demand and suspended solids criteria (See § 133.103(b)).

The major comments for which changes were not made are discussed below:

(a) Comments were received which recommended that the regulation be written to allow effluent limitations to be based on the treatment necessary to meet water quality standards. No change has been made in the regulations because the Act and its legislative history clearly show that the regulation is to be based on the capabilities of secondary treatment technology and not ambient water quality effects.

(b) A number of comments were received which pointed out that waste stabilization ponds alone are not generally capable of achieving the proposed effluent quality in terms of suspended solids and fecal coliform bacteria. A few commenters expressed the opposite view. The Agency is of the opinion that with proper design (including solids separation processes and disinfection in some cases) and operation, the level of effluent quality specified can be achieved with waste stabilization ponds. A technical bulletin will be published in the near future which will provide guidance on the design and operation of waste stabilization ponds.

(c) Disinfection must be employed in order to achieve the fecal coliform bacteria levels specified. A few commenters argued that disinfectant is not a secondary treatment process and therefore the fecal coliform bacteria requirements should be deleted. No changes were made because disinfection is considered by the Agency to be an important element of secondary treatment which is necessary for protection of public health (See § 133.102(c)).

Effective date. These regulations shall become effective on August 17, 1973.

JOHN QUARLES,
Acting Administrator.

AUGUST 14, 1973.

Chapter I of title 40 of the Code of Federal Regulations is amended by adding a new Part 133 as follows:

Sec.
133.100 Purpose.
133.101 Authority.
133.102 Secondary treatment.
133.103 Special considerations.
133.104 Sampling and test procedures.

AUTHORITY: Secs. 304()(1), 301(b)(1)(B), Federal Water Pollution Control Act Amendments, 1972, P.L. 92-500.

§ 133.100 Purpose.

This part provides information on the level of effluent quality attainable through the application of secondary treatment.

§ 133.101 Authority.

The information contained in this Part is provided pursuant to sections 304(d)(1) and 301(b)(1)(B) of the Federal Water Pollution Control Act Amendments of 1972, PL 92-500 (the Act).

§ 133.102 Secondary treatment.

The following paragraphs describe the minimum level of effluent quality attainable by secondary treatment in terms of the parameters biochemical oxygen demand, suspended solids, fecal coliform bacteria and pH. All requirements for each parameter shall be achieved except as provided for in § 133.103.

(a) *Biochemical oxygen demand (five-day).* (1) The arithmetic mean of the values for effluent samples collected in a period of 30 consecutive days shall not exceed 30 milligrams per liter.

(2) The arithmetic mean of the values for effluent samples collected in a period of seven consecutive days shall not exceed 45 milligrams per liter.

(3) The arithmetic mean of the values for effluent samples collected in a period of 30 consecutive days shall not exceed 15 percent of the arithmetic mean of the values for influent samples collected at approximately the same times during the same period (85 percent removal).

(b) *Suspended solids.* (1) The arithmetic mean of the values for effluent samples collected in a period of 30 consecutive days shall not exceed 30 milligrams per liter.

(2) The arithmetic mean of the values for effluent samples collected in a period of seven consecutive days shall not exceed 45 milligrams per liter.

(3) The arithmetic mean of the values for effluent samples collected in a period of 30 consecutive days shall not exceed 15 percent of the arithmetic mean of the values for influent samples collected at approximately the same times during the same period (85 percent removal).

(c) *Fecal coliform bacteria.* (1) The geometric mean of the value for effluent samples collected in a period of 30 consecutive days shall not exceed 200 per 100 milliliters.

(2) The geometric mean of the values for effluent samples collected in a period of seven consecutive days shall not exceed 400 per 100 milliliters.

(d) *pH.* The effluent values for pH shall remain within the limits of 6.0 to 9.0.

§ 133.103 Special considerations.

(a) *Combined sewers.* Secondary treatment may not be capable of meeting the percentage removal requirements of paragraphs (a)(3) and (b)(3) of § 133.102 during wet weather in treatment works which receive flows from combined sewers (sewers which are designed to transport both storm water and sanitary sewage). For such treatment works, the decision must be made on a case-by-case basis as to whether any attainable percentage removal level can be defined, and if so, what that level should be.

(b) *Industrial wastes.* For certain industrial categories, the discharge to navigable waters of biochemical oxygen demand and suspended solids permitted under sections 301(b)(1)(A)(i) or 306 of the Act may be less stringent than the values given in paragraphs (a)(1) and (b)(1) of § 133.102. In cases when wastes would be introduced from such an industrial category into a publicly owned treatment works, the values for biochemical oxygen demand and suspended solids in paragraphs (a)(1) and (b)(1) of § 133.102 may be adjusted upwards provided that: (1) the permitted discharge of such pollutants, attributable to the industrial category, would not be greater than that which would be permitted under sections 301(b)(1)(a)(i) or 306 of the Act if such industrial category were to discharge directly into the navigable waters, and (2) the flow or loading of such pollutants introduced by the industrial category exceeds 10 percent of the design flow or loading of the publicly owned treatment works. When such an adjustment is made, the values for biochemical oxygen demand or suspended solids in paragraphs (a)(2) and (b)(2) of § 133.102 should be adjusted proportionally.

§ 133.104 Sampling and test procedures.

(a) Sampling and test procedures for pollutants listed in § 133.102 shall be in accordance with guidelines promulgated by the Administrator pursuant to sections 304(g) and 402 of the Act.

(b) Chemical oxygen demand (COD) or total organic carbon (TOC) may be substituted for biochemical oxygen demand (BOD) when a long-term BOD: COD or BOD:TOC correlation has been demonstrated.

DEPARTMENT OF LABOR

Employment Standards Administration

■

Minimum Wages for Federal and Federally Assisted Construction

GENERAL WAGE DETERMINATION DECISIONS; MODIFICATIONS AND SUPERSEDEAS DECISIONS

V 38-159 AUG 17 73 XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions; Modifications and Supersedeas Decisions

General wage determination decisions. General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes these procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to general wage determination decisions. Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the Federal Register without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

CARGO SECURITY ADVISORY STANDARDS—DoT amendments relating to high value commodity storage 22388

COMMODITIES—

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

PROCLAMATION 4234

National Legal Secretaries' Court Observance Week

Title 3—The President

By the President of the United States of America

A Proclamation

When we think of our American judicial system we think most often of the judges, lawyers, court reporters, juries, clients, law enforcement officers and others who are a part of the courtroom scene. But often we fail to give proper recognition to the legal secretaries who make it possible for our judicial system to function effectively.

Highly trained and highly skilled legal secretaries make an indispensable contribution to the administration of justice in America. Because they work behind the scenes, however, many of these individuals have little opportunity for exposure to actual courtroom proceedings. Many believe that courtroom exposure of this type would enrich their understanding of their work.

To emphasize the desirability of courtroom experience for legal secretaries, the Congress has enacted House Joint Resolution 466, the 93rd Congress, which authorizes and requests the President to proclaim the second full week in October of this year as National Legal Secretaries' Court Observance Week.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week beginning October 14, 1973, as National Legal Secretaries' Court Observance Week. I call upon the people of the United States, particularly the legal community, to observe that week with appropriate activities.

IN WITNESS WHEREOF, I have hereunto set my hand this sixteenth day of August, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-eighth.

Richard Nixon

V 38-160 AUG 20 73 XUM

PROCLAMATION 4235

National Next Door Neighbor Day, 1973

By the President of the United States of America

A Proclamation

In recent years, our growing ability to travel and communicate across great distances has caused some loosening in those bonds of neighborhood and community which have always been fundamental to the fabric of American life. These ties have not snapped, however; they still exist. And we can contribute a great deal to the quality of our existence and to the vitality of our society by doing all we can to revive and strengthen the place of neighborliness in our daily lives.

We cannot expect to have good neighbors, however, unless we are ready to be good neighbors, to go out of our way to extend friendship and support to those who live near us. Each of us, after all, is our neighbor's neighbor—and the responsibility for building a happier, livelier, fuller life in each of our communities must rest, in the end, with each of us.

It was with these important thoughts in mind that the Congress enacted Senate Joint Resolution 25, 93rd Congress, which authorizes and requests the President to issue a proclamation designating the fourth Sunday of September, 1973, as National Next Door Neighbor Day.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby proclaim the fourth Sunday of September, 1973, as National Next Door Neighbor Day, and do call upon the people of the United States and interested groups and organizations to observe that day with appropriate ceremonies and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this sixteenth day of August, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred and ninety-eighth.

Richard Nixon

PROCLAMATION 4236

Women's Equality Day

By the President of the United States of America

A Proclamation

Fifty-three years ago, on August 26, 1920, the Nineteenth Amendment was certified as part of our Constitution, assuring that "the right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of sex."

The struggle for women's suffrage, however, was only the first step toward full and equal participation of women in our Nation's life. In recent years, we have made other giant strides by attacking sex discrimination through our laws and by paving new avenues to equal economic opportunity for women. Today, in virtually every sector of our society, women are making important contributions to the quality of American life.

And yet, much still remains to be done. American women, though they represent a majority of our population, still suffer from myriad forms of discrimination.

In the pursuit of equal rights for women, the Federal Government must take the lead and set the example. As I reminded the heads of executive departments and agencies in 1971, American women represent an important reservoir of ability and dedication which Government must draw upon to a greater degree. I therefore directed at that time that the Government demonstrate its recognition of the equality of women by making greater use of their skills.

Last year, with the enactment of the Equal Employment Opportunity Act of 1972, a strong new statutory base was provided for furthering equal opportunity for women in the Federal Government. With the help of this new tool, Federal agencies are now carrying out affirmative action plans to guarantee full opportunity for the advancement of women in accordance with their abilities. During the past two years, the number of women in the middle and higher grade levels of Government employment has significantly increased. And we are determined to do better still.

While we are making great strides to eliminate outright job discrimination because of sex in the Federal Government, we must recognize that people's attitudes cannot be changed by laws alone. There still exist elusive prejudices born of mores and customs that stand in the way of progress for women. We must do all that we can to overcome these barriers against what is fair and right.

Because I firmly believe that women should not be denied equal protection of the laws of this Nation and equal opportunity to participate fully in our national life, I reaffirm again my support for the Equal

V 38 - 160 AUG 20 73 XUM

Rights Amendment to the Constitution. This amendment can represent a giant step forward in achieving full equality of opportunity for all Americans as we approach the 200th birthday of our Nation. I hope it will be speedily ratified.

The Congress has, by House Joint Resolution 52, 93rd Congress, designated August 26, 1973, as Women's Equality Day, and authorized and requested the President to issue a proclamation in commemoration of that day in 1920 on which women of America were first guaranteed the right to vote.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby call upon the people of the United States and interested groups and organizations to observe August 26, 1973, as Women's Equality Day with appropriate ceremonies and activities. I further urge all our people to use this occasion to reflect on the importance of achieving equal rights and opportunities for women and to dedicate themselves anew to that great goal. For the cause of equal rights and opportunities for women is inseparable from the cause of human dignity and equal justice for all.

IN WITNESS WHEREOF, I have hereunto set my hand this sixteenth day of August, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred and ninety-eighth.

Richard Nixon

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 967—CELERY GROWN IN FLORIDA

Handling Regulation

This handling regulation establishes the quantity of Florida celery to be marketed fresh during the 1973–74 season, with the objective of assuring adequate supplies and orderly markets.

Notice of rule making was published in the FEDERAL REGISTER July 25, 1973 (38 FR 19914) that the Secretary of Agriculture was considering the issuance of a handling regulation designed to promote orderly marketing of celery grown in Florida. The proposal was discussed at a public meeting June 5, 1973, in Orlando, after being unanimously recommended by the Florida Celery Committee. This committee was established under Marketing Agreement No. 149 and Order No. 967, both as amended (7 CFR Part 967). This program regulates the handling of celery grown in Florida and is issued under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). The notice afforded interested persons an opportunity to file written data, views or arguments regarding the proposal with the Hearing Clerk not later than August 9, 1973. None was filed.

The regulation is based on the appraisal of expected supply and prospective market conditions for the 1973–74 season.

During recent years, annual celery production from the acreage planted in Florida and California without adverse weather that reduced output would have exceeded the capacity of the U. S., Canadian, and export markets. Florida's fresh market celery sales during the 1972–73 season were approximately 7.4 million crates. An estimated IDO acres were abandoned for economic or other reasons. Fresh sales totaled about 7 million crates in 1971–72.

The 1973–74 Marketable Quantity is record large, and will provide ample opportunity for the industry to market the maximum number of crates at reasonable prices to consumers. However, since the quantity of celery to be marketed is well above that shipped in any prior season, the industry may have to significantly increase its efforts to stimulate consumption and to attain a reasonable return to growers for their labor and investment.

Although the Marketable Quantity is the largest ever issued under the program, it still is nearly a half million crates smaller than the total Base Quantities of present producers. Further, if demand should fail to increase, present Base Quantity holders could be adversely affected economically. Therefore, in accordance with § 967.37(d)(1), no reserve is established for additional Base Quantities.

On the basis of the foregoing considerations, as well as industrywide trends in the production and sales of celery, it is believed this regulation is necessary to maintain orderly marketing and will tend to effectuate the declared policy of the act.

It is hereby found that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) notice was given of the proposed handling regulation set forth in this section through publicity in the production area and by publication in the July 25, 1973, FEDERAL REGISTER, (2) as provided in the marketing agreement and order, this regulation applies to celery marketed during the 1973–74 season, (3) compliance with this section will not require any special preparation by handlers which cannot be completed prior to the time actual handling of harvested celery begins, approximately the latter part of October, (4) prompt issuance of this regulation will be beneficial to all interested parties because it should afford producers and handlers maximum time to plan their operations accordingly, and (5) no useful purpose will be served by postponing such issuance.

It is therefore ordered, That:

§ 967.309 Handling Regulation: Marketable Quantity; and Uniform Percentage.

(a) The Marketable Quantity for the 1973–74 season is established, under § 967.36(a), as 8,796,555 crates.

(b) As provided in § 967.38(a), the Uniform Percentage for the 1973–74 season is determined as 95 percent.

(c) During the season August 1, 1973, through July 31, 1974, no handler may handle, as provided in § 967.36(b)(1), any harvested celery unless it is within the Marketable Allotment for the producer of such celery.

(d) No reserve for Base Quantities for the 1973–74 season is established.

(e) Terms used herein shall have the same meaning as when used in the said marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended, 7 U.S.C. 601–674)

Dated August 14, 1973.

D. S. KURYLOSKI,
Acting Deputy Director Fruit and Vegetable Division Agricultural Marketing Service.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Regs., 1973 Crop Wheat Supplement]

PART 1421—GRAIN AND SIMILARLY HANDLED COMMODITIES

Subpart—1973 Crop Wheat Loan and Purchase Program

Correction

In FR Doc. 73-14907, appearing at page 20237 for the issue for Monday, July 30, 1973, the table in paragraph (b)(3) of § 1421.489 which appears in the second column of page 20243, all of the "cents per bushel" figures should be "+".

[CCC Grain Price Support Regs., 1970 and Subsequent Crops Peanut Farm-Stored Loan and Purchase Supp., Amdt. 1]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1970 and Subsequent Crops Peanut Farm-Stored Loan and Purchase Program

The regulations issued by the Commodity Credit Corporation (CCC), and published in 35 FR 12706 (7 CFR 1421.280–1421.289), which set forth specific requirements with respect to the farm-stored loan and purchase program for the 1970 and subsequent crops of peanuts, are hereby amended to provide that, with respect to peanuts delivered to CCC under farm storage loans or purchases, the producer shall pay for the cost of inspection. This is consistent with the regulations governing warehouse-stored loans on 1973-crop peanuts (38 FR 18453) which provide that producers shall assume the cost of inspection of peanuts placed under such loans.

V 38-160 AUG 20 73 XUM

Section 1421.283 of the regulations is amended to read as follows:

§ 1421.283 Determination of type and quality of farmers stock peanuts.
